

# TVEP - The Clinical Experience

**Edited by Professor Emeritus Desire' Dubounet, IMUNE**

ISBN: 978-615-5169-20-5

# The SCIO is 85% to 95% accurate

---

**Abstract:** We have used the SCIO device for 4 years now and have seen over 3000 patients. The device shows reactivity profiles of the patient to voltammetric signatures of various items such as microorganisms, allergy items, toxic compounds, healthy tissues, vitamins, herbs, minerals, enzymes, homeopathics, and various other items. We have seen the accuracy of the reactions be uncanny accurate. This study will reflect the patient's profiles in our practice for over the last 3 years. As indicated in the title the device is very accurate.

**Key Words:**

CBR = Computerized Body Resonance scan = Scio

EPR = Electro-Physiological-Reactivity

Input = the known diagnosis eg Shingles. Chickenpox etc. (undisputable inputs have been used)

Output = What the Scio / CBR scan finds.

Purpose of study: To check the accuracy of the Scio INPUT measurement.

The HIV measurement had a long batch negatives. Using the older software. The newer one is basically 90% to 100% accurate.

**Author:**

Dr. Francois Theron

Medical degrees:

B.Med.Sci. (Medical Science) University of Pretoria. 1979

MBCbB Bachelor in Medicine and Bachelor in Surgery Univ Pretoria 1984

Dip. Fam. Med. Post Graduate Diploma in Family Medicine Univ. of Pretoria. 2002

**Research degrees:**

Ph.D. (Bioscience) 2010

D. Med. Sci. (Medical Science and Technology) 2010

**Assistants:** David Morisson (Kesa), male nurse operating the CBR scan was trained in Pretoria at The Quantum Alliance, Ms Jacobs, has a beginners certificate.

**Dr. Theron's Quantum Theorem:**

I have formulated a LAW for Quantum Energy and frequency devices as a yardstick to measure whether these devices actually work. It is called Dr T's Validity and Veracity LAW for Quantum Energy and frequency devices: It consists of two parts: the Input Law and the Output Law.

The Input Law: states that computerized body scanners need to reproduce the Input matrix, by comparing such to a valid data base.

The result would be valid if the Input is compared to a known database. The authenticity or veracity (trueness) of the printed out Input would be true, if the initial Input has been reproduced by the computer. (True: being the correct result . Valid: being the correct process followed, by comparing input to a valid data base.)

Eg. Chickenpox input, tested by the SCIO and Varicella Zoster is reproduced as a EPR.

The OUTPUT LAW states that Once a valid and true Quantum matrix can be recorded and reproduced as valid and true. Such a matrix can be manipulated.

In short: If a device can accurately record and reproduce the original Input matrix, by

comparing such an Input to a valid and true database, manipulation of such a Quantum Matrix, is possible.

In other words TREATMENT would then be possible.

In this study we have stayed away from the treatment or manipulation issue, as a valid and true treatment depends on the treatment and manipulation regime followed. (How long, what is being done etc.to manipulate the recorded Input matrix)

Another study would be needed to develop this hypothesis.

The importance however lies with the INPUT record-ability of a device. The Validity and veracity of the recorded input needs to be there ; to follow up to the OUTPUT LAW " ONCE A VALID AND TRUE INPUT MATRIX IS RECORDABLE: MANIPULATION OF SUCH IS POSSIBLE.

AS stated in Dr Theron's Validity and Veracity LAW for all Quantum Energy and Frequency devices. The validity and veracity of a manipulation, depends entirely on what is done, for how long etc.

#### **Scope of the study:**

This ongoing study is designed to verify the Validity and Veracity of the SCIO/CBR scanner's INPUT reproduction.

First we have to prove that the SCIO does reproduce a valid and true Input matrix.

Once that is clear, which it is, the Second part of the Validity and Veracity Law follows automatically.

A valid and true input recorded. (This Can be demonstrated.), means that such could then be manipulated, or treated.

Once the CBR scan operator became extremely good at the testing: the Scio results have been 90% plus.

In fact they are so accurate that we are picking up a new HIV strain?

Our lab blood tests at Ampath test for HIV 1 & 2

Elisa screening test.

With the Input confirming AIDs: some blood tests are negative. Yet the Scio picks them up as a RETROVIRUS, verifying a clinical diagnosis of AIDS. // This does not seem to be the Blank window of HIV.

I am seeing these results in patients who come from Somalia, Ethiopia and West Central Africa, Nigeria and Cameroon.

If the Input has a positive Retrovirus or TB printout, without Blood tests or positive sputum results at hand.., We checked whether the Clinical diagnosis however suggest TB or Hiv. (These results are marked for further study.)

Quantum Energy and Frequency devices are alive and doing well in mainstream medicine.

Cat scans: A cat scan is a CBR scanning device:

In its essentially a Computerized Body Resonance scanner. It has a valid and true database. It compares the input of bone and muscle etc.to a data base and reproduces such. Passing the Validity and Veracity law of Input.

MRI scan: These devices pass the Validity and Veracity Law. By matching an Input to a data base and reproducing a valid and true matrix.

The Scio is the same. If it measures the Input matrix correctly. . The process is valid and true. The output and treatment is thus a separate issue of regimes and treatment protocols.

Dr Theron's Validity and Veracity Output Law states: that once a valid and true Input matrix is recorded; manipulation and treatment is possible.

The Scio thus passes all the Input and Output Law. Of Validity and Authenticity. (Veracity)  
The Scio is thus a valid and true DIAGNOSTIC TOOL in mainstream medicine.

As it passes both the Input and Output laws of Dr. T's Validity and Authenticity LAW of Quantum Energy and Frequency devices.

From: Larry & Maria

Reg: Lung pictures before and after EFPX-SCIO

06-15-----06-28-2006

Hello:

We have owned and operated the QXCI-EFPX-SCIO for over 2 years and have several people and animals that are very happy with the results.

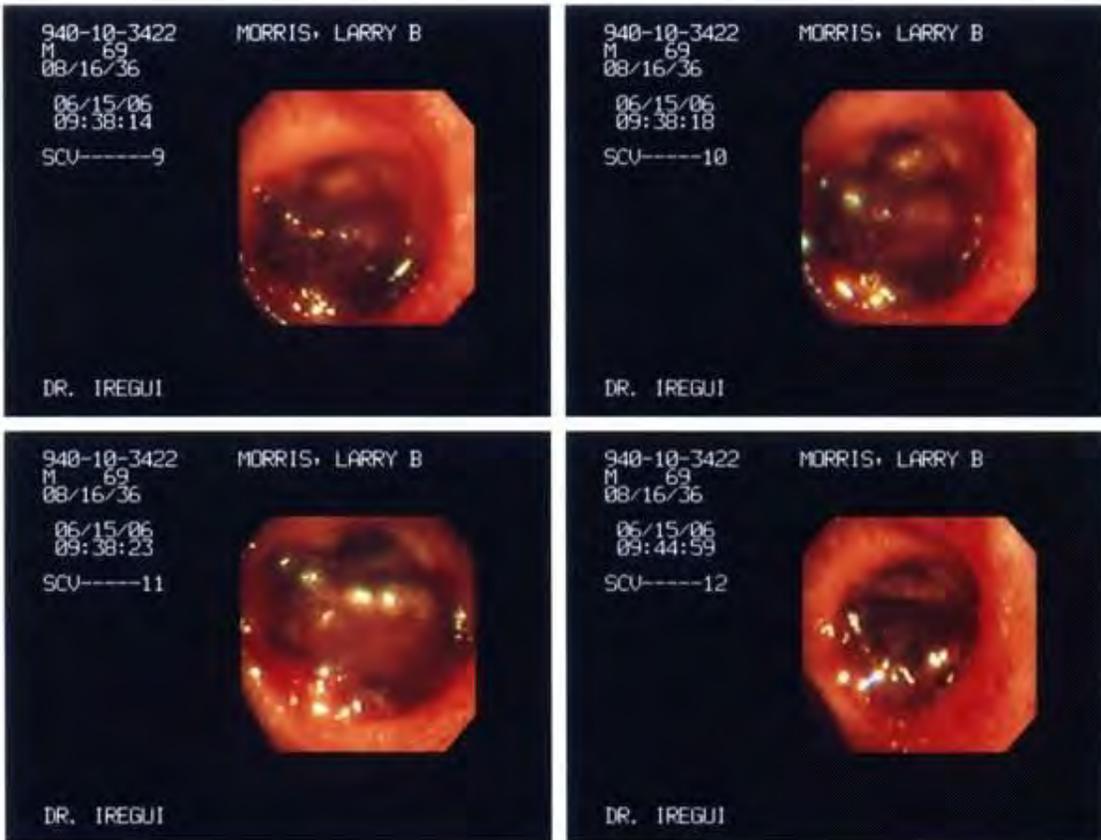

On 06-15, this year after a few days of spitting up blood, my Doctor sent me to a Pulmonary Specialist and they on the said date went down into my lung through my throat and took the above picture related to as "before". The Doctor called in another Specialist who there are only three in the State of Washington where I reside, and this Doctor after viewing a Cat Scan, and other X-rays of my chest, and the mentioned lung picture, stated that he would have to go into my lung in the same manner as was done on 06-15, and use electric fire and burn away the tumor to see what was behind the said matter. He advised me of the dangers. Also that it was believed to be the C word. Between 06-15 and 06-28-06 myself, my wife and a friend with a SCIO worked on my lungs.

On 06-28, the Doctor went into my lungs and took the second picture and was astonished that there was nothing there.. I had told him that the blood coming from my lungs had stopped.

I certainly credit the SCIO and I believe it is a wonderful tool for all living creatures and for my good fortune to having been introduced to it and above all, following through with owning one.

Respectfully yours, Larry and Maria

RML

Hi again. Just a note to follow up on the lungs. On Oct. 20<sup>th</sup> I did a follow up CT Scan for the Pulmonary Doctor on my lungs and he gave me the good news that everything is fine and only scars where the tumors had been. No tumors now. Just to let you know that we credit the QXCI-SCIO for the good news. I have been doing weekly follow ups on the SCIO. Happily Larry....

**The following are a collection of testimonials. The name of the patient has been removed and only the city or state (if known) is shown. These testimonials were received from December 19<sup>th</sup> 2007 until January 3<sup>rd</sup> 2008.**

1999 2 Budapest Hu.

A 48 year old man presents with Alzheimer's. After one session the Alzheimer's starts to abate. After just three sessions the Alzheimer's is gone.

2000 4 USA

My son was diagnosed with autism. After four months of EPGX therapy he has been mainstreamed. Taken out of LD classes and put into normal classes. The doctors say he must have never been autistic, even though he clearly was. They say he could not have had autism, because there is no cure for autism. Small minds. Thank God for Dr. Nelson.

2000 10 Romania, Oradea

A 47 year old woman is diagnosed with a tumor in her breast. She has five sessions on the SCIO and the tumor is gone.

2001 3 San Jose CA. RE

A baby was born with the left ear shriveled and distorted. Doctors said that after two weeks nothing could be done. After two EPFX therapies, the next morning the ear was normal.

2001 4 Romania, Oradea

A 44 year old woman is diagnosed with a brain tumor. She has five sessions on the SCIO and the tumor is gone.

2002-6 Hamburg, Germany, report from BW

A 35 year old woman presented to a SCIO therapist with a large grapefruit sized tumor 40cm on her left arm triceps area. She was told by her family doctor and his cancer experts, that the tumor on Xray had tentacles wrapping all the down her spine. Thus it was inoperable. After two sessions on the SCIO in one week, she was grocery shopping and the tumor and all of its tentacles dropped off of her body. this large octopus she described hit the floor and split into many pieces. She bled profusely and was taken to the emergency by paramedics. After transfusions, the doctors were amazed that the cancer and all signs of it were gone.

2002-6 Shigishoura Romania

A 35 year old man presents with headache. Doctor scans show a 5 cm lesion in the parietal lobe left. The doctors assume that there is cancer. The SCIO system reports no cancer, but rather a parasite. The man gets chemotherapy and dies. After death the autopsy shows no cancer, but a worm parasite is found.

2002-8 London England

A 45 year old man with a 33 cm tumor in his upper right chest, gets SCIO treatment. After three treatments the tumor starts to shrink. Ten treatments later the tumor is gone.

2002 10 Romania, Oradea

A 27 year old woman is diagnosed with a tumor in her breast. She has four sessions on the SCIO and the tumor is gone.

2002-11 Stockholm Sweden BH

A small girl aged 8 has an inoperable brain tumor. She is losing energy from the chemotherapy, and doctors say she has little time left. She is on the SCIO for the first time and she reports some pain on her limbs during treatment. The therapist reassures her that as the life returns she will have some pain, just like there is some pain when blood returns to your arm after it is asleep from you sleeping on it. After two sessions her life and vigor return. After four sessions she is normal and goes for cancer scan, all cancer is gone.

2002 5 Romania, Oradea

A 32 year old woman is diagnosed with a brain tumor. She has ten sessions on the SCIO and the tumor is gone.

2003-1 Athens Greece

A 23 year old woman has an inoperable tumor in her liver. After Five treatments with the SCIO the tumor is not detectable.

2003-7 Georgia USA HT reporting

A woman aged 44 developed gangrene on her left arm. The limb was dried and lifeless. Doctors insisted on removing it. She used the EPFX twice a week for two months and the arm gradually responded. Life returned as did all function after just three months the arm was normal.

2003 10 Romania, Oradea

A 29 year old woman is diagnosed with a tumor in her breast. She has five sessions on the SCIO and the tumor is gone.

2004-2 Virginia, U.S.A.

A boy aged twelve has a tumor growing on his face. The parents take him to an EPFX therapist and after

just 4 weekly sessions the tumor is smaller by 50%. Two sessions two months later, the tumor is gone.

2004 7 Romania, Oradea

A 48 year old woman is diagnosed with a brain tumor. She has five sessions on the SCIO and the tumor is gone.

2005- Las Vegas, NV. report PD

A 17 year old boy was the star quarterback of his high school team. He injured the arm during practice. The doctor found extreme nerve damage. He did not respond to any therapy. Drug therapy, physical therapy, were all not helping. The boy went to a EFPX biofeedback therapist and after just two visits the arm was better than before.

2005-1 Budapest Hu.

A 19 year old woman has an inoperable tumor in her liver. After six treatments with the SCIO the tumor is not detectable.

#### QUANTUM XRROID REPORT

Feb 3 2006

CC: Left axillary breast cancer recurrence with drainage from a whitish 2 lesion in left axilla with some pus drainage of yellowish color slight odor, no fever, some pain esp. around swelling of edema in armpit, with no hand puffiness. Some stiffness of neck with ONE SMALL LEFT NODE

PMH: Ectopic pregnancy, G3P2A1, menopausal

Breast cancer IDCIS left nipple duct in 2000, treated with lumpectomy, followed with no chemo or radiation, then 1 year on, 1 year off Herceptin, then again Sept 05 to Jan 06 recently stopped for risk of heart protection and fear it's not helping. Past lymph node biopsy done Sept 2005 and reconfirmed another nearby location of infiltration with positive breast node biopsy for H2 receptors. Negative CXR< Neg. bone scan, negative liver renal ultrasound, Simon MUGA test of heart 73% pumping capacity'

PMH: fall age 50 with whiplash neck, arm, shoulder right sided soft tissue injuries, fell on tailbone with back and head injury no LOC

No diabetes, no htn, hx of hypoglycemia

Travel: North America, South America to Argentina, Chile , Hawaii, Caribbean, Vienna, hiking in Austria in unclean moldy place, became ill after swallowing shower water, next day with lump in stomach and couldn't breathe with sweats and chills ,central Europe, HX of ANA elevated. noise sensitive On exam alert afeg NAD with sl yellowish skin tone without sclerosis with no jaundice with bp 117/2 P 78 R 14 T 36.8

Meds: Herceptin 110 mg iv weekly just stopped after 6 months

Aromasin 30 mg po od

Allergies: tobacco smoke, fume sensitivity, food allergies

Chest clear CVS N hs no mgr nppp no soa, gi soft nontender with swollen spleen and left axillary swollen drainage breast cancer with no impetigo no CVT no thyroid goiter, but brawny copper skin

Gait normal, reflex normal, down going toes, dry skin, moonless nails, mild heberdon nodes of distal phalanx PIP.

assess: Stress pain and relaxation needs for cancer patient, rule out prolactin abnormalities from food poisoning or occult parasites which alter tyrosine copper zinc ratio causing thyroiditis, breast duct over stimulation, mood disturbances, hyperacoustic hearing stuttering, tired adrenals.

Plans; SCIO scan to detect stress bioresonance

Treat pinworm with vermoz 100 mg bid x 3 days rx5, treat tapeworm with biltricide 600 mg po tid, psyllium gluten free diet, add bioflavonoids coq6-10, rest, fluids follow up blood work, see fam doc

After four sessions the breast lesion is gone.

2004 Washington D.C.

I had a tumor of the large intestine that had metastasized to many parts of my body, including the bone, pancreas, and lymphatics. Doctor gave me months to live. I was on the EPFX for just two sessions when I could feel improvement. The subtle electrical stimulation seemed to stimulate my energy level. After ten sessions the cancers were reducing. I could feel my body defeating them. Doctor Nelson is an angel who has developed a device that can electrically activate the immune system of the body. A safe, effective, and inexpensive device that has many exciting potentials. But because it is drugless I fear that the drug companies will attack him. Dr Nelson please do not give in. Fight for us.

81 year old male, sent to therapy by his companion, has become less angry, more interested in his companion and his surrounding neighbors and community activities. More active, listening more, drinking less. Companion insures that he has an appointment at least once a month because he has become a better companion to her.

Lakeview, ARKANSAS.

I would like to share stories of two separate clients and the benefits they have experienced as a result of sessions using the EPFX device.

The first client is a 77 year old woman who was experiencing extreme, debilitating pain in one of her thumbs, lower back pain and radiating pain in both hips. After 4 sessions with the EPFX over the course of 6 weeks, she reported that the pain in her thumb was gone as was the pain in her hips, and the pain in her lower back was lessened both in frequency and intensity.

The second client is a 38 year old male who had had extreme and debilitating back pain for nearly a week. His chiropractor refused to adjust him because he was too inflamed and he was on pain medication which provided him with nearly no relief at all. He said he was so desperate for relief that he would "try anything". We did one session with the EPFX device and his back pain disappeared. Now 3 months later, his back pain has yet to return.

In my experience, the EPFX has proven to be a profoundly effective tool in the management and relief of pain and stress.

City unknown

I am working with the SCIO-System since 4 years. In my practice my patients are mainly chronically ill patients with e.g. following diseases:

Auto aggressive diseases like ALS, Multiple Sclerosis, Crohn Disease,

Colitis Ulcerosa, Lupus e.,

Chronically digestion Problems

Rheumatism, Fibromyalgia, Spinal Column Problems,

Various Cancer Diseases like Lung Cancer, Mammary Cancer, Leukemia,

Stomach Cancer, Liver Cancer,

Neurologically Diseases like ADS, Depressions, Trauma, Brain Injuries,

Allergies

Skin Diseases like Neuro-Dermatitis, Psoriasis

Migraine

I have used the SCIO to measure my patient's reactance to many various items which electrical patterns are digitally stored in the system. These reaction-data have been very important and helpful for me to make my final medical diagnosis for the patient.

I can state that these evaluated data of SCIO-System have been very accurate and very valuable to confirm my diagnosis.

I have used the device for therapy on my patients and it is highly accepted from them, because it is safe, showing no side-effects and is non-invasive.

The SCIO-System treats the body's electric in a safe biofeedback way which helps the body to reactivate its body's own healing capacitance to finally come back to a well-functioning body-regulation-system.

It might appear a little futuristic if you do not know the background of the system, but if you would take the chance to look a little deeper, I am sure you would agree on its scientific validity and benefits.

Bottrop, Germany

About 2 years ago, I was in great pain, severe headaches almost every day. I was tired all the time even after sleep. I woke up with stiff neck and muscles. I was taking Tylenol, Advil in great quantity and was not getting better. One day when I could not take the pain anymore my sister advised me to go to a QXCI practitioner. After the 1st session, I could not believe it, the pain was gone 80% and for the week I did not have the severe headaches. I continued to go for 2 more sessions after which I decided to buy the QXCI and to distress myself and my family. I feel much better now and more energy and having great results with other members of my family. I Thank God and Professor Bill Nelson for QXCI!

City unknown.

I have had many many positive results with patients on the QXCI and would like to describe a few in the following examples:

56 year old man with long history of 3 bouts of cancer, radiation and chemo treatments. Arrived with chronic severe lower back pain from his last surgery two years previously. After one 60 minute treatment on the QX the patient stood up and was totally pain free for the first time in two years. The effects lasted approximately 5 days and then we continued with another treatment with the same success. The time between treatments grew longer and longer. The patient was very happy with the results and referred several more people into the clinic.

24 year old woman - postpartum 5 months. Arrived with husband in postpartum depression. Treatment took approx. 90 minutes with complete success. The husband came back later that day to ask me if the machine had made his wife grow because she "seemed talker". No further treatments were required and the patient ended up working part time in this field.

50 something fibromyalgia patient came for treatments. Within two treatments the woman was back to work and sleeping through the night and started to socialize again. She then brought everyone in her family into the clinic to get treatments on the QX.

London, Ontario Canada

I purchased the device 2 years ago after a LONG journey with Lyme disease. I use it on myself and feel it is an extremely important tool that assists me in balancing my stressors and helps me prevent "recurring/relapses" that are often part of the "picture" of Lyme disease.

My brother was then diagnoses with Barrett's esophagus (he had severe digestive troubles for many years) and developed severe arthritis. He rarely goes to physicians. He is retired military and was finally persuaded to go to the VA hospital. Fortunately he was well treated (physically and emotionally) and returned home.

He then came to see me and experienced EPFX. He is quite "skeptical" of my holistic health focus but agreed none the less (he has been impressed in the improvement in my health during the past 2 years). He was amazed. . . . He said he couldn't not remember the last time he felt "this good". And returned home to "rave" about it to his wife.

A year later he was "scoped" to monitor the Barrett's esophagus, and was told there was no sign of it. In addition to EPFX, he made dietary changes and utilized nutritional supplements. The EPFX helped him see the value in addressing all aspects of health, mind, body, spirit and emotion that I doubt he would have otherwise even considered.

I have VERY strong feelings about being an American and having FREEDOM of choice. My brother served in the Army for 23 years and "fought" for this right. WE MUST include the EPFX and holistic health as our right to choose the health care that is in alignment with each individual's belief system.

Thanks you, Dr. Nelson, for all you do and have done to provide this "state of the art" device and wisdom to us.

Mississippi, U.S.A.

A 58 year old lady from Vancouver BC had Rheumatoid Arthritis in the hand joints. She had suffered from pain in her joints for the past 10 years and had tried many forms of therapies with little results. She came in one day a little sceptical but wanted to try biofeedback for stress relief. During the biofeedback session I had her wrap her hands in the small pad that I have and continued the biofeedback session. After the first biofeedback session she was amazed at how easily she could move her fingers and wrist without pain. Needless to say she has become a regular client and she is experiencing less stress in her body and enjoys using her hands without experiencing pain.

Vancouver, Canada

I am a EPFX/SCIO practitioner from Paris. I bought the EPFX/SCIO device because of my own health condition. I was diagnosed Multiple Sclerosis in 1993.

I have consulted neurologists in Ottawa (Canada), Paris (France), London (UK), Chennai (India). All had the same answer..... *«There is nothing we can do for you ...Your condition will continue deteriorating gradually.....Please come back when your situation get worse.....*

Since 1993, I tried to manage the degeneration of my condition with natural therapies. I had some good results comparing to other MS patients but my condition was still deteriorating. In summer 2005, I discovered the EPFX/SCIO and my whole life changed. I give myself a EPFX/SCIO treatment once a week. After 2 years, I can affirm that my condition is NOT deteriorating any more. My memory is back, chronic fatigue symptoms decreased a lot, I have very much less pain, etc. All is not perfect yet. I still need a stick for walking but I feel so much better.....100% much better. I am working now with the device on regenerating my organs and nerves. I am sure that I will be able to report that regeneration works .

With the EPFX/SCIO, I am fully in charge of my health condition! The EPFX/SCIO changed my life!  
Thank you Professor Bill Nelson!

Paris, France

I first got involved with the device when a friend of mine called me to get hooked up. She knew I was having a terrible time with my shoulder and seeing a chiropractor twice a week for (by then) three weeks. The pain was unbearable and I couldn't even sleep on that side. I finally told my Chiropractor that I couldn't stand to come and see him anymore. Then I got Mahrukh's call. I went to see her and after one session I could actually comb my hair again as I had regained some of my range of motion. The pain was finally bearable. I actually bought a device pretty much right away and have not looked back. I called my Chiropractor and told him I had been doing the Biofeedback and asked if he would just give me an evaluation as to whether I could go back to working out again. He gave me the A-Okay. I have received my Certified Biofeedback Specialist accreditation and am helping many, many more people with similar and some with much more complicated circumstances. The science is fantastic and proves the body truly is capable of restoring when handled with respect and by paying attention to what the body is telling you.

City unknown, Canada

I first heard about the EPFX/SCIO about four years ago. My father, who is very conservative in his health care approach, was having a terrible time with low back and sciatic pain. He knows many people who have had back pain; they chose surgery, only to end up with more pain and more disabilities. He was determined to avoid surgery. In the meantime months of pain opened his mind to alternative ways to help his suffering. He wrote me to tell me he had found an EPFX/SCIO practitioner and that after three sessions, he was pain free.

Having chronic pain in my neck and shoulders for over 25 years I was very anxious to learn more about his treatment. I made an appointment and after the first appointment I too was relieved of this chronic pain. I had tried everything (only alternative) I could think of to heal this pain. I am pain free to this day, this was over three years ago.

I knew on the spot that I would become a practitioner and I thank God every day for this amazing technology. I thank you for your amazing contribution.

As president of the Transylvanian Association of Integrated Quantum Medicine (Asociatia Transilvana de Medicina Integrata si Cuantica) and as Headmaster of Medical Center Tongtian, I have researched

and have used in my daily clinical practice the EPMX Electro- Physiological Feedback Xrroid/SCIO Universal Electrophysiological System for nearly 10 years (1997).

The device has been registered with the Health Ministry as a medical device. Our association also implemented the term : EPTRR (electrophysiological test measurement of resonant reactivity) in order to clearly distinguish it as a medical Para clinical method.

In the clinical practice at Medical Center Tongtian, we used it as such, a device to measure patients' reactance to many items. These data has been very skilful in helping us to formulate medical diagnosis in different difficult or borderline cases as : nerval degenerative diseases, genetic and metabolic rare diseases, latent infections etc. Our multilateral trained MD was only competent and capable to formulate the diagnosis, not the device and the software, but the machine's input has been very valuable.

More than 3000 patients with different diseases have been measured and treated by hand of this method and outstanding original concept of unconscious evoked potentials and more than 30GB research data have been gathered on the effectiveness and correspondence of EPTRR( by hand of SCIO/Universal Electrophysiological System) with current advanced research data in genetics, emerging infectious diseases, immunology, neuro-endocrinology as well as with current clinical and ethiopathological trends in modern medicine.

Because of its complex software we used also its therapeutical facility and found it to be both safe and effective. Treating the body electric in this safe biofeedback fashion ,in real time after reactivity testing and diagnosis, has meant also a step in advance for curing and balancing different clinical aspects of human pathology.

It might be avant-garde to those conventionally trained but confronting EPTRR and other conventional investigational methods individually in many cases was convincing for a lot of open minded other physicians who agreed about its scientific validity and benefits. In comparison to other electrophysiological measurement methods this one meets also the double blind criteria for scientific medical research.

I am writing this letter as a peer group member and in the name of our medical members who are promoting and supporting the EPMX and SCIO Device.

City unknown, Romania

Almost one year ago I had to rush my mother to emergency because she was passing blood. After spending few days in the hospital when I thought that this situation had been under control the doctors decided to have a meeting with us. My mother had two blood transfusions and her hemoglobin could not be stabilized. The bone marrow test was done and the results were not final but very negative.

When the doctors decided to discharge her temporarily till all the test results were coming in I thought that was a great mistake.

How will I cope with all the trauma, when she was receiving morphine in the hospital, she had chest pain, her spleen was extremely enlarged and on top she was developing shingles witch that alone was a very painful experience. I had no time, emotionally I could not cope seeing my mother going so fast. The only chance I had in this very difficult time, I remember that in September I was introduced to Quantum energy and being a very busy person, I thought this is great news but I had so many seminars to attend, that I was preserving my learning capacity for those events. Nevertheless few months down the road I was facing the greatest tragedy of my life suddenly I was losing my mother without having even the time to prepare for it. My intention was if I can buy one month at least I can prepare emotionally. In this difficult time I decided that my mother should try Quantum Energy. My mother got discharged on January the 30eth 2007 that was a Tuesday and I managed to book an appointment for the next day with a practitioner. The traveling was long but I made the commitment to give it a try. Even thou that day driving alone with my mother toward the clinic I had another emotional experience, because my mother was in excruciating pain because of the shingles, in a moment of silence I thought that I lost her. Finally I found my way to the place witch had brought a great hope and joy to our life, that today a year later my mother is alive she is 70 years old and she is living on her own. Actually she traveled alone back to her country, leaving Canada to go back to Romania is not a short trip. Thank you professor Nelson me and my family we are very grateful for this scientific accomplishment.

City unknown

My first experience of having a Quantum session was quite amazing.

I had not said anything to the technician that my eye sight was cloudy when I would look in the distance. I had been telling myself that I should go to the eye doctor and see what he would have to say about it. But that wasn't even a concern that day of my session, and I never mentioned it, or even thought of mentioning it to her.

Anyway the next morning my eye sight was clear and has been since. This is about 4 years ago. I researched this and found that this was one type of a cataract. And because of this, I researched the device and had one session a month for 6 months before buying a device for myself.

I also had eye floaters and they are gone too.

I have fibromyalgia. It has been 4 years that I have had my device. When I overdo muscles with cleaning windows, painting and etc. it would take me about a week to work out the pain using my hot tub and then applying essential oils at bed time.

Now I don't feel any stress caused by pain the next day when I use the hot tub, oils and do a session on

myself before going to bed.

I had colon cancer 8 years ago followed with 6 months of chemo. I had awful chemo brain fog. My head felt awful and my concentration was really bad. I gained 35 pounds in 35 weeks. My joints were so painful that I would cry. I was dizzy and I couldn't stand the humid weather. I tried a couple drugs but they made me feel worse. I then found coral calcium and took a mega dose of it for 6 weeks and in 3 weeks my sore joints were all gone and my weight gain quit as soon as I started the coral calcium. I started on a mega dose of oxygen drops and my dizziness went away in about one month, and my body felt much better from my fibromyalgia. This was because the oxygen drops helped with the lack of oxygen to my brain (my dizziness) and with fibromyalgia, which I have read is one cause of lack of oxygen to the tissues.

But my concentration and memory was still very bad when I got my device. I was scared!

When I started working on my stress in the NLP panel the rectification numbers were way down in the teens and single numbers, and they went up and down, up and down, in that area for several sessions before going higher and higher. I also had many stressed areas of the brain. It took me 10 months to clear the stress. Each month I think back at the month before how I felt, and I knew I am making improvements each month, with all my stress. I often wondered if the brain would of been the place my cancer would of returned if it weren't for all my natural health.

I also take **a lot** of wholefood supplements. I still take my oxygen drops every day. I take only 1/4 of a sleeping pill which I got hooked on them when I had chemo. But I'm down to just 1/4 of one.

I have not doctored with any health problems for 4 years.

I have had some nerve problems in my arm when I would drive in the car and my arm would rest on the door handle arm rest area to long. When I get it, I do a session and the pain is gone the next morning. It is longer and longer between times when I get it now.

Years ago I would get neuritis (Pain)in my head when we would go snowmobiling and I would have to go in and get a shot for it. Last winter I got it just from going without my head being covered in the cold (Minnesota winters). Well I did stress management for it and in 3 days it was all gone.

I would get a bad sinus infection every winter and would sometime have to take a couple rounds of antibiotics. I have not been to the doctor with that problem for several years. I also use essential oils for it. Since I got my device, my nose does not run all the time like it used too.

My husband had a sty that would come and go quite often, several times a year. When addressing that stress with a stress management session, it was gone the next morning, and it's been over a year, and it has not returned.

A friend of mine put her back out lifting on a client of hers. She had been to the Chiropractor twice and Massage therapist twice. She then comes to me on a Sunday afternoon. She was experiencing a lot of stress due to pain. She could hardly walk up my steps and it was very painful for her to sit and stand up

again.

The next morning she was pain free with just a sore spot - to the touch- in one area of her behind.

City unknown

I am working with the SCIO-System since 2 years.

In my practice my patients are mainly chronically ill patients with e.g. the following diseases: Spine problems, slipped discs, unable to sleep, parasites, attached from perverse energy, allergies, cancer, problems in the intestine (doctor did not find the reason), chronic fatigue.

I have used the SCIO to measure my patient's reactance to many various items which electrical patterns are digitally stored in the system. These reactance-data have been very important and helpful for me to make my final medical diagnosis for the patient.

I can state that these evaluated data of the SCIO-system have been very accurate and very valuable to confirm my diagnosis.

I have used the device for therapy on my patients and it is highly accepted from them, because it is safe, showing no side effects and is non-invasive. The Scio-system treats the body's electric in a safe biofeedback way which helps the body to reactivate its body's own healing capacitance to finally come back to a well-functioning body-regulation-system.

It might appears a little "futuristic" if you don't know the backgrounds of the system, but if you would take the chance to look a little deeper I am sure you would agree on its scientific validity and benefits.

Munchen, Germany

In previous months I was unable to chew anything using the left side of my mouth without a jolt of extreme pain shooting down to my toes. My dentist could find nothing wrong with the teeth and recommended I see a specialist about getting a couple of root-canals done. Two molars, one upper and one lower, would need to be fixed.

I decided to try bio-feedback first as an alternative to the surgery. After just two sessions I was once again able to chew food on the left side of my mouth without the pain. I did, however, still experience hot/cold sensitivity when drinking fluids. I continued the treatments with bio-feedback and after a few more sessions the hot sensitivity went away and only cold sensitivity remains, but not nearly as bad as it used to be. It was tolerable. I look forward to more treatments to get rid of the sensitivity all together and then we can tackle some of other issues I have.

City unknown, Canada

I am so grateful to have been able to purchase the EPFX SCIO. I have so many incredible stories, I will share a few snippets:

When I moved into my office I offered free half hour sessions to the people in the building. The first gentleman that came in was not a 'health enthusiast' and came in and sat down with crossed arms and a scowl on his face. I thought 'this is going to be a long day, these people are not really on this wavelength.' I noticed that one of his highest reactive numbers was for 'radon.' So I asked if he knew why he might be reactive to a gas. He started to smile and sit up straight and uncross his arms. He said, "I have a fake fireplace in my apartment and I thought I lit it last night. After 20 minutes I smelled gas and realized that it hadn't lit. That is a magic machine that it could detect I was exposed to gas. If I hadn't known it, you could have just alerted to me to a possible real problem. Thanks so much."

I was doing an open house and the young girl that was selected for the model started telling us that she has an active brain tumor, cancer, had recently had brain surgery. Oh my, I was feeling scared doing this in public with my projector. I know you don't like us not filling in the SOC, but for the demonstrations we find it is good to show that we don't 'tell the device' anything and yet it shows the stress in the system. So the audience and I knew her history, yet none of that was listed in the EPFX. When I opened up the Bodyviewer and selected 'unconscious choice' this is what came up: Brain, tumor, tumor reducing. We all just sat there with our mouths open in amazement as the device was showing us exactly what the young girl had just told us was her diagnosis!

City unknown

I had a patient with a heart valve transplant who got progressively worse after the surgery. The dramatic change occurred when I did the dispel 2nd brain wave from the NLP panel. She started clutching the area near the incision, (said that was where the pain started after the surgery), broke out into a cold sweat and then within minutes said she felt like her "old" self (before the operation). I had seen the client before the surgery, at which time she was 5'9" and weighed 130#. Now, 1 1/2 years after the surgery, she had gained 60 pounds, was attracted to different and unhealthy foods (just like Paul Pearsol described in the Heart's Code), her skin color had changed (not in a good way), etc. And within minutes after the "dramatic" moment, her old skin tone returned. She emailed a few days later that she was feeling great.

City unknown, U.S.A.

I had a client that was going to be scheduled for surgery to remove a cyst from her ovaries that was the size of a lemon and she also had carpal tunnel, diagnosed from her doctors. I worked on the stressors of

the female hormones and ovaries and also the stressors in her arms and shoulders. She didn't even mention the arms, but I saw her braces and worked on them.

She told me her arms felt better before she left my office that day and her stomach pain went away. She came one more time and 1 month later she saw her doctor and they did an ultra sound and the cyst was down to the size of a dime. That was in 2004 and she has not returned and neither has the cyst.

Minneapolis, U.S.A.

A 7 year old with medically pre-diagnosed rheumatoid arthritis came into my office in severe pain. She was unable to move without major discomfort, playing with any mobility, bike riding and running were out of the question. Even sitting was agonizing and she sat the majority of her time reclined. Using the EPFX to attempt to rebalance her stress she showed continual progression in her improvement. By looking at imbalances in minerals, vitamins, amino acids, and fatty acids her mother was able to make some lifestyle changes in the child's eating habits to help her balance those frequencies. After 8 visits the child's knees, which were equivalent to very large grapefruits in size, had reduced to normal dimensions and other inflamed areas and joints had also gone to a more normal size. She was now able to go out biking and playing with her siblings and school friends. The mother reported that the doctor did not know what was happening, but that he was ecstatic and as she quoted "whatever you are doing please keep doing it for her, it seems to be working."

Shortly after this time her aunt decided to purchase a device and the child's biofeedback care was turned over to her. I saw the children and their mother a month ago and she is looking healthy and is no longer in pain according to the mother. Another success story using biofeedback.

I am not an expert in the field of AIDS or HIV but I received a 56 year old male homosexual client in need of help. He was determined to use natural methods, supplements and stress reduction of massage and biofeedback to maintain his health and keep his HIV at bay. He decided to use the biofeedback therapy every other week and has done so for over a year. During this time it has been interesting watching his imbalances; when there are more he informs me he is under more stress at work, when the numbers are more balanced he informs me it's been a very relaxing period in his life. He has continued to amaze his physician and his counts continue to improve. Under one very stressful period his counts decreased and he added homeopathics which were to help with balancing his thymus and came in for his normally scheduled visit. He rebalanced to the doctors' amazement and has remained stable and happy over the past two years. He now makes an appointment when he feels highly stressed and is only on a maintenance visit as he calls it.

A 39 year old woman who is having a stressed second marriage, and has been in three long term relationships is unhappy because she cannot get pregnant. Her current husband does not wish for more children as his two are teens and this is causing more stress according to my client. She does not understand why she cannot get pregnant and neither can her medical doctors so she has decided to try biofeedback. I worked on her for several visits and she reported that she was feeling much less anxiety in her life. Using this technique of biofeedback and realizing that her hidden emotions were causing her

more stress she agreed to talk more to her husband about their issues. She reported back to me on her 7th visit that she was expecting a baby. Our appointments were terminated at that time until after pregnancy and I am happy to report that she delivered a healthy, happy and wonderful baby boy just after to her 40th birthday. She then scheduled her "a tune up" after that when she felt overly stressed.

A 46 year old woman with diagnosed Fibromyalgia was helped into my office. She was taking 7 prescribed medications and felt that they were no longer helping her and that she was getting worse and worse. Her decision was to try more alternative help and try and de-stress her life. We began her appointments. Over the next year of monthly visits she and her doctor reduced her medications down to only one, and her Fibromyalgia rarely flared any longer...unless she became overly stressed. She latter purchased her own EPFX for her families private use, although I do still see her as a client about every six months, when she says it's "her turn to get pampered".

A 35 year old woman with five children came to my office. She was always tired, had constant headaches, heart palpitations and anxiety attacks, and was under a doctor's care. The doctor could find nothing wrong with her. Her family had grown up Amish and had convinced her to seek outside help for her problems other than her medical doctors. She came to my office once a week for a month and then monthly for the next six months. While she was doing biofeedback for stress reduction she realized that she had the energy for her children, was able to function as she should and had very few anxiety attacks. She has since purchased a biofeedback device to try and help herself and her family remain healthy.

A 69 year old woman with major stress started seeing me for stress. She was working two jobs and had divorced and felt a failure, yet she could not keep from being in contact with her ex-husband. She stated she felt unloved and that everyone abused and used her and she was tired of being depressed. We began Biofeedback sessions, she chose to come in on a weekly basis even though the sessions appeared to be helping longer than that. It did not take me long to discover that the biofeedback was only part of her help. What she needed the most was simply a shoulder to lean on and someone to talk to. It is sad when someone has to pay for a friend that they feel has nothing to gain from them talking to them. She stated that her "friends" always had an ulterior motive for seeing her and talking to her. She started de-stressing enough that she began dreaming at night of past issues and traumas of her childhood and realized that this is one of the reasons she was feeling so depressed and admitted that she had been feeling suicidal. But, that with the help we had gotten from Biofeedback she no longer had the wish to die. I suggested that in order to speed up her past traumas she seek professional help and gave her the name of a psychologist who could help with past life trauma as well as trauma regression. She started to see this professional and continued to come to the office for a monthly appointment. This continued for two years. She remained health and felt fine and has gradually decreased her appointments. When I began traveling more and at the office less I referred her to a different biofeedback technician.

A 56 year old male who had served in the Golf War made an appointment at my office. He had been exposed to Agent Orange and had returned injured and with Paranoid schizophrenic he was currently under the care of the VA Hospital. At that time he could not go out during the day without help and medication for fear of someone hurting him. The voices in his head were telling him to kill himself and that other were after him. After six weekly his trust to me and willingness to talk had increased, he had

informed me the voices had reduced but he was still having much of the same symptoms as before. At this time he informed me that he had a metal plate in his skull from his war injury, so we changed the placement of his electrodes within the next three visits he reported that he was much better. He had gone to the VA and they were extremely impressed with the biofeedback therapy he had been undergoing. If things were better yet again at his next appointment they were going to re-evaluate his medication and they suggested he continue the biofeedback. We continued with two more biofeedback sessions using the EPPX and he made his next appointment at the VA hospital, where they not only re-evaluated but removed his medication. Many of these prescriptions were psychotropic medications; his body did not respond well to this and within two days of this removal he tried to commit suicide. He was then institutionalized.

A 65 year old male who had a cancer scare with previous skin melanoma had decided to try biofeedback and alternative health therapy. He and his wife 63, had both been feeling very tired as of lately and more stressed than in the past, because of this they decided to try biofeedback. After one visit they realized they were sleeping better and feeling more energy. They decided to continue this process on a monthly visit. They continued this process for a year while going to their physician who had been watching several pre-cancerous lesions. Most of these lesions had disappeared and both the doctor and the client were thrilled. They now remain on a yearly visit with biofeedback to monitor their stress levels.

A 76 year old woman who had taken care of her sister came into the office. Her brother had died a year before and her sister had cared for him while he was sick with a stomach issue. Shortly after this her sister became ill for several months with the same mysterious symptoms that the brother had had and she had taken care of her until her death. My client was now nervous because she had had diarrhea for over 6 months which were part of the same symptoms. We began biofeedback and had 10 days until she was scheduled for a colonoscopy. She had earlier had a cancerous polyp removed from the colon and was concerned of what would be found now. Because of our limited time we met every other day to do stress balancing using the EPPX. She went to her scheduled appointment and was pleased to report to her doctor that the diarrhea was now gone and that she was feeling better. She was able to eat more now that she had been over the past six months without feeling bad and able to keep the food down and had begun to put back on some of her earlier weight loss. The colonoscopy test was complete and showed only one bacterial polyp. She was thrilled with the results.

Michigan, U.S.A.

In May of 2006 my heart was beating irregularly and I could not sleep. I was shaking terribly and felt like I was about to have a heart attack any time. I went to my family doctor who told me I had the same physiology as my father and because he died of a heart attack he put me onto medications for the heart. Shortly after, I ended up in the emergency room because my symptoms were worse. I did not have insurance because I had a pre-existing condition (the same as my father) Diabetes 2. At the emergency room my partner suggested they check the thyroid also which they did. They found out I was

hyperthyroid, scheduled a scan and to make a long story short by August 4, 2006 I was having iodine radiation to burn my thyroid.

About a month and a half later I was put on Synthroid (synthetic hormones)- the amount was too high I ended back in Emergency with hyperthyroid symptoms again. I was then put on "Armour" (animal hormones) - by the end of the year I had lost 42 pounds, was not sleeping and had a tremendous anxiety. My doctor told me that since I had anxiety when I was hyperthyroid and anxiety when I was hypothyroid that he did not think it was the thyroid that I needed to get professional help. I had reached the proper readings for thyroid, according to medical standards. The symptoms were still there and the weight was still going down. After continuous visits to emergency rooms and clinics (for some reason the situations were worse during the night) and not finding a solution I requested to be referred to an endocrinologist. My appointment was 6 weeks away. I checked with the pharmacist to see if he had heard of anyone on that medication that was having similar symptoms. He suggested I talk to my doctor but checked my records and asked me if the symptoms had gotten better or worse since the doctor had raised the doses. I noticed that the not being able to sleep was worse with the new dose, so, in desperation I looked for someone who could see me sooner. I found a Naturopathic doctor who thought that my problem all along was the adrenals, and that my thyroid should have not been burned with iodine radiation. By saliva analysis a "personal cream" was prepared for me, and several supplements followed for my condition. I ended at the Emergency room one more time while "waiting" for the cream to take effect. I had stopped the Armour and was just doing her cream. Rude awakening, the cream had not been doing anything for my thyroid my numbers were completely off.

By this time I was about 98 pounds, not sleeping, my pulse was very slow and I was not well in the head. I made an appointment with a doctor in Sacramento who I was referred to by her for vitamins and mineral chelation. This doctor took a look at me and got me to an endocrinologist the following day. My days were terrible, my nights worse. Not only I could not sleep but when I slept for a few minutes I would wake up without breathing and grasping for air. I weighed 95 pounds and was completely constipated. My new doctor checked every bottle, cream, supplement, documentation and myself. Wonderful bedside manners, but he put me back on Synthroid again. I was in shock! He asked me to trust him. It would take 6 weeks to see how the pills would be working on me and I started in 1/2 the dose and increased little by little. Would I be able to go to sleep, go to the bathroom or eat now or would that happen 6 weeks when my TSH were close to normal? I did not know if I would wake up anytime I closed my eyes. How could I wait 6 weeks! I wandered around the house at night and if needed to go to the market would go at 6 am so I wouldn't meet anyone I knew. In their eyes I could see their concern, even if they didn't say anything. I had lost 60% of my body weight - had no strength at all and felt terrible by not being able to sleep or eat. I did not want to see even my children who wanted to come and visit. I could see how this was affected those I lived with and I couldn't do anything about it. This was affecting me physically, emotionally, mentally and spiritually. I saw this as the end of my life. After 2 weeks on the medication my TSH levels were still 59.9 (normal is 0.39 to 5).

A friend of mine who lives in Nevada called to tell us that her daughter had experienced quantum biofeedback from a lady who lived in Reno and that she used a system that would probably relax me to

be able to go to sleep. I decided to call her. When I talked to this lady she was very pleasant. She had been using the system for 7 months and bought it because she was sick and felt that it help her body adjust itself to health. I asked her if she came to California - with my heart palpitations and arrhythmia I did not want to go to altitudes. She would not and did not know anyone in the area. She suggested I research in the internet. She gave me two clue words: SCIO and Quantum Biofeedback. When I went to the internet I realized that the way this equipment worked was using the concepts of The Field, a very interesting book by Lynn Mcctagart that I had read when I was healthy and was very impressed with. It was all about energy. I finally found a list of practitioners and to my surprise one who operated from Sacramento, 77 miles south of my hometown! I called her. She had been using the system for 5 years and specialized in nutrition. Just what I needed, with my weight loss and not being able to eat I made an appointment ASAP. When I went to her house and had my 1st session I was able to relax my bony and achy body. I found out what foods my body had a reaction to and took gluten, dairy products, and other foods off my diet that I was reacting to, according to biofeedback, while adding minerals, fatty acids, liquid vitamins and more water intake. I started eating and sleeping. Before I would have slept four hours after periods of 36 hours awake. I continued with the sessions every 1 or 2 weeks. My visits to the emergency room stopped altogether, and so did other symptoms such as itchy skin, constipation and lack of appetite. I started getting back to work. I do graphic design and print brokering. I began to contact customers I had had to tell previously I could not help, and got back to work on my own timing. Today I weigh 115 pounds (and would love to stay there!). I do not feel I look sickly - that is what everyone tells me. I sleep 7 to 8 hours a night and I am so thankful to God for putting in my path Lindalee Hatch, my practitioner and Quantum Biofeedback who help me change the direction my life was taking. Also, my hormones are within the appropriate range. I bought my own equipment on August 1st and Lindalee and I see clients together while I learn to navigate the program and am working with clients having empathy for those who in anyway feel the way I felt at one moment or another during my journey of the last 18 months. I wholeheartedly believe that the Quantum Biofeedback Program was incredibly instrumental in assisting me back to health.

Oroville, California

Client: 43 year suffering from congestive heart failure due to natural steroid use as a body builder. While under doctor's care for his condition, he visited me for stress-reduction. Using the EPFX programs I worked with the stressed areas that he and his doctor had discussed and used biofeedback to balance any associated emotional stress that was present. Within a few minutes he stopped me, and with tears in his eyes. Said: " I don't know what you just did, but I have had chest pain since last night and it is now gone".

He works as a Physical Therapist and because of his condition, it was often necessary for him to sit down on the floor for at least a half an hour when his blood pressure dropped and wait till his strength returned. I happened to be at his office during one of these episodes and hooked him up to the EPFX. Within five minutes he was back up and feeling fine. These are just two examples of the positive healing results that can be experienced using Quantum Biofeedback for stress reduction.

Client: 62 year old female. After running a test on the EPFX I noticed that she was showing many signs of stress having to do with female issues, specifically menstrual issues. At 62 I knew that was unusual and asked her if she was having any female problems. She had been a bit skeptical when she first came and had not revealed any existing issues. At that time she said "how could you possibly know that? I have had my period for the last 12 days". Knowing that was not normal, I suggested that she visit her doctor. The next time that I saw her she was very emotional and thanked me. The condition was pre-cancerous and they were able to catch it before it became life-threatening.

City unknown

As a person entering my 50's, I was concerned with my vision. I have always worked in stress conditions and I could tell that watching the computer and working hard all day long was really beginning to fatigue me. In June of 2004 I was introduced to the EPFX device and saw that it had a module to assist in reducing stress in my shoulder muscles and those in my neck. I began some stress reduction therapies in July 2004 and I immediately, after the first session, could tell that the tightness in my shoulders was easing. After the third session, I found that my neck muscles were not as tense and my vision was beginning to come into focus more readily. I am happy to say that with regular stress management sessions (every 6 to 8 weeks) since the end of 2004, that I have not had to resort to corrective lenses to assist my vision and my mental clarity continues to stay sharp and on top of my game. I have added this technology to my office and now assist other people in stress management and pain reduction through listening to the messages from the body.

Toronto, Canada

I had a client with a swollen lymph node near her ear - it was causing her a lot of discomfort. After only one session for stress relief, she reported the swelling had gone down and the area around the lymph node was no longer painful.

A client was suffering from burning and stinging pain and itching deep in the tissues in her shoulder and arms. This pain was worse during the night and she was getting very little sleep. After six to eight EPFX sessions for stress, the pain and itching were significantly reduced and she could sleep through the night.

After three or four EPFX sessions for stress relief, a client diagnosed with emphysema was able to discontinue her oxygen. She still relied on her steroid inhaler for occasional asthma attacks, but refused to make dietary or lifestyle changes that might have helped to alleviate the asthma.

A client had been suffering with neck and back pain from a car accident which occurred over 20 years ago. She felt an immediate relief from pain after only one session stress relief.

New Mexico, U.S.A.

My first client when I opened business on September 11, 2007 was a 20 year old female who had been making weekly trips to the emergency room for a morphine shot to control her abdominal pain. She had been to pain management clinics, M.D.'s, Gynecologists and no one could find the source of her pain. They gave her pain medication to help control it and wrote her a prescription for medical marijuana. Her trips to the emergency room usually occurred during the night and she would wake her parents to drive her to the E.R. Needless to say her parents were at their wits end with fatigue and worry over their daughter. This routine had continued for two years before the client came for her first biofeedback session.

My young client required two sessions to manage the stress of pain the first week, this continued for the second week but after the third session she came back saying that she had just experienced the best week of the last two years of her life. She was able to go out and enjoy her young friends, exercise mildly and sleep all night. She actually cried as she put her arms around me and thanked me for helping her. She told me she had felt so helpless because no one else had been able to do anything for her except knock her out so she slept and couldn't function. Her mother also thanked me emotionally for giving her back her life!

City unknown

I was having a lot of problems in dealing with the stress in my life. I was having job stress, monetary stress and the lifestyle stress with the demands of raising three girls, now teenagers, on my own. I was having problems with anxiety, worry, and heart palpitations/spasms. I noticed that my Raynaud's had been getting worse. I had a lot of neck and shoulder tension. There was a particular area of my shoulder blade that seemed to be chronically painful.

After a few sessions of Biofeedback Stress reduction and muscle retraining with the EPPX I started to notice a difference in my symptoms. My muscles were learning to relax quicker after stress. I found I was coping better to my stressful lifestyle. I was starting to get much deeper more relaxing sleep. I also felt I was more emotionally balanced.

After a few more sessions I noticed that the strain, in my upper back, that had been chronically there had reduced significantly and sometimes I did not notice it at all. The progress has continued and I feel more calm and relaxed. I feel better able to face the daily challenges and as a result have a better relationship with my daughters because I am less likely to react with negative emotional responses due to stress. I highly recommend this type of stress reduction. I found it very beneficial. I have less pain in my muscles and have also found that my digestive difficulties have subsided and that my circulation has improved whether this improvement is related to the sessions or not I am happy with the outcome.

Nova Scotia

While using the biofeedback machine on my Dad, I found that the stress was relieved in his neck. His neck is degenerated as the bones are rubbing on bones which causes great pain. After running the biofeedback program the pain is relieved and he can bend his neck without the great pain he was experiencing. With each session the stress is relieved.

I have found that stress is relieved in myself as I run the program. I am aware of this and am very grateful. If you need testimonial in person, on the phone, etc. I will, My Dad will, my Mother, So will my husband and daughter. When I had the biofeedback program ran on me before I purchased it. I found that my legs, knees moved better, that I could walk up and down stairs without pain as the stress was relieved. So did the others with me. I have experienced "feeling" the frequencies affecting me in many ways, some of them too unbelievable to mention here. Whether for energy etc. or just smiling more. Which is a GREAT THING.

Dalton, Georgia

I am probably one of Focus On Health's best referral sources. I have been plagued with a football knee injury my entire life and, at the age of 51. I've developed a little hip pain. The funny thing is that when I went to my first treatment with biofeedback, I filled out his patient history and never mentioned either. The problem I did report was fatigue which, I assumed, was stress related. During the "body scan" portion of my bio-feedback treatment..... both my hip and my knee were designated as locations of probable pain. I was astounded! In addition, the scan produced many abnormalities and deficiencies, many which accounted for my fatigue, and the machine noted at least a couple of problems that I wasn't even aware of. I was then treated by the same machine while relaxing. After the bio-feedback treatment and some additional massage therapy, I left the clinic devoid of pain! I mean to tell you that my knee and my hip did not hurt!

Springfield

I was gut shot and critically wounded while a police officer in Houston Texas 1/23/83. Doctors operated 11 times on my spine and intestines to put Humpty Dumpty back together again. I spent most of 21 years in wheelchairs or hospital beds since my legs were either paralyzed or back pain made them too painful to use while Doctors "practiced" medicine on me. I was told that nerves do not re-grow so this was all I would have for the rest of my life, and of course \$875 per month in prescriptions.

I purchased my SCIO in Cancun. The therapist spent significant time with me that week directly and observing others receiving her attention. To make a long story short, thanks to her efforts and using the SCIO I purchased on myself I went from wheelchair to mountain hiking in a few months.

City unknown

It was in Dec 2005. I think of myself as a healthy person, because I grew up in a family with parents using home remedies and following a healthy life style. Thought after I immigrated to Canada my life became very stressful and I started eating a lot of sweets. It didn't affect my weight so I continue thinking that I am healthy and happy.

In one nice Sunday evening I asked to have a session (45min) just from curiosity to see if I will feel something different. I felt more relaxed but because I had no symptoms to compare, I thought that it is only for very sick people. The practitioner didn't say anything, but mentioned that when people crave sweets they usually grow fungus. She didn't say that I have any, though I wanted to know. From other experiences she said that after balancing the body and reducing the stress level, the craving usually disappears.

Next morning I went to work and my boss brought my favorite cookies. I forgot all about the last night session and jumped up from my desk to get few. On my way to the kitchen I heard her telling me not to eat all of them, knowing me. As soon as I reached the pack I felt sick and some kind of energy pushed me back. I stopped and wonder what is going on. I thought that I got so quickly from my desk and maybe something happened with my blood pressure. But it was so unknown for me. I tried again and the same feeling was there. I felt I was going to trough up. I gave up and went to my desk, where I had some sweets .I forgot all about my last night session. So when I opened my drawer and from just looking at the sweets I got really sick , something like a light came to my head and I remembered that my body is balances and it does not need sweets anymore. So I said to myself that it is not difficult now, as it was a day ago, not to eat sweets. In 5 days I lost 4 p and till today I do not crave sweets. Thank you very much for opening my eyes.

Canada

41 year old woman very stressed and complaining of many aches and pains. Only one session with her and she called me the next day to tell me that she had no pain or aches. She particularly mentioned her right hand (I didn't know this in the session) and that she was able to address her mail. This was something that she had not been able to do for years.

City unknown

I lived much of my younger life with high levels of stress (especially around larger groups of people). I had a series of health problems begin to arise in my late teens. This was in part due to minor drug use. When I decided to face the problems in my life, I began exploring a variety of alternative therapies. Having grown tremendously as an individual in a period of 2 years with various alternative therapies, I eventually came across the EPFX through a local practitioner. These are some of the symptoms I was displaying before receiving sessions with the device:

~irregular digestion

~fatigue

~overall negativity towards life and people in it

~mild to high stress (depending on the situation)

~anger issues

I had a series of sessions with this practitioner and discovered a variety of imbalances as the possible underlying cause to much of what I had going on. Having corrected those imbalances through sessions on the device, I found myself to become more stable emotionally, mentally and physically than I had ever been before in my entire life!

My interactions with the EPFX have all been very positive and I would recommend it to anyone searching for a complementary service.

City unknown

I've suffered with chronic pain for decades. Nothing helped. I'd eaten an ocean of Ibuprofen, Tylenol and anything else I could find to stem the pain. Not chiropractor, no message therapist even though it seemed better for a few hours after the fact it returned with a vengeance.

Last year I was forced kicking and screaming to a practitioner in Sandy Utah. It was snake oil as far as I was concerned. But finally after months of mild badgering and the person dragging me driving and paying for it I reluctantly went.

I went into delta sleep some time during the session. They woke me up as they were finishing up. Told me I'd sleep for a day or so and feel 100% better. I groused and said OK whatever. And was driven home. I was in a euphoric state of mind as we drove north for an hour. I went in the house, took a shower.. laid down on the bed, flipped on the TV and woke up two days later. During that time I didn't so much as flinch in my sleep. I went into the bathroom then back to bed. I went back to sleep and drifted in and out of delta sleep for the next two days.

When I finally actually woke up it took me a while to realize it. I even grabbed my cane and actually hobbled over to the desk out of habit. BAD HABIT.

I was awake for almost an hour catching up on things when I finally realized I had NO pain anywhere.. I even tried twisting and bending in ways I knew would cause excruciating pain. No pain. I was like a kid in a candy store.. I even OVER did to just to see if I could stir up some sciatica. NOPE.. I felt better than I had in 20 years.

What the practitioner found was that I was in adrenal failure, in the exhaustion phase and my body was so inflamed from sero negative spondylitis she was amazed that I had not gone suicidal.. Actually I was. My retirement plan was 38 special. I was going to work until I could work no more and end it. That was

it.

The effects of this encounter with the EPFX were to be far reaching. A month went by before I even got another twinge of pain anywhere. I had tried everything to kill the pain and even methadone (synthetic heroin) barely took the edge off the pain and the Epfx was no less than a miracle in my book.

City unknown

I was diagnosed at age 11 with polycystic kidney disease and spent most of my twenties really ill. Low energy levels, headaches, gout attacks, high blood pressure, insomnia as well as getting up for a wee every two hours or so at night... Very frustrating... - as a result I know I was prescribed far too many allopathic drugs and was on some sort of anti-biotic every few weeks or so, and a box of myprodol painkillers only lasted a month. This all contributed to my failing health and by age 29 I was told by a renal specialist that I have 5 years left on my kidneys before I would go into renal failure and require dialysis.

My father died at age 57 of the same disease, around the same time I was given this grim picture.

Luckily fate intervened and I was introduced to biofeedback for a 1 1/2 hour QXCI session. I was totally unconvinced as I felt nothing and my accountant brain could not understand this alternative treatment. The following day I felt as if a bus had hit me and I knew on some level, something had happened. I believe I underwent a healing crisis and the next 6 weeks were a blur. I slept like the dead (slept walked to the bathroom though)... so I decided to keep an open mind and continued going for a session every month.

The sessions definitely knocked me out and I usually slept most of the following day after a session, my body really responded well and there was nothing subtle about it.

Six months earlier I had been having bad dental problems and needed to undergo root canal treatment which I had put off. Our family have bad teeth and I was not immune. Eventually after 7mths of QXCI treatments I went to the dentist to have the treatment. I don't know who was more shocked, him or me when the x-rays revealed nothing! No holes, no bad teeth - nothing to work on and I walked out in utter amazement.

I then went for a renal checkup and had the specialist report on my extremely strange results. My scan (physical picture of the kidney) did not match the actual renal function test done. It was impossible (according to her) that a kidney looking like that could perform so well. My kidney was in fact functioning better than a healthy person and at a 100% - totally unheard of. She was shocked... but I knew better.

That is when I started to investigate the QXCI with more interest and eventually after research and continued sessions - I plunged in and bought my own for home use.

Needless to say my interest soared and I learnt so much by taking on guinea pigs - they taught me so much and eventually I started taking clients on a part time basis. This ultimately led on to me leaving the corporate accounting profession and working full time from home.

I have seen so many people shift and their lives improve. I know with all my heart that this device is indeed tomorrow's medicine today and I am so grateful that it found me. I have awakened and I know I have work to do.

I am now 36 and my latest kidney scan is still prenominal - kidney function was 99% and I have not been on antibiotics in years, I no longer suffer from gout, nor do I get those awful headaches. On top of it - I can generally sleep through the night and very rarely get up once to go to the bathroom. My energy levels have soared and I am a totally different person.

I have been blessed to personally meet Bill Nelson and have hugged him and told him... thank you. His spirit is so large - we have no idea. I feel only love towards this great spirit.

A few short months after going full time as a qxci/scio practioner, my husband (age 33) was diagnosed very unexpectedly with a brain tumor. 8cm x 5cm - mixed oligodendro glyoma / astro cytoma... He was given 4 weeks to live and if they operated a 90% chance of being permanently paralyzed and possibly only having 6 months to live.

This happened in July 2006 and I began doing QX sessions on him in earnest. He underwent an extremely successful operation and then did chemo and radiation - along with alternative therapies such as regular QXCI/SCIO sessions, detox foot patches, and nutritional supplements.

6 months later, we packed it all up and travelled Africa... (he had now been given a year to live, and he intended to live it). We came home every two months for scans and QXCI/SCIO sessions and then were off again. We ended up traveling for an entire year and got back 1 Dec 07.

His latest scan shows that the tumor is shrinking and is now only 2.5cm - and once again the medical world is amazed. They have taken his case as a case study, but when it comes to discussing our alternative choices, their limited minds cannot acknowledge it. It is a pity that they are unable to expand their minds to learn more about what we both know.

City unknown

A 65 year old man suffering from Macular Degeneration came to me for an appointment. He was able to only make out shadows in specific regions and had been diagnosed prior to his appointment with me as having extreme vision impairment. Upon working on the Device for stress we were amazed when he asked not even 30 minutes into the appointment time, "when did you put that picture on the wall?" and had pointed to a large picture of an ocean beach scene on my wall. I mentioned it was there when he arrived. His next comment was "but I couldn't see it before when I arrived, now I know there is a picture, but I can't make out what it is."

He returned one week later for a second appointment. Upon entering my office he looked at the wall and then to me and said "you know if there were a boat on that picture I could tell you where it was!" Not only was he able to see the picture now, but he was able to see me.

My client returned again for a third visit a week later. At which time his wife pulled me aside and told me she had a problem with the client. "I awoke from a nap and found that the keys to the car were gone. He had decided to drive to the store. What do I do now?" she asked me. When he sat down for his appointment I asked my client if his vision had completely restored and if he had visited his eye doctor yet. His answer was "I've got an appointment in a few days with my eye doctor, won't he be surprised! He told me I was going blind and my eyes would continue to get worse." And your vision? "I can see almost everything but I have a few gaps on my outside vision." I explained that I did not feel comfortable helping him with his stress issues unless he promised me that he would not drive a car until his license was given back and approved by his eye doctor. That he (the client) would be responsible if he drove and someone was in his blind spots. We completed this third visit and he was to go to his eye doctor appointment. I completed my sessions with him at that time and was happy to have been part of his chosen health process, my part in helping the stress of his body allowed for his body to choose what it could then heal.

Kathy

I was shocked to see a lawyer told me that he was totally convinced our device has a miracle affected on him. Before I start to test him, the device told me he was angry - later confirmed by him that he has argument with his colleague. Later he confirmed me that my test on his brain was truth because he had an serious accident which lead him to coma for weeks, The third miracle is that he was convinced by our device after bending his back to touch his toe with his hand without pain. The last but not least, He count on 20 second to found that his pain in his arm was gone instantly!!

He will bring the honorable professor of U.T to try our device soon and promoted it to all insurance company!

City unknown

A little girl was brought to me. The mother wanted to see if the stress reduction treatment could help her little girl. She had behavioral problems at school and home. Always in trouble. And picking fights. I tried to visit with the little girl and she would not talk to me so I just talked with the mother while we started her session 45 min later she started to giggle. The mother looked at her in disbelief. She does not giggle, ever...about 10 minutes later her husband called and he also said But she doesn't giggle. They came back the next week with such good news. It seems the little girl as a baby had many ear infections and damaged her hearing to the point she could not pronounce her words correctly and had been to a speech therapist just before she had come to see me the first time and also the second time. The speech

therapist wanted to know what happened to the little girl because she was speaking so well. The parents didn't know what to say. When she came the second time she said I know your name and I said I know yours too...The mother said you don't understand she has not been able to remember anyone's name but she has been talking about you all week. Amazing. Just think what a little stress reduction can do.

A man in his forties came to me in a lot of pain and ask if doing stress reduction could help him. He was in a car accident 6 yrs. ago and had not had any relief from the pain in his back. No feeling in his feet and he rode saddle horse to round up cows and move them around. He could get on a horse and ride but someone had to take him off. During his first treatment he said he was real relaxed for the first time in a long time. At the end of the treatment he felt much better the pain was still there but bearable. He came back next week and said he was much better and he was beginning to feel his feet and lower legs and not so much pain. He came back the next week feeling better than that and could not believe that the pain was leaving. He stated we all need stress relief

City unknown

I have a son who has been ill most of his life. He almost died as a baby. He has been very special to us. He has a very different character. Before the QXCI stress reductions session he would often do strange thing such as blurting out noisily or dancing around strangely. Some of the other family members said he was "mental" This is the preface to my testimonial. Now I need to mention a little about my sister-in-laws autistic boy who is about 15. He has been autistic all his life. He has received several QXCI sessions from myself, a qualified biofeedback technician. When this autistic boy gets his sessions his Res Freq Pattern was often above 200,000 One time he came in banging the sides of his head with his fists. His Res Freq Pattern at that time was over 260,000. That was the highest Res Freq Pattern I had seen until I gave my son I mentioned earlier his first session. His first session his Res Freq Pattern was 700,000! It sure made me respect this young son of mine. I am the rest of the family members decided we were sure grateful this boy was not autistic with all he was dealing with. We are very grateful for the help we have received from our biofeedback device.

We feel our QXCI has been a great blessing to us. You know we are not provided with an owner's manual when we get these bodies we have. To me the QXCI device is the tool that helps me understand my body and the stresses it is handling so well. It seems my subconscious is striving to deal with so many things so very well so that they never become a conscious issue. I have a greater respect for my body than I ever have after seeing what it is dealing with and handling so well.

City unknown

About 2 years ago, my mom was diagnosed with severe irritable bowel syndrome. This caused her extreme pain and she began to lose a considerable amount of weight. In fact, she dropped down to

89lbs. I had heard about the biofeedback device and quite admittedly, I was skeptical. However, when I approached my mother's family doctor and asked what she could do for my mother, her response was discouraging. In her words, "There is nothing I can do for your mother." Her poor body had become so allergic to food that even putting something in her mouth caused her to become violently ill. At this point, I asked the doctor what her thoughts were about biofeedback, thinking of course that she would completely discredit it. However, much to my surprise, she acknowledged that if there was anything that could help my mother, it would be that. This is when I decided to take Mom to see another biofeedback practitioner in town. I had resolved that if this device could help my mother (a very difficult case), that I would want to do this myself as a career. After about 4 sessions on the device, my mother's digestive tract started to turn around. She wasn't violently ill after eating anymore and she was actually digesting her food properly. She is now doing well and is gaining some weight! I realize I'm not allowed to make such claims as a practitioner but as a client's daughter, I can say that this device saved my mother's life.

City unknown

About a year ago, a regular client came in (meaning once each month) and one of the highest reactivity was natural gas. I asked her, "Diane, do you have natural gas in your home?". She said she did. She also said that both she and her husband had been having digestive issues and her husband also was starting to have headaches. She called me a week later after having called the natural gas company and they found FOUR natural gas leaks in her home. She has animals and none of them would go near the areas where the gas leaks were!! She was so very appreciative and it could have saved their lives had the QXCI not detected this!

City unknown

As a practitioner here is one story of many that I have. I was asked to see a child of preschool age, that was not speaking, no eye contact, not staying focused on any one thing and didn't sit still for too long. Teachers at her preschool were concerned and asked that she be checked for autism. The father was very worried and concerned. He contacted me to see if I can help give him some direction as to what to do. I only saw the child once and from what came up on the QX machine (I still have the old model), all I found was that the child had a hard birth and that the spine needed work. I suggested that they take her to a special pediatric chiropractor and have her spine worked on. The spinal check that I did came up with the same exact issues the chiropractor found and corrected what was needed to help this child. She is a different child now. She is doing very well.....learning, staying focused, happy, speaking, playing, etc.

A 53 year old woman in Michigan with jaw pain for 3 weeks, had 1 session with the EPFX and reported no pain the next morning. And continues to have no pain.

A 54 year old male in Michigan had foot pain for many years, had 1 session with the EPFX and has reported no pain in his foot.

City unknown

I myself was in a motor vehicle accident just recently. It was in New York State USA. I felt the whip lash setting in almost immediately. Breathing exercise and relaxation tech. helped a great deal at the time but the drive home it was hard to repeat the relaxation.

But the time I got home 2 hours later my muscles were tight and I was very stiff and new that by the morning I would have whip lash all over again. Once home I got ready to do a session on the EPFX and went through various biofeedback programs. When I was finished I felt better. I needed to get up and move around and stretch which helped release the tension in my muscles and joints. I was fine after and have been great since.

A young lady I know has been having headaches for months. She has tried many things to get rid of the headaches and be able to return to work but nothing has helped. From morphine to cranial sacral with no help.

I then told her about the EPFX and talked about different types of stress that could be causing the headaches. We final thought that a session with the EPFX would be in order. After the biofeedback session with the EPFX plus a upper shoulder and neck massage I was told that that night she returned home with a slight headache. Upon waking in the morning the headaches was gone and she has been headaches for 3 weeks. Her mother believes 100% that the EPFX was the main reason for her daughter's pain relief.

Ontario, Canada

**The following are a collection of testimonials. The name of the patient has been removed and only the city or state (if known) is shown. These testimonials were received from January 5<sup>th</sup> 2008 until February 21<sup>st</sup> 2008.**

When the Quantum EPFX came into my life, I was just beginning to even believe that it is possible to heal from a chronic health issue. I'm 48 living on full disability. I purchased the EPFX in March of 2007, and haven't looked back once.

In November of 2002, I had skull reconstruction and spinal cord repair or more simply (brain surgery) for Arnold Chiari Malformation of the Skull and Syringomyelia. My recovery from the decompression of the skull was very disappointing. The pressure was taken off of my brain and spinal cord but the extra cerebral spinal fluid and scar tissue, nerve damage, and unexplained added symptoms added more despair to my hope for recovery to my prior healthy vibrant life. Being a, normally, very optimistic person, I expected to be back at work in 2 weeks, even though, I had experienced symptoms for 15 years. The surgery was done by a very competent neurosurgeon at University Hospital in Denver, Colorado. It was the aftercare that was missing which is common for most surgeries. I found myself going downhill in every way for the next 3 years. On top of the symptoms, I had experienced prior to surgery, my body systems were weakening due to my dismal attitude, depression, full body pain, over medication, etc.

One spring day in 2005, my liver and spleen were so swollen, that I could not lean forward, I got on my knees and said, "Lord, lead me anywhere, to anyone, and I will do it, to finally start healing." The journey began with a natural health food store where a woman took me under her wing to personally use muscle testing and all her knowledge learned through her own experiences. I had parasites, more food allergies than non-allergies, breakdown in my immune resistance, tremors, fatigue, pain, guarding of the nerves and muscles at the surgery site (base of skull), pain that was unrelenting, and I was struggling with my will to live.

The first session with the EPFX, came up with the practitioner noting an odd probability. He asked if I had been depressed since the surgery. I said an emphatic yes. He noted that I had "bovine oppression" coming up. He was not diagnosing. He was just being a very caring compassionate human being who shared this with me. I then told him that I had a piece of bovine pericardium in the base of my skull which was to cover my brain. Now I understand even more how that cow had brought its energy into my body. Well, after that session, I experienced over the next few months a noticeable shift in my attitude and if felt like light bulb was placed over my head. I had one more session and cannot remember why I lost interest in the device. Probably because I was healing and onto the next modality. Now I understand as a practitioner, that clients do forget what was done and forget to acknowledge the biofeedback.

For the next year and a half, I continued to heal. It was amazing and a time I will always cherish. I did experience a setback when I allowed a very stressful relationship back into my life. I began to ask myself and others the question, "what were all the modalities I tried that I may need to repeat?" No one could remember the biofeedback. It seemed that the practitioner had not been able to get the word, biofeedback, into my consciousness. My experience with him has taught me so much about what I do now, I wish I could thank him. He was doing the absolute best with the knowledge that I could retain.

In the beginning of 2007, I was ready to begin practicing an alternative health modality, within the context, of my own disability. I was prepared to go back to school, move, whatever it took. There was an expectancy in my that would not leave. I was practicing the Secret without realizing it.

My friend, at the health store in Castle Rock, told me she was going to be having a session with someone doing something that afternoon. That's exactly how we discussed the EPFX. I asked her if I could watch. The practitioner came in and started setting up her computer. As I watched, I got excited. When the monitor was opened and she gave me permission to observe, I knew this was it. I remembered the practitioner and kept saying, "this is it, this is it!" This practitioner received her shock for the day as I asked her if I could buy it right there.

Buyer's remorse set in day 2. I called another more experienced practitioner and told her my dilemma. She invited me to her home and encouraged me as never before. She noticed that I was weak and pale. I had been experiencing a tremor for the past few months in my chest that would not go away. It was wearing me out and my doctors just gave me more meds for it. She was very smart but not a doctor. She pulled up the program and did some keyboarding and showed me that the vagus nerve runs through the medulla oblongata, which I have the diagnosis of Malformation of the Medulla Oblongata, also. She showed me that anatomically, this nerve then ran through my chest, where I was feeling the tremor. She closed the monitor and wished me well and sent me on my way. 24 hours later, I noticed the tremor actually was increasing. I knew that I was still receiving the effect of the frequencies so I was not alarmed. I will never forget the moment when I was sitting on the couch, deep breathing, staying out of fear, and suddenly the tremor felt like it was pushed out of my body. It was gone....and almost a year later....never to re-appear!

Every penny that I spent on the EPFX, was worth that moment. Unless you've experienced tremors, they are insidious and affect every aspect of your life. I am thankful for the experience as I am compassionate and empathetic with clients more than I could have been prior.

My dreams, of my own healing, are continuing. After returning from my beginner's class in Boulder, I determined to de-stress my body with the intent, of my own body, healing my eyes. It took 3 sessions for 3 weeks, when I began leaving my home and forgetting to put my glasses on. Every day I marvel that I don't need my glasses. I had been told by the ophthalmologist that I needed bifocals. I don't anymore. What an appreciation for this technology and the miracle of my own bodies' capacity to heal, I have the experience and knowledge of!!

My stamina continues to be an issue and I seem to be having symptoms of bowel/intestinal weakness probably due to the syringomyelia. Another learning experience is ahead of me as I pay attention to what my sessions tell me. It's clear that my diet is contributing and that is something I can work on. But the brain spinal cord disorder is always showing up. I can live with what I have. I'm better than I ever expected to be.

My goal is to increase my stamina and clientele, simultaneously, so I will be supporting myself, on my own, someday. Moving to a new community has not slowed me down. I allow others to come to me and it happens. Because I am on Social Security and private disability, self-employment is considered for the income only, in figuring each month the amount that Social Security will withhold.. Because of this, I cannot charge for my services until I have a huge base of clients. If I charged, I would actually have less income and it would be very difficult to even pay for the gas to get to the sessions. The Lord has provided me with a wonderful place to practice. The clients are asked to pay the owner of the location a fee directly for use of the space. I understand how important it is that they appreciate this more if they pay, especially a fair fee. I do not know how to overcome that at this time but there will be a day that my clients will pay me enough to get off disability. I know this.

There are more details to this story but the important part is-if I hadn't had the foreign energy of the bovine oppression identified and balanced, and the tremor affected to the point of being gone, I would hate to think about how difficult my life would be now. I thank God for Professor Nelson and his courage and tenacity to be willing to face what the world of fear throw at him, and now, I join him.

My surgery and chronic health issue cost the insurance company, the hospital, and myself personally, \$60,000 plus not including the cost to society through benefits through Social Security. I've invested a little over \$20,000 in this biofeedback. Now I can contribute to society and be a part of the economy that benefits people on all levels. No harm has happened to anyone who has had sessions with me or myself. In fact, the complete opposite has occurred. My prayers are with Quantum and Dr. Nelson, as they face the FDA. I'd personally appear with this testimonial if it were needed. That's how emphatic I feel about getting my life back with hope, not despair. I have nothing to lose by being open about the truth of what I have experienced. I am very careful of how I present this to people respecting the laws that we live under. I am an amazing Quantum Biofeedback practitioner because of all I've been through. Thank You.

South Dakota, U.S.A.

A 57 year old man had an infected tooth with swelling in the upper area of the mouth. Dentist said to pull the tooth. After 3 treatments over 3 days with the EPFX, the man was able to chew on the tooth and it still is healthy.

City Unknown

I am a 36 year old soccer player from Scotland and had knee surgery several years ago. It cost \$15,000.00. Last Spring I had one EPFX Biofeedback session which focused on the stress that I was experiencing from the pain in my knee (that the surgery did very little to help). Three days later both knees felt better than they had in many years. Since that time I have referred my whole family, my girlfriend and her whole family and several teammates to my biofeedback therapist and they all have had wonderful results. Stress truly is the root of all disease.

Texas, U.S.A.

The first thing I did with our biofeedback computer was run a customer who was told he had cancer. He had a basketball sized tumor on his stomach and had been to Mexico in the Donsbach clinic. I think I ran him three times -- each time using a different strategy. The last time I ran him, it came up in the risk profile that cancer was no longer a risk. I told him. He was shocked and speechless. Then he got happy. He said he was going to the Mayo Clinic to get checked. A couple of days after his appointment I found out they confirmed that he was cancer-free.

I run myself the most. I am 61 years old. I haven't been to a doctor in years and years, except for elective things like laser eye surgery. I look like I'm 40. I ride a bike, ski, play golf, play the piano, write company literature etc. I give the magnets some credit but since I've been using the computer I've felt better than ever before. I have probably had one cold in the last year with no flu. I do the anti-aging programs.

Female patient, 54 years old. Her issues were menopause. Her hot flashes were unbearable. In the middle of the session she started getting a hot flash and it never materialized. Her symptoms are decreasing and decreasing regularly.

City unknown

A 53 year man from Port Hope, Ontario, Canada had a knee replacement and is waiting for the other knee to be replaced. After 5 Biofeedback treatments over 2 months with the EPFX he reported the excruciating pain to lessen by 70%. His stress level has improved and he reported he is not "flying off the handle" any more.

Ontario, Canada

A 16-year old girl from Richmond Hill, Ontario, Canada has anxiety attacks both in school and at home. After approximately 15 minutes of each treatment with the EPFX she reports calmness and peacefulness. She sleeps extremely well after the treatments. Her parents are extremely relieved. Whenever the stress becomes too overwhelming she requests a biofeedback session!

Ontario, Canada

I first saw the EPFX/SCIO/QXCI at a conference in Cancun, Mexico. That was about four years ago. The QXCI was one of the main attractions. I met a very good practitioner, teacher and sales person there. She gave me my first experience on the machine. Right off she called her colleagues over as I had indications of Spirit attachment, something most of them had not previously seen. This was easily cleared, a process that I and others had found difficult if not dangerous to tackle in the past when working as healers for others. She also found that I had a tape worm, a not unexpected observation. In only a minute or so she was able to zap the bugger while I watched in fascination as my abdomen visibly shrank while my internal chatter likewise diminished.

Yet another process done effortlessly that is far more difficult to effect if done, for instance, with herbs.

The doctor returned to working on my friend. He was an ex-cop who had the bone under one eye depressed from a blow to the head years ago. This caused his left eye to be lower than his right eye, only a small amount but still something the therapist noticed and the QXCI confirmed while bringing up a three dimensional rendering of the bones in the head. We all watched as the QXCI almost completely corrected the problem in a few moments by repositioning the bone below his eye socket so that his eyes were aligned. It was obviously powerful enough to perform chiropractic like adjustments.

A year later I sought out other sessions with another highly skilled practitioner who lives in Michigan City, Indiana. She explained many of the wondrous capabilities the machine has; something most could spend lifetime learning. It was very apparent that it operated at the mental and emotional levels as well as the physical addressing the core issues where true healing has to occur. I always found it accurate in its perceptive analysis and feedback which her intuitive gifts supplemented. What I most enjoyed was emersion in the ELF, for it feels like heaven to me, the energy field of love. It is more accurately peace and tranquility; the closest thing to heaven on earth most experience short of the euphoria of a transcendental healing experience. With similar broadcasts the machine is capable of augmenting plant growth in a 1000 meter radius, an approach that my colleagues and I intend to put to good use in developing a greenhouse capable of year round production with very high yields.

What I like best is that the QXCI gives us a choice, for it does not violate free will responding only to what we allow. A session provides the advice needed to bring self-regulating balance into practice. I deeply respect what has been accomplished here and the potential it represents for it is the harbinger of what mankind is capable of. It is meant to awaken us to our potential, a job it does very well while facilitating the change required for realizing that potential. It helps you without being addictive striving instead to provide the platform to work from and tools to achieve balance on your own.

City Unknown

I have been working with many clients since October 2007. Energy medicine was new to me and so it has been a wonderful learning experience.

I have worked with a 2 year old female who was throwing tantrums every day for many weeks. She had fallen several weeks earlier and bumped her head. I told her mother about biofeedback and Dr. Recommends homeopathic remedies. She decided to do a session. I took an hour to run my protocol, advised her to use some homeopathics for the child and she has not thrown a single tantrum since this session.

A friend of mine told me that her friend was diagnosed with endometriosis and that she would have to have surgery for this within a few weeks. She had had many pains and female issues. I had to act quickly so I sent her a bottle of Fem B - Dr Recommends. She took it for 3 days and all of her symptoms disappeared. She told me that she cancelled the surgery during a presentation I gave, in the town she lived in.

I am a 29 year old male and have had acne for over ten years. I have used diet, cleansing and other natural remedies. My symptoms decreased around 80%. I own the biofeedback device and I am the one sending this email. I did a session using the situation method, specifically on this issue. The results showed a possible bacteria problem. I proceeded with my protocol and then used Dr. Recommends Bacteria Fuge for over a week. My acne is nearly 100% diminished. There is hope for those who seek the truth.

I have scanned my girlfriend who is 25 years old several times. She has had some cramps, back pain and headaches prior to these sessions. She uses Dr. Recommends remedies - Fem B, Thyroid Thymus and Parathyroid. Basically I use the device to detect the appropriate remedies for her during the month. She has no headaches, her back pain has decreased by 75% and she has no more cramps.

I scan my mother who is 55. She has been diagnosed with hypothyroid and was taking synthetic drugs for this. I told her to try the Dr. Recommends Thyroid Thymus Parathyroid. She told her physician about it as well. She no longer uses the drugs and she has told me she notices a clearer mind when using the biofeedback and homeopathics.

I worked with a 10 year old girl who had different allergies that were pollen related. I did a biofeedback scan and sure enough it showed on the device both in the allergy screen and in the main matrix. I did the

session and gave her the Dr. Recommends Pollen remedy. Her allergies have decreased considerably since this session.

The most amazing part of this device is the accuracy. I feel so in tuned with my clients that it is almost like I know them better than they do. If the world wants to have a safe way to detect stress and help themselves I believe Nelson Medicine can have a huge impact on this world.

Dilworth, Minnesota

A Boulder, Colorado Biofeedback Practitioner saw a 45 year old woman lawyer with late stage breast cancer. She admitted that the stress of a high profile Denver law practice was a major factor in her onset of cancer. Skeptical of biofeedback's benefits, she agreed to a 90 day stress detection/management

program. In those 3 months, and after 6 biofeedback sessions with the EPFX, she reported to the Practitioner a complete remission of the breast cancer, proven to her and her family with well documented cancer marker tests from her Denver Oncologist.

A Boulder, Colorado Biofeedback Practitioner saw a 3 year old child with external skin warts that covered most of her small frail body, even her face. She was not able to attend daycare because of the fear the

daycare center had about the possibly contagious nature of the child's condition. After 2 biofeedback sessions over a 6 week period all external body warts subsided and the child began to thrive and was shortly after that allowed back into the daycare program with no further relapse of the condition and its symptoms.

A Boulder, Colorado Biofeedback Practitioner saw a young 28 year old married woman that was diagnosed with infertility and who desperately wanted to have children with her newly wedded handsome and healthy husband. Soon into the young marriage she was beginning to blame herself and was accepting a very poor image of herself due to her inability to conceive. After a 3 month period of regular, weekly biofeedback sessions, the Practitioner received a note in the mail announcing the good news that she had conceived and the attending Doctor reassured her of a happy and healthy birth that coming spring.

Colorado, U.S.A.

"A 92 year old woman from Pound, Wisconsin, very close to death, diagnosed with Congestive Heart Failure, Organ Failure and other maladies, is now enjoying great health after 10 treatments over 3 months with the EPFX. She asked for books, crossword puzzles and began crocheting again after several years."

"A 52 year old woman from Coleman, Wisconsin with "Drop Foot" was able to move her foot and was pain free the day after just one treatment with the EPFX."

"A 40 year old woman from Sierra Vista, Arizona, with "Insomnia" has been sleeping better than she has in 12 years with 2 EPFX sessions over a period of two weeks."

Wisconsin, U.S.A.

Thursday, 17 January 2008

Patient: (name withheld for privacy reasons)

Address: Casablanca, Morocco

Date of Birth: 28/08/1997

Gender: Female

First Consultation: 27/02/2003

Presenting Complaint: Respiratory dysfunction, Asthma related symptoms. Adenoidectomy performed at 18 months. Overweight.

Presently being treated with Seretide 500 (serre-tied) is a medicine which is used in asthma and chronic obstructive pulmonary disease.

QXCI was used for testing and therapy application: Programs used were NLP, Biofeedback, EEG, ECG to treat for stress related to anxiety fear and worry. Prescribed Psor 200 S/D and Thuja 200 1 X Week for 4 Weeks.

Second Consultation: 27/03/2003

There was a marked improvement immediately following the first consultation with some acute attacks controlled with homeopathic remedies and Seretide 250 (note reduction of dose).

Tested and treated with QXCI, Used therapy suggestions from QXCI. Prescribed Tub. 1M , 1X Week for 4 Weeks and Bell 30, as required for acute Asthma symptoms.

Recommended Homeopathic Remedy Kit for the home.

Third Consultation: 29/04/2003

Patient continues to improve, less frequency of Asthma attacks, using Homeopathic remedies and Seretide 125 (note reduction of dose) to control.

Tested and treated with QXCI. Prescribed Calc. 30, 1 X every other day for 2 Weeks. Natural Vit/Min supplement.

10/05/2003: Telephone consultation for acute attack Asthma/Cough

Prescribed Ant.-t 30, as required for acute

Fourth Consultation: 27/05/2003

Patient makes very good progress, after reduction of Seretide patient is now free of allopathics.

Test and treat with QXCI. Prescribed Calc. 100, 1 X for 5 days, Ant.-t 30 to hold for acute attack.

Fifth Consultation: 23/09/2003

Patient improved in all respects, weight is now normal for age and height. No allopathic drugs being used.

Preventive Treatment Plan: Using QXCI, Desensitization program for allergies and immune system improvement.

Casablanca, Morocco

My brief partial medical history:

I am a female and was born 11/21/1950

Hepatitis C (contracted 37 years ago at age 19),

Hepatitis A (contracted 23 years ago at age 34) from a blood transfusion UTI's and kidney infections which began at age 23. For 25 years doctors treated these with antibiotics but they remained chronic.

Eventually I left the allopathic treatment and sought a herbal remedy. After a 10 day regimen of drinking herbal tea the infection finally subsided. I never had another symptomatic infection.

Unfortunately the long term infections and the years of antibiotics left me chronically tired and generally unwell.

City Unknown

Six years ago I came down with a mystery disease. My doctors ran tests and could not come up with a diagnosis and therefore considered this illness to be psychological in nature. From my perspective it was not only psychologically challenging but the physical symptoms were also very challenging to live with. The laundry list includes extreme fatigue and anxiety, insomnia, skin rashes, palpitations, nausea,

vomiting, fevers, neurological buzzing sensations, dizziness to the point of almost blacking out, seizures, vision problems etc. As a last ditch effort, I tried the EPFX to help reduce my stress levels from living in this horrible state. To my amazement, I immediately felt peaceful and calm and the anxiety had disappeared. In that moment I knew that I needed to know more about this amazing technology. Without question, I purchased a device to help me unravel the web of ongoing stress. And it worked. With the help of a knowledgeable doctor and the EPFX, we determined that I had been suffering from Lyme disease. I was able to bring my body, mind and spirit back into balance by using the device weekly. I also established a nutritional and homeopathic program which helped to rebuild my body. If it weren't for the EPFX, I honestly don't know if I'd be here writing this today. Thank you Dr. Nelson for your amazing contribution to the world and for saving my life.

I have a female client, 48 that had a grapefruit sized tumor removed from the temporal lobe of her brain. After the operation, her speech was severely affected, it was hard for her to remember words and she had several unusual behavioral tics. Following her surgery, she began working with the EPFX on a weekly basis and now her speech and memory is perfect and her behavioral tics disappeared. At one point, the doctors noticed that the tumor was growing back. She resumed her sessions with the EPFX and 2 months later when she returned to her doctors to discuss having the second tumor removed, they discovered that the tumor had disappeared. The only thing that she had been doing differently was she had begun her EPFX sessions again. Needless to say, both she and her husband were thrilled and she is tumor free.

I have a 54 year old male with esophageal cancer. He has been receiving chemotherapy and radiation treatments. When the radiation treatments began (once a day for 6 weeks) the doctors warned that by week two, he would be having trouble swallowing and that it was very likely that he would need a feeding tube in his stomach by week two. Well, he sailed through his radiation treatments and did not have any burning discomfort in his esophagus until the very last two radiation treatments. We have been working with the EPFX weekly for almost five months. He has not needed a feeding tube and has been eating on his own. He will have tests soon to determine the state of the tumor.

City Unknown

A 40-something lady from Syracuse, NY had been experiencing great emotional stress due to losing her Mom, taking care of affairs afterwards, changing jobs and ending a relationship of many years.

After just two sessions, she noticed a difference ~ getting up in the morning after a good night's sleep, she felt she could "handle things better". She was not fretting about what to do first, she felt in

"control". After the fourth session, she called to say that she was a lot less stressed, more focused and though she missed her Mom the grief and sadness had lifted!

Syracuse, New York

Today I saw a patient who is suffering from Emphysema. This patient is in a bad way and was breathing with great docility when he arrived at my clinic. I treated this person using a specific protocol via the EPFX. I asked the patient to do a lung capacity test before therapy. The reading was 100 which is quite low. During therapy the patients breathing eased and his demeanor radically changed..

After therapy the patient was much relieved and his breathing was almost normal. A second lung capacity test gave a reading of 400 which is quite a dramatic improvement on the first test.

I will be seeing this patient on a fortnightly basis and will keep you informed on his progress. Perhaps I should point out that this man is not taking any medication apart from an inhaler which was losing its effectiveness at a rapid rate as his lungs deteriorated.

Thank you for making such a valuable tool as the EPFX available.. The EPFX is the best therapy tool I have ever used in my nearly 50 years of practice and research.

City Unknown

1. A 70 years old lady in Stockholm, Sweden, had severe tooth ache on the Monday Thursday, but when she called her dentist he had already closed for the Easter days, and she hated to go to the acute dentist, so she asked me if I could help her. I did, and when she rose after the session, the ache was almost gone. She had a second treatment the next day and after that she was completely free from the toothache. She did not have to go to her dentist until her normal half yearly visit 5 months later.

2. A lady of 59 from Oevik in Sweden had great problems with her hip. She had a short session of about 35 minutes here in Stockholm on the way back home before she and her family had to leave, and her

husband was sitting at her side watching. When I had finished and the man rose, he asked me, if the frequencies also went outside of the stripes, and I said "yes, they do, but much weaker of course." Then he said he had also had some pain in his hip, but that was gone now. So was the more severe pain of his wife.

3. A 78 years old lady in Stockholm suffering from dry coating on the retina was much better after 5 sessions with QXCI-SCIO but also wanted help for other problems. On one occasion the program showed she had cataract problems, so I asked her if that was correct. "Yes," she said, "my eye-specialist has said I have a slight cataract, but that it isn't necessary to operate for some time." I balanced the cataract and when she rose and looked out through the window, she exclaimed: 'Oh, is that house over there so shining yellow! I have always believed it was a bit dull yellow. Oh dear me, such difference!' She did not have an operation.

4. A man of 45 in Stockholm had great problems with his bowels, and constipation for several years. After 4 sessions with the QXCI-SCIO he reported the problems were gone, and 3 years later they had not returned.

Stockholm, Sweden

I am a Practitioner in South Mississippi, USA

My client is a male, 9 years old with Autism. I have had 14 biofeedback sessions with him on the EPMX since August 2007 In the beginning he was only able to sit for about 5 minutes with just the head harness on and his mother standing right there with him. He is unable to talk but makes loud noises. Every visit we were able to get him to be still longer and calm. He now walks into the room quietly and sits down and picks up the head harness to put on and sits for at least one hour for a EPMX session. The last session we had he was calm and sat for 1 hour and 15 minutes. His mother called me after Christmas in tears wanting to thank me that this was the best Christmas they had ever had with this child. He participated in opening presents and interacted with other children. He also has started making different sounds such as he imitated a barking dog. After four months he was also able to attend a birthday party and was the best behaved child there. He still has some bad days but overall he has greatly improved, he is not as hyper and is calmer for longer periods of time.

My client is a female 48 years old and has Multiple Sclerosis. She is unable to walk at the present time and is in a wheel chair. I first started seeing her November 1, 2007 for biofeedback session on the EPTX.

When she arrived at my office her father and I had to basically pick her up and transport her to the chair. Every session she told me she was getting stronger. After three sessions she was able to dress herself again. At her last session which would have been number 5 she pushed herself up from the wheelchair and stood and transferred to the chair by herself. When she was ready to leave she did the same thing again, pushed herself up and stood and twisted around and sat in wheel chair.

My client is a female 54 years old and has the Shingles. She had them for 2 months before she came to have a biofeedback session on the EPTX After 4 days she called me and wanted me to know that they were drying up. Two weeks later she came in for another biofeedback session and they were dried up completely.

My client is a female 41 years old. She has had 7 back surgeries and on pain medication every day. After her session on the EPTX she only had to take pain medication twice in the next two weeks before she returned for another session. She now comes every 2 to 3 weeks for a biofeedback session on the EPTX and is not pain free but able to manage her pain without any narcotics.

My client is a female 54 years old. She has been diagnosed with Alzheimer's. When she first came for a biofeedback session she had blank look in her eyes and was very quiet. She was not able to tell me her birthday and other input information. After 5 sessions on the EPTX she is like a different person. She is alert and her eyes are shining. She is remembering and communication with others alot better. Her family informed me that her whole outlook on life is better.

Mississippi, U.S.A.

I recently held a session for a 64 year old man who was diagnosed with lobular emphysema in one lung, the other lung collapsed. Smoking was a large part of his past. He had trouble walking from room to room in his small apartment and required the aid of an oxygen tank at all times. The 200 meter walk from the apartment to the street could not be done without intermittent rest stops. He received his first session with not many expectations, however he was open and hopeful. The session lasted three hours, during which time I covered the programs I believed to be the most beneficial to him. I was amazed by how precise the SCIO measured from what I knew of this situation. The following day he managed to walk roughly 400 meters including a staircase climb and descent, without the aid of oxygen. He claimed

to have higher energy levels, breathe easier, and feel emotionally more positive overall. His wife says it was a miracle.

Delta, British Columbia, Canada

My EPPX practitioner has performed some incredible feats of accomplishment on my son Austin who is 10 years old. He started exhibiting signs of Autism and more specifically Asperger's syndrome at 5 years old at which time we tried the stimulants that are obviously horrible things to give to a child. Well, needless to say, we weaned him off of all of them. We had created a zombie by giving them to him and couldn't tolerate the look on his face nor the feelings that we had for causing the situation to get as far as it did. After he was off all the stimulants he was a handful beyond belief, he was hard to control. We had him in Montessori school to aid him because although he had Asperger's he was extremely intelligent. At first grade the instructors at the school were having difficulty dealing with him and we were asked to put him somewhere else. We found the CDC School which was a UCI extension school project over by the University in Newport Beach. They specifically deal with any ADD, ADHD, and Asperger's syndrome students. We paid \$1200 per month to keep him there for a year and a half. They did an incredible job at re-educating him to read people and act more appropriately in social situations. He didn't learn much academically because he came in 3 grade levels ahead of where he was supposed to be according to where he was in Montessori before going to CDC. They had to bring in extra books and resources to keep him busy. He was doing much better but he still had Autism/Asperger's. It was assumed that he would have this condition his whole life and that he would have to always be aware and deal with it. In comes the practitioner, who was already treating my wife who is a Doctor of Pharmacy and is basically now homeopathic all the way. We take UNDA's, and Standard Process, and many other of the homeopathic remedies for anything that comes up. Debra saw my wife was so sad at how much work Austin had to do to keep his wits about him... wait I skipped one important piece of information... we had to put him into public school since he had graduated from the capabilities and age of the CDC school. The practitioner offered to try to help Austin for free. It's been about 6 weeks and none of his disorders show up on the Xrroid analysis anymore and he is an INCREDIBLE boy. It is AMAZING and BEYOND OUR IMAGINATION that your machine and software was able to do that for him. He acts

"normal". Not completely because he has to learn a few things over again that became habit due to his disability. You no longer see ADD, ADHD, AUTISM, ASPERGERS SYNDROME showing up when he is tested anymore. Gone. And it was incredibly obvious. We didn't tell his public school teacher what we were doing. His name is Mr. Hoffman at Wagon Wheel Elementary School and, fortunately for us, he is very knowledgeable about ADD children as he was an ADD child, and is now an ADD adult. He is a teacher now, but he was a principal for 5 years and helped a lot of kids and he is incredibly ADD kid friendly. We didn't have to tell him, he told us that Austin had changed, it was like a switch was flipped. After a

couple of weeks we told them what we had been doing. He told us to keep it up, whatever it was, because it is definitely an amazing feat of accomplishment.

You have done a wondrous service for mankind Mr. Nelson. God Bless you.

City unknown

Case 1:

A 44 year old manager working a very strenuous busy job UPS with:

Bilateral Knee Pain:

Stress History: In September, 2000, working for UPS – “I was working on the belt, repetitively jumping down 3 feet and jumped one too many times and I could not stand.”

Diagnosis: Lateral meniscus tear.

Treatment: Arthroscopic surgery in October, 2000 to repair the tear and shave the patella and physical therapy for 3 months.

Post-Surgery and PT: Not able to bend at the knees properly. Developed chronic pain in both knees. Worse in the winter months requiring Vicoden for pain management.

“I was a wiener, complaining all the time about my knee and my back pain. I could not go horseback riding or climb stairs or go bowling without severe pain. It also limited my gardening and my life considerably.” I was depressed, negative and often in a bad mood.

Biofeedback Session: One 1 ½ hour session

Post Q.B. Results: R.C. felt immediate pain relief and started doing squats as she left our clinic. She has been out of knee pain for over 2 months.

“I have been back to bowling and bocce ball. I walked 4 miles the other day without pain or swelling. In the past, if it wasn't a pill, it wasn't really medicine. I had a narrow mind to thinking outside the box towards alternative health care. Now I tell everybody, you've got to understand, Q.B. will help you to do things you never did before. It will help you with problems you have forgotten, that will come out during the session. You are going to feel better. I feel more energetic, and can go bowling and do whatever I want. I also can handle stress way better and am able to calm other people down. Q.B. reduced my knee pain and my stress which powerfully changed my life. I am so glad I opened my mind and tried QB.”

Case 2: Initials: C. P.

22-year-old female student who gets into an auto accident and while being examined they find a cancerous nodule on her thyroid.

Stress History: Started with no Symptoms

Auto accident – December 4, 2006- Injured neck. Put on Vicodin, Valium, Relpax for migraines, Compazine for nausea, Naproxen – Joint pain and a muscle relaxant. Tried Elavil – as migraine preventatives – made her sleep 22 hours a day. Started Effexor 2 days later, – had adverse reactions – Wake up with heart racing, chest tight, thought she was dying, muscle spasming, difficulty breathing swallowing, could not think straight. Was prescribed Allegra for allergies and sinus congestion – adverse reactions- constantly made nose run.

Medical Diagnosis: Thyroid Cancer – Diagnosed after injury in Dec 2006 – routine checkup – found a nodule on thyroid.

Dec 26 2006 - Complete Thyroidectomy, Prescribed. Remeron – for nausea while going through radiation – adverse reaction of swelling and lethargic. Darvocet post thyroidectomy operation – gave me nightmares.

Post-Surgical Symptoms: Tired, weak, nauseous, constant pain, muscle aches, could not think or concentrate, constipation, abdominal pain, hungry but could not eat, nausea, attention deficit, degenerated, very sickly, whole body hurt, total fatigue, migraines, muscle aches, joint aches, neck pain, general body weakness. Sleeping 18 hours a day.

Biofeedback Sessions – Six 1 ½ to 2 hour sessions from April 17<sup>th</sup> to July 17<sup>th</sup>.

April 17th, 2007, First Session

Taking– Valium, Relpax, Compazine, Naproxen, Allegra, and Levothroid

Symptoms: Sick of being in pain, had zero energy, depressed, pessimistic, unmotivated, apathetic, withdrawn, felt sick all the time and slept 14-16 hours a day. Not able to concentrate, difficulty driving, and could not go to work or school. Did Radioactive Iodine Treatment and spent one week in isolation after taking two pills of radioactive iodine I131.

July 17, 2007- last session.

Off all medications except Levothroid.

Feel great. A little tired. Still having some constipation with difficulty digesting proteins. I am much more active. No migraines in 3 weeks. Can focus better, still having problems with linguistic elements, word formation. Started taking Omega and Iron, multi vitamin and mineral, helping. Sleeping average 9 hours and have good energy throughout the day. Much less muscle and joint pain. Increased range of motion in neck and back areas. No longer depressed. She feels optimistic and motivated.

“Quantum Biofeedback lifted this black cloud out of my body comprised of pain, negative feelings, thoughts and sickness, illness and weakness. I’ve been much better at being able to stay in the present

and try to focus on positively and healing and taking care of my body. The sessions have helped me overall to heal my body, bringing my taste back, helping me sleep, making me be more in touch with changing my activities and lifestyle, directing me on how to take care of myself so I can heal better. I've recommended it to just about everybody I know who is suffering from ailment that they have not been able to treat. Either if Allopathic medicine has not worked or they want a more holistic approach."

Case 3:

Stress History: Middle aged woman struggling in a crisis trying to find happiness and her true self.

Symptoms: Depression, hopelessness, loneliness, lost, mental fog, easily brought to anger. GI stress.

She did a number of Q.B. sessions over a 6 month period.

"This is a fantastic healing process. It gets down to the core of what's true for you. It is truly holistic involving the mind, body spirit and emotions. I found the emotional awareness from coming out of this process to be life changing because it clarifies what the truth is and where you are stuck. Then it goes to the next step and provides remedies for reducing stress from the energetic, physical, beliefs and feelings. The affirmations to address negative beliefs and feelings have been very helpful. Also the homeopathic and herbal remedies have been great for reducing physical blocks. I have also been able to resource ideas to address spiritual dilemmas. The whole process is a fascinating journey into the heart soul and spirit of your truth. The results are magical as I was on a downward negative spiral and this process turned that around by contemplating new ways to look at things. I realized that because of my family of origin neglected me and suppressed my core spirit and as a result, I developed unhealthy patterns. I am now engaged in rethinking my basic core beliefs and realizing the only limit to my freedom are these core beliefs that I bought into for 40 years. I am now in the process of peeling the onion and releasing them so I can actually be who I really am. I've tried everything hundreds of therapeutic modalities, religion, prayer and Quantum Biofeedback has reduced my stress and really brought me the clarity I needed to heal."

Have an 80 year old male post triple bypass and two stents later... Dr. told him when these plugged up that was the end, there was nothing more they could do. He had a hard time walking 500 feet from his

back door to his brothers. After two sessions on my QXCI he has been out bird hunting this past fall and chopping his own wood.

City Unknown

Another mid 70's gentleman came in with chest pressure and SOB. Was scheduled for angiogram in two weeks. After one session with my QXCI he had the angiogram and dr. could find nothing as far as blockage....!!!! Dr. cannot figure out why the symptoms and no physical findings.

City Unknown

A 55 year old man, from Los Angeles, California had been diagnosed by an MD with ADHD. He came to see me with a list of complaints that included: anxiety, frequent and quick mood swings, inability to concentrate, anger outbursts, depression, inability to prioritize, low energy, insomnia, etc. After 10 treatments over a three month period with the EPM he reported that he was much calmer, the mood swings had gone, he was able to arrive on time to work, his personal relationships had improved because of his ability to express himself in a calm manner, he was sleeping better and had enough energy to work a full day and then go home and work on his sculptures. During the time we were working with the EPM he worked with his MD and was able to quit his anti-depressant.

L.A., U.S.A.

A 49 year old woman from Los Angeles, CA had experienced intense pre-menstrual depression, bloating, headaches and irritability, and post-menstrual painful and debilitating cramps for over 30 years. After 5 treatments over 3 months' time with the EPM she reported that her pre-menstrual depression was completely gone. Her mood swings had disappeared and the menstrual cramps were in most cases no longer an issue and when she did experience them the severity was lessened by 90%.

L.A., U.S.A.

#### CLIENT #1

36YR OLD FEMALE. Client reported that she could not smell and fingers and mouth would turn blue due to lack of oxygen. She also reported that she had been in an auto accident and had surgery on her face. She said she was constantly in and out of hospital for oxygen. One session for 1 hour and client told me she could smell everything in the office. Four months later she reported that she had not yet been back to the hospital for oxygen.

#### CLIENT #2

59YR OLD MALE. Client reported chronic allergies for the last 30 years. Client used Claritin and Flonase (steroid type nasal spray) every day for the last 10 years. After 4 sessions (once a week for 4 weeks) each session was 1 ~ hours long, client reported that allergies were greatly diminished and had not had to use the medicine but twice since the first session. After 8 sessions, client was not having any of the chronic and painful symptoms he had had in the past. 6 months later, client reported 2 days of very slight allergy symptoms thru the worst of the pollen and cedar fever seasons. Client one year later, reports no allergy symptoms.

#### CLIENT #3

9YR OLD MALE. Mother reported that the child was adopted and mother was addicted to methamphetamine. Mother reported that child had been diagnosed with ADHD and Asberger's. After 2 sessions (approx. 1 ~ hours each), mother reported a slightly more rational and calmer demeanor.

After 2 sessions (each session approx. 1 ~ hours each) a month for 4 months, Mother felt major shift in emotional connections and calmness in child. Child reported to me that he felt he could think clearer and

people liked him more. Teacher reported better behavior, more peaceful and better interaction with others.

City Unknown

I have had the EPFX Scio for a year and 1/2 now, and here is a testimonial from one of my clients, a Physical Therapist in Washington (I live in OK City) who was near death and asking for prayer requests when I offered her free sessions to try to help her. Aside from the testimonial that follows, I have had much success in other areas, especially with people who had plantar fasciitis.. Hope this helps.

City unknown

These clients have wonderful stories to tell about their experiences at our office . . .

#### BRAIN INJURY:

"I had about 30 pounds of trail mix fall from the top shelf at Wal-Mart. It hit me on the head and the carton burst open. As a result, I had a brain injury and intermittent loss of speech, stuttering, sleep lapsing and brain fog. I also had shooting pains down the back that took my breath away and my hands and arms went numb constantly. It was impossible to concentrate, and I lost the ability to read or comprehend what I heard or saw. I also had dizziness and light-headedness, and lost my ability to twirl the baton (I am a baton teacher). In addition, I lost the ability to do simple, necessary tasks for personal care. I began with chiropractic care and also had biofeedback sessions. I just knew that I was progressing a lot with each session. If I go too long without care I am not able to maintain the full progress that I was making. Thanks to my therapist's care, I gained clarity of my mind and recovered a lot of energy that I thought was lost. The care also cleared a lot of brain fog and I went from being unable to drive to driving a little with poor reactions and eventually started driving with confidence and ease. I contribute my ease of driving to the fact that I could concentrate, see better and had clarity in my mind. Every time I get therapy, my life is improved and I feel alert. You can just tell that everything is clearer and sharper in my mind and senses. Through the therapies, I have been greatly helped where no one else has."

Ocala, FL

LOTS OF ENERGY:

"AMAZING, JUST AMAZING! I could not believe the experience could be as effective as it was. Thanks to biofeedback and my practitioner, I now have lots more energy. I was amazed that all the feelings of stress were gone. My friend was just as impressed with her care as I was."

Silver Springs, FL

SPIRITUAL GROWTH POSSIBLE:

"Since I have been coming for care, I feel as if I have grown spiritually. I have always fought because I always wanted to be in control, and I struggled within myself. This biofeedback care has helped me learn to let go and let God have His way. For the first time in my life I am in the process of ACCEPTING myself AND LIKING WHO I AM."

Summerglen, FL

ANXIETY, CHEST PAINS, RAPID HEART RATE, HIGH BLOOD PRESSURE:

"Before I received Biofeedback therapy I was anxious and had severe chest pains. I had difficulty breathing and could not focus my mind. After the first therapy with the EPM and the instrument my blood pressure improved and my breathing was no longer hyperventilating in nature. My mind stopped racing and I could think again. This machine is just wonderful."

Ocala, FL

POSITIVE EMOTIONALLY AND PHYSICALLY:

"I learned a lot about myself and my emotional and physical energy systems. Biofeedback was a positive experience. I am looking forward to the completion of this awarding program."

Ocala, FL

FIBROID TUMOR SYMPTOMS, NECK, INFLAMATION, SLEEPING, PARASITE:

The biofeedback system has helped with my fibroid tumor symptoms. I have had two months of normal periods now. I have had a better energy quality level. My neck pain and my inflammation are much better. With the first time the pain in my neck was gone. Sleeping is good now and I can sleep really, really deep, which I had never experienced before. The tingling in my foot is gone and the worm that was under the skin in my hand is completely gone."

Ft. McCoy, FL

BACK PAIN, SLEEP, ALLERGIES, RARE POISON GAS, KIDNEY STONES, FOOD POISON:

"This biofeedback with the EPMX has really helped my back a lot. It has helped my allergies and pointed out foods I can eat and those I should stay away from. In addition, it has helped me sleep. During the care we found a rare gas which poisoned me many years ago called Greenland's gas. It was so impressive that the instrument helped to find the specific name of this gas. The gas had caused a severe case of pneumonia and my body was still stressed by that episode. I was cleared from that problem. On one occasion, we found kidney stones in my system. The next day I passed (11) kidney stones plus gravel safely. Two days ago I had food poisoning and today we found 6 types of bacteria including the food poisoning bacteria."

Ocala, FL

BACK PAIN:

The biofeedback care with the EPMX has helped my back. I don't need to get my chiropractic treatments as much."

Ft McCoy, FL

#### LUNGS, NUTRITION:

"In addition to my lungs clearing up, there are numbers of items that the biofeedback helped me to clear out. It really helped me with vitamins and nutrition that my body needs."

Ocala, FL

#### TURNED ANGER TO PEACE:

"The day I arrived for my first biofeedback session with the EPFX I was angry. When I left I was calm, happy and peaceful."

Homosassa

Springs FL

#### KNOWLEDGE OF SELF:

"I don't know what it is or how it works. I just know that it figures out information about me which I didn't realize but it turns out to be true." Sparr, FL

#### REJECTION CRISIS PATTERN:

"I wanted to heal the rejection in my life. The biofeedback helped me to find the pattern. They revealed that my first crisis in rejection was five months after conception while I was still in my mother's womb! My Mother had told me that my father was 20 years older and a very mean man. When he found out that my Mom was pregnant he was very angry. Then my second crisis in rejection was the day that I was born. That was the day that the Russians crossed the border into Estonia during WWII. As a result of that invasion, our family and community immediately became refugees, and crying babies were not a good thing to have back then. I was rejected by the whole community. The Third and final crisis was at (3)

weeks of age. My mother told me that at (3) weeks she found my father holding me upside down in a rain barrel and he was trying to kill me, and she saved me. That experience was rejection for sure. I am much freer after my sessions. Thank you!"

Ocala FL

BAD COLD:

"I had a bad cold and was very sick in bed. Within an hour of doing biofeedback my cold is dramatically improved. It just really helps!"

Ocala, FL

VERY NEGATIVE EMOTIONAL PATTERN:

"The pattern of my emotional and mental spiritual energy is completely corrected. This very negative pattern always started with anger and fear to panic to devastation and then disillusionment and failure. Since the sessions with the EPFX my emotional blockages have disappeared and turned around. I am able to choose success, hope, faith and love and to make good choices. I am learning new things and adjusting my life accordingly. My life now has positive actions resulting in success. The end result is that the sessions have changed my life from one of constant failure and failure patterns to a constant pattern of accomplishment and success. This new pattern is a big miracle and my life is always going in a positive direction now."

The Villages,

FL

SLEEPING, FREQUENT URINATION:

"I had been in the hospital for bladder cancer and by-pass surgery a few months ago. As a result of the surgery and the chemo I had trouble sleeping and with frequent urination. After my first visit I had nearly

normal urination and my sleep is dramatically improved."

Citra,

FL

INFLAMATION, PAIN:

"The biofeedback sessions helped me to cope with inflammation in my body. After only one session the pain in my knees and thigh muscles completely went away for a few days."

Ocala, FL

PARASITES, FLAB, WHITE SKIN SPOTS:

"I'm getting rid of parasites and I am losing a lot of the weight and flab in my stomach. I also got rid of the white spots on my legs."

Ocala, FL

BANANA ALLERGY AND DIARRHEA:

"I had constant diarrhea. We discovered the banana allergy and I quit bananas the diarrhea cleared up."

Silver Springs Shores, FL

ANGER AND MANY OTHER THINGS:

"I avoided making an appointment for months and once I finally did, I was in a period of tremendous anger due to my divorce, and I just knew I could hurt someone bad. At the end of the first visit, my anger was totally gone and I felt like hugging everyone. There are so many other things that have changed for me, which I can honestly say that the last three years of counseling and psychotherapy have not touched. If I knew then what I know now, I would have mortgaged my home, if necessary, to receive this care."

Silver Springs Shores, FL

Florida, U.S.A.

I saw a 58 year old client who's had a 'skin itch' issue. He'd gone to the clinics several times over the past two months and given creams but it just gets worse. Upon doing his session, something came up on the colon. So I asked how his bowel movements were. He stated that they've been loose forever.

I worked on skin areas but I worked more in digestive.

A week later he came back for a follow-up. His skin didn't itch for about three (3) days but his bowel movements are more normal than they've ever been. From there, we discussed 'malabsorbtion' and 'toxins' and the need to increase fiber foods. There's more work to do but that's a start.

Wisconsin, U.S.A.

1) I worked on a 12 year old boy with diagnosed learning disabilities and after working the stress programs on the relevant areas for 3 visits over 6 weeks this boys reading had improved by A FULL GRADE LEVEL – as verified by testing! His teachers and sports coaches were amazed at his improved ability to follow instruction verbally and comprehend written instruction.

2) At least 5 menopausal women have come to me complaining of symptoms of menopause that they were not able to get any relief from. They all reported 100% improvement after one session and they returned periodically for tune-ups.

3) I do mini-sessions as a means of sharing the EPMX and introducing people to it. One woman with fibromyalgia reported to me that she was pain-free for 3 months after a 20 minute mini session where we did the primary and secondary stress areas only.

4) A woman with cerebral palsy, but very high functioning – only visible signs are a slight tremor in the hands and tilt of the head, saw me to see if I could assist with a pain issue. She reported to me that her tremors (which were constant her entire life, 24 hours a day) had stopped completely for 10 days. We are looking forward to exploring this further!

City Unknown

Blood sugar levels as reported by a local medical laboratory decreased thirty points in a type 2 diabetic after two treatments.

An elderly woman reported greater range of motion in her arthritic shoulder after one treatment.

A menopausal woman reported cessation of hot flashes after one session. She had been having about ten per day.

City Unknown

A client and her husband traveled throughout Central America last year for about a month. Shortly after returning to Canada, my client developed an eye-condition with symptoms that included redness, itching, and intense pain. She found she couldn't even sleep at night because any time there was any pressure on her eyes, the pain would wake her up. Her doctor couldn't diagnose it, but gave her an antibiotic. When that didn't work, he gave her some cortisone. Still no success, so he was about to try percocet, which concerned her greatly. By this time, 6 months had passed, and her condition was worsening. She was very frustrated, and decided to seek alternative help. She somehow found me

over the internet and came to see me as soon as possible. We did the EPMX treatment, which lasted about 2 hours, and as she left, I suggested that she drink the marine phytoplankton whole food tonic, FrequenSea, as a base for her nutrition. She asked me if she should re-schedule another appointment, and I said I didn't think she would need it, but I would call the following week to see how she was doing. I did call her, and she said that for the first time in 6 months, she had hope, as her condition had improved considerably. I called her the next week and she said that her condition was completely cleared up - she was pain free, and felt wonderful.

Duncan, Canada

It has been some years ago, when during the X-mas holidays a friend of mine called, excused herself and asked me if I -though we had holiday -would treat a friend of hers, who went through a couple of days in the ambulance room of the hospital due to intense pain and immobility in her lower and upper back. She could not sleep and move anymore because of pain and distortion. Nothing had helped, she had gotten all kind of injections. I agreed that I would help immediately. The client, a woman of 28 years, hardly could walk up to the 1. floor, where I live. She climbed up with a stick, her back bent deep down. I must admit when I saw her my heart pounded. She had 2 people to help her to half sit half lie so that I could put the strings on. I went through the whole spinal program, spinal fluid, scanned the bacterias and virus and send homoeopathics related to the spine and pain, she also had a very bad stomach infection. After an hour she more and more relaxed, lying straight on her back and when I asked her to slowly roll over her side to get up and stand, I was hit by astonishment and joy of everybody involved. The patient stretched herself in full length, amazement on her face and with a big sigh she said this is the first time since 10 days that I feel painless and I can stand up straight.

City Unknown, Germany

I have had my device and have had great success in the stress reduction area. I have a friend who had been going for pain management therapy. Her pain was all over her body to the extent that it was affecting her ability to walk normally. She came for one treatment and saw immediate positive results. Her pain was greatly relieved and she now walks normally without difficulty. All this after only one treatment.

My sister-in-law who was rushed to the emergency room because of heavy bleeding was told that she needed surgery to remove her uterus and ovaries. Because of her low blood count, it was postponed. I used the device on her only once and her feeling of weakness was gone. Her bleeding stopped and she has not returned to the doctors to plan surgery. This took place two months ago.

Spring, Texas

1. Female - age 33 diagnosed with liver cancer she had regular weekly visits with the EFPX for an entire year. She is now cancer free it's been 4 months as of this writing.

2. Male - age 54 diagnosed with lymphoma he had regular weekly visits for 6 months. He went all around the clinic telling of how the EFPX had also detected a tooth cavity before it even happened. The doctors couldn't explain it.

3. Female - age 72 diagnosed with Leukemia. She had regular weekly sessions for 6 months as of today her medication is half what she was taking. She has more energy and also now a boyfriend he's 80. :O)

4. Client Female age 87 - she's been in Hospice for 3 years now. Sessions twice a month in person.

5. Male age 55 - severe back pain could not move or get out of bed. One session and an evening of rest he was back at work. His partner of 6 years stated it takes him weeks to recover, she has never seen a recovery that fast.

6. Female age 51 - severe food poisoning one session an evening of rest and back in class the next day.

7. Boy age 12 - ADHD 3 months of weekly sessions this was in 2004. His mother took him off medication ON HER OWN I do not advise or diagnose -she called me last week to say he's graduating.

City Unknown

My 83-year-old mother has had glaucoma for several years. At least twice or three times per year her ophthalmologist will tell her that the pressure is up and he'll need to do some procedure or put her on a drug. She calls me and tells me to treat her eyes with the SCIO before her re-check, which I do. The pressure is always down to normal when she returns to the office. The doctor is puzzled by this "unexplainable drop in pressure" which he observes. My mom just smiles and says, "See ya in six months." This has become a source of amusement for the family.

I use the SCIO every week on myself. I was diagnosed with Stage 4 GIST (gastrointestinal stromal tumor) in December of 2001 and should have been dead 6 years ago. I took Gleevec for a time but did not tolerate the drug well. My oncologist wants me to try a new drug that has worse side-effects but I have

resisted. I mainly use the Degenerative disease therapy on the SCIO, along with the Auto Therapies, detoxification, and bio-feedback. Most of my tumors are inactive according to PET-CT scans. There are some small "hot spots" in my intestinal tract but I remain symptom-free.

City Unknown

I have a client who is an identical twin that is about 200lbs over weight. She has been coming once a month for 9 months and has lost 95lbs. with doing nutrition balancing, adipose tissue dissolve,

addiction therapy, etc... Has no cravings, her diabetes is under control with no more pills. Her blood pressure is dropping and under control with less medication and experiencing more energy. She is receiving muscle toning at the same time so she is not experiencing the sagging and drooping of excess skin. Her identical twin has been doing the traditional weight loss method of dieting and has only lost 35lbs. With continuous cravings and frustration.

City Unknown

I am a Life Empowerment Coach, and Artist, who purchased an EPMX in May of 2006 or so. The reason I purchased one is that my own health was very challenged at that time. Both of my parents were in their dying processes, with severe dementia's with Alzheimer, Parkinson's and Alcoholism. The amount of stress and energy they were draining out of my life was truly becoming life threatened, TO ME!!!! They were too far gone to be worked with , so I did what I could; I worked on myself! Years of trying to feel better through allopathic means did not bring me into any better state.

My friend who owned an epx device worked on me, but I still had the feeling that it would be to my best interest to purchase one and learn how to work on myself. Then , I would be better equipped and be able to offer it as an adjunct therapy for my Life Coaching Clients, if that was of interest to them.

The most significant improvement that I could see regarding my own life and stress level was made most apparent in the EEG profile, where when I first got the device it kept indicating that I was extremely stressed by indicating "extreme infarction" . I worked with myself to lessen the stress on a consistent basis. Over a period of months that indicator, or "extreme infarction" disappeared from my screen. I , needless to say, was relieved to see that improvement!

Another interesting thing is that when I started drinking my very own "green drink concoction", my VARHO reading improved instantly. It was fascinating to see that fantastic improvement, like the same

day I drank my green drink. Hence, I have been very consistent with that since. I know when I have missed a few days, as the reading in the VARHO goes down, showing more stress. So, I see that drinking my green drink is a stress reliever for me... not only because I feel better, but the device proves it to me, with the read out.

City Unknown

I have a client that has Parkinson's Disease. She is experiencing tremendous results with the biofeedback. She can come in shaking uncontrollably and after about 15 minutes into the protocol she breathes a big sigh of relief and is no longer shaking. She goes for a period of at least 2 weeks without medication and without shaking. We are only into the second month of sessions with her so not sure what the long term outcome will be but the sessions are becoming less frequent each time that we do them.

City Unknown

In 2003, the mother of an 8 yr old boy presented with warts on hands, trunk and feet along w/frequent diarrhea and skin problems. She had taken him to two doctors who were unable to stop the warts from growing. The scan revealed the papilloma virus.

1. After zapping virus for some time and activating the point probe to present to the mother wart, the family was given nutritional education, diet changes were recommended and he parasite cleanse herbs and an immune booster. Four weeks later, they returned very elated that the warts were disappearing, diarrhea had disappeared and he was feeling better. Four weeks later, the warts were virtually gone and he was a healthy child. The Mom proceeded to tell her D. O. about the success and the D.O. then referred other clients to me.

A 36 year old female presented with severe depression and loss of hope. She had been diagnosed with Chronic Fatigue by her doctor. She was home schooling three children and her anxiety and panic attacks left her stranded and she could no longer think clearly. After approximately four to six biofeedback sessions on the EPFX, she regained hope, her loss of hope disappeared and her depression subsided to the point she was feeling vital and a part of the human race again..... and got a great job when her thinking cleared up. She's referred many people to me including two of her children, but told me last month that she is considering getting the device herself when she can afford it.

A 66 year old female presented with extreme allergies and had been diagnosed with Chronic Fatigue and Fibromyalgia along with digestive issues (leaky gut syndrome) by her doctor. After the first session in 2003, she felt great relief and continued monthly sessions for the next year as the balance to her nervous system and digestion subsided considerably and she had a new lease on life and wrote and published three books. She continues to come for biofeedback sessions when she has insomnia or is "out of whack" and appreciates the balancing with the EPMX device.

A 50 year old female presented with skin sores all over her arms to the point she had to wear long sleeve shirts in the summer. She works at a local health food store and she said it was embarrassing as six or seven doctors could not diagnose it. After three sessions on the EPMX, her arms were pretty clear, but still itched. After clearing septicemia along with several antidote homeopathic remedies six months later she had no more complaints about her arms. But continues to be upset that doctors could not help her.

A retired 66 year old male presented with sores on the tips of his toes. He ate well and exercised and was in great health otherwise. He'd had prostate cancer years earlier. He played golf and the sores on his feet interfered with his enjoyment. The EPMX device has cleared up the sores on the tips of his toes + an additional point probe treatment to a sore knuckle, allowed the finger to expel a huge pus pocket to completely clear the irritation with the knuckle.

Tulsa, U.S.A.

I purchased the EPMX for personal use in January of 2007. I was hoping to get some relief from some long-term depression and support my other health issues and those of my family.

I have received immense help. In fact, it has changed my life. My thinking is different. To some degree, I feel like a different person. I think clearer and have a purpose and a mission. I am volunteering to be in charge of fund raising activities and am more involved in my community. That would not have happened one year ago.

I also had a lot of pain in my shoulder back and legs. All completely gone. The pain I had in my upper left tooth is also gone. I thought I would have to get it pulled. My husband has a very stressful job and is able to handle all sorts of situations with much more ease. He also had a toothache that was completely

relieved of pain after just two sessions. And then he went hiking and had a pain in his hip that just continued to get worse. In two sessions, he was pain free from that as well.

I have also used it to manage my migraines, which are now almost non-existent.

I was able to relieve my Mother of her back pain and the pain in her knee from her knee replacement. We are also trying to work on her Wet Macular Degeneration. We will be monitoring the progress from these sessions, as well.

My sister has many phobias and I was able to help her have more confidence and handle situations with more ease.

The EPFX is a valid and valuable asset. I think every family should have at least one to help support the needs of themselves, their friends and loved ones.

City Unknown

I was extremely sick before going on the Scio. I have Grave's disease and was given radioactive iodine by my doctor. I was just about bedridden and unable to read and drive due to me losing my eyesight. After my 12th session, my vision was restored and I was able to walk without assistance. I returned to school and became a minister and received many degrees and certificates in alternative medicine. I then bought my own device and have a wonderful practice. It has helped my ADD sons and my husband who suffers from depression. This device saved my life. This device saved my family from suffering and pain.

New York, U.S.A.

My four year daughter developed a urinary tract infection and would scream while urinating. I scanned her with the EPFX and urinary tract infection had a high reaction on the scan. I "zapped" that item and after the EPFX session my daughter urinated without pain.

I had a severe sore throat. The EPFX scan showed strep as a high reaction. I "zapped" that item and in the morning my sore throat pain was gone.

My daughter started vomiting repeatedly one night. After I repeatedly “zapped” the pathogens with the highest reaction, the vomiting ceased.

My husband’s scans showed high reactions to numerous pathogens. After using the Dr. Hulda Clark’s parasite cleanse, the pathogen reactions dropped significantly.

I find one of the greatest values in the nutritional information. The vitamin & mineral panels are fantastic. Many times a scan has shown “deficiencies” in an area and once quality supplements are used, the following scan shows improvement in the area supplemented. A friend’s Autistic child has shown deficiencies in each area expected with an Autistic person.

City Unknown

When I first got the machine I used it on my office and it picked up chronic fatigue, I did the balancing and two days later I realized that I was to move my office to my home, have someone else manage the body wrap business and I was to do biofeedback out of my husband's office. All our lives have taken a quantum leap forward.

I've worked with a 28 year old woman (for 3 years) who has a spinal cord injury and is on peritoneal dialysis 4 times a day because of kidney failure. When I first saw her in 2005 she had been on dialysis for 2 years and the doctors were insisting on a kidney transplant. It's been 3 years and she no longer has chronic bladder infections, she has minimal kidney function, and has not yet had to have the transplant. Many other areas of her life have improved.

The more I learn in other areas: Total Biology, Energy Medicine, Acupuncture, EFT, Energy Psychology, PSYCH-K, Esoteric Acupuncture, German New Medicine, etc. the more I understand reactions on the SCIO. Learning in every area of life makes me a better biofeedback practitioner.

Thank you Professor Nelson for your work, for being a pioneer in this area and for making another tool available that our souls may heal and we recognize who we really are.

City Unknown

I was getting migraines every day or two for 6 months or more, and had a few sessions on my Aunt's machine. After one of the sessions, my migraines went away for almost a whole month. I was in a horrible motor vehicle accident 4 years ago, and wasn't expected to survive, and if I did survive I would be a vegetable, or a paraplegic. I had a lot of work to do to get better, but I am not a vegetable, I can walk, talk, and breathe without a respirator. And that was before I was introduced to an EPMX.

Since then I have been getting better all the time, people that know me are shocked when they see me, after not being around for a while. They think I am a new person. I talk better (louder with more control, wasn't much more than a whisper before), my balance is better, I have more strength, am not in as much pain, and am more myself than I have been since the accident. I feel better all the time, and am so grateful for this machine that has been such a huge part in helping me get where I am today! Thank you!

My fiancé has had great results from sessions with the EPMX. He has had very high blood pressure, but was not on medication for it (the doctor had threatened to put him on meds for it if he did not lose 30 lbs). He didn't manage to lose 30lbs. But after 10 months of sessions at least once a month (but not usually more than twice a month), his blood pressure is not an issue with the doctor anymore.

Also, he has been deaf in his left ear since an accident when he was 5. The doctors said the hair follicles in the cochlea had fallen out, and he would never hear in that ear again.

He has been getting hearing tests every year for work; everyone was always the same, profound to completely deaf in that ear, until this year. The tests were always 85-95's, but the last test was 55-65's. And hearing was never really focused on during sessions, it is now.

City Unknown

One of my clients is a gentleman who could hardly get up to my office. He was in such horrible pain from a car accident, he had a morphine pump and still was in horrible pain. I had to walk down the steps and his wife and I put our arms around him and walked him up the steps. When I was through, he was amazed. He literally ran down the steps and a week later ran back up the steps, bounded into my office and announced that I was a genius. I simply explained that it was the wonderful EPMX and not myself that needed the affirmations. This same man was very ill and in the hospital dying several years later. His wife called me at 11:30 at night and said his organs were shutting down and he wasn't expected to live through the night. I put him in sub space and worked on him until 1:30 in the morning. His wife called the next day and said that the nurses and doctors were amazed because everything started working again and he is still alive to this day. I could go on and on but I suppose you will be quite bombarded

with emails from around the world. Thanks so much for, with the help of God creating such a wonderful device.

City Unknown

52 yr old female with constant pain in her right knee from hyper-extension trauma to her right knee. The client stated she could not get out of bed in the morning without exercising her knee because the pain was too great if she stood on the leg without exercising. Her orthopedist recommended physical therapy. Physical therapy was did not elevate the pain. The orthopedist then recommended surgery. Client refused surgery.

The client asked if I could help her with the pain. I told her stress and constant focus on the pain can increase the intensity of the pain and that biofeedback can help lower stress and help refocus the mind. After three sessions on the EPFX-SCIO, over three weeks, the pain disappeared. The client's knee has been pain free for 2 years.

City Unknown

I started out as a client of the device 7 1/2 years ago. My story is that I was diagnosed with Fibromyalgia & chronic Fatigue after a car accident in 1991. I took \$1500 worth of drugs a month, I could not function, I had horrible deep muscle pain, exhaustion that kept me from getting out of bed sometimes, and a severe depression that made me suicidal. I was under psychiatric care though I knew I was not crazy but I didn't know what to do. The drugs turned me into a zombie and I just wanted to die to be free from the pain and misery, the side effects sometimes were worse than the pain but I kept at it, hoping something would work....I was only 39 years old! I began to develop the inability to use my left hand and right foot. I could not recall common words and my mouth would not want to work properly to form words sometimes. My doctors advised me to purchase a wheelchair as I was developing signs of Multiple Sclerosis even though a brain CT showed no lesions and they told me there was nothing more they could do for me.

My medical doctors were giving up on me, I couldn't fathom it and I also couldn't accept it. An acquaintance of mine told me about the device and I drove 3 1/2 hours across my state to find the only practitioner around at that time. I had incredible results after the first session.

I was pain free for the first time in 10 years for two entire weeks. I was joyful, the depression had lifted, I began to sing again around the house and I wanted to go out and do things again. After a year of

receiving sessions irregularly because of the distance, I decided I needed to have my own device in order to see if I could continue to help myself find a path to wellness that had been missing with this disease.

Now, 6 1/2 years later, I have had such incredible results with the device in my life and my family. I no longer have Fibromyalgia nor Chronic Fatigue nor Depression. I do seek proper medical care when the need arises but my MD and I have a great relationship where she knows that I am proactive in my approach to health and she allows me room to de-stress my body first before resorting to invasive procedures. If it does not help me to use the device in an agreed upon time period, I agree to undergo her procedures. The only time I have had to do so is when my gallbladder ceased functioning and I had to have it removed surgically. I have been able to get off all prescription medication with the exception of thyroid glandular and my health has never been better. I'm 54 years old now and I look and feel like I'm ten years younger.

I had been using the device for 5 1/2 years when suddenly my VARHOPE scores dropped, my P/E Ratio went from normal to 80/50 and I began seeing stress related to thyroid cancer. I went to my doctor and had a scan done and we discovered a large mass under my jaw as well as 2 thyroid nodules, one the size of a pencil eraser, the other the size of a pin head. I had a thermogram done of the masses and the temperature increase between the normal tissue and the nodules was significant and I was sent to an oncologist who confirmed thyroid cancer. His immediate reaction was that he needed to remove at least the right lobe, possibly both lobes. I refused. I told him I wanted to see what I could do with nutrition and supplementation along with biofeedback for stress reduction and he was adamant that I did not have time to spare "wasting" it on things that don't work. I insisted that he was not going to cut into me until I knew I had at least tried. After approximately four months I went back and this time the biopsy showed no cancer cells and the nodules had begun to shrink. He said I had no more cancer. That was a year ago.

Oregon, U.S.A

1.) My first real experience with the EPM and Quantum Biofeedback was when my 5 year old son was extremely ill and throwing up for nearly 2 weeks. Conventional medicine had no idea of what to do. The doctor reluctantly gave him antibiotics, but that only made things worse. Suddenly I remembered a visit we had made to an EPM practitioner about a year previously. We had been recommended by a couple in our birthing class, since he worked with homeopathic vaccinations. I thought that we needed to have him check our son out and see what might be possible. When our son was checked out, there were indications of Food Poisoning from Chicken. The practitioner completed the session to address this and then recommended a homeopathic. He suggested that our son would be 100% better by the next day

and all better by the 3rd day - this was exactly the case. Both my wife and I had been thinking about food poisoning and he had had a chicken hot dog the day he first became ill, but conventional medicine was not interested in this. Interestingly he had had a minor bout about 3 weeks prior when he had only eaten 1/3 of a chicken hotdog.

2.) Ongoing issue of my own have been back spasms. An issue that occurs for no particular reason, other than I was an undersized football player and stress has become my middle name. The combination of the two seems to create energy jams that are suddenly released for little apparent reason (picking up a hangar), but which initiates a spasm crescendo that cannot be stopped as it has begun. All parts of my back have been involved and the standard protocol was to just relax and enjoy the ride :~) On average the spasms would subside after the 5th day - making for a long week. Since I have had the EPMX to run balancing programs on this issue the average time for the spasms to subside has been reduced to 24 hours.

3.) An acute issue I had was an extreme spasm in my upper intestines. I kept assuming it would subside, but it continued to get worse. I was beginning to think that I was going to need to go to the emergency room when I decided I needed to quickly run the suggested therapy in the EPMX system. The recommended therapy was Auto Meridian. Within 20 seconds of starting the program, the spasms subsided and never returned.

4.) One of my clients called with pains in her teeth. During the session we ran the Pain Rx in the Dental program and several weeks later the pain had still not returned

5.) One of my clients was a starting running back for a college football team. He had not gotten along well with the new coach the year before and subsequently had not played much. Having suffered a hamstring injury at the beginning of this last year, it did not look good. I along with my partners started working with him and had him back on the field in 2 weeks. We stayed with him for the whole year and he had the best season he has ever had and has a chance of being drafted.

City Unknown

1. One of the first client sessions was with a 50+ year old female. She had been previously diagnosed by the Medical Community as having Severe Mi niere's disease. She was also very hearing impaired from some sort of medical procedure that she had as a child. We started EPM therapy in the spring of 2005. The duration of our sessions was from one to two hours and were once per week for almost one year. This client was under extreme stress and the sessions were very calming and she would leave feeling relaxed and rejuvenated. After approximately 6 months of EPM sessions, one day she reported that she had not been having the dizzy spells as often. She even noticed that in the mornings when she would turn on the TV, she was able to reduce the volume and still hear it clearly. We were overjoyed. Each session seemed to lessen the dizzy spells and increase her ability to hear. Finally, when it seemed that the dizzy spells had become a thing of the past and her hearing was restored, she decided to purchase and EPM device for herself and her family.

2. In 2007 I was presented with a 14 year old young man diagnosed with Autism. His mother is a registered Nurse and has "tried everything" to help him. He was a normal baby, but at 3 years of age, when he received his routine vaccinations his behavior changed dramatically and he was diagnosed with Autism!! He does not speak, is very self-injurious and has fits of almost uncontrollable temper. He is approximately 200 lbs and can be very aggressive to himself and others. During our first session, he allowed himself to be placed in head harness with wrist and ankle straps also attached. He sat quietly as I worked to de-stress his tormented mind and body. After almost 2 hours, our session was finished. Later that evening his mother called me to tearfully say that for the first time he would make eye contact with her when she spoke to him. Apparently, he would previously never do that. Now, one year later, he is much calmer, especially after a session with me and he has actually begun initiating requests with his picture lanyard. His family, caregivers and teachers are thrilled with his progress. He is actually attempting to speak in whispers.

City Unknown

The reason I bought the machine was as follows. I am a registered nurse and was diagnosed at St Paul's Hospital as having asthma. I was put on steroid and ventolin puffers, a combination of two to use 4 times a day. This made me feel worse. I heard about the Scio through another nurse so decided to try it. It said I had eaten raw sushi 3 weeks prior and a bacteria had lodged in my right upper lung field. This is exactly where I was experiencing the tightness. After the session I have had no more chest tightness or asthma attacks and have not used any inhalers for 2 years since I was diagnosed.

I had a lady come to see me who said she was on antidepressants, I gave her one treatment and she has told so many people who have come to see me. She does not take any medications and is free of depression.

City Unknown

4 years ago Sept 21st my daughter flipped our SUV and suffered a crack to her C7 vertebrae. She went immediately from a 4.0 student/artist who loved life, was quite popular with both kids and adults and had aspirations to attend Harvard or Yale, to a depressed, suicidal, self-mutilating, insomniac etc. After over 100 doctors (and \$150,000)...MD's, Internists, endocrinologist, gynecologist, neurologists, chiropractors, etc she was getting sicker and sicker. The day I found a butcher knife under her dresser I knew it was only a matter of time and I would lose her. Either through suicide or just her body breaking down, I sincerely believe she would not be alive today had I not found the EPFX. After about 15 months of going from Doctor to Doctor she finally refused to see another one. She told me to just let her die because living was just too hard. I went into a depression; if I couldn't save my only daughter then I didn't want to live either.... (I have never had a problem with that before or after this) but I could not stop crying. Sometimes I would cry 10 times in one day.

What happened is about 9 months later I went to an EPFX practitioner. I knew nothing about energy medicine and had a one hour session and left. 4 days later I realized I hadn't cried in days and that I felt happy...like myself again. I called her and asked her if the machine could have done something to my emotions. Long story short I know it was not the placebo effect because I never dreamed it could help me with the depression, I was going only to see about some physical issues. (It is 2 years later and have not cried since...perhaps I have no tears left...but I am happy again.)

That day I ordered the machine. I knew without a doubt it had helped me and I prayed it might help my daughter. I have no medical background so I took all the training and it took me a year to figure it out but today my daughter is perfect, extremely healthy in every way. The reason I know the machine works is because I have it downloaded on 2 separate computers. I saw her scores go from 10's (for instance) on the VARHOP scale to 80 and 90's once we figured out what was wrong with her. It didn't matter which machine I used they both correlated beautifully with each other from her being extremely sick to healthy.

Myself, I have never felt better. I used to have hot flashes for over 3 years. I balanced the stressors in my hormone panel and no longer suffer from them. I used to use reading glasses. I balanced the stressors in my eyes and no longer use them.

A 51 year old woman, who at one point in her life had been an elite softball pitcher, and in fact, is in the Canadian & British Columbia Hall of fame 7 times, was diagnosed with rheumatoid arthritis when she was 40 years. Though she tried to continue to work in her profession as a counselor, the time came when she was so crippled & afflicted with pain that she couldn't continue. Because of some dishonesty in her work place, the benefits that she thought she was paying in to for disability, etc. were not being submitted, and she had absolutely no income, except for the welfare that was provided to her by the Canadian taxpayers.

The first time I went to her house, she needed a wheelchair to get around and was in complete crisis, shaking, fearful, and in obvious distress. Because of her financial situation, and the fact that she was a childhood friend, I offered to treat her for no charge.

I started treating her in February of 2005, using the protocols as I had been taught. We worked together usually twice a week. Her recovery was quite slow, but by July of that summer, she was out giving softball coaching clinics. Her health continued to improve, without even a setback when her sister (who refused my help) died of cancer in March of 2006. By the Fall of 2006, she had gone back to counseling part time, 3 days a week, and in the Spring of 2007, was once again able to hold down a full time position.

Needless to say, she couldn't be more grateful or enthusiastic in her praise for the wonders of the EPFX machine. Both she and I know without a doubt that it has saved her life.

Thank you once again for all that you put in to the development of the technology that is helping so many people.

City Unknown

- 2 years ago I was diagnosed with bipolar disorder and spent some time in a psychiatric hospital. They started me on a wide variety of medications (apx 10 different meds) I was hardly able to function in my job or any other aspect of life because of these medications. I started as a client and after three visits I had dramatic results, so dramatic that I purchased my own system. Within the first couple of months I

was able to get off all of my medications and I have had positive life changing results from using the QXCI/EPFX.

- I have been running various protocols on myself over the past couple of years. My back used to be in excruciating pain when I laid on my right side and that has completely gone away. I also have also seen a significant change in my circulation, increased energy, relief from PMS, stress relief, and clarity of thought all do to the QXCI/EPFX. I cannot imagine what my quality of life would be without this.

- I have had the opportunity to spend some time with a 7 year old child that experiences dramatic swing do to bipolar disorder. Since I have had the opportunity to run protocols on him he has balanced out significantly.

- I ran a 30 something year old adult for depression and stress. She found significant relief.

- We have seen significant relief for clients who have been diagnosed by their physician with fibromyalgia.

City Unknown

10 year old male. He has suffered from Asthma for all of his life. He was a frequent emergency room attendance. Steroids were given each visit along with other drugs. He was treated 3 times with the QX and for the last 4 years he has not gone back to the E room. He was treated monthly for the first 5 months and then a few other treatments since.

City Unknown

I have been a practitioner since 2006. I have a male client who is 69 years old. Several years ago, he was hit by a car and suffered a crushed ankle as a result. When I met him, he had already undergone two or three reconstructive-type surgeries on his crushed ankle. The surgeries were successful in that he was able to walk again fairly well, but he suffered with tremendous pain. His doctor offered several different pain killing prescriptions which he could only use at night because of his very active lifestyle. When I met him, he was considering have his foot amputated and being fitted for a prosthesis just so the pain would end. Reluctantly, he consented to try biofeedback and the results were amazing!! After just 4 weekly treatments, he was pain free for two months. At the end of the two months, the pain began to return, so he came for another session. The next session left him pain free for nearly three months. Needless to say, him and I were quite impressed and, of course, he was relieved to find that amputation would now be unnecessary. Thank you Professor Nelson!!

City Unknown

One female client is a 55 year old and suffered from the fear of driving a car and would have visions of blood and guts each time she drove. 6 treatments with the QX and she has no fear for the last 3 years.

City Unknown

I am an EPMX Practitioner. I have been using the system for about 1 ½ years. Over the course of a few months, I worked on my daughter's warts. She had warts all over her shin on her leg and on the back of one hand. She had these for several years and they kept spreading. She had seen a dermatologist and (despite her fear of needles ) had taken shots directly into some of the warts. She said it seemed to make them spread out a little but they didn't go away so she stopped going. She was willing to let me try to help but she didn't want to come to my house so I could hook her up. The only way she was willing to do it was if I worked on her while she was asleep at her house and I was at my house using her fingernails on the test tray as DNA. I worked on her 8 times and the warts have disappeared completely.

City Unknown

24 year old female. Her allergies keep her on weekly shots. She was treated 6 times 3 years ago and to date has not had any more allergy problems.

City Unknown

I had a client come in that is in her 70's and diagnosed with COPD. She has been on oxygen for many years. She scheduled 4 treatments over 6 weeks.

After 2 sessions, she informed me that she had cut her oxygen intake in half. She goes to therapy at the local hospital once a week, the therapists there also cut her oxygen in half during her therapy sessions with them.

After 4 EPFX sessions, she told me she was sleeping all night without her oxygen.

After 6 sessions, she went to the mountains at an elevation of over 8500 ft. and did not even take her oxygen with her.

It has been 6 months since her last EPFX session and she has not had any cases of needing the extra oxygen.

City Unknown

#1)

40 year old white woman. History of nasal polyps and allergies. In ER the night before. Distressed as a result of inability to comfortably breathe and emotional distress from repressing grief from having lost her husband to Lung Cancer the year before and now responsible to raise 7 year old adopted daughter. Diet consisted of candy and alcohol and minimal food, all hidden from even closest family members.

Rx: Steroidal spray, antibiotics, Armor Thyroid

EPFX revealed dehydration, Sugar Regulation risk, Inflammation, stress in Digestive System and stress in Sinus. Homotox – sinus showed stomach violation and fungus. Also, virus miasm. GABA and serotonin imbalance. Bodyviewer revealed large square on upper right with final dense foci over forehead.

Immune sarcode – emotions highest at 124. During session, client cried – symptoms of nasal polyps and grief overlapping.

Drs.recommended surgery.

Client took suggestions to control diet, allow grieving and to hydrate.

Client called 4 days later to say she woke up morning after treatment feeling 75% better (a miracle by her account) and wanted to return sooner than scheduled appointment. She has come regularly for 3 years and uses spray infrequently, has learned to express her grief, avoided surgery and feels and looks “better than ever.” Best of all, avoided surgery.

2)

52 year old white woman. Depression, overweight, migraines, musculoskeletal pain, menopausal sx – hotflashes, heart palpitations, multiple surgeries incl hysterectomy, breast reduction, and urethral.blockage. Multiple car accidents. 3<sup>rd</sup> marriage, previous husbands abusive.

Rx: Cephalexin, Phentolamine.

City Unknown

79 year old male, angry, stressed, not sleeping, having difficulty in his current relationship, problems with digestion, and pain in his shoulders and back. He has had about 6 sessions, monthly for 1 hour.

His current companion tells me that he is not angry anymore and they are having a great relationship. He tells me that he feels so much better. He is sleeping and having far less pain in his shoulders and back. He

and his companion went out for dinner last week and he said that he could order his favorite foods and not fear that he would have indigestion (and he didn't). His M.D. actually referred him to biofeedback sessions and the client says that he is so glad he found me.

City Unknown

A 61 year old woman who was operated on for a benign tumor in her colon, 17 years ago, by a surgeon, who ended up puncturing her colon in two places, because he was very agitated on account of the fact

that his son had tried committing suicide the night before he was to perform the operation. In any event, after the operation, my client got acute toxemia and almost died twice.

Afterwards, her intestines were plagued by adhesions so severe that they made it practically impossible for her to defecate, to the point where she ultimately needed to undergo an operation for a colostomy.

She spent the next 15 years going from doctor to doctor, all to no avail. She has a full array of MRIs & CT scans to attest to the degree of pathology at various points during her illness & subsequent healing cycle.

She heard about me approximately two years ago and came in for an appointment, complaining about a pain in the region next to the appendix and one in the area around the pancreas.

We started the stress reduction session and, by the end of it, she claimed that she no longer felt pain in those areas. After the next session, she later reported that the blocking from adhesions had lessened to the point she was finally able to have a bowel movement.

Subsequent sessions saw progressive benefits accruing, as attested by the MRIs and CT scans requested by her primary care physician, which showed, among other things, an appendix that was virtually normal, in every respect.

Though she is significantly better at this point, she has elected to have us continue working on other issues, to see how they, too, may well improve through the remarkable technology of stress reduction made possible through this device that you have brought into being.

City Unknown

Since starting to work with the EPMX device some of the most dramatic and easily observed results have been with the "flu season" and its symptoms. A feeling of improvement and reduced fever is observed within the first 30 minutes of treatment. This, however, is not uncommon for the type of work that I have observed for many years except it amazes me that the EPMX is able to allow this result by removing the energetic interference. I saw a 1 year old today that had a 103 F fever last night and through today. She was at 102 upon presentation today. During treatment the fever spiked higher and then by the end of treatment (45 minutes) the temperature returned back to near normal. The child was very uncomfortable and would not allow me to work on her in the usual form of procedures that we do at the office. I therefore began treatment with the EPMX device. By the end of treatment the child had fallen asleep. Follow up phone conversation with the mother 4+ hours later and the fever was still much reduced and measured at 99 to 100. Much improved from the 103 for the last 48 hrs. She had visited the pediatrician earlier in the day and was released with a diagnosis of viral flu symptoms with no medications prescribed. To allow me to treat the child when I otherwise could not was a great success in my opinion.

D.C., U.S.A

One client was a 9 year old child with a history of sexual abuse. She was having panic attacks at school and at home. The principal wanted to place her in another school because she was disrupting the class. After the first session, the child went back to school and the teacher wanted to know what she had done, because she was calmer, more cooperative, more delightful, she was a different child.

Using the SCIO/EPFX and White Dove Homeopathy, I have kept herpes zoster from blistering, twice. Which cleared quicker and the pain was reduced or no pain at all!

Plantar warts on the bottoms of clients feet dissolved with the SCIO/EPFX.

I myself had a knot (a hard swollen area) the come up on the top of my hand at the wrist, I used the face roller on it and in 5 days it was gone, and no more pain!!! And there have been no more problems with this again!

Clients have told me that after their first session on the SCIO/EPFX, they did not need to take their anti-depressants for 7-10 days.

Everyone says they have more energy after a session. I have been a nervous person all of my life, I have tried a lot of things myself (naturally) and things prescribed to me by my alternative physician. The SCIO/EPFX was the only thing that would calm my nervous system. It is wonderful to be like a normal person. Actually, I am the calmest I have been in over 30 years!

I did a session on myself once and the unconscious choice came up "shoulder" in the disease dictionary. I had nothing wrong with my shoulder, but in 5 days I was beginning to start a rash of herpes zoster on my shoulder. Thank you so much for creating this wonderful device. It is a lifesaver!!

City Unknown

A few weeks ago a boy of six was referred to me for therapy. His grandfather had used the device last year and had results so amazing, his doctors wondered out loud what he had been doing because everything has normalized with him.

This young lad has been designated a boy with Autism and has been dealt with very harshly at school by his teachers. His parents were and may still be contemplating changing school.

Suddenly good things are happening for him. He now uses the washroom daily as opposed to once every four days or so. He sleeps well, and most alarming he is suddenly getting praises from his teacher for his good behavior and for his academic achievements.

One of the things the EPFX/SCIO discovered was cow disease of some kind because he had been eating too much beef. His parents were not surprised because he ate beef every day. He hated and could not eat vegetables. Now he is able to eat his veggies and has been able to slow down on eating beef without any problems. Nothing has worked so well for him as this device is now doing.

So impressed were his mother who works at a bank that she just can't stop talking about this. One of her co-workers heard her and asked to come and see for himself. He has a twenty year old son at the University of Toronto who has a similar problem. The parents wanted to see if the therapy might help their son and decided they would give it a try.

The young man came by with his father on a Thursday. The following Sunday his mother brought him for his second therapy and said that whatever is being done she wants it to continue because the young man had a better week-end than he had had for years.

He now comes for therapy twice per week as the EPFX/SCIO has recommended.

City Unknown

I had a client - a woman - about 68 years old, that was diagnosed by her MD with diabetes shortly after I began seeing her. She decided not to go on any of the recommended medication that her MD wanted her to take. She wanted to try to control it via a good diet, exercise and the biofeedback. She would go see her MD periodically for checkups, and when she would come to see me, she would always say the same thing, that her MD said that this just does not happen without medication. She is controlling her blood sugar and is feeling great. It has been over a year now. Her joint pain is much better and she says that she feels better than she has in 20 years.

City Unknown

My 85 year old friend had been diagnosed with prostate cancer and began normal / typical medical treatments that he was told would take five years to treat in order to be successful if at all. He came to me and asked for therapy of which I gave him six treatments over a six month period. Each time cancer appeared on the EPFX screen I "zapped" it. The result came back this month. His doctor gave him a thorough battery of tests and couldn't find any cancer anywhere in his body. My friend told me that the doctor said he didn't know what happened to the cancer but it isn't there anymore.

City Unknown

I have a case of Chrones. Stools normal and all pain gone with some supplements and two sessions.

A Gentleman with fertility problems. 3 visits and they are expecting.

A 25 year old female who never had a menstruation in her life. After one visit she started menstruating.

Elderly gentleman diagnosed with Prostate Cancer. Did cancer protocol and he came once a month for a year. His check up with the Doctor, he is cancer free.

Lady on anti depressants for 1 year. After 2 sessions has been off meds for now 2 years.

The list goes on and on. Every day I am amazed at the response of my clients. I am blessed to have the opportunity to work with such a device and share it with my community. Thank you for sharing this technology with the world.

City Unknown

Approximately 2 yrs. ago she took ill. The doctors didn't know what was wrong with her. She continually was misdiagnosed with numerous things that I or she have never heard of and they still don't really know what's wrong with her or what to do for her. They prescribed many drugs. Some with steroids. Over the short course of two years her body started to fail. She had no feeling in her feet and could barely walk having to use two canes. Her body including the face [especially the eyes] became very swollen. Her body revealing tiny visible blood vessels. She was in extreme constant pain. She became emotionally broken. This condition she suspected was the result of getting the flu shot but has no way of knowing for sure.

She finally reached a point of being willing to try anything. That's when she decided to try the EPPX Device. I have had five sessions with her so far and continue to work with her. IMPROVEMENT right from the first session. The tiny blood vessels are almost gone. Her body swelling has decreased tremendously. She can now feel her feet. No more canes and is starting to walk on her own. Its helped to motivate her to exercise Yoga and eat a healthier diet. The doctors are slowly taking her of medication [by her request]. She has hope.

Client - Diagnosed with clinical depression.

gender-female age 48

client unable to barely get out of her car to go inside to convention. When going in she experienced the EPPX - SCIO and felt better. Upon receiving frequency on a regular basis she started to feel better. Of the therapy panels balancing the organs in the sarcode panel helped a lot. Acupuncture, NLP, auto zap was used the first month on what programs were suggested to do. Today this client functions without having had to get back on an allopathic drug. The continual balancing has helped her tremendously.

City Unknown

I purchased my EPPX/Scio device about a year and a half ago. Prior to that I was a client of a very awesome practitioner here in Los Angeles area. She worked with me on training to ride my bicycle in mountain bike races and ride my rode bike from San Francisco to LA for the California Aids Lifecycle event. 7 days-577 miles. Well I had a crash on my bike just a few days prior to leaving for this 577 mile ride. I hurt my shoulder so badly that I knew I couldn't ride. The pain was really bad. I called my Practitioner right after the fall, before the emergency room visit. I really didn't want to hear from the

"western medicine" world that I could not ride that event. It meant a lot to me and I did a lot of fund raising and a lot of training to get that far. Any way I did a session on the EPFX and to even my own surprise the pain lessened right away. Then I went and had an acupuncture treatment, then another EPFX session over the course of 3 days. I used some herbs, and I used a lot of ice. After those treatments I had such relief I never did go have a MD look and assess my trauma. I got to ride out on the 4th day with all the other 2000 cyclists and I completed the ride with no problem. I now own my device and I work with athletes here in the USA of different types. I use the device for pain management as well as general stress reduction on professional cyclists and I have a couple of pro baseball players that have had excellent results from the EPFX. I wouldn't want to give up working with this device. It's done more for me than just 'peak performance' and pain management. I KNOW that so much healing in so many different ways can happen and do happen with the EPFX.

California, U.S.A.

Each day when I use the machine, I am in awe of the vast amount of correct and unusual information that comes up. I have had good results with everyone I work on...if only to say "I feel better". There have been tougher cases that have taken more time and more frequently to work on. In the end the health problems are much relieved, and often times disappear completely. One lady came in who had been up all night with stomach pains so bad she couldn't sleep. The main matrix showed "food poisoning...red meat" right at the bottom. I asked her if she had had any red meat the evening before. She said no, she had given up red meat. I went a little further up the matrix and saw "Wendy's, MacDonald's etc. fast food restaurant". I asked her if she had been to Wendy's, or MacDonalds recently. She paused and said..."oh, yes, I had a hamburger last night. I was down town shopping and got very hungry, and "never" go to MacDonald's but needed a quick fix, so grabbed a hamburger. Sorry, I forgot about that as it's not the normal thing I do." So, then I worked on food poisoning and also gave her a homeopathic remedy for that. She felt better right away.

City Unknown

I've been working with a 58 yr old woman who by her description was "so ill she was unable to function". She asked to try the EPFX to relieve her stress.... .

After her first treatment she said she "knew" this was the direction she wanted to take. We use the information we get from EPFX to explore her life style contributions as well as many traumatic

experiences she has had in the past. As I would give her "feedback" from the computer reports, she would make connections and realize the impact her brother's death still had on her.

Today she says she "has a life" and energy and feels like the EPFX has been one of the biggest contributors to the changes she has made.

Mississippi, U.S.A.

My brother had brain injury when he was only 8 months old. Ever since the accident, he has had seizures. He has been heavily drugged ever since. From the year 2004 his symptoms were getting worse and saw several specialists. By the time 2006 they were almost gave up on him.

EPFX HELPED HIM IMMENSELY. Now he is back to normal. He still takes the medication, but much less. He couldn't even walk and was disoriented and had seizures more than 15 times per day sometimes. Now no seizures. He plays mini golf 300 balls per day.

His speaking abilities are better than ever. Now he starts learning how to read. He used to read when he was young. But his reading and speaking abilities were slowly degenerating as his symptoms were getting worse. Our family is forever grateful for EPFX.

He still gets EPFX therapy once a week.

Vancouver, Canada

As a behavioral therapist I worked with a 10 yr old girl for 2 years using "traditional " cognitive-behavioral interventions. Although she made some progress, her mood swings were still quite severe. I offered her the EPFX and using the information we acquired, she changed her diet/fluid intake, discussed old traumas that she remembered as she became relaxed during a biofeedback session. Her guardian/grandmother is thrilled with the results. As she says "now she a "normal" teenager... with a "normal" school life, social life, and is on the honor roll. She has had a school aid since 2 nd grade. . . . She is now 14 and her grandmother is meeting with the school to see if they can do a trial of no aid for a semester in school before she goes to the high school.

Mississippi, U.S.A.

My husband is a Type 1 (juvenile) diabetic, described as 'brittle' – signifying limited control. When he experiences very low blood sugar episodes (insulin reactions), he goes into convulsions which, I am told, 'rob' his muscles of the glucose needed for him to regain full consciousness. He also exhibits poor judgment and then altered consciousness during these episodes. In the first 15 or so years of our relationship I had the assurance that if he was alone when this happened, at least the action of the convulsions would bring him out of it, sufficient for him to get food / attention.

However the incidents of low sugar increased in frequency and his ability to 'come out of it' decreased, even when I fed him glucose. It finally got to the point where the convulsions would stop and he would lie there, pale and non-responsive, necessitating me calling the paramedics to give him IV glucose before he could regain normal function. At its worst point, I called 911 five times within a month and was on first name terms with the fire-fighters and paramedics who responded.

I asked a nurse friend of mine why I was noticing the decreased ability to withstand low sugar episodes and she guessed, based on some reading, that it was probably liver failure and suggested I should check with the local diabetic center for confirmation of this idea. I was told that the liver either gets to a point of not storing the necessary glucose to release in case of an emergency, or no longer recognizes emergencies and the necessity to release glucose – either way it is a known problem with diabetics.

My husband was scheduled for a second SCIO session at that time, so I went with him and told the person running the session about the need for liver support. In the following week, my husband had a further two reactions but came out of them very readily and was conscious by the time the paramedics arrived. Since that time (about three years ago, the reactions have been significantly less frequent and my husband is also able to feel a drop in blood sugar more readily, and remain functional for a longer time with low sugar (so that he is able to eat glucose / food and prevent the convulsive stage). I was so deeply impressed by this that I bought a machine for myself and run regular sessions on him.

Shortly before the two SCIO sessions he had an insulin pump fitted to try and stabilize his condition but as he had not been using it for long I could not attribute the change to that. I would also like to add that his doctor has said that he is no longer considered 'brittle' and the regular test results of kidney and liver are good. In addition he has not had any significant change in his vision (previously he had to have

a few vessels cauterized in his eyes). For a long term diabetic (37 years) this is considered unusual, as serious secondary effects can manifest after only 20 years of having the disease.

City Unknown

The mother of a 9 yr old boy was "at her wits end" with him at home and school was ready to "place him" in a "special classroom". I offered the epfx along with cognitive-behavioral therapy. Using the data from the EPFX we discovered some unhealed feelings about a dog that died when he was age 2 and how his father "managed it". We also saw some nutritional imbalances and mother slowly/reluctantly corrected these.

After about 10 sessions, the school is impressed with the behavioral changes and are no longer asking for evaluations to "place him". Mother is impressed with his progress at home, he no longer hits her in frustration. His 'protests' over homework are quite mild. He smiles when he arrives for his sessions and asks the computer what he needs to do now. !!!!! and when the 'computer says' less sugar and more fruit he DOES IT. .. truly amazing. . . .

Mississippi, U.S.A.

My mom had chronic fatigue for a long time. It was a slow process but gradually she was becoming better and better. Now she goes to swim 3 times per week. And she can do all the routine house work. She couldn't even take a walk for least 5 years.

Recently, I worked on her rib pain. She had have this for about 3 years. The pain gradually was getting worse. She couldn't even lie on her right side. After the EPFX balancing, pain dissipated.

She still has the pain but it was getting better. She tried to get diagnosis from Medical doctors but never got one.

She also has Gastritis and Esophagus Ulcer. She was diagnosed. After EPEX balancing, her digestion is getting better.

She is getting balancing every week. She is a big skeptic but now she believes in EPEX.

Vancouver, Canada

I am the parent of a 2 year old girl who has had a complicated start to her life. During my pregnancy with her, my membrane ruptured prematurely at 19 weeks. Having suspected something wrong, I went to my

doctor and specialist who did not detect that that was in fact the case and I continued to leak amniotic fluid for 5 weeks until it was confirmed that there was a problem. At 25 weeks I was hospitalized after an ultrasound revealed that all but 4 small pockets of amniotic fluid had leaked out. A confirmed test at labor and delivery confirmed that the amniotic fluid was leaking and I then spent 40 days in the hospital on bed rest. At this time, it was a "miracle" that I had not gone into labor or had an infection. I attribute this miracle to God's grace, but I also had seen my biofeedback practitioner to provide the necessary information and therapies to give my body the ability to fight off any possible infection and to continue to carry this baby as long I was able. The information and therapies were invaluable to me which enabled me to continue this pregnancy.

Although my daughter came prematurely, at almost 29 weeks, she was respirated only 3 1/2 days which is another miracle as babies without amniotic fluid are often born with hypoplastic lungs. She spent 55 days in the NICU and had very little complications for a child born under these circumstances. Statistically, premature babies are born at high risk of vision, ear, lung, immune and internal complication, however, having this device and the information it gave me was life saving for this little girl. I knew what nutritional needs I had and was able to do my part to eat well and then to receive therapies from the biofeedback machine during my pregnancy. I am forever grateful for this amazing machine and the caring practitioner who helped me.

As my daughter has grown, I continue treatments with the device to help her overcome some of the challenges that came from this difficult start. She responds very well to the therapies and has made amazing progress. The Doctors and support people at developmental assessment are amazed at her progress. They don't quite understand my commitment to this technology and how the information it gives me benefits my ability to raise my daughter with the best possible odds in her favor, but they do

marvel at how she has beaten the odds. She still has some challenges, but I am so grateful for this amazing technology and how it continues to benefit her so very much.

I love this machine for myself and my children....I know that it has helped our family so much and will continue to help us in our future as we desire to live life with increased wellness and vitality.

City Unknown

85 % of my clients ( I have about 150) report/call/email within 24-48 hours of their first session, that they slept better than they have in years. And/or they didn't realize how tense they were until they felt relaxed after a session.

Mississippi, U.S.A.

I have osteoarthritis and high cholesterol and do not want to do the typical medications. Both of my knees have been replaced and I have had ankle surgery. For balance and flexibility I began doing T'ai Chi Chih four years ago. This is a slow moving practice which circulates and balances energy and promotes general well being and health. I am now a certified teacher. With my T'ai Chi Chih, the addition of the SCIO program, and Louise's guidance, I am eating more and more organic foods and I am able to almost completely do without sugar. I was very addicted to sugar before our sessions. With these changes and very few supplements, I am feeling better than I have ever felt. I have a feeling of general healing from the inside out and feel connected to all things.

Albuquerque, NM

I have worked with students ranging in age from 7 through 16 years, the last 7 years using Sandra Dillon's Sounds in Syllables Multi-sensory Language therapy. In the past, I taught special education students in private and public schools, worked with students with behavior issues in day camps and

tutored in reading clinics. In the past two years of using the EPFX/SCIO biofeedback/bioresonance programs with all my dyslexia students, I have noticed incredible shifts in each of them!

I have seen reading rates improve, anxiety reduced, confidence soar and attention spans improve. I have done therapy in conjunction with biofeedback and the biofeedback definitely enhances the therapy!

Comments from clients include:

“When I was treated for Dyslexia on the Biofeedback machine I felt confident with my reading. When I had allergy problems and I was congested Louise would treat me and the next day I would feel much better.” A.F. 13 yrs.

There is one case in which I only did Biofeedback (no reading therapy) weekly for about a year to help a student get off of ADHD medication and improve learning. He was 9 years old when we began biofeedback. He was living in his own world, didn't communicate with his siblings much and had many processing issues. In one year he has moved from Montessori school to public school. He moved from isolation to sharing stories of school, friends and teaching me card games! I tested him using the Woodcock Johnson Reading test and he tested out close to grade level in phonological processing after one year of biofeedback and NO multisensory therapy yet! Wow! This has never happened before. (He should have tested much lower.) He has been tested to the hilt and Mom has stated, “He would not have tested that high if he had not had the biofeedback)” When I started reading therapy, a multisensory Orton-Gillingham based approach, he seemed to process better than students I had in the past. It was as if his brain was different. He caught on to the concepts more quickly and retained them better. Wow! The biofeedback really helped change his brain and processing ability. Amazing!

See his comment below.

“I am doing better in school since I have been having Biofeedback with Louise. I got a good grade on my spelling pre-test today. My Mom says that my language and conversational ability is better. I am more focused and my behavior is much better since having Biofeedback. I use to take medication for ADHD and I don't need it anymore. Thank you! Louise” A.B. 10 yrs

Testimonial

This is a testimonial of a middle aged woman with chronic fatigue who tried many therapies for ten plus years.

After her tailbone was set, she felt tingling in feet and surges of energy going up the spine. This was significant in getting the spinal fluid moving which affects everything. The next week she took a trip and danced at a wedding till the wee hours of the morning! No chronic fatigue Here!

After 6 - 2 hour EFPX-SCIO sessions about 3-5 weeks apart and energetic work in the energy field and resetting the tailbone, this is what NH said:

“I am handling things better. Something has shifted internally in me and I see it expressed in my life. It is like moving blocks in my life. The real true complete version of me is starting to come out. I walk around in grace, saying thank you. So much of my life has been miserable and I feel so happy. My partner is changing and taking responsibility for his health. It feels like stuff is finally falling in line. I feel stronger and more confident.

I am speaking up and asserting myself and it feels so good. I wouldn't have done that before.” Thank you, Thank you

NH Albuquerque

A woman came to me with sleep apnea and a host of problems including anxiety and digestion issues. She had been in the hospital and on medications that made her sick. After one biofeedback session she was feeling much better. After 6 sessions she was off the sleep apnea machine and beginning to live life again. With the support of the EFPX-SCIO , some supplements and some energy work she was healthy enough to pack up and move to another state. She sold her house, bought a EFPX-SCIO and is beginning her own wonderful journey of helping others heal their issues! Yes!

DB Albuquerque

I am a EFPX practitioner of 15 years...one of the 'originals'. I recognized then as I still do today that the EFPX represents a new paradigm in approaching health and wellness sorely overdue at this time

in history. One case that stands out for me at this time is due to me seeing the person again after 3 years, when he decided to become an EFPX practitioner and attended one of the training events I was at. I had worked with this man, a 40 years old white male to support him in dealing with a case of Hep C he picked up from numerous blood transfusions he had received a few years prior to our meeting.

Typically, he was told by his 'Doctor' there was nothing to be done for him, a sentence my client refused to accept. He found his way to a Licensed Acupuncturist in Western Canada who was also a referral source

for my Quantum Biofeedback services. Together we helped this client through his challenge, and his MD today reports him to be completely free of the Hep C virus. As stated, this client has now decided to help others through a modality he knows has significant benefits by becoming a practitioner in Quantum Biofeedback, specifically with the EPMX device. In my experience over the years, this is not unusual, where a former client who has benefited recognizes the vast need in our society to prevent deadly disease through prevention, Stress Reduction and other Natural means.

City Unknown

I had a car accident in February of 2007 where a taxi cab ran a stop sign and broadsided me. Prior to this accident I have been a frequent runner; running up to five times per week on average. I injured my knee in the car accident to the point that it hurt most of the time; sometimes giving out such that I would fall. There was nothing visible; no cuts or scars etc., but it was very painful; achy at times and other times just sharp pains in my knee. It would just give out at times without any warning. I attended many physio appointments as well as going for ultra sound, and an MRI arranged through the insurance company. It was a very frustrating period during which my knee was extremely slow to improve. The insurance company's doctor recommended that physio would not help my knee improve AND that there was nothing evident on the MRI except a small amount of bone loss and thinning cartilage. I had NEVER had any problems or pains with my knees prior to this accident. I was very disheartened and got very impatient as I really wanted to get back to my running and it didn't look like that would ever happen. I had to ice my knee after going for a walk, let alone a run. As is so often the case where we work in our practice and don't ever think to help ourselves ( i.e. the shoemakers children never have any shoes), I decided to try working on myself with the EPMX machine in December 2007. The incentive was that the physiotherapist was talking about injections possibly being a solution for my knee injury. This did not and does not appeal to me. With the use of the EPMX device, my knee has made drastic improvements. I have begun running again and my knee has not given out as it did previously until last week when I was shovelling snow, and I accidentally twisted my knee. My knee gave out and was quite painful. I used the EPMX device on my knee that same day and the pain disappeared. I ran three miles the next evening with no pain. I am continually amazed at the benefits derived through the use of the EPMX device.

City Unknown

I have a 12 year old male client who has been diagnosed with autism by a medical doctor. I have been seeing him for 6 visits now and there has been MUCH improvement. He has a D+ average in math at school. After the last time I saw him, he had two math tests and got 100% on both of them. Also, he initiates and holds conversations without prompting. His mother is so excited, she calls me in tears of joy.

I have a 35 year old women client who had ice cold hands and feet. After the first visit her hands and feet were warm. She put her hands on me and they were very warm. She has not ever (that she can remember) had warm hands or feet. She is very happy.

I have a 41 year old women client who has been diagnosed with TMJ and neck pain from a car accident she was in 5 years ago. Since her first visit she has been experiencing dramatically less neck pain and she reports of almost no TMJ symptoms.

City Unknown

My IC valve gets imflamed occasionally. With several zaps, it is normal again for a long time.

City Unknown

For years I have been diagnosed with hypertrophic cardiomyopathy with atrial fib. I use the ECG and the Radio Ablation. I am not able to get off medication, but this therapy has relieved and strengthened me. My last Echo in Jan. 2008, has showed an improvement in my numbers. I have also increased minerals which is suggested by the "results."

City Unknown

I had nervous breakdown for about 3 years ago. EPFX helped me to regain mental health and life back. I used to have chronic fatigue but now I work full time and am a part time student and at the same time manage 5 year old daughter.

I don't think I can do without EPFX.

Vancouver, Canada

1>The first two months my eye disease (I hope to spell it correctly) Mylacular Degeneration is totally gone (I wasn't ever working on it). 2>I have lost fifty pounds this year and I didn't even diet. IN fact I had a horrible diet since I was traveling so much. I still have fifty or so to go. I am told by several people that the EPFX has got my metabolisum normal so the weight is coming off. What ever I am happy

3> My ten year old grandson is ten and his entire life he has bad lungs. by Sept / Oct every year of his life he has pneumonia but not this year.

Female about 55, with cancer and intense back pain. She was bent over, in intense pain and could not get comfortable to sit or do anything. In the middle of my therapy, she said she could not sit there anymore and jumped up and walked outside. Then she came back in and just sat down, with nothing being wrong. I said, "do you realize what you just did?" She was no longer in pain. But having other issues of alcoholism, drugs and mental instability she was not able to rationalize her situation.

City Unknown

I am a female and when I was 16 I was at the Doctor for one of my first yearly check- up and Pap Smear. I received a call about a week later to come back, and they did another. It turned out I had extreme dysplasia or a pre-cancerous condition caused by human papilloma virus. I was very young, just barley sexually active and was going in for a biopsy. The biopsy found cancer starting to form on my cervix and the Doctor was scheduling me for surgery. I said I wanted to try something else first, and being a very open minded MD, she told me that she would love it if I could find another way. I worked with the EPFX (QX version) on a regular basis and used homeopathy along with lifestyle changes (Diet). After 2 months

there was no sign of any abnormal cells. I am 32 years old today and still have %100 healthy Paps. I have had many more, smaller health crisis change for the positive over the years by working with the EPMX. I cant even remember them all but I do know that the only time I have had to see an MD since I was 16 is for broken bones, cuts and car accidents.

City Unknown

Recently a couple who have been longtime friends were visiting. The woman has suffered diagnosed migraines for years. She currently has a prescription for the migraines which even with medical insurance costs her \$10 a pill. She does not like to take the medication and suffer the side effects and as she felt the beginnings of a migraine she asked if I would hook her up to the biofeedback device. Having never had a client with migraines, I used a written protocol. Within an hour after the 1-1/2 hour session she was no longer experiencing any symptoms and was so energized that her husband and I were having trouble keeping up with her when we went for a walk.

Thank you for all that you do.

City Unknown

Thank you so much for developing the EPMX. I cannot begin to tell you how incredible I find this machine.

Just recently I have had three successes. The first was with a friend of mine, age 55. She suffered with acute hip pain for two months. I hooked her up and did one session with her. Her hip pain vanished by the end of the session and has not returned.

Another friend, age 57, has suffered with a painful tailbone for a number of years. I did one session with her and her pain has gone.

Last week, I strained the lower right side of my back. I could not stand up straight. I did one session on myself and two hours later, my muscle strain was significantly better. After another session the next day, my strain was gone.

City Unknown

This last summer my son started with a simple cold and virus, he did not get better.

It went into his sinuses and into his chest and became a chronic, long term condition. They called it bronhitis and treated it with drugs. He went on antibiotics twice and no getting better. I put him on the Epx repeatedly and the common message that kept appearing throughout and kept coming up was "cat hair". Now, i didn't pay any attention to this because we have no cats, i know my son is allergic to cats, so, we don't have any. The condition persisted and just wasn't getting any better, my son was even losing weight. I kept going back to the Epx, asking for a signal or a clue or a sign as to "what is going on here?". Nothing made sense, but the "cat hair" thing kept coming up. I casually mentioned to my son, that it was funny that "cat hair" kept coming up because we didn't have any cats.

He immediately told me that his girlfriend had two cats, that never went outside and were all over the furniture all the time.

My son had been spending a LOT of time at his girlfriends, as you can imagine with two hormonal teenagers. OH MY GOD !!!!! This was the answer, the Epx was dead on, and was telling me this every single time, i just wasn't listening. I kept my son away from his girlfriend's house with the cats for 3

weeks, and what do you know? Symptoms gone, he got better right away and all was well, no more drugs, no more doctors appointments, no more losing weight, he could breathe again without coughing and hacking. After that experience, i realized that you need to PAY ATTENTION to all the Epx is telling you, even if it doesn't make sense.

City Unknown

This is a personal testimonial that is the reason I know have a machine of my own. For about six months or more I was having severe discomfort in my stomach. The pain had gotten to a point that I was unable to sleep and eat. Because of blood sugar issues the lack of food was making me even sicker. I finally broke down and went to the doctor for a diagnosis. They did blood work an exam and ultra sound.

After all the results the doctor basically told me the test results didn't show any thing so I should just take acid reflux medicine. I assured him that I know what acid reflux is and that I don't have an issue with that, and he told me there was nothing else I could do. That is when I met a practitioner in iowa that uses the epx. After about an hour and a half session she was able to reduce my stress and the pain

and other discomfort was gone. I no longer have any problems with my stomach and that has been about 2 years now. I am 41 years old and a female.

City Unknown

A year ago my wife suddenly she lost her memory for over 14 hours ,after more than 30 hours in the emergency in the Grey Nuns hospital ,she was dignose with Global transient Amnesia,my wife been a nurse herself never when trough her mine will ever Happen to her.She work as homecare nurse with terminalheal patient of diferent nationalities.

little by little her memory came bach.after she was reelease from the hospital and y brouth to our family doctor asking for help in order to stabalized her health after this traumatic situation,the doctor showed us the repor from the hospital and he told us she is recovered,I said to him THIS IS A MIRACLE ,I said also I feel very sorry you can not give a treatment to help my wife .

searching on the web I found a clinic in Edmonton,New Life,they help my wife for several week ,then I realized my wife was achieve a plato and did not show a improvement,,,every session cost us about \$500.

the I did became aware of the tradeshow Body and Soul in our city,in this location y meet Greg Banach I did explain to him what happens to my wife ,He said bring her to my office . He was very professional shown tranparency and integrity he did explained to us what the SCIO can do for people. he took only three sesssion given my wife a new concept of life that is our history how and why with so thankful to professor William Nelson for this device so we can take of our health in our own hands.

Edmonton, Canada

Here's What My Clients Have to Say "I came to the office with extreme mental fatigue, brain fogginess and anxiety. After the second week I felt so much better and the mental fogginess went away and I was more calm and less anxious. I've learned a tremendous amount from my practitioner and she always had great suggestions for things I can use in my everyday life that were easy to do. The Body Balance formula is also great and has really helped."

- (Centennial, CO)

"I started with fatigue, allergies and difficulty sleeping. After the first treatment I noticed I had more energy the next morning. I felt like I didn't need a cup of coffee to get going. A complete scan is a

good indicator of overall health. Even in the absence of symptoms, people should obtain an initial exam to determine overall health. Many diseases, conditions and syndromes remain asymptomatic for many years."

- Performance Chiropractor (Westminster, CO)

"My complaints were dizziness, coughing, spinal cord injuries and lack of energy. After the first treatment I noticed a subtle shift of energy that seemed to move things in a positive and healing way. My dizziness disappeared, the coughing subsided and I had more energy."

- Deneen (Denver, CO)

"My initial complaint was allergies and it was discovered through the biofeedback machine that the main allergen was honeysuckle (which was growing outside my bedroom window). The practitioner relieved all the allergy symptoms and desensitized me to the honeysuckle so I can now enjoy it. Perhaps the most immediate and startling response was related to soreness and discomfort in both the hip and leg sockets. This had been painful for at least six months. The sudden absence from pain certainly got my attention!! Several times my energy level has been low and the SCIO has been able to send me long distance therapies to enhance and boost my energy and overall immune system. There were other occasions where my practitioner was able to identify specific food poisoning. This is a major advance in science that bodes well for our good health. The wisdom of this scientific machine to correctly identify what the body needs at a given time is nothing short of remarkable. "

- (Weaverville, North Carolina)(long distance)

"I started with Acne, thyroid, candida, herpes and exhaustion. After a couple of treatments long distance I noticed more energy, no candida and less herpes breakouts. I love it. It has really helped my overall health." - (Pasadena, CA)

"Sixteen year old female, has a variety of learning disability issues, including ADHD and Sensory Processing Disorder. Along with these issues comes a great deal of frustration, irritability and oppositional behavior. The first thing I noticed after SCIO treatments was that she was calmer, more cooperative and even-tempered. Her sense of humor has come out and she is acting more mature. ....I'm excited about the changes !!"

- (Westminster, CO)

"I had a small case of gingivitis pain. The practitioner treated me and in less than two hours the swelling and tenderness was gone. One month later I went to the dental hygienist and there was no gingivitis." -

(Estes Park, CO)

#### MY PERSONAL TESTIMONIAL

My personal experience with the treatments on the machine have been great. I was able to get rid of migraines, PMS, hormone imbalances, left over trauma and emotions and fibrocystic breast disease. I have been able to build my immune system, treat all my stressed organs, regulated and knocked out my sugar craving. It has made me more conscious of the lifestyle changes I need to make to be healthier. My digestion has improved greatly, along with my attitude and my energy level. The detoxing treatments have allowed my body to get rid of the candida (yeast) and other bacterias and toxins in the body. I am always amazed with the accuracy of the machine, not just because of my personal experience, but through the experiences of my clients.

- Broomfield, CO

Last March, I had my appendix taken out and went through the usual 6 week recovery process. At some point I was still experiencing complications that I felt was not the result of the surgery. I was menstruating twice a month and experiencing severe pain. My gynecologist told me that I would need a hystorectomy and had further concerns that I would be anemic. Fortunately, I was able to use the EPFX for the pain and get some clues as to where the stress was coming from. After careful examination, and looking at where the imbalances were, I asked my regular doctor to check my DHEA levels and my thyroid. I started taking 5mg. of DHEA and a little progesterone creme and continued working with the EPFX device. Within a month I started to experience normal and painless periods. I am very thankful for this technology, it has made a huge difference in my life and I feel that it helped me avoid another surgery.

City Unknown

I would like to share an experience I've had with the EPFX. Shortly after I purchased it and took the beginner's training a friend of mine went to her doctor with an acute pain under her right rib. The doctor said she had gall stones and needed her gall bladder taken out. To make a long story short she decided to go ahead with the operation and had her gall bladder removed. Although the doctor told her that her gall bladder was "full of stones", there was only one small stone in it when they removed it.

Several months later she had not yet recovered from the operation as she could not keep food down, plus she had no appetite and not surprisingly she had no energy. Now this is a small woman of Asian decent and she had lost nearly 20 pounds. She was thin before the operation and now she was nearly ematiated. She was scared and thought she was going to die. She is only 62 years old, looks about 35 and has always been healthy.

I asked her if she'd like to have a session on my new EPFX and she said she would. We had one session approximately an hour and a half long and the next day she called to say that her appetite was back, she felt so much better and she actually had some energy. From that day forward she felt like her old self. She has since regained all her weight and has returned to her routine of working out at the gym 3 times a week. She feels and looks great and has never needed another session since. Thanks so much Bill for providing us with a tool to help restore health to those in need.

City Unknown

This testimonial is about a 60 year old male client who was in pain from kidney stones, previously diagnosed from a doctor who assessed kidney disease. In the past I would have been able to say that I sent the frequency which shatters stones. But I guess what I can say now is that I send appropriate frequencies to relax the client's body, de-stress the kidneys and the body was able to eliminate the stones as afterwards their pain and discomfort went away for good.

City Unknown

My mother passed away 3 years ago and I became very very depressed my Blood Pressure went to 230/130 and I went to the hospital. I have been having many problems with high blood pressure and panic attacks and anixety. Last September I was at a Show , I sell at Large Fairs etc, I got sick my blood

pressure went to 230/130 again I stopped eating food and drink just water. I saw a booth at the fair called Quantum Biofeedback so because of what I had learn in the past and started to talk to the person in charge at the booth. I must tell you that It was amazing ,it helped me so much. After one half hour of being connected to your device I Felt so much better. It was ALMOST to good to be true. I was so relax my bp went down and the next morning I woke up feeling wonderful. I went back to the booth four more times over the six days i was at the fair and by the end of the fair I was so comfortable that I was very amazed. I just want to tell you this now since I have decided to become a practitioner to see if I can help more people with your invention.

D.C., U.S.A.

Prior to my introduction to the EPFX/SCIO I had been treated for breast cancer with conventional allopathic practices, ie. lumpectomy, chemo-therapy and brachytherapy. Following this my father passed away and the stress of the treatments and his loss created a downward spiral of severe clinical depression. Despite the best efforts of my doctors to treat the depression with anti-depressants, psychotherapy and my own personal therapeutic measures nothing seemed to help. I felt like Humpty Dumpty and "all the kings horses and all the kings men couldn't seem to put me back together again." I went to visit my counseling mentor and she suggested I try a session with the EPFX/SCIO. Within 4 sessions my depression abated and I was on the road to recovery, energized with a bright outlook on life once again. I was so impressed with my remarkable progress that I invested in the EPFX/SCIO a few months later.

I have been a counselor in the mental health field for the past twenty years and employed by facilities which subscribe to "best practices" approaches to the treatment of mental illness. Needless to say, I have counseled hundreds if not over a thousand clients by now, with the "best practices" approaches. In my vast experience, I have not encountered the efficacy with these approaches compared to use of the EPFX/SCIO. Too often I witnessed the debilitating side effects of long term use of psycho-tropic medications The best practices approaches are frequently unrealistic with certain populations of clients. Despite the best efforts of both client and therapist the outcome of "stabilization" is mediocre at best for the client dealing with chronic mental illness.

Since I knew that this concept could not be used in the traditional setting such as an outpatient mental health clinic in the state where I reside, I decided to terminate my employment and become a full-time solo practitioner. I did this to have the flexibility and freedom to utilize my counseling skills and determine an efficient cost effective measure. I incorporate the stress reduction techniques through the

use of the EPFX/SCIO with my clientele along with traditional therapeutic approaches. My clients are repeatedly amazed at how accurate the EPFX/SCIO is with targeting stressors and in this current climate of insurances demands for brief therapy, 6 sessions generally is adequate for resolution of the presenting issue.

City Unknown

60-year old Caucasian female presented in 2005 with diagnosed wide-angle and narrow-angle glaucoma. 3 surgeries failed, she said, including "the last one which collapsed the left eye, removing 65% of vision." Client said she felt desperate, felt she could no longer trust conventional medicine, said she could not read a book without pain for more than 5 minutes (which was very difficult, she said, because she had been an avid reader), could not drive without her eyes going out of focus for more than 20 minutes (also very difficult, she said, because she worked 50 minutes from her home), was fearful of total loss of vision and total loss of freedom of mobility in her life, and was experiencing "dreadful" side-effects of anxiety, hyper-tension, and mood swings from the steroid and sulfa-based eye drugs prescribed for her.

Worked with her extensively on the SCIO at first, less so more recently although I still do sessions on her. I made a number of diet and life style suggestions, all of which she implemented over time, a little at a time. Worked with her spiritually, including Louise Hay affirmations plus did my own private work with her (I'm an experienced counselor and an ordained spiritual healer). She chose to wean herself from the drugs, doing her own research and making her own decisions on this. She now reads entire books relatively easily, drives for 1-1/2 hours easily, has what she calls a "more-or-less" daily spiritual practice, and is happy and optimistic about her life, she says.

50-year old white Caucasian male presented in January 2006 with high blood pressure diagnosis and Doctor's prescription to take high blood pressure medicine. He refused and chose to seek what he called "an energy solution." Did one two-hour SCIO session which included spiritual healing energy and awareness processes simultaneously with the SCIO session. Client was very energy aware, absorbed and processed everything beautifully. His pressure was normal, he said, at the next Doctor's visit one week later.

City Unknown

I had a couple SCIO sessions a few years ago. The second one was actually done while a hurricane was coming in to my town, and we lost power for an extended time afterward, so I had to stay elsewhere. When I returned there were many issues to deal with, so I put my notes away and forgot about them. A year or so later, while in Mexico getting cancer treatments for my boyfriend, the doctors discovered that I had a large ovarian cyst. Fortunately one of the doctors treated me and the cyst was completely gone in 5 weeks, without any surgery. Then when back home I was going through old files and papers, and found the prior SCIO notes. Sure enough, all that time before, the SCIO had indicated that I had stressors for Ovarian Cyst!! If I had followed the indications for lifestyle change, it may have never become an issue, but I had forgotten because of stress.

Now I have my own machine and have found fascinating results from running it on myself. I am attending training classes to get certified and begin using it to help other people.

Thank you for developing this advanced technology, which incorporate the teachings of so many of my former mentors. Keep up the great work and hang tough!

City Unknown

I had been experiencing extreme stress and panic attacks for about a month. I asked a friend if she knew a good hypnotherapist. She said no, but she went someone who did biofeedback, and she said the results to be nothing short of amazing. She referred me to my practitioner. During my very first session, I felt peaceful within the hour. During my second session I mentioned to her that I had been having violent nightmares for about 2 months... ever since I moved into a new house. I had cleaned the bedroom thoroughly, saged it, and prayed for peace and protection, but the bad dreams continued. I hated that house and I wanted to move out... It just felt wrong. When I returned home from my session, I felt differently about the house. Suddenly it felt like any other house. No bad feelings! I couldn't believe the difference! That night I slept peacefully for the first time, and I have continued to sleep peacefully each night since. I don't know how it works, but it sure does work! Quickly and easily. Thank you!

Florida, U.S.A.

Female client had been suffering from hemorrhage for seven years. Had to quit her job. Now after a few sessions with the EPFX, a few changes in her diet, and some supplements she is taking, she is back to work, very happy and doesn't miss an appointment.

City Unknown

I've known for years that I have gall stones but have decided to do the natural thing and not have it removed. For year I've been on a "diet" but when ever I ate anything I wasn't supposed to I would get sick. Ever since I have the device and have done session on myself I feel better, don't have the pain, I have more food choices. I feel great! I can help people. I love my device!

City Unknown

1. One of my first clients, when I was still a neophyte with this technology, and largely unversed in the nuances of this amazing software, came to me complaining that he had had a diseased kidney surgically removed some eight years earlier, and was suffering from severe (phantom) pain in his left side, from where the kidney was removed. His pain was so severe that he was on two strong narcotic pain killers, the side effects of which were damaging his liver function, and he asked if I could help him with the pain. I performed a stress relief and pain management protocol on him for about 50 minutes during his first session with me. At the conclusion of the session he said he felt no more pain in the affected area for the first time in years, and has since then reported periodically that this pain has not recurred. He is an ardent referrer of other people to my business.

2. I have had success with the Stop Smoking protocol with three young men, all of whom were smoking over a pack of cigarettes per day. In each case, having questioned them seriously to see if their desire to quit was real and they were determined to succeed in stopping smoking, one 60 minute therapy for each one enabled them to overcome the addiction and the craving and none have resumed smoking.

3. I have treated another middle aged man who suffered from an intense case of tinnitus, so severe that he was almost suicidal by his own admission, and rendered completely unable to function in a business

environment. In two separate sessions, while he still has a mild case of tinnitus, the shrillness of the ringing in his ears was completely eliminated in one ear and is barely noticeable in the other ear.

4. I am a hypertensive diabetic, aged 70, and I regularly do therapy on myself, and am able to maintain and control both my blood pressure and blood sugar with twice weekly sessions of the EPM system, and have been able to eliminate four of the five medications I was taking to control these symptoms, and as a result feel energized and sleep better.

Bellingham, WA 98225

Two years ago, at age 49 I had a heart attack that required an immediate triple-bypass surgery. I had a previous 7 year perfect attendance record working for the performance driven corporate America for 23+ years. Of course I was a dedicated work-alcohol and just graduated with my MBA on the road to climb the ladder of achievement and success!

Totally unaware, I did know that my stress levels almost killed me and forced me to see the face of death only to realize that I had NOT yet begun to live.

During my 10 month Universal reflection time and recovery I was introduced to the device and it has been absolutely instrumental in my personal recovery, while changing my outlook on life and enhanced wellness. I am so inspired with the EPM as a state-of-the-art stress reduction educational tool that I am returning to school to expand my alternative and natural health knowledge to share with clients. I am also so healthy and full of energy that I am back working full time with 3 years to retire, as I continue to build a solid Quantum foundation of clients. Thank you Professor Nelson for your extraordinary gifts and amazing contributions to this world.

City Unknown

This is a testimonial for a client of mine whose date of birth is September 10, 1982. She has been diagnosed with chronic sinusitis and has been suffering headaches for 6 months now. Since starting therapy, her headaches have gone from constant day after day to the odd headache, perhaps one every 2 weeks. I have used biofeedback on my client 8 times since September, 2007 and the results have been

great. She has not needed to take any of her prescriptions for her sinuses since she started coming to me for biofeedback therapy. Her progress has been very promising. I did her last session tonight and her sinuses are clear on the main matrix, all her numbers were between 56 and 98 when I typed in "sinus" and performed a search in the main matrix. She says she has not had a headache in over 3 weeks.

City Unknown

My sister had been sick for a long time and she would do everything the doctors both natural and medical would tell her. But she never got well. When I gave her a session with the device Radiation it showed up more than once. Her husband investigated and found out that near their house was a nuclear plant that had closed but the radiation was still around. Ever since she understands her problems more and she knows how to take care of herself better.

I'm very thankful you made this EPFX. Thank You so much.

City Unknown

I would like to let you know that I had a car accident, my hand was broken and was swollen for a year. I couldn't get it to go back to normal no matter what I did. The prognosis was that it would never go back to normal. January 2007 I bought the EPFX because I was so impressed when I got a session. So I said well if my hand is never going to work normal again might as well work on the rest of my body, emotions etc! One year after, guess what? Yes! My hand is almost back to NORMAL!

THANK YOU SO VERY, VERY MUCH

Orange County, California

Man 40. Did a few nice things and balanced his hormones. Next day both he and his wife thanked me. He woke her up in the middle of the night for the " Most amazing sexual encounter they have had in years"

City Unknown

One client is a young boy, he is 12 yrs old, his doctor diagnosed him as a insulin diabetic. His mother asked me what we can do for him. Every time i give this child a session, it is remarkable to see how the child reacts to the session. Through the EPMX we are able to stabilize his insulin and see wonderful changes in the young boy. This is not all, there are countless testimonies of number of clients that the EPMX/SCIO has helped to reduce stress in the body.

Ontario, Canada

I was a 37 year old female, living in Arizona. Although I never had a problem with allergies, I started to develop severe attacks, and spent almost two years just waiting for each attack to go away, until they became more frequent, and caused me more and more discomfort. An attack would consist of severe itching, especially the eyes, extreme difficulty breathing, and sore throat. At one point, I went to the emergency clinic thinking that I had strep throat, but it was just allergies, and I was given a steroid inhaler, and several prescriptions. I used the inhaler a few times, when absolutely necessary.

My first experience with the QXCI, a two hour session, made me feel so much better. I went once more the following week, and my allergies were completely gone for three months. Not only was I provided a tremendous amount of relief (I am a singer, so this was huge for me), but it opened my eyes to other aspects of natural healing, and made me take responsibility for the things that I put in my body. I am now 39 years old, and no longer have problems with allergies. I know, from the amazing experience that I had with the QXCI, that the energy of our universe is more powerful than any pharmaceutical drug out there.

Arizona, U.S.A.

I have had rheumatoid arthritis for a couple of years and have a problem with pain medication, my chiropractor has a Scio in his office and told me to come in for an appointment, and am I ever glad that I did. The rheumatoid arthritis came up on the Scio and he gave me a correction and I have had no pain in my joints since, I also have had my gallbladder taken out and would always have pain in that area which was very uncomfortable, this also came up on the Scio and I was given a correction, and as like the

arthritis, no pain in that area ever since. I was so impressed with the results that I have purchased my own Scio unit for myself and my family.

City Unknown

I have had the privilege of working with the EPFX for 2 years. I have suffered with migraine headaches for 38 years and have tried many therapies including: conventional medicine, yoga, mindfulness, acupuncture, exercise and diet modification. In the last two years I have experienced a decrease in the frequency and intensity of the headaches.

As a result, I have created many extraordinary personal and professional opportunities. I am grateful for this technology and how it has had a positive impact on my life, the lives of my children, family and friends.

City Unknown

One of the few non family members we worked with initially was a friend with multiple health issues. In her forties, she has already had a stroke. She also deals with fibromyalgia and asthma. She is seeing wonderful changes. After two sessions she said she could carry a load of laundry up a flight of stairs without stopping to breathe. It's been years since she could do that. She was amazed that she even had better balance and could put on her socks without sitting down. She ran out of her muscle relaxant and found she didn't need it. She is not having the cramping in her muscles that were so painful. I love the way she put it. "I feel like the way I remember NORMAL being, its been a very long time."

Now that we are seeing results we are starting to work with more people outside of the family.

My husband's secretary has done two sessions with us. She felt immediate results. She was becoming depressed from her weight gain and the troublesome cravings she would have. She felt very

down on herself and didn't know how to improve it. She, like the others we have worked with, had a lifting of her depression. She said she felt brighter. She knew she had found the way to help herself. She follows the recommendations of the SCIO and is amazed at the results. She has been addicted to a type of soda produced by Weight Watchers. She buys it by the case and has been trying hard to cut back on her 3-4 a day habit. She was down to one a day when I saw her the first time but it was a struggle. After one session she was able to go the whole weekend without having any and, when she did have one later in the week, found she no longer enjoyed it and couldn't finish it. She was very impressed.

City Unknown

As a result of not so great doctors I had a hysterectomy when I was 21. Another time after being treated for 'sinus infections' for a number of years I switched doctors to find out that I didn't have a 'sinus infection' that was making me vomit regularly I had pre cancer of the stomach and esophagus for which I had major thoracic surgery in my thirties. I bring this up because I am very grateful to the 'good'

doctors who saved me from various cancers and realize there are many like myself that put too much trust in the fact that all doctors are good doctors and that is stupid and dangerous.

City Unknown

People with chronic depression experiencing a freedom from major symptoms only after 2-3 sessions.

A lady with leukemia who was ready for bone marrow transplant after going through chemo and radiation for 2 years, saw the results of her blood test (after first session) get back to normal range.

She finally got hope and the will to live and deal with emotional issues contributing to her illness.

Another one with Glaucoma having to explain to her doctor that she had Quantum biofeedback sessions after he wondered what was helping her eyesight getting so much better in such a short time. I have heard and saw so many clients getting insights over their conditions and being able to turn their life and health around with the help of the EPMX device that I think it is the most incredible tool to assist people in their healing and personal growth.

Finally people have access to more SAFE options to address their stresses and it should remain that way.

City Unknown

One of my patients in Mexico was diagnosed with 2 tumors in the adrenals and she was ready for surgery. She came to San Antonio had six sessions with me regarding that subject matter. She went back to Mexico City got in the Hospital ready for surgery when they did the testing nothing was wrong with her adrenals. They were healthy.

This is my own experience I went to Cuernavaca to visit a friend that owns a SCIO and she is in sales doing very good. She was explaining more on how to use the SCIO (my training was not very good – no comments) I was experiencing a hormonal imbalance (some spotting), had an ear ache, and I was extremely tired.

She gave me two sessions to show me more about the SCIO. I had planned to have a NMT doctor to work on both issues when I returned to San Antonio.

After the two training sessions done on me, I was feeling revitalized, ear ache gone and hormonal imbalance corrected. Amazing!

Here is another one done on me. I just purchased the SCIO. I came back for the basic training from Mexico City. I had an appointment with my Chiropractor Neurologist Doctor that I trade sessions with. I was diagnosed with Hypoadrenia. I came home hooked to the SCIO and the first thing that picked up was Hypoadrenia which I was already aware of. I proceeded with the session. The next day I felt like a new person no tiredness at all and continue like that.

I treat an MD from Mexico City here in the USA for depression. She has been doing real well just with the SCIO as well as her daughter.

U.S.A.

My husband's GI surgeon (colon rectal specialist) introduced me to the SCIO. At the time (Dec 2005) I had recently resigned my role as a systems process improvement consultant for a large hospital system.

Under my supervision had been a project called Integrated Model of Medicine where I was working with chiefs of staff to get NIH grants for studies supporting the efficacy of holistic techniques. I resigned to relocate and support my husband's health.

Immediately upon seeing the SCIO I made a plan to purchase one and begin a practice. I bought a Scio in March of 2006. I found your videos online. I found Paul Drouin and Debbie Drake and purchased all their

programs to self pace my own learning. I bought the Quantum Alliance encyclopedia and every protocol I could find and I practiced night and day.

Approx. Nine months after my first Scio purchase, I met a woman with several brain tumors. She had previously experienced lung cancer in 2003. In 2006 she was 70 and the cancer was in her liver, hip, lung and brain. So many tumors were in her brain that the radiation oncologist radiated only the largest one pressing on her cerebellum. She began seeing me weekly. I worked with rife frequencies, oxygenation, the client began Budwig diet and cleansing. She used an infrared sauna and a solaris blanket.

At the end of her radiation, her MRI showed no cancer anywhere. She has remained a client of mine and her scans remain cancer free. She had been given 6 weeks to live in 2006.

Her radiation oncologist became a client and sent me several patients.

City Unknown

I have had my device for about 2 years now and use it mainly on myself and family. I am 40 years of age and have suffered with endometriosis for 20 years. After multiple surgeries and a partial hysterectomy the only thing left for me was a complete hysterectomy. Right around the time I bought my device I was trying to make a decision as to what to do about this for I did not want to lose another body part! Well, I'm sure you can guess the rest. I'm still hanging in there 2 years later and feel much better with the use of my device.

City Unknown

My wife has LBBB and the EFPX identified bundle block. Additionally she had Hepatitis "C" and the EFPX also identified virus with liver problems. The EFPX has made my wife's quality of life so much better. She now has a positive outlook and her health has improved dramatically.

City Unknown

This device is to help with stress management and pain management. I have personally found that it is phenomenal to help with chronic back pain. I am a weekly member of our chiropractor and this machine has reduced the pain, allows me to breathe better, and increase spinal flexibility all with the spinal sarcodes. I am in consistent awe when I go on this machine and am working hard to get the word out for more clientele for their benefit of this wonderful device.

City Unknown

16 months ago I had never heard of an Epx/Scio. Over the past several years I have had gradually increasing muscle tenderness and pain. It reached a peak one day when I had a severe allergic reaction to an unknown substance. I went to the emergency room covered with intense hives. They gave me steroids which relieved the itching, but I felt horrible and was in great pain. I talked to my brother about it. He had recently been to a lady with an Epx device. I figured I'd give it a shot. The cost was considerably less than my trip to the emergency room. If it didn't help then I'd have no choice but to seek medical help.

The day I went there, everything hurt from head to toe, including my heart. There were big knots in my neck. She took away my cell phone and wired me up. Over the course of the next hour and half, the knots in my neck disappeared. My muscles relaxed to the point they just felt like normal muscles and limber at that. Then she focused it on my heart. It felt like tiny little fingers giving my heart the best massage ever. By the time she was done the relief I felt was so great that I just felt giddy and all could think was "WOW", Oh my God, WOW" I had to go on to work from there, and that was the only mistake I made. I would really have been better off going home and laying down. At any rate I spent the rest of the day sweating buckets and peeing a flood. A couple of days later the muscle pain returned but to a much lesser degree. I went back for a couple of more treatments. Needless to say my heart fell in love with the device. What really clinched the deal for me to decide to buy one was kind of odd little thing. A few years ago I had Bell's palsy. This may sound funny and laugh if you want, but ever since my nose would get so cold and hurt that I felt like I wanted to put a sock on my nose. And I slept with a ski mask on to keep my nose warm. I told the lady about that and asked if she could do anything for that. She said, we'll try something, and I could feel the tickle alongside my face. Later when I was out in the cold, my nose was cold but it did not hurt! A year later and I still don't have that painful nose.

City Unknown

In November 07 I started working with a client. I have attached information he was given in November and in February 08 when he was retested. During that time frame he received weekly biofeedback sessions from me, took medication and changed his diet.

| Item              | Normal Range | Nov 07   | Feb 08 |
|-------------------|--------------|--|--------|
| Triglycerides     | > 250        | 908  | 218    |
| Total Cholesterol | > 200        | 229  | 175    |
| LDL – bad         | 60-130       | Undetermined due to extremely high triglycerides | 96     |
| HDL – good        | < 40         | 33   | 35     |
| Liver – AFTA      | 10-42        | 32   | 18     |
| Liver – ALTI      | 10-40        | 63   | 24     |

#### Story #1

I did about 5 EPFX sessions for a friend of mine. She has been diagnosed as being “legally blind” since childhood. She had been working with her eye doctor in weekly sessions for about 2 years doing eye exercises etc and making some improvement. Then, she asked me for a session. We decided to work on the eye stress and strain. Each time after a session, she would go for her weekly eye doctor appointment --he would be thrilled with her success-- her improvement was suddenly dramatic, her doctor verified this and told her to continue what she was doing with me. So, we did-- each time with the same great results as confirmed by her eye doctor. After a few months, she was able to get contact lenses. She and her doctor attribute much of this to the fact that she was getting the EPFX sessions.

#### Story #2

Another story I would like to relate is with a friend of mine who is a nurse. She was working for a large hospital at that time and was head of her department. She developed neuropathy. She was well respected and cared for at the hospital. She knew everyone and they knew her! She had access to all of their best doctors and none had been able to help her.

I was in graduate school at the time and had just gotten my device. One of my fellow graduate students was a nurse at this same hospital as my soon to be client. My friend asked me to come to the hospital and do a demo for her boss, the woman with neuropathy. I did. The session lasted about 1.5 hours.

My new client was so relaxed when she got up she couldn't believe it.... her job at the hospital was very stressful. So, when she got off that table she was pleasantly shocked to discover that her neuropathy symptoms were greatly reduced ---by about 75% according to her calculations. She asked if I would come back and do another session the following week and I agreed to this second "demo." After the second session she reported that 100% of her symptoms of neuropathy were gone. She gave the credit to the EPFX and gave me a big hug and many thanks. She continues to thank me to this day.

City Unknown

My QXCIdevice is an indispensable part of my practice. I have about 1200 patients at this time and can handle about twice this amount; so, the practice is growing. This would not be possible without this device. If I lost it today, I would buy yet another one tomorrow! At this point nothing is possible, as far as making ANY real advancement in the health of my patients, without this machine.

I have seen over the past 5 years now every known bacteria and virus come into my clinic. Few, if any, of these would have ever been recognized were it not for this device. This is truly the most advanced diagnostic device on the Planet at this time. Few of the successes that we have had would have been realized were it not for this priceless tool. I am greatly indebted to its inventor.

We have successfully taken care of, and completely eradicated: Lymes, lupus, hepatitis, herpes, etc. And we have been very successful with: MS, diabetes, cancer, aids, ECT. ECT, as a direct result, and because of, this device. There is no known dis-ease that cannot be effectively dealt with the aid of this healing tool.

I have directly recommended this device to over 1,000 naturopathic doctors here in the US. Regrettably, I do not know how many have taken my advice to heart and gone ahead and are now using it. In time, I hope a very large percentage of them will. If they want to be successful and effective healers, then, in time, they MUST get it.

City Unknown, Canada

I had a client (male, 52) who got shingles flair ups whenever in stressful situations. I would run standard protocols and his relief would show up within 12 hours. His breakouts completely surrounded his torso.

I have worked on a young man (37) who has Down syndrome. His spinal cord is degenerating and pinching nerves that operate his arms and legs and even his speech is affected. Running standard protocols his mother states that she has seen improvement in his speech, most specifically and that he is more balanced after a session. However, his condition continues to deteriorate...

After running the EPFX/SCIO on a client and after seeing a the numbers related to cancer, he went to a doctor and was diagnosed with colon cancer. Easy to see Candida issues. Easy to see emotional issues

City Unknown

At age 49, I was diagnosed with breast cancer. (I was 53 in December.) I had small tumors on both sides of my breasts and in one lymph node. Western medicine convinced me to go through chemo, radiation and now I am on arimidex, a hormone therapeutic drug to suppress the estrogen that stimulates tumor growth. Soon I hope to stop the arimidex. I am working on a deep seeded grudge attached to anger. I also work with essential oils. FABULOUS!

Female client was diagnosed with 3rd stage ovarian cancer and was going through her second round of chemo last summer. She was looking for support to strengthen her body from the tiring chemo treatments. Gardening was on her mind yet the chemo was keeping her on the couch.

I gave her 4 to 5 sessions during the course of her chemo treatments focusing upon the cancer programs. After her first session, she felt noticeably better. Continuing with the biofeedback, instead of feeling worse and worse after each treatment, she felt better and better. The kicker is this . . . her last scheduled treatment was canceled. After taking the procedural blood test, the oncologist at Dartmouth Hitchcock found her "numbers" in the healthy range.

Barre, VT

Over the years I have used the EPFX on numerous patients with numerous health complaints. I am a licensed acupuncturist and certified nutritionist.

A woman of 62 with long standing depression sought great relief with just one EPMX session.

A Vietnam vet with Hepatitis came to me for preventative measures and he left, for the first time in 30 years, without a bunch of voices clamoring in his head.

A man from Virginia came with a benign tumor on kidney. He was experiencing back pain but did not want surgery. The first thing that came up on the EPMX was "benign kidney cyst." After doing a series of programs, he felt an instant relief of pain and then decided to buy his own machine to help others.

A business woman so stressed out at work was going in circles. EPMX sessions greatly calmed her down and she said she hadn't felt so centered in years.

Annapolis, U.S.A.

I'm a practitioner that uses biofeedback daily in my practice. I also use it on family, friends, and myself. I started using it on myself in Aug of 2007. I was told my doctor that I had a large tumor on my thyroid and the only thing I could do was to have it removed along with my thyroid, or I would not be able to breathe or swallow. Well it is now Feb of 2008, and my tumor is down to almost nothing, with only using the biofeedback weekly and natural supplements. I will continue to use it for myself and grandchild as they grow and need a little help with their health.

Indiana, U.S.A.

My wife got our biofeedback machine in late July of 2007. She started using it on me to see if would help with a shoulder problem I was having. I have gone to the doctor for about three years with the problem, they sent me to a therapist for about two months, (that helped till i got down there), I got shots in the shoulder, ( that did nothing), I went to see a to see a specialists, he took x-rays, (which showed nothing), so we tried the biofeedback, two times a week for the first two months, and now every week, (more so now for other things), and the shoulder doesn't hurt now. I'm pulling plaster off my parents house getting ready to put new drywall up, and no problems with the shoulder. I would not have been able to do this before the biofeedback.

Thanks so much!

Indiana, U.S.A.

The subject is a 62 year old male and former football player who works out regularly. He is on medication for gout, cholesterol and high blood pressure and possibly one for mood balancing.

The client had been diagnosed with gout 15 years earlier and had been on prescription medication for this condition all of this time period. When I saw this man for a biofeedback session, he could hardly walk due to pain in his right ankle. This has been the same site for previous gout attacks. He had seen his doctor several days earlier. The doctor suggested he had pseudo gout which is a type of arthritis, and not really gout. He was given another prescription drug for arthritis. He then saw his physical therapist later the same day. He saw his chiropractor three days later and his biofeedback session with me was four days after he saw his doctor and received the new medication. He was still having the same symptoms of pain and hardly being able to walk when he saw me for a biofeedback session. I use the EPM technology to detect stress in his system and followed the de-stressing techniques indicated by the device. At the end of the session, the man stood without pain. He told me he felt soreness in the area but not the throbbing pain he had been experiencing. When I checked on him the following day, he was still pain free. He is, however, still taking the medication provided to by his M.D. - just in case. This has been several months ago and on recent inquiry he was still pain free.

City Unknown

I have several excellent experiences and instantaneous healings with a few of my clients. Most recently I have been working with a 25 year old female Client that was diagnosed with attention deficit disorder and depression. She has been on medication to control the mood swings and depressive states. When I originally began working on with her, there was an very low resistance level in the VARHOPE, as well ph was way off and emotions were all over the board. Through continual balancing of the EEG, Submorph, NLP panel issues, encouragement to the client with daily exercise emotion release stress reduction and detox, my client has reduced her medication on her own after 3 weeks, increased wellness supplements such as fatty acids on her own, began Yoga classes, and is feeling much better, fully able to maintain her sustenance in her daily living with her husband and two year old child, which was an enormous burden prior to the stress reduction biofeedback sessions.

Another 10 year old child client I worked on for 7 consecutive sessions diagnosed with ADD, specifically worked on links to parents and birthing traumas, utilizing stress reduction in Biofeedback panels, nutrition, digestion sarcodes, detox, submorph, especially boosting spiritual growth/release of spiritual oppression, spinal as well, with the last session being a solo 10,000 RIFE session....received a call from the Mother one month later after she researched some ideas of naturally detoxing with cilantro etc. had mentioned to her and increasing foods the child would be more open to - she virtually fed him hot dogs and potato chips as he wouldn't eat anything else. I simply reduced the stress in his jaw, mind, as well taste bud disorders coming up through birthing trauma and was relieved to hear the child is a fanatic for exquisite foods, therefore canned corn (no vibration) and potato chips will not do. As I was saying she responded a month later stating he was eating better as she experimented more with vegetables such as fresh asparagus and snow peas, and she no longer had to hide supplements in his food.

City Unknown

I have been a Doctor of Chiropractic for 30 years, I have spent many weekends learning beyond my schooling, Kinesiology, Acupuncture, Homeopathy, Chinese Medicine, Chakra and Aura Clearing, Herbal Medicine, NLP, Emotional Clearing, Diets, Foods as Medicine, BEST, TBM, CRA, NL, NET all advance Chiropractic techniques. All this and the EFPX have done wonders for me and mine beyond what I could do with all this.

I had a severe pain in my upper back and had been worked on by colleagues but nothing seemed to touch it until another colleague with the EFPX put me on her machine and found that the problem was being caused by a dental issue...she zapped the dental issue and the pain in my upper back cleared up in minutes. I have had many complaints that the EFPX balanced out.

City Unknown

I have a client who was diagnosed with double scoliosis. She is 53 years old and has been a ballet dancer during her childhood years. She is 5'10" and weighs 135 lbs. Since I have had sessions with her (once per month for 12 months) she is not experiencing any pain in her back. She can do physical activity without feeling any pain. She is now

participating in the P90X exercise program and is becoming stronger every day.

I have another client who is a female, 60 years of age average weight and height. She had been feeling pain in her neck and shoulders from stress related activity. After our sessions, she feels taller and pain free. We have also used the anti aging biofeedback therapy with amazing results. Her skin has visibly changed and she is delighted with the results.

Client who underwent cancer chemo therapy and reconstructive surgery. She is a female aged 42 average height and weight. She was diagnosed with breast cancer. I saw her after her chemo therapy and initial reconstructive surgery. She asked me to use the biofeedback therapy for hormone balancing because her hormone levels were very low. It took 2 sessions before we could get a rectification. However, her monthly cycle has returned to normal. We also had some amazing results with her second reconstructive surgery. I had a session with her the day before and 3 days later. She felt no pain and was able to go on interviews 2 days after her surgery. She was absolutely amazed since she could gauge the difference between the first and second operations' results with and without the SCIO.

City Unknown

I have had my device for a year now and I have found much relief from my back aches and leg disorders. I own my own business and cannot afford to be sick...if I get a flue, I hook up and the device brings me back to functional.

My husband, also 48 has suffered greatly with a knee problem and a hip problem from an accident involving a head on collision with a logging truck. The device has brought him over night relief and we are both very grateful for the lack of pain in our lives that your device has brought to us.

My step son allowed me to hook him up when he has a disabling flue, and was given relief almost instantly.

City Unknown, Canada

One middle-aged female client came to see me to relieve some of the stress related to physical discomfort/pain/muscle weakness/stiffness she was experiencing in her sacrum, right knee, and right

foot. She was combining chiropractic, physical therapy/exercise, and stress relief to increase her quality of life. After three sessions, here are some words of testimony she provided:

"Between all that I've been doing for this (quantum biofeedback, chiropractic, and exercise), I managed to go dancing with my husband last Tuesday and was pain-free for the entire dance 40-minute dance session. I recognize I have a ways to go in getting all muscles engaged, balanced, and toned and I'm very encouraged. Thank you for the part biofeedback is playing in this!"

Another middle-aged female client had been diagnosed by her medical doctor as having an acute infection in surgical incisions on both her feet. She came to me for a session to relieve the stress associated with the pain of the infection. Here are her words of testimony:

"Thank you for the quantum biofeedback work. The infection is almost completely out of my system. My feet feel tremendously better than they did last week. My podiatrist assisted my healing by creating new orthotics to fit my newly shaped feet. These have taken my pain level down by 50%. The other pain I have is caused by the over-extended nerves, which I inflamed by my off-balance walking. Nerves tend to take more time to settle down. Between your quantum biofeedback and that which my doctor is doing, I am feeling so much better. Thank you!!!!"

I also did three sessions for a 12 year-old feline to relieve stress associated with an old fracture in her tail. After the sessions, her tail no longer contained the kink associated with the fracture and she tolerated petting along her back and hindquarters, which she was intolerant of previously, due perhaps to the stress and pain of the old injury.

Idaho, U.S.A.

1st success story:

The EPFX device has saved my life and given my children the opportunity to live with a healthy mom. I purchased my device in March of 2007, and attended training in Springfield, MO in July of 2007. While there, I participated in the healing opportunities that were available to the participants. It was determined that my chronic fatigue and pain were due to Lymes, which had most likely entered into my spinal cord and cerebral-spinal fluid. Most likely I had had Lymes and when I received the lumbar

puncture for the deliverance of interthecal morphine during labor, and the Lymes followed the blood into the spinal cord.

After I had my daughter in 2001, I was never quite the same. I had "meningitis" type symptoms - crushing fatigue, stiffness in my spinal cord, and pain upon movement and bending. I couldn't think as clearly as before. My eyes were extremely photo-sensitive and being in large spaces or with large crowds was overwhelming to the point I had to limit my lifestyle. (Prior to this, I had been a Flight Attendant and worked in large multi-national corporations with no problems - this was new.) The fatigue was life-altering. I had about 4 "good" hours per day in which I could function - not enough for a mother of an infant! I was terrified to try allopathic medicine as I was concerned that I would receive the label of "depressed" without any attention given to my physical state of being. I was currently using my knowledge in Oriental Medicine to turn my situation around, but I couldn't get to the root of the problem.

After my sessions in Springfield, I returned home and continued to balance myself on the EPFX as well as take the homeopathic formulae that could best help me. What happened seems miraculous, although the explanation is clear. At first, I felt "worse" - as my body stopped working in "status quo" mode, making the best of a bad situation and trying to maintain homeostasis, but instead kicked in and started fighting off the Lymes, Ameobas, and various fungi and bacteria – I really felt the truth of my health state. After 6 weeks, I started to feel better! Now, nine months later, I am thrilled to report that I can rise in the morning with my children, no aches or pains, care for them, care for our home, AND run my business! I have been given my life back!!

2nd success story:

My brother,- a 33-year-old male was involved in a severe car accident in January 2006 (prior to my purchasing the EPRX device). The injuries he sustained could easily have killed him, and thanks to a wonderful team of volunteers out the little village town where I grew up, he didn't. JW was airlifted to a level-1 trauma center, where his team of doctors did a wonderful job of keeping him alive and allowing him to heal. A partial list of injuries included: cracked sternum and sacrum, all ribs were fractured, his left arm was severely fractured in at least 2 places and they feared they may have had to amputate (they didn't) , his lungs collapsed, he went into defib twice and was successfully recovered, the processes on T9, T10, T11, and T12 were fractured, and a burst fracture of T12. Thankfully, no spinal or brain damage was sustained. While he was in the trauma SICU, I visited every day and did what I could - energy healing ("Healing Touch"). It was interesting how I could follow his relaxation on the monitors while I worked. Usually, his breathing would become deeper, his heart rate would slow a bit, he would

fall asleep, and he LOVED when I had my hands on him, offering an energetic outlet to the universe for his impact trauma. JW recovered completely, and today is pain-free!! I believe that the highly-skilled MDs, Nurses, and staff did a wonderful job, and without the high-tech intervention I would have lost my brother. I equally believe that without my low-tech energy medicine touch that he would not be pain-free today. Imagine what could happen if this were allowed in all hospitals?

Now, there was one thing - the humeral head of the left arm was necrotizing due to trauma. His radiologist and MD were watching it closely, and it looked as though he may need a replacement. I purchased my EPFX device in March of 2007 and in April of 2007 I placed the EPFX headband on his damaged shoulder and hit the Injury/Pain button. I was hoping that at the next radiologist appointment we would hear better news, but I was not prepared for the outcome. At the very next appointment, the radiologist was stunned, I am told, to find that "all articulations are 100%." Our family MD, who is an outstanding person as well as MD, wanted to know what I had done, and I had the opportunity to show him. Imagine if it were allowed that a person like me could see patients of this MD - patients like JW, trauma victims, chronically ill patients, if they could, in addition to their treatment from their allopathic medical team, receive a balancing session. What if stroke victims could receive acupuncture in the ER as they do in China and enjoy an 80% recovery rate? What if you were that patient - what if it were your child, your brother, your spouse? Think of the billions of dollars that would be saved in time lost from work, in additional PT, OT and the like, not to mention surgeries that could be prevented, as in the case of my brother.

3rd success story:

My friend, LMC, had received bad news. Lung cancer. It looked to be encapsulated and she underwent the thoracotomy to remove it. A few days later, great news, kind of. Not lung cancer - fungus. Fungus that had encapsulated in her lung. She was relieved, although experienced the normal pain and depression that follows such an invasive surgery. But, it wasn't cancer, thankfully. Six weeks later, she returned to her work as a busy executive for a large multinational company. She struggled as she is over 50, so her healing, while progressing well, took a bit of time. Finally after a few weeks, she returned to her internist who recommended that she take 2 months off to recover fully as she was clinically exhausted. Well, that time off was not an option - she had used all her sick time and could not take that time to heal - she had to return to work or resign. In desperation she visited a Wellness Center in Springfield, MO, upon my recommendation and was seen by a practitioner. After receiving balancing treatments, IV cocktails, homeopathic remedies, etc. for 2 months, while she continued working. She is happy to report that after that two month period of homeopathics and balancing sessions, she feels like herself again and was back at work performing at her pre-op level, and currently is looking for a new, better position in which she will be required to travel 50% of the time - not an option for her 6 months ago and prior to her balancing sessions with the EPFX device.

4th success story:

One female client has bad news. Her Hepatitis C had gone undiagnosed for so long she was now in liver failure. Unfortunately, her blood work revealed that she was too sick to be considered for transplant - she has 2 years to live, given her state of health and statistically speaking. Could I help? Well, certainly, I didn't know. I could only do what I knew to do, and could do safely to protect what health my client still has. She decided to give it a try. I spent 3 days with her, and balanced her all three days. One week later, she returned to her transplant specialist to check her blood work. Happily, she is now on the transplant list. And we have moved our healing target to her not needing a transplant, but happy that it is available to her if need be.

5th success story:

One client is an active, working 60+ year old male. He gets along just fine - but he had a lower back problem that he lived with for 5 years. He also was tired much of the time, and had to just "suck it up" and do what he needed to do. We did 1 balancing session for his lower back pain. After the session, we were chatting as he was putting on his boots. Suddenly, he stood up and had a look of surprise and amazement on his face. He said he hadn't been able to put his boots on while standing for over 5 years, and here he was, doing it! He was awestruck, and honestly, so was I! He also received some homeopathic for his fatigue and now, 9 months later, still reports that the back pain has not returned and he feels like he has the energy of a 30-year-old.

6th success story:

A one-year-old infant boy was presenting with patches of eczema and his frustrated mom was looking for a way to help him. After 3 balancing sessions and a few drops of homeopathic in his umbilicus, the rash went away completely and has stayed away for 1 year.

7th success story:

A 60+ year old woman with a history of trauma due to an auto accident. She had damage to her cervical vertebrae and 20 years ago underwent a surgical procedure to fuse some of those vertebrae. She was having headaches, tingling down her arms to her hands, and could not turn her neck. I did one balancing session, and 1 week later she called to tell me the pain was gone from her hands, neck, and head, and she could turn her head and drive again! She was very happy, as I was for her.

8th success story:

A 50 year old male with back problems for over 5 years. He had used acupuncture, chiropractic, PT, OT, massage, etc. in the past to help alleviate his symptoms, but could not get to the root of his problem, so relief was short lived. He was needed to use muscle relaxers, which he didn't really want, but needed. After one balancing session he reports that he has not had pain since and can do his work without medications.

City Unknown

I have a client who was 35 at the time, she and her husband had been married for 15 years and had not been able to conceive and had done everything to get pregnant. She was told that due to her endometriosis and Circulation issues that they were never conceive. I have work with her for three sessions over a 2 week period. She cried the first session for 1.5 hours and never talked about a thing. I just work with the stress and did short therapy for fertility. Three months later she was pregnant and now has a son who is three years old.

City Unknown

I have a client; he was 78 years old when he came to me. He was 330lbs and 5'8", nice man, he takes pride in the fact that he is a great cook and never leaves a crumb. Needless to say, we had several conversations about our diet, portion size and he did finally seek the advice of a licensed professional to help him with that. He also joined the YMCA and began to swim after he lost his first 30 lbs, and decided he may live awhile. When he came to me, his doctor had told him to go home and do whatever he wanted to do, he was a time bomb and could go at any time form his heart, one dead kidney and the other was only functioning at 30%, diabetes or a stroke, he had had over 30 mini's. When this man

made urine, he said it was dark brown and experienced constant kidney pain. The actual reason I began working with him, was that he had three broken ribs caused by a fall. After my first session with him, he was breathing with no pain and sleeping through the night. He had to get up to go to the bathroom every couple of hours, so when he woke up in the morning after a full night's sleep, he called to tell me how he hadn't believed a little bit of energy could do anything to help him, he was even still out of pain. Would I please come back again soon to see what else his body would do that he didn't know it was capable of? Well, that was in the spring, and after three sessions, he planted the 130-plant garden all by himself for the first time in years, with no help from his wife. By midsummer, he walked to his neighbors, and totally blew them away. One last thing, he had a fatty tumor that several doctors had refused to remove for over 30 years, it was the size of a softball, that tumor is gone today. So many wonderful things happened with this client, I could go on and on, but you get the picture of what a wonderful needed device this is. By the way the doctor was amazed that the kidney wasn't really dead after all, must have been faulty testing.

I work on my family:

We have overcome several sufferings, such as pain and stuffiness in the sinus area.

My three-year-old granddaughter was diagnosed with pneumonia, the ER doctor gave a prescription and agreed that biofeedback and therapeutic grade essential oils would probably do the trick as well and his scrip.

He was right.

Neuralgia

The family cat with a bloody runny eye, it is just amazing what happens with just one session.

City Unknown

I began using the qxci back in August of 2003, my first session I did not notice much of a change on the second session, two days after the session my energy came back up to where it had been in my 20's and I was 43 at the time. I was impressed and then decided to purchase the qxci. I had dealt with extreme chronic fatigue from 1992-2003. I am a massage therapist and I was at a point where I would go do

my work but then go right home to lay on the couch when done. I was just dragging myself through life and also praying that God would let me die. I was also dealing with a lot emotionally I had been in a martial art school and also dated the Instructor for 7 years and the school is a CULT. I had been through a lot of abuse as a child like being raped at 5 years of age and paddled every day until 16 years of age. I had

migraines every day for three years day in and day out, this was hell. I am Catholic and I would pray the rosary during the migraines and sometimes 2x's in order to go to sleep. I would pray that God would let me die or give me an answer. At this point suicide and any pain had been hooked up. There was not a day that I didn't think about dying. At 16 I had gotten some help with the migraines and was doing really well but the emotional piece did not go away. The abuse that I lived with while in the martial art school was far worse than anything. My mother told me that she prayed that I would leave this school before she would burry me. When I left this school I had far more to deal with.

My heart was shut down, my passions were gone and I felt no attachment to anyone and not even to life. Not sure why I was having to live. I started doing counseling and did this for 8 years , it helped but

wasn't touching what I needed to get through with the PTSD. After August 2003 and having a few qxc session I no longer needed the counseling and I do not know when this happened but I no longer

everyday think if this is the day I am to die. I have had the counselor check in several times to see if I am still doing well, and I am. In fact I can remember the past but it doesn't have the triggers, it seems

like another life or another chapter in my life. In the past I could give you all the detail and be right there, today I cannot. I have a friend who is a M.D and she has been impressed with how well it has help with the emotional issues.

Since I was doing so well I decide to finish my 1500 square foot basement, I had stud in all the wall and was working on pulling all the electrical wires. When, On June 9th of 2004 I had 3 30"

bifold doors fall on me and stuck me on the head and top of the shoulders. Two days later I had lost all feeling down both arm while driving. I am still dealing with this today and I have numbness, loss of

arm strength and a bulge in the disc at C5-6. I have been told that I need surgery, fusion or disc replacement done, but I have tried to put it off as long as I can. If it had not been for the SCIO I would not

have done as well as I have. First my Doctor friend would tell me when thing got emotional to sit down and do a SCIO session and it calms things right down. She also knows this from her own experience how it helps with emotional issues. The pain and numbness has been so bad that it again brought up the suicide piece but with a SCIO I have been able to help me get through this and now I do not even think about the suicide when things get tough. While the pain was running down my arm was so intense I could hardly stand it. I had a friend do a session on me with the SCIO. I had my doubts about this really

working, until I had the roller used on my shoulder neck area for the nerve issue. Every time this friend would roll the roller over this area it would shoot a pain down my arm and intensify the pain, which then I would yell ouch. This didn't happen on the other side where the nerve was not pinched. So this made me a believer that the roller was doing something. Not only am I dealing with the physical and emotional issues with the doors having fallen on me I have had to cut my work load in half and have lost a lot of client over this. I also have to continue to have the pressure to keep the work going on the basement to hold the permit open, so there is this financial, emotional and physical stress. I also have a lawsuit against Home Depot which adds a great deal of stress emotional. Then I am having to work in pain and with numbness to not lose my house and everything I have worked so hard for. This has had a huge affect on my life financially, physically and emotionally. In the past I have always been very strong and now I can not make my body work and push through things. Also I have been having car problems and have spent \$7000-\$9000 dollars on car repairs to try and fix my car and it isn't still right. On top of this In August I left a fill line run on my salt water tank and killed all my fish and did \$16,000 worth of water

damage to my house. This only bought more stress on with dealing with the insurance company and the mortgage company. Then at the end of August I had to put my little sheltie down which I had for 12 years.

Then a week later I had a client get fed through a corn chopper and ground up, which was a shock and tripped off a lot of emotions. In October Home Depot sent me to see their physician and he did a EMG which tripped off and pain and numbness to a level of 10 on a scale of 1-10 which I had been maintaining at a level of 3 for some time. I still have not slept a whole night without waking up with pain and numbness in my arms since June 9th 2004. And even with all this going on I still have been doing very well considering all that I am under and dealing with. In fact my Dr friend commented that in the past one of these things would have been enough to set me over the edge and she is amazed at how well I am doing with all of this. I deal with life and stress in a much different way than I have ever done in my life and I know that it is due to the SCIO.

Also I have in the past had to have massage work or other types of body work done to keep my body going and out of pain with all the physical work that I do. The massage therapist that I was working with has not been available to do my work with me since June 2006. Which I am amazed by this. because in the past my body would be screaming at me. And the worst piece I am dealing with is the numbness

and pain in my arms, which I know is better with the SCIO. This was proven after the EMG things were not clearing and I did not have time to stop and do a SCIO session. Because of having to deal with work and not feeling well. After 3 week's things still had not clear and only escalated to a 10. I called the Chiropractor to get an appointment and he told me that he would not see me until a medical doctor saw me. He also told me not to do anything to reduce the situation until I saw the Doctor. He saw me the same day after I saw the physician and he tried to adjust me but I was so tight and did hardly move. I

booked another appointment four days and did a Scio session that morning before since I wasn't feeling much better after the first adjustment. In the past Dr Eskin could tell a difference when I had done a Scio session before the adjustments. I would adjust very easily and would move a lot more in areas that he couldn't get at other times. When he did that adjustment again things had moved vary easily and adjusted in ways that I had never adjusted before. I was again impressed with the SCIO.

I have been working with a Chiropractor during this time and he and I have been trading work. He will at times asking me where I am working because he can feel a sensation in a part of his body and wants to know if I am working on that area. He has also noticed how it has helped him deal with life and stress and his issues. If I haven't called him for a while he calls me wanting to know when I am coming because he needs a touch up. He can tell that he stress is starting to build up and he doesn't deal with things as well as he does when doing the SCIO sessions.

My sheltie started having seizures in 2003 and put him on Phenobarbital to try and control the seizures. It wasn't doing very good job. Once I got the QXCI I started working on him at first I was trying to reduces the stress on him from the seizures. As I soon discovered that If I did a session then it would be a longer period of time before he would have one. The last year he had 2-3 seizures through out the year and the drugs were not changed. I also notice that every time a did a session he would act a lot more energetic and more like a pup. I had friends that knew and saw this happen with him. They even asked me how long I was going to keep bringing hip back to life. Even the vet who I took him, comment on how young and active he looked, he was almost 15 years old when I had to have hip put down for heart issues. The vet would have put him to be about 6-7 years old. He had very little graying and eyes were very clear, had no hearing loss no stiffness of joints and just very energetic. I was also recently told by a judge an sheltie breeder that it shelties are very difficult to control with seizure medication and in fact can not usually be controlled by medications and they do not know why, yet Aaron with doing quit well and lived for 4 years with seizures and did not die due to the seizures.

As I have worked with my massage client what I have noticed is that after doing a SCIO session there bodies are much easier to work on and the tissue is softer Some of these clients I have worked on for 15+ years and never made or seen changes and improvement as I have since doing a Biofeedback Stress Reduction. In the past I was only able to work things out to a certain level, with the SCIO I was able to take things to a much deeper level and work on things I had never been able touch in the past. I have body a builder and he is like working a brick. Three weeks ago I told him that I felt we need to do a SCIO

session, he feel that it doesn't do anything for him yet was willing to do the session. He came two weeks later and his tissue had a softness, suppleness and flex ability to it that isn't even there after I have done a massage session. I have also notice that when having a client focus on an emotional issue and then repeatedly doing the NLP therapy what they and I have found is. That at the start of the therapy it is very easy to focus on the problem with great intensity and ease to connect with it. As I run the therapy I have them check into the situation at different points. What they and I have discovered is that as I do the therapies the intensity or charge drops and at some point then they can not even connect with the thought or feelings around this situation. They have also notice that they deal with life and stress in a much different way and it may even be the situation that they work with on in the session.

I have a client, woman in her 50's that has had dizziness for 4+ months, exhausted all medical avenues with no relief. She called me out of desperation to see if the SCIO my help. After the first session, the next day she noticed that the sensation of getting dizzy would start by not manifest or is was not the same intensity as before and would clear shortly. After the second session the dizziness has not been back and is doing rather well.

I have a male client in his 60's with balance issue has had this 4+ years, and in three weeks has got rid of the balance problem. The medical doctors could not find anything wrong with him. He came in after 3 weeks of working and told me, "That he had no idea how bad he was and was not ever going back to feeling this bad again.

I have a female client 68 years old who had hip pain issues. The Doctor told her that she had very little cartilage in the joint and needs a joint replacement. He has worked with me for 3 months now and is walking better and at times pain free. When things get flared up then she books another session.

I have a client who is 50 who was in a car accident and rolled her car. She was sent out the back window and lit on her head. She had 7 fractures of in her neck and when she came to me 6 months later could not even turn her neck. Right after the first session she was able to turn her neck 4 inches from side to side when she had no movement at the start of the session. I have seen her a total of 3 time over three month and now she can turn her head and touch her chin to both shoulders. She has also found the sessions to help with the depression and other emotional issues.

This is only a few things that I have notice I started working with the QXCI/SCIO back in August of 2003.

Greeley, Colorado

I had a bad accident in 2004 horseback riding. I was kicked on my right ankle by another horse. This was really painful. I went back home and did test with the EPFX-USB. Next day I when to the hospital and did test. The test was accurate.

My foot and ankle were badly injured. My tissues where stretched and the ankle bone was crack. The doctors explained I needed crutches for 6 to 8 weeks before I could walk.

So I did electro medicine every day for one week 3 to 4 hours a day. Alternant cold and warm. I took supplements that were suggested in the test with the EPFX-USB. After it was every 2 to 3 days for a week. My foot and right leg turned to different colors.

After a week I was walking without crutches. I could feel the work being done in my tissues and meridians. The energy flow was really working in my body.

So I could express I believe in this process of helping the healing in my body with the EPFX-USB.

Quebec, Canada

My husband's testimony is the loss of 42 pounds in 45 days. He has been overweight all of his life. He tried various diets, having no long term results, usually ending up weighing more than before. Using the EPFX, a special eating plan and mild daily exercise he lost the weight last fall and has not gained it back! He loves to show people his belt that now

has at least 15 inches of unused notches. He is thrilled and is now in a better position to fulfill God's call at the restorative retreat!

North Carolina, U.S.A.

I have been a practitioner of alternative/complimentary medicine for 15 years. I am licensed in massage therapy, polarity therapy and cranio-sacral therapy. I have had advanced training with the EPFX. I do not diagnose in any of my work. My intention is primarily for physical and emotional stress relief. The magnitude of this device is tremendous. With it I have the capability to introduce relaxation and stress

reduction to the body as a whole in a more efficient manner than any of my other therapies. So many clients have reported improved sleep, mood shift, ease in breathing, even pain relief.

One client, a 50 y.o woman, came to me one winter in 2003, with congested breathing telling me that she gets bronchitis every winter since she was 9 months old. She has had antibiotics and cough suppressants, with only temporary relief. Since she was in the middle of such a stronghold of infection I encouraged her to continue with the physicians orders and I could use the EFPX as a support measure. I also consulted with a trusted doctor of oriental medicine. His suggestion was to begin sessions in the fall prior to the onset of bronchitis.

So the following fall, she chose to see me weekly. I simply ran through a protocol of stress reduction in the primary systems that were involved. She also chose to stay away from dairy products as they may have influenced further mucous formation. December came and went without even a sniffle, as did January and February. She was amazed, and frankly so was I. She was so excited with all the energy she now had available to her, since her body was not fighting the typical infection she had had for 50 years.

The following autumn she returned, spacing our sessions every 2-3 weeks apart. Again, no bronchitis. The following year, 2006, she returned again, we had only 3-4 sessions that winter. She has had no symptoms of bronchitis again. This has changed her life, honestly.

City Unknown

I am currently a practitioner of the EFPX. I am an RN and had been administering chemotherapy for four months. I became very ill with symptoms of someone who had received the drugs I had been administering. I began losing my hair, my skin was very dry and the itching was terrible. The mental foggiess was so bad that I had to quit my job for fear of administering the wrong medication. I was having difficulty even reading a book because I couldn't remember what I had read the page before. The fatigue was horrible. I couldn't make myself get out of bed in the morning and when I did, I went to the nearest recliner and spent most of my day there. I didn't care about anything, even the things I enjoyed the most. I was just too exhausted.

My place of employment had drawn blood to check my liver function, sent me to my family MD, and sent me for an MRI of my brain. My liver function was normal, my family MD had no clue what might be going on and suggested I ask the MDs where I was employed, and the MRI was normal as well. I felt as if I had been let down by western medicine both as a nurse and as a patient. I knew I was not well and knew I had to do something. I began seeking out alternative healthcare.

I was given many vitamins and minerals to help with my fatigue but apparently my digestion was a problem and I became even sicker not being able to metabolize anything I was taking. I began gaining more and more weight. I came into contact with someone who had just purchased the EPM. I was told my body was poisoned with heavy metals and other toxins. This device described every symptom I had and others that I had never verbalized. There was no way this person knew the things she was telling me. I was so impressed I bought an EPM myself. Since then I have detoxed my system, and feel 100% better.

I was also told by this practitioner that my body was saying hypoadrenia and when I began researching this, something else began to emerge for me. I had been on medication for years for depression. I felt the medication never really helped but it was the only thing that helped me to keep going. After researching hypoadrenia I realized my symptoms that had been diagnosed as depression were actually my stressed out adrenals. With the EPM I was able to manage this stress and I am happy to report that I no longer take medication for depression and I'm feeling great!

City Unknown

I have used the EPM / SCIO since August of 2006. I have benefited in many ways. I would say the most dramatic is my morning elimination of the bowels. I am 54 year old male. My diet is varied. I am a meat eater. My evacuations were always pretty good. Since using the SCIO they are amazing. Within 10 minutes of rising, regardless of what I ate the past 12 hours I have a large well formed bowel movement. By noon I usually have a total of 2 or often times three BM's.

Also, my spine and neck are pain free 100% of the time. The flexibility throughout my body is much improved. Since using the EPM / SCIO I have not suffered any sickness or disease. My energy is also improved and stronger.

City Unknown

I had a client who came to visit my office in the summer of 2007. She had recently been diagnosed with Stage 3 cancer of the breast. She used QXCI to balance stress for 3 months. She then had a mastectomy, tummy tuck and boob job. Although, her surgeon had planned on chemo and radiation, after examining

her tissue, they said that her chance of recurrence was only 9% and would therefore not require any chemo or radiation. My client was elated. She attributed this success to dietary changes and the balancing on the QXCI.

Birmingham, AL

A client had genital herpes and was quite stressed about it. She was taking acyclovir. Over a few appointments we zapped the virus and she also took the Dr recommends vir-h and immunipoi homeopathics. Just saw her again and she reported feeling great, no outbreaks at all and she is off the acyclovir.

City Unknown

I have only been working with the QXCI for less than 6 months. I myself have suffered from chronic headaches/fibromyalgia daily for over 15 years. Medication, exercise, chiropractic treatments had offered limited relief. My usual headaches would be so bad that I would be so exhausted I was unable to do anything extra with my family as my entire energy was spent at work. The headaches were so bad that I was nauseated most days and would vomit at least monthly. Needless to say I also missed a lot of work. I have been rebalancing the stress with the QXCI and I no longer have daily headaches. I had forgotten what it was like to be PAIN FREE. In the last 6 months I have had less than 2 headaches a month and only 2 headaches that I felt nauseated from (and no vomiting). I can't tell you how this has changed my entire life and how hopeful I am about my future. I am a registered nurse and I see daily how people suffer as the usual medical treatments are limited and frequently don't offer relief (and if they do there are always the side effects of medications).

City Unknown

I have been working with the QXCI for less than 6 months. I gave my dad a stress reduction session for his arthritis as he was having a flare up and considering a second knee replacement (he is 70 years old). Within 2 days he called me to say he was walking up and down stairs without grabbing onto the railing and pulling himself up. He told me " I haven't felt this good in 20 years". Did I mention he was a skeptic.... but not anymore. Just knowing his senior years don't have to be spent in pain is worth more than you can know.

City Unknown

I recently gave a 62 year old lady a stress reduction session with the QXCI. I used the the anti aging protocol and also balanced her varicose veins. After the session she was so excited because the vericose veins had started to show a noticeable improvement. This with about a 1 hour session. Unbelievable and very important to this lady.

City Unknown

On May 17, 2006 I had my first biofeedback session on the EPMX. I told him I wanted to quit smoking. I was having difficulty breathing after using nicotine for 42 years. After my first session I could breathe much better and have not smoked since. I did light up three cigarettes on my way home but put them out quickly because they tasted terrible. The next day I woke up and told myself I didn't need this anymore. That was almost two years ago. What is even more amazing is that I had no cravings and did not gain any weight.

Washington, U.S.A

I would like to give a testimonial for my own health improvements with the EPMX device. When I started working with the device, my general health is very good with the exception of one area, my hormones. For at least 20 years or more I have suffered with heavy cramping during my ovulation cycle and the first two days of my menstrual cycle. The last 5 years or so I have had heavy bleeding with thick dark clotting as well on the first 2 days and it would last a full 7 days. After working on myself for approximately 2x per month, for 2 months I started my menstrual cycle without pain! I had little to no forewarning (usually

lots of pain). The cramping during my ovulation cycle stopped within 3 months, I have minimal cramping just before I begin my cycle, and the bleeding only lasts for 3-4 days instead of 7! It has only taken a few

short months to correct my cycle, when my O.B.G.Y.N could not figure out why I had so much pain. The solution he could come up with was that I was having cysts that would erupt during that phase and that was causing the pain. He did not offer any solutions to my problem. FYI.....he was a fertility specialist.

I also feel as though working with my clients, my health and energy levels are better! It makes me very happy when I work with the device, I feel as though I have bonded with it and we are a team! I love how it gives me pop up messages, they are very profound at times, even shocking!

City Unknown

I have owned the EPMX/SCIO device for 18 months. A couple of years before purchasing the device, I was diagnosed for the second time with a primary breast cancer and underwent surgery and chemo therapy. A year later, upon recommendation, I had my ovaries removed. All of these changes in my body created a very stressful unbalanced system.

The EPMX/SCIO device has helped me identify what areas in my body were out of balance and given me specific ways to correct those imbalances both by using the device and by using supplements and adjunct therapies. In addition, I have used the device with three family members who have seen their symptoms improve after having SCIO sessions with me. One of them was in a car accident and had a lot of pain and digestive problems. These symptoms are now completely gone. Each time my six year son becomes ill (like with a cold, headache, stomach ache, etc), I run a session on him. Since working with him, the symptoms of his illnesses diminish more rapidly and he just doesn't get as ill any more.

My husband has suffered from bowel trouble and back pain. These symptoms have also gone away since I've been working with him using the device.

City Unknown

I have had great success working with a QXCI practitioner, and I want to share it with all of you! As some of you may know I have suffered with diverticulitis since March of this year. I have seen four doctors

and have been on seven rounds of extremely strong antibiotics since then. The last few months I was told if I did not have a bowel resection surgery. I was risking a perforated bowl which can be fatal or have

lasting long-term complications. I decided to seek advice from Cleveland Clinic one the world's leading hospitals in gastrology . I knew if they said I needed the surgery I would have it. I was scheduled to go to

Cleveland on Thursday Oct 24 ,2007, Several days before that I was to attend a seminar in Atlanta GA. The first day of that seminar Amy and I met a QXCI practitioner and we liked her instantly. As she explained her work I felt led to have her work with me to remove my diverticulitis. I had my first appointment with her Monday Oct 22. 2007 and then she felt strongly enough to do another appointment on me Wednesday Oct 23,2007 on my way to Cleveland. The practitioner was also able to accurately describe past traumas and illness and the residual effects of them on my body.

I had all the usual testing done on me while in Cleveland as well as bringing my past films, CT scans from my other appointments for there review. This time when I met with the doctor I got very different

results. This is what I was told, " Jodi, I am a surgeon and I am telling you do not have surgery .. you do not have diverticulitis" . I believe this was all healed and removed due to my work with God, the

QXCI practitioner and my body. My past films showed the diverticulitis just two weeks prior. I believe all people are brought into our lives for reasons. I wish you all perfect health and that's why I am sharing.

City Unknown

I had been suffering from chronic migraines for the past 5 years. I tried acupuncture, chiropractic, and traditional western medicine. Nothing was able to "cure" my condition, so I resorted to a pain

medication multiple times per week. However, through the QXCI EFPX/SCIO I discovered that the problem didn't have anything to do with misaligned vertebrate, blocked meridians, muscle inflammation, or anything to do with my brain; it had to do with inflamed lymphatics and stored emotional trauma. As I worked on stimulating the lymph and the associated emotions with the devise my headache disappeared.

DISAPPEARED.

City Unknown

One client came to me Jan. of 07, main concern was weight loss and nutritional guidance. During initial intake I found that her immune system and gastro-intestinal system was compromised, she had leaky gut and candida, none of which was clinically diagnosed. The following is her testimony.

Over a year ago, I was overweight, weak, exhausted, and given to sickness the majority of the time. Typically, it would take me well over a week to recover from numerous bouts of flus, colds, or sinus infections.

My life coach designed a health renewal plan for me that included suggestions for diet, exercise and the use of nutritional supplements. However, my health renewal plan also included something I had not tried before: Quantum Energy therapy. This therapy has given me that extra boost over a *wall* that was keeping me from improving my health and having the vitality to enjoy life.

Over the past year, Quantum Energy treatments have increased my overall energy, feeling of well being, and given me more restful nights of sleep. My immune system is much stronger now, and I do not become ill as often. If I do become sick, I recover more easily and quickly. Recently, after a rib injury, I received two Quantum Energy therapies. These therapies greatly alleviated the excruciating pain I was experiencing. As a result, I was able to continue with my regular activities without much discomfort. Overall, Quantum Energy therapy has made a remarkable difference in my quality of health.

Someone might ask, "How often do you need a Quantum Energy therapy to feel better?" I actually felt better after my first therapy. I then continued with monthly therapy for about six months. Currently, I schedule a therapy every two - three months.

Today, I am a stronger, slimmer, and healthier person. I highly recommend Quantum Energy therapy to support your overall

City unknown

Female: Age 24

Came to me in June of 07 with a severe case of yeast infection that had been plaguing her for over 20 years. Clinically diagnosed and every conventional treatment exhausted she arrived in my office in

desperation. I found heavy levels of Candida, a compromised gastro-intestinal system with nothing being done to correct this. She had already followed complete elimination diets and went completely vegetarian in the hopes of controlling this to no avail. The following is her testimony.

I have suffered from chronic yeast infections for over 20 years. I have tried everything traditional medicine has recommended and found only minor reductions in symptoms, but have never stopped the discharge associated with this.

What I found amazing is that immediately after the first treatment of the Quantum Biofeedback program, the usual discharge stopped. For me this was truly a breakthrough and when combining this therapy and the specific nutritional recommendations Mr. Middleton gave me I have remained symptom free ever since.

Thank you so much, my life has changed because of this and I am so grateful.

Buffalo, U.S.A.

Female: Age 36

Came to see me in the summer of 07. Clinical Diagnoses was depression and anxiety, suffering from ongoing Migraines, presented with severely disrupted sleep patterns and chronic fatigue. She was taking 3 medications 2 for her depression and anxiety and one for blood pressure. She had exhausted all other avenues of traditional approaches before seeing me.

My analyses showed severe dysbiosis, low Bowel Flora levels and a compromised GI tract.

Buffalo, NY

I came in to see my practitioner the summer of 2007. I was at probably the lowest point I had ever experienced in my life. I was suffering from heavy depression and anxiety coupled with constant migraines, low energy levels and poor sleeping patterns. I told him the first day that I wanted to do a complete makeover and explained to him how I had been to pretty much every Doctor you could imagine with no results. I was on several medications just to get through each day which clouded my perception of life.

After approximately 4 weeks of therapies, nutritional protocols, personal training regimes and effective relaxation techniques I have been symptom free and under the direction of my Dr. have been able to eliminate my medications. I have had maybe one headache but not a migraine, I have had no bouts of depression or anxiety, my energy level is incredible and I feel better than I have in so long that I am not sure I have ever felt this good.

Male: Age 49

Personal Testimony:

Approximately 9 years ago I had a severe injury to my left arm and both rotator cuffs. I was showing my son how to perform a back layout on the gymnastic rings and just as I had achieved the full layout position my left Bicep completely separated from the ligament attaching it to the radius.

At the same time this occurred, both rotator cuffs folded in and ripped. The Bicep Brachia was surgically re-attached however there was very little that could be done for the rotator cuffs aside from Physio which I did myself with great results. The only problem was chronic shoulder pain at night which interrupted my sleep dramatically as no matter which side I laid on, within 2 minutes I would be throbbing in pain.

I tried several NSAID's with little or no relief and had resigned myself to the fact that this is what I could expect for the rest of my life. Enter my introduction to the SCIO/EPFX. I had bought it with very little training or understanding of how it worked or what it could fully do, but I understood the fundamental aspects of its operation.

As my wife and I were working with it we became a little more familiar but still had no real understanding of its capability or true use of it. One night I had gone to bed and she was working on it from the living room on me as I slept and for the first time in 5 years, at that point, I had a full nights sleep with no pain. This was the pivotal point for me and spurred me into getting certified.

Since then my strength and training capabilities have improved dramatically and I still get solid nights of sound deep sleep without pain. As a practitioner I have witnessed some amazing results from using this device and wish it would be an accepted medical device for analysis and therapy use.

Mississippi, U.S.A.

Female: Age 34

This patient came to me in Sept. of 2007 presenting with a clinical diagnoses of Depression and Anxiety. She had been on 4 different medications over the last 6 years, finding only one of them giving her any relief and even that was not a lot.

She finally went off medications over 2 years ago and has been dealing the best she can with this since then, losing a lot of work time due to her flare ups. She came to me for help and over 2 months we cleaned up her diet, I had performed 6 therapies with the EPFX and added specific neuro-transmitter supplementation and have gotten her to a point of no flare ups for the past 3 months.

Buffalo, NY

In September of last year I came for help with a chronic issue of depression and anxiety. I have exhausted every option available to me through the usual medical practices and all of the drug protocols they have put me on.

Although I had some relief from this with medication, I came to the conclusion that I did not want to continue taking them as the potential side effects would outweigh any good they may be doing me now.

When starting with the EPMX program I was skeptical and a little scared as I had no idea how this was going to work, but I prayed extensively for help and left myself in my practitioner's hands. What I found truly amazing, to me that is, is that after the very first session I began to feel a greater level of peace and ease within me. After about the 3<sup>rd</sup> session I found myself in awe that I had no recurring bouts of anxiety or depression in over 2 weeks, which for me is a miracle as I would deal with them on a daily basis.

By the time we finished the program over a 2 month time frame I had only one flare up and even it was minor in comparison to what I have dealt with over the last 10 years with this issue. I have not been in to see my practitioner for over 3 month's now and I have had no flare ups and am finally at a point of once again getting know the real me after hiding for so many years.

I am truly grateful for all of the help my practitioner has given me and to the EPMX program for all the help and insight into what was occurring inside me so that I could understand how to make subtle changes for a better, healthier, happier me. Thank you and God Bless.

Williamsville, NY

The pain started over four years ago. I was informed that I have Arthroporosis of the spine and knees. I got Physiotherapy and pain pills, nothing helped against the pain and blocks in mine spine and knees. I had two scopes on the right knee.

The doctors told me that in the near future I would need a knee replacement. Between my ribs on the right side a nerve was blocked and the pain, travelling to the front, was sometimes so bad that I could not breathe.

Another doctor told me, I had gallstones. So I was send to the University-Hospital for X-Rays. They found out that it was Arthroporosis (Degeneration of the bones). They told me, they cannot do anything for me but giving pain blocks. Also at the National Hospital they could not do anything.

They prescribed Radiofrequency-Therapy.(Burning off the nerves). They burnt three of my nerves of the lower back.

At that time I weighed 124 kg and needed to walk all the time with crutches.

By the end of the last year I was at the Anglican Church introduce to a couple of two Therapists. I was told that they can help people with conditions like me. They work at "Healthy Habits" with the computer Program called SCIO.

At their office I got a therapy and the result was that I do need neither crutches nor painkillers. And meanwhile my weight was going down to 92 kg.

I am not only free of pain, but can do so much more. I can walk and lift my arms higher than my head. I can run my daily chores and I feel so much younger and more active. My knees are strong again.

There is a friend of mine, she could only walk with a stick and had a lot of pain. Six weeks ago I drove my friends there and they worked on her at a friend's house. Directly after the Session she walked home pain free and in a good mood, holding the walking stick in both of her hands above her head with a happy smile on her face. Her walking is still strong, and no pain anymore.

City Unknown

One case was a caucasian woman age 44 who was seeing an M.D. for an addiction to drugs. She went through his detox program and was expecting to have similar detox responses such as shakes, etc as she did before, but she has transitioned easily through without anything, and even her doctor commented on not understanding why she didn't have any detox responses. She had been seeing me 1 time/week for 3 months at the time. She says, "The healing that I have received has been incredible."

City Unknown

I use the device for myself whenever my sciatic nerve and hip bothers me. This past week was a perfect example. The pain was going all the way down my leg and ankle. I did the usual therapies for this stress to my body along with the things that came up as unconscious choices. The next day all the pain was gone again and I was able to do a full days work around the house plus see 4 clients. It is truly amazing how effective the EPFX works in releasing pain.

Saskatoon, Sask.

Client #1 Young crippled girl 10 years old. She can stand but not alone. Has no muscle control with hands or arms, legs or feet. Various muscles have occurrences of uncontrolled twitching. She is currently being seen at UCLA. Diagnosis unknown.

Client is hooked to the Quantum biofeedback device, usually with just the head harness. I reduce stress through various program...biofeedback (reduce stress in nerves and reduce stress in spine). I can visibly see the difference as she stretches and moves her arms and legs purposefully during treatment. I also use NLP program and brain balancing program. The girl, who rarely speaks, starts talking when her brain gets balanced. She once left my office and her mother tells the story that she was actually able to speak to her father on the phone that night. They were thrilled.

Client#2 – Thirty something white female rushed to the hospital with an apparent overdose or bad drug combination. She was unconscious and it was unknown how long the female was unconscious. There was a faint pulse, oxygen was applied. The hospital emergency personnel worked on her for several hours. The doctor then asked my client to go and get the medical power of attorney documents. He felt that there was too much damage to the women's heart and that she would fail by the end of the day. My client called me and ask if I would do what I can. Since my client had the medical power of attorney, I consented. I was able to get started within 20 minutes. I had never seen readings so low. I sent her vitamins, mineral, enzymes and whatever else her body asked for, recalibrating every so often to get new readings. Within 2 hours she was moving – although she was still unconscious. By sunset, she had opened her eyes. The next morning she was off the ventilator, was talking and was released that day.

City Unknown

I was 59 when I first heard about and tried biofeedback. My chiropractor was the one to introduce me to it. I had been diagnosed with arthritis and was on the doctor's waiting list for double knee replacement. I was in great pain every step I took. I couldn't stand for long. I was afraid to dance, twist or turn or step a wrong way, every move I did cautiously to avoid further damage or pain to my knees. (I also had severe heart burn and bleeding hemorrhoids. The heart burn and hemorrhoids were gone after just two sessions three weeks apart.) My knees started feeling better right away and now, after about 10

months of biofeedback, I am as good as pain free. I even did some dancing a couple months back with no negative effects during or after. I walk and move effortlessly, forgetting that I had such severe problems

with my knees. I am now a certified biofeedback technician myself. I am sold on the success I've experienced and want to share it with others.

California, U.S.A.

We are spending every summer in Greece and for the past 10 years my son had serious allergic reactions to the air in our house, probably dust and mold because nobody lives in the house during the winter. He usually sneezes nonstop and cannot sleep because of breathing difficulties. Twice he had to fly back to Germany because he felt too sick to stay. He also had a skin fungus on his back with resulted in huge white patches that never tanned and looked awful.

That summer after his arrival he started again with sneezing and breathing problems but he thought that he could try out the Biofeedback program on the QXCI, and worked on releasing the stress on his skin. He also worked with the allergy program and after two days he had no more breathing problems, which was just amazing. By the end of our holidays he had a beautiful tan on his back and all patches had disappeared. He actually worked with the device every single day because most of the people in the village got interested when they saw my son's obvious changes.

Vancouver, Canada

I have owned an EFPX program/device since 2003.

I had a 55 year old woman client come to me in 2005 complaining of fatigue from having had mononucleosis the previous year. When she came to my office I noticed that she had a wandering left eye. She did not come to me about that complaint. About midway into the session she suddenly exclaimed "I can see!". I asked her what she meant. She turned to me and said that her wandering eye had straightened and she could see normally. I could see that her left eye had moved to the forward looking position in sync with her right eye. I was not doing anything specifically related to the condition of her eye.

She explained that when she was 5 years old she had been hit on the left side of the head by a football thrown by one of her brothers and ever after that her left eye had wandered. She said that with great effort she could bring it forward but could not hold it there. She said that this event was the first time in decades that she had seen clearly without the effort of moving her left eye.

This client came for 2 or 3 more EPFX sessions. She said that her energy had improved each time. She said and I could see that her left eye still wandered a bit but she said that the condition had improved so much that she could easily use her left eye anytime she wanted it to focus on the task at hand.

I called her in mid-2007 after having not seen her for more than a year and she said that her energy was excellent and that her eyesight and wandering eye condition was still vastly improved.

With thanks for the work that you have done to bring this technology to the world.

Las Vegas, Nevada

My wife as taken training with the EPFX device and loves to do therapy for stress. My spine is pinned together after breaking it many years ago. After a hard day of work, it often swells and causes pain. A therapy with the EPFX keeps me from experiencing pain and allows me to go to work the next day.

Thank you for having the knowledge to create such a marvelous devise.

City Unknown

During my session with the EPFX my practitioner was able, through this process, to tap into the root of many of the inner points that I would say blocked the balance in my body. She is able to reach these points through the positive energy that is sent to these points bringing the body closer into the balance. I mentioned before we started the session that I had a severe pain on the right side in my sciatica and I thought I might have to see the chiropractor after seeing her that day. She said there was a great possibility she would be able to take care of that problem. If I had not gone through it myself I would not have believed it, but by the end of my appointment that pain was completely gone.

Being a person that carries her stress in her shoulder and neck I am always quite stiff. The release of the stress that took place in just that one session released so much of the inner stress that I had been

hanging on too, that by the time I left I felt so relaxed. It has been several days since my session and I am still enjoying the relief of stress. As I walked out the door that day I felt like someone had washed the lenses of my eyes. I could not figure out why my vision seemed so clear. Then I realized stress and anxiety control so many areas of our being, including our eyes.

City Unknown

About 3 1/2 years ago I received a call from a woman who asked for an appointment for her new husband to have a session on the EPFX. Her husband had asthma and had suffered from it for many years. She and her husband came and he said I was his last hope. He told me that the doctors had given up on him getting any better and would only get worse. I put him on the EPFX and gave him a session. He had an immediate response to the balancing session I gave him on the EPFX.

He came each week for several more sessions and then came every two weeks for a while more.

He no longer took his inhaler or any other medication, which he decided, without my knowledge

He got better and better.

The University Of Montana called me and asked if they could come and film me and the Device, because the University had started a new alternative medicine class and wanted to use this on a PBS program for TV. They asked me to bring on some of the people who had experienced the Device.

This man and his wife were such a hit that the crew went to his small ranch and filmed him doing many things that he had not been able to do for sometime. On the same program I had another man and his wife. He had had back pain, which many doctors of several kinds, could not get him relieved of.

I gave him a session and he came out of pain before the session was over. He could not believe that in fifteen minutes that the pain was gone.

He kept coming back for several sessions and never did the pain come back.

This University of Montana program aired on PBS TV in the Northwest of the US.

I had a lady come to me for sessions who had Multiple Sclerosis, after about three or four sessions, she went for her MRI scheduled appointment and her doctor asked her what she was doing, because her lesions had changed their advance.

I had a lady on who was going through chemotherapy for Leukemia. She hadn't eaten for a week because she was so nauseated. After only a few minutes she was not nauseated and when we finished she wanted food. She went through all her chemotherapy without anymore nausea and started gaining weight and her hair back, she was able to walk and get back her strength.

There are so many cases where people have come out of pain, that I can't name them all.

I have had people on the device for only 15 minutes and their back pain go completely.

One lady at the national Indian health conference in Arizona, cried and told me she had not been out of pain in many years. I had her on the device for 15 minutes.

I've been doing sessions with my device for over 5 years and there are so many improvements in people's health after being on this device. People begin to take responsibility for their life and health.

I myself had amazing results with the EPFX. I had MCS and after this Device helping me to detox I was able to take my life back. This device helps my body to balance frequencies and then my body begins to bring itself back into homeostasis through detoxing.

I am 68 years old and I wouldn't be without this device.

I know that this device only helps each person to come back to balance and it is up to each person to use these frequencies to help themselves. We each are our own healer and it doesn't matter what we use, drugs, herbs, homeopathics, EPFX or etc, the bottom line is we must utilize the frequencies of anyone of these to help ourselves.

City Unknown

November 1, 2007

I just wanted to take this opportunity to thank you for your assistance in helping me to "rebalance" myself. During my session, I immediately could feel myself starting to heal from the inside-out. I felt a great sense of peace and comfort and I felt immediately more calm and able to handle every day stresses. One of the most beneficial effects from the therapy has been that I am able to rest much better at night and get a good night's sleep. Because of this, I have felt much happier than I have in a long time. Thank you so much! I look forward to much better health and more sessions with you!

Toronto, Canada

September 16, 2007

I am writing to let you know that I feel great! Because of our session, my back isn't hurting as it usually does and I am able to sleep better at night too. Also, at least four people have come up to me and asked if I had work done on my face! I guess the anti-aging program that you used on me really works.

Thanks again for everything,

Toronto, Canada

During the 4 years that I have been working with the EPMX in a clinical practice, I have seen over 600 clients. I am continually amazed at the results I am getting in reducing the stress and the stressors of my clients. People will come to me with ailments like diabetes, cancer, digestive disorders, usually after they have had diagnosis and treatment from their M.D.'s. I support them in restoring balance to their health, especially after challenging treatments like chemo and radiation.

City Unknown

Client # 1: had several health issues: #1 Restless leg syndrome for over 25 years as well as legs so itchy, red, and broken out with rashes normally taking place during night hours. After 3 sessions on the EPMX, balancing the areas of Allergies, Immune Systems, and Nutrition these symptoms completely disappeared and have not returned. It has been 4 months thus far with no restless leg, or dry, scaly, broken out skin. This man is 85 years old and also has a pace maker.

#2. Same 85 year old with pace maker. When client first arrived he could barely walk up my front steps, and had to be helped by the arm and steadied to keep him from falling. He was very thin and pale. His story goes like this: 9 months prior he had gone to the doctor for a fall (he was very healthy and strong, and an avid horseman) when they discovered he had high blood pressure, he also wanted something for his restless leg syndrome of 25 years. Doctors put him on medications for the blood pressure and restless leg. It had an adverse reaction and sent him to the hospital where they discovered they had not given him the proper medications or dosages and he had suffered a heart attack. They did open heart surgery. He began recovering so he thought under their care, and then they changed his medication. The medication wasn't working so they did heart surgery again and admitted they "messed up" during surgery and had to put in a pace maker. And again gave another medication. After 3 months he was back to driving and had driven to the store, got out of his car and simply passed out hitting the pavement

face first. This completely busted his teeth, jaw and caused hemoraging in the brain. Rushed to the hospital where they drilled 2 holes in his brain to relieve the pressure. IF this wasn't enough he had to

endure 1 month of oral and face surgery to repair the jaw and teeth. Doctors had him on 3 different medications. All of this happened in 9 months and on his 10th month of being sick he came to me and still had some slight bleeding in the head that had not completely subsided. He had quit all medications just a week before "cold turkey" and claimed the doctors didn't know what was wrong with him, couldn't get any medications straight after 9 months, and he felt the medical doctors were going to send him to his grave the way they were going with their so called treatments. So he decided to just quit going to the "quacks" and stopped their medication. I did not put the head harness on client, and had arm and leg straps only. Along with checking the "pace maker switch".

#3. Same 85 year old with pace maker. He had cataracts removed in the past, a few years back. Since his heart surgery, and injury to the face and brain bleeding, his eyes had become worse. Doctors felt they should remove the cataracts though small. He was against this because they would just come back wanted them to prescribe reading glasses for his left eye. They wouldn't do it stating he still won't be able to see anything, even with the strongest reading glasses. He was diagnosed with macular degeneration. After 2 sessions with the EPFX, he called excited telling me he could see, it wasn't perfect but enough to make out anything he looked at !. 2 days later he went to the eye doctor, could see so well with the left eye that they honored his wishes and gave him plain reading glasses. He was thrilled because he didn't have to succumb to their surgery wishes in order to obtain glasses.

To date Feb. 19-2008 it has been almost 4 months since his 3 sessions, I have personally seen client on several occasions on a social basis, and he no longer needs assistance to walk, get in a car, he has gained 30 pounds, is strong "as an ox" he claims, chops wood, shovels snow, has a great appetite, has color in his face, and wears his glasses and sees fine. And I forgot to mention, his wife told me "all those cancer spots on his skin have all but just one fallen off". I personally don't remember them ever telling me that he had these cancer spots, but was glad to hear this condition had taken care of itself as well.

Client # 4: My 15 year old daughter who suffered a concussion after falling off a horse. She suffered from blurred vision, headache, neck pain. I performed a session within 24 hours and the EPFX showed intercranial pressure, C1 vertebrae , and a host of other stresses her body attested to. She missed 3 days of school and for the first 5 days slept constantly. After only 2 sessions she was free of the headache, blurry vision and was no longer feeling the constant tiredness. Subsequent sessions have been done and she is improving.

Client # 5: 53 year old man who suffered food poisoning from a hamburger which led to flu like symptoms. 2 weeks later flu developed into diagnosed bronchitis that lasted for 3 months. This man is a

mechanic for 37 years and has constantly been exposed to fumes, fuel, solvents, chemicals, etc. But never had any illness or symptoms of asthma or breathing problems in the past. Asthma runs in his family though he had never suffered previously with any symptoms of asthma in this 53 years. After 3 months of a bronchitis cough, wheezing and shortness of breath it became so severe he was rushed to the ER and immediately given steroids and inhalers for diagnosed "adult onset" of asthma related to allergies from his work environment. He was told to take Advair every 12 hours and Albuterol as needed after that. The man became dependent on the inhaler throughout the day every time he was exposed to paint fumes, car exhaust, or any form of toxin during course of work. This went on for over 6 months. The episodes of not being able to breathe extended to whenever he was around pollens, hays, grasses, animal hairs, weed spray, etc. and at night while trying to sleep. He could not breath at these times unless he took Albuterol. It was suggested he follow up with a pulmonary specialist once the bronchitis cleared. Instead he decided to have an EPPX session. So after one year from this flu turned into bronchitis, adult onset of asthma diagnosis, he had 3 sessions on the EPPX and after the 3rd session has not taken an inhaler, nor does he suffer from any form of wheezing, coughing, or not being able to breathe. He is still currently around all of the same toxins at his mechanic job from fumes to exhaust, paint, etc. and also has had not one episode of discomfort when stacking hay, or mowing lawns, mowing weeds, burning smoke from slash piles, etc. It has been 5 months symptom free so far.

City Unknown

My personal experience with the EPPX has been eye opening and awe inspiring, to say the least! This device found me in April of 2005 and if not for this device, I would not be here! At this point in my life I had totally given up on doctors, and I say that politely! Eleven years ago, I almost died because of TWO count them two doctors, at separate times in a three month period, both diagnosed me as being clinically depressed and needing Prozac? Even though my complaint was sever abdominal pain and chronic constipation. With in a few weeks of the last diagnose, I ended up in the emergency room and had major surgery to remove a 15+ inch section of my bowel. This experience caused me to seek alternative choices.

One personal example would be:

For years of unanswered questions as to my urinary tract infections. My clueless doctor threw every anti-biotic at me that he could think of and than some! With absolutely no success. Then, I found the EPPX (what a GOD send). This illness was not just contained to my urinary tract (bladder, kidneys and urethra) but it also created these life crippling muscle CRAMPS (Charlie Horses) in my back. It took the EPPX

approximately 3 minutes to find the stressors and several sessions and life changes (recommended by the system) to free me of what I thought would be a life long condition. I say this because, my grandmother(gone now) and my mom (86 years old now) both have suffered from this and being the guinea pigs to multiple doctors for many many years. My grandmother dead living with this condition, but now I am at peace knowing that my mother and myself no longer have to suffer!

#### Example #2

This past summer my mother became disabled with arthritis, she would raise in the morning to spend the first two hours of here day crying from the extreme pain in her hands. The doctor, bless his stupid little heart, said the "she would have to learn to live with it and the pain". I step in with the EPFX and began a regiment of only three session over a period of one month. My mother hands quickly responded to the sessions not only does she no longer have pain in her hands, but the twisted and distorted finger and knuckles have return to normal!!! Her doctor never asked what I did, he just said "whatever you are doing, keep it up. It is working wonderfully".

#### Example #3

The client had an issue with his throat. In which every morning when he would stretch he would get this stabbing pain in his throat and taste blood. His doctor said that he had ripe his esophagus and at would continue to re-open if he continued to stretch. Will being that sometimes stretching is just a reaction, he continued to tear the wound. One session in the EPFX and he has not ever had this problem again, and he stretches everyday. That was two years ago!

#### Example #4

She is an elderly women in her eighties who began having strokes on a weekly and sometimes daily basis. Her family and doctor where preparing for the worst! And knew that by their standards, it was just a matter of time before she would dye. Fortunately for her, one of her daughter refused to except the doctor prognoses and came to me. In the out come of only two sessions, these strokes have completely stopped and she has been doing wonderfully for the better part of nine months.

City Unknown

I am a 50+ year old female diagnosed with Lyme in 2003. Since June 2006 using the SCIO I have kept the stressors of this disease in check and have not had to revert back to using antibiotics to keep this illness at bay. I love having a healthy, drug free life and find several alternative health means to keep me healthy, the SCIO biofeedback device being one of these. Without the use of the biofeedback I believe I would still be going from my bed to the couch and the couch back to the bed. It is instrumental in my health regime and will continue to be so.

City Unknown

I am a 58-year-old woman who has been treated for chronic daily (cluster) migraines for 23 years and chronic allergies (environmental) and sinusitis for most of my life. In addition, for the past year, I've been treated for chronic neck pain as a result of a shoulder surgery I underwent in 1/11/07. In November

of 2007, I was diagnosed with sleep apnea.

I had been living on a host of medications, prescribed by a neurologist, a sleep disorder specialist (also an neurologist), an ear, nose and throat specialist, a psychiatrist and a surgeon. In mid-December 2207 I began having new severe symptoms including loss of sleep and appetite, weight loss, confusion, and hyper-manic and obsessive-compulsive behaviors. On Jan. 20, 2008 my neurologist advised me to immediately cease taking the calcium channel-blocker she had prescribed a month before. At the same time, I made the decision to go off all the medications I was taking, including all pain meds, sleeping pills, and nasal steroids. This catapulted me into drug withdrawal and a severe state of detoxing.

On Jan 29 I was treated by a practitioner with the QXCI biofeedback machine. I subsequently had 3 more treatments. As of today, I am pain-free, exercising regularly and eating normally. I am taking no medications at all except bio-identical hormones. I am comfortable in my body for the first time in memory.

City Unknown

I had a person come in for some facial work and instead we worked on her heart. I said I was seeing some stress involving the EEG/ECG. She told me she had been having heart palpitations for at least 4 years now and had seen a Dr. for it. He told her it was just anxiety. She works for a Chiropractor and he did some manipulation on her back, it seemed to relieve it originally but it wasn't happening regularly then. It continued to get worse, more constant, then daily until she came to see me. After 4 separate sessions she said the symptoms completely subsided and has not had them since.

City Unknown

I am fairly new as a biofeedback specialist, but I think one of my most interesting and somewhat fun client was a young women in April 2007 had been throwing up live transparent worms. The doctor told her that kind of worm was not found in humans so didn't really believe her. It had gotten to the point of her being very sick, not being able to keep anything down. I used Levi's basic protocol on her and used the auto zap button for worms I really wasn't sure if it would really do the trick. The next day she called me, she was so grateful. She did throw up but the worms were all dead. Has had no problems since. She has been great advertisement for me.

South Dakota USA

When I first experienced the EPFX/SCIO I was 48 yrs. Old, I had been chronically ill for over 15 years on disability, unable to work and was living in a quiet mountain community unable to live where my husband's work was due to such severe environmental sensitivities due to my health problems. I pretty much had no life, my days were very simple, the most mundane thing could trigger severe physical

reactions for me. I was introduced to the device through a practitioner friend of mine. I knew immediately that this type of therapy would work for me because other energetic therapies

had helped, this device was so comprehensive I knew it would help me. However, I thought it would take maybe 6 months to a year to get on my feet. However, within 6 weeks of receiving the EPFX/SCIO I was

traveling to Canada for training. I still did not know if I'd be able to work but my husband was absolutely impressed that I was well enough after using the device on my own without training the improvements I had physically. I had not been able to do any traveling to speak of and here I was going on my own, by myself and doing an intense training on top of it.

I had been misdiagnosed for years, I knew there was something else wrong with me. The original diagnosis had been Chronic Fatigue Syndrome, Chronic Viral Infections such as Shingles (herpes zoster, Epstein barr, CMV to name a few); Chronic TMJ; Osteomyelitis of the Jaw; etc etc. However, I eventually was diagnosed officially with Chronic Late Stage Lyme Disease. It is commonly known that many people diagnosed with CFS actually have Lyme Disease. That being said and known I still had great difficulty getting diagnosed and getting proper medical treatment for my condition. If I had not had the EPFX/SCIO and had not been able to work on my own health issues with the help of this amazing tool I can honestly say I would not be alive today.

The doctor that I work with concurs with my assessment. He knew how sick I was and how difficult it was for me to get the help I needed. Many people with Lyme Disease have similar stories to mine. A long term illness, lots of misdiagnosis, lots of difficulties with doctors and frustration with the medical system. If I had depended on doctors only I can truthfully say I would not have made it. In all fairness Lyme

Disease is a hard infection to figure out, but if William Nelson had not created this device, this tool I would not be alive and that is no exaggeration.

I work full time now and my health has steadily improved since I began utilizing the EPFX/SCIO as part of my overall health tool. I have utilized other tools such as Ozone therapy and anti biotic therapy to help me recover from the vast infections I had as a result of Lyme Disease. I still suffer from chronic neuralgia and pain but again it is through the EPFX/SCIO biofeedback that I am able to manage my stress related issues post Lyme Disease. From the day I received this device to this day I continue to get better and need less and less medication and medical intervention. I am a person who believes in integrative medicine. Traditional medicine has a place, but if I had depended on traditional medicine alone I would not have survived. This device (EPFX/SCIO) saved my life! I am currently 54 years old, I have a full time practice utilizing the EPFX/SCIO as well as Ozone and other energetic therapies like REIKI. I am a miracle

and I am able to work once again thanks to the EPFX/SCIO. The years of personal experience with chronic health issues has helped me with my clients, I have a unique perspective and with my training it has helped others to feel better and hopeful that they too can get their health back on track. The device was most effective in helping me manage stress symptoms related to infection, pain, emotional stress, toxins and much more. If I can be of any further assistance please let me know. If there's more detail that will help please advise and I'm happy to send it to you. I can't say enough wonderful things about this device, this isn't second hand knowledge, this is personal experience.

Arizona, U.S.A.

Last April I went to AZ to visit a friend that has fibromyalgia. I had wanted to visit her for over a year but because she was too sick and slept all the time, her husband said she wasn't seeing anyone or living any kind of normal life. She told me that in March of last year, a friend of a friend had a biofeedback machine that after only giving her one, four hour treatment, gave her the strength and energy to get out of bed the next day. For two weeks she had been feeling great and wanted me to finally come and visit her. I told her to make an appointment for me.

I got hemorrhoids when I had my first child back in 1975 and for 32 years had been struggling with them with no relief. I had had hemorrhoid surgery in 1995 but they came back even worse. I had 6 invasive infrared light treatments in 2006. When I went to visit my friend, they were just as bad as ever. I had one, four hour treatment since I could only stay a few days and live in MN. I took an epsom salt bath that

night. The next morning I woke up and they were gone! They were gone for about three months but then came down a little. Well, my husband and I were believers by then and purchased a device in June. I work on myself every week to two weeks and make sure I zap those hemorrhoids so I have not suffered with them since last April.

Oh, and my friend who had no life because of fibromyalgia, she is doing so much better but needs treatment to help her body heal itself.

Arizona, U.S.A.

We have been using the EPMX device since May 2007. We initially purchased it to help my husband's low back pain. We had amazing results. He had a herniation at L4/L5 and the nerve was compressed. After our first week of training we came back and worked on him every night for a week, then every other night for a week and finally every three nights for a week. By the end of the second week he was already getting relief from his symptoms. After the third week we went to weekly sessions for awhile and he was 99 percent pain free for the first time in a year and a half.

I used it on a friend who has many metal fillings in her mouth. She felt instant relief from her constant tooth pain as soon as I started working the dental program. And she did not know that that is what I was doing at the time. I had similar results with tooth pain I was having and my husband worked on me. The next day I didn't have the pain!

I use the EPMX to help my other out with her arthritis pain. She has problems with her knees and thumbs. The first time I worked on her the relief lasted for a week. the second time it lasted for 2 weeks and the third time it lasted for a month. Now we hook her up about every 3 months unless she has aggravated it. More impressive is how her attitude changes. She tends to be a very negative person, but always becomes more positive following a session.

Another client had constant digestive upset and was diagnosed with colitis. One session and she has not had any further stomach problems.

I worked on a person who suffered terribly from allergies and was taking more benadryl, etc a day than she should have. After the first session she took only 1 benadryl the entire week. After the second session she did not have to take any medication and has not had a problem since.

City Unknown

Old Football injuries gone after first session I have been plagued with a football knee injury my entire life and, at the age of 51. I've developed a little hip pain. The funny thing is that when I went to my first treatment, I filled out his patient history and never mentioned either. The problem I did report was fatigue which, I assumed, was stress related. During the "body scan" portion of my bio-feedback treatment..... both my hip and my knee were designated as locations of probable pain. I was

astounded! In addition, the scan produced many abnormalities and deficiencies, many which accounted for my fatigue, and the machine noted at least a couple of problems that I wasn't even aware of. I was then treated by the same machine while relaxing on the table. After the bio-feedback treatment and some additional massage therapy, I left the clinic devoid of pain! I mean to tell you that my knee and my hip did not hurt! My fatigue remained at bay for weeks as well. During follow-up visits I was introduced to the electro-acupuncture procedure and found that to be most beneficial as well. I find that I have to return to treatments once a month to remain pain free, in great spirits and full of energy.....and that's just fine with me!

#### EPFX for ASTHMA, Back Problems

In early September I received my first assessment and treatment. Without any prior disclosure, the QX SCIO identified several areas that I knew to be problematic and then treated those problems. I received considerable improvement in many areas, but I was amazed how my asthma improved. I have suffered many years with condition and the improvement was amazing.

In late January, I hurt my back at the gym. With two treatments, I improved from a pain level of 9 to a 4 with the first treatment. It went from a 4 to a 1 with the second treatment. I am a believer and am most interested in purchasing one for each of my daughters, one who has suffered from Type I diabetes since age 10 (She is now 25), and the other who was born with a profound speech disorder. I recommend it to anyone who has tried traditional medical treatments without positive results.

Springfield, U.S.A.

#### Cervical Cancer Survivor Pain Freeze

I am a 53-year-old female, diagnosed with HPV cervical, vulva and vaginal cancer stage II-III, and large non-cancerous uterine fibroid tumors. Medical procedures were performed: a LEEP, Laproscopy, D+C, and a Cone. After all the procedures, I was told I needed a complete hysterectomy, and probably radiation. I instead choose an alternative route, taking supplements and an alternative treatment center out west. It was very costly and I ran out of funds. I continued the supplements and became a patient of Fred Eagles, who uses Quantum Biofeedback, as well as a form of Reiki. Fred's hands-on healing almost instantly relieves pain, which is awesome in and of itself, but the combination of the hands-on Reiki and the most unique biofeedback machine I've ever used is felt deep in the body and the treatment usually holds for 4 days to a week. Every session I've had has left me feeling much better than before the

session. Increased energy, pain reduced or gone, mental clarity, and in my case, gradual but constant decrease of symptoms. I have no pain at all now, and most symptoms are gone, and many unrelated conditions are being treated with this holistic system; digestion, headaches, back problems, joint problems, bone issues, adrenals, lungs, blood sugar, and a very unusual bonus- my hair. My hair had always been stick straight and limp-no body. After my second treatment, I had gone to my hair stylist for a hair cut. (She has done my hair for ten years) She informed me that my roots were growing in wavy/ with curl. She questioned what I had done? Nothing different. The only answer was the biofeedback. And it continues to grow out wavy/ with curl. I can only say I feel good, and each treatment I feel better! I cannot thank Fred Eagles enough for all the help he's provided, and his introduction to the Quantum Biofeedback merits praise-just short of a miracle...or maybe it is a miracle!!!!

City Unknown

1. My son broke his metacarpal in the right hand just 2 days after he made the basketball team and was one disgusted child- we casted it and i ran him on the device at least once a week for three weeks and he was able to play ball without the support of the cast in three weeks pain free and with normal strength and has not had a bit of trouble out of it. That is probably 2-3 weeks ahead of time as it normally would take 6 weeks to 80% strength on a fracture- even one that was not displaced 2.I have a friend who had been vomiting for 5 days and could not keep anything solid down and very little liquids and had her eating and drinking and able to assume her normal duties ( with decent energy level)after a good night's sleep the next day after running her that night.

3.Another friend was determined she was going to be worked on even at the beginning before I had trained and said we could learn together. She has had some serious allergies, food intolerance and depression and a attitude on life that the glass generally was half empty - she is now stable after 8 weeks and has a new lease on life - has gotten her diet under control is eating things she couldn't tolerate before and has a new attitude that anything is possible and is training for a new job. Her whole family is now taking turns coming once a week. Her son had evidenced some extreme mood swings and after being seen a couple of times has decided to settle down and stick around and see what it is he can do in this life.

4.Another gentleman had gone into cardiac shock, died, been brought back, had DM, cardiomegaly,and pan hypopituitarism and was staying fluid shifted short of breath and could not finish his schooling at age 48. He is now going back to school a half day a week for his practicums and is going to finish.

Within 18 hrs of receiving my first session from the EPMX my severe toothache was gone and did not return. I waited 3 weeks to visit the dentist and was pain free the entire time. My spouse awoke the morning after her first session refreshed and invigorated. She was like a different person and noticed that her thoughts were extremely clear and organized throughout the entire day. In addition to deep relaxation and stress reduction I have seen rapid results with my clients releasing their addictions to a variety of substances. Also, many clients have reported pain relief, including areas of their body that I wasn't specifically working on.

City Unknown

I was a client having EPMX Biofeedback sessions for a few months when I realized how extremely effective it was, not just for reducing my stress, but for correcting imbalances which allowed me to become more healthy. I purchased the EPMX/SCIO in March of 2006 (almost 2 years). Since that time I have worked on myself diligently and have achieved a high degree of good health with the assistance of this biofeedback technology. I no longer fear not having insurance. I am more in control of my own well-being, both emotionally and physically. I was formerly on 3 different medications - one OTC (for insomnia) and 2 prescription pharmaceuticals (for anxiety and depression). I am now sleeping well, putting that money toward my daughter's education (she is becoming a nurse) and the best side-effect of all; banishing toxicity from my body.

City Unknown

I had been diagnosed with a severe bladder infection and told to take antibiotic for 2 weeks then come back and do a second round of antibiotics to make sure that the infection was gone. I called a fellow practitioner to please do a session for me for the bladder infection. She did the session and I felt better. She did a session for me every 3 days for 2 weeks, 4 in total. I went back to my doctor and she said that the infection was gone and said that she would make sure to give me the same antibiotic in the future because it worked so well. I told her that I did not take the antibiotic, that I had a biofeedback practitioner do sessions for me, on her EPMX/SCIO biofeedback device, to get rid of the infection, as I don't want to take medicine unless I really have no other alternative. She said, well great, as long as it worked.

City Unknown

After fracturing the head of my right radius, before and after surgery I used the bone fracture protocol.

The surgeon prepared me for a 40-60% usage of "normal" when physical therapy and healing were done. Except for the scar at my elbow, there is no indication that I ever had a problem; my range of motion and strength is equal to the other arm and there are no aches or pains associated with this event.

I credit the EFPX with this remarkable recovery.

City Unknown

I am a very sensitive person and I seem to have adverse reactions to most allopathic therapies. And as a result my doctor has ask me to find another doctor. I Have been diagnosed with class 3 occultion TMJ and Bruckisum with all the classic deterioration associated. I also have Scoliosis of the spine and have been asked by my doctor to come in to see her once a month to avoid the associated pain. I have been renting an EFPX intermittently for about a year from a doctor. I use it to balance my energy and it does this very well . Although teeth could be a major health issue I believe the EFPX has helped me avoid dental illness. As well by carefully following the proper use of the EFPX I have avoided much back pain and very likely needless operations.

California, U.S.A.

I have personally felt a positive shift in consciousness since buying the device. The shift in awareness is subtle however. There are chronic circumstances in my case. #1. Diagnosed with a mental illness and on disability insurance income. #2. Dental complication includes 9 Gold crowns and 8 mercury amalgams. The gold Crowns have mercury in them to. #3. Herniated Disk surgery twice.

The three complications are tied together I am thinking.

If not for the device I would never had decided to go to the dentist. I noticed a shift in energy as soon as he removed the first of the eight amalgams. To date there are six amalgams left plus the Crowns. I plan to go the distance and heal myself since our society doesn't provide help for people like me.

It was that persistent flashing on the demographics screen that forced me to take a look at this Dental situation. It could turn out to be life changing.

I use the NLP and spinal sarcode program all the time. It helps my Mental situation and back.

City Unknown

After the birth of my first child (delivered by c-section), I never really recovered in the sense of energy levels. At first, I attributed the fatigue to dealing with a newborn. However, the older he got the more tired I became. I just accepted that I was a worn out Mom. After the birth of my second child (also delivered by c-section), the worn out feeling turned to exhaustion. I made many trips to the doctors/specialists complaining of the incredible fatigue and according to their tests there was nothing wrong with me. This went on for about a decade in total – going from bad to worse. It took everything I had to feed my children breakfast, make their lunches, get them dressed and ready for school. Thank God the bus picked them up because I simply did not have the energy to drive them. After they would leave for school I would have to rest in order to build up my energy reserves to clean up the kitchen and perhaps do a load of wash. I would max out somewhere about 2 or 3 domestic tasks and then have to rest again. I started to question my sanity as did my husband. If there was nothing wrong with me I would ask, why do I feel so bad. My thought process and memory began to suffer, every day was an ordeal. There was simply no joy in living.

Shopping for groceries was no longer something I would endeavour to do on my own as I needed the children to load the shopping cart and unload the shopping cart into the car. They also had to bring the groceries into the house and put them away for me - it was that bad. At several points I considered suicide, as at that time I could see no way out of the darkness. I will never forget the time that I almost got us all killed as I simply did not have the energy to steer the car into making a left turn in a timely fashion. My car was a standard drive, making it more difficult for me in a weakened state to turn the wheel. After that near accident, my husband started to seek out holistic alternatives as the medical establishment kept saying there was nothing wrong. One of those alternatives involved a man running a Quantum biofeedback device. We went to see him. Prior to the appointment, it took everything I had to get dressed and put on my panty hose. I had hardly strength left in my arms to pull on the panty hose. After getting dressed, I said to my husband that I was too tired to keep the appointment. He insisted that I should go and that I could sleep the 45 minutes across town – and I did just that. After I was hooked up to the device and the test was run, the Quantum practitioner told me that I was absolutely

exhausted. According to his biofeedback device, my body's ability to assimilate nutrients was virtually non-existent. We proceeded to dialogue further.

In addition to the candida situation that was inhibiting my ability to absorb nutrients, it was also mentioned that my digestion due to lack of enzymatic function was severely compromised. My body was simply beginning the process of wasting away. I asked the practitioner if you are right, are you able to help me? He replied that he encourages the body to do its own healing, however the body must be given certain tools. I began a process of homeopathics, herbals, digestive support and candida cleansing. Please bear in mind that I had been a prisoner in my own home for close to a decade and my world had been steadily shrinking. Within one month of being on this multi-faceted program, I was strong enough to take a part time job. When I made the journey back into the work force, my husband commented many times " I can't believe what I am seeing. All of these changes in less than a month." My response was "You can't believe it? Try being me! I have lost a decade of my life for what!"

At the time I had my Quantum biofeedback device appointment it was August 15 years ago and at the rate of my decline I knew that I was not going to make it to Christmas of that year unless something changed. I would not see my children at Christmas - I cried many tears over that. Since then, my first husband has passed away from an unexpected heart attack. Had it not been for his loving concern and seeking out holistic alternatives and the biofeedback device, my children would be orphans as both of us would have passed away.

I am now happily remarried to my second husband (very healthy too, I might add). My children are stable and enjoying their blended family. This would not have happened without the Quantum biofeedback device.

Thank you Professor Nelson. You have helped to save 3 lives. I do not have enough words to thank you.

Alberta, Canada

I am more alert, feels much less stressed out and also begin to recognize my stress as soon as it starts to build up. I begin to be aware of my emotions and most of all, I learn to be more prayerful as I recognize the negative energy around me like feeling depressed for no apparent reason. My skin (face) seem to be more sun tanned (someone points that out to me) and healthy looking..In other word, I seem to look

younger. I remember that my nephew was having headache one afternoon and yet he had to go to work. I did the scio 'zapping' for him and when he returned later that evening, he told me that his headache had diminished almost to 1.5 from the count of 7. I found out also that his lessening of his headache coincided with my 'zapping' him.

City Unknown

74 years old male, diagnosed as having restless leg and pain on the left leg for the past 25-30 years, was taking 4 prescribed strong pain killer a day, after 8 visits to my office started reducing the medications and after 6 months he was not needing any medications at all, visiting my office once a week for the last 2 years, he feels his stress has reduced and stress related leg pain is reduced as well. He continues the balancing and body healing once a week.

57 years old male, quit smoking after 15 biofeedback and balancing visits. Overcame the stress which was making him smoke. He was smoker since his teen years and stopped smoking completely for the last

1 year. Visits my office for balancing and stress reduction sessions once every 2 weeks.

37 year old female, suffering from obesity, lost 40 Kg in 8 months. She was coming to my office once a week for 8 months for balancing and biofeedback and stress related with obesity.

34 year old male suffering from stress, overcame the stress by coming to the biofeedback sessions to overcome the stress related problems. His body was balanced and tuned in 8 weeks.

60 year old female, suffering from back pain, is visiting my office for biofeedback and balancing for the past 8 months; she is in less pain and feels her body is balanced.

City Unknown

Client had numerous surgeries over the last 3 years - Arthroscopy and then a right Knee replacement, Prostrate surgery, Bypass surgery, Hip surgery followed by a replacement, Then the left knee replacement, cataract removal in the right eye, surgery on his right shoulder.

Client was introduced to the device in January 2007. After his first session on the device he was able to stand and walk without the crutch he was using when he came in for the session. The client improved and has since been on the device for pain management, stress management, high blood pressure. The client has had an issue with his hormone levels and gets very low and depressed. Prior to being introduced to the Scio he used to take Hormone injections, but we have been able to keep his hormones balanced with the SCIO.

Client had a problem with vertigo to the point that she could not stand up and wanted to throw up. After her first session on the device she was able to move around and even went out for lunch.

Client had a sore throat and a bad sinus attack, and had lost her voice. After one session the sinus cleared, the throat was still a bit sore but she had her voice back.

City Unknown, Dubai

I have a young client who had school phobia when she first came to me. She could not ride the bus to school without crying and becoming very frightened. She worked with the teacher and the counselor in her school but she was getting to the place, she couldn't even go to school. Within 2 sessions, she was back at school with the teachers and counselors totally amazed. She wrote me a note thanking me for helping her to enjoy school again. By dealing with her stress, she is excited and back to her exuberant self.

North Carolina

I have a client who is also a good friend. She called to say her husband was home on the couch sick with fever, chills, vomiting and felt terrible. He is 53 and very active. He does not have any big health issues

except he takes a cholesterol lowering medication. I've tried in the past to explain to him what the EPFX does but he always gave me a look like "that's very nice". So I went to their house and since he was feeling so bad he pretty much was at my mercy. I hooked him up and he slept. His stress was influenza so I did that protocol. Went away and when I heard from him the next day he said I don't know what you did to me but I feel fine! He went back to work after being sick for one day. His wife wanted to know why she did not have those quick results and I tried to explain that she has lots more issues than he does and it just takes time.

#### TESTIMONIAL 1

AGE: 33

GENDER: FEMALES

DIAGNOSIS: ALLERGY FOR A LOT OF SUBSTANCES, EMOTIONAL CRISIS, PMS, FATIGUE

AFTER A TEST WITH THE SCIO AND AN ALLERGY TEST I FOUND A MEXICAN PLANT THAT WAS CAUSING SOME OF HER ALLERGIES. I ASK HER TO FIND THIS PLANT FIRST IN INTERNET AND THEN IN HER HOUSE. THE PLANT WAS IN HER KITCHEN, THEN SHE MOVED THIS PLANT TO ANOTHER PLACE IN HER GARDEN AND THE PRINCIPAL ALLERGY STOPS INMEDIATLY. ALSO, WITH FOUR SESSIONS WITH THE

SCIO SHE EXPERIENCED A RELAX STATE, BETTER FEELINGS, EMOTIONS, AN ESPIRITUAL BALANCE AND JOY.

#### TESTIMONIAL 2

AGE 48

GENDER MALE

DIAGNOSIS CRONIC CONSTIPATION, FATIGUE, INSOMIA

IT TOOKS THREE SESSIONS TO STABILIZE HIS INTESTINAL ISSUE, I MADE THE RECOMMENDATIONS GIVEN BY THE SYSTEM ABOUT GOOD FOODS, DIGESTION, NUTRITION, WATER AND EXERCISE. NOW HE FEELS VERY WELL, BECAUSE THE TREATMENT INCLUDING ALSO THE EMOTIONAL BALANCE AND CHAKRAS BALANCE.

### TESTIMONIAL 3

AGE 49

GENDER MALE

DIAGNOSIS: MACULAR DEGENERATION, DEPRESSION, OBESITY

I STARTED THE TREATMENT WITH AN OVERALL TEST AND BALANCE, OPENING THE CHANNELS TO DETOX AND ALWAYS INCLUDING THERAPY FOR HIS EYES. THEN I PROCEED TO BALANCE HIS METABOLISM, TREAT THE ADDICTIVE ATTITUD TO FOOD, HIS COMPULSIVE ATTITUDE ALSO, AND HELPING HIM TO REDUCE THE ADIPOSE TISSUE IN HIS BODY. AFTER 6 SESSIONS HE LOOSE 15 POUNDS, HE STARTED AN EXERCISE PROGRAM, HIS VISION IS A LITTLE MORE CLEAR, NOW HE CAN READ BIG LETTERS WITHUT ANY OPTICAL DEVICE AND HE FEELS MORE STABLE AND WITH ENERGY.

City Unknown, United Kingdom

I purchased the EPFX/Scio device five months ago. I had many hormone issues, and after visiting the gynecologist I thought I was going to have to undergo many tests and possibly a hysterectomy. Five months later all of my symptoms have disappeared.

City unknown

I had another man who fell off a roof and landed on his two feet. He broke his ankles and legs and was in casts for several months. He was still having trouble with one ankle so he had surgery and they put a pin in it which does not allow him to completely bend his ankle. He was in severe pain. He was about 15'

into my working on him and told me the pain was completely gone. He came in on crutches and walked out on his cast. The pain never came back. I still work on him to build the bones and also work on his emotions since he lost his wife New Year's Eve from radiation burn. He says he always looks forward to coming to my office because the EPFX makes him feel so good.

I have many others that include food poisoning, headaches, digestive problems, heart and a lot of emotional imbalances. I use it on myself 3 or 4 times a week and feel great. I am 75 and look forward to helping as many as I can for as long as I can.

City unknown

My son-in-law suffered a heart attack in September of 2007. He was rushed to the hospital and within 3 hours he had another one. Meanwhile I am working on him on the QXCI, working on both the heart and anxiety, by 5:00 p.m. he had settled down and the Doctor was quite amazed how well he was coming out of it. But he wanted to keep him in the hospital until morning. In the morning, the Doctor rechecked him and said, "If I hadn't seen this for myself, I would never believe it. The enzyme that shows there has been a heart attack is no longer there...it is like he never had a heart attack." They sent him home. We continue to give him treatments to help prevent any future problems.

I was in a car accident 25 years ago, because of no insurance, I was treated as a second-class citizen. I was sent home from the hospital with an infection in the femur that had been broken in two places. The doctor that I was referred to in Spokane, WA (where I lived) did not catch the infection and thought the "white" stuff surrounding the bone was a sign of healing. I probably do not need to tell you the bone died, I have had 8 surgeries replacing the rod that holds the femur together because the bone kept getting smaller and smaller. Because of the pain I lived with, unable to walk except short distances (like from the bed to bathroom) I took pain pills. This led up to taking Oxycotin which I became addicted. After a year, I was unable to care for myself, so sick all I could think about was death. The doctors would not recognize that I was addicted in fear of a law suit. The children moved me to Meridian, Idaho, and I was cared for day and night. A friend, who had been addicted on the same drug, recognized my problem.

My daughter called Aaron who had sold us the QXCI machine and asked what could be done for me. With the help of the QXCI machine, I could control the pain and through the help of 3-day treatment at a drug hospital, the GNLD supplements, and above all, God, I have not only been off the drugs for 3 " years, but also do not even desire the drug. The QXCI treats my hips, legs and entire body so that I am now able to live on my own. It is hard to even say thank you for this wonderful machine.

City Unknown, U.S.A.

1) 99 year old famous watercolor artist needed to be around for his 100th birthday celebration/art show. Prior to working on him, I asked my prayer helpers (on the machine) to take over and I humbly proceeded with the treatment. After many days of being in bed (and having Hospice come in) the day after the treatment, he attended his 100th birthday celebration and stayed for 4 1/2 hours, painting one-half of a picture which was auctioned off at said celebration. (for \$7000 ~ with the understanding that he would take it home and finish it.)

They wanted one more treatment for him so that he could make another event on February 10th. I complied (with some reservations on my part) and he also made that. I did, however, decline any further treatments for a number of reasons, those mostly being inbred teachings, my own intuitions, and the fact that it was just out of my comfort zone.

2) 62 year old man with a history of emotional and physical abuse in his youth. Couldn't remember the last time he was happy. He was so sweet and kind during the session, one could not help but feel a mothering instinct towards him. When I spoke with him a few days later (I like to call and check on my people after I have a session with them) his voice was so excited/elated. He was taking the day off to spend with his daughter and he said, " I feel so happy! This is so incredible!" and he wanted to come back before it wore off.

City Unknown

Tennessee, female, age 48, Registered Nurse on disability because of Glaucoma. She could not function her duties any longer. After three (3) sessions on the EPFX working Eye Sarcodes, Biofeedback

and Test matrix, she has been re-diagnosed as Glaucoma-free and is now fully functional in the workplace.

Maine, age 70, male, retired computer specialist. Suffered severe pain for many years and endured several surgeries for Kidney Stones. After a series of seven (7) sessions on the EPMX working on Kidneys, Inflammation, Stones, Pain in Bodyviewer, Biofeedback and Test matrix, his stones have ceased to be an issue.

Georgia, age 70, female, Psychologist. Diagnosed with Breast Cancer. She did undergo chemotherapy and radiation sessions with her physician. However, by working on her with the EPMX for Cancer, Emotions, Nutrition and coaching her regarding her lifestyle choices, she was the ONLY patient out of the 9 whom she went into the chemo and radiation sessions with each time, DID NOT lose any hair, have nausea or experience fatigue!! She is Cancer free.

Georgia, age 52, male, Operational Manager for Airport concessions. Diagnosed with High Blood Pressure and Type 2 Diabetes. After a series of twelve (12) sessions with the EPMX, he is off ALL 4 medications for each condition, his blood pressure is normal, his sugar numbers are within normal range.

Tennessee, age 58, male, Behaviorist trainer. Diagnosed 5 years ago with Type 2 Diabetes. His sugar numbers were in the 400s, blurred vision, chronic fatigue in the afternoon, muscles were beginning to atrophy. After a series of twelve (12) sessions with the EPMX working on Diabetes, Pancreas, DNA, Nutrition and Emotions, his sugar numbers are within normal range, he no longer experiences blurred vision, his energy has completely returned.

And, my most touching:

North Carolina, age 24, male, Financial Analyst. Suffered severe Brain Damage from a head-on collision with a large dump truck. He was unconscious for 2 days with the hospital and physicians telling his family that he probably would not regain consciousness, and, if he did, he certainly would be a vegetable for the remainder of his life based on the severity of his head injuries. His family contacted me when the physicians suggested they make funeral plans. I worked on Christopher for 11 straight hours with the EPMX concentrating on first reducing the INFLAMMATION within his brain and then having him guide me

(unconscious reality) in his unconscious state as to where I would work next ie Trauma, Shock to Brain (medulla, cerebellum, etc.), Cerebral Spinal Fluid, Nerval Stim, Brain Stim, NLP Brain Scan, Biofeedback for Brain Tune, EEG, ECG. I was able to tell his mother within the hour when he would regain consciousness AND he did!! Now, after approximately 20 EPFX sessions and physical therapy he has returned full time to his job using his BRAIN!!!

U.S.A.

My daughter was having health concerns. She was diagnosed with overactive thyroid at age 8. She was on the highest doses of thyroid pills and then they had to put her on blood pressure pills because she kept fainting.. At the same time she developed tourettes and asthma. Her conditions was getting worse and they decided they needed to cut her thyroid out as the risks were greater keeping it in than taking it out. We had a month to play with until they would pursue this further. In that month we went to a naturopath in Calgary who did a type of biofeedback but not the same as the epfx.

With this they found out she had 6 amalgams in her mouth and her body was being poisoned.

So the next day we immediately went to a holistic dentist they took out all of her amalgams. Because her adult teeth were in place they were able to do this.

When we returned home we had heard about a practitioner that did biofeedback that was closer to us. So we started taking her to this practitioner. Shortly after her teeth was removed her symptoms started to diminish. Her thyroid medications was reduced by half the blood pressure pills were cut out together.

I also noticed that her Tourettes the tics that she experienced wasn't as severe.

At this point I decided I needed to have an epfx for the health of my family. Today no one realizes my daughter even has tourettes unless I tell them even the teacher at school says she notices very little.

My daughter has a session every 2 weeks and will often come to me and ask to be put on the machine.

City Unknown

My husband has had trouble with depression for years and has been on medication for 8 years but in recent years it has been burning his digestion when he started having sessions with the biofeedback he was able to go completely off of his medications, feels much better emotionally and is able to deal a lot better with what life throws at him. With the help of supplements and regular sessions about every 2 weeks he is able to deal with his depression.

City Unknown

My mother has had angina and heart trouble for a few years also, 2 years ago she was in and out of the hospital with pain and irregular heart beat , but nothing would show up on the heart monitor. This was very frustrating and made her anxiety even worse because she felt maybe it was in her head..

When she started having the biofeedback session the chest pain came to be fewer and fewer times in the last year she has not been in the hospital once for angina or heart problems.

One man ending up in the hospital with severe edema and his kidneys were shutting down. He was getting quite severe, so much so they called the family in because his kidneys had not worked for 3 days.

They immediately sent him to a bigger center for dialysis . He was a week in the hospital with dialysis every day , they were preparing him for regular dialysis 3 times a week which meant he would have to drive 4 hours a day to get this. When he first went in to the city I asked if he would like me to do biofeedback on him since he already was a client. He agreed. So every day I did biofeedback working with his kidneys and balancing the stress in the body. By the time he was to come home out of the hospital his kidneys had started working, when he got his blood test done . The doctors had told him his kidneys were working better than they have ever worked in years.

One lady who was a nurse had injury to her back and had many operations. She was interested in a session with the biofeedback. Emotionally she was very distraught. When I first worked on her she told me you won't be able to crack me. She had her guard up. I had 3 sessions with her over 3 weeks.

Later she told me how dramatic these sessions were for her. Because at that time she felt like life wasn't worth living any longer. After working with her she couldn't believe the difference, and felt she was finally able to cope with life again.

I am presently working with a young adult, who for years has been on many medications for attentions problems etc. His family was so worried because his mobility was getting worse and worse, and also his thought patterns, emotionals. He hasn't been able to get or keep a job. But with persistence from the parents they gave him an MRI and found a brain tumor on the brain stem. they feel this tumor has been there since he was 4 or 5 , but they can't operate on, because of the positions. They were able to drill a hole in his head to relieve the pressure and try to drain some of the fluid For 2 months I have been working biofeedback on him weekly, his parents have been reporting, his mobility is much better , his head and face is actually starting to change shape, He has way more enthusiasm, Even in his speech is much better. He went for another MRI the other day so we are waiting to hear if the tumor has shrunk or

what shape it is in.

City Unknown

My right sinus that was always clogged is mostly clear. My right knee and ankle that hurt for years I hardly notice. I'm hitting the golf ball further after every session and I was a long hitter to begin with! I'm sleeping better.

"Since other therapies were not working, I tried out the EPFX. I am amazed about what the device picked up regarding my body's needs. It not only detected but cleared the ringing in my ears. It reduced my fibromyalgia stiffness and aching. Most importantly, it greatly reduced my SCIATIC NERVE pain!" Around 50 years of age, female, relief after about 4 sessions. Pain return following year and relief after another 4 sessions.

"I suffer from osteoarthritis and a severely deformed thumb joint. Since my initial session I am now pain free in that joint and can grasp things and wring cloths out like "normal" people." 64 years of age, female, relief after initial session on Nov 19/07 and symptoms not returned as of Feb 19/08.

Age 39, female, goiter/hypothyroid/mucous swelling in throat. Mucous and swelling and lump disappeared after initial session on Nov 19/07 and still good as of Feb 19/08.

Age 50, male, Sciatica. Pain reduced after initial session on April 10/07 and gone after second session on April 17/07. He was also doing Chiropractic adjustments in conjunction.

Age 68, male, Lichen Planus, Back Pain, Sleep Apnea. Client since Feb 2/06 with frequent sessions in beginning and now monthly for past year. Skin is "ebbs and flows" but seems to be improving as reported on Jan 3/08. He claims his back is much better. He claims he can feel is toes again and feels warmth in them again. He claimed on Jan 31/08 that his feet never get cold anymore, that he feels 4

inches higher when skiing, and that he can feel muscles in his hip again. On Nov 16/07 he claimed that his lower back is the best it has ever been in 45 years. He claims that his sinuses have improved as well. He thinks his sleep apnea might be improving as well.

Age 62, female, pain down front of leg and eyes water. Pain relief down front of leg immediately after each session and lasts from 1-3 months. Watering eyes stop immediately and lasts for about 1-3 months. Client since 2005. Working on these issues since May 25/06 every month or two. She has arthritic fingers and claims that they feel better after each session too.

Age 35, female, autism. Initial was Oct 31/06. After this session she slept well, was more relaxed, content, quiet. She was very calm during the session and just relaxed. She rocked back and forth a bit and rubbed her hands gently during the session. The guardian was quite amazed at how relaxed she was and how she was able to sit there for 1.5 hours without putting up a fuss. She had further sessions on Nov 9/06, Nov 16/06 and Nov 29/06. The guardian noticed that she was starting to go the bathroom on her own and change her clothes on her own.

Age 38, male, stressed, smoking addiction, anxiety. Initial was May 16/06, where he noticed reduced anxiety and stress afterwards. After his second session on May 23/06 he noticed his smoking addiction had been reduced. He returned on March 13/07 to assist with "house moving" stress and anxiety and noticed that he could rationalize and think in a more clear manner without anxiety and fear and stress.

Age 74, female, leg pain. Had four weekly sessions starting March 20/06 and noticed leg pain improved, but not totally gone. Did other sessions afterwards periodically with ups and downs in health.

Age 46, female, arthritis. Had weekly sessions starting March 9/06 until April 24/06, then every other week until July 4/06. She has reported that her fingers are better and pain is less after the first 4 sessions.

"After suffering for a few months of pain, my right elbow is now pain free in care of two sessions at Healthy Waves." Age 50-60, female, reported the above after sessions on Oct 3/05 and Oct 12/05.

Age 49, female, smoking and sweet addiction, headaches, tennis elbow. Sweet addiction reduced after initial session on Feb 8/06. Smoking addiction reduced after initial session as well. She reported feeling sick when she went to smoke.

Age 60, female, asthma and allergies and headaches. After initial session Dec 20/07 she was breathing deeper, getting more sleep, dizzy/nausea and weepy following session, and yoghurt not settling either. She was waking up in mornings without headaches, but they came back during the day. After second session on Dec 24/07 she noticed she was able to take bigger breaths, but still got some headaches. She also noticed floaters the following day and disappeared within the following week. She still wasn't getting her usual AM headaches.

Age 31, female, high blood pressure and stroke in 2000, fatigue, head/back/body pain. She had initial session Apr 14/06, and further sessions Apr 21/06, May 6/06. After the first two sessions she noticed

lower blood pressure. She reported feeling no pain and increased energy for 1.5 weeks after each session.

Age 46, male, digestive issues, tight neck, lack of concentration/ focus/ forgetful. After initial session on Nov 28/06 he reported on Dec 4/06 that he no longer had digestion issues, neck felt better, but tightness returning, and that his concentration was good until Dec 3/06 when he noticed that he was struggling to read again. Didn't hear back to see how he is now doing.

Age 43, female, loosing vision in right eye with facial paralysis, diabetes, shoulder and hip pain, anxiety with winter driving from accident. Initial appointment was Oct 23/06. On Oct 30/06, during her second appointment, she reported that she was calmer, craving less, sleeping better, hip and shoulder were a bit better, and arm was better. She had another appointment Nov 7/06 and reported that for 3 days after her last appointment she had no pain and lots of energy.

Age 65, female, fatigue in eyes, endocrine, fibromyalgia/CFS, bones/ inflammation, digestive issues. Initial session on Apr 10/07. On following appointment, Apr 16/07, she reported that her lower back was more flexible. On Apr 20/07 she reported that it is easier to get up in mornings and energy didn't drop until 3-4pm now.

Age 35, male, anxiety, depression in AM, fear of death, sadness, worry, loses voice, worried about not enough quality time with children. Had initial session on July 6/08 and second appointment July 13/06. As of July 26<sup>th</sup> his wife reported that her husband was feeling much better, bought a camper to spend more time with kids, is working more and mornings are no longer an issue. She reported that he is feeling SOO much better!.

"This device correctly detected my lumbar injury, dental concerns, and numerous other minor issues. I can vouch for the accuracy of those detected issues. It had an almost immediate effect on the sciatic pain level. Over the next 8 or so hours, it was greatly alleviated by an estimated 85%. The reduction of pain was measurable, almost immediate, and impressive." Age about 45, male, reported this about 11 days after his initial session on March 15/07.

Age 64, female, SI joint, blood sugar, thyroid, cough, bronchial allergy issues. Had initial session Nov 10/06 and further sessions on Nov 17/06, Nov 23/06, Nov 30/06, and Dec 11/06. She noticed improvement in her SI joint after the initial session and reported total pain relief in her SI joint after all these sessions.

Age 69, female, knee and hip pain and shoulder issues. Initial session on April 29/05 and reported to be able to lift arm when she left and shoulder was better after one session. She reported her knees were better as well after that session.

Age 40, male, TMJ, lower back pain, stress with tachycardia, allergies, throat closes in when eating. Client since 2005. He notices improvements either immediately or within 3 days of each session. His jaw locked after one session and hasn't bothered him since. His back is much better with occasional pain, which he finds biofeedback better than chiropractor for his lower back and gets relief within 3 days of

each treatment. He finds it very relaxing and reducing his stress and heart beat. After using the allergy desensitization stress reduction program he found he could swallow much better for about 3 weeks.

Age 35, female, headaches, endocrine disorder, thyroid disorder. Client since 2005. Noticed headache relief with distance treatment by the end of each sessions. It accurately detects hormonal stress indicators. When hormones balanced naturally with herbs and natural hormone creams, no hormone imbalances reacted on the Sport Program. Whereas, previously it showed almost every hormone reacting and needing balanced. It accurately reacts to her thyroid and related blood sugar and syndrome X type issues routinely.

Age about 70, male, headaches, rash, sinus congestion. One session on July 6/05 and reported no headache after, rash cleared, and sinuses cleared. Saw reactivity to feathers and strawberries on Allergy program. Client agreed after session that these are triggers for his symptoms.

Age 44, male, stress, lack of sleep, mild sleep apnea, body tension, pain in joints – right knee especially, pain in left testicle. Initial session was Aug 31/06 and second session was Sept 7/06. On Sept 25/06, after two sessions, he reported that his knees felt better, had better energy but still waking up at night. On Oct 17/06, after three sessions, he reported that he still wakes up at 3:30-4:30 but can now get back to sleep. He had another session October 31/06. On Nov 22/06, after 5 sessions, he reported that his leg was good, sleeping okay, feeling like he slept deeper than usual, and prostate not bothering him.

Age 47, male, headaches, weight, blood pressure, neck tightness, stress. He had two sessions. His first session was June 2/06. He reported on July 7<sup>th</sup> that he noticed less headaches and neck pain gone.

“I was so excited to see the improvement in my recent blood tests. BIOFEEDBACK has made a significant difference in my overall health and well being. I recommend this treatment as an adjunct to everyone’s current health care practice. I credit improvements noted during my dental check ups to Biofeedback as well. Thank you Dionne for introducing me to this amazing device.” Age 61, female, started sessions on Sept 19/05 with weekly sessions until Oct 25/05. Then she did every other week until April 25/06.

Age around 50, female, mysterious skin condition from hands to elbow that looks like worms under skin that hurts when hit, her mom had it too, appears in mid 30’s. Not inflamed. After initial session on Feb 24/07, it disappeared until almost Oct 20/07.

Age 77, female, eye sight, fullness in ears/sinuses, allergies, ears, indigestion. Her initial session was May 17/07. A week after this session, on May 24/07, she reported that her sinus drained but ear acts up now and again. On May 31/07, she reported after that after her last session she noticed her sinus drained again and ear was less problematic. On June 19/07, her hearing had been good and better since last session until June 19/07. She said it felt like it popped. On July 12/07 she reported that it has been her best summer yet with head being clearer, no heaviness, and sinuses better. She noticed ear popping and fullness as if volume turned up shortly after session. On July 31/07 she reported sneezing and digestion still a slight issue. On Oct 2/07 she reported that sinus and head fullness was good. On Nov 1/07 she still reported that her sinuses were better this year and indigestion a bit less. On Dec 7/07, her ears popped

and drained after last session, but digestion not great yet. On Jan 10/07, she reported that she has less headaches.

Age around 75, female, fatigue, depressed, painful feet and legs/polymyalgia rheumatica, bowel issues. Less pain, more energy, bowels much better, ot walking after 1 session on Apr. 25/05.

Age 62, female, left shoulder supraspinatus tendon with tear, right knee baker's cyst posteromedial popliteal fascia. Looking at surgery for shoulder and knee at first session on April 25/06. After three sessions, on July 4/06 she reported that shoulder was better. She wanted to focus on her knee after that. After 4 more sessions, July 25- Sept 27/06, she reported on Oct 18/06 that her knee felt better and shoulder better. December 13<sup>th</sup>, she reported that her shoulder was still good. On Mar 28<sup>th</sup> she reported that her left knee and varicose vein was bothering her. She reported on her next appointment on May 2/07 that her varicose vein was better. She had further sessios on May 10/07, May 16/07, and June 19/07. On Sept 13/07 she reported that her left knee was better.

Age 66, female. Allergies, rash on hands, fatigue, left hip and sciatic nerve pain, weight, left knee cracking and pain, toes numb and feel like tripping, hypothyroid (partially removed), stress. Client since Dec 16/05. She indicated that her cravings were reduced after a couple sessions. Rash on hands is reported to be better in late 2007 while on reduced carbohydrate diet and working on Insulin Resistance and Syndrome X with her homeopath. On Nov 23/06 she reported mental clarity being better. She always reports immediately after each session (almost monthly) that she is able to lift her left leg up easier onto her right knee for tying her shoes. She has reported that her toes have not been as numb after some sessions too.

Age 75, female, leg pain inside both legs, right hip pain into abdomen issues, scoliosis, and left shoulder. Client since July 28/06. On Aug 9/06 she reported that she had less swelling in her ankle since her initial session. After 5 sessions, she reported on Sept 29<sup>th</sup> that her right leg pain was better for 3 weeks after her last session. After 2 more sessions, she reported on Oct 31/06 that she was able to do more stairs, but still achy inside her legs. After 2 more sessions, she reported on Dec 11/06 that she still reported that she can go up stairs better.

"I always felt energized after my biofeedback sessions, especially the first 24 hours. My Chronic Fatigue - like symptoms of joint pain, swollen glands, brain fog, fatigue, and digestive upset always decreased in severity. Dionne is a true professional who likes to help people." Age 63, female.

Age 60, female, nerve deficiencies in both legs (left worse) from car accident. She has had several sessions without huge improvement, but at one point she reported that she was able to walk better with more stability and further.

Age 32, female, lower back pain with sciatica, stress, blood pressure. Initial Oct 5/07. On Oct 11/07, she reported that she had diarrhea after initial appointment and bowels now loser and better. On Oct 18/07 she reported that she was still achy and swelling in lower back. On Nov 7/07 she reported that her finger swelling was down, her back was really good after doing wood, after walking. On Dec 5/07 she said her lower back still has less pain, but more between her shoulder blades. Her fingers were still swelling

some. On Jan 8/07 she reported that her back was good until Dec 24<sup>th</sup>, which she blames her chiropractic appointment on Dec 22<sup>nd</sup> for that recurrence of pain. She still gets lots of swelling in fingers. She reported her elbows are not popping out as much. Her eyes are still watery though.

Age 64, male, arthritis in left shoulder. He had an appointment on March 7/06. He reported on December 2007 that he could lift arm better and shoulder better, but some pain further down arm now.

Age 62, female, neck/shoulder tightness/pain, back/hip pain and bit down leg, blood pressure, sleep apnea. Initial Oct 4/07. After 2 weekly sessions, she reported on Oct 18/07 that her neck released but only lasted a week. On Oct 25<sup>th</sup>, she reported her neck was good, but only lasted a week again. On Nov 1/07 she reported her neck was better. On Nov 22/07 she commented that her neck was good but flared up after recent swim. She said her hip was good at this point. She could notice her neck stress release during her sessions.

Age 57, male, ulcerative colitis, arthritis, asthma. Initial session Nov 5/07. After two weekly sessions, on Dec 3/07 he reported that colon pain was not as sharp. After two more sessions, on Dec 21/07 he reported that he had no pain for 3 days after last session, then pain and swelling back but with no fever. After the session on Dec 21/07, he reported on Jan 2/08 that he had pain for 3 days after his last session, but felt much better for a longer time. He was starting to look better. On Feb 1/08 he reported that he was feeling better still. Wondered if sending frequency of platinum helped, or the brain scan program #22, or using reactivity of IgA with DNA program. Improvements seen more after doing these programs.

Age around 50, female, sciatica. Pain reduced but not gone after one session August 10/05.

“This device profoundly helped my insomnia with one session. That night I fell asleep as soon as my head hit the pillow and have been sleeping well ever since.” Age 35, male, Client since 2005. Did one session by distance and reported that he slept well that night and thereafter or a few months. swelling/hives/fever episode. He had an episode of swelling (organs, head, whole body) and bumps/hives that only prednisone was mildly controlling. After one session, he reported that he returned to normal shortly after.

Age 43, female, toothache. She reported that her tooth pain disappeared for only 4 hours after her session before it returned.

Age 50, female, migraines, low back pain. Migraines improved after 7 sessions. Her lower back pain improved immediately/ during each session, but only lasted a week or two. She reported that her liver spots faded and her finger nails growing better.

Age 45, male, Irritable Bowel Syndrome, stress/anger. Digestion disturbances and anger tendencies much better after two sessions. He was taking nutritional supplements from his chiropractor as well. His chiropractor noted improvement in the stenosis area of his cervical spine.

Age 44, female. Osteoporosis, menopause 3 years ago, gastrointestinal issues, pain in lower back with odd sciatic to foot., T8 and L5 narrowing, headaches – neck. After 3 sessions between Feb 16-Mar 9/07,

she reported on March 16/07 that her neck and headaches were okay and that her back was good, but a bit of gastritis still.

Age 27, female, infected sweat glands in arm pits and groin for past 3 years. Initial session was July 19/06. After two weekly sessions, she reported on Aug 3/06 40% less swelling and pain. After 2 more sessions, on Aug 16/06, she reported 70% improvement.

Age 11, male, asthma. Improvement seen with asthma after 2 sessions.

"I've had 5 sessions of Quantum Biofeedback and love them. The sessions have reduced the mucous and pressure around my throat, caused by my goiter. I can now swallow without the fear of choking. Thank you." Age 58, female.

Age 44, female. Severe left shoulder/neck/arm pain and muscle pain. She sees improvement overall after each session, but pain returns after a 1.5 weeks. Still when the pain returns, she reports that it is not as bad as it was before biofeedback. She has had 11 sessions since August 31/07.

"Under the recommendation of my Personal Trainer, I contacted Dionne for an initial assessment and found that it helped my fatigue immensely after only two sessions. Currently, while working on my lower back pain, I have seen great improvement after another couple of sessions." Age 47, male

Age 64, female, diabetes with pin and needles pain in hands and feet, lower back/hip pain and legs stiff at night. Lower back pain, leg stiffness, and needle feeling in feet and hands improved after first session.

Age 61, female, chronic head and neck pain from motorcycle accident in 1994, sciatic pain. Client since March 10/06 for mostly weekly appointments. She notices head and neck pain release during/after sessions, but it doesn't always last. She sometimes reports that she wonders if her chiropractor makes her feel worse. She notices improvement in her sciatic pain after her sessions for 1-4 weeks, but has flare ups now and again.

Age 37, male. Crushed discs in lower back, knee caps loose, pop out, crackling in last 5 years. After two sessions (July 31/06 and Aug 14/06) he reported on Oct 23/06 that his lower back was good and still good as of early Feb 2008.

Age 47, female, chron's since 15 years of age, sigmoid muscles weak in upper colon with pain, mass near rectum. Initial session Nov 6/07. After two session, she reported on Nov 19/07 that she is still bleeding some, still has some discomfort, but no longer constipated. On Nov 30/07 she reported that she is not as constipated, has no pain anymore, stools are bigger, more gas, but still a little bleeding. On Dec 10/07 she reported that she has no pain anymore, still bleeding from mass, still no constipation. On Jan 3/08 she reported no constipation, no pain, bleeding stopped before Christmas, but still a little bit. On Jan 11/08, she reported that she still has gas, no pain, no constipation, bled a bit more, tired. On Feb 4/08 she reported less bleeding, no pain, little bit of cramping that might have been MSG, no bleeding in Mexico on her holiday. On Feb 18/08 she reported less bleeding, a little pain, still tired, and still no constipation.

Age 58, female, high blood pressure, allergy, water retention. The following day after her session she reported that she had lots of energy, felt great, had no bloating, and her eye redness was gone, and allergies improved.

Age 47, female. Blood pressure, TMJ, anxiety, endometriosis. Client since 2005. She noted TMJ improved after one session. She reported her anxiety was less after 3 sessions. She feels she needs sessions every 5 weeks or so to keep feeling good.

Age 44, female. Stress and anger, depression, menopause with insomnia. After first session she noticed less anger and stress. After her third session, she noticed her phobia was reduced and could handle encounters with spiders better.

Age 47, female. Sciatic/lower 4&5 lumbar discs, cancer. After first session, Dec 5/06, she noticed that her kidney and bladder improved and wasn't up at night. After two sessions, she reported on Dec 19/06 that she had less pain. After three sessions, she reported on Dec 27/06 that she was able to take less pain medication. Her 6 sessions were completed in January 8/07. She reported in February 2008 that this was the only therapy where she saw improvement in her health, would like to come back for more therapy but doesn't have the money right now due to cancer fighting hyperbaric chamber oxygen treatments.

"I first went to Dionne because my stress level was so high I would wake up crying. After a few sessions, my stress and adrenals were feeling much better - I could function without getting so worked-up. Now every once and awhile when I feel overwhelmed (like before Christmas, etc.), I go for a "tune-up" and can get through the holidays with no problems at all. I've also sent many clients and family to her - it's good to tackle problems from all angles - not just nutrition. Thanks Dionne age 31, female.

City Unknown

One case I would like to share is a recent session with a subject, while working in a bookstore. He was experiencing congestion, copious mucus from his nose and running eyes. After a brief encounter, we discussed his discomfort. In a 30 minute session of de-stressing his respiratory system including sinus, lungs and using the Chinese six external pathogens wind, damp, dry, heat, cold and phlegm, he reported the next day that he was feeling so much better. That evening after the session he began to cough up so much mucus which cleared his head and stopped his headache. The next day he was feeling stronger, his head was lighter and no mucus.

The second case I would like to share: A woman came to me after a lecture about stress and how it can affect every organ in the body. She indicated that she really wanted a session. She came to the session after having her first drink of wine for the day around 11:00am. She never mentioned that she was an

excessive drinker or addicted to cigarettes. Using the approach given by some of the Masters I was able to help her decrease her drinking to casual drinking of about ½ a glass of wine and no more smoking. The NLP panel was used for addictions, organs were distressed and more than that her limiting emotions were identified by her and coaching around the cause of addiction was provided. She was able to have presented to her various ages of experiences which affected her and some stressors she had not begun to even talk about. She had such a traumatic experience of loss of her mother and shortly after her grandfather, who she was responsible for preparing the funeral arrangements and eulogized them together. She described how those events changed her life and at that time experienced depression , almost to despair and hopelessness, which led her to seek mental health, but she was still tearful about that time in her life. After a few sessions she was able to talk about those situations without tears and stated she felt stronger and less paralyzed by those situations.

City Unknown, U.S.A.

I am 34 yrs old (female) not at the time of my 1<sup>st</sup> session I was 32. I have struggled with the diagnosis of Learning Disabled most of my life. If you are like me and could not read a book and understand it no matter how hard you try and people say try harder... There was not harder for me I spent my life learning how to coop. So after my 1<sup>st</sup> session I noticed many changes I could made dissections faster. My skin was less sensitive. And most of all my reading improved within the week. I could now understand what I was reading as well as read almost as fast as my mother who had to read to me all my life. The 3 months before my 1<sup>st</sup> session with the EPFX my Dr. had me on 2 different RX for some type of walking nomonia (flu). If it did not get better within the next week on it's own my Dr would have needed to put me on a steroid and she did not want to do that if we did not have to. That same night all of the congestion in my chest brook up and I felt GREAT!

My son now 9 yrs old at the time of his 1<sup>st</sup> session he was 7. 1 - 2hrs session.. School testing, Dr., both labeled him ADD. Eye Dr. said that his eyes were not able to follow without moving his head and also his pupils would not diolate (shrink in the light).. By the next day his eyes were diolating. I noticed that the balancing issue he had was correcting itself. To watch my son stand up and ride a skateboard down a hill was awesome. He also had a lot of bumps on his skin that his Dr could not say for sure what they were. It looked like hundreds of bug bits. With 1 week of his 1<sup>st</sup> session his skin cleared up too. Over the past 2 year my son has had many sessions and his new Dr cannot understand the old diagnosis of ADD she see no signs of that. The school has recognized his improvements and at ever quarterly meeting they want to know what RX my son is on. I am happy to report none. All who have watched this transformation have been amazed.

Female age 20

1 session

4 year with pain from Fibromyalgia

The day after her 1<sup>st</sup> 2hrs session her pain from the fibro was gone.

Also after 3 more session I found out she had wanted to end her life. She feels that with the EPFX she would have done just that. This young person has done wonderful things over the last 2yrs and the pain has not come back..

Female age 52. Back pain

1 session she said her back pain was gone.

She also felt a better overall sense of well being.

Female age 71

Diagnosed with Leukemia. She had spent 6 months going through Chemo. Before, during and after she had weekly sessions. After 1 yr her Leukemia was in full remission. She say that the EPFX helped her the most with her depressions. After each session she would notice different changes. Like the pain in the leg that lightened and even went away after a few weeks.

Female age 63

Sleeping issues

After 1 session she was sleeping better at night.

Male age 45

Addition to alcohol. He drank 12 or more beers per day.

1 2-1/2 hrs session 2 weeks later 1 more and he had been almost 2 week without a drink. This man also had sleeping issues after 4 sessions he was able to sleep more hrs per night then he had in years.

Female age 20

Deep Depression

3 sessions and she felt happier. The the need to hurt herself was gone.

City Unknown

June 25, 2007

I was in constant pain due to a shoulder injury. A doctor suggested it might be Arthritis. After trying several ineffective treatments, he sent me to a Chiropractor who told me that I would have to keep coming back to therapy until I was cured. That helped only for a short while. I was exhausted from trying to live with this dull pain in my shoulder.

I also lived with a sinus problem which became chronic at certain times of the year.

Then I was introduced to EPM / SCIO. I was amazed at the amount of information it disclosed about my body. There were things that I did not tell, yet they came up in the reports. I also received an enormous amount of information which gave me knowledge to take care of my body's needs.

During the first treatment I felt a strange sensation in my sinus area, as if it was opening up, and I was able to breathe easier. The following morning I felt a sense of energy and well being. During this same session, Mari also worked on my shoulder pain and that is now non-existent.

To me, the most important part of this treatment is that it is so gentle on my system. There are no drugs to take, so I did not have to worry about side effects.

I highly recommend this system to anyone looking for a treatment for their ailments.

Orange County, CA

19 July 2007

Two months ago during a routine blood test I tested positive for Hepatitis B. Immediately I decided to be proactive and scheduled a second blood test which confirmed the initial one.

I scheduled several sessions on the Quantum machine and decided to increase drinking XanGo mangosteen juice to about 1/4 to 1/2 bottle a day. In addition, my practitioner referred me to a Chinese herbalist who administered acupuncture and sent me home with herbs to use daily.

After using the Quantum machine I felt more energy and more positive about overcoming the Hepatitis virus.

I just received the results of a follow-up blood test and there is no evidence of any Hepatitis in my system. The doctor was amazed.

I know that my regime was responsible for ridding my system of this virus and I will continue scheduling regular sessions on the Quantum machine, drinking XanGo, and using the Chinese herbs daily.

Orange County, CA

On a personal level, I was diagnosed with Raynaud's disease about a decade ago. Very briefly, this is a very painful reaction to cold in the hands and feet. With this disease, my husband and I had opted to live in the south. I would not even shop in the freezer section of grocery stores, due to the pain resulting from just reaching for the frozen foods...just walking in that aisle could elicit a painful response in my hands. I had been introduced to traditional biofeedback with the original diagnosis. It only worked in the clinical setting, but was useless in the actual outside world. The pain and suffering just happened when I was exposed to the cold.

This year we moved to Iowa for family reasons. It has been the worst winter in over 50 yrs. In spite of this, I have been able to carry on normal daily life, as well as shovel snow. I owe this newfound quality

of life to my work with the EPM biofeedback. I have worked to balance my own body as well as using a dedicated Raynauds protocol biofeedback session. I began working on myself months before moving to Iowa, and have continued to work to balance my body. I can now say that life in the cold is not intolerable, and certainly not painful as it had been in the past. I can even shop in the frozen food section of grocery stores. THIS may not sound like much to most folks, but to those with Raynauds, this is HUGE!!! I thank God every day for this device (EPM) and my quality of life these days.

Iowa, U.S.A.

Case#1 Female, age about 34

- presented with physician diagnosis of shingles
- symptoms were depression, pain on site of lesions
- one short session on EPM was given
- client called a few days later and said the lesions quickly healed in 2 days and she had no pain
- also the burn she had sustained a day before her session healed so quickly that she couldn't believe her eyes!
- about 4 months later another session was given because the shingles returned very mildly. The client claims that the lesions were gone by bed-time that day. Amazing.

Case#2 Myself, male age 43

- was stung by wasps at my mother's farm last summer -sustained about 15 bites to my forehead and eyebrow, within 2 hours my right eye was swollen completely shut and eyelid was swollen to the size of a hen's egg.

- swelling lasted all night and to next afternoon when I put myself on the device (3 p.m.) by 4:30 p.m. the edema was 50% less and by 6 p.m. the edema was 95% gone! With a 3 hour session the edema had decreased by about 95%!

- by 9p.m. that evening no one could tell that I had been bitten.

Saskatchewan, Canada

Female 58 years old, had been diagnosed with lung cancer by her licensed medical doctor prior to her visit with me.

She understood that EPFX sessions do not cure the cancer but can put her body at stress free level - if she decides to - and then her body could fight at its best :

1- the side effects of medical treatment

2- the underlying possible emotional reasons

3- the underlying possible physical or physiological reasons : toxins , fungus.....

Then, she accepted to receive EPFX sessions.

After few months of medical treatments and EPFX sessions her doctor believes that she was unusually strong and her healing was above his expectations compare to other patients. So healing have occurred.

Montreal, Canada

Male, Age 49, Perryville, Missouri, USA, 4 EPFX sessions in 2005.

Presented with extreme stress and pain associated with second episode of lung cancer.

Good attitude but significant pain in area where lung had been removed (upper right lobe) as tumor had reappeared in same area following surgery.

Unable to find relief of pain and continued stress. No significant pain relief using prescribed medications. After each EPMX session pain level dropped from level 8-9 to level 3. Able to continue working with much less pain detected. Able to support social activities with children and spouse.

Decided to undertake additional chemotherapy and radiation. Traditional cancer therapy procedures proved successful, rapid recovery. Individual survives as of February 2008.

Greater joy and satisfaction expressed. Overall vitality returned, able to work with little discomfort.

City Unknown

An 11 year old boy, diagnosed with ringworm by the family M.D. He had been excused from school as the ringworm lesion was 3 1/2 inches in diameter. I used the main matrix to bring up the tinea items and did nine minute therapies on the reactive tinea funguses. The fungus paled in color for 24 hours then started to inflame again. We gave therapy on two more occasions within 48 hour intervals and within a week the lesion completely receded with no evidence of it being there. There has been no reoccurrence of the fungus in over a year. I was most sorry we did not photograph as evidence, but this was doctor and school authority diagnosed.

A 22 year old female, with a reoccurring eye infection was unable to wear her contact lenses and was told by her optometrist and ophthalmologist that she would have to give up wearing her contact lenses. During a three month period, she made approximately 7 visits to her optometrist who conferred with his partner optometrist, and then she went to an ophthalmologist. She had been given antibiotics, which somewhat cleared the infection for a few days, but it continued to reoccur. They were unable to help her and advised she was allergic to wearing any type of contact lense. I used multiple eye therapies from the QXCI and looked for reactive pathogens in the main matrix. After each session she would improve and after the fourth session there was no reoccurrence and she has been clear and wearing her contact lenses for four months.

A 29 year old man, bedridden for two days with severe localized abdominal pain and diarrhea. He was diagnosed by his osteopath with a worm infestation in his colon and put on an herbal remedy which took

effect within hours. I had put him on the QXCI at his request as he was feeling too ill to help me pack for my overseas trip and I gave him some usual therapies but didn't have time to study the matrix results. As no one had been on the unit since he had, the matrix results were there for him. The particular worm he had been diagnosed and treated for by the osteopath was the top red in the worms subheading on the main matrix. We concluded by researching the worm to find out that this particular worm causes abdominal pain in the region Paul had been complaining of. Paul did see dead worms in his feces.

A 50 year old man with very painful toothache in lower molar. I used the QXCI to give therapies to the reactive the pathogens relating to dental infections. I also used the QXCI to delve into the cause of the infection and it stated that there was decaying bone and flesh under the molar. Within an hour, John was not feeling any more pain. He made an appointment with his dentist for the next day. At first they were unable to find any infection, but as John had been in so much pain on the previous day, they persevered. It was discovered that John had decaying flesh and bone under the molar from previous dental work. It was removed and John put on antibiotics.

My daughter had crater type lesions on both her feet for four years. They were doctor diagnosed as a type of wart family and treated but wouldn't go away. We tried over the counter remedies at the doctor's advice but still the warts multiplied. We visited a QXCI practitioner and the first visit was unsuccessful. The second visit he spent more time on the pathogen and within a month the lesions were completely gone and seven years later have not reoccurred.

City Unknown

I have been a Biofeedback Technician now for approx. 3 years and I have seen well over 500 clients during that time. I can honestly say that every person that I have seen has had some positive results from the rebalancing done with the device.

I am currently working with a General Practitioner MD here in Alexandria, La. and have been working with numerous patients that she referred to me. Several of my clients were cancer patients and each have seen improvements in their conditions. One patient was completely emotionally broken after going through her radiation treatments and surgery. She was on a regular daily dose of nerve meds. and was on the verge of having a nervous breakdown when I met her. Within approx. 3 weeks and approx. 3 sessions, she called me and told me that "I am not 100% yet but I now feel that I can make it". She has been able to regain her life and emotionally begin to deal with some childhood traumas and situations.

I also have been working with another cancer patient that has pancreatic cancer that surgery was not an option for. He just recently received his best test results and is now "stable". He was originally given basically no hope by MD Andersons. I am also working with his son who was diagnosed schizophrenia and has been doing therapy for approx. 8 months now. He has now started working again and claims that the device and therapy done is the only thing that has ever helped him. His family continually tells me that it is so nice to "have him back". He is not 100% but he has improved greatly since he began doing sessions with the EPFX.

Alexandria

### Hormonal Balancing

One of my most exciting cases occurred about 2 years ago when I worked with a client who was having great difficulty with peri-menopausal hormonal issues, in particular depression. She had seen her doctor who recommended anti-depressants and hormone replacement, which she refused.

During her third session, she experienced a profound reaction to the frequencies, causing the buttock area and the back of her legs to becoming extremely hot. This soon passed. Since this time, three years ago, she continues to experience complete relief from these depression symptoms.

### Emphysema

I have just begun working with a 40 year-old woman who has been diagnosed with emphysema and aspergillus fungus in the lungs. After our first session, I was able to see that she actually did not have aspergillus, but rather a variety of other funguses (candidas) affecting her. We worked on these, as well as general strengthening of her body and improvement of energy flow.

An x-ray she had about two weeks after our session, showed a significant decrease in size of lung lesions. Her doctor was astounded.

### Recovery from Traumatic Childhood Abuse

I did some long-term work (over a two year period) with a woman who had experienced traumatic child sexual abuse at an extremely young age (1-1/2 years). She is now in her late 40s and has been undergoing psychological counseling for many years.

She feels that the biofeedback sessions she has received (about 30) have been much more beneficial than all her years of counseling. I notice a great change in her demeanor, she is much more confident and far less fearful. She had been off work for several years because of mental health issues related to her abuse experience. Recently she purchased her own EFPX device, and is starting a practice!

### Recovery from Old Emotional Trauma

Last summer, when traveling in Slovakia, I did a single session on an elderly woman who was experiencing a great loss of vitality, basically feeling worn out. She had not received any specific diagnosis from her physician, however her vitality was at such a low level, that she appeared to be literally dragging her self around.

While doing our session, I discovered that she had lost a child in infancy some 50 years earlier. During the session she had a pronounced reaction, she began to sweat profusely, and then feel nauseated. This lasted for about 10 minutes, then it passed. After the session she immediately had a very large bowel movement, and when she emerged from the bathroom she looked like a different person.

She has maintained this feeling of vitality for the past 8 months, and has gone on to seek the services of a homeopathic doctor, and work at improving her diet and lifestyle.

### Chronic Lower Back Pain

About 2 years ago, I began doing sessions with an elderly woman, who for the last many years (10-15) had experienced a feeling of heaviness in her lower back so severe that she was unable to stand for any length of time. After our first session she reported that the feeling of heaviness had left and it has not returned to this day.

### Chronic Fatigue Syndrome

I did several sessions with a middle-aged man who was battling with a severe case of chronic fatigue syndrome. After a few sessions we were able to see that much of his problem was due to bad dental work and a multitude of unresolved emotional issues. He is still dealing with many of his symptoms, but his overall demeanor is much improved, as I see he has been relieved from much of the chronic anxiety that he dealt with, and his condition is slowly improving.

### Mental Health/Outlook

I have done about 7 or 8 sessions with a woman who was so filled with anger and resentment that it dominated her outlook completely. Over the course of our sessions together she has made such dramatic strides in this area, that it can only be described as a personality change.

### Ovarian Cancer

About two years ago I did some work with a woman who had invasive ovarian cancer. Along with her biofeedback sessions, she worked to improve her diet and used FAR (infrared) therapy to improve her condition. Three months after I first saw her she returned to her doctor, because there was a surgery scheduled. She asked that another MRI be done before the surgery, but it was refused. When the surgeon "opened her up" he found that the cancer had completely dissolved.

Winnipeg, Manitoba

I am a female, age 49, who suffered with severe back pain for over 13 1/2 years. My mobility in life had greatly decreased over the years. My husband had to do much of the housework, and my life activities

were severely curbed. I could do some hiking, but no longer could I play golf, go skiing or horseback riding. Any long periods of standing or sitting gave me pain. I was only comfortable in a horizontal position or swimming.

My regular GP recommended some physical therapy and to also see an osteopath. I had been given much advice over the years as to the reasons for my back spasms. I had a disk that slipped and pinched nearby nerves and sent me to bed in agony for days on pain medication. I was told to do many different exercises to strengthen muscles, to lose weight, to put a 1/4-inch lift in my left shoe. I did all of these things, but even with treatments, my back only got worse.

Since I did a lot of reading, I came across a paragraph in a book that mentioned biofeedback. Then a doctor at Ft. Bliss Army Medical Center in El Paso, TX mentioned it to me. And then a friend told me about it. I figured I had better pay attention! I made an appointment with a biofeedback specialist in town and after my very first treatment, I was 90 percent better. There had been an emotional blockage/connection to the pain which was cleared using the biofeedback energy. At my next appointment, I still had some twinges here and there, but this session plus one session per month for six months cleared all remaining problems.

Today, 2 1/2 years later, all my back strength has returned and I have the same flexibility as I had as a teenager (although I doubt I would attempt a back flip now)! I have my life back and am enjoying every moment.

City Unknown

I had some dental surgery and was in terrible pain for 9 months after. My whole entire right shoulder, going down my arm was hurting. I could not sleep or work; I could not function from day to day.... I was doing Electro Acupuncture – Mora, in an MD's office that was as puzzled as myself to the cause of my debilitating pain. I had numerous tests, blood work, CAT scans, and MRI and nothing was showing as a problem. I tried all kinds of therapies: acupuncture, massage, prolo therapy, supplements without any help.

And then, I discovered a Biofeedback (QXCI) practitioner 2 hours away from me and decided to give it a try. I was desperate for some relief after 9 months of the debilitating pain. The session was so relaxing...I

fell asleep and wake up to being pain free. It was a true miracle... I didn't want to believe that I was actually feeling back to normal. I sat in the chair and started crying...I couldn't stop crying driving back in the car for the next two hours....I was afraid that was a temporary relief and the pain will come back any time now.... I was wrong! It never came back!

City Unknown

On at least 4 separate occasion I have had a sore throat and I had my husband or daughter use the auto zap on the EPM machine for Flu, pathogens, virus and bacteria and within one to one and half hour the sore throat was gone and did not come back. I was 59 years old at the time. I work in a retail store so I am exposed to virus and bacteria all the time. I'm so glad I have the EPM machine to avoid the doctor's office and the pharmacy lines.

I have done sessions on two 76 year old women. One knew she had a mini-stroke, diagnosed by a medical doctor. Her cheek, lips, and gums were numb and out of control she could only drink from a bottle or glass with the use of a straw. She could not hold the liquid in her mouth. After her first session on the EPM she could feel her cheek. After the second session on the EPM the following week she could drink from a bottle and a glass without the use of a straw. The other woman had all sorts medical problems and out of frustration and anger it landed her in a mental facility. Her biggest complaint was headaches and insomnia. After her first sessions she was not having headaches and was sleeping through the night which she could not remember how long it had been since she slept through the night and did not have a headache. On one of her subsequent sessions I was attaching the EPM harness and she got very stressed because she could feel a migraine headache coming on. I did a search for migraine in the test matrix and set the program to run for 3 minutes and she asked if I found anything for migraine and I said yes. She replied well it is going away. She said I didn't know how I was going to get home because she said she would have been throwing up in her friend's car. She then replied where were you years ago when I was younger.

I have another client that came to me because of twitching muscles and heart palpitations. Since she has been coming for sessions on the EPM she said that the muscle twitching is greatly reduced and her heart is not giving her the palpitations that it once did. She said that she has noticed she is much more relaxed than she has been in a long time.

My husband starting sneezing with lots of sinus drainage this morning and this afternoon I begin a session on the EPFX on him and tonight the sneezing and sinus drainage is greatly reduced.

City Unknown

My mother is 70 yrs old. I am able to reduce her stress level and see where her energy level is by using the scalar scale. When I first started giving her treatments, the scalar scale indicated that her energy was almost exhausted. I immediately started giving her various food supplements and weekly treatments with the scio. That was eleven months ago. Now, she is strong and the scale has been indicating that her energy has increased and it is now on alert. I am thankful for the scio because it helps me to know what is going on with my mother's health.

Inglewood, California

I have a 68 year old female client who had four sessions with me before leaving Canada to winter for 3 months in the southern US. She told me that she has a fairly severe allergy to cats and that she would be in the presence of felines during her visit south. I offered to work on desensitizing her allergy once a week, in Virtual, for the 3 months that she would be gone to see if she would notice a difference. She recently e-mailed me with the following message:

"Thank you for the allergy boosts, I didn't have hardly any problems over the weekend. What a relief!!!! We're going back into Phoenix this next weekend so will appreciate any extra boost you can give me. You

can't imagine how much easier it is to breathe. Thanks again."

City Unknown

Once of the most positive experiences that one of my clients has had was with the EPFX. She has been living with MS and her eyesight has progressively gotten worse over the years. She loves to read and had bought herself a special device to magnify the words in the books she loves to read.

She has been continuously getting biofeedback sessions and started noticing results right away. She can see a lot better now and her mobility has also improved tremendously.

City Unknown

I have been working with the EPFX for a year now as a practitioner, having been a client prior to that time.

I am a now a 65 year old female. At age 62 I sought medical care on 06/10/05 because of severe lower back pain and left hip and leg pain. I had been unable to walk without pain and limping and had been taking 4 500mg of ibuprofen at a time, 3-4x a day without relief. A good night's sleep was a fond memory!

A report of X-rays on 06/10/05 indicated a small osteophytic spur at the superior portion of the acetabulum

Further impressions:

1. L5-S1 Disc disease seen on lateral and magnification views
2. Otherwise normal appearing lumbo-sacral spine.

I received physical therapy for the next several months with no relief. The physical therapist suggested further investigation and possibly an

MRI

On 10/03/05 an MRI of the lumbar spine was performed.

The report states:

\* No lumbar fracture or neoplastic marrow replacement are present

- \* No evidence of disc space infection and no intraspinal mass
- \* There is some facet arthropathy at the L5-S1 level. No focal disc herniation or significant canal or foraminal stenosis
- \* At the L4-5 level there is dehydration and narrowing of the disc with central and left-sided disc herniation/bulging facing the anterolateral aspect of the thecal sac and protruding into the inferior aspect of the L4-5 neural foramen. There is facet arthropathy and mild spinal stenosis at L4-5 as a result
- \* There is mild bulging of the L3-4 disc without focal disc herniation or significant canal or foraminal stenosis. There is some facet hypertrophy
- \* No abnormality of L1-2 or L2-3 present
- \* Two neural cysts noted in the thecal canal at the level of S2

Impression: CENTRAL AND LEFT-SIDED L4-5 DISC BULGE WITH MILD L4-5 SPINAL STENOSIS

THE RECOMMENDATION FOR ALLEVIATING THE CONDITION WAS STEROID INJECTIONS INTO THE SPINE TO BEGIN IMMEDIATELY.

I SAID, " NO THANK YOU, I'LL LOOK FOR ALTERNATIVE SOLUTIONS."

The next week I was invited to a demonstration of the EPFX device and immediately scheduled an appointment. By the third session I was no longer limping and the pain and discomfort was noticeably diminished. Improvement continued steadily as I continued with regular sessions. I was no longer taking ibuprofen for pain, and I began exercising to strengthen my back and legs and overall strength training.

And I had a goal: In August of 2006 I led a rather strenuous pilgrimage to Ireland that involved a lot of walking, hill climbs, clambering over fences, rock walls and megalithic tombs...and I did it...without the aid of medications or steroids.

That's not all! Two months later I unexpectedly went on a pilgrimage to Egypt...and there managed 12 intense days...climbing the 750+ uneven rock steps to the top of Mount Sinai, a 6-7 hour camel-riding trek in the Sinai desert and sleeping two nights on the ground in a desert canyon and on sand dune. In September 2008 I will be returning to Egypt with my own group for another go at Sinai's mountain camels, and desert!

THERE IS NO WAY ANY OF THAT WOULD HAVE BEEN POSSIBLE FOR ME WITHOUT THE  
EPFX QUANTUM BIOFEEDBACK DEVICE.

City Unknown

Shortly after receiving my SCIO last year I had a session with an elderly lady, who had been suffering from sciatica for over a year and a half. Following the session she called me the next day to say that when she awoke she discovered that her sciatica had completely gone. When contacted several months later she reported that it had never returned.

My second example is that of a 63 year old man who had suffered severe sinusitis since 7 of years age. Again, after just one session he experienced amazing results. By the following day his sinuses (for the first time in 56 years) were clear and his breathing unlaboured. Approximately 2 months later he experienced a slight return of the condition and after one more session he now states that it no longer bothers him at all.

Although not all of my cases have had such speedy results, the benefits gained from them have been obvious. Many of my clients have had very stubborn conditions that have required several appointments before they have attained the results they wished for. One such case is that of a middle aged woman with a candida condition. Although, on this occasion, she needed 3 sessions before she was finally returned to good health, she was nonetheless delighted that the problem, which her doctor and other specialists had failed to correct, had now completely gone.

City Unknown

I have a client who is a 38 year old male that went into a deep depression and ended up starving himself. The client was found by family unconscious in his apartment. He was rushed to the emergency room and spent several months in rehab. When he came into my office he was using a cane and needed help from his mother. The client had little to none social skills. He did not even hardly look at me or speak a word to me during his treatment. When the client's mother asked if I could help him I told her I did not know, but I would do what I could. We set up weekly treatments and got him on some Dr Recommends nutrition. In just a couple treatments we could see his improvements. He was talking more and we actually worked on his balance, as the medical doctor's assumed he may have had a stroke. This client was extremely faithful to his treatment plan and with in a couple months he was walking without his cane. His mental status and physical abilities continued to improve. He went back to his doctor for his regular checkup and he told them what he had been doing. The doctor was amazed by his improvements, and told him to continue whatever he was doing because that type of treatment could do more for him then conventional medicine. This clients has claimed that the EPM treatments has literally changed his life.

Buffalo

"I have had the good fortune to have experienced several of the SCIO therapies now and am very pleased to report that I feel much better and overall and my 'disposition' now is excellent. I feel as if I have been liberated from something and now feel very positive, in a kind of out-of-the-blue way. I think I have managed to overcome emotional old attachments and in fact have become more aware of the benefit of working on things now that previously I was unaware of. But of course the wonderful machine picked on this and is helping along, which is a real bonus.

Also on a physical level I should like to add that straight after the first treatment my heart palpitations (which had been going on for 3 years or so) just went, from one day to the next, and this alone was incredibly important for me. My kidneys too which had been troubling me for many years, giving me very uncomfortable pain have completely stopped hurting me now, and that again is very wonderful and very

important to me. I have been around and involved in many alternative therapies over the years (I am in my late 60's) and the SCIO has proved to be one of the most powerful therapies I have ever experienced.

I am very grateful to have found the SCIO."

"Three years ago I was diagnosed with prostate cancer and subsequently underwent an operation for its removal, and also underwent radiotherapy. Unfortunately, at the beginning of this year the psa level in my blood went up alarmingly and at that time I consulted a clinic, with a view to having an analysis on the SCIO device. At the outset I was rather skeptical of its use; but when I was given the analysis I was amazed at the personal knowledge the device put out. Consequently, my practitioner advised on various things that I should do to try and reduce the likelihood of the cancer getting hold. With the help of my medical consultant and following the advice given, I am very pleased to say that the blood test that I had in April showed an almost zero figure for psa. I have continued to follow the advice and now hope that further blood test will show the same low psa count. I still don't know how the machine can do what it does, but the advice given as result of the analysis and therapy given certainly seems to have worked."

"Having suffered with poor digestion and severe bloating, I tried a number of dieticians and practitioners who put me on really difficult elimination diets all to no avail.

In January I started seeing a practitioner on a fortnightly bases for diagnosis and treatments. She found that I was indeed intolerant to wheat and sugar but apart from those I began to eat normally. Gradually I began to feel better and now feel that I am in control. I still get occasional flare ups but I know why!!

As a side issue, I am 49 and for the last year or so my periods had become very erratic and light – presumably getting ready for the menopause. Then in March I came on after exactly 30 days as I have done all my life. The same has happened for the last four months – the only thing I can put it down to is the SCIO!!!!!!"

City Unknown, United Kingdom

A few weeks ago, I worked with a 32 year old male. He has been ill for about a year. Very tired, gets ill after eating. The doctors could not find anything. On his own, he begin to notice how different foods affected his stomach.

When he came for his session, he was eating no gluten and his diet was mainly fruits and vegetables. However, he was still very thin, tired and still had stomach problems.

What I learned from his EPTX/SCIO session was that his primary concern was "hydration". Also a colon and liver cleanse was suggested. His life force/serotonin level was also low. His system was extremely acidic.

The EPTX/SCIO said that stored stress and unprocessed emotions were causing problems in the stomach area. According to the EPTX/SCIO he also had a lot of anger. Abandonment came up in the aura scan.

As we talked about this, he said his father had abandoned him when he was a young child. Bringing the idea that he still had some anger around this and that his emotions could be the cause of the stomach problems was really surprising to him because he thought he had dealt with this.

The next day, this man was smiling. He had color in his face and said he was feeling better already.

I spoke to his wife today (two weeks later) and she said he is feeling much better. He is drinking more water, eating foods that help to alkaline his system, is on a colon and liver cleanse and doing some other simple things suggested by the QXCI/SCIO.

They are both very happy he came for a session. He is very optimistic about a complete recovery.

Vista, CA

Case 1 – 57 year old multiply handicapped woman

An advocate for a multiply handicapped 57-year-old woman states:

Up until she was rescued from her family of origin at age 16, this woman was abused in every possible manner, including put down a well the way some people drown excess cats.

Her medical diagnosis was/is Ushers Syndrome which is characterized by macular degeneration and profound deafness. This is compounded by developmental delay. Her IQ was determined 6 years ago to be 86. She was told as a child that she would never learn to read and could not see the words much less

read a combination of words. The medical community dismissed her and she was on maintenance care only.

Her health as she experienced it 9 years ago was:

Frequent severe headaches/migraines that caused her to black out.

Severe muscular cramping and muscle tension

Lack of good sleep due to nightmares and muscle pain

Inconsistent body temperatures ranging from very cold to night sweats

Frequent injuries due to falling, tripping and bumping into things

Almost no socialization due to social barriers, even though she worked full time

Initially we used a restorative optometrist to help open her vision field (1/4 inch in diameter at the beginning). This was followed by a physical therapist using the original osteopathic palpation method, which helped alleviate many symptoms and increased function. Approximately 5 years ago, the PT reached an impasse that he was not able to move through.

At that time the EPFX was used for one session. Resonant Frequency Pattern was found to be over 2,400,000. In that one session the practitioner was able to balance and rectify the client causing the barrier to therapy to be resolved. Two years later, the osteopathic practitioner moved and an EPFX became the primary modality for this client. She continues to exhibit visible and observable progress and requests sessions based on her awareness of her body functionality. Currently the EPFX therapy is being supported by nonforce chiropractic. Annual and as needed (primarily to resolve problems caused by constant use of hearing aids) medical visits are maintained and her primary care physician's comments are congratulatory with instructions to continue.

Changes observed by the client and others:

Headache free for 3+years

No fistulas in the macula as confirmed by the optometrist. Only rare use of glasses.

Improved field of vision and significant reduction in accidents and falls

Improved speech which enhances better socialization and supports a tremendously improved quality of life

Muscular symptoms are easily ameliorated when and if they arise

Good sleep – a dramatic reduction of nightmares and an increased sense of safety

Able to interact with members of family of origin without fear and with healthy, appropriate boundaries set by the client

Improved attendance at work with additional tasks learned, assigned, and successfully performed

Reading improved currently at a 2-grade level.

Vocabulary constantly improving

Active learning and conceptual understanding increasing paced by the client

Social development progressing

More self-managing and independent

#### Case 2 – 1 month old Baby E

Baby E was brought to an EPMX practitioner with “baby acne”, slightly mucousic eyes, fussy and a constant desire to nurse. The practitioner did a one-half hour session during which the baby slept soundly.

The next day the mother called the practitioner and reported amazement that the acne had cleared up, eyes were bright, shiny and clear and Baby E was back on her 4 hour nursing schedule. The baby continued to be healthy and experience normal development.

#### Case 3 – Nasal Polyp

A client called to cancel her appointment due to a sinus infection that was so severe that she could not drive. When asked if she wanted the session to be conducted long-distance, she readily agreed. The session was conducted.

The next day the client called and said she felt much better. In fact, she had had a normal urge to blow her nose. Upon doing so, she expelled a polyp the size of her little finger. The client has reported improved health, particularly in the sinuses since that time.

#### Case 4- DF improved productivity

A resort dining room supervisor was experiencing frustration, a lack of productivity and deteriorating relationships reportedly due to the pressures of her job. She wanted to grow some other career options to plan for aging and retirement but felt unable to do so. The downward spiral had begun to affect her relationships on the job and the compounding pressures brought her to the EPMX practitioner.

After two sessions and a bit of coaching with self-management techniques, the woman was:

Able to manage her normal schedule effectively even though the schedule demands had not changed. In fact, the company expanded and the pressures increased.

She was able to stabilize her personal relationships and rebuild them.

She was able to be proactive in advancing her business plan to build her post retirement career options.

#### Case 5- LM Panic attacks

A woman on disability who was able to work part-time and trying to regain her health so she could work full time began experiencing panic attacks. They were severe enough that it jeopardized her part time job and further progress on the goal to regain full employment.

After 3 sessions, the panic attacks subsided. She was able to regain her part-time schedule and actively started to pursue her goal of full-time employment. Occasionally she has requested a tune-up session, but her progress has been consistent. Her budget has limited the sessions or she would be able to make faster progress.

#### Case 6- CA Severely Autistic 23 year old

This client (severely autistic with cerebral palsy) was given a session as a demonstration session to show her caregiver the EPMX. Following the session, during the next 24-48 hours, the caregiver noted that the young woman was able to do several things that she had not ever done before. She maintained those new behaviors and has built on them. This caregiver is extremely observant and documents progress carefully.

## Case 7 – Myocardic Infarction

As a practitioner, I see the benefits of the EPFX all the time. The changes are sometimes subtle and sometimes people don't want to acknowledge them, but they are there. The EPFX is my primary healthcare tool. I do have a primary care physician, but have not had healthcare for over 10 years and do not intend to get any. Each system has some benefits, but the pharmacological risk and the disease basis of allopathic medicine are too much for me.

About 10 months ago, I started to get readings indicating myocardio infarctions on the EPFX when I did sessions on myself. When another practitioner did sessions, they did not notice or observe such indications. An iridologist mentioned to me that I should pay some attention to my heart and I continued to work on all levels having to do with the heart.

One afternoon, I started feeling constriction in my chest. It was at an unusually strong level, not heartburn or attributable to anything else. I went to my device and did the test and myocardial infarction came up boldly on the main matrix. I started to balance my system and gradually over the course of ½ hour the symptoms subsided. During to process, I had an overwhelming feeling of sadness. I could not attribute the sadness to anything in particular, but had the sense it was an over-all systemic feeling which was then released. I continued to work on the fear, body balance, nutritional balance and most anything that came to mind. After the session, I relaxed and observed my body's response to the realignments The next day I consulted an intuitive who confirmed without my information about the preceding events that I had indeed had a pretty serious heart attack.

Since that time, I have not had any indications of a related weakness or vulnerability in the heart or pericardium. I continue to do regular EPFX sessions for myself and have sessions done on my behalf by other practitioners. I am so very thankful for this device and its tremendous contribution to my health and wellbeing as well as to those throughout the world that are wise enough to use it. Thank you Doctor Nelson for not only your pioneering work but also the tenacity to work to make this available to the population at large.

City Unknown

I am B.L., aged 53, suffering from acute eczema (Atopic Dermatitis) for more than four years. During the last four years, I had been suffering from torturous itchiness and rashes for most part of my body, especially my face, neck and both hands and other parts of my body. The itchiness was so bad that I suffered sleepless nights trying to scratch to stop the itchiness, so much so that the skin from my elbow became hardened. The dermatologist whom I went to told me that the eczema had turned into psoriasis!

I had seen so many doctors. They prescribed all kinds of medications, including steroids, but none of them helped to reduce the rashes and itchiness. Apart from the doctors and skin specialists, I also tried many other alternative methods. Some of them helped a bit, but none of them could cure my skin disease.

One fine day, my friend, who is also a client of an EPFX practitioner, she strongly recommended him to me. She told me that she knew of a number of eczema cases fixed by him. As I had exhausted all avenues of finding a cure to my skin disease, I had no other choice left, I came to visit him on the 23<sup>rd</sup> of Oct 2007. As I have tried all kinds of treatments available, he introduced me to Biofeedback. He told me that there should be no problem to 'de-stress my stressors', so that my body can heal itself!

I had my first Biofeedback 'de-stress' session with the EPFX on the 23<sup>rd</sup> of Oct, 2007. After the first session, I felt slightly better. On the second session, I agreed to take photos of me on the 26<sup>th</sup> of Oct, 2007. I went to see him twice a week with only Biofeedback sessions. The improvements were amazing. Photos were taken again after the eleventh session on the 7<sup>th</sup> of Dec, 2007. Since then, I went to see him once a week for other problems as well.

Photos taken on the 26<sup>th</sup> of Oct, 2007: The top six pictures.

Photos taken on the 7<sup>th</sup> of Dec., 2007: The bottom four pictures.

\*\*\*\*\*

Burlington, On

7<sup>th</sup>

Age 52 – numbness in left hand completely subsided after one session.

Age 30 – Grief after loss of infant daughter substantially improved after 2 sessions. “I feel like I’m back in my body.”

Age 1 - cough and cold symptoms cleared up after one session.

Age 1 – documented amblyopia improved after one session.

Age 60 – documented twitch in left eye and tremor in left hand substantially improved after one session.

Age 8 – “sour” breath eliminated after one session.

Age 30 – “Biofeedback is a proactive way of supporting my health. I feel wonderful.” After two sessions.

Age 61 – “I feel more connected to who I am” after one session.

Age 34 – suffered loss of infant. “I can breathe again.” After two sessions.

Age 61 – documented extreme pain in back and shoulders (as a result of job as hairdresser) completely eliminated after two sessions.

Age 31 – suffered loss of infant. “I am no longer afraid to leave the house” after one session.

Age – 3 months – quit screaming hysterically when touched, after one session.

Age 37 – Dramatically improved digestion after two sessions.

Age 28 – found courage to change jobs after three sessions.

Age 4 – severe documented amblyopia substantially improved after three sessions.

Age 19 – enrolled in college and ended relationship with abusive boyfriend after three sessions. Note: timed therapies improved her ability to learn so well that she earned a 3.0 her first semester.

Age 30 – suffered loss of infant “Please thank the person who created this EPFX. Tell him I love him” after one session.

Age 55 – “I’ve never done anything that has made such a difference in my health.” After three sessions.

Age 42 – “My lab results came in. My thyroid score is now perfect.” After one session.

Age 26 – “This was amazing. I stopped coughing” (after having a dry cough for 3 years) after one session.

Age 70 – extreme pain in back substantially improved after one session.

Age 30 – documented broken ribs stopped hurting after one session.

Age 47 – “Thank you. Thank you. I feel 15 years younger” after one session.

Age 56 – “ I can breathe through my nose again” (plugged sinus for 4 years) after one session.

Age 55 – lost 25 pounds after five sessions.

Age 26 – My headache is gone” after one session.

Age 43 – extreme pain in right hip (documented congenital displacement) substantially improved after three sessions.

Age 6 – eczema substantially improved after one session.

Age 83 – severe pain in both legs and middle of back completely healed after one session. Ringing in ear completely gone after four sessions.

Age 23 – migraine headache substantially improved after one session.

Age 46 – addiction to pot almost eliminated after one session.

Age 61 – extreme pain in right shoulder that could not be alleviated by a physician or chiropractor completely eliminated after one session.

Age 60 – fear of being in enclosed space completely eliminated after one session.

Age 67 – documented heart condition substantially improved after six sessions.

Age 71 – documented case of depression substantially improved after three sessions.

Age 48 – severe back pain substantially improved after one session. Eliminated after two sessions.

Age 67 – acupuncturist who could “feel” as the device worked on her acupuncture channels, “This device is a miracle. I feel wonderful” after one session.

Age 8 – documented severe eczema completely eliminated after five sessions.

Age 66 – documented Parkinson’s. tremors in hands that he’d had for eight years intermittently stopped after three sessions (client stopped sessions after his wife quit waiting on him)

Age 78 – documented dizziness and ringing in ears substantially improved after two sessions.

Age 54 – documented lupus in remission after four sessions.

Testimonial EFPX

Colorado, South Dakota, USA

“I am a 36 year old soccer player from Scotland and had knee surgery several years ago. It cost \$15,000.00. Last Spring I had one EFPX Biofeedback session which focused on the stress that I was experiencing from the pain in my knee (that the surgery did very little to help). Three days later both knees felt better than they had in many years. It cost \$150.00. Since that time I have referred my whole family, my girlfriend and her whole family and several teammates to my biofeedback therapist and they all have had wonderful results. Stress truly is the root of all disease.

David from Texas”

"Thursday, 17 January 2008

Patient: (name withheld for privacy reasons

Address: Casablanca, Morocco

Date of Birth: 28/08/1997

Gender: Female

First Consultation: 27/02/2003

Presenting Complaint: Respiratory dysfunction, Asthma related symptoms. Adenoidectomy performed at 18 months. Overweight.

Presently being treated with Seretide 500 (serre-tied) is a medicine which is used in asthma and chronic obstructive pulmonary disease.

QXCI was used for testing and therapy application: Programs used were NLP, Biofeedback, EEG, ECG to treat for stress related to anxiety fear and worry. Prescribed Psor 200 S/D and Thuja 200 1 X Week for 4 Weeks.

Second Consultation: 27/03/1003

There was a marked improvement immediately following the first consultation with some acute attacks controlled with homeopathic remedies and Seretide 250 (note reduction of dose).

Tested and treated with QXCI, Used therapy suggestions from QXCI. Prescribed Tub. 1M , 1X Week for 4 Weeks and Bell 30, as required for acute Asthma symptoms.

Recommended Homeopathic Remedy Kit for the home.

Third Consultation: 29/04/2003

Patient continues to improve, less frequency of Asthma attacks, using Homeopathic remedies and Seretide 125 (note reduction of dose) to control.

Tested and treated with QXCI. Prescribed Calc. 30, 1 X every other day for 2 Weeks. Natural Vit/Min supplement.

10/05/2003: Telephone consultation for acute attack Asthma/Cough

Prescribed Ant.-t 30, as required for acute

Fourth Consultation: 27/05/2003

Patient makes very good progress, after reduction of Seretide patient is now free of allopathics.

Test and treat with QXCI. Prescribed Calc. 100, 1 X for 5 days, Ant.-t 30 to hold for acute attack.

Fifth Consultation: 23/09/2003

Patient improved in all respects, weight is now normal for age and height. No allopathic drugs being used.

Preventive Treatment Plan: Using QXCI, Desensitization program for allergies and immune system improvement.”

“January 21, 2008

Patient: (name withheld for privacy reasons)

Address: Augsburg, Deutschland

Date of Birth: 22/01/1931

Gender: Female

First Consultation: 30/05/2007

Presenting Complaint: Overweight, post spinal operations trauma, fluid draining on legs from below knees, knee joint problems.

Main symptom patient wanted addressed was continuous profusion of fluid oozing from both legs below knees coming from pores (no wounds or scars).

Patient had this problem for months without conventional treatments able to address the condition (she was told to use bandages to soak up the fluid).

SCIO was used to test and treat: SCIO Suggested therapies used, main therapy NLP, Short Sarcodes, Patient Superconscious, Nutrition/Homeopathy.

Home prescription: Homeopathic remedy suggested by SCIO was send to patient.

Liquid ..... to be taken 3 X at 15 minutes interval.

Client was asked to contact three days after taking the remedy.

Second Consultation: 09/06/2007

Presenting Complaint: Other complications resulting from patient having endoscopy; bowel movement affected.

The main complaint, the oozing of fluid from both legs had stopped and has not returned after a single session on the SCIO

The patient is at present still under SCIO treatment for other symptoms.”

Case 1:

A 44 year old manager working a very strenuous busy job UPS with:

Bilateral Knee Pain:

Stress History: In September, 2000, working for UPS – “I was working on the belt, repetitively jumping down 3 feet and jumped one too many times and I could not stand.”

Diagnosis: Lateral meniscus tear.

Treatment: Arthroscopic surgery in October, 2000 to repair the tear and shave the patella and physical therapy for 3 months.

Post Surgery and PT: Not able to bend at the knees properly. Developed chronic pain in both knees. Worse in the winter months requiring Vicoden for pain management.

“I was a wiener, complaining all the time about my knee and my back pain. I could not go horseback riding or climb stairs or go bowling without severe pain. It also limited my gardening and my life considerably.” I was depressed, negative and often in a bad mood.

Biofeedback Session: One 1 ½ hour session

Post Q.B. Results: R.C. felt immediate pain relief and started doing squats as she left our clinic. She has been out of knee pain for over 2 months.

“I have been back to bowling and bocce ball. I walked 4 miles the other day without pain or swelling. In the past, if it wasn't a pill, it wasn't really medicine. I had a narrow mind to thinking outside the box

towards alternative health care. Now I tell everybody, you've got to understand, Q.B. will help you to do things you never did before. It will help you with problems you have forgotten, that will come out during the session. You are going to feel better. I feel more energetic, and can go bowling and do whatever I want. I also can handle stress way better and am able to calm other people down. Q.B. reduced my knee pain and my stress which powerfully changed my life. I am so glad I opened my mind and tried QB."

**Case 2: Initials: C. P.**

22-year-old female student who gets into an auto accident and while being examined they find a cancerous nodule on her thyroid.

**Stress History:** Started with no Symptoms

Auto accident – December 4, 2006- Injured neck. Put on Vicodin, Valium, Relpax for migraines, Compazine for nausea, Naproxen – Joint pain and a muscle relaxant. Tried Elavil – as migraine preventatives – made her sleep 22 hours a day. Started Effexor 2 days later, – had adverse reactions – Wake up with heart racing, chest tight, thought she was dying, muscle spasming, difficulty breathing swallowing, could not think straight. Was prescribed Allegra for allergies and sinus congestion – adverse reactions- constantly made nose run.

**Medical Diagnosis:** Thyroid Cancer – Diagnosed after injury in Dec 2006 – routine check up – found a nodule on thyroid.

Dec 26 2006 - Complete Thyroidectomy, Prescribed. Remeron – for nausea while going through radiation – adverse reaction of swelling and lethargic. Darvocet post thyroidectomy operation – gave me nightmares.

**Post Surgical Symptoms:** Tired, weak, nauseous, constant pain, muscle aches, could not think or concentrate, constipation, abdominal pain, hungry but could not eat, nausea, attention deficit, degenerated, very sickly, whole body hurt, total fatigue, migraines, muscle aches, joint aches, neck pain, general body weakness. Sleeping 18 hours a day.

**Biofeedback Sessions** – Six 1 ½ to 2 hour sessions from April 17<sup>th</sup> to July 17<sup>th</sup>.

April 17th, 2007, First Session

Taking– Valium, Relpax, Compazine, Naproxen, Allegra, and Levothroid

Symptoms: Sick of being in pain, had zero energy, depressed, pessimistic, unmotivated, apathetic, withdrawn, felt sick all the time and slept 14-16 hours a day. Not able to concentrate, difficulty driving, and could not go to work or school. Did Radioactive Iodine Treatment and spent one week in isolation after taking two pills of radioactive iodine I131.

July 17, 2007- last session.

Off all medications except Levothroid.

Feel great. A little tired. Still having some constipation with difficulty digesting proteins. I am much more active. No migraines in 3 weeks. Can focus better, still having problems with linguistic elements, word formation. Started taking Omega and Iron, multi vitamin and mineral, helping. Sleeping average 9 hours and have good energy throughout the day. Much less muscle and joint pain. Increased range of motion in neck and back areas. No longer depressed. She feels optimistic and motivated.

“Quantum Biofeedback lifted this black cloud out of my body comprised of pain, negative feelings, thoughts and sickness, illness and weakness. I’ve been much better at being able to stay in the present and try to focus on positively and healing and taking care of my body. The sessions have helped me overall to heal my body, bringing my taste back, helping me sleep, making me be more in touch with changing my activities and lifestyle, directing me on how to take care of myself so I can heal better. I’ve recommended it to just about everybody I know who is suffering from ailment that they have not been able to treat. Either if Allopathic medicine has not worked or they want a more holistic approach.”

Case 3:

Stress History: Middle aged woman struggling in a crisis trying to find happiness and her true self.

Symptoms: Depression, hopelessness, loneliness, lost, mental fog, easily brought to anger. GI stress.

She did a number of Q.B. sessions over a 6 month period.

“This is a fantastic healing process. It gets down to the core of what’s true for you. It is truly holistic involving the mind, body spirit and emotions. I found the emotional awareness from coming out of this process to be life changing because it clarifies what the truth is and where you are stuck. Then it goes to the next step and provides remedies for reducing stress from the energetic, physical, beliefs and feelings. The affirmations to address negative beliefs and feelings have been very helpful. Also the homeopathic and herbal remedies have been great for reducing physical blocks. I have also been able to resource ideas to address spiritual dilemmas. The whole process is a fascinating journey into the heart soul and spirit of your truth. The results are magical as I was on a downward negative spiral and this process turned that around by contemplating new ways to look at things. I realized that because of my family of origin neglected me and suppressed my core spirit and as a result, I developed unhealthy patterns. I am now engaged in rethinking my basic core beliefs and realizing the only limit to my freedom are these core beliefs that I bought into for 40 years. I am now in the process of peeling the onion and releasing them so I can actually be who I really am. I’ve tried everything hundreds of therapeutic modalities, religion, prayer and Quantum Biofeedback has reduced my stress and really brought me the clarity I needed to heal.”

“Here’s my story. I have a 10 year old son who was perfectly normal until he was vaccinated at age 4 ½. He changed radically and fundamentally. His diagnosis: Asperger’s Syndrome and ADHD. For the next several years he suffered in school and was taken to a slew of top doctors and specialists (including psychologists, psychiatrists, speech therapists, and occupational therapists). He was put on every form of Ritalin and a variety of other medications. Nothing helped; depression was added to his diagnosis

We were desperate parents willing to try anything and then heard about an alternative bio-feedback device (EPFX) that could help our son. After spending hundreds and thousands of dollars on prescriptive drugs and doctors, seeing the bio-feedback practitioner was a bargain. Within the first session we saw incredible results. After only eight months of therapy our son has been healed of ADHD and more significantly, of Asperger’s Syndrome. All this without one prescriptive drug. I give all the credit to EPFX.

My son is living proof that alternative therapies work and that people don’t need to be pumped up with prescriptive drugs to be healed. Shame on you for trying to dash hope from people who really could benefit from these therapies.

Sammamish, WA 98075”

“January 29<sup>th</sup>, 2008

I have been a client of the EPFX machine for the last fifteen years. I not only have benefited greatly in more ways than one, but my daughter has reaped the benefits a thousand times over. I adopted my daughter at birth only to find that she had crystal meth, marijuana and perhaps alcohol in utero. She seemed to be fine as a baby and the EPFX machine continued to cleanse and support her systems on a quarterly basis since she was born. Touches of gonorrhea, aids, cancer and many other signs showed up

on her screen as an infant. When she was two her eyes would not work together and she showed many signs of sensory integrations issues. She began day care and focusing, playing with other children became increasingly more obvious that her nervous system was very taxed from all of the chemicals during in the womb. Her teacher kept a close eye on her and knew her almost better than I (her mother) did, of her day to day basic interaction with other children. I continued to go to Bill for treatments and every time she returned to school she was a more focused, calmer, more stable child. Her teacher was amazed at the progress that my daughter was making. She was especially impressed by the clarity and awareness of my daughters play for many months after her treatment with the EPMX machine.

Today my daughter is five years old. Her eyes are much straighter and she is beginning kindergarten in a main stream public school. I attribute this miracle to the EPMX machine. I truly believe that without this machine my daughter would be in special education and have many more physical problems than she is having today.

Thank you so much.”

„My story is that I was diagnosed with Fibromyalgia & chronic Fatigue after a car accident in 1991. I took \$1500 worth of drugs a month, I could not function, I had horrible deep muscle pain, exhaustion that kept me from getting out of bed sometimes, and a severe depression that made me suicidal. I was under psychiatric care though I knew I was not crazy but I didn't know what to do. The drugs turned me into a zombie and I just wanted to die to be free from the pain and misery, the side effects sometimes were worse than the pain but I kept at it, hoping something would work....I was only 39 years old! I began to develop the inability to use my left hand and right foot. I could not recall common words and my mouth would not want to work properly to form words sometimes. My doctors advised me to purchase a wheelchair as I was developing signs of Multiple Sclerosis even though a brain CT showed no lesions and they told me there was nothing more they could do for me.

My medical doctors were giving up on me, I couldn't fathom it and I also couldn't accept it. An acquaintance of mine told me about the device and I drove 3 1/2 hours across my state to find the only practitioner around at that time. I had incredible results after the first session.

I was pain free for the first time in 10 years for two entire weeks. I was joyful, the depression had lifted, I began to sing again around the house and I wanted to go out and do things again. After a year of receiving sessions irregularly because of the distance, I decided I needed to have my own device in order to see if I could continue to help myself find a path to wellness that had been missing with this disease.

Now, 6 1/2 years later, I have had such incredible results with the device in my life and my family. I no longer have Fibromyalgia nor Chronic Fatigue nor Depression. I do seek proper medical care when the need arises but my MD and I have a great relationship where she knows that I am proactive in my approach to health and she allows me room to de-stress my body first before resorting to invasive procedures. If it does not help me to use the device in an agreed upon time period, I agree to undergo

her procedures. The only time I have had to do so is when my gallbladder ceased functioning and I had to have it removed surgically.

I have been able to get off all prescription medication with the exception of thyroid glandular and my health has never been better. I'm 54 years old now and I look and feel like I'm ten years younger.

One other thing occurred with me that you may include in your FDA letters if you see fit. I had been using the device for 5 1/2 years when suddenly my VARHOPE scores dropped, my P/E Ratio went from normal to 80/50 and I began seeing stress related to thyroid cancer. I went to my doctor and had a scan done and we discovered a large mass under my jaw as well as 2 thyroid nodules, one the size of a pencil eraser, the other the size of a pin head. I had a thermogram done of the masses and the temperature increase between the normal tissue and the nodules was significant and I was sent to an oncologist who confirmed thyroid cancer. His immediate reaction was that he needed to remove at least the right lobe, possibly both lobes. I refused. I told him I wanted to see what I could do with nutrition and supplementation along with biofeedback for stress reduction and he was adamant that I did not have time to spare "wasting" it on things that don't work. I insisted that he was not going to cut into me until I knew I had at least tried.

After approximately four months I went back and this time the biopsy showed no cancer cells and the nodules had begun to shrink. He said I had no more cancer. That was a year ago.

Oregon”

“A 51 year old woman, who at one point in her life had been an elite softball pitcher, and in fact, is in the Canadian & British Columbia Hall of fame 7 times, was diagnosed with rheumatoid arthritis when she was 40 years. Though she tried to continue to work in her profession as a counselor, the time came when she was so crippled & afflicted with pain that she couldn't continue. Because of some dishonesty in her work place, the benefits that she thought she was paying in to for disability, etc. were not being submitted, and she had absolutely no income, except for the welfare that was provided to her by the Canadian taxpayers.

The first time I went to her house, she needed a wheelchair to get around and was in complete crisis, shaking, fearful, and in obvious distress. Because of her financial situation, and the fact that she was a childhood friend, I offered to treat her for no charge.

I started treating her in February of 2005, using the protocols as I had been taught. We worked together usually twice a week. Her recovery was quite slow, but by July of that summer, she was out giving softball coaching clinics. Her health continued to improve, without even a setback when her sister (who refused my help) died of cancer in March of 2006. By the Fall of 2006, she had gone back to counseling part time, 3 days a week, and in the Spring of 2007, was once again able to hold down a full time position.

Needless to say, she couldn't be more grateful or enthusiastic in her praise for the wonders of the EPFX machine. Both she and I know without a doubt that it has saved her life.

Thank you once again for all that you put in to the development of the technology that is helping so many people.

February 18, 2008"

#### Testimonials

#1)

40 year old white woman. History of nasal polyps and allergies. In ER the night before. Distressed as a result of inability to comfortably breathe and emotional distress from repressing grief from having lost her husband to Lung Cancer the year before and now responsible to raise 7 year old adopted daughter. Diet consisted of candy and alcohol and minimal food, all hidden from even closest family members.

Rx: Steroidal spray, antibiotics, Armor Thyroid

EPFX revealed dehydration, Sugar Regulation risk, Inflammation, stress in Digestive System and stress in Sinus. Homotox – sinus showed stomach violation and fungus. Also, virus miasm. GABA and serotonin imbalance.

Bodyviewer revealed large square on upper right with final dense foci over forehead.

Immune sarcode – emotions highest at 124. During session, client cried – symptoms of nasal polyps and grief overlapping.

Drs.recommended surgery.

Client took suggestions to control diet, allow grieving and to hydrate.

Client called 4 days later to say she woke up morning after treatment feeling 75% better (a miracle by her account) and wanted to return sooner than scheduled appointment. She has come regularly for 3 years and uses spray infrequently, has learned to express her grief, avoided surgery and feels and looks “better than ever.” Best of all, avoided surgery.

2)

52 year old white woman. Depression, overweight, migraines, musculoskeletal pain, menopausal sx's – hotflashes, heart palpitations, multiple surgeries incl hysterectomy, breast reduction, and urethral blockage. Multiple car accidents. 3<sup>rd</sup> marriage, previous husbands abusive.

Rx: Cephalexin, Phentolamine.

EPFX revealed Homotoxic Stress in Pineal, Pituitary and Hypothalamus – multiple pathogens, link emotions, anxiety. NLP: self doubt, submissive and misunderstood. Multiple miasms: leprosy, syph and tetanus. Unc. Reactivity correlated with mother related trauma and sexual abuse in marriage.

Client left looking like a different person after long session (almost 3 hours.) She went home and changed her diet. Lost 25 pounds, did some extreme self care and altered her relationships. Depression lifted. She is starting a business and feels like a “new person.” All symptoms drastically reduced. 1<sup>st</sup>

I have osteoarthritis and high cholesterol and do not want to do the typical medications. Both of my knees have been replaced and I have had ankle surgery. For balance and flexibility I began doing T'ai Chi Chih four years ago. This is a slow moving practice which circulates and balances energy and promotes general well being and health. I am now a certified teacher. With my T'ai Chi Chih, the addition of the SCIO program, I am eating more and more organic foods and I am able to almost completely do without sugar. I was very addicted to sugar before our sessions. With these changes and very few supplements, I am feeling better than I have ever felt. I have a feeling of general healing from the inside out and feel connected to all things. Thank you, Louise for your direction and guidance for better health.

GM, Albuquerque, NM

Biofeedback/Bioresonance for Dyslexia and Learning

I have worked with students ranging in age from 7 through 16 years, the last 7 years using Sandra Dillon's Sounds in Syllables Multi-sensory Language therapy. In the past, I taught special education students in private and public schools, worked with students with behavior issues in day camps and tutored in reading clinics. In the past two years of using the EFPX/SCIO biofeedback/bioresonance programs with all my dyslexia students, I have noticed incredible shifts in each of them!

I have seen reading rates improve, anxiety reduced, confidence soar and attention spans improve. I have done therapy in conjunction with biofeedback and the biofeedback definitely enhances the therapy!

Comments from clients include:

"When I was treated for Dyslexia on the Biofeedback machine I felt confident with my reading. When I had allergy problems and I was congested my therapist would treat me and the next day I would feel much better."

A.F. 13 yrs.

There is one case in which I only did Biofeedback (no reading therapy) weekly for about a year to help a student get off of ADHD medication and improve learning. He was 9 years old when we began biofeedback. He was living in his own world, didn't communicate with his siblings much and had many processing issues. In one year he has moved from Montessori school to public school. He moved from isolation to sharing stories of school, friends and teaching me card games! I tested him using the Woodcock Johnson Reading test and he tested out close to grade level in phonological processing after one year of biofeedback and NO multisensory therapy yet! Wow! This has never happened before. (He should have tested much lower.) He has been tested to the hilt and Mom has stated, "He would not have tested that high if he had not had the biofeedback)" When I started reading therapy, a multisensory Orton-Gillingham based approach, he seemed to process better than students I had in the past. It was as if his brain was different. He caught on to the concepts more quickly and retained them better. Wow! The biofeedback really helped change his brain and processing ability. Amazing!

See his comment below.

"I am doing better in school since I have been having Biofeedback. I got a good grade on my spelling pre-test today. My Mom says that my language and conversational ability is better. I am more focused and my behavior is much better since having Biofeedback. I use to take medication for ADHD and I don't need it anymore. Thank you!"

## Testimonial

This is a testimonial of a middle aged woman with chronic fatigue who tried many therapies for ten plus years.

After her tailbone was set, she felt tingling in feet and surges of energy going up the spine. This was significant in getting the spinal fluid moving which affects everything. The next week she took a trip and danced at a wedding till the wee hours of the morning! No chronic fatigue Here!

After 6 - 2 hour EFPX-SCIO sessions about 3-5 weeks apart and energetic work in the energy field and resetting the tailbone, this is what NH said:

"I am handling things better. Something has shifted internally in me and I see it expressed in my life. It is like moving blocks in my life. The real true complete version of me is starting to come out. I walk around in grace, saying thank you. So much of my life has been miserable and I feel so happy. My partner is changing and taking responsibility for his health. It feels like stuff is finally falling in line. I feel stronger and more confident.

I am speaking up and asserting myself and it feels so good. I wouldn't have done that before." Thank you, Thank you

NH Albuquerque

A woman came to me with sleep apnea and a host of problems including anxiety and digestion issues. She had been in the hospital and on medications that made her sick. After one biofeedback session she was feeling much better. After 6 sessions she was off the sleep apnea machine and beginning to live life again. With the support of the EFPX-SCIO , some supplements and some energy work she was healthy enough to pack up and move to another state. She sold her house, bought a EFPX-SCIO and is beginning her own wonderful journey of helping others heal their issues! Yes!

DB Albuquerque

To Whom It May Concern:

My personal experience on the EPMX is all I have to offer. I hope this helps.

I am a female and when I was 16 I was at the Doctor for one of my first yearly check- up and Pap Smear. I received a call about a week later to come back, and they did another. It turned out I had extreme dysplasia or a pre-cancerous condition caused by human papilloma virus. I was very young, just barley sexually active and was going in for a biopsy. The biopsy found cancer starting to form on my cervix and the Doctor was scheduling me for surgery. I said I wanted to try something else first, and being a very open minded MD, she told me that she would love it if I could find another way. I worked with the EPMX (QX version) on a regular basis and used homeopathy along with lifestyle changes (Diet). After 2 months there was no sign of any abnormal cells. I am 32 years old today and still have %100 healthy Paps. I have had many more, smaller health crisis change for the positive over the years by working with the EPMX. I cant even remember them all but I do know that the only time I have had to see an MD since I was 16 is for broken bones, cuts and car accidents. The EPMX is my first choice for my healthcare. It is my right to use whatever system I wish with regards to my body. Freedom is an inherent God given right!!!!

By the way, I have records somewhere that prove the truth to my testimony.

Thank you.

“I had a couple SCIO sessions a few years ago. The second one was actually done while a hurricane was coming in to my town, and we lost power for an extended time afterward, so I had to stay elsewhere. When I returned there were many issues to deal with, so I put my notes away and forgot about them. A year or so later, while in Mexico getting cancer treatments for my boyfriend, the doctors discovered that I had a large ovarian cyst. Fortunately one of the doctors treated me and the cyst was completely gone in 5 weeks, without any surgery. Then when back home I was going through old files and papers, and found the prior SCIO notes. Sure enough, all that time before, the SCIO had indicated that I had stressors for Ovarian Cyst!! If I had followed the indications for lifestyle change, it may have never become an issue, but I had forgotten because of stress.

Now I have my own machine and have found fascinating results from running it on myself. I am attending training classes to get certified and begin using it to help other people.

Thank you for developing this advanced technology, which incorporate the teachings of so many of my former mentors. Keep up the great work and hang tough!"

"I had been experiencing extreme stress and panic attacks for about a month. I asked a friend if she knew a good hypnotherapist. She said no, but she went someone who did biofeedback, and she said the results to be nothing short of amazing. She referred me to Brenda. During my very first session, I felt peaceful within the hour. During my second session I mentioned to Brenda that I had been having violent nightmares for about 2 months... ever since I moved into a new house. I had cleaned the bedroom thoroughly, saged it, and prayed for peace and protection, but the bad dreams continued. I hated that house and I wanted to move out... It just *felt* wrong. When I returned home from my session, I felt differently about the house. Suddenly it felt like any other house. No bad feelings! I couldn't believe the difference! That night I slept peacefully for the first time, and I have continued to sleep peacefully each night since. I don't know how it works, but it sure does work! Quickly and easily. Thank you!

Land O Lakes, FL

EPFX/SCIO machine is an effective diagnostic tool that accurately identifies and balances the issues I have. After having a session, I feel a sense of well-being, am calmer, I sleep better and feel deep relaxation. I am always amazed at how many things the EPFX/SCIO is correcting at the same time and on my physical, emotional and spiritual bodies. I see the Quantum Biofeedback EPFX/SCIO as essential complementary medical support.

Land O'Lakes, FL

I have received several treatments on the Biofeedback SCIO device. The results have been beyond my expectations. I have received 100% relief on the specific areas I went to address, as well as with ailments of which I may have not been aware. I trust completely that due to my therapist's knowledge and expertise of this miraculous state-of-the-art modality completely adds to my confidence in the whole experience. The responsibility that my therapist projects in terms of her commitment to help maintain my well being, both physically and emotionally, is highly respected by me and my loved ones. Whether

using the Quantum Biofeedback EPFX/SCIO device for preventive measures or actual ailments, I have 100% faith that I will attain perfect results.

Land O' Lakes, FL

"This device is to help with stress management and pain management. I have personally found that it is phenomenal to help with chronic back pain. I am a weekly member of our chiropractor and this machine has reduced the pain, allows me to breathe better, and increase spinal flexibility all with the spinal sarcodes. I am in consistent awe when I go on this machine and am working hard to get the word out for more clientele for their benefit of this wonderful device."

"In November 07 I started working with a client. I have attached information he was given in November and in February 08 when he was retested. During that time frame he received weekly biofeedback sessions from me, took medication and changed his diet.

| Item              | Normal Range | Nov 07   | Feb 08 |
|-------------------|--------------|--|--------|
| Triglycerides     | > 250        | 908  | 218    |
| Total Cholesterol | > 200        | 229  | 175    |
| LDL – bad         | 60-130       | Undetermined due to extremely high triglycerides | 96     |
| HDL – good        | < 40         | 33   | 35     |
| Liver – AFTA      | 10-42        | 32   | 18     |
| Liver – ALTI      | 10-40        | 63   | 24     |

"Story #1

I did about 5 EPFX sessions for a friend of mine. She has been diagnosed as being “legally blind” since childhood. She had been working with her eye doctor in weekly sessions for about 2 years doing eye exercises etc and making some improvement. Then, she asked me for a session. We decided to work on the eye stress and strain. Each time after a session, she would go for her weekly eye doctor appointment --he would be thrilled with her success-- her improvement was suddenly dramatic, her doctor verified this and told her to continue what she was doing with me. So, we did-- each time with the same great results as confirmed by her eye doctor. After a few months, she was able to get contact lenses. She and her doctor attribute much of this to the fact that she was getting the EPFX sessions.

### Story #2

Another story I would like to relate is with a friend of mine who is a nurse. She was working for a large hospital at that time and was head of her department. She developed neuropathy. She was well respected and cared for at the hospital. She knew everyone and they knew her! She had access to all of their best doctors and none had been able to help her.

I was in graduate school at the time and had just gotten my device. One of my fellow graduate students was a nurse at this same hospital as my soon to be client. My friend asked me to come to the hospital and do a demo for her boss, the woman with neuropathy. I did. The session lasted about 1.5 hours.

My new client was so relaxed when she got up she couldn't believe it.... her job at the hospital was very stressful. So, when she got off that table she was pleasantly shocked to discover that her neuropathy symptoms were greatly reduced ---by about 75% according to her calculations. She asked if I would come back and do another session the following week and I agreed to this second “demo.” After the second session she reported that 100% of her symptoms of neuropathy were gone. She gave the credit to the EPFX and gave me a big hug and many thanks. She continues to thank me to this day.”

“Patient: Female

Age 56

Buffalo NY

Came to me Jan. of 07, main concern was weight loss and nutritional guidance. During initial intake I found that her immune system and gastro-intestinal system was compromised, she had leaky gut and candida, none of which was clinically diagnosed. The following is her testimony.

Over a year ago, I was overweight, weak, exhausted, and given to sickness the majority of the time. Typically, it would take me well over a week to recover from numerous bouts of flus, colds, or sinus infections.

My life coach designed a health renewal plan for me that included suggestions for diet, exercise and the use of nutritional supplements. However, my health renewal plan also included something I had not tried before: Quantum Energy therapy. This therapy has given me that extra boost over a *wall* that was keeping me from improving my health and having the vitality to enjoy life.

Over the past year, Quantum Energy treatments have increased my overall energy, feeling of well being, and given me more restful nights of sleep. My immune system is much stronger now, and I do not become ill as often. If I do become sick, I recover more easily and quickly. Recently, after a rib injury, I received two Quantum Energy therapies. These therapies greatly alleviated the excruciating pain I was experiencing. As a result, I was able to continue with my regular activities without much discomfort. Overall, Quantum Energy therapy has made a remarkable difference in my quality of health.

Someone might ask, "How often do you need a Quantum Energy therapy to feel better?" I actually felt better after my first therapy. I then continued with monthly therapy for about six months. Currently, I schedule a therapy every two - three months.

Today, I am a stronger, slimmer, and healthier person. I highly recommend Quantum Energy therapy to support your overall.

Female: Age 24

Came to me in June of 07 with a severe case of yeast infection that had been plaguing her for over 20 years. Clinically diagnosed and every conventional treatment exhausted she arrived in my office in desperation. I found heavy levels of Candida, a compromised gastro-intestinal system with nothing being done to correct this. She had already followed complete elimination diets and went completely vegetarian in the hopes of controlling this to no avail. The following is her testimony.

J.R.

Buffalo, NY

06/15/07

I have suffered from chronic yeast infections for over 20 years. I have tried everything traditional medicine has recommended and found only minor reductions in symptoms, but have never stopped the discharge associated with this.

What I found amazing is that immediately after the first treatment of the Quantum Biofeedback program, the usual discharge stopped. For me this was truly a breakthrough and when combining this therapy and the specific nutritional recommendations Mr. Middleton gave me I have remained symptom free ever since.

Thank you so much, my life has changed because of this and I am so grateful.

Sincerely,

J.R.

“Male: Age 49

Approximately 9 years ago I had a severe injury to my left arm and both rotator cuffs. I was showing my son how to perform a back layout on the gymnastic rings and just as I had achieved the full layout position my left Bicep completely separated from the ligament attaching it to the radius.

At the same time this occurred, both rotator cuffs folded in and ripped. The Bicep Brachia was surgically re-attached however there was very little that could be done for the rotator cuffs aside from Physio which I did myself with great results. The only problem was chronic shoulder pain at night which interrupted my sleep dramatically as no matter which side I laid on, within 2 minutes I would be throbbing in pain.

I tried several NSAID's with little or no relief and had resigned myself to the fact that this is what I could expect for the rest of my life. Enter my introduction to the SCIO/EPFX. I had bought it with very little training or understanding of how it worked or what it could fully do, but I understood the fundamental aspects of its operation.

As my wife and I were working with it we became a little more familiar but still had no real understanding of its capability or true use of it. One night I had gone to bed and she was working on it from the living room on me as I slept and for the first time in 5 years, at that point, I had a full nights sleep with no pain. This was the pivotal point for me and spurred me into getting certified.

Since then my strength and training capabilities have improved dramatically and I still get solid nights of sound deep sleep without pain. As a practitioner I have witnessed some amazing results from using this device and wish it would be an accepted medical device for analysis and therapy use.”

“Female: Age 34

This patient came to me in Sept. of 2007 presenting with a clinical diagnoses of Depression and Anxiety. She had been on 4 different medications over the last 6 years, finding only one of them giving her any relief and even that was not a lot.

She finally went off medications over 2 years ago and has been dealing the best she can with this since then, losing a lot of work time due to her flare ups. She came to me for help and over 2 months we cleaned up her diet, I had performed 6 therapies with the EPM and added specific neuro-transmitter supplementation and have gotten her to a point of no flare ups for the past 3 months.

Buffalo, NY

In September of last year I came for help with a chronic issue of depression and anxiety. I have exhausted every option available to me through the usual medical practices and all of the drug protocols they have put me on.

Although I had some relief from this with medication, I came to the conclusion that I did not want to continue taking them as the potential side effects would outweigh any good they may be doing me now.

When starting with the EPM program I was skeptical and a little scared as I had no idea how this was going to work, but I prayed extensively for help and left myself in Mr. Middleton’s hands. What I found truly amazing, to me that is, is that after the very first session I began to feel a greater level of peace and ease within me. After about the 3<sup>rd</sup> session I found myself in awe that I had no recurring bouts of anxiety or depression in over 2 weeks, which for me is a miracle as I would deal with them on a daily basis.

By the time we finished the program over a 2 month time frame I had only one flare up and even it was minor in comparison to what I have dealt with over the last 10 years with this issue. I have not been in for over 3 months now and I have had no flare ups and am finally at a point of once again getting know the real me after hiding for so many years.

I am truly grateful to the EPM program for all the help and insight into what was occurring inside me so that I could understand how to make subtle changes for a better, healthier, happier me. Thank you and God Bless.

Williamsville, NY”

“Finding help – Finding friends

The pain started over four years ago. I was informed that I have Arthroporosis of the spine and knees. I got Physiatherapy and pain pills, nothing helped against the pain and blocks in mine spine and knees. I had two scopes on the right knee.

The doctors told me that in the near future I would need a knee replacement. Between my ribs on the right side a nerve was blocked and the pain, travelling to the front, was sometimes so bad that I could not breathe.

Another doctor told me, I had gallstones. So I was send to the University-Hospital for X-Rays. They found out that it was Arthroporosis (Degeneration of the bones). They told me, they cannot do anything for me but giving pain blocks. Also at the National Hospital they could not do anything.

They prescribed Radiofrequency-Therapy.(Burning off the nerves). They burnt three of my nerves of the lower back.

At that time I weighed 124 kg and needed to walk all the time with crutches.

By the end of the last year I was at the Anglican Church introduce to a couple of two Therapists. I was told that they can help people with conditions like me. They work at "Healthy Habits" with the computer Program called SCIO.

At their office I got a therapy and the result was, that I do need neither crutches nor painkillers. And meanwhile my weight was going down to 92 kg.

I am not only free of pain, but can do so much more. I can walk and lift my arms higher than my head. I can run my daily chores and I feel so much younger and more active. My knees are strong again.

There is a friend of mine, I will name her Vera. She could only walk with a stick and had a lot of pain. Six weeks ago I drove my friends there and they worked on her at a friend's house. Directly after the Session she walked home pain free and in a good mood, holding the walking stick in both of her hands above her head with a happy smile on her face. Her walking is still strong, and no pain anymore."

"I am a 58-year-old woman who has been treated for chronic daily (cluster) migraines for 23 years and chronic allergies (environmental) and sinusitis for most of my life. In addition, for the past year, I've been treated for chronic neck pain as a result of a shoulder surgery I underwent in 1/11/07. In November of 2007, I was diagnosed with sleep apnea.

I had been living on a host of medications, prescribed by a neurologist, a sleep disorder specialist (also an neurologist), an ear, nose and throat specialist, a psychiatrist and a surgeon.

In mid-December 2207 I began having new severe symptoms including loss of sleep and appetite, weight loss, confusion, and hyper-manic and obesessive-compulsive behaviors. On Jan. 20, 2008 my neurologist advised me to immediately cease taking the calcium channel-blocker she had prescribed a month

before. At the same time, I made the decision to go off all the medications I was taking, including all pain meds, sleeping pills, and nasal steroids. This catapulted me into drug withdrawal and a severe state of detoxing.

On Jan 29 I was treated by a practitioner with the QXCI biofeedback machine. I subsequently had 3 more treatments. As of today, I am pain-free, exercising regularly and eating normally. I am taking no medications at all except bio-identical hormones. I am comfortable in my body for the first time in memory.”

*““Since other therapies were not working, I tried out Healthy Waves. I am amazed about what the device picked up regarding my body’s needs. It not only detected but cleared the ringing in my ears. It reduced my fibromyalgia stiffness and aching. Most importantly, it greatly reduced my SCIATIC NERVE pain!”*  
*Around 50 years of age, female, relief after about 4 sessions. Pain return following year and relief after another 4 sessions.*

*“I suffer from osteoarthritis and a severely deformed thumb joint. Since my initial session I am now pain free in that joint and can grasp things and wring cloths out like “normal” people.”* 64 years of age, female, relief after initial session on Nov 19/07 and symptoms not returned as of Feb 19/08.

*Age 39, female, goiter/hypothyroid/mucous swelling in throat. Mucous and swelling and lump disappeared after initial session on Nov 19/07 and still good as of Feb 19/08.*

*Age 50, male, Sciatica. Pain reduced after initial session on April 10/07 and gone after second session on April 17/07. He was also doing Chiropractic adjustments in conjunction.*

Age 68, male, Lichen Planus, Back Pain, Sleep Apnea. Client since Feb 2/06 with frequent sessions in beginning and now monthly for past year. Skin is “ebbs and flows” but seems to be improving as reported on Jan 3/08. He claims his back is much better. He claims he can feel his toes again and feels warmth in them again. He claimed on Jan 31/08 that his feet never get cold anymore, that he feels 4 inches higher when skiing, and that he can feel muscles in his hip again. On Nov 16/07 he claimed that his lower back is the best it has ever been in 45 years. He claims that his sinuses have improved as well. He thinks his sleep apnea might be improving as well.

Age 62, female, pain down front of leg and eyes water. Pain relief down front of leg immediately after each session and lasts from 1-3 months. Watering eyes stop immediately and lasts for about 1-3 months. Client since 2005. Working on these issues since May 25/06 every month or two. She has arthritic fingers and claims that they feel better after each session too.

*Age 35, female, autism. Initial was Oct 31/06. After this session she slept well, was more relaxed, content, quiet. She was very calm during the session and just relaxed. She rocked back and forth a bit and rubbed her hands gently during the session. The guardian was quite amazed at how relaxed she was and how she was able to sit there for 1.5 hours without putting up a fuss. She had further sessions on*

*Nov 9/06, Nov 16/06 and Nov 29/06. The guardian noticed that she was starting to go the bathroom on her own and change her clothes on her own.*

*Age 38, male, stressed, smoking addiction, anxiety. Initial was May 16/06, where he noticed reduced anxiety and stress afterwards. After his second session on May 23/06 he noticed his smoking addiction had been reduced. He returned on March 13/07 to assist with "house moving" stress and anxiety and noticed that he could rationalize and think in a more clear manner without anxiety and fear and stress.*

*Age 74, female, leg pain. Had four weekly sessions starting March 20/06 and noticed leg pain improved, gut not totally gone. Did other sessions afterwards periodically with ups and downs in health.*

*Age 46, female, arthritis. Had weekly sessions starting March 9/06 until April 24/06, then every other week until July 4/06. She has reported that her fingers are better and pain is less after the first 4 sessions.*

*"After suffering for a few months of pain, my right elbow is now pain free in care of two sessions at Healthy Waves." Age 50-60, female, reported the above after sessions on Oct 3/05 and Oct 12/05.*

*Age 49, female, smoking and sweet addiction, headaches, tennis elbow. Sweet addiction reduced after initial session on Feb 8/06. Smoking addiction reduced after initial session as well. She reported feeling sick when she went too smoke.*

*Age 60, female, asthma and allergies and headaches. After initial session Dec 20/07 she was breathing deeper, getting more sleep, dizzy/nausea and weepy following session, and yoghurt not settling either. She was waking up in mornings without headaches, but they came back during the day. After second session on Dec 24/07 she noticed she was able to take bigger breaths, but still got some headaches. She also noticed floaters the following day and disappeared within the following week. She still wasn't getting her usual AM headaches.*

*Age 31, female, high blood pressure and stroke in 2000, fatigue, head/back/body pain. She had initial session Apr 14/06, and further sessions Apr 21/06, May 6/06. After the first two sessions she noticed lower blood pressure. She reported feeling no pain and increased energy for 1.5 weeks after each session.*

*Age 46, male, digestive issues, tight neck, lack of concentration/ focus/ forgetful. After initial session on Nov 28/06 he reported on Dec 4/06 that he no longer had digestion issues, neck felt better, but tightness returning, and that his concentration was good until Dec 3/06 when he noticed that he was struggling to read again. Didn't hear back to see how he is now doing.*

*Age 43, female, loosing vision in right eye with facial paralysis, diabetes, shoulder and hip pain, anxiety with winter driving from accident. Initial appointment was Oct 23/06. On Oct 30/06, during her second appointment, she reported that she was calmer, craving less, sleeping better, hip and shoulder were a bit better, and arm was better. She had another appointment Nov 7/06 and reported that for 3 days after her last appointment she had no pain and lots of energy.*

*Age 65, female, fatigue in eyes, endocrine, fibromyalgia/CFS, bones/ inflammation, digestive issues. Initial session on Apr 10/07. On following appointment, Apr 16/07, she reported that her lower back was more flexible. On Apr 20/07 she reported that it is easier to get up in mornings and energy didn't drop until 3-4pm now.*

*Age 35, male, anxiety, depression in AM, fear of death, sadness, worry, loses voice, worried about not enough quality time with children. Had initial session on July 6/08 and second appointment July 13/06. As of July 26<sup>th</sup> his wife reported that her husband was feeling much better, bought a camper to spend more time with kids, is working more and mornings are no longer an issue. She reported that he is feeling SOO much better!.*

*"This device correctly detected my lumbar injury, dental concerns, and numerous other minor issues. I can vouch for the accuracy of those detected issues. It had an almost immediate effect on the sciatic pain level. Over the next 8 or so hours, it was greatly alleviated by an estimated 85%. The reduction of pain was measurable, almost immediate, and impressive." Age about 45, male, reported this about 11 days after his initial session on March 15/07.*

Age 64, female, SI joint, blood sugar, thyroid, cough, bronchial allergy issues. Had initial session Nov 10/06 and further sessions on Nov 17/06, Nov 23/06, Nov 30/06, and Dec 11/06. She noticed improvement in her SI joint after the initial session and reported total pain relief in her SI joint after all these sessions.

Age 69, female, knee and hip pain and shoulder issues. Initial session on April 29/05 and reported to be able to lift arm when she left and shoulder was better after one session. She reported her knees were better as well after that session.

Age 40, male, TMJ, lower back pain, stress with tachycardia, allergies, throat closes in when eating. Client since 2005. He notices improvements either immediately or within 3 days of each session. His jaw locked after one session and hasn't bothered him since. His back is much better with occasional pain, which he finds biofeedback better than chiropractor for his lower back and gets relief within 3 days of each treatment. He finds it very relaxing and reducing his stress and heart beat. After using the allergy desensitization stress reduction program he found he could swallow much better for about 3 weeks.

Age 35, female, headaches, endocrine disorder, thyroid disorder. Client since 2005. Noticed headache relief with distance treatment by the end of each sessions. It accurately detects hormonal stress indicators. When hormones balanced naturally with herbs and natural hormone creams, no hormone imbalances reacted on the Sport Program. Whereas, previously it showed almost every hormone reacting and needing balanced. It accurately reacts to her thyroid and related blood sugar and syndrome X type issues routinely.

Age about 70, male, headaches, rash, sinus congestion. One session on July 6/05 and reported no headache after, rash cleared, and sinuses cleared. Saw reactivity to feathers and strawberries on Allergy program. Client agreed after session that these are triggers for his symptoms.

Age 44, male, stress, lack of sleep, mild sleep apnea, body tension, pain in joints – right knee especially, pain in left testicle. Initial session was Aug 31/06 and second session was Sept 7/06. On Sept 25/06, after two sessions, he reported that his knees felt better, had better energy but still waking up at night. On Oct 17/06, after three sessions, he reported that he still wakes up at 3:30-4:30 but can now get back to sleep. He had another session October 31/06. On Nov 22/06, after 5 sessions, he reported that his leg was good, sleeping okay, feeling like he slept deeper than usual, and prostate not bothering him.

Age 47, male, headaches, weight, blood pressure, neck tightness, stress. He had two sessions. His first session was June 2/06. He reported on July 7<sup>th</sup> that he noticed less headaches and neck pain gone.

*“I was so excited to see the improvement in my recent blood tests. BIOFEEDBACK has made a significant difference in my overall health and well being. I recommend this treatment as an adjunct to everyone’s current health care practice. I credit improvements noted during my dental check ups to Biofeedback as well. Thank you Dionne for introducing me to this amazing device.”* Age 61, female, started sessions on Sept 19/05 with weekly sessions until Oct 25/05. Then she did every other week until April 25/06.

*Age around 50, female, mysterious skin condition from hands to elbow that looks like worms under skin that hurts when hit, her mom had it too, appears in mid 30’s. Not inflamed. After initial session on Feb 24/07, it disappeared until almost Oct 20/07.*

*Age 77, female, eye sight, fullness in ears/sinuses, allergies, ears, indigestion. Her initial session was May 17/07. A week after this session, on May 24/07, she reported that her sinus drained but ear acts up now and again. On May 31/07, she reported after that after her last session she noticed her sinus drained again and ear was less problematic. On June 19/07, her hearing had been good and better since last session until June 19/07. She said it felt like it popped. On July 12/07 she reported that it has been her best summer yet with head being clearer, no heaviness, and sinuses better. She noticed ear popping and fullness as if volume turned up shortly after session. On July 31/07 she reported sneezing and digestion still a slight issue. On Oct 2/07 she reported that sinus and head fullness was good. On Nov 1/07 she still reported that her sinuses were better this year and indigestion a bit less. On Dec 7/07, her ears popped and drained after last session, but digestion not great yet. On Jan 10/07, she reported that she has less headaches.*

*Age around 75, female, fatigue, depressed, painful feet and legs/polymyalgia rheumatica, bowel issues. Less pain, more energy, bowels much better, ot walking after 1 session on Apr. 25/05.*

*Age 62, female, left shoulder supraspinatus tendon with tear, right knee baker’s cyst posteromedial popliteal fascia. Looking at surgery for shoulder and knee at first session on April 25/06. After three sessions, on July 4/06 she reported that shoulder was better. She wanted to focus on her knee after that. After 4 more sessions, July 25- Sept 27/06, she reported on Oct 18/06 that her knee felt better and shoulder better. December 13<sup>th</sup>, she reported that her shoulder was still good. On Mar 28<sup>th</sup> she reported that her left knee and varicose vein was bothering her. She reported on her next appointment on May 2/07 that her varicose vein was better. She had further sessios on May 10/07, May 16/07, and June 19/07. On Sept 13/07 she reported that her left knee was better.*

*Age 66, female. Allergies, rash on hands, fatigue, left hip and sciatic nerve pain, weight, left knee cracking and pain, toes numb and feel like tripping, hypothyroid (partially removed), stress. Client since Dec 16/05. She indicated that her cravings were reduced after a couple sessions. Rash on hands is reported to be better in late 2007 while on reduced carbohydrate diet and working on Insulin Resistance and Syndrome X with her homeopath. On Nov 23/06 she reported mental clarity being better. She always reports immediately after each session (almost monthly) that she is able to lift her left leg up easier onto her right knee for tying her shoes. She has reported that her toes have not been as numb after some sessions too.*

*Age 75, female, leg pain inside both legs, right hip pain into abdomen issues, scoliosis, and left shoulder. Client since July 28/06. On Aug 9/06 she reported that she had less swelling in her ankle since her initial session. After 5 sessions, she reported on Sept 29<sup>th</sup> that her right leg pain was better for 3 weeks after her last session. After 2 more sessions, she reported on Oct 31/06 that she was able to do more stairs, but still achy inside her legs. After 2 more sessions, she reported on Dec 11/06 that she still reported that she can go up stairs better.*

*"I always felt energized after my biofeedback sessions, especially the first 24 hours. My Chronic Fatigue - like symptoms of joint pain, swollen glands, brain fog, fatigue, and digestive upset always decreased in severity. Dionne is a true professional who likes to help people." Age 63, female.*

*Age 60, female, nerve deficiencies in both legs (left worse) from car accident. She has had several sessions without huge improvement, but at one point she reported that she was able to walk better with more stability and further.*

*Age 32, female, lower back pain with sciatica, stress, blood pressure. Initial Oct 5/07. On Oct 11/07, she reported that she had diarrhea after initial appointment and bowels now looser and better. On Oct 18/07 she reported that she was still achy and swelling in lower back. On Nov 7/07 she reported that her finger swelling was down, her back was really good after doing wood, after walking. On Dec 5/07 she said her lower back still has less pain, but more between her shoulder blades. Her fingers were still swelling some. On Jan 8/07 she reported that her back was good until Dec 24<sup>th</sup>, which she blames her chiropractic appointment on Dec 22<sup>nd</sup> for that recurrence of pain. She still gets lots of swelling in fingers. She reported her elbows are not popping out as much. Her eyes are still watery though.*

*Age 64, male, arthritis in left shoulder. He had an appointment on March 7/06. He reported on December 2007 that he could lift arm better and shoulder better, but some pain further down arm now.*

*Age 62, female, neck/shoulder tightness/pain, back/hip pain and bit down leg, blood pressure, sleep apnea. Initial Oct 4/07. After 2 weekly sessions, she reported on Oct 18/07 that her neck released but only lasted a week. On Oct 25<sup>th</sup>, she reported her neck was good, but only lasted a week again. On Nov 1/07 she reported her neck was better. On Nov 22/07 she commented that her neck was good but flared up after recent swim. She said her hip was good at this point. She could notice her neck stress release during her sessions.*

Age 57, male, ulcerative colitis, arthritis, asthma. Initial session Nov 5/07. After two weekly sessions, on Dec 3/07 he reported that colon pain was not as sharp. After two more sessions, on Dec 21/07 he reported that he had no pain for 3 days after last session, then pain and swelling back but with no fever. After the session on Dec 21/07, he reported on Jan 2/08 that he had pain for 3 days after his last session, but felt much better for a longer time. He was starting to look better. On Feb 1/08 he reported that he was feeling better still. Wondered if sending frequency of platinum helped, or the brain scan program #22, or using reactivity of IgA with DNA program. Improvements seen more after doing these programs.

Age around 50, female, sciatica. Pain reduced but not gone after one session August 10/05.

“This device profoundly helped my insomnia with one session. That night I fell asleep as soon as my head hit the pillow and have been sleeping well ever since.” Age 35, male, Client since 2005. Did one session by distance and reported that he slept well that night and thereafter or a few months. swelling/hives/fever episode. He had an episode of swelling (organs, head, whole body) and bumps/hives that only prednisone was mildly controlling. After one session, he reported that he returned to normal shortly after.

Age 43, female, toothache. She reported that her tooth pain disappeared for only 4 hours after her session before it returned.

Age 50, female, migraines, low back pain. Migraines improved after 7 sessions. Her lower back pain improved immediately/ during each session, but only lasted a week or two. She reported that her liver spots faded and her finger nails growing better.

Age 45, male, Irritable Bowel Syndrome, stress/anger. Digestion disturbances and anger tendencies much better after two sessions. He was taking nutritional supplements from his chiropractor as well. His chiropractor noted improvement in the stenosis area of his cervical spine.

Age 44, female. Osteoporosis, menopause 3 years ago, gastrointestinal issues, pain in lower back with odd sciatic to foot., T8 and L5 narrowing, headaches – neck. After 3 sessions between Feb 16-Mar 9/07, she reported on March 16/07 that her neck and headaches were okay and that her back was good, but a bit of gastritis still.

Age 27, female, infected sweat glands in arm pits and groin for past 3 years. Initial session was July 19/06. After two weekly sessions, she reported on Aug 3/06 40% less swelling and pain. After 2 more sessions, on Aug 16/06, she reported 70% improvement.

Age 11, male, asthma. Improvement seen with asthma after 2 sessions.

“I’ve had 5 sessions of Quantum Biofeedback and love them. The sessions have reduced the mucous and pressure around my throat, caused by my goiter. I can now swallow without the fear of choking. Thank you.” Age 58, female.

Age 44, female. Severe left shoulder/neck/arm pain and muscle pain. She sees improvement overall after each session, but pain returns after a 1.5 weeks. Still when the pain returns, she reports that it is not as bad as it was before biofeedback. She has had 11 sessions since August 31/07.

“Under the recommendation of my Personal Trainer, I contacted Dionne for an initial assessment and found that it helped my fatigue immensely after only two sessions. Currently, while working on my lower back pain, I have seen great improvement after another couple of sessions.” *Age 47, male*

Age 64, female, diabetes with pin and needles pain in hands and feet, lower back/hip pain and legs stiff at night. Lower back pain, leg stiffness, and needle feeling in feet and hands improved after first session.

Age 61, female, chronic head and neck pain from motorcycle accident in 1994, sciatic pain. Client since March 10/06 for mostly weekly appointments. She notices head and neck pain release during/after sessions, but it doesn't always last. She sometimes reports that she wonders if her chiropractor makes her feel worse. She notices improvement in her sciatic pain after her sessions for 1-4 weeks, but has flare ups now and again.

Age 37, male. Crushed discs in lower back, knee caps loose, pop out, crackling in last 5 years. After two sessions (July 31/06 and Aug 14/06) he reported on Oct 23/06 that his lower back was good and still good as of early Feb 2008.

Age 47, female, chron's since 15 years of age, sigmoid muscles weak in upper colon with pain, mass near rectum. Initial session Nov 6/07. After two session, she reported on Nov 19/07 that she is still bleeding some, still has some discomfort, but no longer constipated. On Nov 30/07 she reported that she is not as constipated, has no pain anymore, stools are bigger, more gas, but still a little bleeding. On Dec 10/07 she reported that she has no pain anymore, still bleeding from mass, still no constipation. On Jan 3/08 she reported no constipation, no pain, bleeding stopped before Christmas, but still a little bit. On Jan 11/08, she reported that she still has gas, no pain, no constipation, bled a bit more, tired. On Feb 4/08 she reported less bleeding, no pain, little bit of cramping that might have been MSG, no bleeding in Mexico on her holiday. On Feb 18/08 she reported less bleeding, a little pain, still tired, and still no constipation.

Age 58, female, high blood pressure, allergy, water retention. The following day after her session she reported that she had lots of energy, felt great, had no bloating, and her eye redness was gone, and allergies improved.

Age 47, female. Blood pressure, TMJ, anxiety, endometriosis. Client since 2005. She noted TMJ improved after one session. She reported her anxiety was less after 3 sessions. She feels she needs sessions every 5 weeks or so to keep feeling good.

Age 44, female. Stress and anger, depression, menopause with insomnia. After first session she noticed less anger and stress. After her third session, she noticed her phobia was reduced and could handle encounters with spiders better.

Age 47, female. Sciatic/lower 4&5 lumbar discs, cancer. After first session, Dec 5/06, she noticed that her kidney and bladder improved and wasn't up at night. After two sessions, she reported on Dec 19/06 that she had less pain. After three sessions, she reported on Dec 27/06 that she was able to take less pain medication. Her 6 sessions were completed in January 8/07. She reported in February 2008 that this was the only therapy where she saw improvement in her health, would like to come back for more therapy but doesn't have the money right now due to cancer fighting hyperbaric chamber oxygen treatments.

"I first went to Dionne because my stress level was so high I would wake up crying. After a few sessions, my stress and adrenals were feeling much better - I could function without getting so worked-up. Now every once and awhile when I feel overwhelmed (like before Christmas, etc.), I go for a "tune-up" and can get through the holidays with no problems at all. I've also sent many clients and family to her - it's good to tackle problems from all angles - not just nutrition. Thanks Dionne *age 31, female*.

Owen Sound, Ontario"

“This letter is written in response to the unlimited stress reducing potential of the device call the EPMX. I purchased the device to maintain a holistic approach to the health of my entire family. I have found that the gentle frequency should never be taken for granted. It does provide the people I work with a sense of wellbeing and assist their body through stress reduction in making shifts toward improved health. Emotions are the foundation of all illness and can be managed by a few sessions with the EPMX only if the subject is ready to change. The education I have been provided from Quantum Alliance has allowed me to have confidence in working with people with any level of stress. Quantum has a built in education to help people appreciate the advanced technology they have at their finger tips, safety precautions , methods of training subjects and all of the how to use the device.

One case I would like to share is a recent session with a subject, while working in a bookstore. He was experiencing congestion, copious mucus from his nose and running eyes. After a brief encounter, we discussed his discomfort. In a 30 minute session of de-stressing his respiratory system including sinus, lungs and using the Chinese six external pathogens wind, damp, dry , heat, cold and phlegm, he reported the next day that he was feeling so much better. That evening after the session he began to cough up so much mucus which cleared his head and stopped his headache. The next day he was feeling stronger, his head was lighter and no mucus.

The second case I would like to share: A woman came to me after a lecture about stress and how it can affect every organ in the body. She indicated that she really wanted a session. She came to the session after having her first drink of wine for the day around 11:00am. She never mentioned that she was an excessive drinker or addicted to cigarettes. Using the approach given by some of the Masters I was able to help her decrease her drinking to casual drinking of about ½ a glass of wine and no more smoking. The NLP panel was used for addictions, organs were distressed and more than that her limiting emotions were identified by her and coaching around the cause of addiction was provided. She was able to have presented to her various ages of experiences which affected her and some stressors she had not begun to even talk about. She had such a traumatic experience of loss of her mother and shortly after her grandfather, who she was responsible for preparing the funeral arrangements and eulogized them together. She described how those events changed her life and at that time experienced depression , almost to despair and hopelessness, which led her to seek mental health, but she was still tearful about that time in her life. After a few sessions she was able to talk about those situations without tears and stated she felt stronger and less paralyzed by those situations.

I have practiced as a therapist for over 20 years and have found nothing in those years to equal the connection of a practitioner to a device that reduced stress like the EPMX. Having it has changed my life and enabled me to guide my family through stressful experiences and lessened and eliminated stress In their lives to the present. I believe that every family needs this technology in their homes or know a qualified practitioner who will help train them and their bodies access new ways of handling stress and taking back their power to maintain a healthy life.

Thank You, Dr. William Nelson for your dedication to the Healing of Humankind.

USA”

“I am a Certified Biofeedback Specialist. In February of 2006 I had an opportunity to experience the EPFX. My session lasted about 2 hrs. I had no idea what to expect. I had talked to my Doctor and my kids Pediatrician I know enough to know that this could not hurt me or my children. I am 34 yrs old (female) not at the time of my 1<sup>st</sup> session I was 32. I have struggled with the diagnosis of Learning Disabled most of my life. If you are like me and could not read a book and understand it know matter how hard you try and people say try harder... There was not harder for me I spent my life learning how to coop. So after my 1<sup>st</sup> session I noticed many changes I could made dissections faster. My skin was less sensitive. And most of all my reading improved within the week. I could now understand what I was reading as well as read almost as fast as my mother who had to read to me all my life. The 3 months before my 1<sup>st</sup> session with the EPFX my Dr. had me on 2 different RX for some type of walking nomonia (flu). If it did not get better within the next week on its own my Dr would have needed to put me on a steroid and she did not want to do that if we did not have to. That same night all of the congestion in my chest broke up and I felt GREAT!

Thanks for your time,

Ocala, FL

(I had a form of Dyslexia all of my life Sorry for the spelling.. please call me if you have any question 352-817-1495)

My son now 9 yrs old at the time of his 1<sup>st</sup> session he was 7. 1 - 2hrs session.. School testing, Dr., both labeled him ADD. Eye Dr. said that his eyes were not able to follow without moving his head and also his pupils would not diolate (shrink in the light).. By the next day his eyes were diolating. I noticed that the balancing issue he had was correcting itself. To watch my son stand up and ride a skateboard down a hill was awesome. He also had a lot of bumps on his skin that his Dr could not say for sure what they were. It looked like hundreds of bug bits. With 1 week of his 1<sup>st</sup> session his skin cleared up too. Over the past 2 year my son has had many sessions and his new Dr can not understand the old diagnosis of ADD she see no signs of that. The school has recognized his improvements and at ever quarterly meeting they want to know what RX my son is on. I am happy to report none. All who have watched this transformation have been amazed.

Female age 20

1 session

4 year with pain from Fibro mialiga

The day after her 1<sup>st</sup> 2hrs session her pain from the fibro was gone.

Also after 3 more session I found out she had wanted to end her life. She feels that with the EPFX she would have done just that. This young person has done wonderful things over the last 2yrs and the pain has not come back..

Female age 52. Back pain

1 session she said her back pain was gone.

She also felt a better overall sense of well being.

Female age 71

Diagnosed with Leukemia. She had spent 6 months going trough Chemo. Before, during and after she had weekly sessions. After 1 yr her Leukemia was in full remission. She say that the EPFX helped her the most with her depressions. After each session she would notice different changes. Like the pain in the leg that lightened and even went away after a few weeks.

Female age 63

Sleeping issues

After 1 session she was sleeping batter at night.

Male age 45

Addition to alcohol. He drank 12 or more beers per day.

1 2-1/2 hrs session 2 weeks later 1 more and he had been almost 2 week without a drink. This man also had sleeping issues after 4 sessions he was able to sleep more hrs per night then he had in years.

Female age 20

Deep Depression

3 sessions and she felt happier. The the need to hurt herself was gone.”

“June 25, 2007

I was in constant pain due to a shoulder injury. A doctor suggested it might be Arthritis. After trying several ineffective treatments, he sent me to a Chiropractor who told me that I would have to keep coming back to therapy until I was cured. That helped only for a short while. I was exhausted from trying to live with this dull pain in my shoulder.

I also lived with a sinus problem which became chronic at certain times of the year.

Then my therapist introduced me to EPMX / SCIO. I was amazed at the amount of information it disclosed about my body. There were things that I did not tell, yet they came up in the reports. I also received an enormous amount of information which gave me knowledge to take care of my body's needs.

During the first treatment I felt a strange sensation in my sinus area, as if it was opening up, and I was able to breathe easier. The following morning I felt a sense of energy and well being. During this same session, my therapist also worked on my shoulder pain and that is now non-existent.

To me, the most important part of this treatment is that it is so gentle on my system. There are no drugs to take, so I did not have to worry about side effects.

I highly recommend this system to anyone looking for a treatment for their ailments.

Orange County, CA”

“3 October 2007

After traveling for about 36 hours, and being on a plane for almost 15 hours, I was exhausted, my body was dehydrated, and I was uncomfortably constipated. For a couple days I tried all the usual home remedies - to no avail.

When my therapist explained some of the wonders of the Quantum machine, I readily admit that I was skeptical at best, but figured it was worth a try. So I decided to “experiment”.

I was pleasantly surprised at the extraordinary results! Mari worked on deficiencies and imbalances, and within 12 hours of my Quantum session, I was improved and my bowels “normalized”.

I highly recommend a Quantum session for travelers in similar situations.

-Anonymous World Traveler”

“19 July 2007

Two months ago during a routine blood test I tested positive for Hepatitis B. Immediately I decided to be proactive and scheduled a second blood test which confirmed the initial one.

I scheduled several sessions on the Quantum machine and decided to increase drinking XanGo mangosteen juice to about 1/4 to 1/2 bottle a day. In addition, Mari referred me to a Chinese herbalist who administered acupuncture and sent me home with herbs to use daily.

After using the Quantum machine I felt more energy and more positive about overcoming the Hepatitis virus.

I just received the results of a follow-up blood test and there is no evidence of any Hepatitis in my system. The doctor was amazed.

I know that my regime was responsible for ridding my system of this virus and I will continue scheduling regular sessions on the Quantum machine, drinking XanGo, and using the Chinese herbs daily.

Our bodies know how to heal themselves if we just give them the right material to work with.

-Anonymous, Orange County, CA”

“September 27, 2007

Dear Friends:

I can't believe what has just happened. I have been in the worst emotional health place in a long time. My intestines and stomach have been a mess.

I have had a friend work on me before with this (Quantum) machine and never have I had such a turn-around as when my therapist worked on me with her Quantum Machine.

This session cleared parasites, my emotions, my whole body, and mental and spiritual bodies. I had major bacteria and needed lots of depression treatment. It even balanced my hormones.

It uses electrical protocols, accesses, and then treats. It works on 10 different levels at the same time.

I think you can experience more of the difference when you are at the bottom.

I had an 86% improvement in just my first treatment! WOW WOW WOW!!!

This is so advanced and really works!

The best money I have ever spent.

Orange County, CA “

EPFX Testimonials

Winnipeg, Manitoba

### Hormonal Balancing

One of my most exciting cases occurred about 2 years ago when I worked with a client who was having great difficulty with peri-menopausal hormonal issues, in particular depression. She had seen her doctor who recommended anti-depressants and hormone replacement, which she refused.

During her third session, she experienced a profound reaction to the frequencies, causing the buttock area and the back of her legs to becoming extremely hot. This soon passed. Since this time, three years ago, she continues to experience complete relief from these depression symptoms.

### Emphysema

I have just begun working with a 40 year-old woman who has been diagnosed with emphysema and aspergillus fungus in the lungs. After our first session, I was able to see that she actually did not have aspergillus, but rather a variety of other funguses (candidas) affecting her. We worked on these, as well as general strengthening of her body and improvement of energy flow.

An x-ray she had about two weeks after our session, showed a significant decrease in size of lung lesions. Her doctor was astounded.

### Recovery from Traumatic Childhood Abuse

I did some long-term work (over a two year period) with a woman who had experienced traumatic child sexual abuse at an extremely young age (1-1/2 years). She is now in her late 40s and has been undergoing psychological counseling for many years.

She feels that the biofeedback sessions she has received (about 30) have been much more beneficial than all her years of counseling. I notice a great change in her demeanor, she is much more confident and far less fearful. She had been off work for several years because of mental health issues related to her abuse experience. Recently she purchased her own EPPX device, and is starting a practice!

### Recovery from Old Emotional Trauma

Last summer, when traveling in Slovakia, I did a single session on an elderly woman who was experiencing a great loss of vitality, basically feeling worn out. She had not received any specific diagnosis from her physician, however her vitality was at such a low level, that she appeared to be literally dragging her self around.

While doing our session, I discovered that she had lost a child in infancy some 50 years earlier. During the session she had a pronounced reaction, she began to sweat profusely, and then feel nauseated. This lasted for about 10 minutes, then it passed. After the session she immediately had a very large bowel movement, and when she emerged from the bathroom she looked like a different person.

She has maintained this feeling of vitality for the past 8 months, and has gone on to seek the services of a homeopathic doctor, and work at improving her diet and lifestyle.

### Chronic Lower Back Pain

About 2 years ago, I began doing sessions with an elderly woman, who for the last many years (10-15) had experienced a feeling of heaviness in her lower back so severe that she was unable to stand for any length of time. After our first session she reported that the feeling of heaviness had left and it has not returned to this day.

### Chronic Fatigue Syndrome

I did several sessions with a middle-aged man who was battling with a severe case of chronic fatigue syndrome. After a few sessions we were able to see that much of his problem was due to bad dental work and a multitude of un resolved emotional issues. He is still dealing with many of his symptoms, but his overall demeanor is much improved, as I see he has been relieved from much of the chronic anxiety that he dealt with, and his condition is slowly improving.

### Mental Health/Outlook

I have done about 7 or 8 sessions with a woman who was so filled with anger and resentment that it dominated her outlook completely. Over the course of our sessions together she has made such dramatic strides in this area, that it can only be described as a personality change.

### Ovarian Cancer

About two years ago I did some work with a woman who had invasive ovarian cancer. Along with her biofeedback sessions, she worked to improve her diet and used FAR (infrared) therapy to improve her condition. Three months after I first saw her she returned to her doctor, because there was a surgery scheduled. She asked that another MRI be done before the surgery, but it was refused. When the surgeon "opened her up" he found that the cancer had completely dissolved.

"Case 1 – 57 year old multiply handicapped women

An advocate for a multiply handicapped 57-year-old woman states:

Up until she was rescued from her family of origin at age 16, this woman was abused in every possible manner, including put down a well the way some people drown excess cats.

Her medical diagnosis was/is Ushers Syndrome which is characterized by macular degeneration and profound deafness. This is compounded by developmental delay. Her IQ was determined 6 years ago to be 86. She was told as a child that she would never learn to read and could not see the words much less read a combination of words. The medical community dismissed her and she was on maintenance care only.

Her health as she experienced it 9 years ago was:

Frequent severe headaches/migraines that caused her to black out.

Severe muscular cramping and muscle tension

Lack of good sleep due to nightmares and muscle pain

Inconsistent body temperatures ranging from very cold to night sweats

Frequent injuries due to falling, tripping and bumping into things

Almost no socialization due to social barriers, even though she worked full time

Initially we used a restorative optometrist to help open her vision field (1/4 inch in diameter at the beginning). This was followed by a physical therapist using the original osteopathic palpation method, which helped alleviate many symptoms and increased function. Approximately 5 years ago, the PT reached an impasse that he was not able to move through.

At that time the EPM was used for one session. Resonant Frequency Pattern was found to be over 2,400,000. In that one session the practitioner was able to balance and rectify the client causing the barrier to therapy to be resolved. Two years later, the osteopathic practitioner moved and an EPM became the primary modality for this client. She continues to exhibit visible and observable progress and requests sessions based on her awareness of her body functionality. Currently the EPM therapy is being supported by nonforce chiropractic. Annual and as needed (primarily to resolve problems caused by constant use of hearing aids) medical visits are maintained and her primary care physician's comments are congratulatory with instructions to continue.

Changes observed by the client and others:

Headache free for 3+years

No fistulas in the macula as confirmed by the optometrist. Only rare use of glasses.

Improved field of vision and significant reduction in accidents and falls

Improved speech which enhances better socialization and supports a tremendously improved quality of life

Muscular symptoms are easily ameliorated when and if they arise

Good sleep – a dramatic reduction of nightmares and an increased sense of safety

Able to interact with members of family of origin without fear and with healthy, appropriate boundaries set by the client

Improved attendance at work with additional tasks learned, assigned, and successfully performed

Reading improved currently at a 2-grade level.

Vocabulary constantly improving

Active learning and conceptual understanding increasing paced by the client

Social development progressing

More self-managing and independent

#### Case 2 – 1 month old Baby E

Baby E was brought to an EPMX practitioner with “baby acne”, slightly mucous eyes, fussy and a constant desire to nurse. The practitioner did a one-half hour session during which the baby slept soundly.

The next day the mother called the practitioner and reported amazement that the acne had cleared up, eyes were bright, shiny and clear and Baby E was back on her 4 hour nursing schedule. The baby continued to be healthy and experience normal development.

#### Case 3 – Nasal Polyp

A client called to cancel her appointment due to a sinus infection that was so severe that she could not drive. When asked if she wanted the session to be conducted long-distance, she readily agreed. The session was conducted.

The next day the client called and said she felt much better. In fact, she had had a normal urge to blow her nose. Upon doing so, she expelled a polyp the size of her little finger. The client has reported improved health, particularly in the sinuses since that time.

#### Case 4- DF improved productivity

A resort dining room supervisor was experiencing frustration, a lack of productivity and deteriorating relationships reportedly due to the pressures of her job. She wanted to grow some other career options to plan for aging and retirement but felt unable to do so. The downward spiral had begun to affect her relationships on the job and the compounding pressures brought her to the EPMX practitioner.

After two sessions and a bit of coaching with self-management techniques, the woman was:

Able to manage her normal schedule effectively even though the schedule demands had not changed. In fact, the company expanded and the pressures increased.

She was able to stabilize her personal relationships and rebuild them.

She was able to be proactive in advancing her business plan to build her post retirement career options.

#### Case 5- LM Panic attacks

A woman on disability who was able to work part-time and trying to regain her health so she could work full time began experiencing panic attacks. They were severe enough that it jeopardized her part time job and further progress on the goal to regain full employment.

After 3 sessions, the panic attacks subsided. She was able to regain her part-time schedule and actively started to pursue her goal of full-time employment. Occasionally she has requested a tune-up session, but her progress has been consistent. Her budget has limited the sessions or she would be able to make faster progress.

#### Case 6- CA Severely Autistic 23 year old

This client (severely autistic with cerebral palsy) was given a session as a demonstration session to show her caregiver the EPMX. Following the session, during the next 24-48 hours, the

caregiver noted that the young woman was able to do several things that she had not ever done before. She maintained those new behaviors and has built on them. This caregiver is extremely observant and documents progress carefully.

#### Case 7- PS Cancer

This 63-year-old woman was diagnosed with leukemia at age 23 with a prognosis of death in 6 months. Throughout her life she had repeatedly been diagnosed with various kinds of cancer, had many types of radiation and chemotherapy. At the onset of the EPTX sessions, she had recently been moved to an assisted living facility with an inoperable back tumor, suspected abdominal tumors, and a variety of other physical symptoms including residual effects from a stroke, diabetes, obesity, and depression. She denied the use of any additional chemotherapy or radiation. The prognosis was not good and she started having a series of TIAs (mini strokes).

At the onset of her EPTX therapy, we worked on the depression as well as balancing her basic body functions. She got some relief from the depression and started actively participating in the sessions and doing mental self-management between sessions.

The TIA's continued and the practitioner would check on her by phone. Hearing slurred speech was a good indicator of another TIA and a short session to balance the brain function corrected the speech generally within an hour or two.

After basic stabilization, work was done on the cancer miasm. This was indicated by the fact that the client's mother had died of cancer when the client was 15. After the miasm stabilized, the client made better progress in regaining function and balance.

She still has significant physical issues and is more self-managing and balanced. Her quality of life has improved significantly and she is an active participant in the social life of the facility and is now able to even travel outside of the facility.

#### Case 8 – Myocardio Infarction

As a practitioner, I see the benefits of the EPFX all the time. The changes are sometimes subtle and sometimes people don't want to acknowledge them, but they are there. The EPFX is my primary healthcare tool. I do have a primary care physician, but have not had healthcare for over 10 years and do not intend to get any. Each system has some benefits, but the pharmacological risk and the disease basis of allopathic medicine are too much for me.

About 10 months ago, I started to get readings indicating myocardio infarctions on the EPFX when I did sessions on myself. When another practitioner did sessions, they did not notice or observe such indications. An iridologist mentioned to me that I should pay some attention to my heart and I continued to work on all levels having to do with the heart.

One afternoon, I started feeling constriction in my chest. It was at an unusually strong level, not heartburn or attributable to anything else. I went to my device and did the test and myocardial infarction came up boldly on the main matrix. I started to balance my system and gradually over the course of ½ hour the symptoms subsided. During to process, I had an overwhelming feeling of sadness. I could not attribute the sadness to anything in particular, but had the sense it was an over-all systemic feeling which was then released. I continued to work on the fear, body balance, nutritional balance and most anything that came to mind. After the session, I relaxed and observed my body's response to the realignments The next day I consulted an intuitive who confirmed without my information about the preceding events that I had indeed had a pretty serious heart attack.

Since that time, I have not had any indications of a related weakness or vulnerability in the heart or pericardium. I continue to do regular EPFX sessions for myself and have sessions done on my behalf by other practitioners. I am so very thankful for this device and its tremendous contribution to my health and wellbeing as well as to those throughout the world that are wise enough to use it. Thank you Doctor Nelson for not only your pioneering work but also the tenacity to work to make this available to the population at large.

To Whom It May Concern;

I am 69 yrs. old. In August of 2007 I started getting pains in my upper arms, from my elbows to my armpits whenever I would exert myself to climb stairs. At first that was the only time I got the pains, then they would come when I wasn't doing anything. My doctor thought the pains were because I

wasn't metabolizing my food properly. My friend had a bio feedback machine so I went to her and she helped me with the pains. Then I started having shortness of breath. The machine helped with the pain but it would come back again. While all this was happening my friend phoned me and asked if I could go to Cardston with her. She told her me daughter was coming to visit her other daughters home in Cardston. She thought that they could try a new protocol on me if I came so of course I went. Her daughter put me right on the machine as soon as I got there. I was on for quite a while and when I finished I felt much better than I had for a long time. I could breath normally and had no more pain at all. I had started having pains in the middle of my chest on the way to Cardston that day and I was having a hard time breathing by time we got there. I was feeling so much better after the treatment with the bio feedback machine that I felt I would probably skip my appointment with the specialist the next day, but my daughter wouldn't let me. The specialist found after numerous tests that I'd had a heart attack but that it had had somehow stopped in the middle of it, which is something he'd never seen before and couldn't explain. I did require an angiogram which thanks to the bio feedback machine I was alive to experience that delightful process. I feel I owe my life to my friend and the bio feedback machine. I am buying one for myself and my family.

City unknown

To whom it may concern

last week March 11 2008 I had a client who has been diagnosed with Tourettes syndrome.. In my opinion this was not the case, This man was obviously stressed about something.I ran the sleep and relaxation bioresonance frequencies of the EPFX for twenty minutes and ran a bioresonant nerval pulse to deal with the rapid eye movement and the tic on one side of the face. This man called in to see me today Saturday five days later to thank me for my help as all his symptoms have gone. All this client noded was some relaxation to solve his problem and in this case it worked perfectly in one session

City unknown

To whom it may concern

On Tues last week March 10 2008 I saw a client who could not sleep very well and suffered severe pain in the lungs when laying on the side at night and this of course brought about the bad sleeping habits. I ran the Sleep and relaxation bioresonance for this patient for 30 minutes and also ran bioresonant EPFX therapy to relax and ease the lungs.

This client is now sleeping well and all pain in the lungs has gone This demonstrates how stress relief using bioresonant therapy helps restore homeostasis and allow the body to take over and heal itself

City unknown

One year ago I was introduced to the EPPX Biofeedback Device. At that time I had severe Meniere's Disease that would put me out of commission for days at a time. I was having them two or three times a month.

I purchased one of these wonderful devices and began using it on my family and myself. I have not had any sign of Meniere's for the last nine months. I can't say Thank You enough to professor Nelson for making this awesome knowledge available for us.

City unknown

Gender: Female

Age: 77

Length of time seeing practitioner: about 6 months

Symptoms and/or disease(s):

What they experienced and any healing that may have occurred: My client, after the death of her husband of 50 years was distraught and in a state of great stress, mourning and sadness. Over the course of about 5 sessions there was a marked improvement in her mood and preoccupation with the loss of her husband. She also found that she had a greater ability to interact on a daily basis with people and activities in her life. She continues to progress positively in processing her grief with her willingness and the assistance of Quantum Biofeedback sessions.

Lehigh Valley, PA

Gender: Female

Age: 51

Length of time seeing practitioner: 1 month

Symptoms and/or disease(s):

Stressed out about losing her pet dog and a friend who took great advantage of her and her home. Extremely depressed.

What they experienced and any healing that may have occurred:

She experienced calmness and could not believe how much energy she had after 2 sessions.

Lehigh Valley, PA

Gender: Female

Age: 30s

Length of time seeing practitioner: 1 visit

Symptoms and/or disease(s): Asthma

What they experienced and any healing that may have occurred:

Client did not have any asthma attacks (though she had exposures that would have put her in the hospital) for more than 5 months after therapy with Quantum Biofeedback.

Lehigh Valley, PA

It is with joy that I'd like to share what I experience  
with the QX/SCIO.

I have been working with this wonderful tool for 2,5 years now. I am a homeopath and I felt for 3 years ago I wanted to have something more than just my remedies.

Suddenly I found myself buying the SCIO sent as a gift from heaven. The first year I just made some analysis and didn't really understand how it all worked.

Second year things started to happen. Clients reported about healing processes that made me surprised.

A newspaper asked if they could write about me and some clients. They did, and suddenly people called from many places and said that they always had been looking for a machine like this, that measured so many things in an energetic level. I was surprised myself of what happened with some of the clients, but had to believe it was true.

Things like, " could sleep all night, which I hadn't been able to for 20 years",

"could after one treatment suddenly walk on my leg that I hadn't been able to after a not well done operation ".

"a muscle in my back that had been in atrophy started to work again"

"felt a feeling of happiness that I haven't felt for a very long time "

"the machine told me to take a homeopathic remedy for my heart and after some weeks intake I could walk several kilometers without being tired, which I hadn't been able to for 20 years without being completely exhausted after 500 meters" and several other cases.

The machine is amazing.

The other day a mother called and told me her daughter didn't have to do the planned operation on cervix. All the bad cell degenerations were gone after taking remedies made from SCIO.

Thanks a lot !

City Unknown, Sweden

I would like to relay to you my personal testimonial with my grand-daughter, (who I will call Miss J), who is now 4 " years old. Little one has been suffering for the past few years with respiratory problems. Her pediatrician called her issues "Irritated Airwaves". She was too young to have it called asthma but her doctors had prescribed a regular dosage of "Singulaire" even at the age of 3. Anytime she had a cold it would end up as a respiratory Bronchial issue with coughing and she would be put on a breathing apparatus (Nebulizer) with Pulmacort to keep open the bronchial passages. She would be on this regimen every 4 hours round the clock until her condition got better. She would recover and be better for a few weeks until she got sick again the following month and the same regime would start over.

She also had been given a blood test for allergies about a year ago and it showed close to a hundred allergies. Her mother and I were at a loss as to how to deal with so many issues and worried about the effects of long term use of the Pulmacort on her liver.

In Sept. of 2006 I experienced my first Quantum Biofeedback Demo which showed many issues that I was dealing with. I soon realized that this new Stress reduction technology might also be good for my grand-daughter. So in January of 2007 she had her first Biofeedback session. It showed so many allergies that the Chiropractor that was treating her said that she would work on her Digestion issues first and relieve the stress in that area; when the digestion got better the allergies might clear up.

She continued weekly sessions over the next few months, then bi-weekly sessions for a few more months, and then monthly maintenance sessions after that. From the first session in Jan. of 2007 until now, March of 2008, she has not needed to be on the Nebulizer at all!!!! Her health has continued to improve and her allergies have cleared up tremendously. It's still hard to believe that in December of 2006 she was still on the monthly Nebulizer treatments and after January 2007 she didn't need them.

She continues to be Nebulizer free – which is over a year now.

I can't imagine what her life would have been like if she would have had to continue on the same path she was on. This wonderful device has been like a miracle and continues to help improve not only my own health but that of my whole family. I feel truly blessed.

City Unknown

I have 5 children and all have been tested and have had drastic results because of the treatments and information provided to treat their issues. Most of my children have had a virus that resulted in multiple warts all over their body. After treatment and nutrition they all have been relieved of the warts. I am completely happy and look forward to raising my family healthy and happily.

City Unknown

I am a fairly new EPMF member. I think it's the most remarkable tool given to us, the public. It has helped my husband and myself so much. He cracked a hip a year ago and at first it was thought to be a hip replacement-only to discover it was only cracked. A real blessing. The recovery went well and he is walking without a cane. He is 83 years old.

I have a heart condition and a back that gives me trouble. With the help' of the EPMF I am able to keep us both going.

Anchorage,Alaska

Female, 59, diagnosed by M.D. as having fibromyalgia. Lived in constant pain and could barely walk. Had not been able to bend over for years.

Started bi-weekly EPMF/SCIO treatments November 2007. After 2<sup>nd</sup> treatment reported her pain level had gone from 9 to 2. After 4<sup>th</sup> treatment reported pain-free, only some pain when the weather changes. She can now reach her own feet to put on her socks and shoes and clip her own toenails! (which is a big deal to her) Her outlook on life has changed 180 degrees!

Norman, Oklahoma

#### Case # 1 (My own case)

I am 76 years old. I am born as a farmer's daughter and my love were always plants and animals. In the run of my life I had several professions, between them I was an agricultural scientist at the Technical University of Berlin/Germany. I was also some years a personal manager in a big Food Chain in Germany

#### Case # 1 Fibrosis

An African lady, 44 years old. She came with the Diagnosis Fibrosis, and asked, if I can help her to avoid the operation, this was scheduled for Tuesday in two weeks. This was Friday.

First and second session SOC 101 I worked with her, and found a lot more "weak spots" that needed to be assisted.

I rescheduled her after the first session for 2 week later and she came. The next Monday she went to the Hospital for the last tests before the operation.

They could not find any reasons for an operation and she happily went home.

#### Case # 2 Stroke

In March last year I was called to come to the home of a women, who had a stroke and her whole right side was paralyzed. Her Sister had come from Australia to take care of her. The Sister was very demanding and dominant and was telling her a lot, what she can do, to become quickly better.

During the session I got the feeling, that the client had already given up and did not want to work towards healing and recovery. Although I did my best (with my own experience in the background) I could not encourage her to believe in her healing and recovery. After a few days I was asked again to come to her home. She was slightly better, but I still had the feeling, she had given up and she did the exercises, she was told to do, only half heartedly.

"This Soul needs peace!" When the sister called me, I told her this and I talked with her for a long time and she understood. We agreed, that she will not anymore hold her back with prayers, but will let her go.

This was one of the cases, when I had to spend more time in counseling the family members than only working with the client.

#### Case #3 and # 4 (One of our clients tells the story herself)

This was an Article in the local Newspaper of Ladybrand/South Africa

"Finding help – Finding friends"

The pain started over four years ago. I was informed that I have osteoporosis of the spine and knees. I got Physiotherapy and pain pills, nothing helped against the pain and blocks in mine spine and knees. I had two scopes on the right knee. The doctors told me that in the near future I would need a knee replacement. Between my ribs on the right side a nerve was blocked and the pain, traveling to the front, was sometimes so bad that I could not breathe.

Another doctor told me, I had gallstones. So I was send to the University-Hospital for X-Rays. They found out that it was osteoporosis (Degeneration of the bones). They told me, they can not do anything for me but giving pain blocks. Also at the National Hospital they could not do anything.

They prescribed Radiofrequency-Therapy.(Burning off the nerves). They burnt three of my nerves of the lower back. At that time I weighed 124 kg and needed to walk all the time with crutches.

By the end of the last year I was at the Anglican Church introduce to a couple of two Therapists. I was told that they can help people with conditions like me. They work at "Healthy Habits" with the computer Program called SCIO. At their office I got a therapy and the result was, that I do need neither crutches nor painkillers. And meanwhile my weight was going down to 92 kg.

I am not only free of pain, but can do so much more. I can walk and lift my arms higher than my head. I can run my daily chores and I feel so much younger and more active. My knees are strong again.

There is a friend of mine, she could only walk with a stick and had a lot of pain. Six weeks ago I drove my friends there and they worked on her at a friend's house. Directly after the Session she walked home pain free and in a good mood, holding the walking stick in both of her hands above her head with a happy smile on her face. Her walking is still strong, and no pain anymore.

City Unknown

Female client, 60 years old, severe spinal degeneration. In constant pain. Bent at the waist. Can only walk a few steps at a time, with a cane. Having undergone 3 spinal surgeries, the last to remove all the metal from her spine which was at her insistence. The M.D. had diagnosed her condition as irreversible and had prepared her for not being able to walk at all soon.

Began regular weekly EPFX/SCIO treatments in February 2007. Was pain-free after the first treatment. Her back (and her spirits) have healed nicely over the next couple of months. Now she walks, dances and even rides her horse.

Norman, Oklahoma

Female client, 39 years old, career woman, newlywed. Wanting children.

Diagnosed by M.D. as having gone into early menopause (hot flashes, night sweats, irregular periods), and having no chance to have children. Started regular EPFX/SCIO treatments in October, 2007. All symptoms of menopause were relieved by December 2007. Many other health issues were also relieved including digestive difficulty and constant worrying.

Became pregnant early February 2008!

Norman, Oklahoma

My 3.5 year old son woke me up at 2:45 am to ask me to 'zap' him because he was so sick. Sudden onset, seal bark, voice altered due to swelling of VC, fever, etc. I worked with him for 2.5 hours, balancing out all systems as well as zapping the pathogens. Croup came up high in reaction, resonance, etc. I zapped it for 6 minutes. Well, miraculous. Croup gone by the morning, fever gone and residual cough was all that was left. Amazing!

I have started taking supplements based on the devices readings and all areas have improved dramatically. The device has been successful for me in blasting the herpes virus too.

Thanks again for everything you have done/are doing. I hope to meet you and learn directly from you in the coming years. I have a 2 and 3 year old, so traveling to the Congress this year is out, especially considering my husband is a Chartered Accountant and it's tax time. I have so many questions.

City Unknown

I have purchased an EPFX Scio device and have had many positive results. My client is a 51 year old male who has attested to having felt relief after 40 minutes on the device. He states that the intense stabbing sciatic pain at his L4 through down to his legs was immensely relieved. He has had two prior micro-discectomies which entailed removing 60% of his L4, one in 1999 and another in 2002. His L3 is

degenerating as well. Medical prognosis indicates no future improvements. He had experienced pain and spasms, sciatica, and they are now, four weeks later, still less intense. This intense pain had been constantly present for many years and now he feels that after the session his level of pain has been reduced by 60%. He is visibly calmer and relaxed.

Thank you for the wonderful device and opportunity to share the great results with my family and clients.

City Unknown

First of all allow me to thank you for doing what you do. You have changed our lives and given us hope. I am a homemaker and mother of three beautiful boys. During my first pregnancy with twins, one of my sons suffered an accident at birth. All my life I had placed my trust in doctors. I did what they said and followed every recommendation. After a year of trying to find out what was happening to my son, I lost all faith in my family doctor and the other doctors dealing with my son. I began reading and educating myself looking for alternatives. I could not sit back and not do anything, there had to be a way. Deep down I always trusted the body's ability to heal itself and in the power of love. My love for my son and his well being lead me into the energy path. We first experienced the EPFX in Montreal at an Osteopath's office and it was like an awakening for us. We had driven 6 hours and our lives would never be the same since. About 3 years ago, my son, was diagnosed with Cerebral Palsy by a doctor overseas because doctor's here in Canada did not know what to tell me.

Thanks to the EPFX my son has improved his speech, his confidence and self-esteem for starters. We are able to help him when his stress is very high with relaxation and stress management through changes in nutrition and just being in tune to his perception of reality. It is a God's sent. It has made a huge difference in our daily life and most of all it has given us the tools to take responsibility for our health. I can honestly say that the whole family has learnt and is continuously learning. Again, we cannot thank you enough and maybe someday everyone will experience this wonderful device.

City Unknown, Canada

I have a client, a boy at the age of 8, with chronic stomach pain for several years. Before they came to see me in my office, the kid, could not stay in school for more than 2-3 hrs., because of the stomach pain he has been experiencing at that time and his parents were very frustrated, because by their words they have tried everything and nothing seemed to work. After only one visit having him on the SCIO for about 2 hrs. his parents reported that the child had no more pain at all! His mom came to me in about three days after I have seen him and she said: "Your device has healed my son!" These words were absolutely priceless to me! I absolutely believe, that we (the human beings) have to help each other and hearing something like this makes me very happy! I thank God every moment for being able to help people in

need and for helping me work in such field! I also thank a lot Prof. Nelson, for his tremendous work that he putted together this amazing device, that helps us a lot in our practices!

City Unknown

I bought the QXCI because my son (22 in 2004) had a very serious accident which left him deeply brain damaged. Hence the main focus of my using the device originally was very much to help him progress ...

Whilst my son HAS made some progress, he is by no means better – still unable to talk, walk, eat or do anything for himself at all.

My elderly mother, who now is beginning to suffer from Alzheimer's, used to complain to me continually that she couldn't do this or that because of her knees. I ran many sessions on her and amongst a myriad of things, also addressed her knees. Later when commenting to her that she no longer seemed to be having trouble with her knees, she flatly denied EVER having had trouble with her knees – so that had worked too!

For myself: -

- on first getting the device, I had been suffering from very annoying shoulder pain for some time. Of course, I ran a session on myself, concentrating on spinal therapy and shoulder from short sarcodes and whatever else from biofeedback and within half an hour the pain was gone!

I then came down with flu – a horrible day in bed, where the only times I got out were to go and work on my flu on the device – many times during the day. The following day, whilst still not feeling great, I was able to get up and go out, driving a friend on a sightseeing trip and walking a little bit now and again. I still felt weak but had banished all sinus issues and aches and pains.

I often used to have times when I would feel very nervous for no apparent reason at all. I came to learn that when that happens, I have to go to Release Spiritual Oppression and Body to Soul Connection in biofeedback – problem disappears (maybe with a bit of help from reverse psychic attack etc. and dispelling 2nd brain engram in NLP). These days this nervousness very rarely comes to me ....

Feel Good Factor – very important for me considering my life changes. Chronic Fatigue – very good for me!

Sydney, Australia

I have a client who is female, age 80, who had breast cancer in the early 1980's. The doctor removed her right breast, lymph nodes and muscle tissue from her shoulder. Leaving her right arm very swollen, shaky and unable to use it. After one session with the EPFX, she said the shaking got worse for a short time, but then the shaking lessened and she has been to start using her arm again. For example she has been able stir with her right hand. Something many take for granted, but she was extremely happy to be able to do this simple task again. The swelling in her arm has also come down.

Another client female, age 28.

Had severe menstrual cramps and mood swings every month. After 2 sessions her period caught her off guard because she did not have the usual bad mood and the pain that warned her of its coming. She experienced about 1 hour of cramping as compared to the 3 - 4 days of pain which used to be the norm.

City unknown

At 2 yrs old I was diagnosed with asthma. At 3 I had my tonsils taken out in hopes of resolving the asthma. Most of my childhood years I went to the MD 3 times a week for allergy shots, kept my inhaler close at hand, and spent many nights in the emergency room for uncontrollable asthma attacks. As an adult, the first thing I would pack to take anywhere was my inhaler. I could never be without it. After becoming a biofeedback technician and doing biofeedback on myself, relieving stress, I not only no longer have asthma attacks, I no longer even own an inhaler! This has been the case for over 2 years.

City unknown

I am writing to tell you my experience as a client after 2 sessions with the SCIO.

I am an English 34 year old woman who has spent 22 years suffering from depression, fatigue, acne, psoriasis and weight issues. I have spent the last 10 years training as a Shiatsu Practitioner, Acupuncturist and eating healthily, exercising and generally searching for good health.

My first SCIO session told me that my biggest issue is sugar regulation and the Homeopath who was taking the session advised me to cut out all processed sugar. This I did and immediately lost 3 stones of weight and my depression lifted and has not returned. My energy is now strong and there's lots of it. I feel like a different person.

City Unknown

I have had the SCIO since December 2007 and done the basic training. I am not working as a practitioner yet as I want to complete all the training and really understand the physics and the software before I start. However I have been doing practice sessions, about 5 a week, with friends and family and am always astonished at how accurate the SCIO is. I think the bonus from working with people I know well is that I can recognize their issues and strengths and building confidence with every session.

City Unknown

To whom it may concern,

I am writing in support of the EPFX device. I have seen firsthand lives change thanks to this amazing device. One of the amazing testimonies that I would like to share is a husband and wife that had been to our office. They had been in several times and their circulation had shown stressed. The clients tried to correct the stress using herbs and other nutritional means, but they continued to show stressed. We recommended that the couple go for a checkup and stress test with their medical physician and within one week both clients were scheduled for open heart surgery. Had those clients not had the experience of the EPFX, who knows how long it may have been before they experienced a full blown heart attack. This device is a wonderful way to educate clients on lifestyle changes and make them aware of what stress can do to their bodies and how it affects their physical health.

City unknown

Before receiving my own EPFX I was taking 3 asthma pills 3 times a day leaving me extremely groggy and lethargic. I also was using 3 medihalers, 1 2x a day and 2 3x a day. After many txs and the use of the EPFX device I now only use 1 medihaler maybe 1-3x a month if that. This medihaler is the least strength and is not a steroid based one. I have more energy, am more alert mentally and feel like I did when I was in my 20s. I am presently pushing 60 yrs old. I have not felt this healthy in about 35years. This device has been a godsend to me.

Seattle, WA

Here are 2 cases.

A 69 years old woman with hypothyroidism, using Thyroxin 0.1mg 1tablet or 1.5 tablets each other day. otherwise healthy Came Jan. 2005 and had 5 times Scio treatments each 3 weeks. Gradually reduced Thyroxin and after 5th time totally none. After about one year she came for SCIO because slightly symptoms came back and the last time Jan. 2008. She manages well without Thyroxin.

A 62 years old man with frozen shoulders on both side came on May 2005. He has been 2 years away from his job. Half invalid, cannot wash teeth nor hair, com, wear etc. otherwise healthy. His wife helped. In the beginning abduction and elevation was 30 deg. on both side. After 3 Scio therapy 80 deg. on both

and after 4.s 80/90. Aug.2005 went back to job. Sept. 2006 no problem with shoulders. Total treatment was 7 times.

City Unknown

Age 38, has suffered with bursitis for over 5 years. I treated her for this condition twice in the same week and the pain did not return for over a month. She and I are both delighted with the results as she was beginning to believe that surgery was her only option.

Also, same client has suffered with over production of mucous at night, which would wake her with coughing frequently (sometimes as often as 7-8 times per night). This had been happening almost every night for several years. Ran her on Scio, Timed Therapies page for mucous membranes all night for 2 consecutive nights and the 3rd night she reported only being woken once with mucous. The 4th night, no mucous problem at all. She was told to report to me when and if the mucous returned. 3 weeks later she called to report that mucous was beginning to bother her again in the night. Again, ran all night on Scio. It has now been five weeks and the mucous has not returned.

City Unknown

I was experiencing awful stomach imbalances after going through a very stressful 6 month period where in my Mother died, then my 22 year old niece died, I sold my thriving business in California, left my home of the last 20 years, said good bye to my friends and clients and moved across country to Connecticut where I started a new life and business. I experienced frequent feelings of nausea, my appetite was erratic and I felt that my whole digestive process was not operating as it should.

I had been introduced to Energy Medicine and biofeedback years previously and was already sold on the benefits and invaluable information that this technology offers for health and healing one's self. I was introduced to the EPFX after 9 months of constant digestive discomfort and after the second session, much to my surprise and delight, all my symptoms just vanished and have not returned in the year following. I was so impressed that I purchased this Quantum Biofeedback device for my personal use and I know that my health and well-being can be monitored and helped to keep balanced and vital using this wonderful system.

City Unknown

A 52 year old male from Scandia, MI was diagnosed by his medical doctor with diabetes. His sugar level was around 300 for several months nothing he had tried would bring it down. He tried medication, diet, exercise, supplements. Two days after 1 EPFX stress reduction session he reported his sugar had dropped about 200 points this is now three weeks later and he reports his sugar is still down in the normal range.

A 43 year old female from Negaunee, MI was diagnosed by her medical doctor with fibroid tumors in her breast. After 12 EPFX stress reduction sessions in one year she reported after her last mammogram the fibroid tumors has reduced a significant amount.

City Unknown, U.S.A.

In '03, I had three chronic "places" in spine causing persistent pain. Saw a chiropractor. Immediately upon beginning "electrochiropractic", the pain was eliminated, and the need for chiropractic! Several times when pain has returned during the last now almost five years, I have successfully used QXCI 'spinal" to, again, immediately (overnight!) eliminate ALL last vestiges of pain. I have NOT seen a chiropractor since the QXCI-almost five years now! and don't need one anymore!...Note: one area-lumbar-is the result of a lumbar spine operation when I was 9 yr. old

City Unknown

For myself, I was under a fair amount of stress while being sole driver of a 2007 spring road trip from Florida, Alabama, South Carolina and back. On the return trip, somewhere in Georgia, my back started hurting, and by the time I arrived at the family home in Alabama I could not walk, stand, sit. Crawled to bed, where sleeping was near impossible with the pain. The next morning I began destressing my body utilizing the many panels indicated by my stress points; by lunch, I was walking again. Within 36 hours of the incident I was able to drive back to Florida. Chronic back pain for me has usually meant 3-5 days home, in bed and unable to move. What a blessing I was able to recover so quickly, and my subsequent chiropractic visits were minimal.

Client stories:

I was working with a chiropractor in New York last year. One of her patients, the mother of a 2-year old girl, asked me to help find the stress points for her daughter, diagnosed with Bell's Palsy since birth. Beautiful child, but with no eyelid or mouth movement on one side. Working the various EPFX programs on head, neck, shoulders, nerves, etc., after two sessions, the mother could see the changes in her little girl - her smile was visible for the first time in her life.

Several older gentlemen clients have come to me with digestive complaints of constipation, and also incontinence. Working with the stress points found in digestion and kidney/bladder, each of them have found relief within hours.

Two men have stress sessions regularly for pain in their back and knees. Each of them have shared that nothing allows the dissipation of pain as quickly as stress relief that experienced using EPMX biofeedback device.

One even called me the day after his first session to say he went dancing that night with his girlfriend, for the first time in years. What a hoot!

One young woman called me while away visiting a friend. She had come down with a flu-like condition and was unable to drive home, but as a school teacher had to get back to work. With one session, working specifically on the stresses indicated in her upper respiratory and digestive systems, she was able to obtain relief sufficient to make the 500-mile drive home but 36-hours later. She called me en route to say thanks, the EPMX worked way faster than the over-the-counter meds she had been taking.

An elderly woman diagnosed with significant arthritis had three sessions and pain relief for the first time. She subsequently called months later to say not only was her neck acting up, but now her low back was causing her difficulty, she was hunched over, could not walk or work without great difficulty. Stress indicators on the low back appeared to be related to kidneys not arthritis, and within an hour, she advised me the pain was gone and she was walking almost straight again. We then did arthritic stress balancing for her neck and shoulders with similar results. For me, the amazing part of this is knowing that research has proven standard biofeedback methods will enable relief of arthritis, but oftentimes in no less than 10-20 sessions. With the EPMX in this particular situation, it was less than 5!

Other children's stories:

Last year, the grandmother of an 8-month-old boy called me, and with permission of the child's parents we tried to alleviate the pain of a diagnosed rash and allergy condition. The child had been in & out of hospital twice in as many months, had been given a particular medication and flu shot, was always crying and not sleeping. Indications of stress patterns with the blood and sugar levels led me to inquire about the eating/feeding habits of the parents with the baby, a history of their hereditary issues. From what I learned, we were able to determine the cause of the apparently allergic reactions, items were removed by the parents, and the baby's diet was changed as well. 30-days later the family reported a complete return to normal. Unfortunately, about six months later when the child was sick again and placed on a specific antibiotic, the parents forgot it was the 3rd item showing allergic reaction in the prior session. He was referred to a specialist, who confirmed through blood work what had been indicated by the EPMX session, and a \$200 bottle of medicine had to be prescribed to remediate the acute allergic reaction.

Just recently that boy's now 5-month-old sister was gravely ill with RSV and I was called to do stress relief session on her lungs and related systems. After two back-to-back sessions, she was breathing normally and did not have to be placed on breathing apparatus. The nurses indicated total surprise. What

could have been a 5+ day in hospital during Christmas week results in dismissal from hospital in less than 48 hours.

Closer to home, I was visiting my daughter's family one weekend; they had just come in from church and my 7-year-old grandson was hurting. He had fallen off the play equipment and bashed his head on a steel plate, causing a lump on his head the size of a golf ball, literally. Using the head harness like a hat over the area, I did the stress reduction techniques related to head, neck, shoulders and nerves. His pain was gone within the hour. That evening his mom called to tell me that the young man believed the EPFX device really works -- the knot was by then reduced by half, and there was no more pain.

City unknown

I have been using the Quantum Biofeedback for about 7months and loving it every day. My own story is that before i purchased the device I had 5 session in about 3months and what an experience. I first experienced on device was at the trade show. And on the main matrix it showed that I love ball point pens and that was weird because it picked up on that vibration. It also picked up that I have 5 mental pins in my teeth and I do because I have a root canal and the lists goes on on on. But my full 2hrs session second time blew me away because it recognized that I had certain food allergies that i had no clue of and that was cause of some of my blockages. And once he opened up my channels the little aches and pains i would get where gone. And I stop eating the foods that weren't compatible with my body and I have more energy and no more swelling in my body. After the third session I had lost 10 pounds and I start to go back to the gym because the swelling was gone. Whatever he did with that amazing device I decided to purchase one myself because when we become more conscious of our own selves than the world can experience peace on earth but until then. I hope that the love and light grows in your heart.

My first client 40 year old male with an injury in right arm did about 9 session in 4months to change that frequencies of the muscle tissue and put the body back into balance. Also I had alot of blockage in the neck and shoulders due to the injury. And after the 9 session his arm has more movement and less pain.

Second client is a female 47 that came for 5 session with the embarrassment of sweating too much in the underarms, I worked on her lymphatic system because we needed to send the frequencies to that area to clear the blockages. And just after 5 session she felt the difference.

City unknown

I am a 50 yr old female. My symptoms were IBS, a wart, and Candida.

After receiving treatment, my digestion got much better and my Candida symptoms subsided. The wart remained, but that didn't surprise me because my Dermatologist has been trying to get rid of it for 5 years, with no success.

City unknown

I have been a patient of a practitioner in New Mexico for more than a year. I have, together with my partner, just recently become a new user of the SCIO. When I first went for treatment I was in deep depression. After my first session I realized that my depression was gone. I wanted to get on with my life. I went for a second session before coming back to Washington state. I had picked up a food poisoning along the way somewhere and was suffering from the effects of it for many months. Dr's were unable to help me. The SCIO detected the type of poisoning I had and began to correct it. After returning to Washington I was "sub spaced" and the treatment continued. Last Dec.4th I broke my shoulder. The ball was shattered. I called and asked for a "sub space" for my shoulder. My Dr. was happy to report on Feb. 14th that I was healing nicely, he said I was the best at that point that he had ever seen. He released me until Sept when I will go back for a re-evaluation. My pain is gone and my range of motion is improving.

My Partner went to the same bio-feedback tech in August. He had a lot of anger issues and problems with self esteem. Had had several bad experiences that had left him in a state of depression. After several sessions he has improved a lot and no longer has the bouts of anger. His health has improved a lot and he is enjoying life.

City Unknown

We decided to see a practitioner because my two-year-old daughter had a severe sleep problem. She had never slept through the night and the wakings increased to a level where none of our family could function anymore. The practitioner suggested I go on the EPFX also and then my daughter. We were amazed to see the results and how we mirrored each other exactly.

Since then we have been using gentle sleep training methods and my daughter sleeps all night from 7.30pm until 6am in her own room.

She slept with us before. This is a transformation. We have also used the EPFX Device just prior to conceiving my son and when he cried for nine hours one night we were able to find out that the exact cause was a back injury and treat it appropriately rather than a doctor guessing.

We have found the device to be particularly useful for indicating our children's health issues and we believe it is a very valuable tool.

City Unknown, UK

I want to give input regarding the EPM and how helpful the system is in supporting someone who is under stress. One of my clients was in the hospital, very ill, unable to get up because he was too weak. They did not know what was wrong with him and had undergone numerous tests and waiting for results of other tests. They were extremely worried. She called me on the advice of one of her friends.

I told her I could not tell her what was wrong, and that I certainly could not cure anything; however, my experience with the EPM is that it can help assist the body by assisting in the stress he was going through during this time.

The next morning she called and said that he had gotten up and walked around the hospital. He was still ill, still weak, but was feeling a little better with a little more energy. She said the session had to have been the reason, because everything else had remained the same.

He remained in the hospital for ten more days, and I provided another session for him. The doctors discovered he had an intestinal blockage and he was receiving massive amounts of antibiotics. She feels he did as well as he did because of these sessions of stress reduction. The last time I talked to his wife, she said he is still recovering and getting better day by day.

Austin, Texas, USA

Three years ago I became disabled by what is called " Spinal Stenosis ". This had taken away about 80% of my life as i knew it. Until I became involved with the EPM at least 4 days of my week I was bed or couch ridden due to the pain and the effects of Spinal Stenosis. I was informed that surgery was not an option due to the severity of my particular case at this time.

Since I have been involved with the EPM i now get out of bed every day and am able to go to a gym and complete a physio routine 5 days per week for about an hour and a half to two hours. When I started I was able to complete about 10 to 15 minutes and not more than two days in a row. I am a single father of my 8 year old son and much to his pleasure we can do many things of which I was unable to do before together. Prior to my introduction to the EPM I would have told you that this was a whole bunch of smoke and mirrors as I am the most skeptical person I know. After working with this device for the last 6

months I still do not understand much of what the device has to offer as it is such a vast amount of information but what i have learned is to trust in things that one does not always understand. I may not learn it all in my life time but will leave this earth knowing what it has done for me and the life it has allowed me to regain. Thank you for your attention to my experience. I have had my E.P.F.X. for about 8 months now and have worked with a few clients but have concentrated mostly on my own healing and now feel that I have the energy and mental state so that I may now begin to help others.

Prince Rupert, British Columbia

I am 59 year old female residing in New Jersey and was diagnosed 5 years ago by physicians with CLL a form of non-curable leukemia. The disease was slowly getting worse despite my trying everything like changing my diet and emotions etc. I also went to acupuncturists in NYC but they also could not help and the herbs did not change much either. The progression of the disease was fairly slow but there were signs that things were getting worse. I looked like I was suffering from mumps that alone was kind of embarrassing and disturbing. My daughter got introduced to the E.P.F.X. approx 8 months ago and started to work on me and balance my body, remove stressors etc. It did not take very long for me to feel and look normal and I felt great.

Now I have an EPX and am very grateful to the inventor and everybody that helped further this device. My blood count returned to normal. The worrying part of my disease has been almost totally eliminated from my life. My husband has diabetes II also confirmed by physicians and so far he has been able to get his glucose numbers down to around 120 fasting and his worries are strongly diminished as well.

New Jersey

Client: I had a Client who came to see me about the nonstop migraine she had since she got back from her trip two weeks prior. She had gone for massages, acupuncture and to her physiotherapist. I spoke to her the next morning after the session. She informed me that that was the first time she was able to sleep. Headache/migraine was gone and she did not have to take pain killers. Prior to this she was taking painkillers every 4 hours. She never had the headache again. She had indicated that she would give me a written testimonial which I still no not have. I suppose people get healthy and then get busy with other things. I did go back to the house as her husband who is a Psychologist wanted to see the device. He

used conventional biofeedback in his practice many years ago. I did hear from the wife that her husband was impressed with the device and had encouraged her to see me about shingles she had. She did see me once and then had to go out of town. She also brought her Sister in Law, a Lawyer who worked for some Ministry in the States. She too indicated that she felt peaceful for the first time in a very long time and was able to sleep better. I have had good results from two other Clients who were diagnosed with vertigo.

My massage Therapist was just in awe. Said she felt such peace in her heart. She has mentioned to others and am hoping that I will have the pleasure of seeing these individuals.

City Unknown, U.S.A.

Age: 9, male, digestive disorder with behavioral problems, asthma, chronic ear or throat infections. Parents had worked extensively with a nutritionist as well as doctors to care for problems seen including food restrictions of wheat, dairy, nuts in addition to drugs and monthly secretin shots. Child was having another behavioral episode as well as much fatigue. The EPFX helped “find” the mitochondrial connection that was interfering with his progress. Given this information the nutritionist put him on other supplements. Parents occasionally ask for a session when child is in crisis and see changes but have not stepped into a regular session protocol.

Female, age 45, severe neck/back pain with numbness in right hand. Neurologist did not find herniated discs or any cause he could identify and said “maybe viral or bacterial problem in nerve” and would have to let it heal by self. Person was on medical leave for 3 days and the session was done on Sunday before going to work for the first time since Tuesday. In session the Res. Freq. Pattern was 22,000,000. I was able to help the person clear their person, home and office space prior to late afternoon meeting with supervisors that was an attempt to fire her for what they considered “wrong doing” but could not get other employees to collaborate that anyone was hurt or offended. Clients pain and numbness has decreased and is healing and work environment has changed with individual bringing less attention to her and what she is doing.

First and only session.

Male Child, 11 years old, diagnosed as ADHD and school difficulties, got one session and noticed the adrenals were showing as a high score indicating decreased function along with ADHD symptoms. With questioning, learned he was not sleeping well (parent had no idea) and that he was looking for caffeine drinks for energy. Gave him homeopathic adrenal support and he is doing much better. Second session he immediately went to alarm status as he did not want to be there for the session but mom had insisted.

I just want to let you know how grateful I am for all the wonderful improvements I have seen with my little girl and her ADDHD condition. Without EFPX biofeedback sessions I don't know what I would have done because I most certainly am not open to any drug treatments; too many side effects and dangerous in my opinion. Thank you, thank you, thank you for all the help and support you give us.

City Unknown

I would like to thank you for your help in my recovery. I am much further than the doctors expected after my injury. I would like to address this as a testimonial for other's that may need such help with their rehabilitation.

In May of 2003, I had an arthroscopy to remove some loose particles of bone in my right knee. I subsequently contracted a staph infection at the wound sites. It invaded the knee joint leaving me compromised with much damage to the joint. After 5 additional surgeries and much therapy with antibiotics and more than a year of physical therapy, I was left with serious mobility problems and chronic pain. I was fortunate enough to have had SCIO therapy. After this therapy, I am able to walk without a cane except when I am very tired or walking on uneven surfaces. I still have some chronic pain when I have overdone but it is easily managed with occasional ibuprofen. I have not required any narcotics for pain since these therapies. I would not hesitate to recommend this therapy to anyone who has health issues of any kind or even as a mode of management for routine health issues. This has truly made a difference in the quality of my life.

City Unknown

I have high blood pressure, cholesterol, and type II diabetes. A few months prior to being introduced to the EFPX-SCIO energetic medicine device for stress reduction my doctor had increased by diabetes med's from 2 tablets to 4 tablets a day. The day after receiving my first session in March 2004, I decided to stop taking all of my med's to see what would take place over the next few days. I monitored myself daily as I have always done and the results were amazing right from the start.

My blood sugar and blood pressure levels were optimal and cholesterol in a safe range. It has been five months now since my first session and I am still prescription drug free and feel better than I have felt in a very long time.

City Unknown

1. Male 42 years, diagnosed with chronic Lyme disease for at least 30 years.

Discovered by the SCIO device, diagnosed by the allopaths, made visible by Living Blood Analysis. He was in a wheelchair for 2 years when he was 16 years. No specialist knew for ten years. Last half year treated with the SCIO, allopathic treatment with antibiotics, special diet. LBA of last month, clean blood no spirochetes left. Fit as a fiddle and is able to work as a normal person. Ever so happy!!!

2. Girl 2,5 years old diagnosed with acute leukemia. When I visited her she was more dead than alive. The SCIO could treat all the infections of anti-biotic resistant bacteria and the side effects of the chemotherapy, so the child survived the treatment.

The SCIO found a possible cause of the cancer. The girl slept on top of a very strong Hartmann cross. After treating this spot with copper pegs, she completely recovered.

3. Woman 70 years. Already 2,5 years in and out the hospital with large intestine problems, chronic diarrhea, being operated for colon cancer of course with all kinds of complications. I met her for the first time, sitting in a wheelchair with an almost bursting belly and open wounds at the underbelly that wouldn't heal. They wanted to do skin transplantation. I treated her with the SCIO, the wounds closed within 4 days naturally. The second treatment stopped the chronic diarrhea.

So she could leave the hospital in two weeks after staying there for months!!! Now she is a very proud healthy grandmother of her first grandchild.

4. Male 48 years already 30 years (!) Crohn's disease. At the point of taking out his large intestines. Just one treatment with the SCIO within 2 days no more diarrhea and complete normal production up until now already for a year. I was surprised as well, this was almost instant energetic/electric healing. And an advice to follow a blood group diet, that works really well.

5. Boy 12 years old, one of a twin. Asthma from 2 months old after virus infection, 10 years of constant low dosis of antibiotics. Learning problems etc. After 3 SCIO treatments the last half year, his asthma has gone, no more antibiotics, no more colds and his brain starts to "open up".

Very happy parents and child that can breathe again.

6. girl 16 years old already for 3 months in a chronic fatigue state. In bed at 19.00 hardly being able to follow her school. One treatment with the SCIO in the morning. We found out that kissing a lost love gave her some nasty virus, plus a tiger mosquito-bite in decorative bamboo plants from China in a french hotel another virus and the coxsackie virus did the rest. Her immune system couldn't handle it. Treating all of them and boosting her immune system and heart, gave

instant healing.

I phoned her the same day at 20.00 if she was in bed already, but got a very happy mother at the phone telling me that they were still at the table talking, laughing and being surprised of what happened that morning. The girl was totally symptom free and felt normal again. She is doing her exams now in a normal way.

7. girl 18 years old. diagnosed with Eppstein Barr. So headaches, swollen glands, fever etc. Lots of sleeping. One SCIO treatment during the treatment you could see the glands getting normal. So healthy again in two days.

8. Male 81 years old. Frozen shoulder with lots of pain. One SCIO treatment, frozen shoulder was gone in 1 day.

9. Male 51 years, for 8 years diagnosed with collitis ulcerosa, one treatment with SCIO gave normal bowel production in 2 days until now.

10. Woman 42 years She had a major ski-accident 20 years ago, broke a neck vertebra. She always had a headache and nobody could touch her neck. After a very precise SCIO treatment, the headache disappeared and she could be touched again.

I am 59 year old female residing on the East coast of the U.S. and was diagnosed 5 years ago by physicians with CLL which stands for chronic lymphatic leukemia. The disease was slowly getting worse even though I was changing my diet and emotions etc. I also went to acupuncturists in NYC but they also could not help and the herbs did not change much either. The progression of the disease was fairly slow but there were signs that things were getting much worse. I looked like I was suffering from mumps that alone was kind of embarrassing. My daughter got introduced to the EPFX approx 8 months ago and started to work on me, it was not long before I looked fairly normal and felt great. Now I have an EPFX and am very grateful to the inventor and everybody that helped further this device. I have normal white blood count. The worrying part has been almost totally eliminated from my life. My husband has diabetes II also confirmed by physicians so far he was able to get his glucose nos. down to around 120 and his worries are starting to be eliminated.

New Jersey

Thank you for the opportunity to provide you with my testimonial.

I am a new EPMX practitioner. My very first client was a male in his forties who needed a hip replacement. He was on oral as well as patches for pain medication. I did not note the name of the drug as he hesitated to keep medical info. He told me he was taking far more than the recommended dosage just to be able to function at work. He also stated this medication did not take away the pain just made it more bearable. He came for 6 appointments in December and when he walked in he was hardly able to drag his right leg and walked with a cane. After his first appointment he marched up and down the hall and could not believe the difference the session made. He said the pain was reduced by at least 60%. When he returned for his next appointment he said the pain stayed abated for a day and a half. I started out with a protocol and then worked with the muscle protocol and acupuncture points for hip and back. In later sessions I added regenerate hip in the Biofeedback option. He had his surgery in January 2008 and I have not seen him since.

I have seen clients with various issues and use the A-Z protocol books regularly. I have had success with the Insomnia protocol. I have had several clients for a fertility issue and hope to have success with that protocol. The Natives in this area have been supporting me and believe in energy medicine.

City Unknown

Since 2002 I have been working with the QXCI-concept and in autumn 2007 I did my update to the SCIO-concept. As my university education is in behavior science and as I have a great deal of experience of life (I am 66 years old) it has been natural for me to specialize my work on the whole human being. Every client of mine through the years have had some form of stress "parked" in their body. To mention a few:

I have had a woman who was diagnosed FMS, Fibromyalgia Syndrome. Very soon the QXCI-concept showed problems with mercury. She was poisoned by mercury. No doctor had realized that! After the teeth-fillings have been removed she slowly recovered. To-day she still now and then has some pain but the doctors tell her she isn't sick anymore. Since a month ago she's back to a full-timed work. Clients of these diagnosis often have a very strong will. The client and I together with the marvelous QXCI-concept we have used her strong will in a positive way to cure. This whole process has taken about three years and she still comes but not very often and then just to keep her health at a good level via the SCIO-concept.

Some years ago a very depressed woman came to me with a diagnosis of breast-cancer. But the doctors were not too sure but wanted to treat her as they use to do. But she didn't want to. Some years before she had broken her arm at the same side. The client (she is now 72 years old) signed a paper to me where she declared she wanted to try the QXCI-concept instead. Together with all the showed frequencies from the QXCI-concept we first concentrated to get rid of the stress in her head. After about half a year she did want to put joy back in her life. Together with this work we always worked with the "Degeneration panel" sometimes showing breast cancer sometimes not. I am sure that together with her will to go on living the QXCI and now the SCIO concept have kept the cancer back.

I have counted clients from my computer data and I am sure that at least 30 of my clients from the two last years would be happy to tell the world about how grateful they are! Grateful to your work with this concept of being able to heal body and soul. Everything starts in your head and it seems that stress, in different forms, is the most common murder of today.

We have reached a point where almost every individual on this planet knows that we must work together for our survival. This is such a huge force under the surface in human minds. In the long (and to-day "long" is short) run n o t h i n g can be won and n o b o d y can win anything through fighting. Every single person on earth is now forced to start their training of how to co-operate. This is the challenge of to-day. There is no longer any victory in fighting against humanity! Every fighter who thinks one level under the surface knows that - when almost every man on earth knows he must co-operate to survive - there will only be thin, rapid victories in the short run. No doubt these very short victories will then fight the fighter and put him in a rather bad situation. This co-operating knowledge of human beings is the most important tool for our survival!

I AM so grateful and I AM so proud of being an ambassador of yours and I AM so convinced that one day when time has come - and it seems to be that we are there now - most of human beings will pay tribute to your work for a balanced health of people!

2 year old with sore and red eye – did an EPMX balancing and recommended washing eye frequently with “Sunrider fruit & Veggie wash” next day child diagnosed by Doctor with pinkeye and received prescription. Mother did not give child prescription. Day 3 did second balancing with EPMX by Day 4 child’s eye was recovered.

Similar Pinkeye experience with a younger sibling.

54 year old Lady arrived at house having been bitten by a bee near her lip. Bite was swelling rapidly. Used EPMX head band over bee bite, searched matrix for appropriate remedies and provided frequencies. Spent about 15 minutes with client. Next day the only indication of the bite was a tiny dark spot. Client had noted improvement prior to leaving.

26 year old male with minor crush injury to hand – very painful. – head strap on hand – used pain program and he felt a reduction in the pain while the program ran, completed the session balancing stressors and hand healed quickly with no other intervention.

1. I treated a 59 year old female virtually. She had just had a car accident and was in a state of shock. Difficulty sleeping and calming down. After the treatment she felt a load had been lifted off her. She was calm and able to sleep and able to put the accident in perspective and learn from it instead of being frightened. She was very grateful for the treatment.

2. I treated a 51 year old male virtually with a long term knee injury. He felt almost immediate pain and inflammation reduction. On another occasion he was extremely upset due to a sleep disorder. I used the brain wave program and other calming programs, all virtually, and he calmed down so much he said he slept like a rock. This result was very impressive because he had been experiencing extreme amounts of mental/emotional/ physical agitation prior to the treatment.

3. I treated a 50 year old female virtually. I have treated this woman for four months virtually for a variety of conditions which have improved. These include: insomnia, nervousness, emotional issues, neck/head/knee/hip pain, eye strain, flu, fatigue, stress, pollution stress and dental problems. This client is very impressed with the results from the device.

I appreciate your hard work and dedication and am very grateful to have this technology at my fingertips.

Man 47 years old

Medical doctor. Could not eat - food stuck in stomach. Vomiting after 6 hours. Keep losing weight. Lost his job. New training to be a laboratory assistant! The problem started 10 years ago after a ayurvedic course where he practiced sensing the fullness of his stomach instead of feeling hunger as regulation of food intake.

Has seen him 3 times. Working on digestion in any shape - and very much on mental problems. Brain, NLP etc. Heavy work - very rejective. Could not take any digestive enzymes or anything else. Last time worked on allergies.

Saw him today. He felt and looked much better. He now had much more hope and wanted to continue, because he never before tried anything besides psychopharmaca that helped to be able to eat.

City Unknown

Young man 28 years ("D")

Depression. Burn out syndrome

D passed his University degree on Copenhagen Business School in June 2007. As a very clever student he made the last year in " year. Got a job in another part of the country. His fiancée denied to move with him. In December he had a nervous breakdown. Moved back to where he came from - continued working but reduced time.

Medicated with Cepramil -antidepressant 30mg. Dose had been higher as he felt very bad.

Came to me 7th of January. Found besides adrenal problems and connected hormonal problems, psychic problems with guilt, shame etc. Further: heavy metals, allergies, old emotional traumas, dysbiosis and viral infection

Worked with anti stress at all levels.

Ordered dietary supplement - specially B5.

Saw him second time 18th of January. Worked on EEG. Neurologic repair etc.

Saw him last time on the 8th of Feb. He had stopped his medication 5 days earlier and felt much better. Could now see a new life. Had given up his "heavy" carrier by now. Understood the necessity of a brake while restoring himself. Had had the first amalgam fillings removed ( supported the proper way with the SCIO) Stopped dairy products. etc.

He is now much better and has learned important things about himself knowing that a new way of living has only just started and that he is not fully recovered. We continue the SCIO work with him.

City Unknown

Girl 17 years.

February 2007 severe mononucleosis. treated with penicillin. Recurrent tonsillitis over spring treated with antibiotics one more time. Was offered tonsillectomy in July. Refused as things were better. August-sept. tonsillitis twice more. treated with antibiotic once. Once again offered tonsillectomy in October. Came to me to see if I could help. I saw her twice in a period of 3 days. Worked on her twice: stress reduction. Much talk on unspoken stressors in her life. Worked on immune, infection and specially on Epstein-Barr.

Ordered vitamins and minerals. And to exclude dairy products from the diet. There has been no problems since. She now only eats small amounts of dairy products and has stopped vitamins. The

weather in our country is dark and wet during winter - and nearly impossible to stay out of infections - and she has had none in her tonsils.

City Unknown

It is with great pleasure that I am sending you this email. After receiving notice from my oncologist 2 years ago that I only have six months to live due to cancer, I found out about the EPMX device in Mexico. When I returned to the States, I purchased a device and went through the training, thinking if it only helped myself and family it would be worth every penny. People started to find out what I was doing and before you know it, I had people coming to my office during my lunch hour at my job. Or, asking me if they could come to my house for session.

As of November of 2007, I have quit my full time job and I am now helping over 200 clients with stress reduction. The results are amazing. I am honored and blessed to be a facilitator to this device and I give thanks everyday that the EPMX is in my life.

City Unknown, U.S.A.

I was suffering from chronic fatigue and depression, after running myself bi monthly on the EPMX I am now a much happier person and I now have the energy to do the things I need to do without feeling tired all the time.

My father was in a very bad auto accident some years ago and suffers from chronic pain, especially in his shoulder. After his first session with the EPMX his shoulder felt better and he continues to receive relief with his bi monthly sessions.

City Unknown

Using the EPMX has helped to change the lives of many of my clients. One client, a 40 year old male, suffered from narcolepsy; he had been to neurologists and cardiologists and all were unable to isolate a specific cause. Using the EPMX we were able to reduce the burden on his nervous system and not provide a cure but help his body to remove blockages to the proper functioning of his nervous system. On his third visit he claimed that he was virtually symptom free and felt like he was getting his life back. We did not do this therapy to subvert any one's authority or to go against the established medical system, we tried this to give him another option. I will see him for his fourth appointment this week and we are both anxious to see what his life will hold without these handicapping symptoms.

A male client age 81 was suffering from cellulitis. He had been on intravenous antibiotics for days and there was no help. His condition was not advancing but neither was it improving. The doctors were concerned and had plans to change and increase his antibiotic regimen. He was connected to the device for several hours working to boost his immune system and hopefully increase the efficacy of his antibiotic therapy. The following day he reported that his symptoms had improved approximately 50% and the attending physician, seeing this improvement, decided not to change or increase the drug therapy but instead to lower the dosage and move into observation. The next day, two days after the EPPX session, he was discharged from the hospital. It is this joining of traditional and alternative that allowed this client to recover in such a way, thank you for the ability to help.

City Unknown

I have seen dramatic differences in my patients. One woman in her late 40's developed a Bell's palsy from a viral infection. After two sessions, she was back to normal. Her primary physician was amazed.

City Unknown

We began our quest for better health when our close friends and family began to fall ill to various conditions and diseases. Our practitioner came to the house and ran sessions on three people, once a month for 6 months. One person was having serious male problems, including pain in the groin, frequent urination, etc. The second person had been diagnosed with Parkinson's disease at the age of 45 and the third had chronic pain and emotional disorders from a trauma which involved the death of a child at his home.

After the first meeting each of the men noticed an immediate improvement in their overall feeling of well being and felt much more relaxed and able to cope with their health issues. The education about personal lifestyle choices, nutrition and relaxation techniques offered by our now very popular EPPX technician has been invaluable. The guys waited eagerly for their next appointment, excited about the progress they could experience. It was wonderful to see the newfound hope each had, compared to their bleak futures if they accepted traditional health care ideologies. Surgeries, radiation, chemotherapy and heavy drugs were lurking just around the corner.

Through the next six months each never missed their scheduled visits here at our home. What wonderful fellowship we had sharing the experiences together and watching what could be called lots of

little miracles. Bit by bit, piece by piece, little by little subtle changes were taking place in the lives of these honest, good hardworking men.

Pain began to vanish, sadness and depression lifting, joy and laughter being restored. The constant shaking of Parkinson's subsided noticeably after just one session and has all but disappeared now. The groin pain and discomfort completely gone and a newfound peace and restful sleep were the outcome for the two others.

Each of the men continue to have their Quantum Biofeedback sessions regularly. Their experiences were so powerful for themselves and their families they ALL purchased their own device to use in helping their own friends and family suffering from diseases and symptoms the traditional doctors could not seem to heal.

This device and the education that accompanies it have been literal lifesavers for many people. Many of them do not have health insurance and need help, especially with the stress that sickness brings. Thank you Dr. Nelson for giving us hope for the future health of ourselves and our children. We will continue to believe and do the good work we have been blessed to be able to do because of your research.

City Unknown

I am writing to be my own testimonial I have been a client of the EPFX/SCIO for 4 years. I am a 46 year old professional married woman, with my own healing practice. I have been working with a colleague for the last four years during which, I have noticed profound changes regarding my energy level, vitality and overall health. Recently I purchased my own EPFX machine/Scio, and I have been able to reduce my stress, anxiety and worry especially about the future, our world and our family finances 100%.

I was at the beginning training in Redondo Beach California and started coming down with a cold which I was able to reverse with the EPFX in about two days (with rest of course) most people have been ill with these virulent strains of cold/flu for 2 weeks or more.

In summary, I must say that this machine has assisted me in decreasing my stress, and therefore enabled me to integrate healthier life practices. I look forward to integrating this amazing healing modality into my practice. Thank you so much for creating this much needed device for our work in the world.

City Unknown

When I get the optical migraines, I give hormones to myself and what usually takes 3-4 hours to remedy itself now takes around 5 minutes. I was very glad and each time I start with the "torn picture" look, I

zap hormones. One of these days I'll find out which hormones I need and take them but until then--  
thank you.

Las Vegas, NV

I started weekly sessions with a SCIO practitioner (Tampa, FL) in June, 2007 because I had been in an automobile accident (suffering herniated disks in my neck and lower back) the previous year and then, subsequently, developed an auto-immune disorder, Myasthenia Gravis (losing muscle strength in my upper body). By the time I began biofeedback treatment, I had lost my massage business, my retirement savings, all enjoyment in life and any hope for a return to health and normalcy. I was, in fact, planning to commit suicide the following May, my 50th birthday, if I was not "better". Within JUST THREE WEEKS, my practitioner and I discovered that at age 12, I had experienced such a loss of control and empowerment in my life within my family that I began to mentally say, "I want to die", whenever life became too overwhelming for me. What an incredible insight it was to realize that I had been carrying this self-destructive message with me for 37 years.....and that I was literally trying to kill myself from within!

With that understanding, my practitioner and I have since been doing age-progression protocol each week to treat, invert and remove all negative messages and frequencies from my conception to my current age. I will honestly say that it has not been easy reliving the emotions, feelings and life experiences for the last 50 years in just 1 year, but it has been so incredibly amazing to see myself transform from someone who was previously just "surviving life" to this new and wonderful person.....ME.....who wants to "LIVE LIFE"!

AND, I am so convinced of the effectiveness of this type of energy treatment that I am now a SCIO practitioner myself!

Florida, U.S.A.

I have many sessions with the SCIO biofeedback system and find it to be amazing technology. It picks up what is going on in my body with incredible accuracy and is great at giving clues as to what is causing those symptoms at different times. As an alternative healer, I often use this information to know what supplements I need, and what alternative health care or even standard medical care I might need to address whatever the issue in my body happens to be, long before it becomes a major physical issue. I have also done much emotional work with SCIO and it always picks up accurately the exact emotions that are bothering me at a particular time. These emotions are not things the therapist using the machine can notice outwardly, but the SCIO picks them up very well. I have been "balanced" with the SCIO to change the frequency of certain emotions or beliefs that don't serve me well in life, and I have noticed incredible breakthroughs in how I emotionally react, or don't react, to outside stimuli. It has

helped me release unconscious negative beliefs from my childhood which were holding me back from success and happiness as an adult and I notice the differences that occur in my life after being treated with SCIO. I also have been alerted to vitamin and neurotransmitter deficiencies in my body during a SCIO session and once I took those supplements, I felt much better. The SCIO has correctly identified known food allergies and sensitivities that I have and even alerted me to some I was not aware of at the time. This technology has so many applications and could be so useful in health care to narrow down what the possible cause of a symptom might be and also to treat the emotional component of illness. I would highly recommend SCIO to anyone who wants to take responsibility for their own health and who might be suffering from vague complaints that standard medical care doesn't seem to be able to address. They are often related to nutritional deficiencies or emotions we harbor and SCIO is great for pointing us in the right direction for self care.

City Unknown

I am a art student at Savannah School of Art and Design and I suffer from Migraine headaches, that doctors cannot find the reason for. They have been so bad that they send me to bed under the covers. The SCIO balancing sessions are the only thing that have made any difference. Since doing the Scio sessions the headaches are nearly gone and the quakity of my life has greatly improved. Thanks so much Scio!

Savannah, U.S.A.

A year ago I was introduced to the SCIO. After being in the hospital and not getting any help I went home to wait for my time to be with the Lord. My Mom heard of a guy that had a funny box and computer that helped folks and wanted to know if I would try it. Having no place else to go I tried it. Within two weeks the practitioner had my pain nearly gone. The doctors could not find the problem and after just 6 sessions I was on my way to having my health back. The computer showed fibromyalgia and Lupus during my sessions and when they were addressed the symptoms went away. The pain was gone and I was helped so much I bought a device and am now a practitioner. I am a 55 year old male with congestive heart failure. A heart in atrofib most of the time and with emphysema. I have diabetes but that is better. My quality life has improved to where I can now help others with the help of God and the SCIO. I am sure my heart will improve and will my lungs.

In the past year I have helped folks with fibromyalgia. A lady 45 was disabled and now she has returned to work fulltime. She is pain free most of the time and able to live a full life.

A male 74 has epilepsy so bad he could not function. He is now off his meds and has no more seizures.

City Unknown

I've had the EPFX/SCIO for about a year. My confidence in the equipment increases on a daily basis. I had an abscess in a tooth and the EPFX identified the exact tooth. I'm using the EPFX to avoid a root channel. When I first started the therapy the pain was excruciating every time I hit it with the water from the dental pik. Now I can use the dental pic without pain.

I have owned the device for almost one year and use it only for myself and family. For years I suffered from a great many allergies. I have been treated by several traditional medical establishments without much relief. Before I started using the machine I had extreme difficulty sleeping because of mucus that drained into my throat causing me to choke. Since using the machine I have minimal mucus drainage.

For the past few years I have had Chronic Fatigue Syndrome, a condition which seems to be very difficult for traditional doctors to treat. The machine not only detected (it does not diagnose) stress from an energetic reaction to Chronic Fatigue, but it immediately relieved the chronic tiredness that I was experiencing. This relief lasted for a couple of weeks but with each subsequent use of the machine after the tiredness returned, the periods of relief lengthened.

My husband and I recently completed a 30 day cruise. A virus spread through the ship and I got the virus. My lungs become congested and I developed a severe cough. Because I had my EPFX machine with me, I was able to use it to locate the stress caused by the virus. Upon using the EPFX, my cough stopped immediately and the congestion in my lungs began to break up. Within two days I was feeling back to normal. Based on past experience, I would have been sick for at least two weeks without the benefit of using the machine.

One of the features that I appreciate most about the machine is its ability to detect vitamin, mineral, amino acid and other deficiencies in the body. Then I can increase my supplements or work with my doctor to correct the stress. I take a prescription for an under active thyroid gland. When the machine indicated that my thyroid was still stressed, I checked the prescription bottle and found that I was only taking half the prescribed amount. I immediately began taking the prescribed dosage. Since then I no longer get an indication of a stressed thyroid gland.

City Unknown

My 83 year old mother fell down and hit her head and shoulder on a table. After getting her back to bed at 4:30a.m. I immediately got on the EPFX and did a session. The next day her neck popped once and she had a small bruise on her arm and that was it. I have helped her with so many pains(dental, knee, back, bowel problems). Her doctor said she looks and acts younger than she did 5 years ago. The Senior Center has noticed such a difference in her they have offered to have my office there.

All my successes seem so small in nature to some. But I have helped all my clients in one way or another. I no longer have a pain in my hip so I can sit again. My daughter's knee injuries from sports, have no more pain. My sister with bi-polar has seen great improvements, the results have put our family back in touch with her. I have calmed animals, now able to interact with man. A dog bite on my granddaughters face seemed to melt away, leaving no scares. Just being able to use this device to direct us to a more healthy lifestyle is an amazing plus.

City Unknown

Female, age 58 now. At the age of 51 I woke up one day and couldn't walk and was in extreme pain. I had been to five doctors who could find nothing wrong, the sixth doctor diagnosed it as poly-myalgia. Long story short, I never took the predizone they wanted me to but was going to an acupuncturist twice a week and two doses of 200mg celebrex for the pain. Someone introduced me to the EPM, I had five different sessions with different people, all of which gave me the same results. I was so impressed I bought the machine and learned how to maneuver around in it over a weekend. In less than one month I was off celebrex, not going to the acupuncturist anymore and pretty much pain free. Besides helping to relieve pain, it made me realize how my emotions and diet were the number one factor of my sickness. I am using this machine daily to help and teach others how to live a healthier life.

White Caucasian Female, Age 57, extremely obese. When she first came into my clinic she was using a walker and could barely walk. After one month of weekly sessions she was walking much better with the walker and was not experiencing the pain that she was when she first came in. After a year she has lost close to 80 pounds and is walking without a walker. Our sessions are still ongoing and she is improving each day. She claims this machine has saved her life.

Age 72, White Caucasian Female. Before I met her had knee surgeries on both knees and was in extreme pain. Through auto meridian therapy, Auto Trivector, and blood therapy and proper nutrition we were able to cut the inflammation. And then all of a sudden with the wonderful weather we sometimes experience in Indiana she experienced contact dermatitis. The dermatologist couldn't pin point the cause. When we put her on the machine it showed contact to pollen. She would have bouts with this from Spring, Summer and Fall. When the slightest breakout started she would come to my office and we would do an hour session on therapy and she would go home and be good for another three to four weeks. Now that winter has come we are progressively working to balance the whole system so that the immune system can keep on top of any possible breakouts come spring. It was amazing how each time the balancing done with the machine would stop the dermatitis in its tracks.

White Caucasian Male, Age 67. When he came to me he was a veteran on approximately 12 different medications. Most of them medications to offset the effects of each other. He had limited movement in his neck. He would need to turn his whole body to see to the side instead of turning his head. The very first time he was on my machine I was just going through and trying to balance the whole body. I had a small office in the front on our store which was pretty sound proof to the rest of the building. All at once while running through some therapies there was a loud crack. As he was a rather large man, I had expected the chair to just fall out right underneath him because I was sure he had broken one of rods in it. My husband came running in from the back of the store because he thought something had happened. Hollis just sat there very still. I asked him if he was alright. He started to move his head from side to side and said he hadn't been able to do this for 25 years. He was so impressed with the results of the machine that he bought one for himself and I believe is off most of the prescriptions that he was on.

I have numerous testimonies of being able to balance the adrenals and thyroid to help with fatigue and depression. I also have quite a large following with the amish in this area. Many young folks who have been wanted children and with the help of the frequencies and balancing properties of this machine are now on their way to growing their families.

I have also worked with ADD and Autistic children with great success.

City Unknown

I became a Certified EPRX practitioner because of the life changing events that took place after discovering and sending my daughter to a practitioner 4 years ago. At the time my daughter was 9 years old and was clinically/professionally diagnosed as severe ADHD, ODD, Severe Depression and she also dealt with the challenges as dyslexic. We had been following the allopathic course of the psychiatrists on and off for 3 years beginning at age 6, but always dealt with the side effects of the meds. On the second round of meds (which we felt we had to administer at age 9 because she was failing fourth grade in public school and had one of those obstinate teachers who expected everyone to learn the same and behave the same, so on... so we placed her back on adderall and zoloft), she became a very aggressive loner, she became violent and suicidal. I called a close friend of mine and asked her to help me find the right spiritual healer to take my daughter to because I felt instinctually she needed some spiritual help. She said another friend of hers had been hearing about a practitioner who did Biofeedback and maybe that would give us some relief. That first and the subsequent sessions changed us forever. We were able to understand just how nutritionally stressed her body and brain were and I immediately began a regime of vitamins, minerals, fatty acids and amino acids with a healthy diet. Within three months off of the meds all signs of that scared angry suicidal little girl were gone. The Stress Reduction sessions were amazing enough that she knew within three sessions that she, even at age nine, was going to be okay. Today she is a beautiful 13 year old doing extremely well in school and very involved in sports and friends. I continued the EPRX sessions until the practitioner moved away and then my friend and I decided to purchase and become Certified EPRX practitioners to continue to help our own families as well as reach out

and help others learn to help themselves. After hearing your testimony I thank God for the gifts he bestowed upon you to give this technology to us and I continue to pray for blessings to you and to all those who truly understand the gift of natural healing.

City Unknown

Client Specifics:

Age: 35

Gender: Male

Incident leading up to treatment: Client was originally referred to a Psychologist for an evaluation in May 2006. He had been a Tappan chef at a Japanese restaurant in late 2005 when a dramatic accident occurred. Client was building a "volcano" on the cooking surfaces when the liquid alcohol he was using for the flame spilled and burned a young girl who was at the table with her family. The accident created a melee at the restaurant and the client was deeply traumatized. He blamed himself for what occurred and could not trust himself to cook at the Tappan table again.

Symptoms/ Diseases: Client was diagnosed by the Psychologist with symptoms associated with PTSD, and had for years been suffering with sadness, moodiness and profound depression. He admitted that he had been also abusing alcohol on a daily basis. Client was 15 lbs. underweight, did not sleep well and rarely exercised. He had little social interaction outside of work.

In addition, the client had had numerous injuries over the course of his life which included the following: right eye sight failure from a broken nose, right ear hearing impairment from a fall, right ankle injured (twice), right wrist injured (twice).

Treatment duration: (1) 2- hour session each week for 10 weeks, at which point he was further evaluated by the psychologist.

Healing experience: Claimant made a profound improvement most notably on the first session, and continued progress with each session thereafter. His anxiety and fear from the incident lessened with each visit and after 10 weeks he felt comfortable returning to his duties at the Tappan table.

In conjunction with the energetic work on his emotions, we worked on his other injuries as well, starting with his right ankle. He loved to play baseball, and this injury prevented him from being able to run. After two sessions using the pain treatment off the spinal program for less than 20 minutes, he had no pain and was able to exercise with no restrictions.

Following that, we addressed his right hand using the same course of treatment, with all pain leaving this area in just one session. His hearing and eyesight were addressed in later sessions with marked improvement as well.

The psychological re-evaluation as a follow-up stated that the client appeared far more cheerful, outgoing, and upbeat than the initial evaluation 7 months earlier. Client returned to a full work schedule with no limitations and no anxiety or fear. His energy level had risen dramatically and has reduced his alcohol intake to half of what it was. He has a fuller social life, a girlfriend and generally feels very positive about his life. He has put on weight, his spirit is better and he has less anxiety about the accident.

City Unknown

I am an EPMX technician and have very good results with the system; not only for myself but for my family as well.

My daughter is a cautious believer in the system but when her children are not feeling well she phones me to "have a look " into their health and see what's wrong with them. Last week my 2 year old granddaughter continued to have a fever and was on her second anti biotic session. It still did not make her feel better so I scanned her through sub space and found several viruses and bacteria. I balanced her through your medicine protocol and within the hour she started playing again, where before she was lethargic and laid on the couch all day. Needless to say my daughter was very grateful for having her daughter well again.

City Unknown

I wish to inform you of the benefits I received from the EPMX. I was diagnosed with cervical cancer over a year ago and was advised to go through chemo therapy. I decided to not do the chemo and work through the EPMX. I can say that I am totally cancer free without the effects of the chemo. I am totally convinced that the EPMX system has helped me to regain my health without any negative side effects, which I would have endured with chemo.

The system helps me to decide which supplements I need and have nutritional balance. It picks up old trauma that might have caused the cancer and balances the frequencies as I need them.

The EPMX system is the best system I have ever come across in natural healing.

THANK YOU for developing such an all inclusive healing system.

City Unknown

I have a friend that went to the Dr for a back ache. After x rays they told him they wanted to remove one of his kidneys but didn't think he had any cancer. \*Long story short - he had a session on the EPFX device which hinted he may have a sac of parasites on his adrenal gland then found out what kind of parasite. He then traced that particular parasite back to Vietnam.\* Shortly before this assessment, he lost his son to a car accident on Christmas day. He had told his son not to come and visit him because he was fighting with his girlfriend so he held on to this guilt which I learned probably caused this manifestation. He leaned for a short while towards allopathic medicine but they sent him home and put him with Hospice care. Now he has decided to live and is taking advantage of alternative methods like homeopathy, EPFX sessions, additional energy work, etc and is doing great.

City Unknown

In August 2000 I started having difficulty with my ears, they were running and itching all the time. I went to my Doctor who immediately sent me to a specialist Dr. The Dr. would give me antibiotics and suck the liquid out of my ears with a high powered vacuum. A severe case of Otitis Media that was the diagnosis. I followed this protocol for about eighteen months then I got fed up this would only work until the antibiotics wore off then the infection was back. I started losing my hearing as well and I wanted to sleep all day I had floaters in my eyes, ringing in my ears and still lots of liquid seeping out of my ears. I really was at my wits end with conventional Doctors. I then went to a Naturopathic Doctor hoping for better results. I worked with a Dr. for over a year and my ears were still running. I had other symptoms as well high fevers around the full moon and complete exhaustion, strange as it may seem all other symptoms just became that's the way I was. I thought for sure I was dying and no one knew why, at this point I am only working two days a week due to complete exhaustion and ill health.

In August 2005 I finally got to the bottom of my health issues after having a session with a practitioner of Toronto. She also works with a Homeopathic/Naturopathic Doctor. She hooked me up to an EPFX biofeedback machine. The data that came out was quite amazing. I seemed to have contracted Malaria and there were issues with my digestion, parasites and worms. It was amazing how good I felt after my session I finally had answers to my questions. I had been to Mexico in February 2000 I had come home with a lot of bites all over my body. It was the turning point in my life I finally had hope to feeling better. Approximately two weeks later after receiving proper treatment from the Homeopathic/Naturopathic

Doctor I was beginning to feel the best I had felt in five years. It took a five more sessions on the EPFX and six months of treatments but I am fully recovered.

City Unknown

1) 2 year old girl with autism - after one session was more alert, slept better, and was more even tempered.

2) lady with chronic back pain her entire life is pain free about 97% of the time- only hard work brings it back temporarily. She is one HAPPY camper- this was after two sessions.

3) A Lady that was on strong medication for 8 years for excruciating migraines-hospital visits for shots at least once a month hours of missed work and family time and life in general-----is now after 4 biofeedback sessions is now migraine free for three months WITHOUT any medication- she has taken an aspirin during menstruation time to time - but the fact that that even works is a miracle - this woman could NOT miss 24 hours without her heavy medication- this lady has not had another biofeedback session since and is still laughing ---this lady is my best walking advertising.

City Unknown

I worked with a client who recently went through an ugly divorce. She had been partners in business with her husband for years and had to literally start over every aspect of her life. She came to me in hysterics because her husband was coming to pick up all of the furniture on top of the fact she was starting a new career in two days. She was a mess. I did a stress relief protocol on the EPFX/SCIO device and worked with her for about 90 minutes. When she left, she didn't feel much different but two days later when her x showed up, she felt great and everything went very smoothly, also she started her job and loved it from the beginning. She was so happy with the treatment she sent her sister in who was a 'Katrina' victim with an injured leg. I recently talked with the sister who moved back to Louisiana. She was sending a friend in for a session who was visiting Albuquerque because she was so impressed with how the EPFX/SCIO device had helped her with her leg pain which totally disappeared.

City Unknown, U.S.A.

After having a full hip replacement on Jan 4, I was released from the hospital Jan 7. My wound was completely healed and I did not need bandaging as ordered by the surgeon when I got home. I also did not need in-home physical therapy as I was healing faster than they imagined. However 6 days post surgery, I still didn't have a bowel movement due to the pain medication. I put myself on the EPMX/SCIO and before I finished the protocol, I was in the bathroom. Without getting too graphic, I released large clumps of fecal stones that literally slid out without any pain.

City Unknown

I am 43 years old I have no children and my hormones have been over active my testosterone levels stay high. This causes crystals to form in my ovaries which turn in to tumors. My gynecologists wanted to put me back on strong birth control pills, which I don't need to be on, to control the crystals. The only other solution he offered was to have a surgery to remove my ovaries. I started my EPMX stress reduction also listening to the health advice the device give me about taking care of my body and my mind. I am able to keep my hormones balanced my mind and body relaxed. I don't get colds or suffer from allergies I had as a child. I also work on my mother and other family members. This is my health insurance and I am very satisfied. Thank you so much Bill Nelson,

Brady, Texas

I am a 52 year old female, who has been told I have fibromyalgia and a RA factor of 22. Since I have been using the EPMX in the last year my RA factor has drop to 2. My resistance was -318 and it is now 44. Still chronic but very much improved. My muscle and joint ache has also greatly improved. I have more energy and a much improved outlook on life. Thank you very much for making the EPMX available. I find that now I only have to have a session once a month to still keep feeling better.

City Unknown

ANOTHER CASE I HAVE IS FROM A 30 YEAR OLD FEMALE FROM MEXICO CITY THAT BURNED HER HAND. THE NEXT DAY SHE VISITED ME. THE HAND HAD NO BLISTER OR INFLAMATION. SHE COULDN'T BELIEVE HER EYES. I JUST SAW HER THAT TIME BECAUSE SHE IS VERY HEALTHY.

I HAVE SEEN THE WONDERS THAT THE EPMX CAN DO WITH A THREE YEAR OLD MALE FROM MEXICO CITY THAT HAS CHRONIC GRANULOMATOUSE DISEASE. I'VE BEEN WORKING WITH HIM FOR 6 MONTHS NOW AND HIS RECOVERIES HAVE BEEN QUICKER THAN BEFORE. TWO WEEKS AGO WE MADE HIM A CAT SCAN BECAUSE HE HAD AN INFECTION AND THE DR. SAID THAT HIS BLADDER WAS HUGE. IT WAS UP TO HIS

BELLY BUTTON. NEXT WEEK HE HAD A ULTRASOUND TO SEE IF A GRANULOMA WAS OBSTRUCTING HIS URINARY TRACT. WHAT WE SAW WAS INCREDIBLE. THE DRS COULDN'T BELIEVE IT. THE BLADDER WAS NORMAL SIZE.

Mexico City, Mexico

Here are some stories.

I have been taking calls from practitioners in our biofeedback clinic for 18 years.

Recently a newly married woman was told she had to have her ovaries removed because of tumors. Her mother had the EPFX/SCIO and gave her numerous biofeedback sessions. She went back to her doctor several months later and he admitted that she no longer needed to have an operation.

Our Clinic has seen thousands of clients over the past 18 years for EPFX sessions. We have never had to advertise and the appointment book is full for at least a week in advance. We have many clients that have been with us for years. We have clients that see us to stay well after dealing with particular health issues and many have come for minor health issues and major medical problems all have receive natural, non-invasive support, stress reduction and wellness enhancement. We have worked with humans from birth to old age, pregnant and nursing moms. No one has ever had a problem from the EPFX sessions. The majority of the recipients of this work are extremely grateful for this state-of-the-art, innovative, non-invasive support for their health.

City Unknown

I am a QXCI Practitioner, qualified specialized Nurse (in MS), Bach flower remedy practitioner and member of the Complementary Medicine Association (UK). I want to help to validate use of the incredibly beneficial technology of the QXCI SCIO for health. I have been using the QXCI SCIO for about one and a half years now. Here are a few summaries of the beneficial effects of using this technology to detect the stressors to the human body.

\* Hugely obese female client, with a goal of weight loss. QXCI detected a need for support in the mental and emotional areas. Used SCIO to help balance these areas. Discussed various mental issues which were holding her back. Treated gall bladder hypothalamus connection (to break it). Treated using the most strongly indicated homeopathic remedies. Used background therapies for weight loss and to break up adipose tissue. Advised to drink more water. After this one session, client has lost so much weight that she has to wear different clothes - this is without diet or exercise changes. We will follow this up until she achieves desired weight.

\* 30 year old female with an inflamed/infected right knee. Knee swollen and painful, unable to weight bear without pain. Had visited GP who prescribed a course of antibiotics. Client did not wish to

take antibiotics due to recurrent vaginal yeast infections. I advised client that I would not be involved in her decision about medication, but that whatever she decided, I was prepared to treat her at short notice. SCIO detected a very strong reaction to the energy of a sac of pus under the skin (with a name that I can't remember!) Treated this from the test matrix results page several times. Ran autozap top infectious agents twice. Supported white blood cells and immune system. Immediately following treatment the pain was decreased on weight bearing. The next morning the knee had returned to normal without antibiotics, and stayed healthy.

\* 42 year old smoker, with a 15 a day habit for 23 years. Unable to quit using nicotine patches, despite three serious attempts. Also suffers from endometriosis and infertility, multiple allergies, other addictive habits, depression and sleep disorders. We used a program of three sessions to quit smoking. First session involved running the test, then using addiction release treatments, NLP, brainwaves and mental and emotional balancing, followed by the stop smoking program. Two days later we ran the smoking program again in a half hour session. 4 days later we ran the smoking program again, and another session as per the first. She quit smoking without a struggle, could not believe how good she felt, has slept better and also drunk less wine. She has been smoke free for 2 months and is loving it.

\* Two year old child with recurrent low grade fevers and chest infections for 6 weeks. Generally robust, at time of treatment, listless, chest slightly rattly (loose),runny nose, pale with bloated abdomen, often complaining that eyes hurt, low grade fever. Mother had recently visited GP and used a course of antibiotics; did not wish to use another course. Advised that she should not omit to seek medical help and advice as usual, but that we could use the SCIO to detect any ways in which we could also support her system. SCIO detected a very strong reaction to the energy of the condition Encephalitis. Also a very low reaction to the energy of a parasite which can affect the brain. Encephalitis zapped repeatedly. Top parasites zapped repeatedly. Immune system, lymph and mental and emotional state supported. Parasite measures for hygiene and prevention explained to mother ( without frightening her with specifics, which are not necessarily a physical reality). Child ran a fever that night of 39 degrees C, and since then (6 weeks) has been in good health with no fever or eye pain.

City Unknown

One morning my husband awoke with a severe pain in his back and stated that it felt like he had been kicked while sleeping. He got out of bed and staggered over to the SCIO which was sitting on the kitchen table and proceeded to work on himself in an attempt to relieve the pain. He was grey in color and the sweat was pouring off his body so fast that I laid towels on the floor around him to catch it where it dripped. As I watched him on the SCIO I considered that I might have to take him into emergency, but the location of the pain, the fact that I recognized the symptoms as being the same as those shared by friends in the past and the fact that he had a big meal of spinach the night before convinced me that he was passing a kidney stone and I knew that the doctors could do no more for him in the moment than provide pain medication which hadn't proved to be very effective to others in this situation in the past.

The main matrix supported our belief that kidney stones were involved as most of the items on the first page were connected to the kidneys in some way. He followed the lead of the SCIO, going the treatments recommended through the Nelson Report, the risk profile, the auto focus zap and so on. While working on pain in the spinal area of the program he became a firm believer in the SCIO's ability to release the stress as the pain gradually decreased with each heartbeat. Within a half an hour he was pain free and able to get on with the day.

The pain returned later that afternoon and he returned to the SCIO again to relieve it with the same results. He also worked a lot on the kidneys and did the auto focus zap on kidney stones. He hasn't had the problem since, and far as he knows has not passed a stone. He continued to pay attention to the kidneys while on the SCIO for the next few weeks and chose remove spinach and other foods that are rich in oxalate from his diet for about six months. He also quit taking antacids such as Tums and Roloids, which he had been used quite heavily in the past.

Needless to say, all of our friends, who have gone through an experience like this and relied on their medical doctors for help, envy the speed with which he was able to relieve the pain using the SCIO.

City Unknown

I have pages upon pages of a written diary concerning my progressive symptoms, so this will be a major attempt to condense excessively!! Around 1995, after being on a natural form of lithium for depression prescribed by our chiropractor for a number of years (2-3?), I started to have itchy red spots on my lower arms. We had it checked by our MD General Practitioner. He felt it was an allergic reaction to the lithium, had me quit taking the lithium cold turkey, which I did, as I was so hoping I could do without it. Eight days later my suicidal tendencies returned and I knew I needed to get back on the lithium quickly. (Since then I have learned you should never go off lithium cold-turkey, as it may not work if you try to start taking it again.) My red spots on my arms had become less intense when I was off the lithium, so I basically came to the conclusion that it was probably the lithium, too, and it would just have to be a side effect.

From 1995 to 2005, the lesions on my arms became more in number; had spread to my legs, unbearably itchy at times. The lesions would be open sores; ooze a little, a few would bleed (possibly from the itching-can't remember) then dry up and have little nodules in a circle, not ever disappearing entirely. My health progressively deteriorated. The right backside of my neck was always very swollen and hard; I was always very tired, weak, aching in any or all parts of my body; some mornings I could not step out of bed or walk on my feet for about half an hour after waking; my back was always in pain; I could not stand for more than 15 minutes without having to sit down because of the pain; my lower back ached climaxing in excruciating pain at about 5 a.m.; arms and/or legs waking me up tingling and being asleep; fitful sleep; brain fog; ringing in ears. I had started writing down symptoms that became more intense in the summer of 2005 with intentions of, once our new insurance coverage for the year became available

in 2006, going to our General Practitioner to have some tests ran to try to figure out what was wrong. My husband and I decided to go on a natural three month cleanse starting in October of 2005 before we went to our General Practitioner. The first month, October, was detoxing the liver and kidneys; second month, November, was using natural antibiotics to reduce harmful organism count and the third month, December, was to deworm and rebuild immune system. September-October I was starting to develop more symptoms, and my lesions on my arms and legs were getting more numerous and extremely itchy. My husband and I worked out in the sun five days a week and had developed a few other spots of concern on our bodies. We were going to wait until January of 2006 to go to a dermatologist (before we went to our General Practitioner) to have a full body scan to check out spots, moles of concern and had made appointments for January to do just that. However, my aches had become so intense, we decided to go to the dermatologist in October of 2005 instead of waiting. I really was not even that concerned about showing her my lesions on my arms and legs since I still felt they were an allergic reaction to the lithium. I received a \$150 poor-excuse for a full body scan from the dermatologist, all the spots I had a concern with she said were nothing to worry about. As I was leaving the exam room, and had forgotten to ask her about my lesions on my arms and legs, she said: "Oh, by the way, those spots you have on your arms and legs are pre-cancerous basal cell carcinoma. It's not IF they are going to turn to cancer, it's only a matter of WHEN they turn to cancer." She wanted to use laser zapping on them that day, but the expense was going to be outrageous, so I opted to get a prescription for some cream that was suppose to remove the lesions. We did research on what was in the cream; decided that was not the route we wanted to go, as the side effects sounded worse than the cure. We decided to do some research on the Internet about basal cell carcinoma to see if there were alternative natural things we could do. We had started our natural cleanse the day of our dermatologist visit and were concentrating on that. From October to December my symptoms intensified. After I would wash my hair and comb it, it would come out in clumps to where I'd have a grapefruit size wad of hair in my hand; my upper arms and legs became very cellulite-looking-like ripples of waves on a very hard sandy beach; I was excessively urinating; the lesions were climbing up to my upper arms and upper legs and face. I had very hard nodules on the corners of the crease of my arms, about cherry size, that hurt so bad I would massage them at night and during the sleepless nights. Upon awakening, my eyes would be matted over and I would find it would take increasingly more time--up to half an hour--before they would focus. Floaters in my eyes became so intense I could hardly see past them! The brain fog was becoming foggier to the point that I couldn't even finish thinking about what I was thinking, let alone trying to actually finish a sentence! Now the lesions were taking more and more time to heal with one I was dealing with at that time that hadn't healed (dried up) for around nine months.

We went on vacation from December 9, 2005 until December 21, 2005. On our way to Arizona to visit our son, the first night traveling my arms became so uncontrollably itchy that I took out my comb and just dug underneath my winter coat. When we arrived at the motel and I took off my winter coat, I noticed I had black specks all over my arms. I picked up a couple and looked at them, but since the lining of my coat was black, I just figured it was fuzz off my coat that I had accidentally dug, too, when I was itching my arms so much and didn't think too much about it. The next couple of weeks were very busy

but following are some symptoms I noticed: (We were starting into the last month of the three month cleanse we had been doing.) I had extreme restless nights, the front and back of my ears itched enough to wake me. Inside my ears felt like I had bugs crawling around and plugging my ears. The hard, aching and swollen right side of my neck (for the last ten years) had gone down and felt okay for the first time in ten years! The lower right back aching was gone. I felt better than I had in years!! That was the "calm".

Now, for the storm. We arrived back home and on December 27, 2005, I continued my research on the Internet concerning basal cell carcinoma. All of a sudden, I noticed black specks coming out of my lesions on my arms. A few, then a few more, then a few more, then a lot more. Then I started feeling some creepy, crawly sensations just beneath my skin; had four hours of light, interrupted sleep that night.

12/28/05: TONS of black specks, biting, itchy, creepy crawly feelings under skin. Saw "fuzz" of blue, red, white, black coming out of skin. Some fuzz were like straight small twisted yarn (three fold), some were like fuzz balls you'd pull off clothing, some kinky. Researched more on the Internet; somehow got linked up to a "Morgellons Disease" website. There was a long list of symptoms and there was not ONE I did not have. It told of a remedy in 1600's of putting warm honey and bacon grease on a person's entire body and scraping with a sharp instrument to draw the black specks out. So, I took a bath in the evening; drained the water and poured very warm honey and emu oil over my body starting at my shoulders until I had poured honey/emu oil over my entire body (except my head) and scraped my body in sections with a dull knife. I had literally hundreds of black specks come out as I ran the knife over my entire body (except head--I had not felt them in my head (yet). The black specks came out the thickest in the crease of my arms (the hard nodules were now gone), my waistline, hands, fingers, but the black specks were coming out everywhere. When I drip-dried off (couldn't stand the idea of having a fuzz-ball from the towel come off on me, so I opted to drip-dry), fuzz started FLYING out of my arms--again all shapes, sizes, colors. That night the crawling was extreme and intense and I felt "them"--the creepy, crawling, all over in my face, head, ears and all over my body. Absolutely not a second of sleep. My honey/emu oil treatment really seemed to activate the "bugs"--creepy, crawly parasites all night with them going up to face and forehead. Ears were plugged and crawling feeling. It was as if they were an army starting at my feet and moving in unison to the top of my head. I just laid on my back in bed and didn't move. The feelings were so intense that I truly thought I was not going to live to see the next day. The black specks on my legs were always bigger and thicker than the black specks on my arms. The leg specks resembled more the thicker hair on my legs.

12/29/05: Did honey/emu oil treatment, only a few black specks. Felt them crawling throughout the day, itching, biting, black specks, fuzz. In bed, my hands fell asleep and felt like they were literally about to explode with bugs crawling all over; everywhere, in them. I looked at my hands and they were extremely swollen and black, as if encased with the black specks waiting to come out of my skin. Called my grown children to tell them good-bye as I didn't think I would survive much longer. My husband and I

had taken upon ourselves to isolate ourselves from everyone since there was no data out on whether this was contagious or not. A fitful two hours sleep.

12/30/05: Warm honey treatment, but produced nothing. Fewer black specks, less itching, fewer creepy crawling feelings. Slept four whole hours. Woke up at 4 a.m. with ears itching and crawling so put emu oil in them and it seemed to help a lot. Fell back to sleep until 6a.m.; fell back to sleep until 9:30a.m. What a relief to sleep finally.

12/31/05: Still a few black specks; feel movement LOTS every once in a while. Continuous movement throughout 24 hour period. Seem to be much worse at night. Skin on arms and legs full of skin lesions (one on arm still an open sore). I can see some places where the "bugs" have crawled under my skin-- there are raised white-ish tracks, some straight, some squiggly. Ears itchy; buggy--not nearly as severe. Tolerable now. Baths seem to make the biting, crawling, itching more durable, so I take 2-3 long baths in the middle of the night often. I still have "feelings" around my mouth a lot. Quite often it feels as if something is dropping down from my eyelashes to my eyelids, almost "spidering" down, but we don't see anything.

During this time period, my husband and I had remembered a friend who had had concerns with parasites and had done some sort of Biofeedback. We had kept the information of the Dr. who had worked on her and decided to contact this Dr. who lived 800 some miles away to see if I could make an appointment to go out to Colorado and have her work on me. We called her; it was going to be very costly, but we felt it was very urgent and necessary. Of what we had looked up on the Internet concerning Morgellons Disease, if we decided to go to our General Practitioner, it would have involved mega tests; a possible diagnosis of "pseudo-parasititis" (especially since I'd been on lithium for about 12 years!). I could not have handled that, since along with all my other symptoms, depression had always been a norm for me. The Medical world did not know HOW people contacted Morgellons Disease; they did not know

WHAT it was; they only knew the end result was DEATH either by suicide or liver failure. Not the odds I wanted to chance if I could help it.

And I knew I was heading that direction ever so quickly. At this point, I was very weak, the last thing I wanted to do is travel, but we would do what we had to do. We decided to call our friend in Colorado to see if she still felt, after about six years in passing, that her Biofeedback sessions had proved to be beneficial. I contacted her, she said not to go to the Dr. she went to, that her Mother-in-law had bought a Biofeedback device (the EPM) and her expertise was in the field of Parasitology. We contacted the Practitioner in Colorado.

1/02/06: Expelled around 10 floating bright blue/purple "bubble bugs" in bowel movement. They were bright neon bulbs attached to something. They reminded me of tiny gazing balls, for lack of a better description. I wish I would have saved them, but did not.

1/03/06: In evening, had a big white "snot glob" (again, for lack of a better description) beside my right thumb nail about the size of a pea. It just seemed to appear out of nowhere ever so quickly. It stung like I was getting cut with multiple razor blades--like a zillion razor blades slicing this way and that way. Threw it in the sink and rinsed it down the drain before I even thought about saving it for examination--just wanted to get rid of it quick. My thumb was only slightly red--no cut marks. Multi-colored ball of fuzz tonight. It was actually pretty--blue/white. After bath removed two big black specks off hand that looked like charcoal pieces--fairly good sized, not the usual black specks. My husband and I watched fiber grow out of same right hand, palm side, to about 1 inch long. My husband had bought a microscope and taken pictures of many of the "things" that have come out of my skin. Several black specks came out of my hands tonight.

1/04/2006: Had my first session on the EPMX late at night. There was much activity going on with the crawling, biting at around 10p.m.-12a.m. I could actually feel "things" dying off as I was being worked on with the EPMX, as they bit real hard and then nothing. No activity for a while and I was able to sleep!! Wonderful!!

1/25/06: No movement until late afternoon--only slight. During 10p.m.-3a.m. much movement again all over my body. Lots of soaking in the bathtub.

1/26/06: The movement has not been as extreme as initially since the sessions on the EPMX. Still have forehead, arms, legs movement daily. Evenings around 10p.m. -2a.m. are the worst for crawling, biting. My right lower back has hurt a few days since December, but not nearly as severe as years before. My ears do not itch or have crawling feelings in them anymore. Right side of neck is still sore, but not swollen anymore. Lesions on arms and legs are still visible, some new ones, open lesion on right arm still not healed.

This is March 27,2006: Things got so intense, I stopped writing a diary, so I don't have exact dates of when I was on the EPMX, but I had regular sessions in January and February around every three days with my Colorado Practitioner or putting myself on. We could see remarkable improvements with each session. Some events that have taken place and that I have not kept a diary as to the exact day, but all taking place within this time frame are: One evening after bath and drip-drying, I combed my wet hair. As usual, had a big hand full of hair that had fallen out. Cleaned it all off my hand; looked down and there were 2 more hairs about an inch long. I thought perhaps I'd just overlooked them, but knew better

because I had made 100% sure I'd cleaned my hands off. Took those 2 "hairs" off my hand--looked just like my head hair--many more appeared. My husband and I then started watching numerous hairs grow out of my skin on the palm of my hand. They stuck straight up as they grew about an inch long. Don tried to video them, but they didn't really show up.

I started getting bruises on my arms, stomach, legs. Small yellow, then turning dark yellowish black. Around 20-30 bruises. I do not remember how long I had these. They didn't hurt.

My right front side started to have a dull ache, every day progressively becoming more painful until it was so painful I couldn't have anything touching it and could not move because of the pain. By this time, we had purchased an EPFX and I was calling the help-line quite frequently. Several days/nights my side became so painful, we thought I'd end up in the emergency ward at the hospital. One night, 11 p.m., it was to that point, but I called the help line. A practitioner walked me through different programs to put myself on, finishing up with me at 1a.m. (our time). What devotion!! She had previously worked on stressors with my liver during two sessions on the EPFX, which had helped tremendously, but I think perhaps I was detoxing myself too much and too quickly?? That night seemed to really help the severe pain in my liver and the pain never reached that point again. My right side was tender for about a year and still tender now only when I eat something I shouldn't.

During one period of time, it kept feeling like something was building a spider web inside my arms and legs. I could feel something weaving the webs and then climbing down them. (We've since heard an explanation of this from others who have had this as one of their symptoms. They said it could be the bacteria actually networking--building antennas to communicate with one another in the opposite arms and/or legs....??)

I had a number of sores on my scalp. One day (and one day only), I felt something going in and out of one of the sores ALL DAY LONG constantly. It felt like it was crawling into the sore; then coming out on top of my head, repeating it constantly. I tried to put hydrogen peroxide on it, but it didn't seem to phase it. Had some pretty blond hair there by the end of all of it!!

A rash, different than my skin lesions on my arms, legs and face, started to appear on my front neck. It was pinkish little nodules and had an indescribable intense itch. I felt if I itched it, it would spread but I could not keep from itching it. It kept spreading until it covered my whole front neck, about 6-8 inches from top to bottom in the shape of a triangle. It became a deep reddish-purple. The itching was so intense that, of all the bizarre symptoms, I came closest to ending my own life at that time. It lasted for

weeks. It was at about this time that the Practitioner who was working with me from Colorado asked me to e-mail Prof. Nelson to ask him what we could do, as we seemed to hit a plateau. We did e-mail Prof. Nelson, as we all felt there was little hope; perhaps, even though I had seen great results with the EPFX, nothing could be done and death was inevitable. Prof. Nelson called and talked to us on the phone; gave us some areas to work on and talked to us so lovingly about emotional issues that I brought up to him. Don and I were very emotional after his phone call--to think the inventor of this device, someone so busy would take time to talk to and console us!! After we did some of the things he suggested, we saw a big turnaround with my health. (I cannot remember the time frame of this, sorry, but sometime in early February).

I lost 60 pounds in less than three months during January through March. I had changed my diet extremely eating only organic raw fruits and vegetables. Even though I was so weak and so sick, my body also felt so good getting healthy nutrition. (Sad to say, I have gained most of the weight back.)

At one point I had an extremely hard time swallowing--like there was a big lump in my throat. I couldn't catch my breath and my heart seemed not quite right. I did take homeopathics for over a year, which I know helped much.

It took about seven months, January through July of 2006, before I actually began feeling my strength return and symptoms diminishing.

2/20/08: On Morgellon's Disease websites, we have read that it is believed in 80% of Morgellon's Disease cases, Lyme Disease is an underlying factor. We had found a deer tick on me about 15 years ago and I had wondered when I was starting to have deteriorating health if Lyme Disease might be an issue. I have worked with it much on the EPFX as it did seem to be an issue. I know if we would not have had the EPFX device things would have been hopeless. We saw such results every time I had a session and marveled at the intensity of the programs the device encompasses. Today I still have lesions on my arms and legs; they are dried up now, but I do get new ones from time to time and they do itch sometimes, occasionally they itch a lot, but NOTHING compared to the worst of times. They are not open, oozing lesions, just red. The squiggly and/or straight white raised areas where the "things" did whatever they did just under the skin on my arms are still visible scars, but fading away. Sometimes I still have "feelings" around my mouth mostly, sometimes on the scalp of my head. I stopped taking lithium when I started working with the EPFX in January of 2006; have never looked back. I do not suffer from depression--it's hard to remember the desperate feelings I use to have (and for most of my life up until these last two years)! After I lost so much hair, when it started growing back in, it stuck straight up all over the place (not quite the "do" I was after!), but now it's nice and thick as it had been in the past and I'm not losing hair anymore. The brain fog is gone. My eyes get matted over once in a while. Our computer crashed recently and we lost all the pictures my husband had taken of my flying things~black specks, fuzz. We had sent some of the pictures to our Practitioner in Colorado when she was working on me, but I don't know if she still has them. I try to work on myself at least once a week. Sorry, I did have intentions of condensing this, but you pretty much got it all!! I do feel bad I'm making it your

responsibility to condense this. Hope this helps. I think I didn't leave any of my symptoms out!! I hope I got across the intensity, the bizarreness, the hopelessness I felt until coming in contact with the EPFX, and even then it was a real struggle with wondering what strange symptom would show up each day and if there would ever be an end to it.

City Unknown

I purchased the device about six months ago and have had some great success with one particular client. She is in her 50's, suffers from severe migraine headaches that her MD is attempting to treat with drugs. She has her sleep disturbed each and every night from her splitting headaches, sometimes only sleeping thirty minutes at a time. She has two small children that were recently adopted from Russia. During her four trips to Russia during the adoption process, she developed Chron's disease and again, her doctor is attempting to treat this huge problem.

She was referred to me by another patient and we have had three sessions. Her last session was this past week, I used the encyclopedia protocol for migraine headaches and she told during our phone call two days later that, after our session, she slept four uninterrupted hours the first night and has slept longer, deeper and better without the severe pain she had. She refuses to take any medication that her MD has prescribed, while she still suffers from the headaches, she says they are much better. She says she is 'counting the days' until our next session! She is anxious to get started on the Chron's disease and some other minor problems she would like to deal with. Being a full time school teacher and again, a parent of two children, one that is two, the other is one, keeps this wonderful lady extremely busy.

Thank you for all of your efforts with this wonderful device.

City Unknown

Rest assured that the EPFX is the best in Energetic Medicine. Since I have the EPFX-Scio in June 2005, my husband has been helped so much psychologically when I correct the energy with the brain waves program. The correction is done instantly.

You have all my admiration for this wonderful tool. Really the energetic medicine is the frontier of the future in Medicine.

City Unknown

In March, 2007, the owner of the local health food store sent a 38 year old white male from Bayfield, Colorado, to me asking that he not render his diagnosis. He appeared healthy and robust. He is an outfitter by profession.

First Visit: After testing, I asked how long he had the West Nile Virus as it was #3 in red in the test matrix. He said that was why he came to see me. On every panel I read "food poisoning" and asked what this meant to him. He reported that he had been suffering from such severe food poisoning for 5 years that after eating a spoiled scallop in a local restaurant that if he ate any fish, including eating potatoes fried in oil that fish had been fried in, he would go into shock and had to visit the hospital for a shot.

Three Days Later: Client called to report no headache for the first time in a year followed by an extreme headache in which he self treated with homeopathics for the first time since contracting the West Nile Virus.

2nd Visit, 2nd Week: Client has a small headache. I delivered the DNA protocol for the West Nile Virus and Food Poisoning.

Three Day Later: Client reports no headache.

3rd Visit, 3rd Week: Client has had no subsequent headache and vitality is returning. I delivered the DNA Protocol for the West Nile Virus and Food Poisoning.

4th Visit, 4th Week: Client remains headache free and reports that vitality has returned. I delivered the DNA Protocol for the West Nile Virus and Food Poisoning.

24 Hours Later: The client calls to report that he has eaten 2 dozen shrimp and raw yellow fin tuna the night before with no ill effect and clam chowder for lunch just previous to the call.

The client requested a closing appointment before moving to Kauai the following week.

This client called February 20, 2008, to report that the symptoms of the food poisoning and the West Nile Virus have not returned and that he remains well, and that he almost exclusively eats fish 2 meals a day.

Many thanks for this device.

Bayfield, Colorado

Client Age 44

I have a current client who came to me after seeing her OBGYN. The Ultra Sound showed that her uterus was "covered" with cysts. They wanted to do a complete hysterectomy, as she was pre-menopausal. She

did not want surgery, so she came to me to see if there were other options. I asked her to give me a month to see what we could do.

After only 2 weeks of regular treatments on the EPTX in addition to other simple suggestions and mineral supplementation, she went back for a scheduled Ultra Sound and they found NO cysts. We were also able to identify kidney stones on the EPTX, which were also gone in the 2 week period!

City Unknown

Thank you for making the EPTX. I have a client that has a history of migraine headaches for over 10 years. She is over 40 and has found that if she gets a shot (or 2) of Demoral in the beginning of the migraine she can usually get it under control. If she doesn't (which happened last month) her migraine can last a month or longer. She will be throwing up along with the pain. She had gone the doctor to get a shot of Demoral (she moved to Colorado a few years earlier) and the doctors here wanted to try other things - which she had already tried and had found that hadn't worked.

After struggling with doctors, missing work, being in terrible pain, throwing up, crying and totally frustrated she called me.

The first session we did on a Saturday night, I talked to her on Sunday - the pain had gone from the front to the back but was still hurting. I did another session Monday night and talked to her on Tuesday and she was not in pain. She was very thankful and glad she had called me.

City Unknown

60 yr male...pesticide poisoning severe case, had to relearn walking reading etc, diagnosed with chronic lymphocytic leukemia... over 2 yrs ago..he was told he would not live a yr without chemo.....with chemo MAY live 2 yrs. in a fatigued weakened state then. He has passed the two year mark and health is stronger and quality of life greatly improved.

City Unknown

My boyfriend has done several SCIO sessions for me. I suffer from teeth clenching/grinding during sleep which my dentist confirmed. During my first session, the program brought attention to possible TMJ. The next day following my session, I noticed a much more relaxed, loose feeling in my jaw that lasted for quite awhile. We've since done follow-up sessions which seem to offer relief.

City Unknown

My clients say that they have greatly benefited from being hooked up to the EPMX-SCIO. they say that they feel better when they leave, that they do not feel so discouraged and most are willing afterwards to make healthier changes in their lifestyles. Categorically, they show lower stress levels on the computer. When they leave the session, they smile and act much more relaxed. Most say that they feel as if a weight has been lifted from their shoulders. Some say that their hearts feel lighter.

My clients confirm to me that the use of this device allows individuals to figure out how to relax more and release stress from themselves.

My personal experience with this device is that it assists me in realizing how to release stress and thereby enjoy living with ease to a greater extent.

I appreciate professor Nelson's work and research in providing and teaching me how to utilize this device.

City Unknown

I have had my device for two years and use it for myself and my family. My first treatment was for edema in my feet. I did not want to take blood thinners so went to a local practitioner and by the end of the treatment (two hours) the swelling in my feet dissipated. I was so impressed that I bought a machine and do weekly treatments to maintain a balanced body. The QX has changed my life, I am learning new things every day. I have been so lucky to receive exceptional training from trainers that want to come to the big island of Hawaii and feel blessed to be around other successful users. Thank you for this wonderful device.

Hawaii

With a lifetime passion, study and personal practice of natural and integrative therapies I am very excited to have chosen the EPMX Quantum Biofeedback system to compliment my journey of formal education, practice and requests to assist others towards wellness.

As a professional with 30 years experience and respected track record in psychology, child development, self awareness, health and wellness; specializing in central nervous systems disorders such as Autism,

Aspergers, ADD/ADHD, Mental Health, etc I am very excited with how the EPIX assists me in helping others.

For me the device is twofold, as I firmly believe “practice what you preach”. To this end I have put myself on the machine 25 times plus over the past 8 months. I do not believe the gains I have made in my own health and vitality could have been accomplished without this therapeutic approach to assist in stress management. I have found the information the system feeds back does not necessarily provide a missing piece of the puzzle but does serve as a central piece of the puzzle towards optimizing health. It provides education, retraining and self awareness that has allowed me to implement changes that have had the “biggest bang for the buck”, the most affect/impact towards overcoming health issues and optimizing my personal wellness.

City Unknown

I am a practitioner in Lakewood, Colorado. I've had my device for about one year. As I receive them, I'll gladly send on my client's testimonials. They too are interested in supporting this wonderful technology, which has brought them relief after doctors gave up.

Diagnosis: Bladder Cancer

A 45 year old white male diagnosed with a golf-ball sized mass in his bladder came to see me, wishing to avoid surgery and possible subsequent cancer treatment. One day after our first session, a small hard mass was passed in the urine, the consistency of a fingernail. The client reported easier passing of urine and less blood present. Four days after the session, tissue was expelled in the urine. A second session was held on day 8. Two days later gallstones were expelled in the feces, and more tissue was expelled in the urine. Pain on urinating and blood in urine have both disappeared. Client is scheduling a follow up MRI to assess status of mass.

Diagnosis: Cerebal Palsy and Cornelia De Lange

A 28 year old white male, severely deformed and having difficulty with movement, breathing and swallowing; periods of agitation and flaying. After first session began, client noticeably relaxed and began to look around the room, taking interest in his surroundings. Breathing normalized and swallowing was more normal. Effects seem to have lasted several weeks after session.

Diagnosis: Down's Syndrome with Autism

A 19 year old white female. Her mother informed me that at age 12 she was a happy, outgoing child, able to dress and feed herself, able to hold a pen and draw rudimentary pictures, who liked to sing and watch TV. A traumatic event at age 16 caused her to withdraw inside herself and shut down. By the time

I was consulted, she had stopped eating and was losing weight. She was constantly constipated, with hard stools the size of walnuts. During her first session, she literally came out of herself, first looking around the room, then gazing at her mom, then she started smiling at and cuddling with her mother. Her appetite has returned, she is back to being a happy person with interest in her world, and her bowel movements are more normal again.

Diagnosis: Shingles and a malodorous vaginal discharge

A 88 year old white female diagnosed four years ago with shingles, and suffering from a drainage of pus and malodorous fluid from the vagina which required her wearing a pad. After first session, her shingles flared, so she came in for a second session the next day. Following the second session, both her shingles and her discharge completely cleared up. She was ecstatic!

City Unknown

22 year old college student who was suffering from anxiety, stress, rapid heartbeat, and panic episodes. She began to work with the EFPX practitioner to manage her level of stress better. She was having a difficult time adjusting to college on account of travelling away from home on her own. She began to receive the EFPX treatments and within two months her symptoms were greatly relieved and she was restored to better emotional balance which reduced her levels of stress. She has less anxiety and more peace and calm.

55 year old homemaker who was suffering from acute anxiety and stress due to conflict with her husband over money and upset around her father's estate (who had recently died). She sought help from an EFPX practitioner who began to give her once a week sessions lasting two hours. She found within four sessions that her stress levels were greatly reduced and she was able to communicate better with her husband.

64 year old professional woman was suffering from chronic fatigue and depression. She was very concerned that she would have to stop working entirely because her fatigue levels were so great. She began to have weekly EFPX sessions and within three sessions noticed a dramatic reduction in her fatigue symptoms and a much more positive and optimistic mood and a much greatly improved reduction to stress.

City Unknown

There was a 20 year old girl who had body tremors and the doctor could not stop them without trying medication. Her father said no meds. So after being referred to me we began some sessions on the biofeedback. After 4 times the improvement was so impressive that the Doctor arranged at the end of his day for me to come in with her and hook her up and show him what was making the difference.

There was a 75 year old man who could hardly walk because of the pain in his legs and feet. He had all the scans and checkups from the medical side, with no diagnosis. He had a referral to me, and after 2 therapies, he is 50% better and so happy.

City Unknown

I've been a regular user of the Scio since I bought it, in July 2007 for me and some friends of mine: as concern my friend's -age 30 up to 66 - they report - for a 66year-old woman- after 2 sessions a decrease in her overwhelming anxiety together with a recovery of sleep ; - for a 56-six friend of mine after I had treated her very difficult relationship with Mother and Sister - which had made her very sad and depressed a sudden improving after only one session.lasting till to-day.- for a 30year patient a very quick disappearance of the pain she had had in the back since her 6th year after 1 session.

As concern me --I'am 66- and though I'm still in poor health yet – I've noticed a real amelioration of the red dark spots on my face a softening of the arteries in my legs a rejuvenation of the face-muscles - especially the eyes and cheeks muscles and from time to time the positive effects of fitted neuro-transmitters on the intense pain in my knees and back.

City Unknown

I have been working with my quantum SCIO for approx 3 years and have witnessed many miraculous healings as a result of using this device. I have studied Homeopathy but use only the SCIO to produce remedies.

2 years ago, my 21 year old daughter came down with a serious sore throat, very high temperature and general feeling of unwell. She had blood tests at the doctor, who thought she had tonsillitis and put on antibiotics until her blood tests returned, but her symptoms persisted and got much worse that night. I completed a SCIO session and did up an acute remedy with those she responded to. The Chinese 'clear the evil heat' one (forgotten name of it) and others for the throat, tonsils, glands, etc. After one dose her temperature came right down and after acute dosing over the first 24 hours she felt much better in every way. She did return to the doctor after the weekend to get the blood results and he told her she had Glandular Fever - and could not believe she had recovered completely from it in 5 days.

I had a patient who during a general session asked to be desensitized from chocolate as they had an addiction which was creating issues for them. I desensitized chocolate along with some other allergens I was treating and she later advised me that when she went shopping two days later, she had none of the addiction cravings when walking down the aisle where the chocolate was sold, she said she felt

absolutely nothing when she had previously been unable to walk down that aisle without buying multitudes of chocolate.

I treated a client who had suffered depression for fifteen years. At home, before coming for her session she told me she was sitting in the shower screaming. During the session which covered many therapies I ran Reverse Psychic Attack in Biofeedback until Max Rectified and she said she felt something click inside her head. Her depression immediately disappeared and she took herself off anti depressants. She claims her life has been changed completely and has not suffered a relapse in the last two years.

My aged mother (84 years) sometimes gets into fits of anger at her family, depression and general unhappiness which is quite uncharacteristic. Since having SCIO, every attack has been related to psychic attacks as being the major cause of this personality change. After I have done the session and included these therapies to flick off any entities she comes back to normal immediately and is her happy self.

I sprained my ankle whilst on holiday and could not walk without pain. I had my SCIO with me and put myself on pain therapy for 10 minutes which completely removed all pain from the area. I was able to walk normally around the tourist spots without any pain whatsoever. I repeated this process once again in the next 24 hours when pain resumed and had the same results. The ankle healed and did not cause any disruption to my life whatsoever.

These are just some of the things that have shown immediate and obvious results. There are other cases where issues have been multi layered and taken time to see results, but I can say that the SCIO is a truly miraculous invention; one that I believe will assist people with their health issues far into the future.

City Unknown

We have had our EPRX for a little over 2 years and feel that it is the best money that we have ever spent for our health and the health of our family.

We purchased the program because my husband has Hepatitis C and my niece had cancer at the time and they were both feeling a lot of stress not to mention the extend family.

What has happen since then is nothing short of miracles.

My husband's story is: at the time of purchase he was 55. He has had hepatitis c for approx. 30 years. He was dealing with many digestive discomforts. He had constant itching with no rash, depression and relentless fatigue. We did our home work and Interferon was the very last thing he wanted to do. The side effects are terrible and the results are very low. We decided to go with diet changes and

biofeedback. The stress reduction that he gets with the device has made all the difference in his and our lives. His digestion and itching issues are few and far between. The depression is gone and he is running circles around me. We are so grateful.

My niece's story is nothing short of amazing!! At 26 she was diagnosed with cancer while she was on vacation in Hawaii. She was out on a trail and could not breathe. She was rushed to the hospital and after doing x-ray a large tumor was found next to her heart. She was spewing blood from her nose and mouth. They did emergency radiation and shrunk the tumor. She was stabilized in the hospital in Hawaii and flew home to Seattle, Washington. She went through 3 biopsies to try to determine the type of cancer to no avail as the tumor was too damaged from radiation. She was put on a cocktail of 5 different chemo's and lots of radiation. She went into remission and we were very grateful but the stress of all the treatment took its toll. At age 28 she was in full blown medically induced peri- menopause. Hot flashes, night sweats, anxiety, insomnia, and deep depression. All of her doctors told her that there was no way she could ever have a baby as all of her eggs were destroyed with treatment.

I started to work on her in all of the areas that showed stress. She had a great response and we were thrilled. Then she called me one day to tell me she was pregnant!!! We were thrilled!! Of course the doctors were highly concerned and told her she was a high risk and watched her like a hawk. She was 6 months pregnant at the time. She had a beautiful, perfect baby boy 9 pounds several ounces. He is 1 year old and doing great and so is she. She gives the program so much of the credit and would have done this testimonial herself but she doesn't do computers. If you need it from her we will find a way.

I personally have had great success in harmonizing my hormones. I am 53 and was able to get off of hormones and do just stress reduction with the EPRX. I was in two bad car accidents in my teens and struggle with debilitating back pain at times. The EPRX has been a God sent in this area too.

One of my favorite testimonials is of a little 3 year old boy who was brought to me. His mother smoked methamphetamine while she was pregnant. At birth she left the child with his grandmother. He was out of control. He would not be potty trained and they went through day care after day care because of out of control behavior. When he came to me he was so out of control I didn't know how I would get him in the straps. His grandmother had to hold him and I was only able to put the head strap on. Within 30 minutes we saw such an amazing change in him that we were both brought to tears. He walked out of my office on his own two feet. I talked to his grandmother a few days later and she said he was doing great. I talked to her a month later and she said that it is nothing short of a miracle. He self potty trained and the day care workers are amazed. He has been in the same one for months with no problem. That was one session!!! It is a year later and he is still doing great!!

I could go on and on and we are so grateful to have the freedom to have this technology in our lives for amazing stress reduction!! It has been said for years that stress kills and what better way to address it.

City Unknown

This is some of the experiences I had working on the QXCI.

Had a referral from a client to put her father on the QXCI. He was only to be here for a month. At the beginning of the month he was put on the QXCI when he informed me that ten years previous he had a quad - by-pass and he never felt good after that. His Matrix was large and had a lot of the four colors confirming what he said.

The matrix in the red and purple was examined for vitamins and herbs - showing the lack of or not needing them. Also the food that was needed or to be avoided. This has a tendency to repeat throughout the other color levels.

Also you may be wondering why that I am not bothering about other information that showed up in the matrix. To me the major factor is the food, vitamins, minerals and herb. Everybody is UNIQUE!!!! If you feed your system the correct things that you are lacking or avoid the things that do not agree with your system, the problems that were starting to show up in the old/previous Matrix have disappear or are moving out of your system by showing now in the yellow or blue level, next time gone all together.

Since he had a problem with communication - due to the lack of understanding English completely and I having some free time, took him to the vitamin/herb store and pick out what the QXCI was stressing for his system. From there we proceeded to the grocery store. There I showed him what his system needed and the fruits and vegetables that were to be avoided. At his daughter's place I did kinesiology on all the vitamins and herbs, which his system informed me how many he was to take each day and for how long.

At the end of the month he came back for another session on the QXCI and when he came into the room he said that he felt so good. Hadn't felt like that in years. The QXCI confirmed what he was feeling inside. The QXCI showed only 15 lines in blue (no other color). The matrix was very small which it should be when a person is healthy.

Now about the daughter - she had decided to go on a vegetarian diet. The QXCI (she had all four colors) showed in the red that the diet was triggering a bowel disease where it was not absorbing the nutrients from the food. Also she needed amino acids for support. In the red it also showed that she was picking up radiation from her cell phone. I suggested two homeopathic remedies to support her system. She returned a month later informing she was feeling good. The QXCI confirmed that fact as it only showed ten lines in the blue. Also she purchased a different cell phone and by not appearing in the matrix that the new cell phone was ok.

QXCI - Sport repair

My 9 year old nephew came for a visit with my brother, as they live out east and I only see them every few years. While they were here, my nephew hit the floor screaming and my brother explained that he had a pulled muscle in the groin that had occurred while playing sports. My nephew had gone for all types of therapies and nothing worked. Promptly I got my nephew on the QXCI - went through the procedure and then to the sport therapy program. Through the other sections Dr. Nelson talks a lot, when we came to the sport program silence reign - which my nephew said the program was not

working. Two minutes later my nephew was hollering - I told him he had to examine the pain - was it biting or was it releasing. I just love watching the eyes get as big as saucers. He informed me that it was releasing.

He is now eleven going on twelve and he is back playing sports. There has been no re-occurrence with the pain in the groin from the time he was put on the QXCI.

QXCI - Enhance Learning

Also another program I occasionally use on my nephew through sub-space is the enhance learning. Last year's report card - the last two terms - he had 6 A's. I said to him that he was holding steady. He informed me that he had improved. I said I still see the same number of A's. His retort was, he went from A- to A+. The enhance learning does work.

City Unknown

As you will discover in the testimonial, my wife had a stroke last May, and we returned to Seattle and interminable appointments and visits with allopathic doctors, who prescribed multiple pills, up to and including Prozac, for the effects of the stroke, and for her ensuing depression. Nothing worked, until we discovered the EPFX. We went to a conference in the Seattle area, and my wife had a 1/2 hour demo session during a lunch break, and that short treatment brought the color back into her cheeks, the zest for life which she has always had returned, and the depression was beaten. As a result, we purchased the EPFX, and we have been reading, attending lectures, demonstrations, seminars, etc. on all forms of energy healing or other forms of alternative medicine ever since. And of course I treat my wife and myself regularly on the EPFX.

We returned to our beach house last December with the EPFX and with a new mission: to help the people of Honduras and Central America with the healing energies of the EPFX. I have been treating family, friends, neighbors, and any visitors we encounter who can use the treatment, and we are getting very positive results. My wife's brother has had rheumatoid arthritis for 20 years or so. His hands and feet are crippled, twisted and deformed. I have been treating him through subspace every Wednesday evening since mid-December, and he states that he is pain free for the first time in years.

My wife had a stroke - a Transitory Ischemic Attack, or TIA - in May 2007. She was incapacitated in her speech, her memory and in her left peripheral vision, but we were fortunate that there was little physical damage noticeable from the stroke. Through the summer, we visited allopathic doctors who gave pills to counter the effects of the stroke, to lower her blood pressure, to thin her blood and to combat the deep depression she was suffering. Their diagnosis was depression, and they treated that with a Prozac substance. These pills produced unwanted side effects, which led to further depression. She could only focus on her illness, on negative repercussions from what had happened to her brain. Her vivacious, gregarious fun-loving personality had disappeared as a result of the stroke, or of the treatments that ensued. By chance, we attended a health fair and came across the EPFX in August.

She sat in for a half hour demo treatment, and this short encounter resulted in the color returning to her cheeks, her smile and personality returning. She was now able to focus enough to read books and enjoy movies. During her depression, she could not concentrate enough to read - one of her favorite pastimes and passions. We continued to visit an EPMX practitioner as needed, and we were convinced enough of the efficacy of this treatment device that we purchased the EPMX in late August-early September and are in the process of training to be full practitioners. My wife is not using any of the allopathic drugs - including Prozac, which she quit cold-turkey with no ill effects - and an occasional treatment on the EPMX keeps her stress level low, and her energy level and spirits high. She credits her recovery to the EPMX machine, I consider the EPMX the key factor in her cure, seeing that it lowered her stress level and eliminated her negative thought patterns to the point where she could focus on positive outcomes. From there, her positive attitude allowed her body's own natural healing capacity to complete the cure. Thank you, Dr. Nelson!

City Unknown

I received a frantic call from a young woman that had heard about the EPMX and had hope that it would help her. She had been to the doctor, her toes were turning black and they were unable to tell her what the problem was and that it appeared they would have to remove the foot. Without much further advise they stated the surgery would need to be done quickly. So she called and wanted to try the EPMX but was unable to get to my office. Shortly after working on her in subspace she was already feeling brighter and better able to handle what may be. She stated that the machine picked up her problems of that day. The highest reactive number was portal circulation. Later we learned that the doctors were thinking this may be an issue for this woman and scheduled a test for her.

After her doctors heard how well she was doing they couldn't wait to learn more about what it was we were doing.

City Unknown

I am a clinical councilor in NSW Australia. Before I brought the SCIO Bio-feedback I decided that I would have regular treatment on it myself and the result was me purchasing it. I chose the SCIO to work with drug addiction and to release the stress and anxiety that drug addiction brings not only to the user but, to the whole family.

I find that the SCIO Bio-feedback is the most useful tool in presenting to the client where there stress lay in the physical sense and then using the information that is gathered to release this on a conscious level.

Female, age 27.... weekly treatments 4 duration 1 ~ hour sessions then another 3 sessions monthly. Exercise and meditation used in conjunction 2005

REASON FOR VISIT< She smoked pot daily for 10 years and suffered from sexual abuse.

“The Scio with the guidance of my practitioner helped me move forward very fast like no other therapy before. I have since gone on to be a life coach and my life has completely changed thank you.

NSW, Australia

34 year old

REASON FOR VISIT Heavy drug user pot and ecstasy

Treatments every week for 3 months infrared saunas, diet change exercise.

He went back to study and is now working again and getting his life back together His mood swings are less, less anxiety and more focused. “I was very skeptical at first how could this machine help me. Wow. Every time I experienced a very deep sense of relaxation and was able to cope with the day to day anxiety ... I try and maintain a regular once a month treatment

Thank you for saving my bacon and the person who put the amazing machine together.

NSW, Australia

October of 2006 I had just lost my father in law and was going through a lot of physical ills myself. Daily I experienced 3-4 panic attacks, I was losing weight, I was tired, and stomach problems every day. I had daily issues with allergies that I had never experienced before. November of 06 I received the EPFX and immediately trained to learn more about what was happening to my body. The stress and imbalance was grand. It took time, but with gentle therapy on the EPFX it only took 3 short weeks to turn my daily misery into living again. The panic attacks completely went away, the stomach issues subsided, and I gained back the weight. Allergies have not been an issue sense. I use the EPFX now for continued balance at the first sign of imbalance.

City Unknown

A year ago when I first started using the EPFX I had an elderly lady that was having blood pressure issues that were out of control. Her normal range, even on medication, continued to stay around 220/120. She had moments of passing out, constant ills and she felt her family physician was over medicating her trying to control the blood pressure and felt this was causing a disturbance in her own body. After several sessions with the EPFX this "young" lady took her health back into her own hands. It gave her the energy she needed to see a brighter world. She seeked another physician that agreed with her use of the EPFX and assisted in her needs to change to natural alternatives to assist in balancing her blood pressure and other issues.

She currently takes Hawthorne for her blood pressure and cranberry to control urinary problems. And the only other thing she uses to stay balanced and in harmony with her body is the EPFX. This woman knew that she was not well. Everyone thought that she was going to die a year ago. Now her eyes are bright, her step is peppy, and she is a vibrant, healthy woman.

City Unknown

This young boy is about 8 years old. His married sister asked me if I could try and help him as his parents were going through a divorce and he was exhibiting aggressive behavior. In class he would roam about, would not follow direction and was having fights with his classmates.

I had him sit with his sister and had the head harness around his middle. The test revealed large numbers of emotional issues. I followed the protocol I have for dealing with this form of stress as well as mentioning that others have found that diet might have some effect on his mood. The unit indicated that his sugar intake was above normal.

After one session his sister related to me that his disposition had seemed to improve. She set up another appointment and I focused on the same issues as before as well as any that the unit indicated. The sister told me that he was now getting happy faces in school and his teacher noticed his changed disposition. He was scheduled for future appointments, but the mother was unable to keep them. I have since heard that this young man was removed from school due to bad behavior.

The difference between the time he was having the stress reduction treatments and when he was no longer having them was very evident.

City Unknown

I'm a naturopathic physician (National College of Natural Medicine, class of 2001), practicing in Oregon. I bought my "Q", as I call it, last July, and have incorporated it into my practice. Most of my in-person sessions are 1 1/2 hours long, and I usually just go where "Q" says. These are some of the results I've seen with my patients:

1. JL, 65 year old white male with chronic, moderately severe back pain. An inventor, he was curious about the QXCI, but didn't expect to get any results. He called the day after his 1 1/2 hour session to tell me that his back felt better before he got home, and by that evening his back pain was gone. He was both surprised and excited.
2. DN, 68 year old white female, with type 2 diabetes, uranium (hair analysis), and chronic yeast overgrowth since college. She's had several QXCI sessions, but the most memorable was the Herxheimer reaction she had the day after I used the small pad over her abdomen and "zapped" Candida.

3. JP, 34 yo white female marathon runner. She tends to overtrain, and gets frequent symptoms of hypoglycemia. The day after her session,

she reported that she just felt happier, calmer, and without the usual nausea and aches.

4. MS, 69 year old white female. She is a friend, and I was demonstrating "Q". In the process, I found some indications of breast cancer, and asked if she was scheduled for a mammogram any time soon. She said her doctor was watching one suspicious spot, so she called him and moved up the appointment. On biopsy, they found the earliest stages of intraductal carcinoma. She has had surgery and radiation, and is doing very well.

5. PG, 49 year old white female with Hepatitis C, rheumatoid arthritis and dizziness. I used her as a subject, via subspace, while in beginner's training in Boulder. While working with the brain balancing program (in the EEG/ECG program, one of my favorites), I found the apparent energetic cause of her dizziness and apparently corrected the imbalance. She is very happy that the dizziness is gone, since it was impacting her day-to-day wellbeing.

6. ST, 55 year old white female. Her husband called one evening, asking for help for his wife, who had been experiencing almost constant nausea and vomiting for three days, and was of course getting weaker. I told him she would need to go to the local emergency room if the vomiting didn't stop soon. I worked on her via subspace and she almost immediately stopped vomiting. She was much improved by the next morning, and made a full recovery in another day.

7. JB, 60 year old white female, who experiences frequent headaches originating from a stiff neck due to tension. The spinal/sarcodes panel usually stops a headache before it becomes severe.

City Unknown

1. A 45 years old woman in Miami, Florida who has Sinusitis for 5 years. After 2 treatments with the EPFX (in 2 months period), her sinus reduce to almost no sign.

2. A 57 years old man in Switzerland, who just found out that he has Diabetes. After just one treatment with the EPFX, his sugar level reduce 40 points (measured before and after with blood-sugar level device).

3. A 37 years old man in Venice, Florida, who has back pain for 2 years because of his job as a cook. After 2 treatments with the EPFX, his back pain is gone.

4. A 33 years old woman in St.Peterburg, Florida, who has insomnia for more than 10 years. After one treatment with the EPFX, she has been going to sleep at 10.00 PM every night and forever stop taking sleeping pill.

5. A 50 years old man from Naple, Italy,who has cigarette addition (smoke 40 cigarettes a day), with 2 times treatment of the EPFX, he now smokes about 10 cigarettes a day.And he is looking forward to stop smoking permanently.

#### City Unknown

1. Male client; 54 yrs. Presenting with deteriorated spinal column/multiple systems failure.

Causation: Jobsite accident in Russia, 2002.

Medical Diagnosis; Irreparable damage from misinformation on analgesics that should have been used long enough to send client back to Canada, within 5 days. Drugs were used for 6 wks before a fellow Canadian warned him to stop the drug. Neurologists told client to get affairs in order as he was bound for a life of wheelchair and would remain quadrapalegic.

Biofeedback results to date; After first session client's pain subsided, after second session could flex enough to put on shoes and touch toes. Client is now riding horses again and working full ten hour shifts welding again. Currently sessions are addressing the damage from the drug especially heart valves. Very optimistic outlook.

2. Male client; 62 yrs. Presented with torn diaphragm, and acute inflamed knees.

Causation; Knee injury from 36 yr old car accident and bungled knee surgery.

Medical Diagnosis: Too be a lifelong disorder, expect early retirement.

3. Female client; 78 yrs. Presenting with acute asthma and right shoulder injury.

Causation; Asthmatic for 25 yrs. and 2006 injury incurred on public bus system.

Medical Diagnosis; Asthma-expected lifelong under doctors care with inhalers and home med equipment. Shoulder; medically documented and under litigation.

Biofeedback results to date; Client no longer required any asthma meds after fourth session but carries inhalers just for preventive measures.

After 3 sessions - harness, shoulder inflammation is 80% gone and has regained almost full use of arm. Inflammation that was migrating to right breast is gone.

Many more testimonials successfully working with ADD, black depression, scoliosis.

City Unknown

Female, age 48

I purchased the EPMX so that I could do biofeedback on my damaged spine. I had been in several different kinds of accidents (including auto), and no matter how much Chiropractic work I had done, my neck and back had more and more pain. I worked with the spinal portion of the biofeedback and within a month had no more back and neck pain. It's been one year and I haven't been in any consistent back pain. If my back ever bothers me, I apply biofeedback and the pain subsides for a long period of time.

It has been 100% successful for my back pain management.

My Client's success stories:

Client #1

Female, age 30, pregnant

I came to the EPMX practitioner because I was under a great deal of stress. Not only was I working full time, but I was 4 1/2 months pregnant and getting married. My husband-to-be was basically freaking out because too many changes were happening in his life too soon, which caused me to panic. I also had to set up the entire wedding, mostly on my own. I was afraid I was going to lose my baby. I was having issues with blood sugar, insomnia, anxiety, stress and kidney pain. After about three sessions with the biofeedback, I was feeling a difference in my stress level. I was feeling calmer and was able to sleep through the night. I think the reduction in the stress helped my blood sugar issues and my kidneys quit hurting. Even though the wedding is now over, I'm going to continue with the biofeedback sessions because it is helping me feel so good. My energy levels have picked up and I am able to work a normal day. My new husband and I are both getting along so much better!

Client #2

Male, age 38

I came to the EPMX practitioner because I was under a great deal of stress. I hated my job, I had a crappy childhood with an angry father, and I had really low self-esteem. I needed to get a new job, but was panicky because I hated speaking in front of other people. I had the practitioner work on all of my emotional issues. I've had about 6 sessions now and my life is beginning to change. I even spoke in front of the crowd at my wedding, AND had a job interview where I had to present myself in front of a group of people. I did OK. I felt really good about it. I didn't have the panic that I thought I would. I'm beginning

to feel more calm and feel more confidence in myself. I'm beginning to release some of that old anger and resentment. I want to continue to have biofeedback sessions so that I can continue to be a better person.

Client #3

Male, age 18

I play soccer in school. I've played soccer since I was a little kid.

My knees have been hurting me for a really long time, a lot of years. For the last two years I've had to wear knee braces and have been in so much pain that I lived on pain pills during soccer season. I decided to have some of the EPMX biofeedback done on me because my girlfriend's mom has one and offered to try to reduce the pain in my knees. I was pretty amazed, because after only one session I didn't have much pain at all. After a couple of sessions, I didn't have any pain, and I haven't had to take any pain medication or wear my knee braces at all this year. I'm not sure how it works, but I'm sure happy I had it done, because I thought I would never be able to play soccer again

A client came into my office with lock jaw, also known as TMJ. The client had been dealing with his issue for several weeks and had seen 3 different medical doctors, with no results. The client could not open his mouth more than to fit a straw to drink. He could not speak very well and the pain was indescribable. After being in my office for 40 minutes and going through a TMJ protocol the client was able to open his mouth, as if nothing happened. The client had full mobility back with no pain. Thanks to the EPMX.

A client came to my office after surgery for lymphatic cancer. The client was also experiencing insomnia, and a very bad case of shingles. Our goal for this session was to reduce pain and help with gaining relaxation for sleeping. The session lasted 2 hours and the client fell asleep in the chair during the session. After the session the client returned home and slept all the way through the night until the next morning with the pleasant surprise that the shingles had disappeared.

Thanks to the EPMX.

While I was on a business trip to Miami, I received a phone call from a very disturbed grandmother in North Carolina. The grandmother was in tears because her grandson had contracted a flesh eating disease that was spreading rapidly. The condition started on the Childs forearm and spread to both his legs in less than 24 hours. The doctor scheduled emergency surgery for the next day. The plan was to

remove any infected tissue. Without any thought I cut my meetings short rushed back to my room with the Childs demographics..

I asked for the child to be relaxed and sleeping if possible. The session lasted for 3 hours from a holistic view of mind, body, spirit. By the next morning the flesh eating disease disappeared from the legs and forearm. The EPMX helped this child keep his arms and legs!

A client came into my office after being hit by a bus. She luckily had minimal injuries but lost the strength in her left wrist. She went for x-rays and there was no break but the wrist was extremely tender. This particular client is a massage therapist and needed the mobility of her wrist in order to see her clients. After one session of EPMX, this client was able to put pressure on her wrist and 75% of mobility returned.

I was personally experiencing food poisoning from rotten milk. I had pail complexion, cold sweats, and nausea. I also had a full work day ahead of me. After 20 minutes of blood cleanses on the EPMX I had my energy back, I did not feel nauseous, and circulation returned to my face.

A client came into my office with the complaint of a planter's wart on her right hand. She had said she tried everything but nothing made it go away. After 15 minutes of EPMX the wart disappeared the next day.

A client came into my office with a pulled groin, due to a water skiing injury over 15 years previous. He was planning on having surgery but wanted to try something non-invasive first. I scheduled 5 sessions over a 4 week period. After the 3rd session pain had reduced but only for 48 hours. After the 5th session pain subsided for 7 days. More session were scheduled with a practitioner in Dubai, the client's home city. He was only passing through. Thanks to the EPMX he avoided surgery.

A man 52 years of age was wearing reading glasses for the past 4 years. After only 3 sessions on the EPMX reading glasses were no longer needed. This was done by simply stimulating and strengthening the eye muscles which cause the eye to lose its shape and the lens to be misshapen, therefore blurred. Thanks to the EPMX.

City Unknown, U.S.A.

As a practitioner of this amazing bio-feedback device, I have noticed many instant and comfortable effects from using the EPMX device.

Ex. Gall bladder discomfort released with bio feedback, viral conditions subdued, skin irritations, emotional baggage released to assist in toilet training a 4 year old grandson. Autism grandson helped with bio-feedback treatments, heart issues with husband helped after open heart surgery,

I'm 29 years old. I'm a Nutritionist in Portugal. I'm a practitioner of Scio. I have started a few time ago so I've few patients.

My best treatment was in last year, in November a male 32 years old that suffered from insomnia since he was 18 years old. He also smoked 40 cigarettes/day and was a soft drugs addict (only inhales he doesn't injects himself). It was only needed 2 treatments to cure the insomnia, and I also made a desintoxication and he smokes 2-3 cigarettes/day and never more touched drugs. Now he is making a treatment a month. In the present he is completely different, healthier, always in a good mood and changing many negative aspects of his life.

City Unknown, Portugal

I have been a QXCI/SCIO practitioner for about 10 years. There have been so many "miracles" that it would really take too long to mention them all. A few highlights come to mind.

1. Client with MS and diabetes, had a failed kidney transplant and was hardly able to walk when he started treatment on the QX. After 6 months of weekly treatments he was taking part in ballroom dancing competitions again. The neurologist was astounded and said "I don't know how it works but just keep on doing it because it works!"
2. Lady with a severe facial twitch had one treatment and hasn't had the problem since.
3. Case of fibromyalgia, 2 treatments and supplements and she was pain free and referring other sufferers for QX treatments.
4. Babies with colic, well after 1 or 2 treatments.
5. Several national swimmers used to come for regular sessions especially before competitions (galas) and called me the "feel good lady".

City Unknown

My personal experience is that I did a lot of blood cleansing and liver parasites showed up. This didn't completely surprise me as I am allergic to mosquito bites and had a weak liver, inherited from alcoholic parents.

I worked on it very thoroughly using the SCIO and then realized two things:

- a) I had had a low grade pain in my liver, which I now noticed wasn't there.
- b) I didn't feel angry any more

This was three years ago and the problem hasn't shown up anymore since then and I'm still not angry.

City Unknown

I have been a practitioner for 5 years with a practice in Arcata, California and also in Eugene, Oregon for the past year and a half. I have had the opportunity to work with almost 700 people and almost always these people relate many ways in which the EPFX device has helped them. Many times the information they receive helps them to make changes in their diets and lifestyles in ways that facilitate significant improvement in their health. Also, the feedback that I receive from my clients after each session is they feel more relaxed and energized, so I know their stress is being reduced.

A client recently sent me an email that a recent visit to her chiropractor revealed that her scoliosis is gone and her spine is now staying in place after having regular session about once a month for the past year. Yesterday I saw another client for the third time and she is feeling very positive about her weight loss since we started working together 2 months ago. She also feels as though her depression is being unraveled as she has a much more positive outlook on life and her intestinal difficulties are gone as long as she stays away from foods that we have identified as causing an allergic reaction.

Female client was diagnosed with glaucoma by her optomologist and so we worked on her stress levels for three sessions and when she returned to her doctor for re-testing the pressure in her eyes was normal and has remained so for 6 months now. We now do sessions about once every 4-6 weeks.

I have helped several people to stop smoking by helping them to achieve a very relaxed state of mind and running the program in ways that encourage their brains to not crave tobacco. I see at least one person per month for this reason and usually one or two session is all it takes for them to give up this hazardous habit.

I have used the EPFX device on myself and all of my family members with great success for things such as headaches, sprained muscles, and back pain. I am always happy with the results that I get. I couldn't be without this device at this point. I am so happy to be able to have this tool available for my personal and professional use. Reducing stress simply allows the body to heal itself as it knows how.

Thank you so much for making this technology available to all of those you are using it and for all future practitioners. I would be happy to provide any further details on these cases as needed.

Oregon

I see many people who are living with HIV. Most people have told me that their CD4 counts (as tested at the hospital) have improved by a hundred at least and then continue to improve. One person was on the list for a liver transplant and now the hospital has determined that he doesn't need it.

The mind affects the body and as we take responsibility for our wellness we get well. The SCIO helps us help ourselves. It enables us to work in harmony with our natural healing ability and gives us confidence that we can understand ourselves and can live peaceful creative lives.

Working with the SCIO to help people has transformed my life, since I retired I now plan to use all my skills to bring the happiness I've found to as many people as possible. I intend to remain well and productive all my days.

City Unknown

I saw a young woman who had been suffering from anorexia for six years. She couldn't understand what was happening to her and knew that if it continued she would die. She also had liver problems as she had been born with hepatitis from her mother.

Before seeing her I read the information about liver problems and anorexia that came with the Scio programs and I saw that it said of anorexia that it could be linked with liver problems.

When she saw me I showed her the text and her whole face changed, the relief that she wasn't mad or stupid and didn't have a death wish.

We worked on all the organs, hepatitis, stress and emotions following the suggested process for anorexia using the SCIO.

The next thing I heard was an email saying that her life had changed the fixation about food had gone and now she was putting on weight, 4 kg in two weeks.

City Unknown

I am a 60 year old woman. One year ago, I began having EPFX sessions for severe back pain caused by a prior injury to my L4-L5. When I began my sessions, severe pain restricted my walking to less than 10 minutes.

Thanks to my sessions with the EPFX, I can now walk briskly for over one hour

As I began feeling better with each session, I also became more conscious of the quality of food that I was eating. Over the past year, I have significantly changed my diet. My diet has vastly improved and I am more conscious of making healthy choices in all areas of my life. My stress level has significantly

decreased and my back pain has been extraordinarily minimized. I am functioning at a higher level in all areas of my life than I could have ever imagined one year ago.

I am so grateful to you for having provided us with the technology to help ease my back pain and lower my stress level. I hope that the EPFX will be an integral part of my health practice for the rest of my life.

City Unknown

I was on my second day of training and needed to apply the SCIO to someone so I rang my friend in England and she willingly agreed; as it was evening time there she relaxed and went to bed. I was in Seattle and worked on her applying the things I had learned so far. I knew she was very stressed and she had high blood pressure so I worked on these and a clean-up of the blood.

She rang me the next day saying "I don't know what you did to me, but I feel fantastic; and I checked my blood pressure this morning and it was 130/82 the lowest it has been".

I didn't know that she had a blood pressure monitor, so we both learned great lessons as to how effective the SCIO is. We later replicated the effect by checking her blood pressure before and after applying the SCIO process.

Seattle, U.S.A.

When one client began to feel uneasy about her health, her suspicion was confirmed when one of her legs became paralyzed. The following day it was the other leg's turn. Her doctor immediately referred her for tests to the Somerset West hospital. The results indicated that she suffered from MS. Thereafter her health rapidly deteriorated and she was hospitalized a few times before being referred for further tests. The neurologists, however, were reluctant to perform a biopsy procedure with the risk of total paralysis and an MS specialist's opinion was sought who confirmed the earlier diagnosis and said that two thirds of her spinal cord between the second and third vertebrae had been damaged and that she had lesions on her brain. Her husband, had to face another shock. The specialist advised him that patients in such extreme cases usually had at most a year to live.

"He told me they couldn't do much for her other than giving her cortisone and antidepressants and that I should start arranging for someone to take care of the children," said her husband whose work required him to be away from home every other month. At that stage, their children, two boys and a girl, were 13, 11 and five years old.

Her husband, wanting to know more about the disease, searched the Internet for information and found the website of a Dr. who suffered from MS and managed to cure himself by drastically changing his diet and taking various food supplements. He was one of a growing number of physicians and researchers

who believed that a strong link existed between diet and diseases such as MS. This theory is supported by statistics that indicate a much higher incidence of MS in the wealthy, developed countries where people eat lots of rich foods high in animal fats. The exception is Japan where the traditional rice-based diet is more typical of the foods consumed in poorer countries.

The Dr. also believed that saturated (animal) fats, especially those found in dairy products, could be linked to the development of MS. Analysis of brain tissue showed that patients with MS had a higher level of saturated fats than people who did not have the disease. Studies have also shown that a diet low in animal fats, supplemented with immune-boosting nutrients can dramatically improve the health of MS sufferers.

Her husband was convinced that this was the way forward since it was evident that conventional medication such as cortisone wasn't going improve his wife's condition. In addition to the visual side-effects of cortisone, she suffered attacks similar to epileptic seizures. They consulted a naturopath, who strongly believed in the body's ability to heal itself provided it gets the correct nutrition and QXCI treatments and the woman's diet was immediately changed. She also started with QXCI treatments once per week and taking numerous vitamin and mineral supplements as well as other nutrients, including procydin.

"I believe in the QXCI in combination with procydin and prescribe it to all my patients. Its major benefit is that it strengthens the immune system and also stimulates blood circulation," said the naturopath. Essential fatty acids, especially omega 3 found in flaxseed oil, are some of the other important nutrients to be taken when treating MS. Essential fatty acids are important for the reconstruction of the myelin sheath and also help to fight infections. The strategy of changing her diet, adding nutritional supplements, as well as treatment with QXCI/electro-magnetic pulses to destroy harmful pathogenic micro-organisms, paid off. Within two to three months her condition started to improve and less than a year after receiving the death sentence an MRI scan showed that her lesions had healed! She now religiously follows her low-fat diet of fresh fruit vegetables and fish (no meat or dairy products) with a wide variety of nutritional supplements and takes procydin three times a day.

I have a private practice and have been an EFX practitioner for almost 5 years. About 2-3 years ago, I had a family bring their son in to see me. He was about 20 years old and had been in a coma for six months following a traumatic brain injury (head slammed against a concrete sidewalk). He had to use a walker and he had some speech impediment. I did a one hour session with him addressing the brain and various lobes of the brain, brain wave balancing, physical trauma, emotional trauma, balancing brain chemistries and basic physical support. The next day, he came with his mother for her appointment. I spoke to him and gave him a big hug. He asked me to stand across the room. At that point, he put his walker down, walked unassisted across the room to me, and gave me another hug. He has not used the walker since. This is why I do what I do. Gratitude.

I had a client (female, about 60 years old) that fractured a rib riding a roller coaster with her grandsons. She was in lots of pain for two weeks. When she told me about it, I asked her why she hadn't called me. She stated that she didn't know the EFPX could help with that kind of trauma. I worked on her by isolating the low torso and upper torso, assisting her circulation, lymphatics, nerves, muscles, bone and pain in those areas. I also ran the pain management program. The next morning her pain was gone and the following day she was back in the gym.

I had a friend that was bipolar and depressed. She was in her early 20's, doing psychotherapy 2-3 times a week and on several medications. She started cutting herself with razor blades and became suicidal. I explained about the EFPX and asked if I could work with her. I ran the NLP programs for NeuroPeptide balancing, emotional balancing, dissipate karma, ascension stimulation, higher purpose alignment, anger, depression, self image, release negativity, bipolar depression, self destruction and several others. I also balanced the brain waves. The next day, she called to say that she had awoken in a different body and was happy and peaceful and calm for the first time in years.

City Unknown

I am a 51 year young female. Twenty one years ago I was diagnosed with chemical toxicity that had ultimately shut down my lungs and circulatory system. I was on oxygen and high doses of steroids to stay alive. Testing proved I was lacking in enzymes to break down organics. My physician cut my Synthroid dose in half to slow down my metabolism that had my blood pressure at 200 over 150 laying in bed simply trying to breath. A long journey with no hope to recover from the medical field sent me in the direction of homeopathy and all it had to offer. After 10 years with an ND and the use of a biofeedback machine I was slowly getting better. Off the steroids and oxygen only when necessary. Then I encountered the EFPX and in an amazingly short time (relative to the 10 previous years) I am oxygen free, steroid free, lungs recovered, thyroid in balance with no Synthroid and actually healthy enough to have a total hip replacement just three months ago. Knowing that attitude, intake and output are very important to the healing of one's body, it was just not enough for my extreme condition. The addition of the EFPX sped up the process greatly. I would never want to be without it.

City Unknown

I have had the EFPX for 3 years and would like to share my very first experience. I had received my system and began the journey of learning how to use the device for the first time. I must admit that I was a sales person and left corporate America because I was mentally and physically exhausted and just burnt out. As I began my journey I realized I had no clue about how the physical body worked. How the digestion processed worked, how the body detoxifies, how we should eliminate, how the body will tell us what is going on if we were just taught to listen – this fascinated me.

The very first month just dove in and then went to my first week of training and certification process. In class there were 35 people and only three were interested in working on the EPFX for business reasons the others were there to heal themselves. This blew me away and was intrigued by every testimonial that I had heard on how the system found the root causes to their medical issues and people were getting off of their prescription drugs, getting control of their diets, learning what food sensitivities they had, and the list goes on and on. Well in training I had learned that I was sensitive to gluten, shellfish, and grapes (ie wine). It blew me away because they were the very things that I consumed every day for the last 25 - 30 years. I then cut them out of my diet to see how I felt and headaches went away, my sinuses cleared up, and I started losing weight. The EPFX is such an amazing tool for awareness and how easy it is to understand if we would just listen to what our body is saying.

City Unknown

I have had a device for three years now and it has changed my life in so many ways.

Personally - as I began my journey to understand how my body worked the EPFX told me such much about my mental and emotional health and how it affected my physical body. I had an active childhood but was mentally abused by my father which I later figured out defined me and created my negative belief system at an early age. I would constantly get a message of negativity disorder on the screen which would make me angry, frustrated, and sad. I then asked a few close friends if I was negative which they confirmed. WOW I did not believe this about myself and this started my journey of enrichment, thought processes, and wanting to change this aspect of negative self thought.

When you going into the test matrix of emotions, flower essences, and Bach flowers the stressors that appear are so right on it bring tears to my eyes. This is why I know without a doubt that if the information appears 2 or 3 times I follow the trail to balance and bring my body back to harmony.

I AM SO VERY GRATEFUL AND FILLED WITH GRATITUDE THAT I WAS INTRODUCED TO THE EPFX AND WILL USE IT FOR THE REST OF MY LIFE IN ACHIEVING OPTIMAL HEALTH AND WELLNESS - MENTALLY - EMOTIONALLY - AND PHYSICALLY.

City Unknown

I have been a massage practitioner for fifteen years. Having recently acquired the EPFX, I began experimenting with helping my clients' muscles to relax using the EPFX, while I am also doing bodywork for them. I use a particular bodywork technique called Spinal Reflex Analysis (SRA), part of which involves applying pressure to muscles until they relax. When clients are connected to the EPFX for muscle relaxation, I find that the muscles release significantly more quickly and easily, and that my clients experience less pain.

Recently, I did my first session like this with a client for whom I had done SRA in the past. In addition to the benefits of increased muscle relaxation, that evening she called me with a surprise report. Within a couple of hours of our session, her vision was completely normal, i.e. 20/20. She has worn glasses for

many years, and for two years has struggled with spasms and worsened vision in one eye. When I saw her again a few weeks later, she told me that her vision had stayed improved for over a week, though it did gradually return to its more usual state.

City Unknown

In June of 2006 I began experiencing itching in various places on my body. I mean everywhere. For approximately the previous ten years, about once a year, I would have my hands start itching and this would result in deep cracks to the point of having to wear gloves. I had gone to a dermatologist who charged me \$100 to tell me he really didn't know what was causing it. Of course they would prescribe different creams, cortisone based and so eventually my hands would improve until the next year when it would happen again. The difference in the 2006 outbreak was that the itching would move to different places in my body. I would itch until I was black and blue or would dig the skin open. The most uncontrollable itching you can imagine. Some place would improve and then it would start in another. I can honestly say that there was no place on my body that did not itch at one time or other. I went to my regular doctor four different times trying to see if I could get some relief. She could not help me other than to prescribe pills for allergies and different creams. The general thought was it was some sort of eczema. So I went on a journey of using the natural approach which involved chiropractic and acupuncture.

I hadn't seen a huge change from these things. The itching had been going on for ten months when we first talked to my practitioners. They had been working with the EPPX Quantum biofeedback approach for some time.

My husband felt after seeing what the Quantum biofeedback concept involved that this could be of help to me. I must say I was reluctant at first but due to my desperation to get help I went. At this point my left foot had become so swollen, itching, oozing having not been able to wear shoes on that foot for months.

The tops of my hands were so itched open that I would have to wear gloves or sleeves long enough to cover them up. I was truly miserable. After just several treatments I would have to say I started to see improvements.

I honestly don't remember how many treatments I had total but I can say that the symptoms have all disappeared and my hands look absolutely normal, to the point of people not believing that they could ever look like this again. I have been able to wear real shoes for quite some time and am so happy I took the chance and tried this method of treatment. I have since recommended this to others who have likewise seen extreme benefits from it. I will definitely be using this method of treatment for any other physical problems that I or my husband experience.

Age: 30 Female

I haven't been diagnosed with anything but I can tell you it adjusted my back. I had been suffering for days with back pain, there was pain just to get out of bed. So I got on the QXCI machine for about an hour and I got out of the chair and my back felt much better. During the day I could feel my back pop and crack like as if you were at the chiropractor. The next day I woke up and I was pain free. Have been for the past year. It was amazing to feel your spine and muscles move and adjust themselves.

City Unknown

I want to take a moment to thank you for all the SCIO sessions you have given me. They have been life-changing. In particular, the last treatment helped my lower back spasms and has given me tremendous freedom from the pain after six months of living with them. This progressive and non-invasive treatment has been so outstanding that I know I will live a long and healthy life with this SCIO available to me.

City Unknown

Immediately after my session with the EPFX I felt an unusual sense of wellbeing and inner peace. I am not sure how bio-feedback works and I was passive and sleepy during the session, but for sure it is effective: After only one session I was able to sleep well while I had been suffering from insomnia; I felt clear and peaceful in my mind, while I had been having obsessive thoughts lately; I had no desire to drink alcohol, while I was having a few glasses of wine on a daily basis; and my usual resistance to exercising was gone as I found myself naturally wanting to move my body.

The chiropractor puts your bones back into alignment, bio-feedback does the same for your entire organism and your brain.

My practitioner is compassionate and down to earth and she uses topnotch equipment. I highly recommend her.

City Unknown

I have numerous testimonials and super success stories during the 4 years I have been working with the EPFX device. This client came to me wanting to try alternatives to chemotherapy. I worked with her for 3 months, and through the EPFX, was able to identify the causal factors which led to the growth of the tumor, specifically heavy metals, parasites and stress. We eradicated each factor with weekly treatments on the EPFX as well as adjunct methods for cleansing, breaking down the tumor, eliminating

parasites, metals and reducing stress at work and in personal relationships. My client was extremely compliant with various suggestions and lifestyle changes.

After only 3 months, the tumor was gone at her next check up!

City Unknown

I have done very few sessions as I just felt I was not ready. However after returning from my advanced training I did two very gratifying sessions.

1) 79 year old female, that was in constant pain and utterly tired for months came to me for help. She said she has had multiple doctor visits, had all sorts of different prescriptions and nothing helped. I ran a full session on her and then other programs as I saw fit. I checked with her that evening and she said she already felt so much better. I also did another 30 minute session next morning. The following morning she called me and said she had not felt so good and energetic in over 10 years and said "wow that machine of your sure did something great".

2) I visited a neighbor (a 75 year old male) and saw that he had very serious gout pain and couldn't even walk. I asked if he wanted to give Biofeedback a try and said I'll try anything. Again I ran various pain programs. Nothing seemed to have changed the next day. He wanted me to try again. I ran another session and 2 days later he went golfing!!! Please bear in mind that I advised both clients to continue taking whatever medication the Doctors had prescribed but both of them were certainly delighted with the suddenness of relief when nothing helped previously.

City unknown

To whom it may concern:

For several years, I dealt with what has come to be known as "restless leg syndrome". It began as a creeping feeling in my legs during my waking hours-a need to move my legs around while sitting-that was really impossible to resist.

Eventually, it got to the point that, while sleeping, I would move my legs around so much that it was impossible for my wife to sleep in the same bed with me. I spent months (years?) on the couch. At one point, I did go to a M.D. who prescribed Mirapex to stop the leg movements. He said it was used in the treatment of Parkinson's patients, but that some success had been seen with restless leg people when used in small doses. I did try the Mirapex, and it did help some, but not completely. Moreover, I didn't like the idea of using some mysterious prescription drug of unknown origin, and with who knows what side effects. I quit using the drug and the symptoms persisted

Finally, I sought the help of an efp/scio practitioner. One of the first things that came up in the biofeedback session was that I had a very high caffeine toxicity. I dearly loved my morning coffee

routine, (and I mean I DEARLY loved my coffee) but at her urging I quit drinking coffee that day. I haven't had a cup of coffee since (about three years).

Almost immediately after my biofeedback sessions I noticed the restless leg symptoms decreasing and now they are gone completely.

I have no doubt in my mind that the efpX/scio sessions are responsible for the cessation of the restless leg symptoms that I was experiencing. The biofeedback work had the compounding effect of balancing my body directly, while, at the same time, making it easier than I could have ever imagined to give up a coffee addiction that had been with me my entire adult life (30 plus years).

Thank you Dr. Nelson for bringing the efpX/scio to us.

# QXCI Biofeedback Adjuvant Training Modalities for Cancer

QXCI Navigation & Clinical Operations

By Dr Deborah Drake

Copyright Aug 30 2003

Cirque Communications Inc. Publisher

[www.HarmonizeYourHealth.com](http://www.HarmonizeYourHealth.com) Distributor

# Adjuvant Cancer Therapies

- Biofeedback is not for diagnosis but rather support, therapy, directive healing, and guidance, and should be used for informational purposes only.
- Informed consent is necessary for a therapeutic relationship.
- No claims of any kind are made here, but rather navigational suggestions on therapies.

# Cancer

- Cancer Risk Factor Therapies
  - » Heavy Metal Toxicity, Perverse Energies, Isodes
  - » Family Genetics & Miasms
  - » Chronic Infection induced Celiac Disease > TNFA
  - » Smoking Addiction Therapy
  - » Sugar Addiction Therapy
- Detection of Cancerous Infections
  - » Fasciolopsis, Mucor, Aspergillus, Candida
  - » Pilomorphic Stabilization in Blood Therapies

# Cancer Detection

- QXCI Test Matrix Probabilities
- Old Cancers
- New Cancers

# Cancer Scan

- The New Medicine – Hamer conflicts
- QXCI Hamer Cancer Scan
  - » Timed Therapies > Degeneration > Cancer Scan
  - » Select Cancer Type and Review Associated Conflict
  - » Treat Reactivity, Fatty Acids, Mental Causes,  
Destruct Cancer Virus once per week x 4 weeks
  - » Spinal > NLP > Brain Scan for Nutrition > Cancer  
Scan > Physical & Emotional Conflicts
  - » Test > Auto-Zap Prions once per week x 4 weeks
  - » Release Subconscious Negativity and Thantos Instinct

# QXCI Cancer Therapy

- Timed Therapies
  - Degeneration Repair
  - Cancer Scan Pop Up
  - Treat Reactivity
  - Treat Fatty Acids
  - Treat With Change of Mental Affirmation
  - Destruct Cancer Virus
  - Ameliorate the effects of Chemotherapy
  - Ameliorate the effects of Radiation Therapy

# Cancer Risk Reduction Therapies

- Main Test Matrix > Search > Red Bar Dismantle
- Drag to HOLD Bar > Associated Cause/Remedy
- Bioterrain Correction, Auto zap Miasm,
- DNA & Telomere Repair, Anti-aging Modules
- Homotoxicology & Short Sarcode Detoxification

# Timed Therapies for Cancer

- Timed Therapies for Repairs including:
  - Metabolic Repair
  - Hormone Repair
  - Neurological Repair
  - Psychological Repair
  - Sleep and Relaxation
  - Immunity

# Adjunctive Pain Therapies

- Pain Modules for Cancer or Trauma
  - Timed Treatments (Plus Additional Therapy Box)
    - » Oxygenation
    - » Feel Good Therapy
    - » Sleep and Relaxation
    - » Inflammation
    - » Pain
    - » Muscle Flexibility, coordination
  - Trivector >Energetic > Injury Repair Menu & Bar

# Adjunctive Auto-Frequency AutoZap Therapies

- Various Autozap functions
  - » are appropriate to holistically support a Cancer Patient
- Autozap All
  - » Autozap All Top 200 + Top 30 Matrix Items by Emptying the Report and Re-Loading the Purple Hold Tray with the Top230 items, & converting the Treat Button to “3 minutes” using the Autozap function.
- AutoZap Specific Relevant Items
  - » Top Twelve Pathogens, Prions, CoQ & Nutrients, Normal Flora, Fungus, Worms, Hormones etc.

# Adjunctive Cancer Nutritional Strategies

- Nutritional Keys to Healing:
  - » Provide Enzymes, Amino Acids, Minerals, EFA's
  - » Provide Ellagic and Ellagic Acid for Apoptosis
  - » Serotonin Loading for Mood and Lymph
  - » Dopamine Loading for Adrenal, Thyroid, Pineal, Heart, and Muscle
  - » Antioxidant Nutrition ZBACES
  - » Sulphur Loading NAC, MSM, Glutathione, Lipoic Acid
  - » AutoZap & Provide Live Food Probiotics such as Soil Based Organisms and Spirulina Algae

# Adjuvant Therapies- Diabetes

- Blood Sugar Disorder Control Therapies
  - » Timed Therapies > Blood Sugar Repair
  - » Timed Therapies > Degeneration > Diabetes Repair
  - » Nutrition > Balance Adrenal Glands & Hormones
  - » Risk Profile > Oriental Herbs for Organ Cleansing
  - » Teas, Flower Essences, Sanamin Remedies, Ayurvedic remedies, Allopathic Antibiotics/Chemo
  - » Provide Written Follow up instructions by printing Information > Letters > Appropriate Diet et al.

# Adjuvant Therapies - Diet

- Dietary Strategies

- » Provide Gluten Free Diet,
- » Eat Right 4 Blood Type
- » Antioxidant Advice,
- » Resource List of Good Foods
- » Personalized Allergen List to Aid in Avoidance
- » Provide Live Food Probiotics such as Soil Based Organisms and Spirulina Algae

**To Whom it May Concern,**

**Re: Letter of Introduction for The Quantum Biofeedback Research Project**

I am writing to you as an experienced Canadian Physician, Researcher and Master Quantum Biofeedback Instructor to ask for your support and/or participation in a formal worldwide prospective research study designed to sonically map human stress and relieve illnesses with non-invasive **Quantum Biofeedback (QBF) Bioresonance or Ecllosion scanning**. The goal of this well designed, double blind, controlled, cross over, multi-center 3 year study is to provide efficacy and safety data on the ability for QBF to identify subjective and objective stressors and to qualitatively and quantitatively reduce these stressors in order to improve immunity and Bioterrain, foster ideal cellular vitality and weight, and prevent the morbidity and cost of ill health.

The details of this proposed standardized QBF for alleviating the stress and suffering related to various disease states laid out in a **QBF Research Project Orientation Manual** and Appendices attached. Four Q-Pod manuals outline the research development and design, Q-Pod Leaders duties and educational resources, Q-Pod Participant Procedures and Protocols outlining exact details of clinical, research and reporting methods, plus evaluation strategies, and finally a support manual of learning notes, PowerPoint presentations, DVD's and self testing exercises. Inexperienced individuals, groups or corporations can easily run this program due to the fact that the entire program has been made into bit sized, itemized modules for ease of learning, clarity and flexibility. The program is also designed to focus on certain basics for everyone, while inserting a tailored specific protocol relevant for different disease states in question. This allows a personal touch while controlling for cross case standardization and provides necessary study controls to promote more objective meta-analysis of aggregate data by grouping similar disease states together for later analysis. For instance, different diabetics could be compared to determine occult commonalities and suggest future treatment avenues, which could improve current protocols.

Overall, I hope to collect useful information at a reduced cost to clients and practitioners in exchange for data collection to guide the profession, while assisting Research Pod members to learn the self-application of stress reduction, pain and relaxation management techniques for themselves, their families, businesses, corporations, governments and ultimately the planet.

This QBF Research Project Turn Key package is complete with all the installed QBF equipment (using EPFX Technology), written background information, self and group teaching tools, clinical protocols and operational resources, legal, educational and business operations information, and ongoing technical and educational support, web streaming classes, e-books and newsletters, anonymous research data collection methods, important contracts, consents, evaluations and legal requirements for an instant start up. In addition, we have designed a front loaded tapering schedule to ensure early success, and financial incentives to encourage compliance and provide a self care fiscal bonus to reward participants. Other opportunities exist within this project to master QBF Certification as a career Stress Therapist, access professional development strategies and opportunities as a Quantum biofeedback Instructor, and access to computer skills and clinical skills mentoring with supervision which will help to start a successful Stress Therapist business hastened with accessible, affordable start up costs, low overhead and ownership of an Ecllosion scanner in the end with our lease-to-own QBF equipment.

Please invest in your own bank of health, your first wealth, and join us in a project designed as a win-win situation for improved personal or corporate health through stress reduction, improved health education, improved affordability and accessibility of top notch, non-invasive safe clinical care and professional training and certification, plus social contact with similar sufferers who can mentor each other, while helping generate a worldwide wellness research data bank. Thank you for your interest and support in contributing to knowledge that will help heal the world one person at a time, starting with you. Please contact me if you wish to proceed, and I would be happy to explain and provide materials for you to complete your life altering decision to care for yourself and those around you. I look forward to meeting you.

Wishing you the Best of Health

Sincerely,

Dr. Deborah Anne Drake, Medical Researcher and Biofeedback Instructor

# Quantum Biofeedback Research Project

## Part I

### Appendix A- QBFRP Background of Research and Development:

#### Introduction

In society at present there are dramatic challenges to wellness. The current study called QBFRP is designed to address this challenge by using technology to help us uncover hidden clues, provide new problem solving techniques for solving the stress of occult conditions, and address humanity's pressing need for accessible, cost effective, safe, non-invasive hygienic health care. Our new corporation called Quantum Relief Inc. has taken up this mission to complete an educational and research based investigation called **Quantum Biofeedback Research Project**. This **QBFRP** will address the self learning and interactive enjoyment of a portable, reliable technology solution called **Quantum Biofeedback (QBF)**, that can measure electrical disturbances in the human body, animal or inanimate space, and correct these abnormalities to relieve stress, pain and promote relaxation. Learning these skills are now needed as basic survival strategies when addressing the preventative health concerns of this planet and her people. This study is designed to show how everyone can learn to easily monitor themselves, and contribute to a world data bank on mapping illness prevention, while saving health care dollars on illness and redirecting them towards health promotion.

Professor William Nelson's **Quantum Xrroid Conscious Interface (QXCI)** and later Scientific Consciousness Interface Operating System (**SCIO**) and the North American version called **Electro-Physiologic Feedback Xrroid (EPFX)**, which here will be referred to as **QBF (Quantum Biofeedback Eclosion Scanning)** uses space age memory storage, video graphics, rapid Xrroid computational abilities and most importantly, digital human to digital computer "conscious interface" that can access the unconscious mind and use the brain to direct healing where it needs it the most. All this is possible through the use of a laptop computer & the portable Eclosion or SCIO/EPFX peripheral box which contains sophisticated, safety loop, three-dimensional bioresonance harness linked to scanner software for quick access to a precise acoustic navigational disease dictionary, and hundreds of options for therapist or self-selected non-invasive Bioresonance Stress Therapies. These therapies can then be inexpensively applied to energize and imprint water with stress relieving frequencies, which can be distributed relieving both suffering and financial burden on the world.

#### Quantum Biofeedback Research Project

Canadian Physician, Biofeedback Educator and Researcher Dr. Deborah Anne Drake has created **Quantum Relief Inc.'s Quantum Medicine Project**. The following list outlines the actual completed facets of the overall project steps so far from 2002 to 2005, and outlines the solid, sequential development steps necessary to bring accessible, affordable and reproducible stress reduction and healing awareness to the

masses. The project is complete in development and ready to begin its quest of an international research study analyzing QBF data collection from around the world to determine the very best protocols to aid human suffering illness and despair. This study will be called the Quantum Biofeedback Research Project, with statistical analysis to start June 2005.

### **Quantum Medicine Project Overview of Tasks Completed to Date (June 1 2005)**

1. Review data from medical immune related pilot studies,
2. Finance Purchase of Master Research and Education Equipment, QXCI/SCIO/EPFX Undertake Certification Training, Educational License as Diplomate instructor.
3. Master application of Eclosion QBF scanning to enable skill and mentoring of others,
4. Quantum Biofeedback (QBF) testing, application development, Quality Assurance Study
5. Investigate status of legal and licensing, advertising regulations
6. Publish supportive results and scrutinize the validity and completed project evaluation,
7. Develop a management team of high ranked, experienced leaders in their fields
8. Create Board of Governors to write and execute business plan
9. Secure right to retail sales
10. Secure right to research Sales
11. Secure right to education development and credit for QBF courses
12. Secure right to Eclosion brokerage for importation,
13. Secure an international Business Name and Registration
14. Secure Homeland and International Accountant
15. Secure Homeland and International Bank Accounts
16. Secure corporate lines of credit for leasing Quantum Biofeedback
17. Develop training material to show how to set up Eclosion Device hardware, software
18. Finish beginner, intermediate and advanced training support for the QBF industry
19. Build ongoing support through website for access info newsletter
20. Build access to automated sales via on line shopping cart for products /services.
21. Build advertising to our resource center on line at [www.HarmonizeYourHealth.com](http://www.HarmonizeYourHealth.com) (Red Book, EZWBD.com for 10 search engines per month)
22. Start Payroll development account with EZ Wealth By Design. For Quantum Relief and Start Payroll structure for owners dividends and sales commissions for QBF
23. Training Start up with Complete Orientation Package of QBF Training Materials
24. Finish Audio copy of NBCB Certification Courses conversion & insert into training, and print NBCB blueprint manual in scanned format for E-book.
25. Finish Editing QBF Clinical Skills Sets on DVD with appropriate labeling for copyright protection and intellectual property rights for Dr. Drake

26. Finish typing and picture in Harmonize Your Health **Quadrant Meal Plan** for safe menu planning Finish Protocols for Each QBF R Pod Condition types

27. Print Manuals of Outline of **The Quantum Biofeedback Research Pods**

28. Book Annual Education Recertification retreats for QBF training

29. **Quantum Biofeedback QBF Research Project to Open June 2005**

Data Collection in Double Blind Randomized Controlled International Trial will analyze Stress Reduction using QBF in Clinical States of Stress, Pain, Relaxation and Variety of Disease Conditions including:

|               |   |
|---------------|---|
| Diabetes      | Dr. Ben Licht, Florida,                     |
| HIV-AIDS      | Red Cross Children's Hospital in S. Africa, |
| Autism        | Theresa Badillo, Florida,                   |
| Obesity, HRT  | Jeanne Feather, Hockley Valley, Ontario     |
| Auto-Immune   | Jeanne Feather, Maps Inc                    |
| Energetic Spa | Jill Scott, Costa Rica, USA locations       |

## Part 1 - Mission Statement (See appendix B)

### Quantum Biofeedback Research Project Goals & Objectives

#### GOALS

The **GOAL** of the **Quantum Biofeedback Research Project (QBFRP)** is to

1. **Develop consistent certification** self-training techniques, plus clinical skills resources to build confidence and leadership in clients and stress therapists,
2. **Provide cost reduction for stress therapy** clients willing to participate in using tools such as investigational QBF in an integrated, guided stress reduction model
3. **Devise reliable research strategies** in QBF Research Pods in order to evaluate the efficacy of QBF in Stress Reduction in various stress related health conditions, especially stress, pain and relaxation management.
4. **Develop and train Certified Quantum Biofeedback Practitioners and Instructors** in non-invasive applications for Stress reduction, Pain Management and Relaxation methods as an ongoing career option by equipping them with a Turn Key package of educational and professional materials and training.
5. **Provide feedback via aggregate QBF research data** of high integrity to clients, research pod leaders and ultimately to the public and licensing authorities for on-going equipment safety certification and regulation, and preventative medicine strategies.

#### OBJECTIVES

The objectives of the QBFRP is To Evaluate the Efficacy of Quantum Biofeedback from clinical, research and educational perspectives, to determine the overall impact

1. **Develop CBT Training & Certification:** Develop CBT Stress Technicians, Therapists, Instructors Via a Scholarship /Leasing Research program and Integrated QBF Clinical Skills Course for Certification in Stress Reduction CBT
2. **Complete CBT Instruction with Mentorship:** Apply Integrated QBF Clinical Skills Stress Reduction Techniques in Supervised Group Research Pods to clinically helping treat the symptoms of those suffering stress, Mentorship, Study Credits and Research Opportunity for Biofeedback Instructor Certification,
3. **Partake in Quantum Stress Therapist Research :** Learn to execute our research design and protocols while compiling valuable continuing education credits, mentorship skills and gaining supervised experience in the research analysis for Specific Stress Conditions
4. **Contribute to Primary Science:** Anonymously use QBF Research Pod data to help solve medical mysteries by consistently mapping across cases with similar stressors, then use Meta-analysis of the Qualitative and Quantitative aggregate data collected to highlight solutions and viable strategies for success.

## OUTCOME MEASURES

Qualitative and Quantitative measures will be used to study standardized QBF Stress Therapy protocols, and then results will be regularly submitted to an Institutional Research Board (IRB) and analyzed in a data bank for feedback on progress with the goal to measure outcomes in the following broad through specific ways:

5. **Evaluate the Clinical efficacy** of Quantum Biofeedback (QBF) on Overall Stress Reduction After a prescribed Course of Therapy
6. **Evaluate Research Commonalities** by studying aggregate data of many common stress related and costly conditions: Diabetes, Obesity, Immune Related Disorders, like Autism, Stress, Pain and Relaxation, Vascular disease
7. **Evaluate the Research efficacy** of Quantum Biofeedback (QBF) as a Stress Reduction Tool for comparing Clinical Research Pods
8. **Evaluate the Educational efficacy** of Quantum Biofeedback (QBF) Stress Reduction Education Course with Guided, Self-Directed, Computer Skills

## Part II

### Appendix C - Mission Statement Abstract

**The Goal** of the **Quantum Biofeedback Research Project (QBFRP)** is to initiate Quantum Biofeedback (QBF) Research Pods in order to reduce health care costs and risks to individuals, businesses and governments, by providing individuals or corporations with a turn key operation, complete with QBF equipment and installation, teaching materials (DVD's, procedure manuals), Pod Leader Clinical skills training and standardized modular Stress protocols to teach self-guided research pods the best use of non-invasive **Quantum Biofeedback (QBF) Stress Reduction Techniques**. In addition, the gathering of qualitative and quantitative multi-center QBF research data from these QBF Research Pods will be anonymously collected monthly to create a cumulative archived data bank to verify its safety and efficacy to governmental regulators, health professionals and give feedback to the Pod Leader, who can then better guide the Pod and community with practical solutions to common stress related conditions. In terms of method, anonymous Pod Data will be collected monthly on QBF efficacy using the very best study design known for statistical power, using large subject numbers in a multi-center trial with standardized procedural and statistical review, internal calibration, double blind, placebo and case controlled, cross-over design, with results met-analyzed in common aggregate and in several progressive intervals over a prospective 3 year study. This data will review QBF efficacy on multiple stress related conditions responsive to stress, pain and relaxation therapies, and will show clinical outcomes as percentage of improvement on many significant subjective and objective

clinical indicators of bioterrain health, weight, vascular tone and vitality. Measuring all the Research Pod participants with the same standardized method and technology, as can be done on the Eclosion Scanner, now makes all of these problem-solving possibilities a tenable reality and could greatly impact the health of humanity.

**In terms of intended outcomes**, the design of the QBF Research Project and Research Pods can serve to help **individuals, corporations and communities** to learn many things at many interactive levels including:

1. **to save money** on personal stress prevention or reduction therapy using our QBF Research Pod **Member \$100 Rebate** per one hour QBF session, and \$1000 rebate for study completion as an incentive to participate in an 3 year professionally guided research endeavor to optimize health.

2. **to reduce personal or corporate stress** & provide ongoing risk management, by promoting self healing, self responsibility, and self control through specific QBF strategies & teachable tools applied to specific stress related conditions or general stress reduction

3. **to analyze the qualitative and quantitative effect of QBF** on the reduction in symptoms of stress, pain or relaxation disorders by measuring and giving monthly feedback measuring changes in wellbeing to individual and the to the collective Pod

4. **to master personal computer skills & QBF skills** in a supervised venue at a graduated pace, with professionally designed DVD lessons from beginner, intermediate and advanced navigation to clinical skills and instructor level courses designed to maximize, integrate & optimize the QBF learning experience

5. **to mentor public participation and leadership** as Pod Leaders become trained and can in turn mentor many public clients in guided Pod tutorials, effectively teaching each pod of 20 learners to reduce stress, promote interactive problem solving, and standardize data gathering.

6. **to inspire new leadership**, since not only will the Research Pod's collegiality improve social fun and compliance, it might hopefully inspire new capable teachers among those in the Pod to branch out and Purchase the rights to a new Pod, by using their Research Stipend Exit Bonus to lease a second level QBF Turn Key Package. Thus, this educational loop can become reproducible, self sustaining and perpetual

7. **to qualify for Professional Quantum Biofeedback Therapist Certification in Pod Leaders** as a QBF Certified Biofeedback Technician, Therapist, Instructor or Diplomat Instructor, using our 3 year clinical skills course, research Pod Mentorship Program and Equipment and Training Scholarship program

8. **to participate in the first worldwide Quantum Medicine Research Project**, ideal in research design, independently corroborated, ethical, scientifically controlled, professionally guided, double blind, and one that can substantially contribute to an international scientific data base gathering, to help map the best solutions for stress prevention and therapy in commonplace diseases

9. **to learn to help underprivileged organizations and communities** by building a foundation for donating shared research knowledge, resources and partial profits to buy QBF Equipment for Charitable causes and organizations, such as Diabetes, AIDS, Autism

**10. to encourage business vitality, productivity and reduced accident rates** using QBF Stress Reduction Research Pods at work through corporate sponsorship in the industrial, manufacturing, health care, education, natural resource sectors, in an attempt to protect the greatest asset, the worker

**11. to reduce community clinical health risks and costs** through public policy changes after analyzing the QBF's Research Pod aggregate QBF stress reduction efficacy through qualitative and quantitative measures to evaluate QBF's Educational, Research and Clinical effectiveness.

**12. to foster community resource development** since well trained and certified biofeedback technicians, therapists and instructors will be professionally certified in the process, encouraging the future economic growth potential and wide application of this technique to ultimately lower societal costs, stress, and to improve corporate and individual health.

In short, measurably improving vitality should measurably improve productivity and profitability. Easy Turn Key design and other financial incentives to recruit and retain QBF Research Pod leaders as well as financial incentives to encourage pod participants have been included to ensure feasibility, reproducibility and ongoing expansion of the project over time. Ultimately, the QBF Research Project is a win-win adventure to measurably improve stress in a refined, accessible, fun and social format that can promote morbidity reduction, cost savings, improved communication, understanding and awareness at every level of individual, family, community, business and government.

## **Part III - Study Design**

### ***Quantum Biofeedback Research Project Analyzing QBF Stress Therapy Efficacy in Q-Pods***

#### **Abstract**

Dr. Deborah Anne Drake, Canadian physician and a Quantum Biofeedback Diplomate instructor designed this study to gather data in a three-year, standardized, prospective, placebo-controlled ambulatory clinical trial using Quantum Biofeedback (QBF), in order to measure and define the level of QBF's positive impact on the Stress reduction on self-selected clients suffering with stress-related symptoms of Diabetes. This study uses research pods, groups of a minimum of twenty clients with diabetes, as defined by previously documented elevated fasting blood sugar level or an elevated Basal metabolic index over the normal range of 24% body fat. After a set protocol with standardized calibration, standardized study protocols, and standardized research data gathering, the aggregate data is meta-analyzed for anonymous group success rates and improvement.

This study will show that QBF significantly normalized the percentage of Objective signs like bioelectric parameters and body mass index, as well as improvements in Subjective Stress scores. The Study revealed significance future positive implications for enhancing QBF protocols, compliance, promoting health care cost saving, client symptom reduction and self-care awareness.

---

#### **Purpose of Study**

Dr. Deborah Anne Drake, Canadian physician and a Quantum Biofeedback Diplomate instructor designed this study to gather data in a three-year, standardized, prospective, placebo-controlled ambulatory clinical trial using Quantum Biofeedback (QBF), in order to measure and define the level of QBF's positive impact on the Stress reduction on self-selected clients, suffering with stress-related symptoms like in Diabetes, colitis, autism, hypertension, heart disease, stroke, pain, arthritis, obesity, mood disorders and others. This study uses research pods called Q-Pods (Quantum Question pods) of groups of ideally minimum of twenty subjects/clients with documented stress. For instance the subject may be concerned re stress of being a diabetic, as defined by previously documented elevated fasting blood sugar level or an elevated Basal metabolic index over the normal range of 24% body fat. The subject would be guided by the Q-Pod leader and taught how to perform a standardized course of QBF on themselves while collecting data to ensure improvement.

After a set protocol with standardized calibration, standardized study protocols, and standardized research data gathering, many Q-pods data can be anonymously gathered monthly, and the aggregate data will can be meta-analyzed and fed back to the Q-pod to help monitor the success of the entire group, fostering motivation, and commitment to continue facilitated, self directed health. This study will show that QBF significantly normalizes the percentage of Subjective stressors, normalizes Objective

signs like bioelectric parameters, and normalizes Clinical Stress scores such as body mass index. With these implications, QBF promises many significant future positive implications for enhancing preventative health protocols, compliance, health care cost saving, client symptom reduction and self-care awareness.

### **Objectives:**

The Study of QBF on Stress Reduction in Diabetes will show:

1. QBF is safe, easy to learn, effective; and it can be additionally supportive and fun when done in a mentoring pod
2. QBF is capable of quantifiably reducing Objective stress-related illness symptoms, such as bioelectric markers (VARHOPE Improvement, cellular vitality)
3. QBF can retrain the metabolism to normalize body fat % and weight as shown in the normalization of the BMI (Basal Metabolic Index).
4. To metaanalyse aggregate data from different research pods to discern trends.
5. To evaluate client satisfaction through clinical changes and symptoms improvement

In summary, after meta-analyzing multi-center research data plus reviewing clients studied with standardized QBF protocols for Diabetes, this review shows a promising new avenue for reduction of stress risk factors and suffering in diabetes, by using safe, non-invasive tools called Quantum Biofeedback (QBF) in a self administered way that promotes self-care, ongoing compliance, and reduction of health care costs.

## 2. Background Information

### ***Process:***

Quantum Biofeedback has had a major breakthrough in technology which has greatly advanced its speed to match biological systems and brain speed, improved accuracy due to 3 dimensional holographic high definition resonance mapping and user friendliness with non-invasive harnessing and computer assisted probability calculations. Color coding, and the multitude of preprogrammed menus along with standardized calibration and removal of examiner effect has made this tool highly reliable, sensitive and specific. Stress has become a major risk factor in many modern, costly illnesses, and the QBF attempts to map and navigate the subject back to homeostasis by specific stress reduction techniques that will be both taught and implemented here.

## 3. Experimental Design

### ***Process:***

Stress Reduction in Diabetes

Dr. Deborah Anne Drake, Canadian physician and a Quantum Biofeedback Diplomate instructor designed this study to gather data in a three year, standardized, prospective, placebo-controlled ambulatory clinical trial using Quantum Biofeedback QBF), in order to measure and define the level of QBF's positive impact on the Stress reduction on self-selected clients suffering with stress related symptoms of Diabetes. Diabetes is a multifactorial disease that can be improved with reduction of basal metabolic rate and weight reduction, which depends on a course of therapy no less than 12 sessions designed for normalization of bioterrain for proper immunity, enzyme and neuro-endocrine function.

1. Subjects in the QBF Research Pod Study Group of twenty must sign informed consent, outlining their agreement to pay a discounted rate of \$42 per session for QBF scanning and \$8 data collection, saving \$100 per session. They must agree to participate according to the set schedule for minimum 1 year, preferably for an option up to 3 years, with extra sessions available biannually for two more years for a total of five years surveillance, while saving \$3600 in therapy fees, and becoming eligible for a study completion exit stipend of \$1000 per person.
2. Subjects must agree to attend QBF measurements and therapy sessions according to set protocol with more frequent sessions in the initial months to promote normalization, then tapering into a maintenance protocol with less frequent sessions to maintain progress over time.
3. Subjects must agree to have anonymous data collection sent from their research pod monthly for worldwide aggregate analysis, which will be posted to our QBFRP Q-Pod web for review by participants to gauge success.

In summary, the experimental design affords a prospective and measurable evaluation, but is unique in that it is driven by the self motivating power of the Quantum Biofeedback Training, group mentoring, quantitative reporting, personalized coaching and aggregate contribution to world wide studies on the solution for the disease at hand.

### ***Content:***

The following protocol will be adopted in each client over a finite period of time, with data collection along the way.

Month 1-2 Weekly one hour QBF sessions x 8 over two months

Month 2-6 Bimonthly one Hour QBF session x 8 sessions over 4 months

Month 7-14 Monthly one Hour QBF session x 8 months

Month 16 Once per Quarter (3 months) x 8 sessions

Month 32 Twice Annually (6 months) x 4 sessions

### Summary

Each client will have 32 sessions over 3 years or 26 sessions over 5 years designed in a decelerating number of QBF visits with the Research Pod Leader and/or the group, in order to retrain their physiology to maintain the new less stressed patterns of behavior, as groomed by QBF (Quantum Biofeedback) training.

## ***Section B Specifics Methods***

---

## **Section B**

### ***4. Equipment***

#### ***Process: Lease Turn Key QMRP Research Package containing:***

1. SCIO Hardware leased from Quantum Relief Inc.
2. SCIO Software Installed
3. Laptop computer Compaq Presario S4000 Model  
(128 Ram Video Graphics, with 1 GIG Hard drive RAM 100 GIG Hard drive memory, DVD burner, CD burner, Internet)
4. QBF Training Manual for Research Pod Leader
5. QBF Navigation DVD's (60 hours)
6. QBF Clinical Skills Training on Stress Therapies, Pain and Relaxation
7. QBF Stress Condition Specific Training of Condition in Question, (ie diabetes)
8. Access to 24 hour hotline for technical support
9. Access to Data collection and analysis

## **Content: QBF Research Pod Leader to Sign Orientation Agreements:**

**1. Join Quantum Relief Research Institute** as a confidential **QBF Researcher**.

**2. Attain CBT License:** Become a Certified Biofeedback Technician by completing training using Dr. Drake's audio study course and NBCB Blueprint document to study for and pass the North American Stress Therapist NBCB examination, and gain status as a Certified Biofeedback Technician (CBT).

**3. Lease QBF Device** as leader of QBF Research Pod from Quantum Relief Research Institute to begin Quantum Medicine Research Project research, training and practice building.

**4. Lease and Learn the QBF Basic Navigation** for beginners, intermediate and advanced and users provided on 60 hours of home study DVD's by Dr. Drake, to ensure the Research Pod Leader is knowledgeable about how to run the Biofeedback device modules that the Pod will ultimately learn from them in applied clinical cases.

**5. Learn QBF Clinical Skills Training:** Towards this end, the Pod leader must complete the 20 hours of Stress Risk Factor Management QBF Clinical Skills training course on DVD by Dr. Drake, in order to comply with skill levels in Stress, Pain and Relaxation therapies used in applications of QBF for both general population and specific stress protocols for the group under their care.

**6. Attain Certified Biofeedback Therapist Status with** after mentoring and evaluation by Quantum Relief Research Team Executive. Dr. Drake is licensed as a diplomate instructor by the NBCB to examine and certify the research pod leaders as certified biofeedback stress therapist on the QBF (SCIO/EPFX), and thus certify them to supervise study subjects in ongoing research.

**7. Research Pod Recruiting Agreement** authorizes Pod Leaders to supervise a target of twenty clients over a 1-5 year period, who are suffering stress, pain or the need for relaxation due to a specific condition in question. The Pod Leaders facilitative role is to explain the Biofeedback waiver of informed consent, to thoroughly explain, administer and ultimately teach clients stress reduction strategies through the QBFRP study. The research pod leader is responsible for administering this sequence for the pod for consistent data gathering and later analysis to be published anonymously so the pod can gauge its success monthly, and hopefully contribute data that can improve the fate of the entire group. The leader will have the advantage of a detailed, professional complete library of lessons for instructing the Q-pod, which allows anyone to partake as a leader who can certify as a stress therapist from a home study course among friends, relatives, colleagues or workmates. These modular protocols are full of wisdom and time saving guidance and are details about these training course materials can be found in the extensive Appendices and Protocols below.

## **5. Methods**

### ***Process: Sequence of Standardized Protocols per Stress Condition***

The Appendix Chart below describes the sequence of standard legal, opening closing and reporting instructions plus specific optional standardized instructions for research pod participants in differing stress groups ( i.e. diabetes, hypertension, autism). In particular each QBF hour long session will be opened and closed with **Standard** steps. The protocol variation however, comes in the middle with a **change in protocol** depending on each of the specific stress conditions tested. The protocol ends for all arms again with a standardized closing protocol, then a report and data transfer protocol. All research pod data will be similarly gathered in a consistent manner for uniform reporting and meta-analysis.

# APPENDIX II – QBF Procedures & Protocols Individual & Occupational Stress Reduction

Overview of Study Design Procedures & Protocols Protocol Prefix D=Diseases and O=Occupational Stress

| QBF Procedure                                |                                       | A            | B              | C           | D               | E            | F             | G           | H           |

## **6. Research Design**

### ***Process:***

The purpose of a double blind randomized study when placebo controlled is to show that an applied therapy has a measurable effect, and that the same effect cannot be achieved without the intervention or through placebo effect. In order to prove the effectiveness of QBF, this study design uses an initial four week period or Sham baseline control recordings on each client. While clients are being oriented to the training systems, we can obtain a "Body Stress Parameters " VARHOPE baseline for several weeks before therapy begins, we maximize the power of the study. Then we can compare these initial findings with future interval readings after QBF therapies are applied, which in itself, is a double blind tool with precision sensitivity and specificity for standardized calibration. This format of study method allows for the best cross over study design available, and can provide both individual (intra ) and communal (inter ) subject analysis. With internal self case control, we can then reliably depend on the data collected to reflect true clinical conditions and responses to QBF so that we can gauge future effects after Quantum Biofeedback in a statistically significant way.

Each Research Pod Leader will own or contract to lease from Quantum Relief Inc. a EPFX or SCIO device as the basis of our collective Quantum Biofeedback Research Project. QBF sessions will be administered in a tapering intervals, more intense initially with weekly, bimonthly, monthly, then quarterly and semi-annually one hour sessions booked over a 1,3 or 5 year tailored protocol. These session can be done individually or in groups of up to twenty when group therapies done. The research pod leader will have the clinical and educational tools to instruct the pod members to administer the protocol to themselves and each other, thus learning the technology under supervision. The team leader must know the equipment and qualify as a CBT Certified Biofeedback Technician and eventually CB Therapist and will be given the training tools for this transformation by Quantum Relief Inc. in the form of Research Pod Orientation Manual, DVD's, mentoring and seminars. This program will then generate income for the Pod leader's supervision time and skill.

The Pod Leader will be compensated to earn a fee for service of \$40 per hour of QBF scanning time per person in the pod, times twenty persons, according to a predetermined Schedule in Appendix 1. After the initial intensive weeks of starting a new pod, the QBF sessions will drop in interval intensity and time, allowing for the development of additional pods of other conditions or mixed groups, as time and energy permits. Thus the Pod Leader can make an average of \$50,000 - \$60,000 per pod per year. Their business will thrive and grow with satisfied clients, who then may bud off another Research Pod as a second layer. The payment by client to the pod leader should cover the minimum cost of the Turn Key Equipment over a three year term, but because of many members in the Pod, the cost to each can be lowered to improve access. We have designed the program to operate well with a sizeable Pod Member discount of \$100 per session instead of the normal QBF fees of \$150.00 per hour. Further incentives to keep the research pod together for the sake of consistent

prospective data collection will be built into the fiscal plan, with exit bonuses to leader and pod members for persisting.

In terms of the process of aggregate data collection costs these will be covered on an ongoing basis by a small donation from each member. In particular, each client must sign a consent to pay \$2 per each one hour of QBF scanning time to Quantum Relief Inc. for research pod data analysis. This \$2 donation will be accumulated over the course of the 3 years and will be rewarded as a compliance incentive repaid back to the pod leader and research pod members in a 50:50 split after completion of the study to enhance commitment for ongoing self care and attention. This \$1000 rebate to each Pod member may provide funds for them to lease a QBF device for themselves, now replicating the Pod with excellent trained leaders and providing another Turn Key opportunity to engage twenty more clients in our aggregate world wide study. It will not take long to mushroom pods membership into a huge sample size, again increasing the statistical power of our study.

Thus the Quantum Biofeedback system for Research Pod is funded in a method that is instantaneous to start, low in initial and operating costs, and offers a business asset building option with a lease to own program after three years operation. It fosters new business growth and educational opportunities to new users, to further entice career development and procure a highly trained set of QBF practitioner's world wide, who are supported with the safety and efficacy knowledge afforded by ongoing statistical review. Clients will be satisfied with the health improvements, cost savings, educational avenues explored, and with the socially and clinically supportive contacts developed. Corrective Feedback given monthly back to the collective Pod via internet web reporting , allowing for "health contests" between Pods, competitive incentives and a sense of contribution to world science to help others reduce suffering and stress.

## **Define Tools**

QBF            Device(SCIO/EPFX/QXCI) Evoked Potential Bioresonance Scanning  
Research Pod Leader Orientation and Training Manual  
QBF Navigation Training on DVD's by Dr. Drake, research director  
QBF Clinical Skills Training on DVD's by Dr. Drake, research director  
Appendix of Stress Related Condition QBF Protocols  
Members User Guide for Data Collection and Transfer for analysis

## **Structure of statistical analysis**

Monthly Data Collection by Research Pod Leader

Topic 1- Scan the Client with Standard & Specific Protocol intervals

Topic 2 - Make full report and save to Clasp and Word Doc

Topic 3 – Enter Clasp 32 "Tools and Data Transfer Menu" to enter subjective improvement, objective measurements, and case study details,

then send via internet to [www.quantumrelief.net](http://www.quantumrelief.net) for further evaluation and web reporting monthly to research pods for feedback on group improvement.

### **Expected Vs. actual results of the study**

Statistical analysis of the percentage improvement of clients' measurable parameters such as VARHOPE improvement, cellular vitality improvement, reduction in elevated Basal Metabolic Index (BMI) and other general and specific parameters will be assessed for statistical significance. See the Appendix below for the actual results of the study.

### ***Content: Overview of Intervals and Data Collection***

|                        | ID# | Age | Sex | Ht | Wt  | WHR | BMI | Pulse | B/P    | SOC | VARHOPE | Vitality | Res Freq | Speed |
|------------------------|-----|-----|-----|----|-----|-----|-----|-------|--------|-----|---------|----------|----------|-------|

## **Section C Results**

### **7. Research Findings**

#### ***Qualitative Indicators of Stress Reduction***

##### **Patient Reporting**

Clients who undertake Quantum Biofeedback therapy over a minimum course of 12 sessions tend to have reduction in stress related symptoms, improved sense of

hopefulness, self control and compliance, and obvious changes to their physical, mental and emotional body, as evidenced by changes in their subjective scores:

1. Reduction in Suppression and Obstruction to Cure (SOC) Score.
2. Reduction in Weight, waist and hip ratio, BMI, BP, Pulse,
3. Reduction in subjective stress score and improved % of overall wellbeing.

In summary, clients should be able to notice changes in symptoms of weight gain, body fat storage, food cravings, with an improved outlook, motivation and tools to continue compliance with a bioterrain correcting, stress reducing life style.

### **Investigator reporting**

The investigating Research Pod Leader should be able to report, after appropriate training and evaluation, that the QBF stress reduction protocol used in the study has been easily and successfully deployed with the appropriate attendance, execution and research data gathering in order to prove that:

1. Quantum biofeedback software training for disease specific navigation for pod participants can be successfully done on both individuals and groups.
2. The assurance of using a standardized protocol makes for a highly reliable test to be conducted in a variety of locations and reliably cross compared for large study numbers to improve statistical power regarding the outcome and help with future application focus.
3. The ongoing training of both research pod leaders and clients increases the population benefiting from biofeedback and should show a reduction in morbidity and health care costs that will be reproducible to other insurance populations

In summary, QBF will be shown to be a operator and user friendly method to have large and measurable effect in the reduction of stress symptoms and highlight a new strategies in self directed healing that could offer a solution to other invasive or costly therapeutic strategies now in use.

## ***Quantitative Indicators of Bioterrain Shift***

### **Quantum Biofeedback (QXCI, SCIO, EPMX)**

QBF Testing of 9000 bioresonance probability scores in 5 minutes, using the SCIO/EPMX harness will be done on each client after appropriate registration, consent, litmus pH testing, vital signs and Height, Weight and BMI measurements.

Sequential, standardized Stress Reduction Therapy Protocols are precisely laid out in the detailed Appendix schedule II of Protocols A-Z, and are used for each Disease Specific Research Pod with clients as instructed by their research pod leader.

### **Litmus pH Paper**

Urine and saliva pH before and after each QBF session as recorded in CLASP 32 Tools and Data transfer menu to be collated with Biofeedback data anonymously gathered for group analysis.

## **QBF or Allopathic Laboratory Tests (Blood letting Optional)**

### **Complete Blood Count**

- i. Hemoglobin to rule out anemia
  - a. MCV to rule out macrocytosis of B Vitamin deficiency
  - b. Microcytosis of Iron Deficiency
- ii. Platelets (abnormal indicates Acute Phase Reactant, low indicates systemic coagulation problem with Candida fibrin aggregation or hypersplenism)
- iii. Total White Blood Count with differential to rule out infection
- iv. Neutrophil count to rule out bacteria infection
- v. Lymphocyte count to rule out viral infections or tumors
- vi. Absolute Monocyte count to rule out fungus or Candida
  1. less than 40% indicates chronic Occult infection, greater than 65% indicates acute infection, i.e. Candida
- vii. Eosinophil count to rule out parasites or allergies
- viii. Basophil count for stippling to rule out heavy metal or lead poisoning

### **Serology**

- i. Fasting Blood Sugar
- ii. Two Hour Post-Prandial Blood Sugar
- iii. Hemoglobin A1C (Average Blood in 90 days)
- iv. C-Reactive Protein
- v. Anti-nuclear antibody (ANA) for inflammatory detection
- vi. Anti-gliadin antibodies for Celiac detection
- vii. Amylase to measure pancreatic reserve and inflammation
- viii. Gamma Glutaminase GGT
- ix. Uric Acid to detect fungal nitrogen byproduct
- x. Serum Total, HDL and LDL Cholesterol

### **pH Studies**

- xi. Saliva pH
- xii. *Urinalysis pH, glucose, blood, proteins, ketones*

## **8. Interpretation and Implications**

In summary, Quantum Biofeedback has been shown to be so effective, that it should be considered as a first line therapy, paid by insurance companies, in order to reduce the stress caused by Diabetes. Furthermore, this study will show that discovering and treating occult infections, (Helminthe-like pancreatic tapeworm, and duodenal pinworm, and liver fluke, thrush, and food poisoning), will reduce leaky gut induced Acquired Celiac sprue and autoimmune induction, and may have a greater part to play in pathogenesis and recovery in diabetes than previously appreciated. Future studies are warranted to delineate the best protocols necessary in terms of toxic and infection mapping, QBF timing, module choice and outcome measures.

## **9. Summary**

Quantum Biofeedback using a standardized approach can afford a more rapid, less costly, more compliant and therefore more widely acceptable method to address the hidden and complex issues facing sufferers. QBF has been studied and shown here and now to reduce the stress levels of diabetes and its complications on the circulatory, renal, endocrine and metabolic arenas of the body, including:

1. Measurable improvement of subjective stress symptoms.
2. Measurable improvement of objective stress parameters such as VARHOPE scores, BMI
3. Measurable reduction of the risk of stressful complications of occult food poisoning and other subtle infections as a cause of autoimmune compromise
4. Reduction in diabetic complications (elevated blood pressure, trunkal fat distribution, macroglossus of tongue causing snore and sleep apnea, which could stress, and ultimately compromise circulation compared with general diabetic populations.
5. Measurable improvement of research outcomes translated into
  - a. overall clinical improvement and improvement of cellular vitality
  - b. concurrent reduction of morbidity as evidenced by reduced Body Mass Index
  - c. reduction of cost in the therapy in what can be an expensive illness

In summary, Quantum Biofeedback is an excellent non invasive, cost effective, user friendly method for Stress Related Risk Factor Mapping, Bioelectric Terrain Retraining, and symptom reduction in Diabetes.

## **Section D – Evaluation of Data, Study Design & Future Recommendations**

### **Current status - What did you learn? (Evaluation of Study Process)**

Each QBF Research Study Leader and participating client will learn the operation and applications of QBF to their respective disease process, and the focused strategies to change future expression of stress as it relates to this illness. Each participant will leave the study after helping to evaluate what they have learned:

Topic 1 Computer Skills and Basic Operations

Topic 2 Quantum Biofeedback Basic Self Administered Diabetic Protocol Operation

Topic 3 Self Research into personalized causes and aggravation, risk profile and nutritional profile of each diabetic in order to foster personal awareness and responsibility.

In summary, the goal is to evaluate the QBF diabetic protocol and to determine if it is useful to reduce stress by learning to correct the body's bioterrain with a focused feedback tool, thereby reducing the suffering, pain, anxiety and end organ damage in diabetic clients.

## Evaluation of Study Data -Content Responses & Findings

### APPENDIX UU - QBFRP Study Quantitative Measurements

#### **KEY: Quantum Biofeedback Data from EPFX/SCIO/QXCI standards**

Definition: *SDAM=Standard deviation above the mean, SDBM=Standard deviation below the mean, SDO=Null or Mean score minimum*

Calibration: *factory calibrated to  $p=0.85-100$  for matrix sonic holograms*

Scoring System: *each 100 points = 1 Standard Deviation from the Mean*

Normal OSDM=*Zero Standard Deviation from the Mean Score range 60 – 100%, Abnormal Bioresonance Score: 1SDAM=200%, 2SDAM=300%, 3SDAM=400%*

*Original Data found in column 2 of Bioresonance Eclosion Scan.*

Study subject data will be analyzed before and after Quantum Biofeedback Scanning course, and aggregate, anonymous met-analysis will be done on the

Part I Subjective Parameters of Stress Reduction after QBF

Part II Objective Parameters of Stress Reduction after QBF

Part III Clinical Parameters of Stress Reduction after QBF

#### Part I Subjective

1. **Subjective parameters of stress reduction**, as % improvement reported by the client, when original and exit surveys are completed as per each section A,B,C,D,E,F for respectively weekly, bimonthly, monthly, quarterly, biannually, annually.
2. **Subjective reports of Quadrant 4,3,2,1 in detoxification diet**
3. SOC score improvement with reduction in overall SOC score from 3 to 2 to 1 standard deviation from mean,
4. Pre vs. Post Quantum Biofeedback Average % Individual score improvements in specific SOC parameters to localize the area of greatest stress reduction
  - a. Number of organs removed did not rise
  - b. Number of medications used reduced
  - c. Number of smoking reduced
  - d. Number of street drugs reduced
  - e. Number of amalgams reduced

- f. Number of allergies reduced
- g. Number of mental factors reduced
- h. Number of percentage of fat consumed per day reduced
- i. Overall Stress Score reduced (scale 1-10max stress)
- j. Number of sugar doses per day reduced
- k. Number of Caffeine beverages reduced
- l. Number of Alcohol Drinks reduced
- m. Number of accidents reduced
- n. Number of toxic exposures reduced
- o. Number of infections reduced
- p. Number of glasses of water per day improved
- q. Number of average personal stress reduced and specific areas reduced
- r. Reduction in Desire for things to change
- s. Reduction in organ stress on SOC
- t. Reduction in Sleep disturbance
- u. Subjective Goal for Weight Loss On SOC vs. therapist weight loss goal
- v. Reduction in Negativity
- w. Research Exit Questionnaire on Tools/Data Transfer Subjective self reporting of % improvement or worsening, as input at end of sessions.
- x. Entrance vs. Exit Surveys of symptoms
- y. Study Evaluation on condition improvement, study efficacy and enjoyment.

## **Part II – Objective**

### **2. Objective Parameters of General Stress Risks Using Standard QBF indicators of General energy improvement in the body electric and neuro-endocrine and immune systems, such as**

- a. Retest Overall VARHOPE scores % improvement
- b. Volts (dopamine and acetyl choline for adrenal Power) % improvement,
- c. Amperage (serotonin for mood and immunity and drive) % improvement
- d. Resistance (Conductivity through metals in mineral pool ) % improvement
- e. Hydration,
- f. Intracellular oxygenation,
- g. Proton and Electron Pressure for alkaline/acid balance
- h. Cellular Vitality,( indicating oxidative reserve),
- i. Frequency resonance pattern normalization on scale of 1000-15000 for normal (indicating improved mood control and anxiety reduction),
- j. Reactivity Speed Normalization of initial reading as a measure of % improvement for hypo or hyper-reactivity repair (Normal , 19)
- k. Phase angle improvement as an indicator of improved intracellular hydration and plump cellular angle
- l. Phase Response indicating appropriate reactivity
- m. Impedance % improvement to show improvement flow of energy
- n. Electrical Calculation of BMI % body fat
- o. Risk Factor Profile Normalization % improvement of score on scale of 100

- p. Bioterrain Graph Normalization (indicating normalized pH, hydration, oxidative reduction potential & mineralization, measured in Standard Deviation from mean.)
- q. Mineral Profile Normalization %Improvement of score on scale of 100
- r. Amino Acid Profile Normalization %Improvement of score on scale of 100
- s. Vitamin Profile Normalization % Improvement of score on scale of 100
- t. Enzyme Profile Normalization
- u. Stress Profile Normalization
- v. Hormone Profile Normalization
- w. Vitamin K Levels for blood thinning
- x. Vitamin U levels for detoxification reserve
- y. Dark Field Blood Analysis of Platelet Aggregation % Improvement
- z. Homotoxicology Right Spin vs. Left Spin
- aa. Homotoxicology Xenobiotics and Isode Toxin Load % Improvement of score on scale of 100
- bb. Homotoxicology Additional Factors % Improvement of score on scale of 100
- cc. Homotoxicology Nosodes Infection %Improvement of score on scale of 100
- dd. Homotoxicology Miasms % Improvement of score on scale of 100
- ee. Sarcode Panel of Organs % Improvement of score on scale of 100
- ff. Perverse Energy Panel % Improvement of score on scale of 100
- gg. Chakra Sarcode Objective Improvement or
- hh. Sarcode Report % Normalization per organ at each visit, for longitudinal reference as to the speed and course of organ healing over the course of Quantum Biofeedback.
- ii. Spinal Report for initial and follow up location, number and severity of spinal subluxations, degenerative discs, or nerve compressions
- jj. Perverse Energy Report as % improvement of scores <100 for reduction in exposure and resistance to electrical pollution
- kk. Emotional Graph % improvement of scores within 60-100 for mood balance
- ll. Neurotransmitter Graph for % improvement in number unbalanced transmitters
- mm. Causal Graph % improvement in # stressors <100
- nn. Aggravations Graph % Improvement in reduction of aggravating factor <100
- oo. Lymphatics Short Sarcode % reduction in inflammation, infection, degeneration

**3. Objective parameters with QBF Testing of individual risks** specific to Diabetes as tested from the main matrix, and added to the Clasp 32 Disease Dictionary to reduce common risk factors such as:

- pp. Celiac Sprue
- qq. Pyrogenium Food Poisoning
- rr. Tapeworm
- ss. Worms
- tt. Candida sp.
- uu. Virus esp Epstein Barr Virus (Mono, Chicken Pox, Human Papilloma virus)
- vv. Aspergillus Niger
- ww. Mucor Racemosis
- xx. Alloxantin (a fungal mycotoxin which dissolves the pancreatic Islet cells )

- yy. Benzene Score for hydrocarbon toxicity on scale of 100
- zz. Azo Dyes from Newspaper ink

#### 4. Objective Immunology Parameters

- aaa. Vaccination
- bbb. Reduced Diabetic Hyper or hypoglycemia with improved HbgA1C
- ccc. Improved Random and Fasting blood sugar control
- ddd. Reduction in platelet aggregation
- eee. Uric Acid
- fff. Cholesterol
- ggg. Monocyte
- hhh. Autoantibodies
- iii. TNFA Tumour Necrosis Factor Alpha
- jjj. TNF I Tumour Necrosis Factor Inhibitor
- kkk. Ferritin
- lll. Zinc
- mmm. Copper
- nnn. Magnesium
- ooo. Manganese
- ppp. Aluminum
- qqq. Prolactin
- rrr. ACTH
- sss. Thyroid antibodies
- ttt. TSH
- uuu. Free T4
- vvv. Free T3
- www. Mercury level
- xxx. Vitamin C level
- yyy. Cortisol level
- zzz. Selye Exhaustion Bar (Alarm, adaption, or exhaustion phase)

**Clinical Outcome Measures post QBF** which determine the % improvement in End Point Parameters specific to reduction of risk factors for the disease risk reduction in question, such as reduction in Diabetes, heart disease, hypertension, risk factors including:

- aaaa. basal metabolic index (BMI <24 for ideal overall weight)
- bbbb. Reduced Waist to Hip Ratio (WHR) for trunkal obesity
- cccc. Normalized Blood Pressure for vascular risk reduction
- dddd. Normalized Pulse for diabetic and vascular risk reduction
- eeee. Normalized Saliva pH for proof of bioterrain correction
- ffff. Normalized Urine pH for proof of detoxification organ integrity
- gggg. Normalized CBC for oxygen carriage
- hhhh. Normalized Monocyte count for improved infection and reduced autoimmune cascade causing chronic fatigue

**Summary**

This evaluation of study findings can be quantified by statistically assessing the change in measurable parameters, giving a wide cross sectional view of this stress related illness in a cross comparable way, reviewing subjection, general and specific objective and clinical parameters. This will help in cross referencing modern Quantum Biofeedback efficacy, cost and determination of positive and negative predictive value of the testing methods of Quantum Biofeedback as compared with older allopathic standard testing methods.

## Section E – Evaluation of Study Design

### A. Qualitative Evaluation of Study Results

#### 1. Investigators Qualitative Comments

Exit Surveys will be developed to gauge the quality and usefulness of the teaching tools for the research pod leaders in their journey to become Certified Biofeedback Therapist Researchers, including:

**Topic 1 Level of Satisfaction**

**Topic 2 Level of Educational Mastery**

**Topic 3 Level of Commitment**

**Summary**

Through exit evaluation surveys, the curriculum can be altered and improved according to the specific feedback by those administering the study and teaching it.

#### 2. Client or Patient Self Reporting

Exit Surveys will be developed to gauge the improvement in symptoms of stress and ability to manage following the prescribed protocol, including:

**Topic 1 Level of Satisfaction**

**Topic 2 Level of Improvement**

**Topic 3 Level of Commitment**

**Summary**

Exit Surveys will be developed to gauge the level of satisfaction, level of improvement in symptoms, and level of commitment to complete this program with the hope to refine the process until it is well accepted, easy to use and administer, and is worthy of attention for its true reproducible success.

#### 3. Best Method of Confirmation

The measurement of Risk Factors Profiling in Stress Conditions with simple clinical measurement along with Quantum Biofeedback Scanning provides a powerful tool in the prevention, monitoring and self empowerment needed to lower stress and interact with diabetic patients in a supportive, integrative, non-threatening, non-labeling way.

The best method of clinical confirmation of improved stress parameters are:

1. QBF Subjective Improvements are best confirmed with SOC Score.
2. QBF Objective Improvement are best confirmed with the VARHOPE Panel Improvement and Vitality index
3. QBF Clinical improvements are best confirmed with height, weight and girth measurements for Basal Metabolic Index Body Fat % improvement calculations.

**Summary:** These three simple measures in the realms of subjective, objective and clinical testing accurately showed clients how easy and profitable it is to monitor their improvements in stress symptoms of diabetes in a more finite, fun and interactive way.

## **B. Quantitative Results**

### **1. Quantitative Evaluation Tools**

1. *Written Surveys including SOC SCORE*
2. *Self Administered Saliva and Urine pH Testing*
3. *Blood Pressure, Pulse, Respiration Rate*
4. *Height, Weight, Waist and Hip circumference*
5. *Laboratory Tests (+/\_ blood count, blood sugar, urinalysis and urine culture )*
6. *Quantum Biofeedback Performance (See Appendix UU)*

## **Future Recommendations**

### **1. Follow Up Feedback Survey of Study Participants**

- a. *Did you enjoy participating in study?*
- b. *Did you learn valuable information that changed your behavior?*
- c. *Did you feel the instruction material was adequate?*
- d. *Did you feel the Research Pod Leader was sufficiently trained for the task?*
- e. *Did you feel the Study Design of a Pod of twenty was workable?*
- f. *Did you feel the Study execution was timed well?*
- g. *Did you feel the follow-up was adequate?*
- h. *Did you feel the cost was appropriate?*
- i. *Did you feel the time expended on the project was tolerable? Sufficient? Well Spent?*
- j. *Would you recommend a friend of family member for this service?*
- k. *Are you interested in pursuing QBF further?*

### **2. Suggestions for improvement in the future**

- a. *How did our study have impact?*
- b. *What changed in your behavior after the study?*
- c. *What was needed for the transformation?*
- d. *How can the new findings be implemented?*
- e. *Can we measure the outcome?*

## APPENDIX I - Research Schedule and Costs

The schedule is designed to defray costs to client and share the cost of leased equipment and teaching.

|  |                         |
|--|-------------------------|
| QBF Standard Cost per Hourly Session       | \$150 USD               |
| QBFRP Q-Pod Research Rebate                | <u>(\$100 per Hour)</u> |
| Total Charges Per Session per Q-Pod Client | \$50 per Hour           |

### Breakdown of Charges Per Person Per Session

|  |                     |
|--|---------------------|
| Quantum Biofeedback Scanning costs         | \$42 per Hour       |
| QBF Research Data Recovery Costs           | \$2 per Hour        |
| Room Rental per Session                    | \$4 per Hour        |
| Q-Pod Leader Teacher Fee                   | <u>\$4 per Hour</u> |
| Total Charges Per Session per Q-Pod Client | \$50 per Hour       |

### Payment Schedule and Rebate Savings

| QBF Interval | Month 1-2 weekly | Month 3-6 bimonthly | Month 7-14 monthly | Month 15-36 Quarterly | #Session Semiannual | Total Cost 5 years |
|--------------|------------------|---------------------|--------------------|-----------------------|---------------------|--------------------|
| #Sessions    | 8                | 8                   | 8                  | 8                     | 4                   | 36                 |
| QBF Costs    | \$42x8=\$336     | \$336               | \$336              | \$336                 | \$168               | \$1,512            |
| Data Costs   | \$8x8=\$64       | \$64                | \$64               | \$64                  | \$32                | \$288              |
| Savings      | \$100x8=\$800    | \$800               | \$800              | \$800                 | \$400               | \$3,600            |

## Appendix II Protocols and Procedures

### Procedure and Protocols for Quantum Biofeedback

The topics chosen for this clinical skills section are designed to give the maximum education for the most important stress related conditions early on in the training. In order to complete biofeedback certification, a student is required to master the use of Stress, Pain and Relaxation techniques, and to apply these to reduce stress in specific illness conditions.

### Standardized Procedures to Maximize Research Power

To maximize the concurrent opportunity for aggregate research collection, a general and specific standardization sequences have been provided for you, written by a QBF diplomat instructor, and designed for optimal protection, penetration and time efficiency. Therefore, the general procedure A-I sequence of is standardized in all respects, except that individuals will insert into this standard procedure at procedure D the **SPECIFIC** Individual or Occupational Protocol. You will see that Appendix II lists across the horizontal axis **the standardized procedures A-I** to show the order of tasks. It then lists the Protocols D or O to insert at the **Specific Step** called **PROCEDURE D**. Respectively, **Protocol D lists Disease Protocols** for individual stress related conditions and **Protocol O lists Occupational Protocols** for various business types in question.

**NOTE:** Make sure to note which condition is of concern on the [green exit panel of the research Tools Menu page](#) which collects research data by category, allowing for later aggregate analysis.

# APPENDIX II – QBF Procedures & Protocols Individual & Occupational Stress Reduction

Protocol Prefix D=Diseases and O=Occupation

| QBF Procedure                                |                                       | A            | B              | C           | D               | E            | F             | G           | H           |
|--|---------------------------------------|--------------|----------------|-------------|-----------------|--------------|---------------|-------------|-------------|
| Protocol D# - Individual Stress Conditions   |                                       | <u>Setup</u> | <u>Consent</u> | <u>Open</u> | <u>Specific</u> | <u>Close</u> | <u>Report</u> | <u>Data</u> | <u>Bill</u> |
| D1   | Diabetes                              | Setup        | Consent        | Open        | Specific        | Close        | Report        | Data        | Bill        |
| D2   | Obesity                               | Setup        | Consent        | Open        | Specific        | Close        | Report        | Data        | Bill        |
| D3   | Autism                                | Setup        | Consent        | Open        | Specific        | Close        | Report        | Data        | Bill        |
| D4   | HIV                                   | Setup        | Consent        | Open        | Specific        | Close        | Report        | Data        | Bill        |
| D5   | Colitis                               | Setup        | Consent        | Open        | Specific        | Close        | Report        | Data        | Bill        |
| D6   | Asthma                                | Setup        | Consent        | Open        | Specific        | Close        | Report        | Data        | Bill        |
| D7   | Autoimmune                            | Setup        | Consent        | Open        | Specific        | Close        | Report        | Data        | Bill        |
| D8   | Hypertension                          | Setup        | Consent        | Open        | Specific        | Close        | Report        | Data        | Bill        |
| D9   | Cardiovascular                        | Setup        | Consent        | Open        | Specific        | Close        | Report        | Data        | Bill        |
| D10  | Neurological                          | Setup        | Consent        | Open        | Specific        | Close        | Report        | Data        | Bill        |
| D11  | Stroke                                | Setup        | Consent        | Open        | Specific        | Close        | Report        | Data        | Bill        |
| D12  | Pain -General                         | Setup        | Consent        | Open        | Specific        | Close        | Report        | Data        | Bill        |
| D13  | Pain Acute & Chronic                  | Setup        | Consent        | Open        | Specific        | Close        | Report        | Data        | Bill        |
| D14  | Pain - Arthritis                      | Setup        | Consent        | Open        | Specific        | Close        | Report        | Data        | Bill        |
| D15  | Pain - Headache                       | Setup        | Consent        | Open        | Specific        | Close        | Report        | Data        | Bill        |
| D16  | Relaxation -General                   | Setup        | Consent        | Open        | Specific        | Close        | Report        | Data        | Bill        |
| D17  | Relaxation - Athlete Prep             | Setup        | Consent        | Open        | Specific        | Close        | Report        | Data        | Bill        |
| D18  | Relaxation - Athlete/Peak Performance | Setup        | Consent        | Open        | Specific        | Close        | Report        | Data        | Bill        |
| D19  | Relaxation- Mood, Anxiety Addiction   | Setup        | Consent        | Open        | Specific        | Close        | Report        | Data        | Bill        |
| D20  | Quality of Life Antiaging, Facelift   | Setup        | Consent        | Open        | Specific        | Close        | Report        | Data        | Bill        |
| Protocol O# - Occupational Stress Prevention |                                       |              |                |             |                 |              |               |             |             |
| O1   | Custom Design Protocol                | Setup        | Consent        | Open        | Specific        | Close        | Report        | Data        | Bill        |
| O2   | Hearing Conservation                  | Setup        | Consent        | Open        | Specific        | Close        | Report        | Data        | Bill        |
| O3   | Health Care Sector                    | Setup        | Consent        | Open        | Specific        | Close        | Report        | Data        | Bill        |
| O4   | Sports Individual or Teams            | Setup        | Consent        | Open        | Specific        | Close        | Report        | Data        | Bill        |
| O5   | Government Sector                     | Setup        | Consent        | Open        | Specific        | Close        | Report        | Data        | Bill        |
| O6   | Corporate Sector                      | Setup        | Consent        | Open        | Specific        | Close        | Report        | Data        | Bill        |

# Appendix VI - Objective Evaluation Tools & Outcomes

## 1. Study Tools

What was the capture rate of data using the following parameters?

- i. Written Surveys including SOC SCORE
- ii. Self Administered Saliva and Urine pH Testing
- iii. Blood Pressure, Pulse, Respiration Rate
- iv. Height, Weight, Waist and Hip circumference
- v. Laboratory Tests (+/\_ blood count, blood sugar, urinalysis and urine culture )
- vi. Quantum Biofeedback(SCIO) Performance Test in Detail

## 2. Study Equipment Evaluation

*Was there satisfaction with the Turn Key QBFRP Research Package containing?*

1. SCIO Hardware leased from Quantum Relief Inc.
2. SCIO Software Installed
3. Laptop computer Compaq Presario S4000 Model  
(128 Ram Video Graphics, with 1 GIG Hard drive RAM, 100 GIG Hard drive memory, DVD burner, CD burner, Internet)
4. QBF Training Manual for Research Pod Leader
5. QBF Navigation DVD's (60 hours)
6. QBF Clinical Skills Training on Stress Therapies, Pain and Relaxation
7. QBF Stress Condition Specific Training of Condition in Question, (ie diabetes)
8. Access to 24 hour hotline for technical support
9. Access to Data collection and analysis

### 3. Agreements Evaluation

Did the Research Pod Leader agree successfully to undertake to:

1. **Join Quantum Relief Research Institute** as a confidential **QBF Researcher**.
2. **Attain CBT License:** to become a Certified Biofeedback Technician Review QBF beginner, intermediate and advanced navigation skills by completing training using Dr. Drake's audio study course and NBCB Blueprint document to study for and pass the North American Stress Therapist NBCB examination, and gain status as a Certified Biofeedback Technician (CBT).
3. **Lease QBF Device** as leader of QBF Research Pod from Quantum Relief Research Institute to begin Quantum Medicine Research Project research, training and practice building.
4. **Learn the QBF Basic Navigation** for beginners, intermediate and advanced users provided on 60 hours of home study DVD's by Dr. Drake, to ensure the Research Pod Leader is knowledgeable about how to run the Biofeedback device modules that the Pod will ultimately learn from them in applied clinical cases.
4. **Agreement to Supervise 20 Research Pod** members who agree to assist in long term therapy at a fixed schedule to both learn, distress, and to defray the cost of Equipment
5. **Learn QBF Clinical Skills Training:** Towards this end, the Pod leader must complete the 20 hours of Stress Risk Factor Management QBF Clinical Skills training course on DVD by Dr. Drake, in order to comply with skill levels in Stress, Pain and Relaxation therapies used in applications of QBF for both general population and specific stress protocols for the group under their care.
6. **Attain Certified Biofeedback Therapist Status with** after mentoring and evaluation by Quantum Relief Research Team Executive. Dr. Drake is licensed as a diplomate instructor by the NBCB to examine and certify the research pod leaders as certified biofeedback stress therapist on the QBF (SCIO/EPFX), and thus certify them to supervise study subjects in ongoing research.
7. **Research Pod Recruiting Agreement** to authorize them to recruit twenty clients suffering the stress condition in question, and explain the consent and sign up procedure to them, and arrange to engage in the study protocol with them according to the appendix sequence and schedule below.

#### **4. Clinical Evaluation of Study Data Outcomes, Responses & Findings**

Quantum Biofeedback, (QBF) paired with simple, self administered clinical measures such as BP, Pulse, pH of saliva and urine were used to help clients lower the stress related symptoms of Diabetes. The Evaluation of Study Content, client responses and findings should be statistically analyzed to measure improvement in:

- 1. Subjective parameters** of stress, as reported by the client
  - a. on the SOC score improvement,  
Reduction in Medications, Amalgams  
Reduction in Alcohol, Smoking, Injuries, Intoxicants, Stress  
Reduction in Fatigue, Stress, Desire for Things to Change, and
  - b. Subjective Satisfaction with Weight Loss reduction of BMI to <24%
  
- 2. Objective parameters in General** of energy improvement such as improved
  - c. VARHOPE scores % improvement for Volts, Amperage, Resistance, Hydration, Intracellular oxygenation, Proton and Electron Pressure for alkaline/acid balance
  - d. VARHOPE Improvement Score after Biofeedback as % improvement of score on a scale of 100
  - e. Cellular Vitality,( indicating oxidative reserve),
  - f. Frequency resonance pattern normalization on scale of 1000-15000 for normal (indicating improved mood control and anxiety reduction),
  - g. Reactivity Speed Normalization of initial reading as a measure of % improvement for hypo or hyper-reactivity repair (Normal , 19)
  - h. Phase angle improvement as an indicator of improved intracellular hydration and plump cellular angle
  - i. Phase Response indicating appropriate reactivity
  - j. Impedance % improvement to show improvement flow of energy
  - k. Risk Factor Profile Normalization % improvement of score on scale of 100
  - l. Bioterrain Graph Normalization (indicating normalized pH, hydration, oxidative reduction potential & mineralization, measured in Standard Deviation from mean.)
  - m. Mineral Profile Normalization %Improvement of score on scale of 100
  - n. Amino Acid Profile Normalization %Improvement of score on scale of 100
  - o. Vitamin Profile Normalization % Improvement of score on scale of 100
  - p. Dark Field Blood Analysis of Platelet Aggregation % Improvement
  - q. Homotoxicology Right Spin vs. Left Spin
  - r. Homotoxicology Xenobiotics and Isode Toxin Load % Improvement of score on scale of 100
  - s. Homotoxicology Additional Factors % Improvement of score on scale of 100
  - t. Homotoxicology Nosodes Infection %Improvement of score on scale of 100
  - u. Homotoxicology Miasms % Improvement of score on scale of 100
  - v. Sarcodes Panel of Organs % Improvement of score on scale of 100
  - w. Perverse Energy Panel % Improvement of score on scale of 100
  - x. Pancreas

2. **Objective parameters with QBF Testing of individual risks** specific to Immune Deficiency as tested from the main matrix, and added to the Clasp 32 Disease Dictionary to reduce common risk factors such as:
  - a. Pyrogenium Food Poisoning
  - b. Tapeworm, esp Taenia, Echinococcus, Multiceps , Dwarf Tapeworm
  - c. Worms, esp Ascaris round worm, Enterobius pinworm, Protostrongylus (Hook)
  - d. Candida sp., esp Albican, pseudotropicalis, rugosa, tamata, lipyti,
  - e. Virus esp Epstein Barr Virus (Mono, Chicken Pox, Human Papilloma virus
  - f. Aspergillus Niger
  - g. Mucor Racemosis
  - h. Alloxantin (a fungal mycotoxin which dissolves the pancreatic Islet cells )
  - i. Benzene Score for hydrocarbon toxicity on scale of 100
  - j. Azo Dyes from Newspaper ink
  - k. Vaccination
  - l. Reduced Diabetic Hyper or hypoglycemia with improved HbgA1C
  - m. Improved Random and Fasting blood sugar control
  - n. Reduction in platelet aggregation
3. **Clinical Parameters** specific to reduction of risk factors for Diabetes including:
  - a. basal metabolic index (BMI <24 for ideal overall weight)
  - b. Reduced Waist to Hip Ratio (WHR) for trunkal obesity
  - c. Normalized Blood Pressure and Pulse for vascular risk reduction
  - d. Normalized Saliva pH for proof of bioterrain correction
  - e. Normalized Urine pH for proof of detoxification organ integrity

## Appendix VI - Subjective Evaluations

### 1. Follow Up Feedback Survey of Study Participants

- a. Did you enjoy participating in study?
- b. Did you learn valuable information that changed your behavior?
- c. Did you feel the instruction material was adequate?
- d. Did you feel the Research Pod Leader was sufficiently trained for the task?
- e. Did you feel the Study Design of a Pod of twenty was workable?
- f. Did you feel the Study execution was timed well?
- g. Did you feel the follow-up was adequate?
- h. Did you feel the cost was appropriate?
- i. Did you feel the time expended on the project was tolerable?  
Sufficient? Well Spent?
- j. Would you recommend a friend or family member for this service?
- k. Are you interested in pursuing QBF further?

### 2. Suggestions for improvement in the future

- f. How did our study have impact?
- g. What changed in your behavior after the study?
- h. What was needed for the transformation?
- i. How can the new findings be implemented?
- j. Can we measure the outcome?

## **Appendix VII– Recommendations and Future Applications**

*Distilled Recommendations*

*Applications to future projects*

*Patient Work books*

*Research Protocols*

*Practitioner Instructions*

*Continue Education and Mentorships*

*Internet Continuing Education*

*Colleagues and Mentors*

*Quantum BF Device Faculty*

*Continue Education Conventions*

*Meetings and Learning modules*

## **Part VIII– Contacts**

### **Quantum Biofeedback Research Project Investigational Author**

Deborah Anne Drake  
BSc, MD, CCFP(EM), FCFP, CBT, NBCB Diplomate  
Research and Education Director of Quantum Medicine Project  
[www.HarmonizeYourHealth.com](http://www.HarmonizeYourHealth.com)  
For QBF Education Courses, Certification, QBF Training Seminars

# APPENDIX IX – QBF NAVIGATION DVD Index of Topics

## QBF Basic Biofeedback Navigational Training

### Part 1

### Beginners Course in EFPX/QXCI Navigation

(See Appendix III for Overview of Matching DVD Set)

## 1. Set Up & Safety for Practitioner & Client

- **Set Up Issues**
  - » Equipment Check List & Set Up
  - » Electronic Protection (Surge protector, Crystal, leather shoes, Prayer Wheel)
  - » Checking Box Activity (EEG > Box)
  - » Battery Augmentation
  - » Surge Protection
  - » Environmental Risks, Geopathic stresses
  - » Comfort of Client
  - » Confidentiality, Consent, and Payment

## 2. Navigating the Matrix

- **Navigation Strategies**
  - » Surf high and low end
  - » Check Diseases
  - » Check Missing Hormone
  - » Set Up Shaping Function & Reward Threshold
  - » Power Setting to Double
  - » Add Quantum Indeterminacy Field
  - » Add Reactivity Jolt to the Weakly Reactive
  - » Add Therapies > multi media protection
  - » Calibrate > Correct Geopathic stresses
  - » Tune Harmonics to Minimum 7300 on 1st Harmonic

## 3. Basic Protocol for Beginner

- Demographic
- Calibration
- Test
- Shaping Function and Power Setting

- Therapies – Top Two Recommended

## **Beginner's Polish**

- Risk Profile Top Risk to Virtual Doctor
- Short Sarcodes Organ Cleanse
- Timed Therapies for Top Selection
- Biofeedback Top Two Therapies
- Current Rectifications – Rectify All
- Body Face Scan & Polymorphic Subspace
- QXCI Biofeedback Training

## **QBF Basic Biofeedback Navigational Training**

# APPENDIX IX – QBF Navigation

## Part 2

### Intermediate Course in EPMX/QXCI Navigation

(See Appendix III for Overview of Matching DVD Set)

*It's not the crop, it's the soil.*

*Dr Deborah Drake*

## 4. Bioterrain, Leaky Gut Syndrome, and Celiac Disease

### Bioterrain

- » Immune system anatomy
- » Immune system physiology
- » Gut anatomy and physiology of leaky gut
- » Celiac Disease, Glands, and Myelin
- » Food Poisoning Impact on Filtration
- » Autoimmune Disease Induction
- » Solutions with Probiotics, Sulphur, Diet

### Bioterrain

- » Calibration
- » Body Stress Parameters
- » Trivector > Energetic > Info Click First >
- » Bioterrain Graphic Interpretation
- » Navigation to Zero Point with Autozap
- » Clean Blood > Pilomorphic Stabilization
- » Retest Improvement on Test Screen

### Leaky Gut Syndrome

- **High Risks on Risk Profile**
  - » Food Poisoning, Amoeba, Worms, Fungal, Candida
  - » Immunity Disturbance
  - » Oxidation Problem in Smoker, Asbestos toxic, Phenol (fume) sensitive
  - » High Risk if Demineralized, Low Amino Acids or High in Perverse Energy
- **Homotoxicology**
  - » Isode such as Heavy metal or mercury toxicity

- » Nosodes and Vaccination esp. Measles=Tyrosine

### ***Celiac Sprue***

- » Neuro Anatomy of Nerve Heads, Synapsin, Myelin, Purkinje, Lymph Nodes, Gut Lining
- » Square Shaped Fucose Coats Gut Pathogens
- » Human Cross Reactivity to Gluten in nerves, gut lining, red blood cells upon Food Poisoning
- » Celiac Gene is the Neighboring Sax Player to Bugle Boy TNFA and Autoimmune Gene (CHR6)
- » Autoimmune Cascade Glandular Damage

### **Gluten Desensitization**

- ***Strategies to Reduce Gluten Autoimmunity:***
  - » Allergy Desensitization & Autozap weekly x 4
  - » Auto Zap all top pathogens, Food Poisoning and especially Pyrogenium, other Bacteria (Salmonella, Shigella, Campylobacter, Helicobacter Pylori, Yersinia Bubonic Plague, Cholera) and Fungi (especially Candida, Mucor, Aspergillus, Nocardia)
  - » Biofeedback Myelin Repair, Small Intestine, Normal Bowel flora , Bone Osteoporosis Repair,
  - » Supply Sulphur to shut off TNFA and Celiac
  - » Supply Diet Alternative, AA's and Good Food List

### **5.Physical Body Therapies**

- » Spinal > Chiropractic > Muscles > BonesSarcode Therapies
- » Individual Sarcode Repair Until Rectified
- » Super conscious Search for Priority Sequence of Organ Strain
- » Automated Selection of Adjunctive Organ Therapies
- » Auto meridian & Acupuncture Program
- » Sports Program Navigation
- » Nutrition, Adrenal & Stress Balancing Program

### **6.Mental Tune Up**

- » ECG & EEG Brain Waves
- » Biorhythms, Trivector, DNA, Telomere
- » Nutrition Brain Scan and Cancer Scan
- » Biofeedback therapies (corpus collosum stability, balance brain front to back)
- » Color Therapy & Scalar Waves (Left Spin)
- » Anti Aging Module, Unconscious Reactivity

### **7.Emotional Balancing**

- » Mineralization

- » Amino Acids
- » Perverse Energies
- » Enzymes
- » Color Therapy
- » Scalar Therapy
- » Neurotransmitter Balance

## 8.Spiritual Detection

- » Detection Through High Resonance
- » Detection through Impaired VARHOPE
- » Detection through NLP Addiction Therapy
- » Detection through Biofeedback (Release spiritual Attack)
- » Detection through Abreaction
- » Detection through NLP Therapies Karma

### *Spiritual Healing Techniques*

- » Explore Unconscious Reactivity
- » Covert Thought Pattern Contain Secrets
- » Grounding Techniques Before Dispelling
- » Past Life Regression for Nameless Trauma
- » Dispelling & Reprogramming Karma
- » Removing Entities NLP & Biofeedback
- » Sealing the Aura, Polymorphic Subspace
- » Crystal Protection, Mineralization,
- » Clearing Sacred Space

## 9.Homotoxicology

### • *Navigation Tools*

- » Test > Program Menu
- » Tri-Vector > Energetic > Info Click First
- » Risk Profile > Virtual Doctor > Homotoxicology

## Homotoxicology

### • *Strategies for Toxin Detection*

- » SOC, Cellular Vitality, Phase Angle,
- » Search Bar, Hold Bar, Red Bar,
- » Individual Reaction, GO TO Number,
- » Super conscious Search, Unconscious Choice
- » Unconscious Reactivity, Homotoxicology,
- » Bioterrain Divergence from Zero Balance Center
- » Hint Section in VARHOPE Box & Test Screen Top R

## 9. Homotoxicology

### • *Strategies for Detoxification*

- » Check Organ specific minerals, amino acids, herbals
- » Load Additional Therapies (nosode, isode, etc.)
- » Use Chartmaker Graphics for Top 5 Treatments
- » Blood Module, esp. Pilomorphic Stabilization
- » Allergy and Phenol desensitization
- » Short Sarcode Cleansing
- » Alarm Reaction Management
- » Remedy Selection

## **10. Acupuncture Meridians**

- ***Opening the Flow***
  - » Auto Meridian Module
  - » Full Scan
  - » Retesting
  - » Acupoints for Stuck Locations
  - » Acupicture Program
  - » AcuDiagnosis
  - » Acupicture for Point Search and Picture
  - » Acupicture Program for Pregnancy Test

## **11. Allergies**

- ***Allergy Detection***
  - » Test window Grey Bar
  - » Allergy Panel
  - » Allergy Report
  - » Isode & Nosode report
  - » Individual Reaction
  - » Testing allergens from the Plate
  - » Allergy Desensitization Techniques
  - » Allergy Desensitization Schedule

## **12. Virtual Doctor Dismantling Disease**

- » Virtual Doctor Navigation
- » Virtual Doctor Links
- » Virtual Doctor Advantages
- » Virtual Doctor Limitations
- » Diagnosis Vs Risk Factor
- » When to Refer to Medical Doctor

## **13. Timed Therapies**

- » Navigation of Timed Therapies
- » Addition of Selected Therapies
- » Additional Therapy Drop Down Menu
- » Degeneration Top Program

- » **Hidden Cancer and Diabetes Modules**
- » **Changing Timer, Volts and Amp**

## **14.Biofeedback**

- ***Biofeedback Selection Navigation***
  - » **Test Menu > Disease Dictionary > Super conscious Search**
  - » **Programs > Unconscious Choice**
  - » **Misc > Unconscious Choice by Patient**
  - » **Chartmaker > Calculate Solution > Supraconscious Choice of Therapy**
  - » **Biofeedback Menu of Applications**
  - » **Biofeedback Training Schedule**

## **15.Reporting**

- » **Information Reporting on Client**
- » **Information Reporting in Graphic Form**
- » **Information Reporting to Hard Drive**
- » **Information Reporting to Word File**
- » **Information Reporting to Email**
- » **Information Reporting to Research Base**
- » **Print Preview and Letterhead Changes**

## APPENDIX IX – QBF NAVIGATION

### QBF Basic Biofeedback Navigational Training

#### Part 3

#### Advanced Course in EFPX/QXCI Navigation

(See Appendix III for Matching DVD Training Set)

### 16. Stress Evaluation

- » Stress Evaluation
- » History in Demographics
- » SOC Score
- » Calibration VARHOPE
- » Vital Signs Evaluation and Recording
- » Selye Stress Bar
  - Risk Profile
  - Chartmaker Causes and Aggravations

### Stress Management Tools

- *Stress Management*
  - » Trivector, DNA Frequency Alteration
  - » Spinal > Nutrition > Enzymes & Adrenal Balance
  - » Sarcodes > Super conscious Search for Organ at Risk
  - » Acupuncture, NLP Balance neurotransmitters
  - » EEG Program > Trivector of Back Muscles
  - » Body Scan, Scalar, Polymorphic Subspace Alignment

### Stress Neural Therapy With Biofeedback

- *EMG*
  - » Spinal > Muscle or Nerve > Treat Muscle Indicated
  - » Matrix Muscle > Individual Reaction > EMG
  - » Abdominal Breathing Technique
- *GSR*
  - » Biofeedback program
  - » Relaxation Techniques
- *Biofeedback*
  - » Extensive Menu & Video Review

## **17.Cancer**

- ***Cancer Risk Factor Therapies***
  - » Heavy Metal Toxicity, Perverse Energies, Isodes
  - » Family Genetics & Miasms
  - » Chronic Infection induced Celiac Disease > TNFA
  - » Smoking Addiction Therapy
  - » Sugar Addiction Therapy
- ***Detection of Cancerous Infections***
  - » Fasciolopsis, Mucor, Aspergillus, Candida
  - » Pilomorphc Stabilization in Blood Therapies

### ***Cancer Detection***

- » QXCI Test Matrix Probabilities
- » Old Cancers
- » New Cancers

### ***Cancer Scan***

- » The New Medicine – Hamer conflicts
- » QXCI Hamer Cancer Scan
- » Timed Therapies > Degeneration > Cancer Scan to reveal hidden module
- » Select Cancer Type and Review Associated Conflict and Mental attitude, affirmations
- » Treat Reactivity, Fatty Acids, Mental Causes, Destruct Cancer Virus once per week x 4 weeks
- » Spinal > NLP > Brain Scan for Nutrition > Cancer Scan > Physical & Emotional Conflicts
- » Test > Auto-Zap Prions once per week x 4 weeks
- » Release Subconscious Negativity and Thanatos Instinct

### ***QXCI Cancer Therapy***

- **Timed Therapies**
  - » Degeneration Repair
  - » Cancer Scan Pop Up
  - » Treat Reactivity
  - » Treat Fatty Acids
  - » Treat With Change of Mental Affirmation
  - » Destruct Cancer Virus
  - » Ameliorate the effects of Chemotherapy
  - » Ameliorate the effects of Radiation Therapy

### ***Cancer Risk Reduction Therapies***

- » Main Test Matrix > Search > Red Bar Dismantle
- » Drag to HOLD Bar > Associated Cause/Remedy

- » Bioterrain Correction, Auto zap Miasm,
- » DNA & Telomere Repair, Anti-aging Modules
- » Homotoxicology & Short Sarcode Detoxification

## Timed Therapies for Cancer

- » Metabolic Repair
- » Hormone Repair
- » Neurological Repair
- » Psychological Repair
- » Sleep and Relaxation
- » Immunity

## Adjunctive Pain Therapies

- ***Pain Modules for Cancer or Trauma***
  - Timed Treatments Plus Additional Therapy box
    - » Oxygenation
    - » Feel Good Therapy
    - » Sleep and Relaxation
    - » Inflammation
    - » Pain
    - » Muscle Flexibility, coordination
    - » Trivector >Energetic > Injury Repair Menu & Bar

## Adjunctive Auto-Frequency AutoZap Therapies

- ***Various Autozap functions***
  - » are appropriate to holistically support a Cancer Patient
- ***Autozap All***
  - » Autozap All Top 200 + Top 30 Matrix Items by Emptying the Report and Re-Loading the Purple Hold Tray with the Top230 items, & converting the Treat Button to “3 minutes” using the Autozap function.
- ***AutoZap Specific Relevant Items***
  - » Top Twelve Pathogens, Prions, CoQ & Nutrients, Normal Flora, Fungus, Worms, Hormones etc.

## Adjunctive Cancer Nutritional Strategies

- ***Nutritional Keys to Healing:***
  - » Provide Enzymes, Amino Acids, Minerals, EFA's
  - » Provide Ellagic and Ellagic Acid for Apoptosis
  - » Serotonin Loading for Mood and Lymph
  - » Dopamine Loading for Adrenal, Thyroid, Pineal, Heart, and Muscle

- » Antioxidant Nutrition ZBACES
- » Sulphur Loading NAC, MSM, Glutathione, Lipoic Acid
- » AutoZap & Provide Live Food Probiotics such as Soil Based Organisms and Spirulina Algae

## Adjuvant Therapies- Diabetes

- ***Blood Sugar Disorder Control Therapies***
  - » Timed Therapies > Blood Sugar Repair
  - » Timed Therapies > Degeneration > Diabetes Repair
  - » Nutrition > Balance Adrenal Glands & Hormones
  - » Risk Profile > Oriental Herbs for Organ Cleansing
  - » Teas, Flower Essences, Sanamin Remedies, Ayurvedic remedies, Allopathic Antibiotics/Chemo
  - » Provide Written Follow up instructions by printing Information > Letters > Appropriate Diet et al.

## Adjuvant Therapies - Diet

- ***Dietary Strategies***
  - » Provide Gluten Free Diet,
  - » Eat Right 4 Blood Type
  - » Antioxidant Advice,
  - » Resource List of Good Foods
  - » Personalized Allergen List to Aid in Avoidance
  - » Provide Live Food Probiotics such as Soil Based Organisms and Spirulina Algae

## 18.Anti-aging

- ***Detection of Causes of Aging***
  - » EEG Program > ECG > Ant aging > Start
  - » DNA Telomere Repair
  - » Spinal > Nutrition > Enzymes > DNA Repair
  - » Demineralization
  - » Abnormal Gut Flora
  - » Hormone Imbalance
  - » Homotoxicology
  - » Miasms > Biological Age

## Anti-Aging Therapies

- ***Remove the Blocks***
  - » Heart & ANS Stabilization
  - » EEG Brain Wave Rebalancing
  - » Sarcodes Graphic Report > Balance Top & Bottom
  - » Detoxification Of Short Sarcodes
  - » Homotoxicology Top 5

- » Dental Repair Toxins & Clear Meridians
- ***Stabilize the Frame***
  - » Facial Muscle Repair & Face Lift
  - » Adipose Dissolver, Injury Repair, Body Scan
  - » Spinal, Acupuncture, Neurotransmitter Balance

## **Anti Aging Therapies**

- Remineralization, Amino Acid Repletion
- ECG > Ant aging > Nelson Remedies
- Timed Therapies > Degeneration

## **19.Aesthetics**

- ***Obesity Management***
  - » EEG > Organ Tab > Adipose Dissolve
  - » Auto frequency for occult infections
  - » Autozap food poisoning
  - » Celiac Sprue allergy desensitization
  - » NLP > disrupt gallbladder-hypothalamus connection
  - » Brain Nutrition
  - » Neurotransmitter Balance

## ***Face & Body Aesthetics***

### **Body Scan Navigation and Execution**

- Face Lift Mechanics
- Repair muscles of face
- Repair Skin of Face
- Repair Hormone
- Repair Elastin, Collagen
- Repair Hydration
- Timed Therapies > Reverse Lines and Aging
- Face Lift Attachment – Probe or Roller

### **Body Aesthetics**

- » Skeletal Health and Injury Repair
- » Muscle Body Building
- » Sports Therapies
- » Hormone Adjustments
- » Skin Health through nutrition
- » Sexual Health

## **20.Autism and Learning Disorders**

- ***Detection of Learning Disorders***

- » SOC Questionnaires
- » EEG > LEAP Questionnaire for ADHD
- » Nutrition > Adrenal Balance > Use Questions
- » Nutrition > Hormones > Use Questions
- » Allergy Profiling
- » Phenol Toxicity
- » Homotoxicology

### ***Nutrition for Learning Disorders***

- Nutritional Flaw Correction
- Demineralization, Low EFA, Disturbed Tyrosine
- Allergies (environmental, food, phenol)
- Remove Perverse Energies
- Relax with Flower Essences
- Color Therapy to Stimulate Enzymes
- Enzyme Repair, DNA Repair,
- Infection Detection > Celiac Sprue Connection
- Clean Blood, Short Sarcode Cleanse
- Autozap CoQ Enzymes, Normal Bowel Flora

### ***Timed Treatments for Learning***

- Timed Therapies
- Metabolic Repair
- Bad Behavior in Children
- Immune Repair
- Hormone Repair
- Nervous system Repair
- Treat Blood sugar disorder
- Degenerative Repair

## **Super Learning Therapies**

- ***Enhanced Learning***
  - » Improve math, writing, reading, comprehension skills
  - » Timer enabled
- ***Virtual Super learning***
  - » Individual
  - » Group
  - » Biofeedback Indefinite Learning Loop

### ***Harmonic Therapy for Brain Synchronicity***

- ***Test Harmonic Phase***
- ***Virtual Harmonic Repair***
- ***Harnessed Harmonic Repair***

## ***Neurotherapy for Learning***

- Physical Repairs
- ECG, ANS, EEG Repair,
- Balance Brain Waves
- Timed Therapies > Improve oxygenation, Degeneration, Psychological repair, Neurological repair, Feel Good, Bad Behavior in Children, Allergy Release
- Choose unconscious Choice
- NLP Therapies
- Relaxation Therapy for 12 Seconds
- Stress Module
- Biological Flow and Choosing Affirmations
- Metanalysis II for deep childhood traumatic imprinting
- Reduce Stress of Mental Illness, Grief, Jet Lag, Reduce Negativity etc.
- Simulate Creativity, Intelligence,
- Stimulate Higher Purpose in Life
- Stimulate Ascension

## **21.Mood Disorders and Addiction Therapy**

- ***Mood Disorders Detection***
  - » Spinal Subluxations
  - » Spinal Neuro-emotional complexes (NEC)
  - » Neurotransmitter Mapping
  - » Risk Profile Analysis
  - » Amino Acid Deficiency for Neurotransmitters
  - » Demineralization
  - » Hormone Imbalance
  - » EEG Brain Wave and Patterns

## **21.Mood Disorders and Addiction Therapy**

- ***Physical Strategies for Mood Disorders***
  - » Blood purification of serotonin depleting infection
  - » Nutrition, Enzyme & Bowel Flora Normalization
  - » Selection of remedies or allopathic via Test screen
- ***Physical Strategies for Addictions***
  - » Brain Nutrition Scan, Balance Neurotransmitters
  - » Autozap Bowel Flora from Candida, Worms, Amoeba
  - » Disrupt Hypothalamus Gall Bladder Connection
  - » Clean Sarcodes, EEG Balance, Psychological Repair
  - » Invert Allergen from Tray (Ie Cigarettes, Sugar)

## **21.Mood Disorders and Addiction Therapy**

- ***Psychological Strategies***

- » NLP Addiction Module
- » Autozap Psychiatric Disorder, STD, CFS
- » NLP Therapies > Neurotransmitter Balancing
- » Piggy back disorder on Additional therapies

## Mood Disorder Therapies

- ***Psychological Strategies***
  - » Biofeedback therapies ( i.e. Release phobias, psychic attack, Karmic Backlash, Reconnect to Universe, Connect Body to Soul)
  - » NLP Therapies (ie, Release negativity, Improve Self esteem, Dispel Guilt, Anger...)
  - » Stress and Hypnosis Dehypnosis Therapies
  - » Release Deep Potential, Creativity, Higher Purpose
  - » Super learning

## 22.Special Senses

- ***Vision***
  - » Eye Muscles Repair and Coordinate
  - » Spinal > Eye > Eye Components Individually
  - » Biofeedback > Misc > Eye Muscle Exercises
  - » Biofeedback > Misc > Vision Repair
  - » Cataract Repair
  - » Macular Degeneration Repair of FOVEA

## Special Senses

- ***Hearing***
  - » EEG > head injury repair
  - » Autozap Myelin Sheath Repair
  - » Repair Celiac Sprue Wheat Gluten Allergy
  - » Detox infection esp. food poisoning
  - » TMJ Scan and repair near 8 th Cranial nerve
  - » Spinal > nerves > Acoustic nerve, Vestibular nerve
  - » Biofeedback > Baby Skull Repair
  - » Short Sarcodes > ear anatomy, reflexology, repair
  - » Biofeedback > repair hearing with Care

## 22.Special Senses

- ***Voice Therapy***
  - » Short Sarcodes > All Extra Buttons for Mutism or Autism Repair
  - » Biofeedback > Voice Therapy
  - » Spinal > Nerves > glosso- pharyngeal nerve, Accessory nerve repair

- » Voice Analysis for pathogens
- » Music Therapy

### ***Music Therapies***

- » Use of Recorder
- » Musical Sound Bites
- » Turning off Clasp Sounds
- » Charkas Specific Notes

### ***Special Senses***

- ESP
  - » Timed Therapies > Enhance ESP
  - » NLP Ascension Stimulation
  - » Biorhythm > Stimulate Awareness of Risks
  - » Covert Thought Pattern
  - » Past Life Regression
  - » Raise total harmonic through detoxification
  - » Remove Toxins blocking awareness

## **23. Homeopathic Selection**

- Rational of Frequency Medicine
- Nutrition > Homeopathic Selection
- Constitutional Homeopathy
- Treatment Using Homeopathy
- Rules of Conduct for Remedies
- Avoid Nullification by Cocaine, Chocolate, Marijuana, Caffeine, Benzocaine Dental Freezing, Eucalyptus, Mint
- Succussion 100x for New Remedies

## **Homeopathic Activation**

- Activation of the QXCI Tray
- Navigation of Tray Mechanics
- Making Homeopathies from the QXCI
- Potency Issues
- Storage Issues

## **Homeopathic Activation Lab**

- Selection of Homeopathic
- Alteration of Potency of Remedies
- Manufacturing of Homeopathic from Tray
- Activation of Homeopathic with Succussion
- Storage of Homeopathic

- Sterilization Hints

## Alternative Therapies

- Many Options Electronically
  - » Flower Essences
  - » Sanamin
  - » Ayurvedic
  - » Enzymes
  - » Imponderables
  - » Herbal
  - » Allopathic
  - » Other

## 24. Psychological Therapies

- Biorhythms of Individual and Couples
- Chinese Astrology
- Neurotransmitter Profiling,
- EEG Balancing and Brain Scan for Nutrition
- NLP Addiction Module
- Biofeedback Stress Therapies
- Hypnosis / Dehypnosis

## 25. Spiritual Oppression and Domination

### Spiritual Superimposition Detection

- » Temporal Anomaly in Risk Field Neutralization after opening, closing and reopening
- » Inability to Calibrate
- » Personality Disorder Detected
- » Personality Disorder Detected
- » Abnormal High Resonance (ie. 5,858,962)
- » Abnormally low RESISTIVITY IN VARHOPE
- » Negative SOC or VARHOPE scores
- » Negative Cellular Vitality
- » Biofeedback Spiritual Superimposition
- » Psychic attack
- » Karmic Backlash Detection on Aggravations or Biofeedback
- » Right spin exceeding left spin in Homotoxicology

### Spiritual Oppression and Domination Therapies

- *Spiritual Therapies to Protect Caregiver*
  - » Activate Multi Media “flyman.avi”
  - » Protect office with Prayer Wheel
  - » Wear Crystal Protection on QXCI Practitioner or sit on computer pad

- » Wear leather soled shoes
- » Avoid contact within 8 feet of patient
- » Therapist to leave room during exorcism
- » Ask Spiritual Guide to help the stranded spirit up a column of light to God.
- » Open a Door of Escape for the Frequency to leave

## **Spiritual Therapies for Client**

- ***NLP Therapies***

- » NLP Therapies > Dispel 2<sup>nd</sup> Brain Engram,
- » NLP Therapies > Release Spiritual Domination and Oppression from Patient and Therapist
- » Reprogram Thanatos Death Wish
- » Release Subconscious Negativity

- ***Biofeedback Therapies***

- » Reprogram Karma, Release Karmic Bonds
- » Reconnect Body to Soul, Soul To Universe
- » Dehypnosis, Corpus Callosum Stability

## **26. Treatment of Families, Couples and Groups**

- Orgone Field Generator to broadcast intention to a selected field
- Biorhythms of Partner
- Marital Therapy to Fuse Consciousness
- Group listing for NLP Therapies
- Virtual Broadcast of Superlearning
- Information Reports as Home Handouts

## **27. Adjunctive Nutrition to Augment the QXCI**

- **Antioxidants, Mineralization, Hydration**

- » Microhydrin for antioxidant alkaline electron pool with pH 9.6 and trillions of electrons
- » Microhydrin Plus for sulphur loading
- » Spirulina Nanoclusters for mineralization, EFA, AA, Magnesium
- » Hydra-cel for slippery colloidal conductivity
- » Gluten free diet
- » Additional Zinc for hormone attachment and immunity
- » Nelsons Fatty Acid liquescence

## **28. Ethics of Biofeedback Therapy**

- Preventing Complaints
- Sexual Ethics and Boundaries
- Managing Time
- Managing Expectations
- Selecting Follow Up
- Written Record

- **Billing and Accounting**

## **29. Health Salesmanship Strategies**

### **Promote Client to Embrace Self Directed Healing**

- » **Second PC Projection Screen to Immerse in Audio visual Feedback**
- » **Verbal instruction and Encouragement**
- » **Printed Graphics in Simplified form**
- » **Information Report Handout Pre-fab letters**
- » **Give Homework to get person involved**
- » **Use Nelson Report to predict next visit**
- » **Dispel Negativity, Unconscious Resistance to Change,**
- » **Reward Effort with Praise & Quantitative feedback of VARHOPE improvement**

## **30. The future of QXCI medicine in an ideal world.**

- **Portable Hospital**
- **Portable Library**
- **Portable Remedy Manufacturing Capabilities**
- **Long Distance Healing**
- **Precise Diagnostic Testing**
- **Multi disciplinary**
- **User Friendly,**
- **Upgradeable, Minimal Equipment**
- **Low Relative Cost**

# APPENDIX IX – CLINICAL SKILLS NOTES

(Pending completion)

## QBF Basic Biofeedback Navigational Training

### Part 4

### Clinical Skills Stress Course in EFPX/QXCI/SCIO

(See Appendix IV for Matching DVD Training Set)

#### Part A

##### Orientation

Equipment Upgrades Legalities  
Code of Ethics  
Navigation of New Body Viewer 3D Graphics

#### Part B

##### *Stress*

Hypertension  
Heart Disease  
Stroke  
Neurological Disease (Multiple Sclerosis, Parkinson's)

#### Part C

##### *Pain*

Pain In General  
Pain, Acute and Chronic  
Pain, Arthritis  
Pain, Headache, tension and migraine

#### Part D

##### *Relaxation*

Relaxation for Athletes and Peak Performance  
Relaxation for Mood Disorders  
Relaxation for Quality of Life Improvements

# APPENDIX X - Protocol for Clearing Sacred Space

**Content:** Shielding from remote viewing & initiating protective Intentions & interventions

**Style:** See One, Do One, Teach One

**Method:**

## 1. Section A – History and Ethics

- History and Ethics of Remote Viewing
- Time traveling Experiments
- Confidentiality
- Implications for Stress Therapists
- Third Eye is Tyrosine Dependent
- Emotional Fatigue Can Impair Clairvoyance

20. *Biofeedback Unconscious Reactivity*

21. *Homotoxicology*

22. *Polymorph Trans in EEG program*

23. *Face and Body Scan Module*

24. *Treat ANS*

25. *Perform Top two therapies*

26. *Miscellaneous Problem Solving Modules*

#### 6. *Protective Equipment*

## Section A

### 1. History and Ethics of Remote Viewing

Courtney Brown, Prof. Ellis, University, Polysci noted research that remote viewers were trained by US government's Department of Intelligence. Psychics who attempted to spy on Russian in cold war gathered information and expertise in this field. After the cold war ended, these individual were continued to be hired, but with a new purpose, and they began to play with other applications of remote viewing, such as to try to contact extra terrestrials, which apparently met with some success. In these research protocols, it was reported that remote viewing was accurate with a P probability score of

greater than 85% correlation in replicable double blind studies. A 600 step protocol to learn to become remote viewers was developed, where subjects were given paper with randomly determined 2 sets of 4 digits, or to describe a place. The investigator who handed them the paper encoding the place was double blinded, and was not able to know the location of the place about to be remotely viewed. They used pictures such as battleships photos, top of Eiffel Tower and other locations or views which were accurately represented by the remote viewer.

Courtney Brown expanded what he learned and then further researchers followed the trail. Astral Travel out of the body, as described in a book by Monroe, who created the Monroe institute, now trains people to remote view. Some people can do it naturally as a clairvoyant gift, while some do it in their sleep, called "Travelers", who often return to paint art of visions from night. Pictures were accurately reported by remote viewer with a 0.85 or better p score indicating high reliability, high sensitivity and specificity. Further information about this topic can be found at the website: [www.farsite.com](http://www.farsite.com)

**2. Time Travel experiments** by the father of Andrew Buscalli in 1970's, and the Philadelphia experiment may have been hyped to distract people from the real issue going on back then. It is now known that a group of 64 children were trained to materialize and dematerialize in other locations, sent from California to New Mexico or Virginia and Midwest. One Father told his child more than he were supposed to, the child now remembers working with other children, in groups of 6, up to 34 kids. Sometime afterward, after the time traveling programming received from age 8-13, he then underwent deprogramming to erase the child's knowledge of participation in the experiment, since it contained information about the future. He doesn't remember the process, but the brain washing done was to make him feel he would die if he pursued uncovering these memories, so he did not. Until recently these memories began to surface, and they confirmed what his father has told him as a child and what had occurred to him as a child. His father showed him a video of a man on screen, and he was told that he was the child projected forward in time that he was the adult on the video. This confirmed what his father had accurately projected through fore-knowledge, in that the child would become an attorney, move to Washington, write a book on how to take the SAT's, will marry another married woman, and he will write the book to reveal of what happen in the time travel experiments.

Once, in Mexico, the time traveling children hung out and played near a factory, and noted that though the building looked similar, the plants look different. They had been transported into the future by 20 years later, where the kids were given a protocol to play, told to find the director of security, who knows nothing about this, except that if kids call, report it to USA DOI and someone then 30 min later showed up to pick up the kids, who thought it was 1970, but it was 1991, and then send them back to 1971, saying "we knew you were coming, its in the notes".

**3. Confidentiality** Thus we know emphatically remote viewing, time traveling exist, and that governments an spy on anything. For the sake of the highest confidentiality of

medically sensitive records, I urge you to protect yourself and clients from remote viewing and spiritual oppression as part of every session with Quantum Biofeedback.

#### **4. Implications for Stress Therapists**

Any new therapist, especially in Quantum Biofeedback must be ready for changes in themselves, as they open up and become aware. Opening up spiritual awareness make heighten vision and auditory senses, ESP, intuition, and Dreaming. Clearing and Detox of the entire system will improve the whites of the eyes, which create peripheral vision, an important feature of intuition and reducing computer fatigue.

**5. Third Eye is Tyrosine Dependent:** Third eye opening through cleansing affords more tyrosine to open the pineal gland and crown charkas for for prayer and meditation, and to close for protection. Detoxification of tyrosine scavenging parasites especially worms, repairing tyrosine dependent thyroid, adrenals and pineal, and removing tyrosine inversion from measles vaccine may help to increase spiritual connectedness. Note that Acne on the forehead may be a sign of spiritual metamorphosis and detoxification of the pineal gland. Tyrosine deficiency is evidenced by rocking behavior, staring, upward gaze, lack of bonding, aggression, and lack of focus. Clients with these behaviors are more likely to be open to spiritual attack and precautionary measure, like those below, are advised.

**6. Emotional Fatigue can Impair Clairvoyance:** Judith Ornum, MD Psychiatrist, Clairvoyant as Child, trained at UCLA Institute of psychology, and who had both parents are physicians, claims she lost her clairvoyance in Med training due to the archaic schedules and stress. Then, she allegedly lost a psychiatric patient to suicide. She went through a spiritual ascension afterward and regained her enlightenment skills. She noted that the reawakening of intuition can sometimes reveal negative experiences that can be discomfoting to the therapist.

**7. Working with Violence and Negativity:** Typically clairvoyants may initially see more violent, premonitions and negatively charged events as they emerge into enlightenment, since negative experiences hold more charge and are more visible early on. This can be disconcerting to become aware of all the negativity, violence and shame in the world, and new therapists are urged to have mentors and colleagues to share their experiences with, ventilate and reassure themselves that this skill of clairvoyance brings with it awesome responsibility to know how and when to say what to whom, without forecasting knowledge to others that they are not yet ready to hear or see.

**8. Informed consent** must be signed, verbalized and repeated during entry to the experimental parts of the research process and QBF modules designated with an IRB (IRB means Institutional Review Board, which oversees data collection on experimental devices, and is noted with an (IRB) symbol when further consent, verbally or written should be requested)

**9. Screen Patients from Harmful Information:** Informed consent does not mean consent to diagnose anything other than stress, pain or relaxation issues, which are

regulated by the Stress Therapist Associations and regulatory bodies. It is not appropriate that the therapist tells or shows the matrix and every single thing they see the first time out on the scan to the client, which may be upsetting or overwhelming. Accuracy is improved, especially for life threatening illness. Instead the therapist is to question and interpret in an effort to bring focus, not cure, to bring enlightenment through awareness, not to judge prematurely and then give unwelcome and overpowering list of suggestions for improvement. Always remember that ill individuals, groups or companies always move slower than healthier ones, so adjust for the client's learning curve, instead of demanding they follow your speed, since healing is non linear and non verbal.

**10. Developing ESP may create anxiety.** Budding stress therapist and light workers may need help with religious, spiritual or mentorship training to handle the vision Clairvoyants usually knew before relatives would die. Anxiety may occur in prelude to events, without being able to localize the event. The time space continuum is mute in this kind of circumstance, for instance getting nervous in tunnel and later that night, a murder occurred there. These premonitory disasters are difficult to cope with, and need psychic protection from in order to not interfere with the normal processes of daily living. If you get a premonition about the death of client, please note it and act on it, since your skills in occult perception are likely to increase the longer you train with Quantum Biofeedback.

**11. Avoiding Xrroid Saturation Effects.** Remember that there is a saturation point for everything in life, and spending too many hours without break, or too many clients, or too sick clients, without ongoing preparation and protection may wear down the therapist's emotional, physical, spiritual and emotional skin by thinning the Auric field. Thus a long healthy career in this intense field requires ongoing dedication to self care, self protection, alignment and ascension to one's highest purpose, but in an ethical, safe, caring way with appropriate boundaries for all.

## **Section B**

### **1. Aura Field Protection Clearing for the Professional**

In hospitals, opening the body cavity in surgery opens the Auric Field and may release positive or negative energies. Opening the Aura can affect the health of the body electric. Doing Auric Field clearing on Hospitals may cause improved work environments, more relaxed attitude, stress reduction and improved energy in workers; Recovery Room located right next to morgue may cause a risk of too close a contact with those who have not gone "to the light". These "Earth Bound Spirits", who can intrude on your Aura and imprint and even invade you, separate from disease entities of bacteria, are the reason certain ancient and current tribes do not mention the name of the dead. Light workers and Quantum therapist, including all medical and dental professionals, psychologist, counselors, minister, healers of physical emotion and a spiritual nature, should regulatory partake in preventative Creation of Sacred Space and Aura Clearing.

## **2. Aura Clearing for the Subject**

Superconscious Choices must be respected since tapping into the super conscious mind is a better guide to what the person needs. Attending to the need directly is the best way to heal a wound. Non-Violent communication teaches we engage in “Power Over” style, such as parent over teacher, doctor over patient, coach over athlete, rather than teaching and training people heal and discover what they really need to heal, take responsibility and find their empowering path. Rather than a list of home work, like loose weight, quit smoking, which may not be appreciated or executed, promote and enroll them, invite them, instead of telling, such as “would you like to feel better, what are you willing to do, would you take up some initial steps, i.e. are you willing to drink some more water, and breath deeper”. The power is in giving them the CHOICE with options, without the need to rebel.

## **3. Overcoming Resistance to Change**

Our resistance to change is our old programming of submission or rebellion, where we typically revolt against duality as confining and hostile. The QBF gives the quantum physics reality option of a third possibility besides on or off, good or bad, by accessing the Maybe realm. Thus frequently use the QBF device to open up this third possibility of neutral, maybe, where more change and movement can occur, by activating the Quantum Indeterminacy Field (QIF) under power settings at the outset of a session.

## **4. Quantum Biofeedback can rewrite old injuries**

Ancient writing like the bible showed us that self protection is important. The old phrase “Turn the other cheek” does not mean to present the other cheek for another slap. Rather the story from Walter Winks’ book “The Powers That Be”, states that in the era of Jesus’s time, they used right hand to eat, left hand for personal hygiene, and neither should be crossed over in purpose. Since it is so taboo to touch anything with the left hand for hygiene reasons, only the right hand is ever used for actions. So if someone slaps you with their right hand, they will hit your left cheek and in that culture and time, by turning the other cheek into the left side, you would present the front of the face, which the perpetrator dare not strike due to the grave insult. So turning the left cheek is not a submission, but is standing up with a non violence response to disable the hierarchy of dominance and reduce violence. The Quantum Biofeedback device offers a unique way to rewrite the injuries of past, correct the awareness and hopefully guide humanity out of its violent history into millenniums of peaceful, non violent, non toxic behaviors.

## **5. Integration of both sacred space and quantum communication is very powerful**

The QBF system is a radical challenge to the dominations structure of society, due to its powerful healing machine and interface, which can now detect things like biological warfare strains, genetically modified moods, phenols pollution, perverse energies, and much more. This may be a whole new level of war where the battle of the dark and light is underway, and as people become more conscious, they become more enlightened,

which upsets the scale and status quo. Dark forces are attracted to the light, and light workers are feeling the burden of increased activity in recent years since Earth is literally moving into a belt of stars that is increasing light on the planet.

## **6. Developing Compassionate Awareness**

Recent books have been written on the increasing frequency of the earth and the ascension scales of compassion. On such book reports that on a scale of 1000, according to Steven Hawkins book "Power Vs Force", the resonance score of compassion is the highest, in keeping with the top religious figures in history. Shame, on the other hand, scores 20 and is the most toxic, like other lower conscious state register very low on the following scale. Removing toxic shame then should be part of the quantum process since it can elevate the spirit like nothing else. Release of Hamer conflicts in the Quantum Biofeedback modules, and increasing ascension and higher purpose in life are now available tools to assist with this. Obviously this is more common and important than we realize, possibly contributing the low vibrations of violence, sexual assault, addictions and apathy, since we see below the vibratory level of the earth in the past is only vibrating at a level of 200 on the scale of 1000.

|               | <b>Score</b> |
|---------------|--------------|
| Enlightenment | 700-1000     |
| peace         | 600          |
| Joy           | 540          |
| Love          | 500          |
| Reason        | 400          |
| Acceptance    | 350          |
| Willingness   | 310          |
| Neutrality    | 250          |
| Courage       | 200          |
| Pride         | 175          |
| Anger         | 150          |
| Desire        | 125          |
| Fear          | 100          |
| Grief         | 75           |
| Apathy        | 50           |
| Guilt         | 30           |
| Shame         | 20           |

### **Religious Figures**

#### **Christianity**

|                  |      |

## Section C

### 3. Sacred Space Clearing Tactics

#### Method A - Spiritual Clearing Tactics

1. Holographic Aura Clearing
2. Sacred Coning
3. Intention

#### Method B - Quantum Clearing Tactics

4. Preparing Office Setup
5. Quantum Biofeedback Spiritual Clearing Tactics
6. Protective Equipment

### Method A - Spiritual Clearing Tactics

#### 1. Holographic Aura

##### Process

Invocation process requires name, location, and instruction to request or invoke spiritual protectors for guidance in clearing all negative energies.

##### Content;

Insert Here Page of the your preferred favorite Invocation's Actual Words

#### 2 .Sacred Coning

##### Process:

Verbally and intentionally invoke a sacred coning that brings in the Masters to help you in your process of healing writing, brain storming, planning, or entering any activity of a spiritual or physical nature

##### Content:

Diva health wealth wisdom

Pan Pandora

Witnessing

Higher self, witness higher self, third party higher self

Highest self present

#### 3. Intention

##### Process:

Verbally express intended outcome to invoke the law of attraction to help the positive transformation and completion of you planning, or entering any activity of a spiritual or physical nature, including items such as Holy Spirit, Here I Am, or I Am (Name), in

present tense. Also give thanks and gratitude, and ask for guidance and protection from whom and state current time zone and place for anchoring to the here and now.

### **Content:**

(Insert paragraph of intention here – for example)

I gracefully ask Archangels Michael, Raphael, and Gabriel to protect, shield and guide me for a radius of 300 meters from any thing that is not of 100 % pure light, love and in my best interest serving my highest and best good, and clear easily immediately and effortlessly, without interrupting my optimum functioning.

## **Method B - Quantum Spiritual Clearing Tactics Overview**

1. Preparation Process – 10 Steps to a Safe Practice
2. Quantum Biofeedback Sacred Space Techniques
3. Protective Equipment for workers

### **1. Quantum Biofeedback Preparation Process**

#### **10 Steps to a Safe Quantum Biofeedback Practice**

Engage accelerated healing and focus through the use of a Quantum Biofeedback device to induce evoked potentials to maximize balance and optimum immunity and function in an interactive, non-invasive and deeply penetrating way. For safety first, when opening a client's electrical and Auric field, like any surgery, protection for the staff and client are paramount. The following are some worthy suggestions from clinical practice that will make your work and personal environment safe and enjoyable so you can pursue a worry-free career as a CBT or stress therapist.

**1. Religious Neutrality in Professional Settings:** Avoid religious symbols in an office to both make different ethnic and religious clients feel unbiased about your personal religious beliefs, but also to avoid an ungrounded attractor which entities can cling to after the client is gone. Remember that evil and negative energies will be attracted to the ungrounded or to the light workers.

**2. Prepare and Clear the office space** regularly, particularly after treating affected clients who have been measured to show entities. Even before clients arrive, set a sacred trusting intention for healing and guidance, and even consider using Sage or Lemon grass burnt to dissipate the intention throughout the sacred space addressing the cardinal directions of your workplace with Shamanic medicine wheel blessings.

**3. Clear office and equipment of Entities** especially if client shows Negative VARHOPE scores on Stress parameters on opening calibration, or who make the therapist feel unwittingly "repulsed", "Avoidant", or sense of hot sweats or cold gooseflesh which indicates the magnetic body, arousing hair erection or sweat, has detected a spiritual presence.

**4. Ensure Room Privacy and Adequacy:** Ensure the room is ventilated, with non metal conductive furniture, with concrete grounding in the floor if possible, access to washroom and water. Avoid situation where eaves dropping could be heard.

**5. Avoid EMF Stress.** Remove silent electronic pollution such as photocopiers, answering machines, microwaves, other electrical devices, especially telephones, and pagers. Worst of all remove and consider giving up altogether the use of cell phones, which are perverse energies and can invade the electric space of a session, and may lower the blood brain barrier within two minute of use, creating the loss of liver/brain filtration of toxins, which may precipitate a Detox headache and alarms which will hamper the scanning and therapy.

**6. Ground Client and Self.** Have the vulnerable client sit with their feet on a large stone, rock or concrete block to ground them to avoid fatigue, headaches, or detachment. Do not leave the feet off the ground in tested subject nor in Quantum Practitioner to avoid energetic imprints from exchanging.

**7. Avoid Metal:** Wear non metallic jewelry and only leather soled shoes to increase conductivity through the therapist into the floor, rather than bouncing electrical signal off the rubber in rubber soled shoes and back into the therapist or client, creating destructive interference and weakening the work done, possibly causing a wash out effect.

**8. Disengage from PC field during Testing :** Quantum Stress Practitioners are instructed to remove their hand from the keyboard or mouse especially during testing, to avoid any influence on the computer field, and better still to remove themselves from the room for the three minutes of the test, so that data analyzed will consistently show the double blind nature of the machine's recordings of bioresonance which are unaffected by the attending technician.

**9. Avoid Interruptions:** Therapist and clients must be taught to avoid interruptions, since it does take time and concentration to get entranced and emotionally vulnerable enough to let go negative frequencies.

**10. Momentum is key to healing** since it is non linear, and key moments of recollections, emotional impact and catharsis should not be interrupted or shut down. Ensure adequate appointment time, rebook session more frequently, leaving more for complex cases, while scheduling appropriate therapist breaks regularly to avoid Xrroid effect of work and PC fatigue.

## **2. Quantum Biofeedback Sacred Space Techniques**

After preparing self, client and office like a sterilized operating field with the above techniques, you are now ready to begin the Quantum Biofeedback process. Of course, you will start with the signing of informed consent explaining the procedure to the client

before any operational steps are carried out. Remember to avoid treating intoxicated patients who are not likely to respond as well and who may be at higher medical legal risk for complaining after the fact, especially regarding withdrawing consent on the basis of intoxication.

The following are a list of suggested techniques that will make a profoundly more safe and enjoyable, penetrating and lasting QBF session.

**1. Clear Work Place First:** Clear your work space with choosing under SOC page the Animal Testing, Inanimate object, and select the demographic new patient as your work place address

**2. Detect Spiritual Entities Early in Session:** Avoid timing disturbances by looking for the likelihood is an entity present if you see the following:

- a. Flattened First Harmonic in Risk field neutralization
- b. Resonant Frequency Pattern is abnormally high
- c. speed is high score,
- d. Low Resistivity,
- e. Low Minerals, an indication of being ungrounded (grey hair)
- f. any VARHOPE scores are in the negative range,
- g. the Right spin on the homotoxicology exceeds the left spin,
- h. the computer won't boot or crashes easily
- i. the alarm rings the moment you open the clasp 32
- j. the entire matrix is showing in red
- k. The calibration window flashes yellow saying "recalibration"
- l. Check Biofeedback under oppressive spiritual attach, psychic attach, Karmic Backlash etc. if these are difficult to rectify > 85%

### **3. Repair Reactivity Disorder**

- m. Check for reactivity disorder on the Red box or Matrix Upper Right
- n. According to the purple risk bars on the red VARHOPE Screen.
- o. To increase the speed of the entire session, fix sluggish speed first
- p. Select Test Matrix,
- q. Use Treatment menu at top middle menu,
- r. Select Stimulate reaction/duplicate remedy,
- s. Type "Invert reactivity disorder" the on green screen in white box,
- t. Alternatively type invert hypo reactivity or invert hyper reactivity for 3 min
- u. Repeat until rectified >85%

**4. Treat Temporal Anomalies in Calibration Risk Field Neutralization:** Open and then close and then reopen the calibration risk Field neutralization window in order to evoke a pop up button called "temporal anomaly", which should be clicked first before going to "fast track calibration" in order to piggyback a spiritual correction onto the calibration. The grey box in the upper left corner of calibration should read "Temporal Disturbances Corrected" when you finish calibration.

**5. Load Multi media protection** of 4000 prayers, by initiating the Flyman program from therapy page before testing and treating

**6. Power setting** should not be set to double or maximum on the first visit. However, if a stubborn condition is present, on subsequent visits, use higher power settings.

**7. Activate the Quantum Indeterminacy Field:** Under main matrix, top right corner power settings, first activate Quantum Indeterminacy Field (QIF) and then repeatedly increase it by 10% per try until maximum Intensify it 50%

**8. Ground the client with mineralization:** Mineralize (Go to 5031 and treat) to ground the subject before therapies begin, since minerals improve conductivity and penetration as well as holding of the new electrical pattern, and activate enzymes to continue the process long after the actual session.

**9. Orgone Field Generator:** Activate the spiritual harmony button, type on the line “all frequencies are transmuted to love frequencies” or use the highest consciousness names such as Jesus Christ, Archangels or spirit guides of your choice to act in Quantic field, with the intention to guide and protect you and the client. Once you click close, the Orgone field will continue to generate signal until the machine is shut off.

**10. Add Own Prayers:** At top of Orgone Field Generator Page, open “Add Prayers” icon and insert word documents of your favorite or personalized prayers.

**11. 24/7 Prayer:** Add the additional approx. \$300 program as a separate screen saver to deliver continuous spiritual protection to your workplace, staff, waiting room and clients. (You will need a separate program and activation code for this program.

**12. Hololinguistic Programming:** on therapy selection page, insert into the open lines the issue, organ and emotion of concern and then click the Schumann Wave button to cause a continuous word imprint onto the unconscious.

**13. Sacred Geometry:** In the SCIO, activate the new body viewer sacred geometry panel to evoke continued protection, projected on a separate PC monitor to the client, while the therapist can go back into the matrix, to see other screens and tasks.

**14. Dispel Second Brain Engram:** Before treating with trivector, reduce power to the entity in NLP therapies, or use NLP addiction module clicking “personality disorder”, and clear EEG brain wave pattern of “possible spiritual superimposition” by clicking on the “personality button right lower column”

**15. Dispel Oppressive personality spiritual superimposition** if and whenever a purple box automatically opens to warn of a second brain Engram.

**16. Clean Chromosomes of Electrical imprint of entity** with White Atom upper left corner clicked repeatedly to reveal the “Alter DNA Frequency Pattern” button, which should be clicked until the chromosomes enlarge.

**17. Superlearning Channel:** Evoke the highest intelligence and integrative thinking required for enlightenment

**18. Enhanced learning:** Stimulate emotional maturity and other items of interest

**19. Harmonic Therapy :** After quick check of phase, repeat Harmonic therapy until all sliders are aligned along the left side of the page, showing all brain locations working in sync with each other.

**20. Biofeedback** Use Unconscious Reactivity or select unconscious choice and super conscious selections.

**21. Homotoxicology:** Check Spin to determine if Right spin greater than left, and if so, correct with Biofeedback Magnetic therapy or Scalar Therapy ( which can be run continuously via the new Body Viewer Program on the SCIO device, to save time and provide deeply penetrating, lasting results.)

**22. Polymorph Trans in EEG program** will align the electrical field at many octaves, and provide the electrical skeleton, like squared scaffolding, to be able to receive and hold the new resonances supplied by biofeedback

**23. Face and Body Scan Module** will also help align the charkas and identify the locations of electrical leakage, aura snags and the top four emotional issues associated with the snags. Beware of occult sexual assault if the base charka is closed or absent..

**24. Treat ANS** sympathetic, parasympathetic and vagus nerve for autonomic nervous system integrity, which helps speed the session and helps maintain progress and vascular, nervous and endocrine tone.

**25. Perform Top two therapies** as suggested in the therapy yellow and pink box

**26. Miscellaneous Problem Solving Modules:** Check Risk Profile, Virtual Doctor, Superconscious Reduction Panel, Search buttons, Hold trays, Unconscious Choice of Therapies, Disease Dictionary, Body Viewer,

# Quantum Biofeedback

## 3. EMF Protective Equipment

### Process:

Use EMF protecting equipment to shield to body of harmful electrical fatigue Computer Pad to reduce EMF strain which weakens the auric field of provider, clients, and office staff.

### Content: Optional Protective Equipment

#### 1. Geopathic Stress Shield

##### a. Biotronix Bioshield™ Necklace

[www.Biotronix.com](http://www.Biotronix.com) for necklace with cut crystal to match Earth's increased Ohm frequency from the old 7.83 to 12.5 Hz )

##### b. Q-Link with programmed crystals and EMF Protection

##### c. Institue of Feng Shui & Geopathology Geopathic Necklace shield

PO Box 838 Portland ME, 04104

Tel:207-772-7888, Web: [www.InstitutefFendShui.com](http://www.InstitutefFendShui.com)

#### 2. Computer Chair Pad (i.e. see. [www.Hannasherbshop.com](http://www.Hannasherbshop.com))

#### 3. Peripheral vision protection for computer users (ie. See [www.EyeOasis.com](http://www.EyeOasis.com))

#### 4. Ergonomic Chair to avoid back strain and metal contact

#### 5. Halogen or Full Spectrum Lighting

## Summary

### Current status

What did you learn from this module?

1. Methods of Creating Sacred Space with 5 options including spiritual methods like aura clearing, coning and prayer, plus Quantum methods like Quantum biofeedback strategies or protective equipment
2. Learned religiously neutral, non-judgmental, private and respectful tactics to ensure the safety, trust and responsiveness of the client
3. Learned new shortcuts like using overall protective strategies at outset to make the entire session safer and faster for practitioner and client
4. Provide the skeletal structure of the protocol for clearing sacred space which can serve as a base template for anyone.

5. Learned useful and specific applications of the new field of remote access to the unconscious mind, and learned “Shield from remote viewing” protection strategies to maintain health, privacy and a clear spirit and intent.
6. Learned the specific data input techniques for navigation for Clasp 32 software to ensure a spiritual protective field for the therapist and client
7. Used clinically efficient suggestions for execution flow to save time & money

### **Learning Resources**

Apply templates to future projects

Therapist and Pod Leader Workshops

Research protocols development

Client instructions handouts in Letter Section of Reports

Continue Learning Mentorships

Research Pod Leaders, Colleagues, Study Subjects

Quantum BF Device Faculty

Continue Education Conventions on Techniques in Quantum Medicine

Review Spiritual Clearing Level II Intermediate QXCI training DVD by Dr. Drake

Review written resources

### **Practical Evaluation of This Tutorial**

Informal

The student needs a way to confirm:

What they have learned

Have they learned what has been taught?

Formal

The student is quantitatively evaluated

Written Test

Oral Test

Performance Test

The Student evaluates the process

Feedback questionnaire

Suggestions for improvement in the future

# **Disaster Relief**

## **Through Biofeedback Stress Therapies**

A Clinical Skills Course for  
**Eclosion (QXCI SCIO or EPMX) Therapists**

by

**Deborah Anne Drake**

BSc, MD, CCFP(EM), FCFP, NBCB

Copyright March 15 2005

All Rights Reserved.

# Professional Clinical Training Course for EPFX Quantum Biofeedback

Who: Quantum Stress Therapists

Where: South Africa

When: Mar 19-23 2005

What: Disaster Relief Strategies

Why: Sonic Shock Relief through  
Quantum Sonic Immune Repair

# Course Theme :

## Disaster Relief

- What: Biofeedback applications in extreme stress, such as medical emergencies, mass population endangerment & natural disasters.
- How: Ecllosion (QXCI, SCIO or EPFX) quantum biofeedback is well suited for stress relief in an calibrate, integrated, quantifiable way that can generate research and steering strategies for care givers, governments, AID agencies and entire populations and cities.

# Sonic Relief for Sonic Disaster

- **Why:** Clinical Skills and strategies for stress therapists must be taught from both an individual and a widened population perspective in this global village, especially since Quantum therapies are able to be delivered locally or remotely in subspace healing for others.

# Course Contents

- Dr. Drake will focus on widely applicable Emergency Stress Therapies using Quantum Biofeedback Eclusion modules and sequences most pertinent to Quantum Disaster Relief and Prevention, given the recent Tsunami disaster and many victims. Many features of the Eclusion can assist and population stress will be addressed, especially related to sanitation, shock, epidemic prevention, heavy metal detoxification, spiritual healing and issues of trauma such as shock pain.

# A Collective Unconscious

- Let's use our conference to hone our Quantum biofeedback clinical skills while sending healing to so many in need, while helping learn to protect the planet and its flora and fauna. The disaster ripple effect, if left unchecked could affect generations to come, but interruption through inversion of the Shock Wave can have significant preventative influence on thousands of families.

# Sonic Relief for Sonic Shock

- Quantum Biofeedback is a well suited tool for accurate, long distance, non-invasive restoration of electrical fields after sonic wave destruction or interference, and can help prevent distorting ripple effects in human and planetary health that are urgent in the face of the Tsunami Disaster.

# **Level 4 - Professional Biofeedback Stress Training**

- 4.1 - Bioterrain, Leaky Gut & Celiac
- 4.2 - Heavy Metal Toxicity & Autism
- 4.3 – Post Traumatic Stress Syndrome
- 4.4 – Epidemic Prevention Methods
- 4.5 – Geopathic Shock Stress Corrections
- 4.6 - Spiritual Oppression & Domination
- 4.7 – Open Session of Problem Solving

# Contact

- **WEBSITE:**  
**[www.HarmonizeYourHealth.com](http://www.HarmonizeYourHealth.com)**
- **E-MAIL:**  
**[info@harmonizeyourhealth](mailto:info@harmonizeyourhealth)**

# Further Study Resources

- Level 5 Marketing & Sales Strategies
- Level 6 Mentoring and Certification
- Level 7 Home/Internet Study Continuing Education Tools
- Level 8 HarmonizeYourHealth Holidays for Seasonal Stress Retreat

# **Level 5 - Marketing Strategies**

- 5.1 Self Directed Healing Salesmanship
- 5.2 Marketing to the Public
- 5.3 Research Applications & Data Collection
- 5.4 Malpractice Insurance & Attitude
- 5.5 The Future of QXCI Medicine

# **Level 6 - Mentoring & Certification**

- N6.1 NBCB Certification 3 Day Course
  - N6.2 NBCB Certification Examination
  - N6.3 Individual Mentoring per Day
  - N6.4 NBCB Certification with Internet Study
  - N6.5 NBCB Certification Course Manual
- 
- NBCB = National Biofeedback Certification Board
  - Instructor Dr Deborah Anne Drake

# **Level 7 – Upcoming E-Books**

- N7.1 SCIO Training by Dr. Drake on DVD's
- N7.2 Bioterrain, Leaky Gut & Celiac Manual
- N7.3 Heavy Metal Toxicity & Gut Dysbiosis
- N7.4 Adjuvant Bio-Energetic Cancer Therapy
- N7.5 Quadrant Meal Plan Immune Safe Meal
- N7.6 The Fundamentals of Living Well

# Level 8 Stress Holidays

- **HarmonizeYourHealth Holidays**
- 5 Seasonal Retreats designed to teach and use full spectrum detoxification strategies for therapist who wish to bring themselves and or their clients on a holiday, under direct supervision and holistic conditions to integrate a healthy diet and lifestyle upon return home. See website for details.

# AutoImmune Anatomy

---

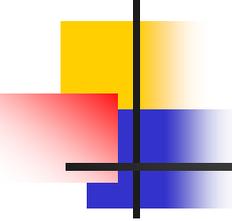

- Infections and Metals activate TNFA
- TNFA gene lives beside the celiac gene and autoimmune genes on chromosome 6
- All infections and metals induce acquired celiac disease
- All detox protocols **MUST** also include a Gluten free diet

# Enterochromaffin Cells

---

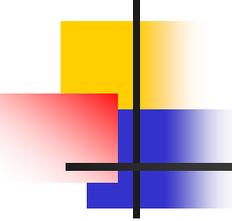

- Fucose rich nerves are modified in the gut into lymph nodes called entero-chromaffin cells
- These modified nerve/lymph nodes are sensitive to anti-gliadin antibodies from acquired celiac disease
- Neurotransmitter depletion ensues in celiac

# Infections Induce TNFA

---

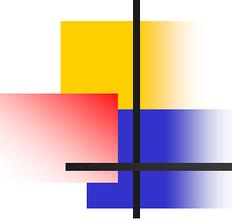

- Any infection induces the immune cascade to induce TNFA bugal-boy to wake the company barracks of White Blood Cells (WBC) to attack the invader
- TNFA, a transcriptase, wanders off its DNA location, migrating and activating its neighbouring Celiac gene and autoimmune genes

# Immune Response

---

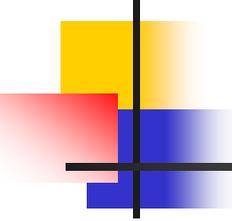

- Gut dysbiosis (ie. *Campylobacter jejuni*, *Helicobacter pylori*, Candidiasis) initiate the TH2 immune response
- Circulating blood Monocytes stimulate the cytokine signal transduction pathway
- The resultant activation of plasma monocytes to activate GM-CSF induces monocyte conversion into tissue macrophages to attack the infection

# Gut Neurotransmitter Depletion

---

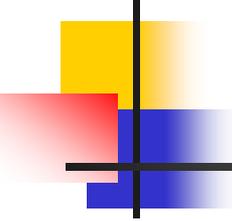

- Gut lymph nodes use dopamine to assist in the signaling for peristalsis and defense
- Leaky gut depletes dopamine building block called tyrosine used for production of:
  - Dopamine (focus, motivation, attention)
  - Adrenalin (fight or flight response)
  - Thyroid hormone (weight, mood, peristalsis)
  - Oxytocin (bonding, orgasm, labour)

# Gluten Mimics Gut Lining

---

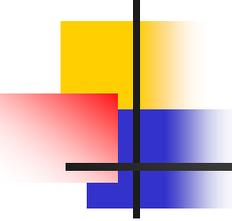

- The gut lining is composed of patches of fucose square shaped sugars
- Puncture of the square sugars due to cross reacting anti-celiac antibodies induced by wheat or infections the shape of wheat cause leaky gut
- Leaky gut impairs peristalsis, furthering gut dysbiosis overgrowth and fermentation

# Leaky Gut

---

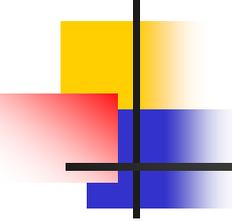

- Acquired celiac disease impairs the gut lymph nodes and nerves, impairing peristalsis, thus allowing accumulation of undigested food and metals to further feed the abnormal gut flora
- Once the flora is sufficiently altered & the pH of the gut exceeds the pH of the blood stream, an inverse polarity of the gut causes leakage of negative ions into the body causing the organ inflammation

# Autoimmune Gut Dysbiosis

---

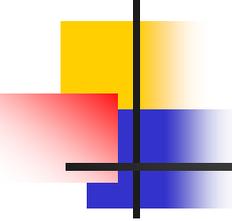

- Metals feed the metallo-enzymes of infections such as Candida
- Candidiasis uses magnesium in its hyphae, impairing magnesium induced mood control, peristalsis, bone production, pancreatic insulin

# Co-morbid infections

---

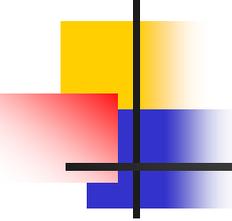

- Co-morbid Gut Infections
  - Candidiasis piggybacks and carries other infections, like Helicobacter pylori, Campylobacter jejuni
  - Yeast fermentation converts sugar and B vitamins into aceto-alcohol, which feeds intestinal worms
  - Yeast produces brain hexane gas
  - Yeast inflames connective tissue with butyric acid and gout crystals

# Gut Perforations

---

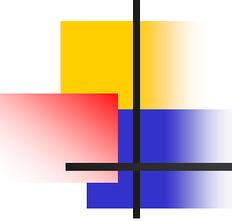

- Candidiasis and fungi eat IgA antibodies as a protein source, and impairs the laboratory in detecting gut infections
- Undetected infections aggravate TNFA/ceeliac genes to cause immune cascade to go unregulated
- Without immune defense, Candida further punctures bowel wall causing leaky gut

# Autoimmune Cascade

---

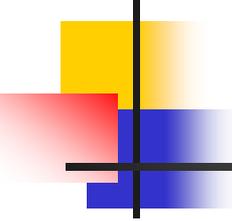

- Once GM-CSF is induced by metals or infection, the autoimmune cascade of cytokines produces chronic inflammation
- Inter-leukin IL-6 and IL-8 cause inflammation
- GM-CSF produces tissue macrophages to release cytokines called which induce beta-oncogene, IL-3 which induce lymphoma

# TNF-Alpha (TNFA)

---

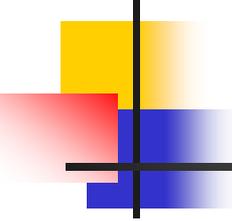

- Heavy metal oxidative stress from dental amalgams, deodorants, cookware, environmental sources can cause relentless activation of TNFA
- Sulphur shuts off TNFA like a trumpet mute which then retards the immune cascade and the celiac gene co-activation

# TNFA Predicts Illness

---

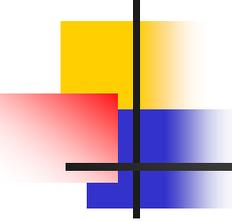

- Depletion of TNFA due to lack of sulphur is a predictor of many serious illnesses:
  - **Celiac Disease**
  - Cardiogenic shock
  - Thrombosis (MI, TIA, Stroke)
  - Tumours (lymphoma)
  - Tissue host graft rejection
  - Insulin resistance, diabetes, obesity
  - Wasting of HIV disease

# Sulphur Shuts of the Autoimmune Cascade

---

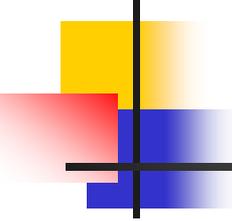

- Chronic gut infections or Mercury toxicity can deplete sulphur
- Sulphur depletion impairs the immune balance by allowing TNFA to continue activating the TH2 immune response unregulated

# Dental Impact of Celiac Disease

---

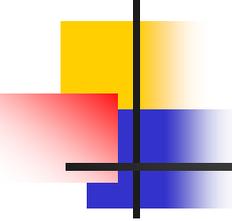

- Celiac disease erodes teeth enamel resulting in dental caries
- Caries, treated with dental mercury amalgam, further impairs the sulphur pathways
- Without sulphur to shut off TNFA and acq.celiac disease, metal toxicity causes a vicious circle of: caries of teeth > metal toxicity > immune sulphur impairment > gut dysbiosis > celiac > dental caries

# Gluten Cross Reactions

---

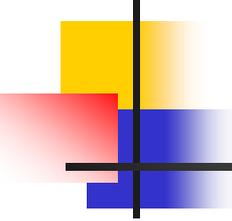

- Square shaped fucose sugar makes a good building block for the structures of the body
  - RBC coating
  - Nerve head
  - Synaptic vesicles release protein “synapsin”
  - Myelin sheath (myelin associated glycoprotein called MAG and myelin basic protein MBP)
  - Purkinjie cells (nerve axon battery cells)
  - Gut lining patio stones

# Acquired Celiac Disease

---

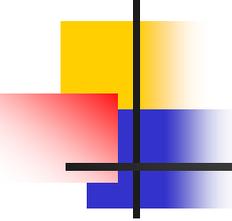

- Most food poisoning bugs are covered with square fucose sugars similar to the square fucose patio stones lining the gut lining, lymph nodes, nerves, purkinjie cells
- Metal or infections activate TNFA and its neighbouring Celiac gene to produce anti-gliadon Celiac antibodies to guard nerves & lymph nodes
- all infections or metal toxins must produce a physiologic Acquired Celiac Disease

# Acquired Celiac Disease

---

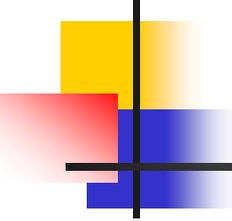

- Celiac antibodies attack nerve endings, synaptic bulb synapsin, myelin sheath proteins, Purkinje battery cells on axons in cerebellum, ovaries and heart, gut lining and gut lymph nodes
- The body's neural-humoral defense system is crippled by impaired nerve-node communication
- Glandular impairment of nerve rich structures in the endocrine system cause loss on homeostasis, leading to chronic fatigue, toxicity & disease

# 95% Serotonin Stores in Gut

---

- Serotonin precursor 5-Hydroxy-tryptophan (5-HTP3 and 5-HTP4) in gut lymph nodes regulate peristalsis
- Lymph node acquired celiac attack impairs 5HTP
- Poor peristalsis impairs clearance of food, metals, toxins, promoting further gut dysbiosis & acidity
- Overgrowth > immune and mood decompensation

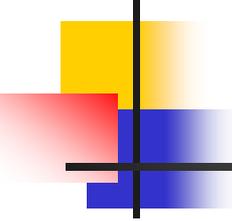

# Tyrosine Depletion

---

## Tyrosine Functions Impaired

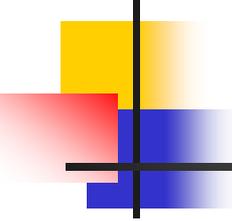

- peristalsis, immune defense
- antipsychotic, initiator of action
- building block of adrenalin,
- thyroid hormone,
- pineal hormone
- used by pathogenic worms

# Candidiasis

---

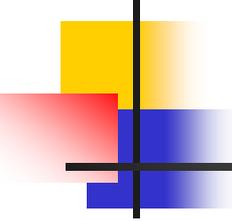

- Grows at a pH of 7.5
- Steals B vitamins for its energy metabolism
- Produces sugar fermentation into alcohol
- Depletes our Magnesium for its hyphae
- Has Progesterone & estrogen receptors
- Attaches to fibronectin in blood, liver, spleen and lymph nodes

# Candidiasis

---

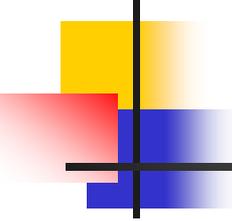

- Candida overgrowth inverts the gut pH from 6.0 to pH 7.5
- uses the metals for its metallo-enzymes, so it tends to grow in metal toxic patients,
- Candida fosters sugar fermentation to feed of worm and bacteria hungry feeding alcohols, and initiates anti-gliadon antibodies
- Candida hyphae puncture the gut lining impair the integrity the ability to rid the infection, leading to chronic leaky gut and gut lymphoid hyperplasia,

# Cascade of Gut Dysbiosis

---

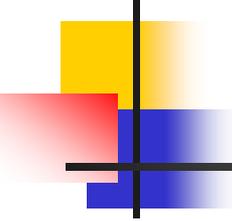

- Metal toxicity produces sulphur depletion
- > Gut Dysbiosis
- >> Acquired Celiac Disease
- >>>> Lymphoid hyperplasia > lymphoma
- >>>>> Serotonin Depletion in gut lymph nodes  
(depression, impaired peristalsis)
- >>>>>> Dopamine Depletion  
(hypoadrenal, hypothyroid, hypopineal)

# Lymphoma

---

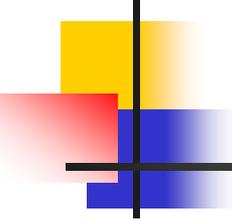

- Currently the highest rising cancer in all ages groups (except under 1 year old)
- Swollen gut glands are paralysed by the gluten rich diet in North America
- Lymphoma highly associated with *Candida tropicalis* infection
- Leukemia is highly related to *Candida albicans* infection

# QXCI

---

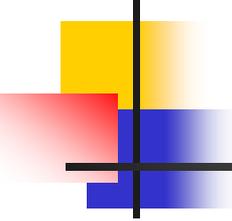

- Dental Program
- Dental Isodes
- Dental Nosodes
- Dental Chart
- Dental Scan
- TMJ Scan and Repair
- Dental Amalgam Removal

# Treatment Protocol

---

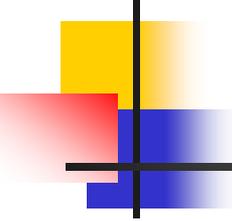

- Must include:
- Gluten free diet
- Probiotics *Acidophyllus* for Vit K
- Antioxidant hydride, ZBACES
- Amino acid repletion
- Mineral repletion with *Spirulina* algae
- Metal Mobilization with *Chlorella* algae

# Helpful Amino Acids

---

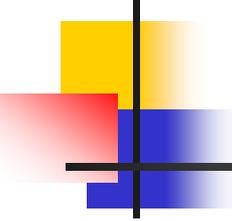

- Tyrosine
  - heals dopamine depletion in ANS
  - Repletes gut lymph nodes, adrenals, thyroid and oxytocin
  - Use 1500 mg orally in am, 1000mg 3pm
- 5 Hydroxy-tryptophan
  - 100 mg po Bidaily for lymph nodes and seretonin repletion

# Helpful Minerals

---

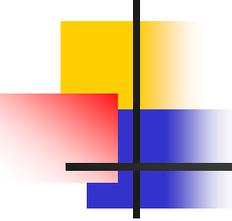

- Magnesium
  - Prevents cardiac arrhythmia or seizure during healing crisis of gut retraining
  - Promotes peristalsis
  - Promotes insulin regulation
  - Promotes anti-depression
  - Relieves muscle spasms
- Dose: 400 mg per mouth 4 times per day

# Helpful Gut Cleanse

---

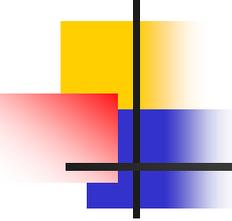

- Cleanse gut with absorbant cocktail of :
  - Psyllium fibre (2-4 tsp)
  - Bentonite clay to trap bugs and metal (2 tsp)
  - Capralytic acid in Olive oil (Caproil) 1-2 tsp
  - Acidophyllus
  - Mix in 8 oz water and drink or freeze as popsicle for children

# Helpful Probiotics

---

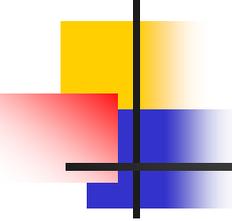

- Lactobacillus Acidophyllus (Multi-strain)
  - Produces Vit K to kill fungi, yeast and bacteria
  - Vitamin K assists in blood thinning and flow
  - Dose: 6 Billion live cell per cap three time/day
- Spirulina Algae (Microclustered)
  - Contains all minerals, vitamins, EFA, AA's
  - Dose: 3 capsules per mouth 3 times per day

# Helpful Hydration Tips

---

- Reduce surface tension in water with lemon
- Reduce surface tension to equal of RBC by adding “Microhydrin” silicated hydride ion
- Reduce acid load by drinking alkaline water (ie Microhydrin pH 9.6)
- Use increased intracellular water with magnetized water (ie Nariwa)

# Helpful Sulphur Sources

---

- Foods:
  - Garlic, onion, apricots, Sauer Kraut
- Vitamins:
  - Microhydrin PLUS with milk thistle
    - N-Acetylcysteine (NAC)
    - Alpha-lipoic Acid (ALA)
    - Glutathione, Methionine
  - Methylsulfonylmethane (MSM)

# Hearing Loss: Impact, Types, Solutions

By: Kayla Sherborn  
Student ID: 250316697

Section: 001  
Prof: Dr. Mike Atkinson

# Hearing Loss Overview

## ◆ A. Impact of Hearing Loss

- Psychological and Social Implications
- Non-Auditory Effects

## ◆ B. Types of Hearing Loss

- Statistics of Hearing Loss
- Conductive, Sensorineural

## ◆ C. Hearing Loss Prosthetic Solutions

- Hearing Aids
- Cochlear Implant
- Prevention

## ◆ D. Summary

## ◆ E. References

# A. Psychological Impact

- ◆ **Hearing loss** greatly impacts our psychological and our social lives.
- ◆ Under recognition and denial of hearing loss can lead to **isolation, depression, anxiety.**
- ◆ Solutions are available but limited.
- ◆ The key is **P R E V E N T I O N .**

# Under recognition

- ◆ **Denial** is one of the biggest obstacles in recognizing one's hearing loss and prevents people from getting the help available.
- ◆ When people are asked if they had to choose whether they would rather be blind or deaf, most people will answer that they would **rather be deaf**. (Fletcher as cited in Passer et al. 2005, p. 178)
- ◆ However, hearing loss is so invisible, it can cause devastating **social consequences, stigma, lack of understanding and empathy**.

# Helen Keller

- ◆ Helen Keller was a woman who lived both deaf and blind.
- ◆ She considered deafness to be more socially devastating.
- ◆ “Blindness cuts people off from things. Deafness cuts people off from people.” (Passer et al. 2005, p.178)

# Isolating Complaints

- ◆ “My wife is **disappointed** I don’t go to parties or concerts anymore.”
- ◆ “I sometimes feel **foolish** and **pretend** to understand, but laugh at the wrong times.”
- ◆ “ I can’t watch T.V or movies **with my family** anymore.”

(Vye, K. 2006)

# Social Implication of Denial

- ◆ Charlie was sure his wife Mary had **hearing loss that she wouldn't accept**. So he decided he had to prove it to her. One day while putting the groceries away, **with their backs to each other**, he asked in a normal voice “honey, what’s for dinner?” but he got no response. He thought he’d try again, so he raised his voice and asked for a second time. But again Mary gave no response. “Ah ha! I’ll give her one more try” thought Charlie. So in a very loud voice he yells **“HONEY WHAT’S FOR DINNER!”** With that Mary turned around, tapped him on the shoulder and stared him right in the eye and said **“For the third time we’re having chicken!”**

# Non-Auditory Effects Of Hearing Loss

- ◆ Isolation
- ◆ Increased blood pressure
- ◆ Stress
- ◆ Fatigue
- ◆ Tinnitus
  - ◆ **Tinnitus**, or “ringing” is a perception of a constant or intermittent sound in the ear or head where no external source is present.
  - ◆ In extreme cases, it can lead to **stress and even suicide**. (The American Tinnitus Association, 2005)

(Workplace Safety and Insurance Board, 2005, p. 2)

## B. Hearing Loss Statistics

- ◆ The Canadian Hearing Society Awareness Survey of 2001 states that almost **1 in 4 (23%) of adult Canadians** report having hearing loss.
- ◆ **It's common in society:** 8 in 10 Canadians have worked with, have family or friends with hearing loss. (The Canadian Hearing Society, 2001)
- ◆ 90% of North Americans who experience hearing loss were **born with normal hearing.** (Fletcher as cited in Passer et al. 2005, p. 178)

# Types of Hearing Loss

1. **Conduction Hearing Loss:** Impedes the conduction of sound through the outer and middle ear. ( Suter, 2002, p. 24)
  - ◆ **Ways of acquiring conduction hearing loss:** Obstruction of the canal by cerumen, ruptured eardrum, fluid build up, break down of the ossicles, infections & others.
  - ◆ **Good news:** Conductive hearing loss usually responds well to medical treatment.

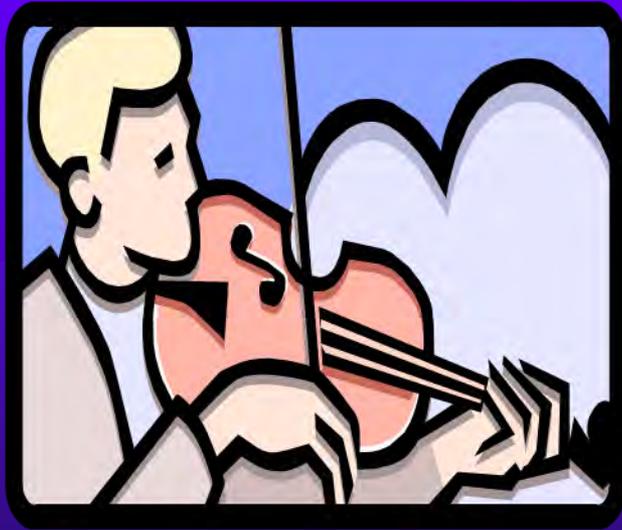

# Types of Hearing Loss

## 2. **Sensorineural Hearing Loss:**

Tends to be caused by damaged receptors within inner ear or the auditory nerve itself. It poses difficulties in understanding speech, especially with a noisy background. (Suter, 2002, p. 24)

- ◆ **Ways to acquire sensorineural hearing loss:** Aging, Childhood Illnesses, Meniere's Disease, Noise Inducement, and many others.
- ◆ **Bad news:** Due to its connection with the semi circular canals, sensorineural hearing loss is permanent & unresponsive to hearing aids.

# C. Hearing Solutions with Prosthetics

1. **The Hearing Aid:** Provides amplification, and while helpful to many, cannot correct hearing the way eye glasses correct eyesight. ( Nelson, 2003, p. 26)
  - ◆ They are more helpful for **conductive hearing loss.**
  - ◆ **Sensorineural hearing loss** makes you lose the quality of your hearing not the quantity, so **amplification will not help.**

# Hearing Solutions with Prosthetics

## 2. Cochlear Implant:

The one solution that stimulates auditory nerves to produce sound electronically.

( Florian, 2003, p. 24).

- ◆ With this implant patients can hear everyday sounds, and many can understand speech. However, sounds tend to be muffled. (Passer et al. 2005, p. 178)
- ◆ People who expect the implant to restore normal hearing are usually greatly disappointed.

# Summary

- ◆ **Communication is the key** to improving our quality of life & interactions with others.
- ◆ **Hearing loss affects our psychological and social lives** impacting on marriage, family, work and social relationships.
- ◆ **Hearing prosthetics are not substitutes** for normal hearing; nothing can replace what mother nature has given us.
- ◆ **Don't take hearing for granted:** be careful with music, noise, head trauma, infections.

# GREAT SHAKES

## Designed to Boost Immunity!

1. FIRST, PLEASE BLEND THE FRUIT, JUICE AND WATER TOGETHER WELL ON HIGH IN A BLENDER FOR A SMOOTH CONSISTENCY BEFORE DOING STEP 2.

2. WHEN YOU ADD THE FOLLOWING INGREDIENTS, PUT THE BLENDER ON THE LOWEST SETTING TO MAINTAIN THE NUTRIENTS IN YOUR SHAKE.

IN EACH OF THE FOLLOWING RECIPES, YOU INCLUDE:

\* 1 tbsp Spirulina powder

<[http://226030.royal-bodycare.com/Green\\_Phyto-Power.htm](http://226030.royal-bodycare.com/Green_Phyto-Power.htm)> (if you have grass allergies, anemia, or are vegetarian) - or otherwise Phytogreens

<[http://226030.royal-bodycare.com/Green\\_Phyto-Power.htm](http://226030.royal-bodycare.com/Green_Phyto-Power.htm)> or Pure Synergy (if you have burping, bloating, gas or acid reflux)

\* a good squirt of Hydra Cel

<<http://226030.royal-bodycare.com/HydraCel.htm>> (ionized minerals)

\* 3 Capsules of First Food

<<http://226030.royal-bodycare.com/FirstFood.htm>> / Colostrum in every shake

\* 1/2 C of Water

\* 1 TBLSP OF FLAX OIL and perhaps LECITHIN

BLUEBERRIES SUPREME (Candida Friendly)

1/2 CUP OF APRICOT JUICE

1/2 CUP of Frozen Blueberries

1-2 Ripe Pear

MANGO SPICE

1/2 C of Apricot Juice (organic)

1 Ripe Mango well washed

1 Ripe Pear

Pinch of cinnamon

TROPICAL PUNCH (NOT FOR THOSE OF YOU WITH FURRY TONGUES, GAS OR BLOATING)

1/2 C of Water

1/2 C of ORGANIC PINEAPPLE JUICE

1 Mango, Ripe Banana, 1 Passion Fruit

\*YOU CAN ALSO PUT 1 TBLSP OF FLAX OIL IN EACH OF THE SHAKES

“Ultra Clear Plus” Rice Based Canola free Shake mix can be added as a milk alternative.

# Bioterrain Centerpoint in Nature

# Healthy Body Compartments

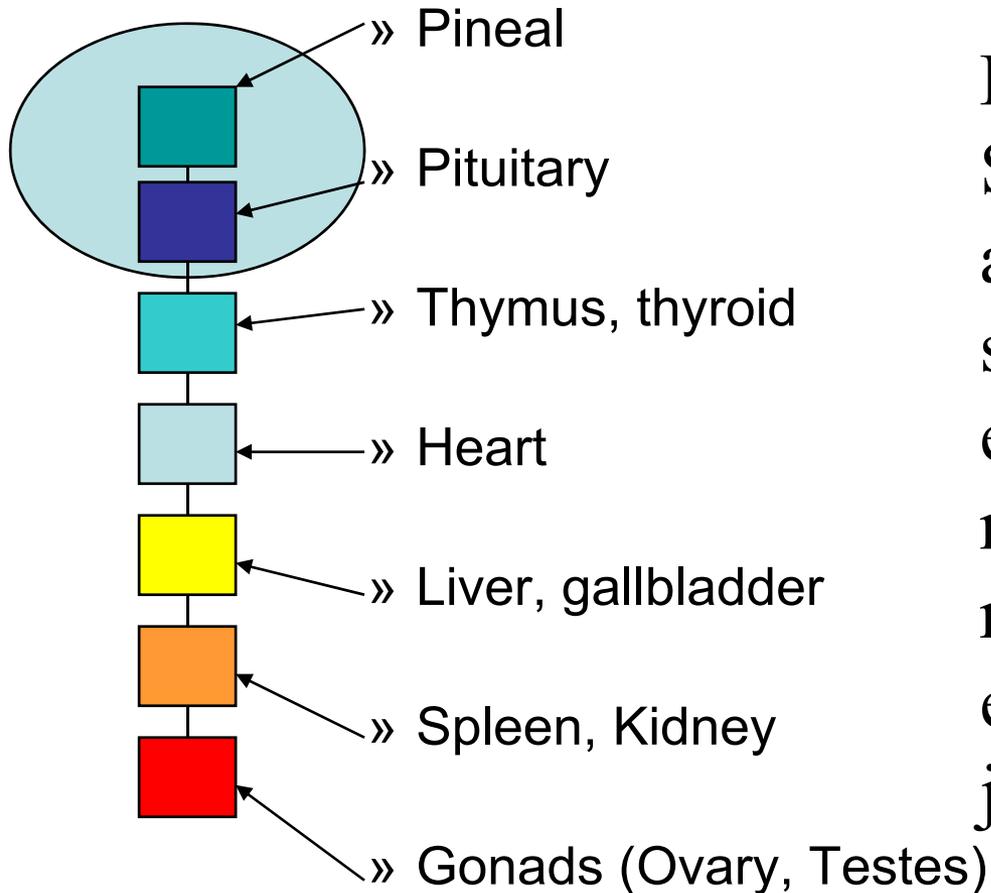

# Color Refraction in Food

# Rainbow Refraction of Wavelength Identifies Different Resonances

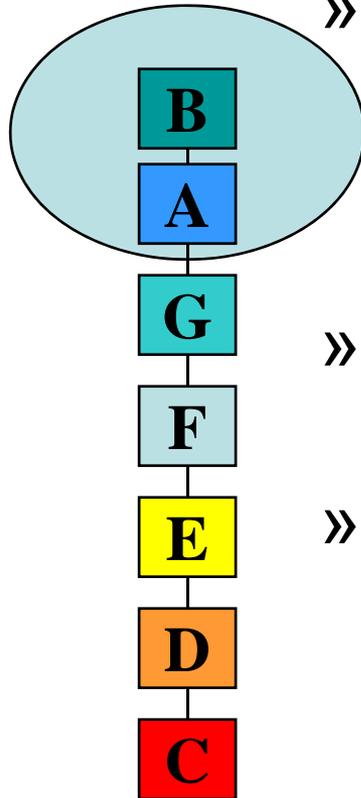

# Endocrine Glands

Brain  
Switchboard has  
an endocrine  
system as an  
extension for  
neuro-endocrine  
regulation ( the  
electro-chemical  
junction box)

# Frequency Imparts Function

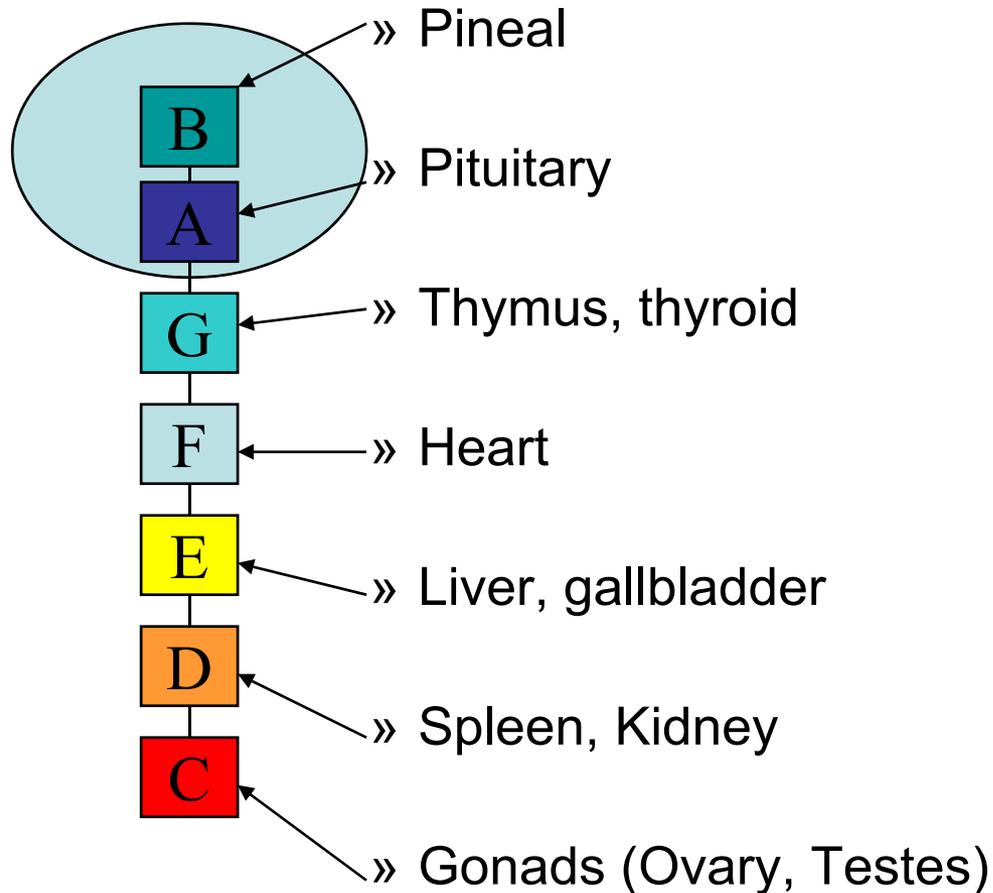

- » The frequencies of the glands & Charkras match the frequency of the notes of the piano scale & the frequency of rainbow colors
- » Different frequencies impart different organ tuning functions
- » Different octaves impart different functions body functions (ie lower octaves for vibrational body, middle octaves for chemical body, upper octaves for spiritual body)

# Immune System Anatomy

- Thymus Gland makes one Plasma Cell for Each frequency or each bug or invader
- Thymus gland provides master library of defense
- Humoral Immunity Flags enemy by shape recognition (Frequency = Digital Shape)
- Flagging of enemy with antibodies to lectins induces immune cascade to assist capture
- WBC Cellular Immune defenses follow up to destroy invader, then turn off once finished

# Endocrine Glands

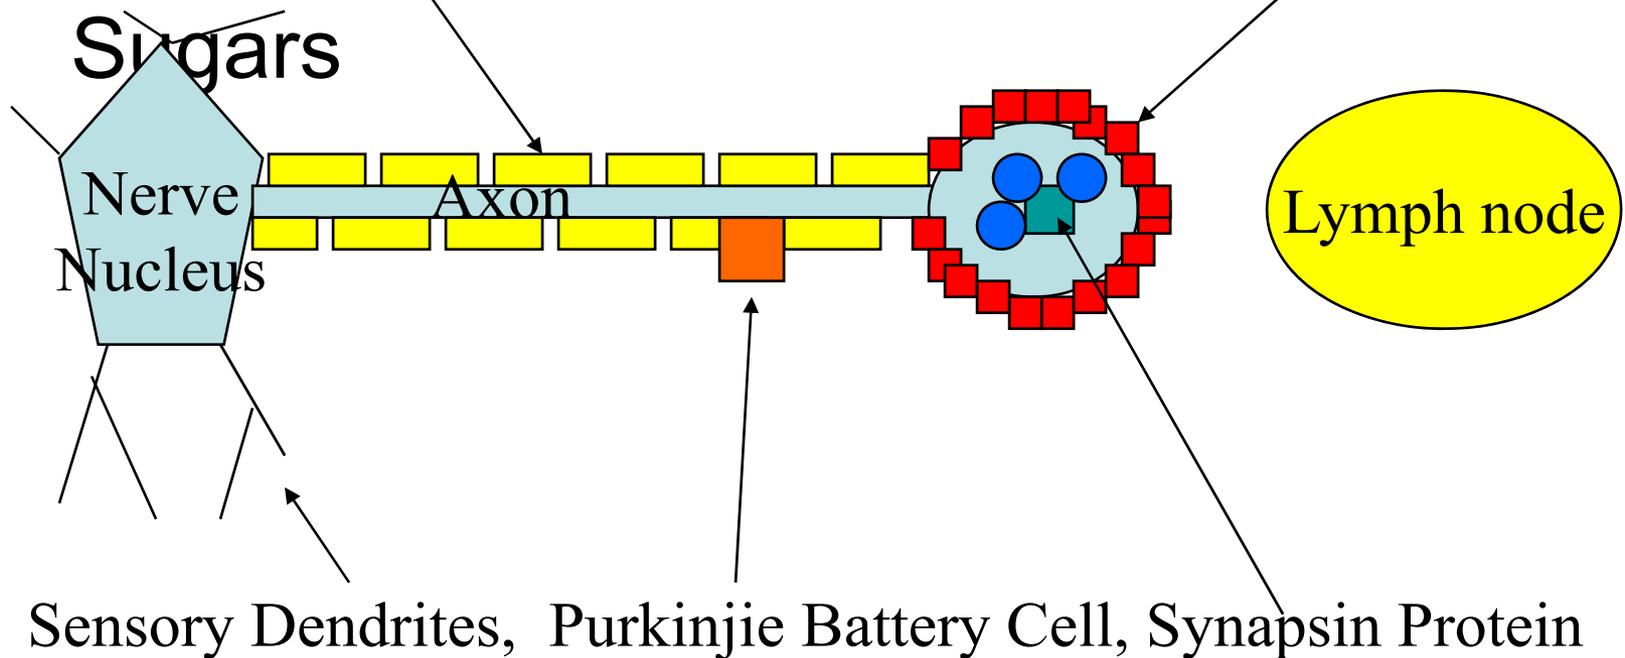

Gluten Shape   
Similar to  
Endocrine &  
Nerves & Charkas  
can cause cross  
reacting auto  
antibodies to attack  
the glandular  
switchboard,  
gluing up cellular,  
hormonal and  
neurological  
communication

# Immune system physiology

- Many human structures are coated with square sugar Fucose
- Human immune structures are defended with anti Fucose & anti-celiac antibodies
- The brain, endocrine, gut lining, blood and electrical systems rich in Fucose are vulnerable to anti Fucose anti-gliadon (anti-gluten) like antibodies.

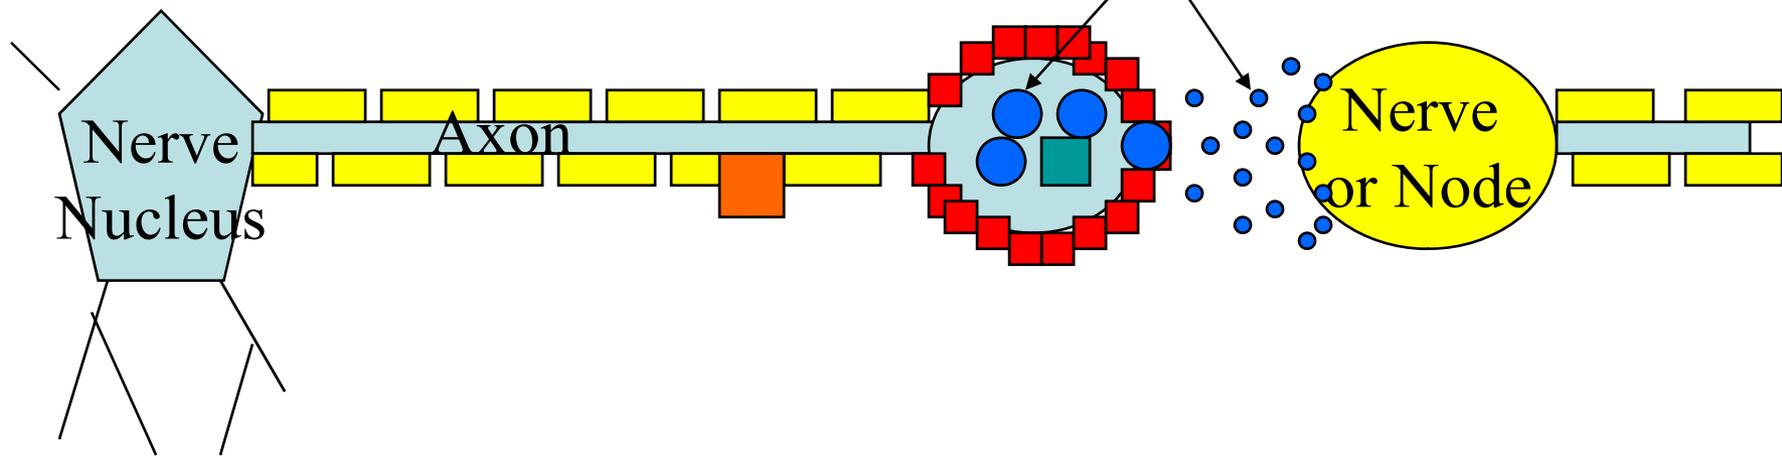

# Nerve Anatomy Rich In Square Shaped Sugar Fucose

Myelin Sheath (MAG, MBP), Nerve

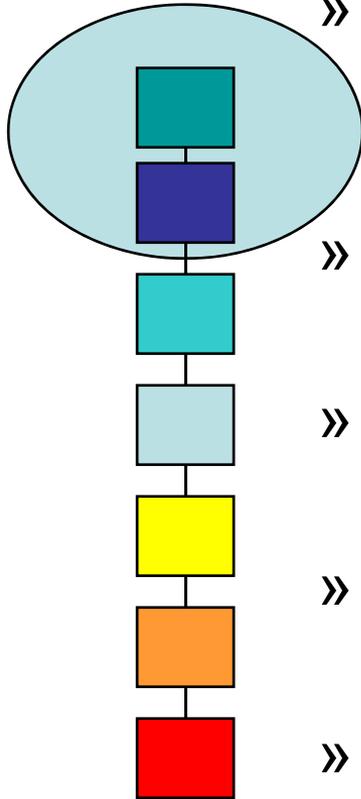

# Synapsin Releases Neurotransmitters

Nerves & Gut Lymph Nodes Transmit Serotonin & Dopamine

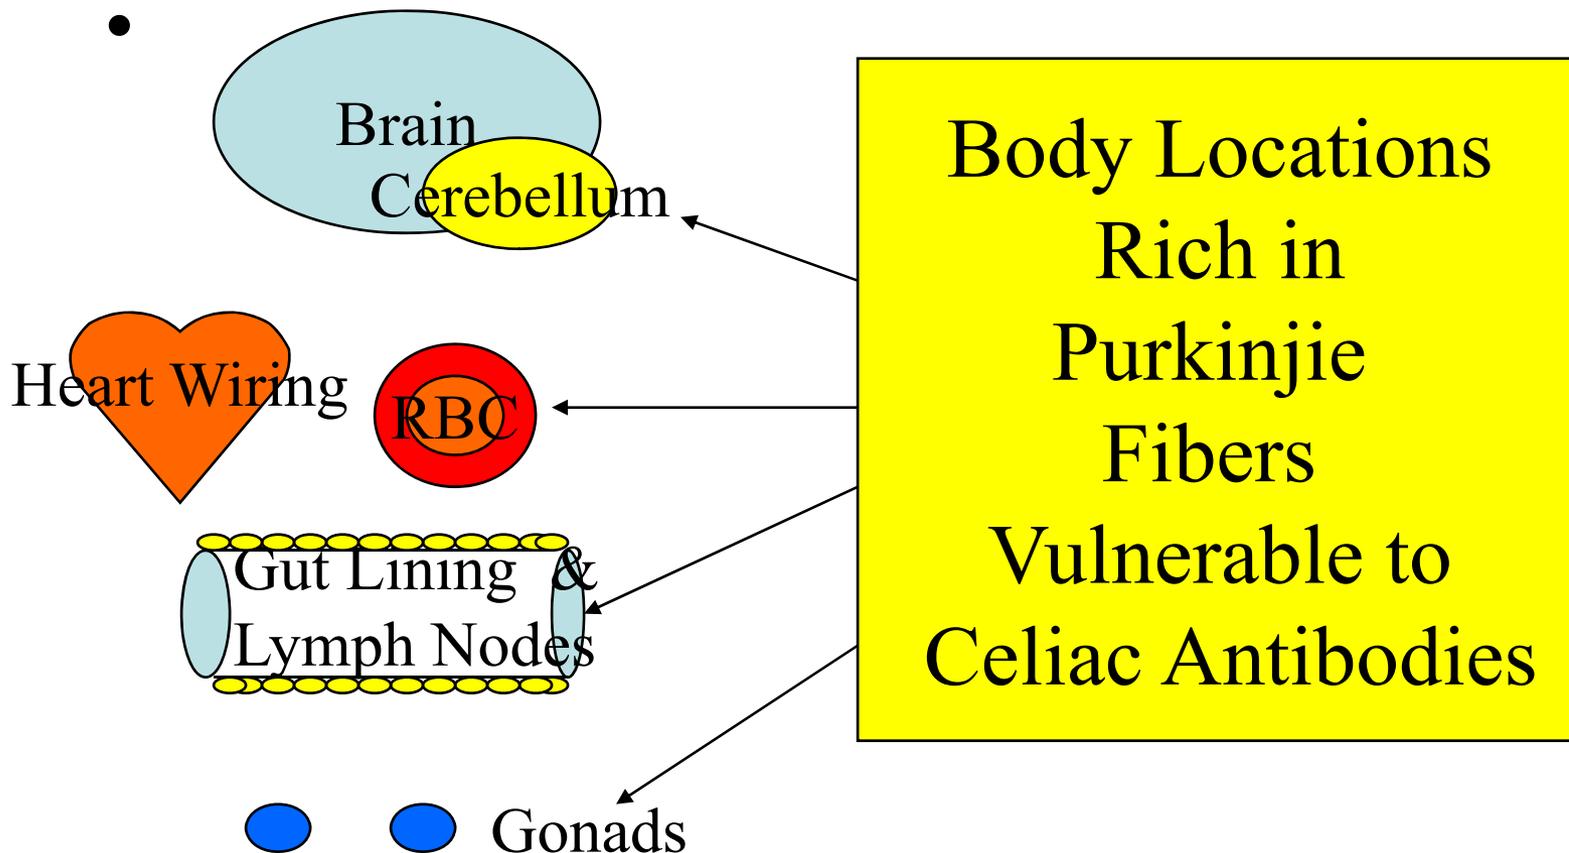

Synapsin snaps open Synaptic Vesicle full of Neurotransmitter for Nerve Conductivity

# Neuro-Endocrine System

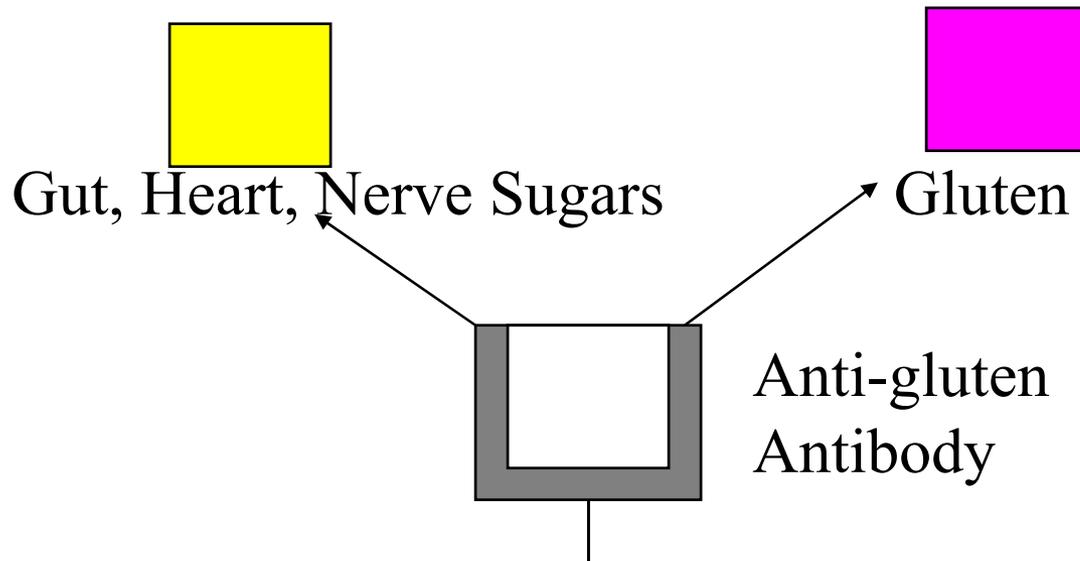

- » The Brain & endocrine system is rich in Square fucose sugars in nerve endings, myelin sheaths, synapsin, purkinjie,
- » The heart wiring is rich in square Pukinjie sugars
- » The lymph glands are rich in Square fucose sugars
- » The gut lining is rich in Square fucose sugars
- » The Red Blood Cell is rich in Square fucose sugars

# Vulnerable Body Locations

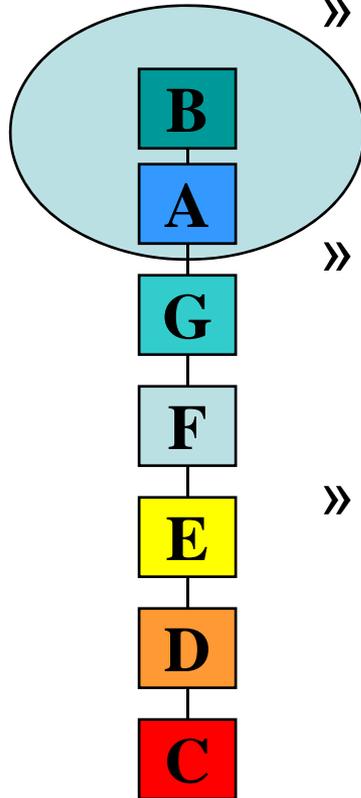

# Anti Gliadon Antibodies

- Anti-gliadon antibodies attack the brain, endocrine glands, RBC & gut lining due to similar shape to gluten

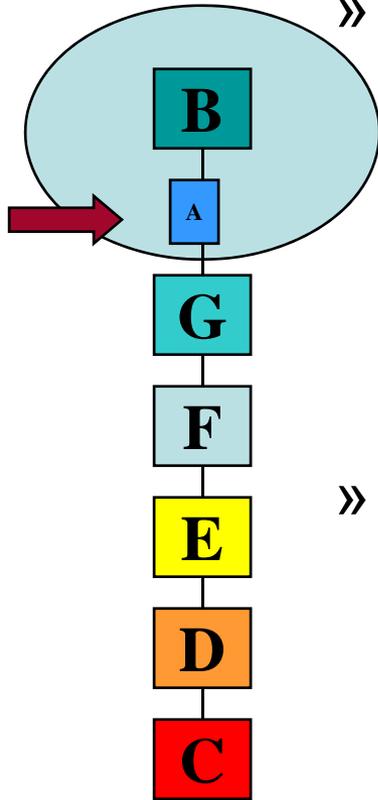

# Frequency Imparts Function

- » The endocrine glands are extensions of the brain, which are also rich nerves, therefore rich in Square sugars
- » The pituitary gland hormone rings 440 hertz, the same frequency as the note A on the piano
- » If the pituitary hormone is bent out of shape and rings 336 hertz, it won't match it's receptor site, causing pituitary illness.

# Disease Definition=Out of Tune

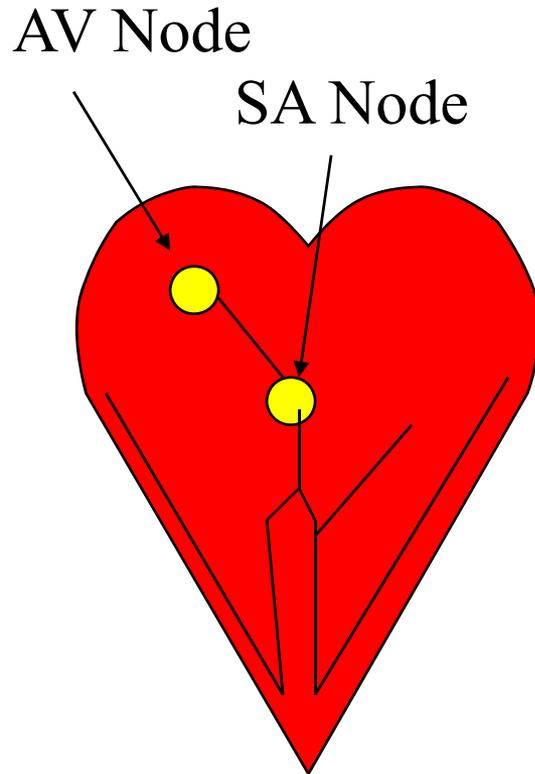

» The digital frequency of a substance is defined by the angles in the molecule

A hormone out of shape imparts a different angles so different frequency and cannot then attach to its receptor frequency, causing disease (a gland out of tune)

» Impairing the Switchboard communications with anti gliadon antibodies to the Square sugars in the endocrine systems impairs body tuning (homeostasis)

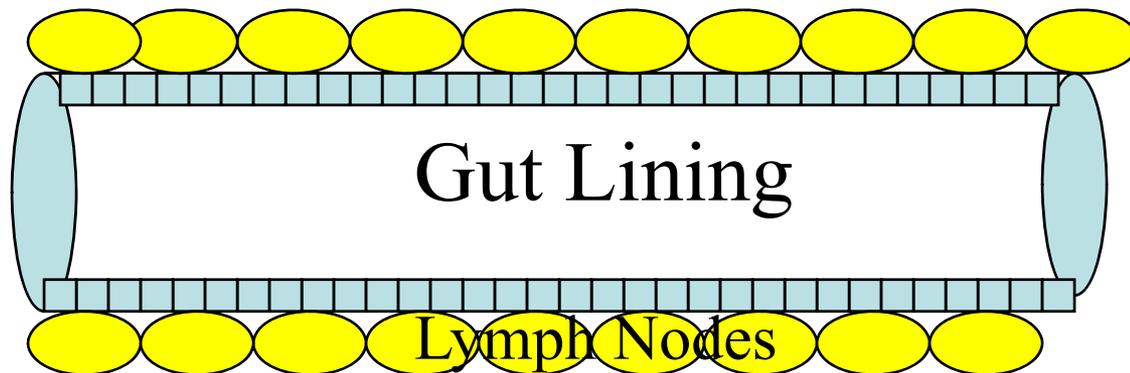

# Heart Wiring Rich in Purkinje

- Heart Wiring is rich in nerves rich in gluten like purkinje cells
- Celiac antibodies can attack heart wire >induce arrhythmias
- Heart electronics are Vulnerable at AV node to SA node to Bundle of His to R+L Endocardial Bundle Branches

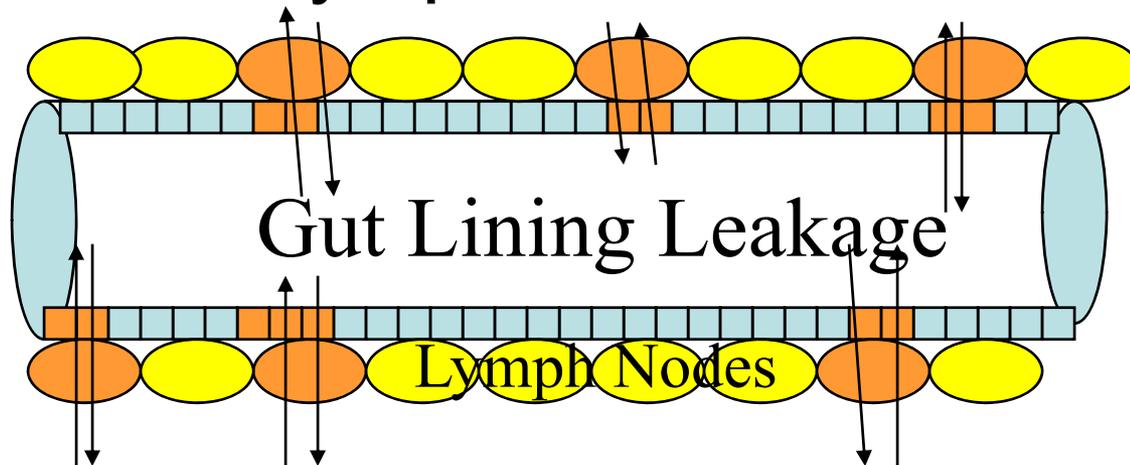

# Gut Lining Rich in Fucose

- The gut lining is rich in square sugars □
- Lymph nodes are rich in Square sugars
- Lymph nodes harbor serotonin and dopamine as modified nerves called gut lymph nodes(Enterochromaffin Cells)●

# Leaky Gut Syndrome

- The gut lining is rich in square sugar and rich in square sugar rich Lymph nodes vulnerable to attack by cross reacting SGPG & anti-gluten antibodies, puncturing the lining, exhausting the doorman lymph nodes

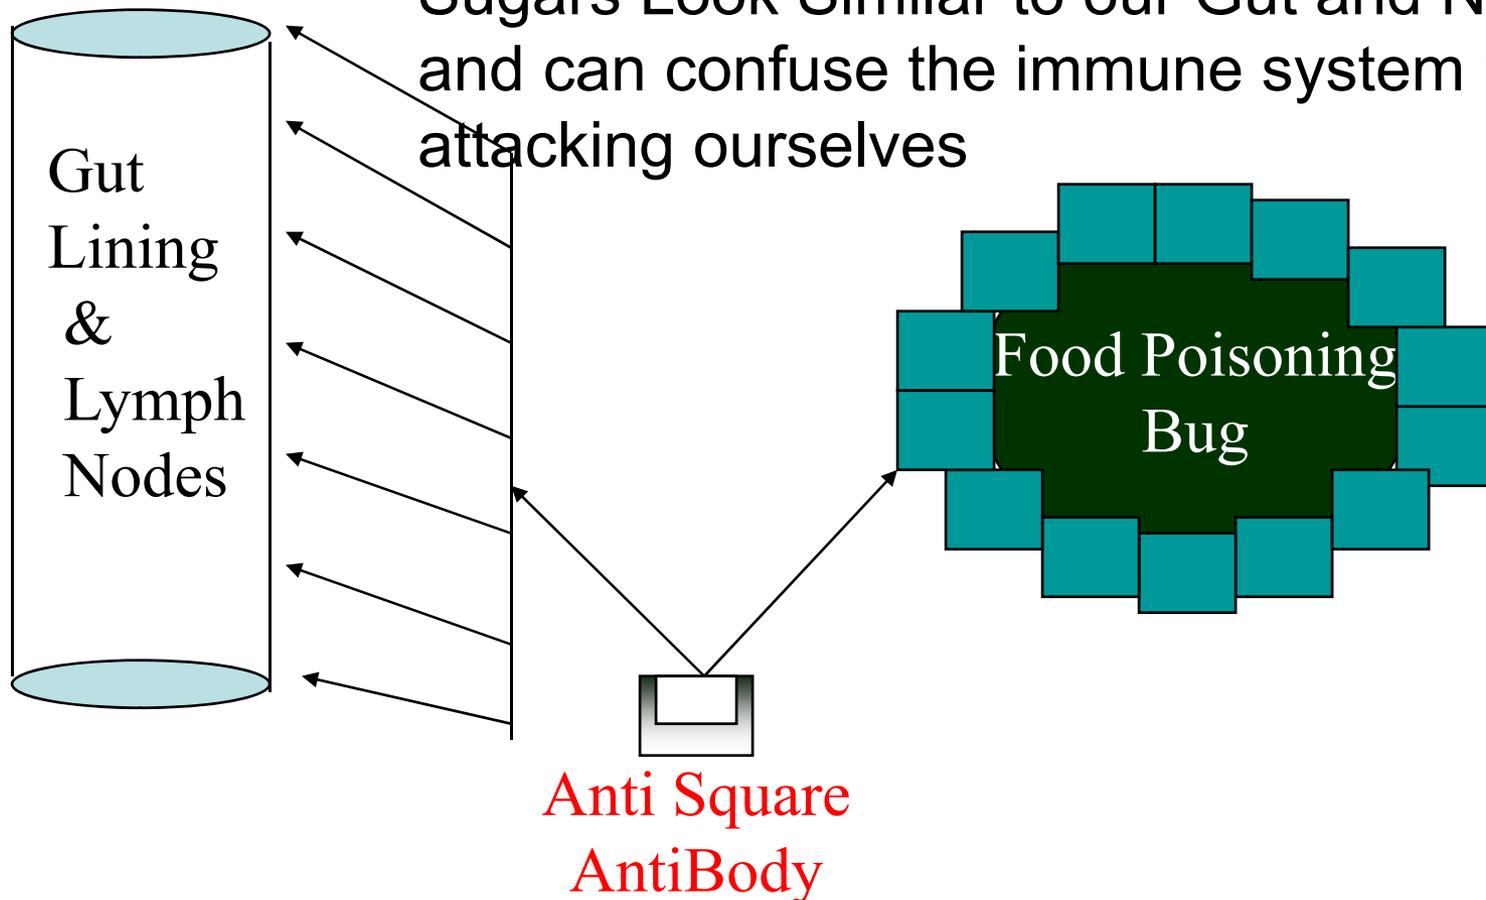

## Food Poisoning Impact on Filtration

- Anti-gliadin antibodies in search of similar shaped foreign infections, cross react and damages the gut lining, nerves, nodes, RBC
- Elevated SGPG antibodies attack gut lining
- Injured gut lymph nodes loose serotonin and dopamine for peristalsis and defense
- IgM Myelin Associated Attack weakens nerves
- Peristalsis impairment from serotonin and dopamine and magnesium depletion furthers gut dysbiosis

# Food Poisoning Mimics Gluten

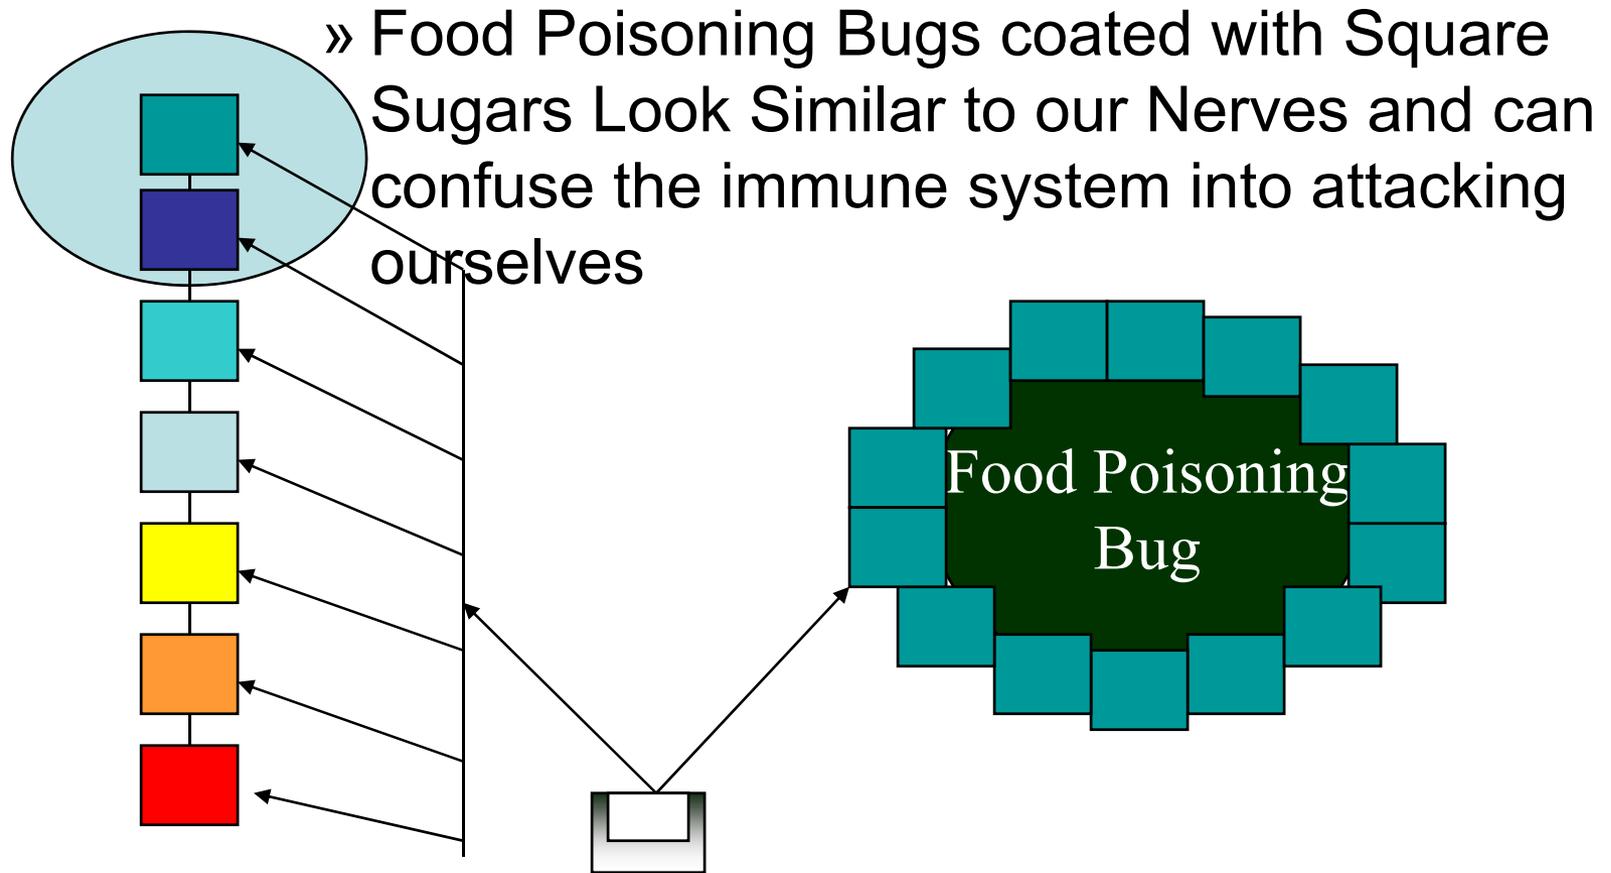

» Food Poisoning Bugs coated with Square Sugars Look Similar to our Gut and Nodes and can confuse the immune system into attacking ourselves

# Leaky Gut Fissure Tongue

# Food Poisoning Mimics Gluten

*Anti Gliadon AntiBody*

# Leaky Gut Historical Risks

- Immunity Disturbance
  - Post operative anesthetic history causing 72 hours cessation of bowel sounds indicating peristalsis
  - Antibiotic history disturbing bowel flora
  - Steroid Drug use, anti-inflammatory medication, diuretics
  - Malnutrition, Anorexia, Bulimia
  - History of severe injury or debilitation

# Powerful Immune Cascade

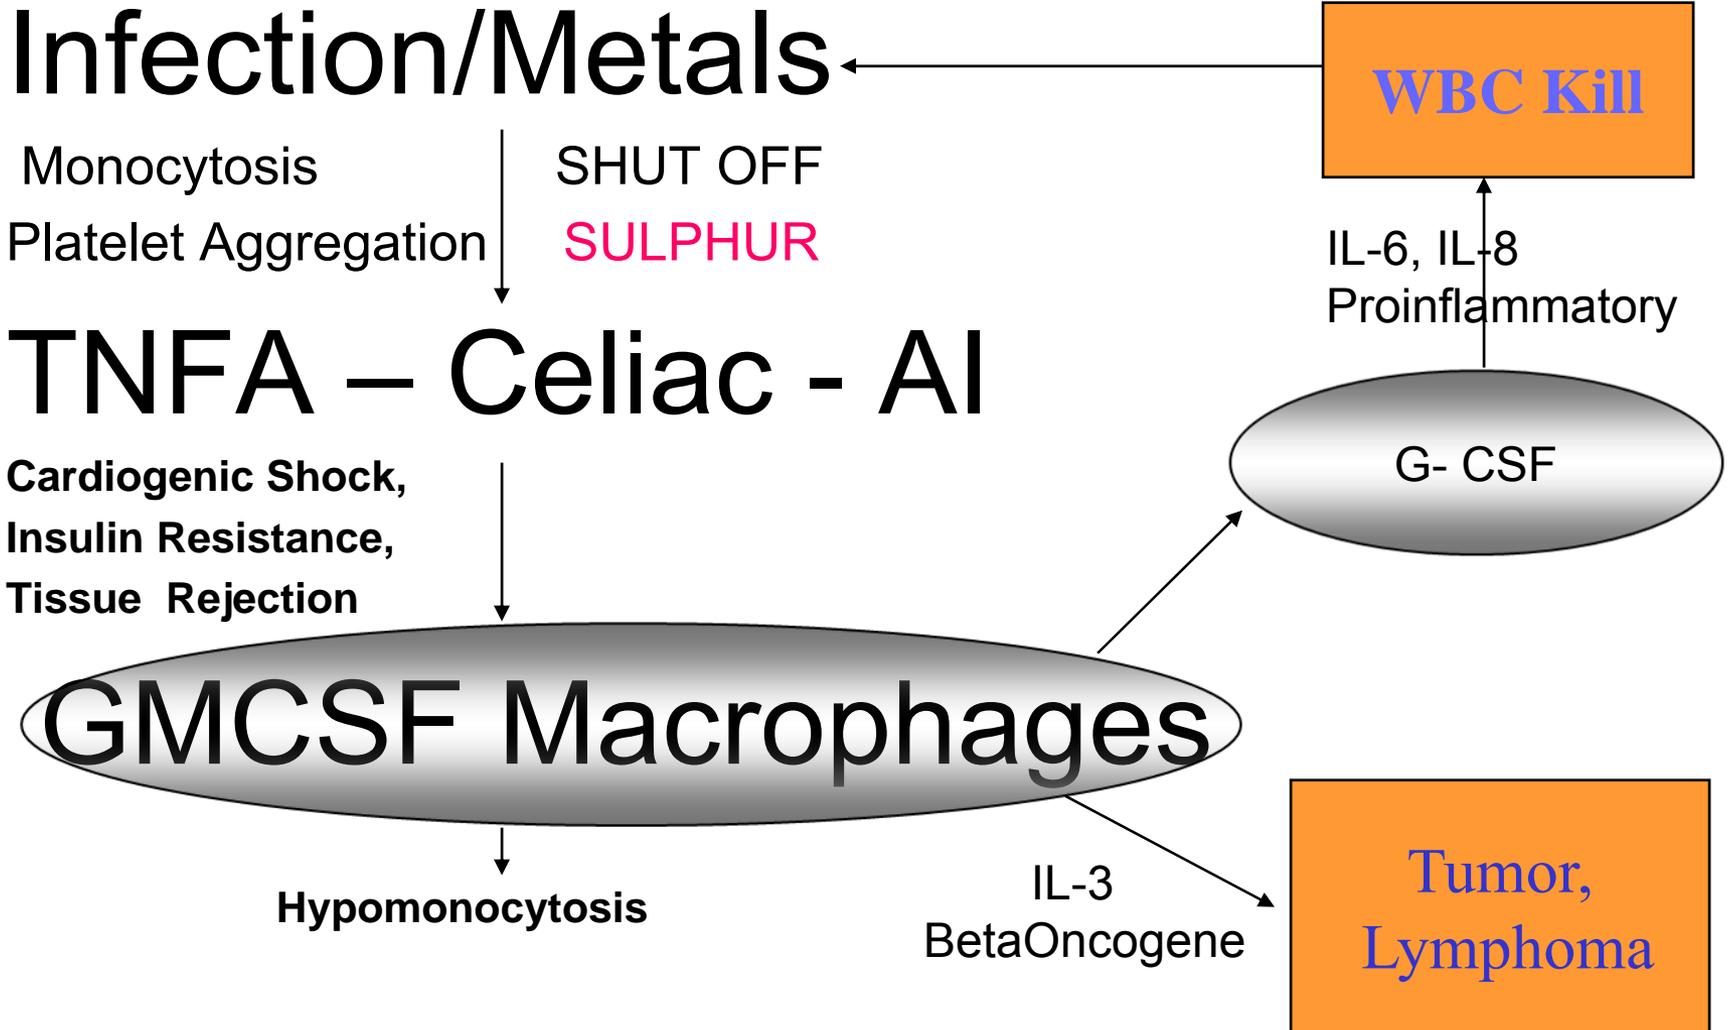

# Autoimmune Disease Induction

- Once TNFA induced to call on immune system, the neighboring gene for celiac and other neighbor for autoimmune disease are co-activated until the invasion is settles.
- Chromosome 6 carries three gene neighbors

# Th2 Autoimmune Cascade

# Common Gluten Related Auto-Immune Disease

- Pineal – Insomnia, Infertility, Psychosis
- Pituitary – Depression, Panic, Anxiety, Anorexia
- Thyroid – Graves disease, Myxedema
- Parathyroid disease - Calcium deregulation
- Thymus – Myasthenia Gravis

# Common Gluten Related Auto-immune Diseases

- Heart – Arrhythmias, Endocarditis, MI SLE
- Liver – Sclerosing Cholangitis, Gallstones
- Spleen – Lymphoma, Leukemia, Banti's
- Gonads – Cysts, Breast & Ovarian Cancer
- Gut – Crohn's disease, Colitis, Ulcer, Piles
- Skeleton – arthritis, osteoporosis

# Symbiosis vs. Dysbiosis

# Chelate Metals with Probiotics From Spirulina and Chlorella Algae

# Spirulina Algae Smoothie

# Cocoa Chlorophyll is Magnesium Rich

# Integrating the Immune System

Have Some Fun Exercise In Nature

# **It's the soil not the bug**

- **Summary: Dilute > Clean > Kill > Restore**
  - **Treat the metal toxicity which shifted the terrain, causing infectious overgrowth**
  - **Treat the sugar addiction & food sensitivity to gluten during especially food poisoning or infection or detox**
  - **Treat the mood for serotonin and dopamine depletion from the gut lymph node infections with probiotics**
  - **Treat the spiritual sphere**

# **Retrain With Biofeedback**

- **The question is not why by HOW do we accomplish restoration of bioterrain?**
- **Use an calibrated, exquisitely sensitive, specific, double blind non invasive tool**
- **Map where and what is suffering, and without harm, retrain with electrical correction our immune system to its normal natural function**
- **Restore Homeostasis to Restore Function**

# **Quantum Biofeedback Summary of Features**

- **Quantum Biofeedback is a Safe, Cost effective World Class Medical Technology and includes a medical library, manufacturing capabilities, reporting functions, billing and much more**
- **First true trivector holographic holistic health examination and treatment method for stress**
- **Training tools and support readily available**
- **Optional attachments include a pet harness, dental probe, and face lift, brasseur and more**

# Major Components

- **Complete Medicine Array with Many Unique Key Features**
- Ability to **calibrate** is unprecedented
- Speedy **Three dimensional** analysis
- **Two way direction** safe cybernetic loop
- Sophisticated **Mathematical sorting**
- **Color coded display** to easily demonstrate the areas at highest risk in priority

# Speed and Precision

- 2600 modules within one device
- 8200+ingredients tested in 3 ½ minutes
- Rapid sorting at biologic speed
- Unconscious analysis defines the best modules to apply in the priority sequence most demanded by the patient
- Virtual Doctor Dismantles entangled reasons and contributing factors

# Remedies

- **Supplies remedies ie Allopathy, Homeopathy, Flower essences, Sanamin, Aruyvedic, Herbal, Nutritional**
- **Can hint at diseases by what remedy is suggested (ie chemotherapy > cancer?)**
- **Can evaluate remedies for allergy before use, and provide nutritionals & good foods**
- **Can provide addiction release**
- **Can provide Auto Rife, Hololinguistic, NLP**

# **Brain Enhancements with Superlearning Channel & EEG**

- **Super-learning channel and biofeedback**
- **Capable of improving learning with repair for autism, Learning difference and dyslexia**
- **Enhanced learning in generalized math, comprehension, and emotion, maturity communications skills**
- **Can repair EEG Brain wave patterns, including brain injury, seizures, mood disorders**

# Automated Navigation

- Search buttons and menus color coded
- Drag Matrix items to Causal or Hold bar
- Unconscious search for best of 200+ modules for healing
- Superconscious search and Superscious Reduction Panel for hidden issues
- Disease Dictionary to define known and unknown disease influences

# Timed Treatments

- 3 sec, 30 sec, 3 minute or prolonged timed treatments, safety shut off 100%
- Prolonged overnight or lengthy "timed therapy" modules for stubborn conditions and easy application
- Efficient Piggy Back therapies
- Dozens of modules in Biofeedback for Stress, EMG, Organs and Emotional growth and stability, superlearning

# Summary Menu

- **Sorting & Hold capabilities shows 8200 items as highlights in 30 Risk Profiles**
- **Prioritize: Unconscious Search & Dictionary gives priority sequence**
- **EMF perverse energies, toxins uncovered in Homotoxicology**

# Good New Bad News

- **Bad news is that we all need to be tuned up in this world due to overwhelming outside and inside forces**
- **Good news is that all elements are modifiable once we are aware**
- **Like a best friend, biofeedback helps to show accurately what work needs to be done**

# Integrated Holistic Health

- **Mind Reintegrated brain modules for learning, neurotransmitters, acupuncture, Injuries, Stroke, ADHD and Autism, special senses, myelin repair, balance, coordination**
- **Emotional NLP, trauma mapping, spinal Neuro-emotional complexes NEC, creativity, memory, Survival skills, anti-aging, Chakras**
- **Physical Modules for all anatomy and disease, plus sports injuries and peak performance, nutrition, re**
- **Spiritual 24/7 Prayer wheel, Biogrowth, Harmony and Awareness, Ascension**

# Biofeedback Instructors Clinical Pearls and Strategies

By Dr. Deborah Anne Drake

Feb 6 2005

# Biofeedback Pearls Overview

- A Clinical Skills Overview Reviews:
  - Booking Issues & Handling Clients
  - Hidden Dangers
  - Time Saving Strategies
  - Safety Reminders
  - Problem Solving Tools
  - Dismantling Tough Cases
  - Clinician Self Care

# Booking Issues

- Keep a legal diary in pen of appointments
- Avoid giving raw data reports, print Risk Profile, Aggravations and Causes only
- Print a bill with each visit
- Collect payment at each visit
- Notify patient of schedule of 10-12 visits expected for chronic cases
- Charge a Cancellation fee if less than 24 hrs

# Handling Clients

- Ensure a Consent form is signed per visit
- Avoid noncompliant clients, who are unable or unwilling to continue a prescribed course of treatment, since they may have inadequate results and negatively comment on the success
- Set a confident tone, with opening for questions, and written follow up suggestions
- Ask for Referrals from satisfied customers
- Have information brochures readily available

# Hidden Dangers

- Don't Promise a "Cure for any disease"
- Do "Improve the Immune system to it's normal natural function to relieve stress"
- Don't Over treat for more than 2 hours which can dilute the messages received
- Do Rest and Rehydrate after a session
- Don't Test more frequently than Q3 days
- Do give conscious affirmations weekly

# Time Saving Strategies

- Avoid removing jewelry and let calibration take care of this
- Avoid removing panty hose and use magnetic straps over the nylons
- If anxious or hyperactive, start with the NLP Therapy of “12 sec relaxation pulse” until the client will sit still in harness for the 3 minute test
- Avoid a harness fight – test and treat in subspace

# Time Saving Strategies

- Use Power settings at Double or Max
- Add Shield From Remote Viewing
- Add Positive Consciousness Field
- Start with a Reactivity Jolt before test
- If slow reactance speed, use 3 minutes  
“treatments>stimulate reactivity/duplicate  
reaction” and type “hyporeactivity repair”

# Time Saving Strategies

- Minimize “Telomere repair button” under DNA for continuous antiaging through visit
- Check the top hormone deficiencies and load them to the “Shaping Function” at start
- Load the “Disease List” numbers on the Symptom and Causes Line of Disease Dictionary “Add to Therapy” line
- Run Disease Dictionary Plus Body Viewer

# Safety Reminders

- Add GO TO 3051 to add 76 ionic minerals to ground and hold the clients conductivity
- Add Quantum Indeterminacy Field (QIF)
- Do not intensify the QIF in psychiatrically unstable patient or to more than 50% in normal
- Add the multimedia prayer Flyman on every case throughout the session
- Add ELF prayers, and orgone field generator using the phrase "all Frequencies are transmuted to love Frequencies"

# Safely Preparing the Client

- Use Color Therapy for enzyme and speed induction before the top two therapies
- Add Blood Cleaning (66.5) in Rife and Scalar Generator early in session to clear the runway for following treatments
- Avoid alarms by pre-cleaning the lymph in short sarcodes > ear etc. before other therapies
- Check the top sarcodes at risk under main matrix, and piggy back them onto hololinguistic programming line for continuous improvement

# Problem Solving Issues

- Tough Calibration from Mechanical Causes
- Tough Calibration from Spiritual Causes
- Solving Temporal Anomalies
- Problem Solving Unconsciously
- Problem Solving Complex or Chronic Cases
- Problem Solving Time Issues
- Problem Solving Negativity
- Problem Solving Right Spin > Cancer Degeneration

# Tough Calibration – Mechanical

- If the computer will not calibrate - rehydrate
- Remove jewelry, sit on wooden chair
- Remove guests & electronics from room
- Have the patient meditate on the phrase “I am open to being read” with eyes open
- VARHOPE may be too low to begin – send home on spirulina + probiotics & retry later

# Tough Calibration Spiritual

- Check the Tune Harmonics at the outset to determine if the first harmonic flattens out from 7830 to  $<1000$ , indicating a spiritual superimposition
- If so, close the Risk Field Neutralization window, then reopen it to find the “Treat Temporal Anomaly”, to clear superimpositions before the Calibration

# Solving Temporal Anomalies

- If the matrix shows many red pages, or the computer continues to crash, suspect a spiritual superimposition at higher speed than computer
- Reboot using “treat temporal anomaly” in Risk Field Neutralization, then go to NLP therapies and Dispel 2<sup>nd</sup> Brain Engram, Dissipate Karma Away from Patient or therapist before testing
- Finish with Biofeedback > Release Spiritual Attack and Oppression + Body to Soul until 100%

# Problem Solving Unconsciously

- Use the Superconscious Reduction Panel to determine cause & solutions, plus check the mental causes, and access “stubborn case” button
- Use Top 2 Biofeedback Unconscious Searches
- Graph and Treat the Risk Profile anomalies
- Use Virtual Doctor to sequentially dismantle the highest scoring issues, and then access Homotoxicology from there for permanent detox
- Use Disease Dictionary Acup. +Bioresonance and select “Unconscious Choice”

# Problem Solving Complex Cases

- Use “drag and drop” Matrix Item onto Yellow or Pink Hold bar for associations
- Use the “search” button for issues of interest, and check which area won’t rectify
- Dismantle any un-rectified issues to the bottom Matrix Red Bar for Reactivity
- Use Bottom Purple Bar for 2 sec Resonance

# Problem Solving Chronic Cases

- If physical parameters look normal, but the case is not progressing, try the Survival, Meta-analysis 2 panel to uncover and treat non-verbal deep emotional trauma patterns
- Look for Karmic backlash on Causes and Aggravations if the case does not improve
- Nullify autoimmune disease by searching for “autoantibodies”, + dismantle on red bar

# Problem Solving Time Issues

- Treat the Top 200+30 items all at once using the Pink Hold Tray (save info report, then empty the note file, add Information>top 200 + 30 items, Add report to tray, and convert the Treat key to a 3 minute key (use autozap top menu line)
- Complete rectification to 100% using the Current Rectification Button>Rectify all>Retest VARHOPE to show client their improvement

# Problem Solving Negativity

- If a case is stubborn, increase the negativity button on SOC panel to 5 for women, 8 men
- Try inserting “release subconscious negativity” or “release unconscious resistance to change” on the hold bar, and find the associations
- Click the chromosome panel, then repeat the step above to see which chromosome carries the resistance
- Use NLP therapies > Release Subconscious Negativity or other unconscious choices

# Problem Solving Right Spin

- Any negative numbers in the VARHOPE screen, or high resonance Frequency pattern should prompt clearing spiritual entities (dead=right spin)
- Ensure clearing of any spiritual superimpositions off the chromosomes by multiple clicks on the DNA atom to reveal “alter DNA Frequency”, do this twice or thrice before DNA Tingle
- Any person with a predominant right spin on Bioterrain Homotoxicology, should be checked for right spinning cancer under Timed therapies degeneration and scalar therapy

# Clinician Self Care

- Prepare yourself with rest, sunlight, gluten free foods, electrolyte rehydration, and grounding leather soled shoes
- Sit eight feet from the SCIO box and client
- Leave the room during the 3 minute test
- Wash your harness and hands after each client
- Avoid Internet and Disable Virus software
- Ensure you defragment your computer weekly or nightly to speed sessions

# Clinician Self Care

- Ensure use of biofeedback cleansing of office space, esp. spiritual cleansing
- LIFELONG internal cleansing with probiotics to avoid “contagious frequency” exposure to pathogens
- Take a holiday if you see yourself suffering “digital excess” on the matrix

# Medico-Legal Issues

- Use licensed methods, ethical, consistent, well documented practice habits
- Communicate eye to eye with clients
- Admit mistakes right away and correct them
- Ensure Malpractice Insurance for the unexpected
- Ensure upkeep on Continuing Education Credits

## **Biofeedback Consultation Waiver**

Practitioner: Deborah Anne Drake  
BSc, MD, CCFP(EM), FCFP, CBT Diplomat

1. I fully understand that Dr. Drake is a medical doctor licensed in the Province of Ontario to perform medical evaluations, including diagnosis and treatment. In addition, however, Dr. Drake is also a Master Quantum Biofeedback Practitioner and in the context of the biofeedback session, she is acting in the capacity of a nutritional, wellness and biofeedback specialist.
  
2. I understand there is a distinction between allopathic medicine practice with drugs and surgery, vs. non-invasive techniques such as nutritional wellness consulting and biofeedback.
  
3. I understand that the nature of the services provided by Dr. Drake may be any of the following: allopathic, complementary medicine, nutritional wellness and bio-energetic medicine, including biofeedback.
  
4. I recognize that the services provided by Dr. Drake in the context of a biofeedback consultation are within the parameters of a natural health and wellness system using Biofeedback and stress reduction.
  
5. I understand that Dr. Drake uses Biofeedback for mapping and pre-diagnostic information, plus therapies related to Stress, Pain and Relaxation management.
  
6. I fully understand that Dr. Drake is acting in the context of a medical and biofeedback consultant, and not as my attending family physician.
  
7. I have solicited Dr. Drake's professional consultative services in good faith, exercising my free will and following the dictates of my own conscience, which allows me to select what I understand to be beneficial to my health.
  
8. I presently seek counsel, advice, opinions, Biofeedback, or points of view and /or programs within the scope of Dr. Drake's wellness and stress reduction practice.
  
9. If I desire any services not provided by Dr. Drake, which is my prerogative, I fully understand that I could seek them elsewhere.
  
10. I have read the Quantum Biofeedback procedure outline on the reverse, and I hereby release Dr. Drake or her Biofeedback technician to perform Biofeedback tests and therapies described therein.

## Quantum Biofeedback by Dr. Drake

BIOFEEDBACK is the process of training the body and its unconscious systems to react differently in the future. This retraining process is non-invasive, using bioresonances or frequency pitches to map and retune areas of electrical stress in the body electro-magnetic field with accuracy speed and safety. Initial consultations take longer (90-120 minute or more) due to history, physical and biofeedback first exam. Then follow up sessions usually last one hour, must be separated by a minimum of three days, and generally follow a schedule of approximately once per week to once per month. Come rested, well fed, well hydrated, and well mineralized to maximize the benefits of your biofeedback therapy session.

Name (print) : \_\_\_\_\_ DOB: MM \_\_ DD \_\_ YYYY \_\_\_\_

List Allergies: \_\_\_\_\_

List Medications: \_\_\_\_\_

Safety: Are You Pregnant? \_\_\_\_ Do You Have a Pacemaker? \_\_\_\_ Intoxicated? \_\_\_\_

Do You Have a Skin Condition? \_\_\_\_ Any Cautions? \_\_\_\_\_

### Steps in the Biofeedback Process:

1. **Registration:** Provide Registration Data, Demographics in Eclosion Scanner & CPP
2. **History:** Complete Medical History and Stress Survey (SOC Form) plus Interview.
3. **Sign Consent** for Biofeedback and /or photos ( SEE Waiver on Reverse Page)
4. **Physical Exam** of Vital Signs, Physical exam relevant to problem at hand
5. **Assessment Tools:** Lab Tests (optional, as required). Optional Biofeedback. (See 6)
6. **Attach Biofeedback Harness:** Relax while you're attached to electro-conductive rubber straps via a painless (needle less) non-invasive harness to all limbs and forehead. Additional point probes can be attached for specific area emphasis, such as dental probe, skin roller or probe, pet pad, children's pad, or Virtual Mode for Pacemaker Users.
7. **Calibrate The Eclosion** scanner First Calibrates to you over 1 minute to adjust for volume and ensure over 86 % loud and clear transmission of signal before commencing.
8. **Eclosion Test Mode: 10,000 Bioresonances tested.** Sit still without talking for 5 minutes during the testing phase.
9. **Reporting:** Data will be gathered from health menus, assessing you body's top choices for therapy from your own unconscious priority list.
10. **Stress Therapies:** For the remainder of the session, out of 2600 choices of appropriate recommended biofeedback modules, your personal issues will attempt to be corrected through bioelectric field enhancement, and sessions may require repetition to entrench new healthy habits of physiology.
11. **Treatment Plans:** If necessary, a treatment plan will be devised for future. Therapy sessions will be applied weekly or monthly, which take approximately one hour.
12. **Discharge Instructions:** Helpful hints, dietary and dental suggestions, written materials, remedy suggestions or even prescriptions if required may be used.
13. **Follow up** will be recommended for an integrated holistic approach to help you overcome illness and reach peak immune status and vitality.
14. **Pay the Bill: QBF** Charges \$250 per hour, payable at time of service by cash /cheque.
15. **ENJOY the PROCESS**, not only the DESTINATION as your body detoxifies & rebalances, noting the positive changes and discarding old bad habits and attitudes.
16. **Emergency Contact:** Return for follow up or let us know if you have any unexpected problems by calling 905-985-1463 or in case of emergency, call for Dr. Drake on mobile 905-432-5108, a discretionary \$25 per call may be charged.

**If you read and agree to the steps above, Initial Here** \_\_\_\_\_

*QXCI/SCIO*  
*Bio-Energetic Therapies For*  
*An Epidemic Of Obesity*

# Introducing QXCI / SCIO

## **Bio-energetic Device Provides:**

- Fun Multi-faceted Weight Loss Tool
- Rapid, Precise Reproducible Results
- Hypo-allergenic Non-Invasive Private
- Measurable Normalization of Terrain
- Tangible Results Improve Compliance

# Obesity Outline

- Part A
  - Index of Gut Dysbiosis Issues
  - Are you Obese or Swollen?
  - Leaky Gut Syndrome Anatomy & Physiology
  - Food Poisoning, Celiac Disease and Heavy Metals
- Part B
  - Lasting Solutions for Obesity Depend on Changing the Bioterrain
  - Obesity – A Multi-level Approach
  - QXCI Bio-energetic Biofeedback Strategies for Bioterrain Correction, Immune Repair and Weight Loss
  - 1. Dilute, 2. Clean, 3. Kill, 4. Restore

# Part A

What Causes Obesity?

Are you Obese or Swollen?

Leaky Gut Syndrome Outline

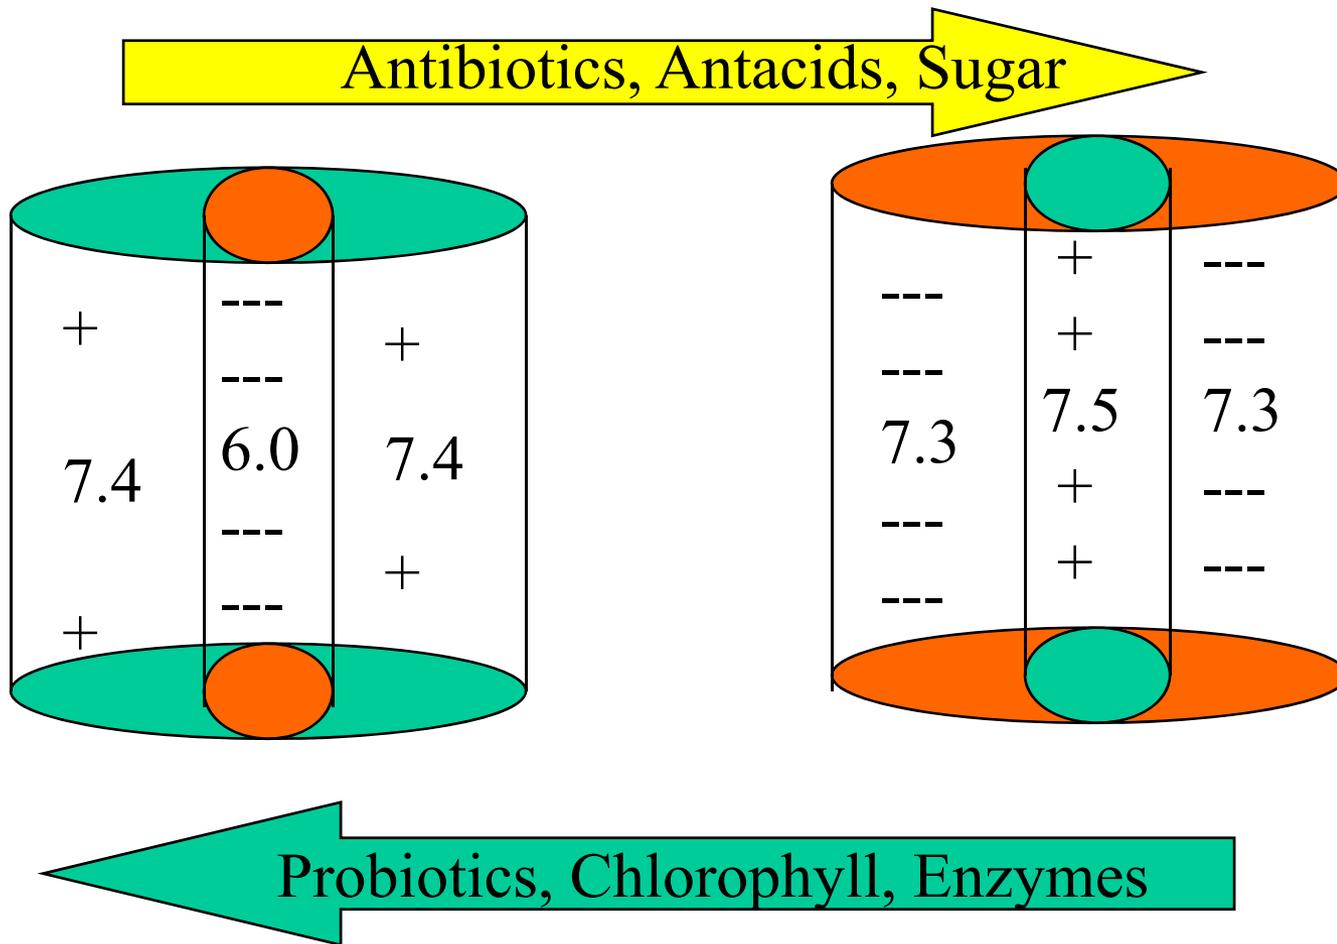

Food Poisoning, Celiac Disease and  
Heavy Metals

# Index of Gut Dysbiosis Issues

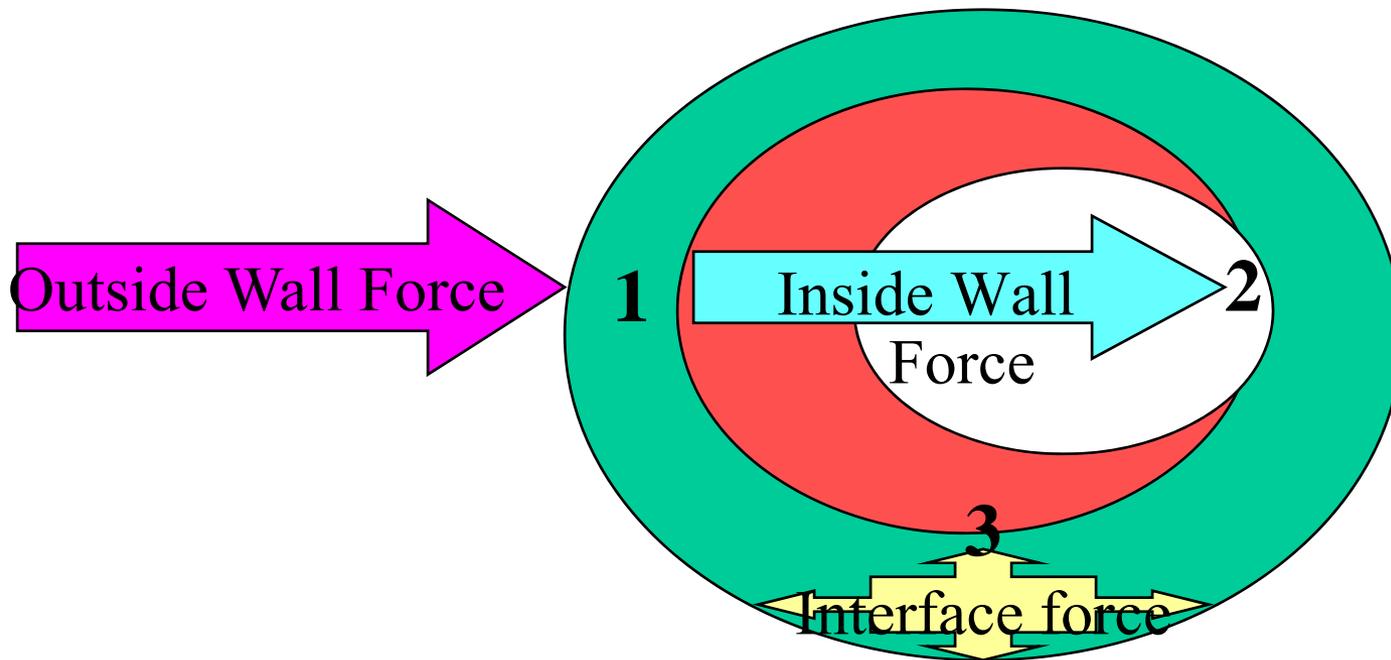

- Bioterrain and Immune system Anatomy
- Immune & Endocrine system Physiology
- Gut Anatomy & Leaky Gut Conditions
- Celiac Disease Induction & Cross Reactions
- Food Poisoning Co morbidity to Celiac Dis.
- Auto-Immune Disease Induction
- Solutions for Obesity & Leaky Gut Syndrome

# Gut anatomy and Inverted Physiology of Leaky Gut

Healthy Neutral Blood, Acidic gut vs. Ill Alkaline gut Acidic Body

# Only 3 Ways to Obstruct Health

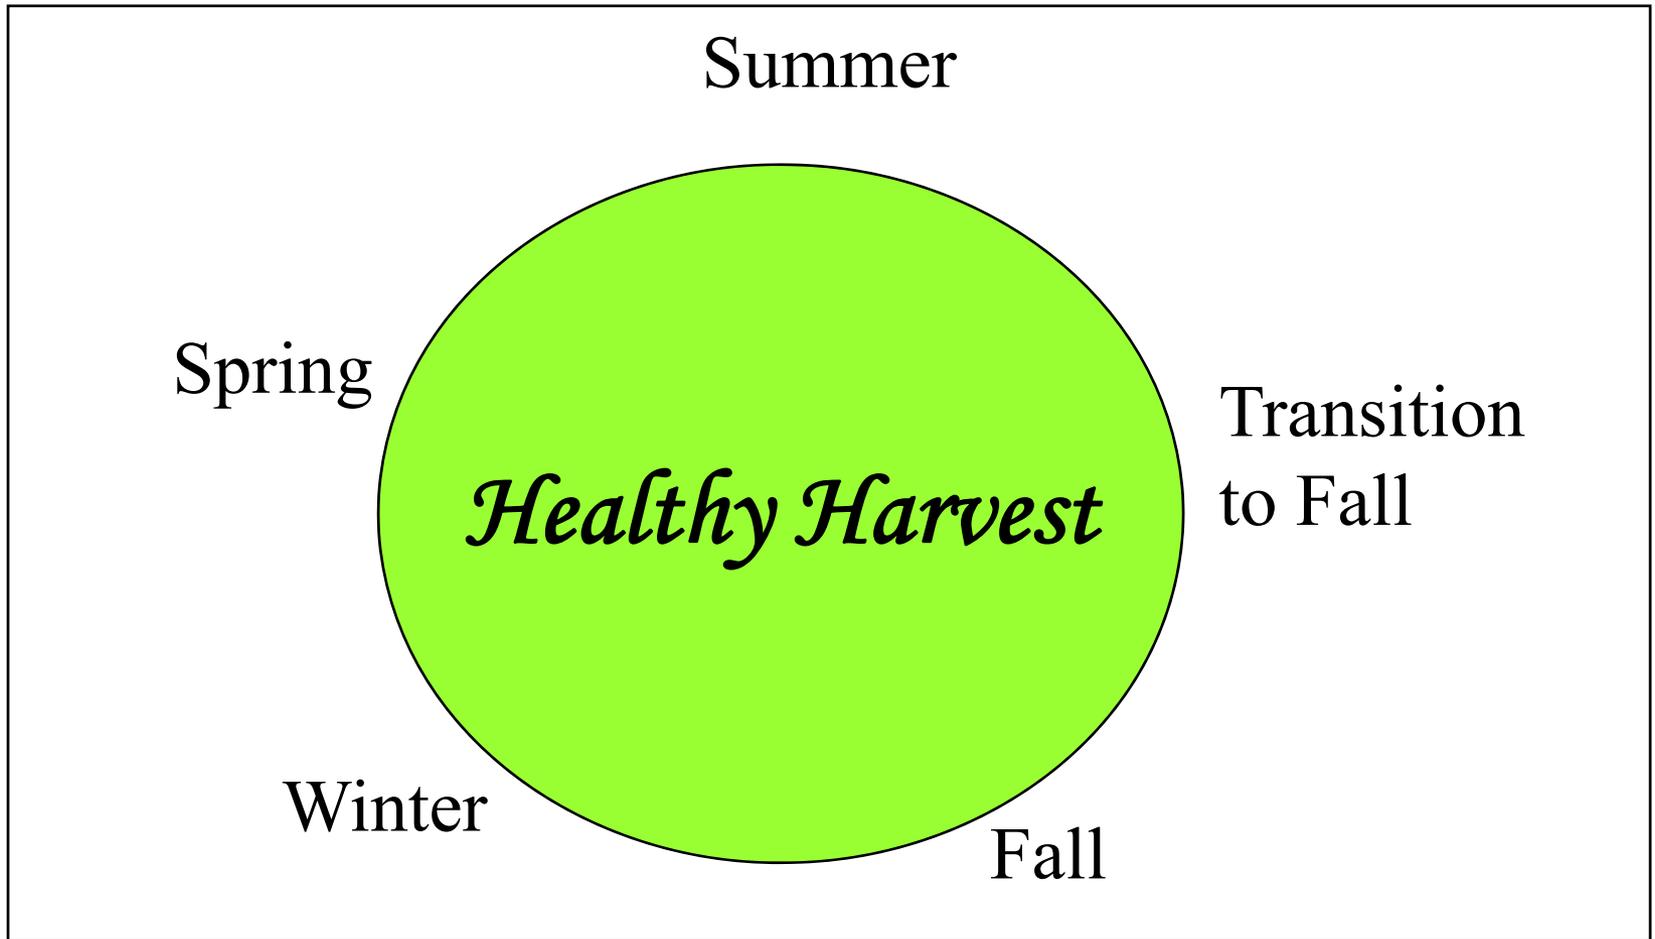

# Are You Obese Or Swollen?

- The solution is difficult if you don't have the facts and are ascribing incorrect blame
- Infection and toxin induced change in bio-terrain impairs gut filtration, causing swelling, malabsorption, resulting in a leaky gut interface
- Leaky gut syndrome precipitates autoimmune disease, and metabolic changes leading to heart disease and cancer cascading risks.

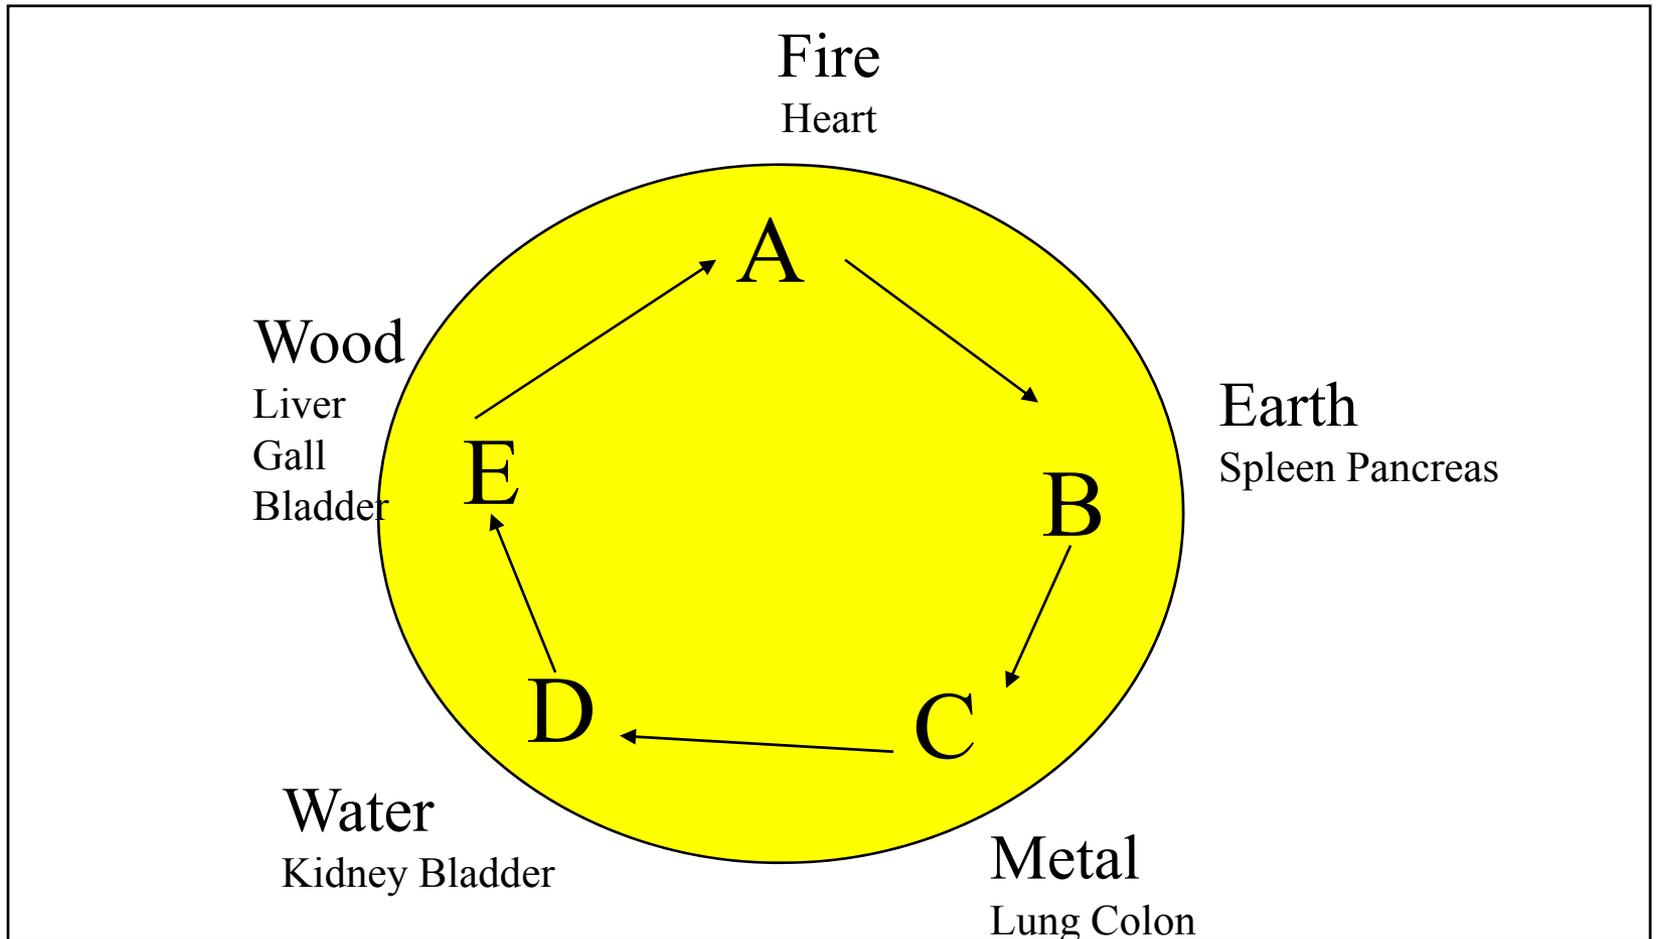

# Multi-Modalities Needed

- Leaky gut syndrome needs variety of modalities to prevent relapse by treating the Bio-terrain
  - Organ Integrity, Endocrine, Digestive Enzyme, Immune Function, Motivation
  - Reduce infection + Blood Sugar Regulation
  - Mineralization & Chelating repair for metals
  - Antioxidants for energy, detoxification, increased oxygenation, Probiotics
  - Treatment addictive cravings and behavior

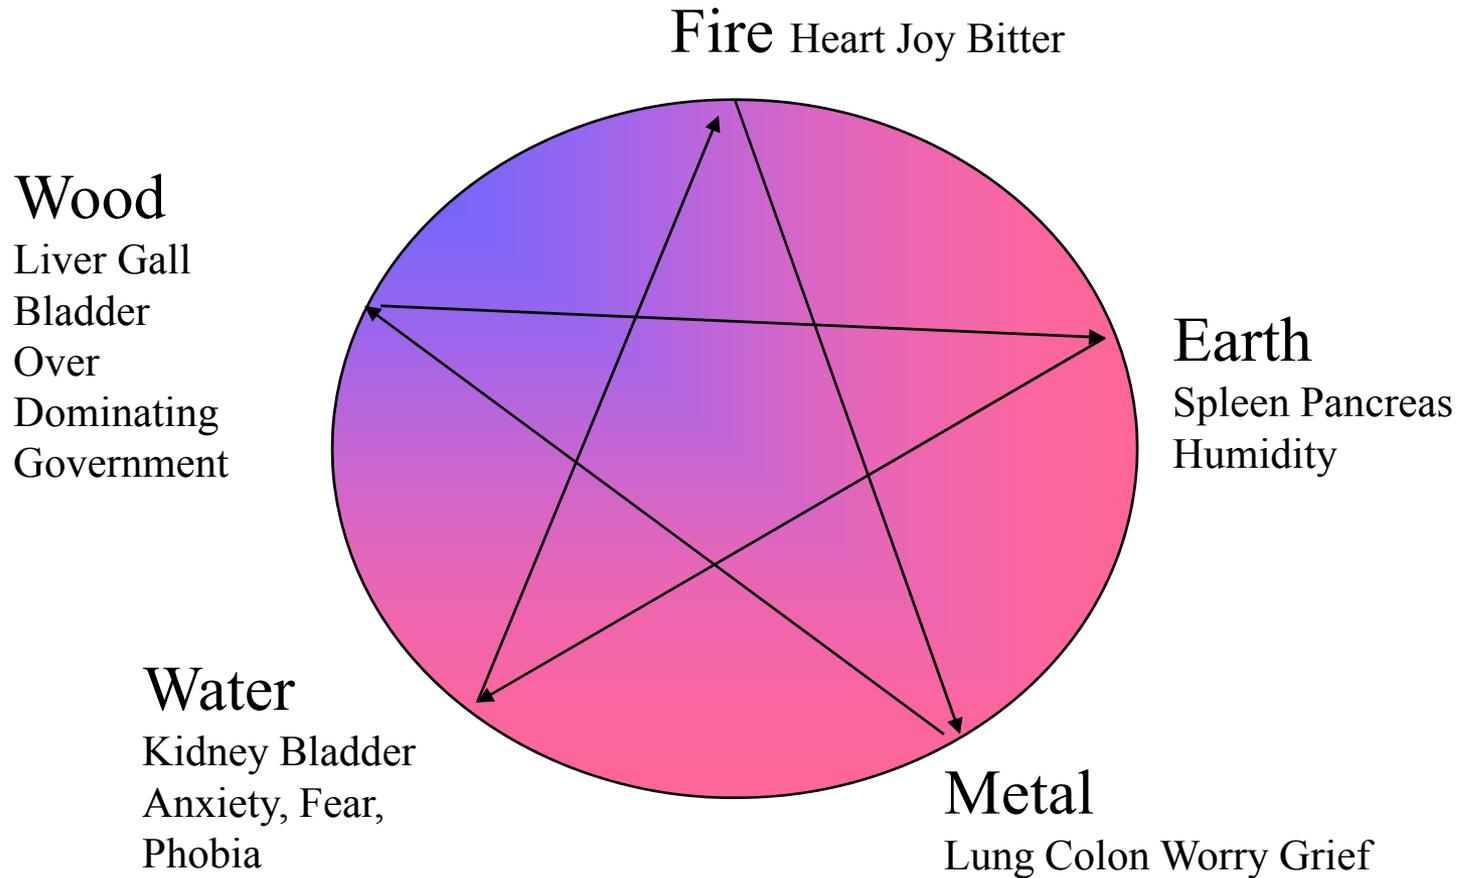

# Respect the Seasons of Change

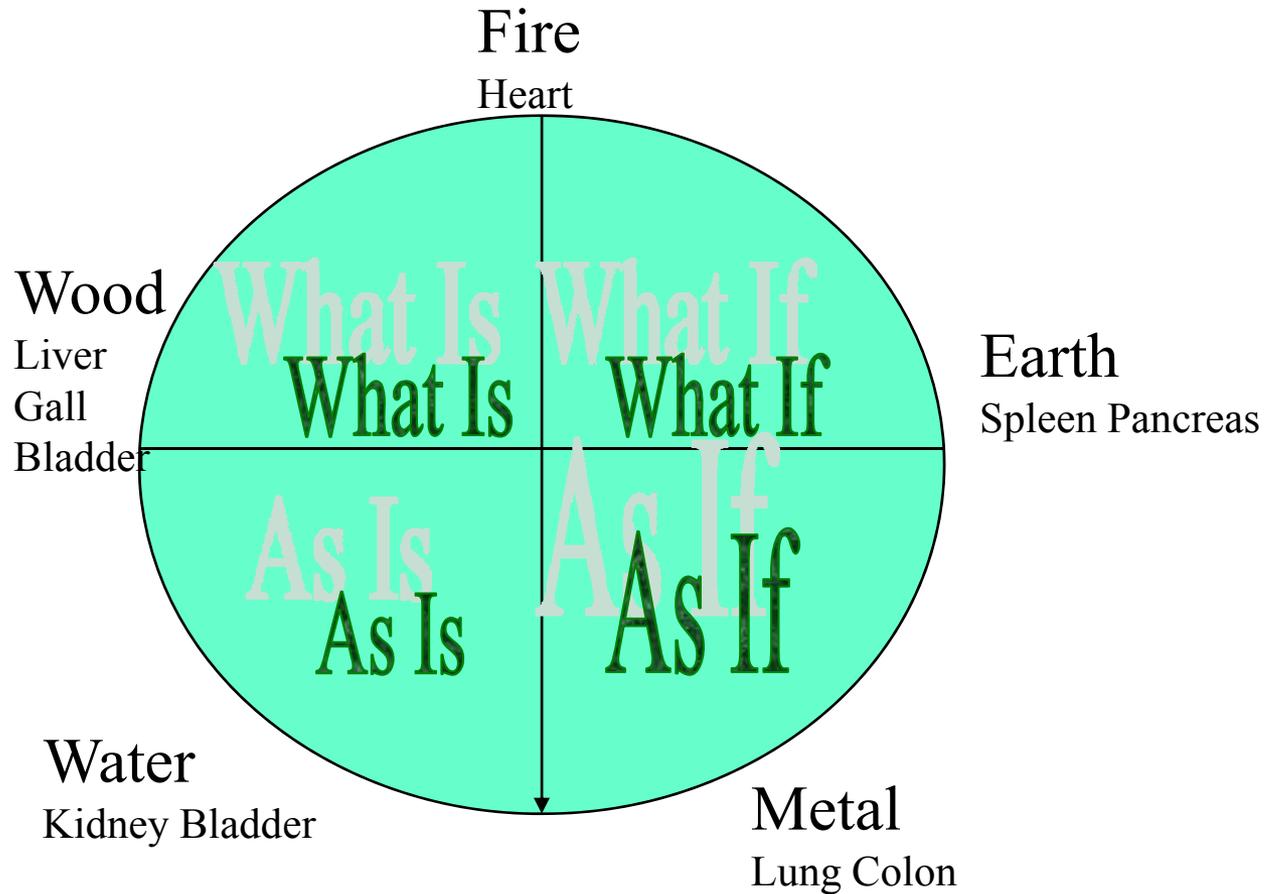

# Respect the Cycle of Creation

# Avoid the Cycle of Destruction

# Transformation Requires Change

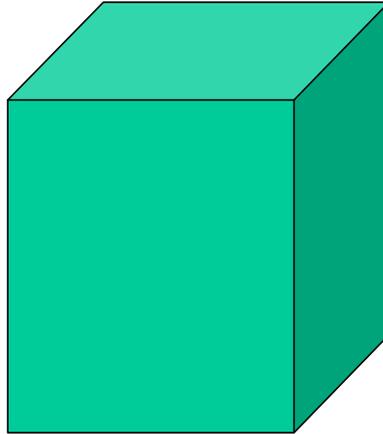

# Change Terrain-Change Weight

- Summary: 1. Dilute 2. Clean 3. Kill 4. Restore
  - Treat metal & other toxicity which shifted the terrain, causing infectious overgrowth
  - Treat the sugar addiction & food sensitivity while removing sugar craving parasites
  - Treat the mood for serotonin and dopamine depletion from the gut lymph node infections
  - Treat with responsibility, time & love, not blame, to ensure continuity of effort

# Biologic Terrain

- It's not the crop, it's the soil.

- How much organ cushion do you have?

# Bioterrain ORP Map

# Immune System Anatomy

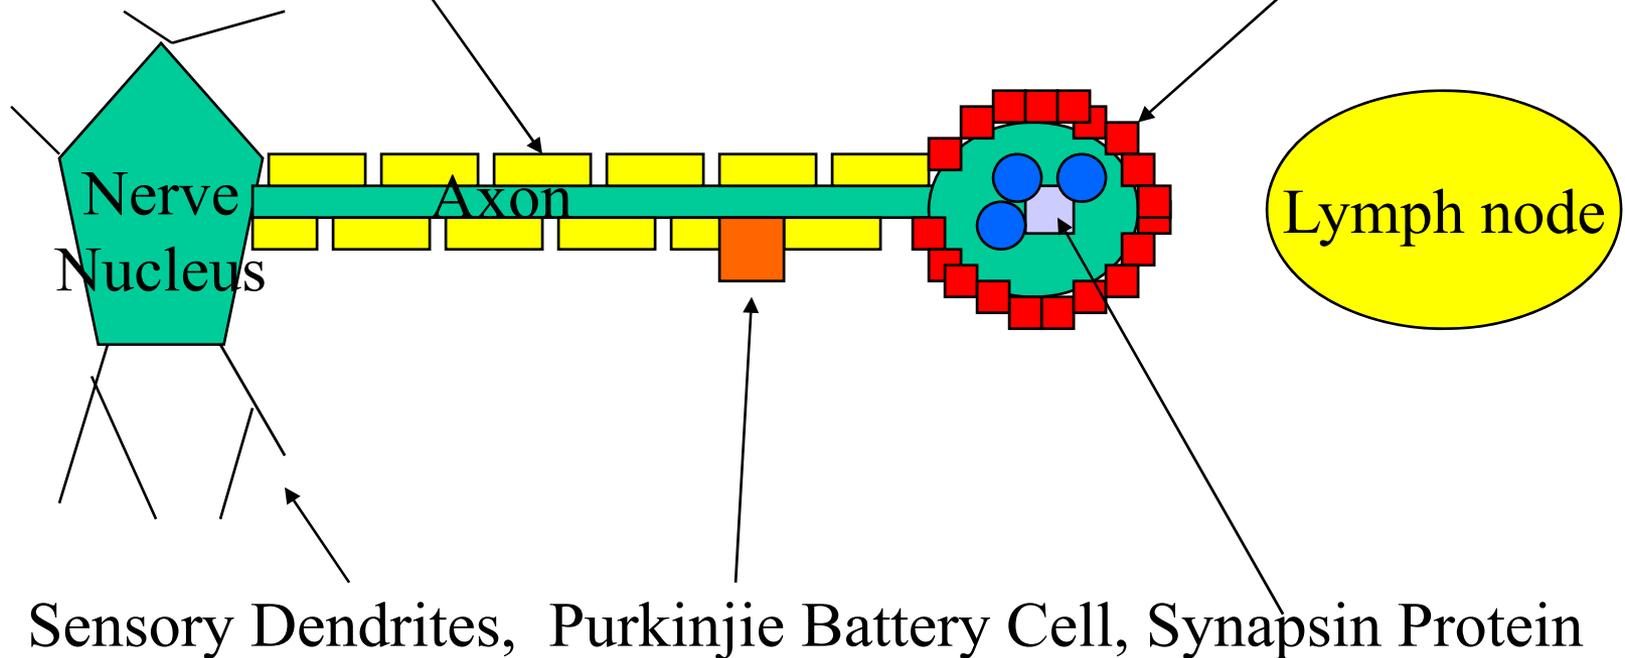

- Thymus Gland makes one Plasma Cell for Each frequency or each bug or invader
- Thymus gland provides master library of defense
- Humoral Immunity Flags enemy by shape recognition (Frequency = Digital Shape)
- Flagging of enemy with antibodies to lectins induces immune cascade to assist capture
- WBC Cellular Immune defenses follow up to destroy invader, then turn off once finished

# Immune System Physiology

- Many human structures are coated with square sugar Fucose
- Human immune structures are defended with anti Fucose & anti-celiac antibodies
- The brain, endocrine, gut lining, blood and electrical systems rich in Fucose are vulnerable to anti Fucose anti-gliadon (anti-gluten) like antibodies.

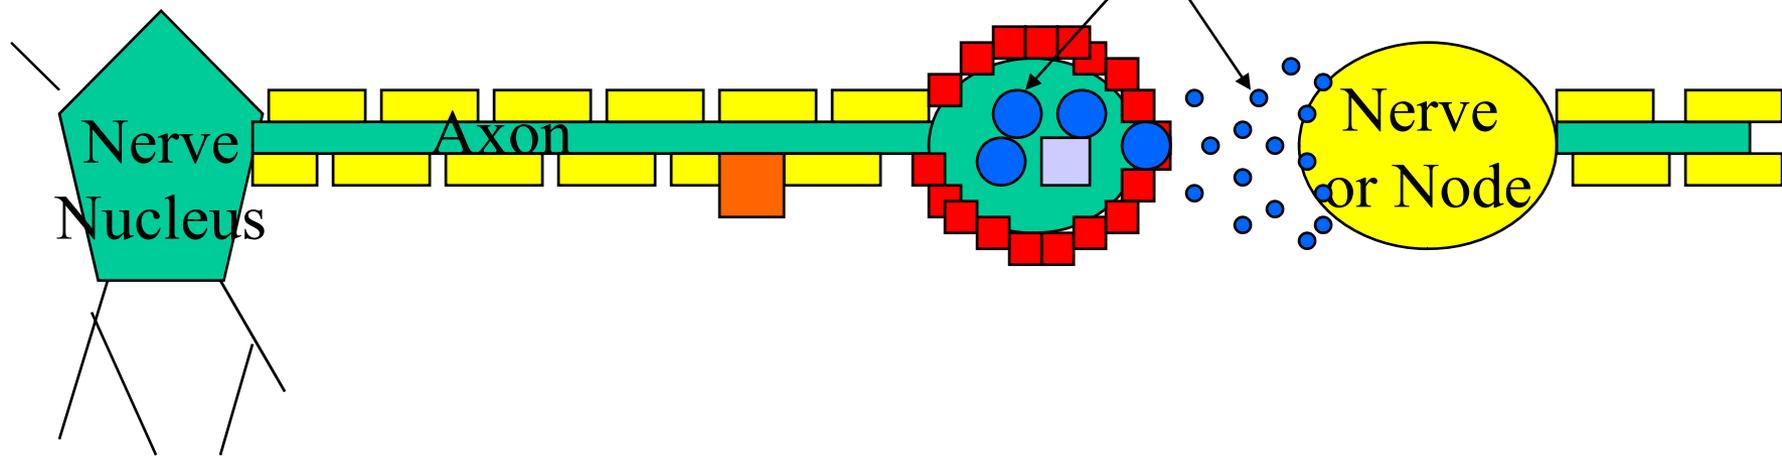

# Nerve Anatomy Rich In Square Shaped Sugar Fucose

Myelin Sheath (MAG, MBP), Nerve Sugars

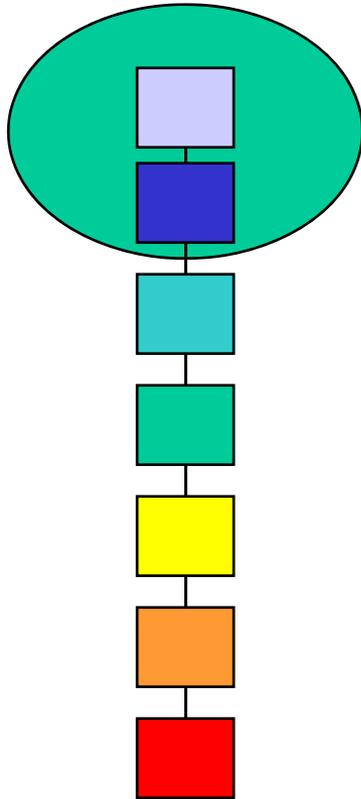

# Synapsin Releases Neurotransmitters

Nerves & Gut Lymph Nodes Transmit Serotonin & Dopamine

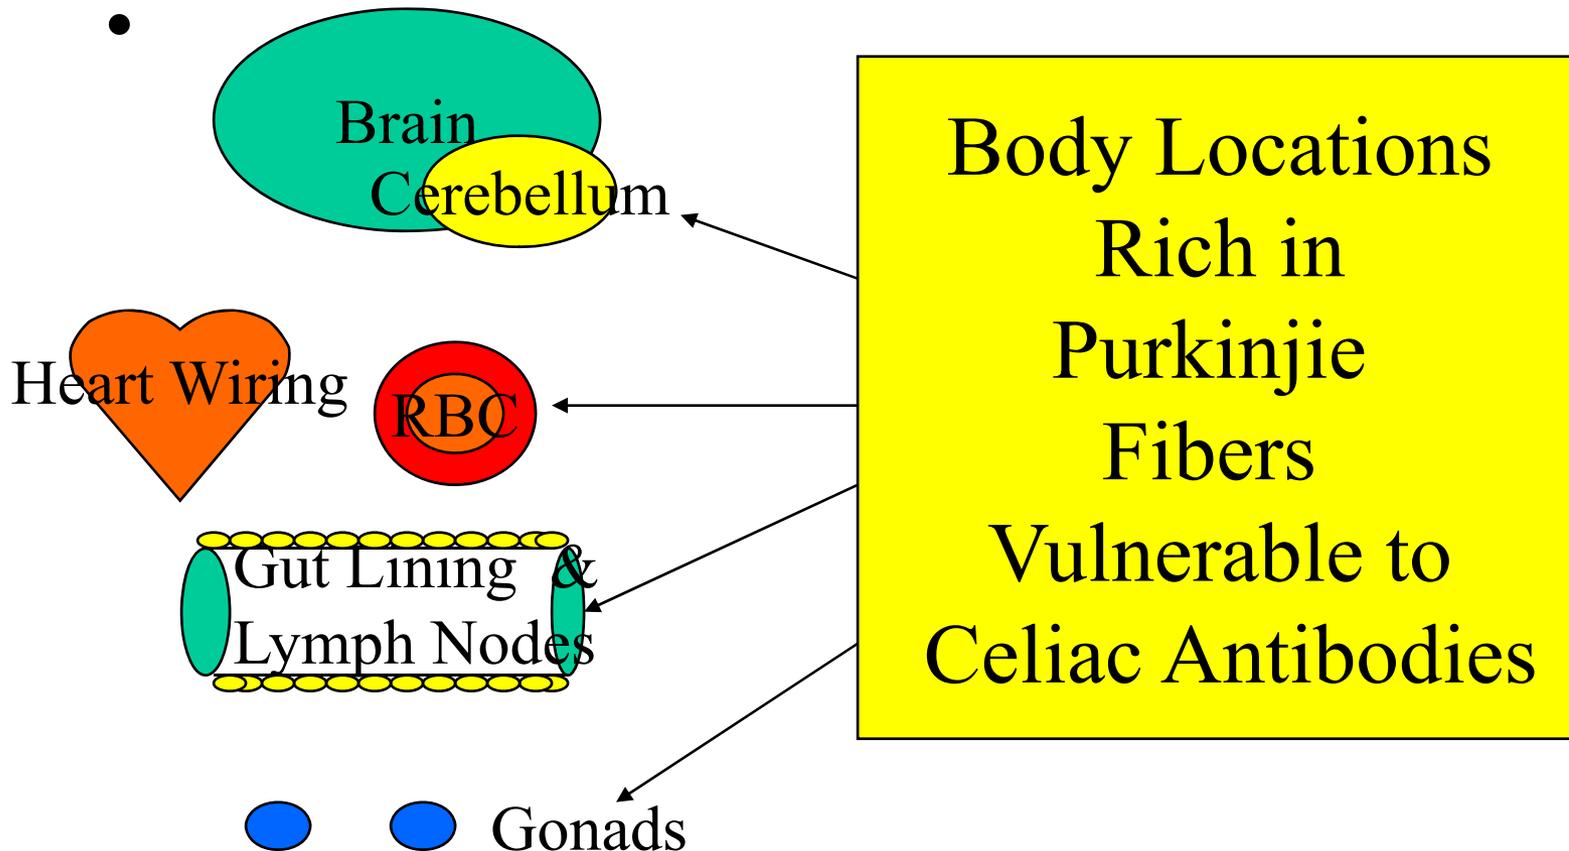

Synapsin snaps open Synaptic Vesicle full of Neurotransmitter for Nerve Conductivity

# Fucose Rich Human Switchboard

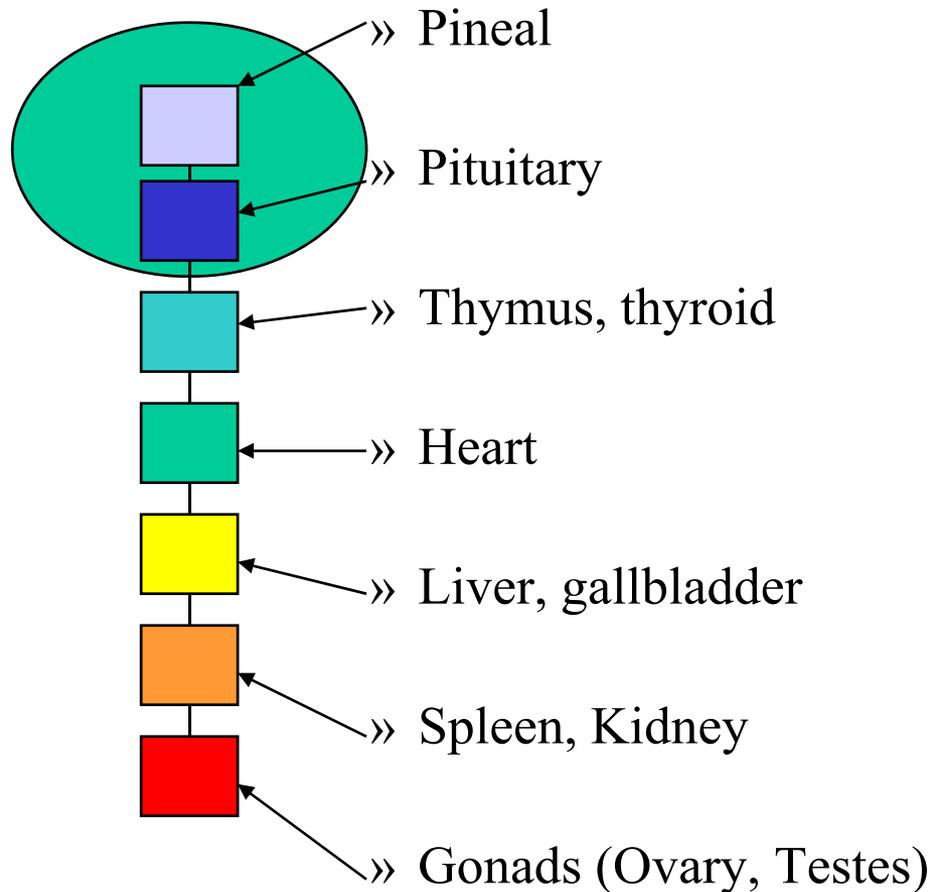

- » The Brain & endocrine system is rich in Square Fucose sugars in nerve endings, myelin sheaths, Synapsin, Purkinjie,
- » The heart wiring is rich in square Purkinjie battery cells and Fucose sugars
- » The lymph glands, modified nerves, are rich in Square Fucose sugars
- » The gut lining is rich in Square Fucose sugars
- » The Red Blood Cell is rich in Square Fucose sugars

# Vulnerable Body Locations

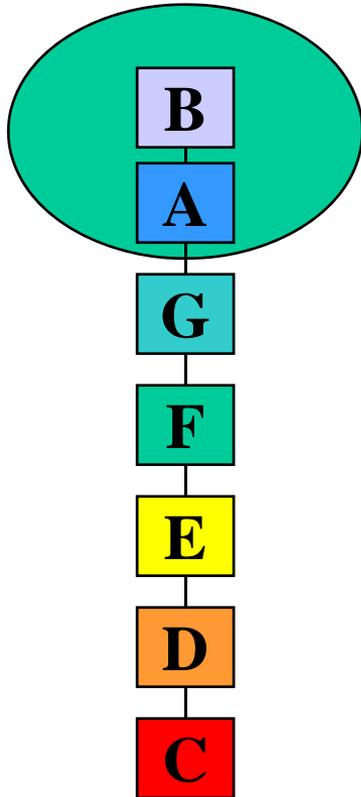

# Endocrine Glands

Brain  
Switchboard has  
an endocrine  
system as an  
extension for  
neuro-endocrine  
regulation ( the  
electro-chemical  
junction box)

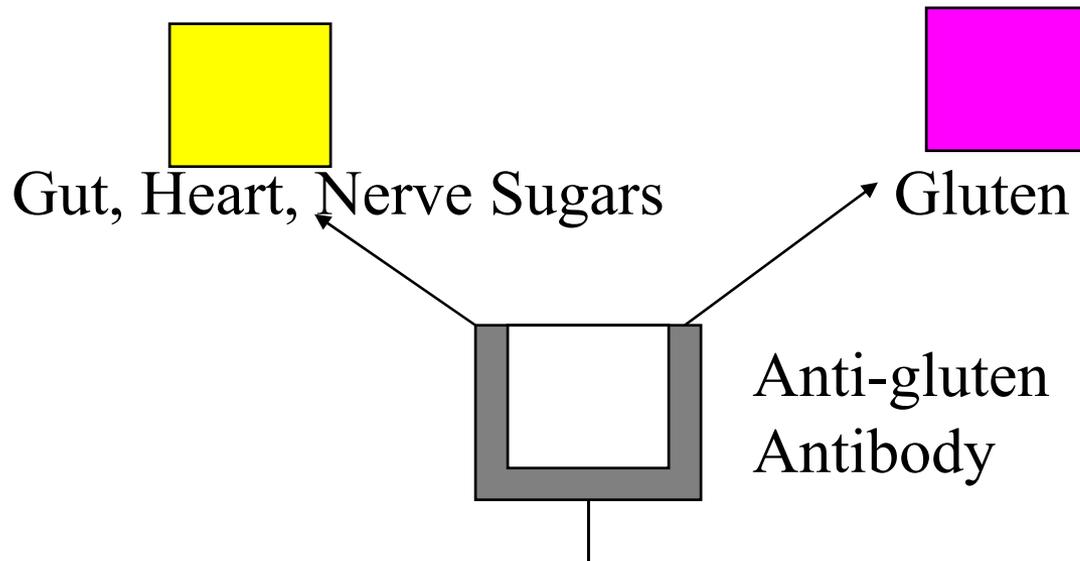

# Frequency Imparts Function

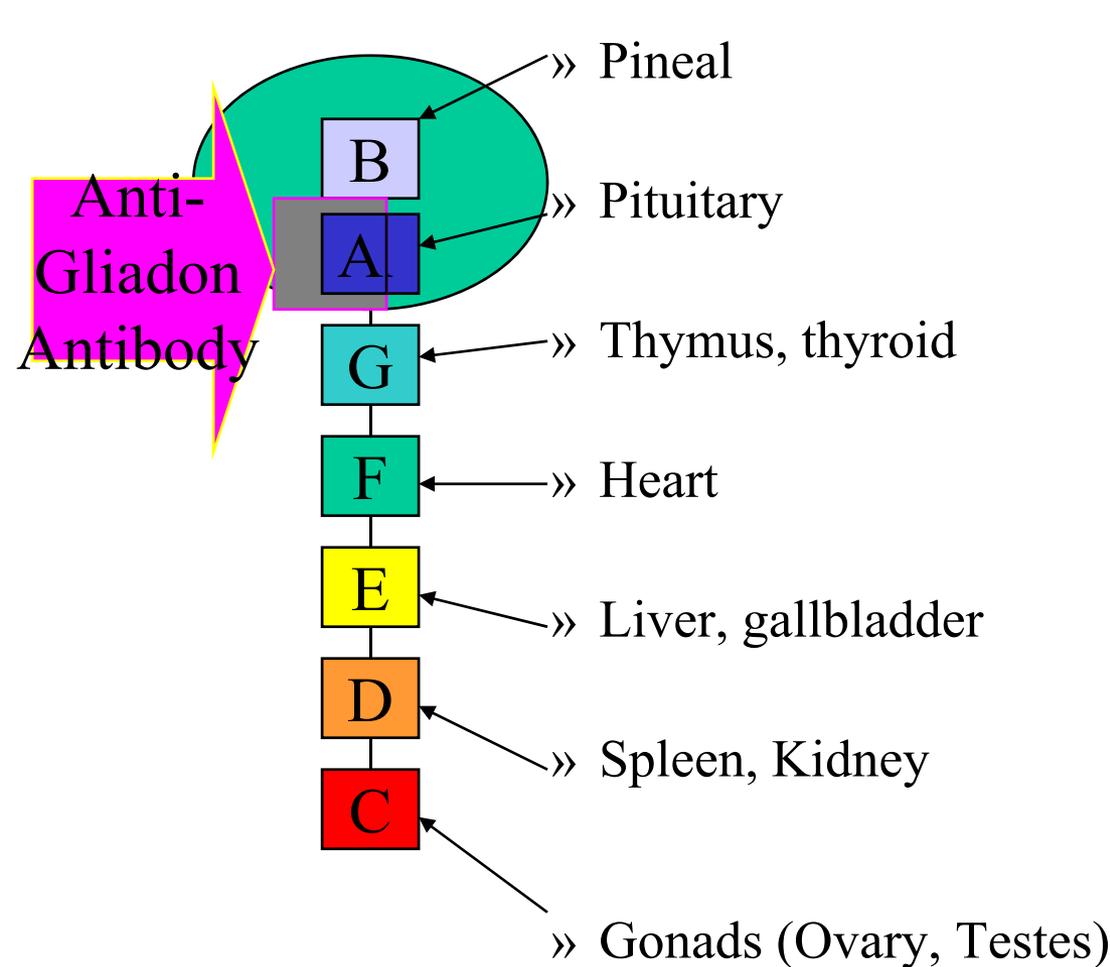

- » The frequencies of the glands & Charkras match the frequency of the notes of the piano scale & the frequency of rainbow colors
- » Different frequencies impart different organ tuning functions
- » Different octaves impart different functions body functions (ie lower octaves for physical body, middle octaves for vibrational and chemical body, upper octaves for magnetic and spiritual body)
- » Each Octave's frequency are overtones matching the frequency of the astral, etheric, mental, causal, cosmic or polymorphic level of body electric organization.

# Anti Gliadon Antibodies

- Anti-gliadon antibodies attack the brain, endocrine glands, RBC & gut lining due to similar shape to gluten

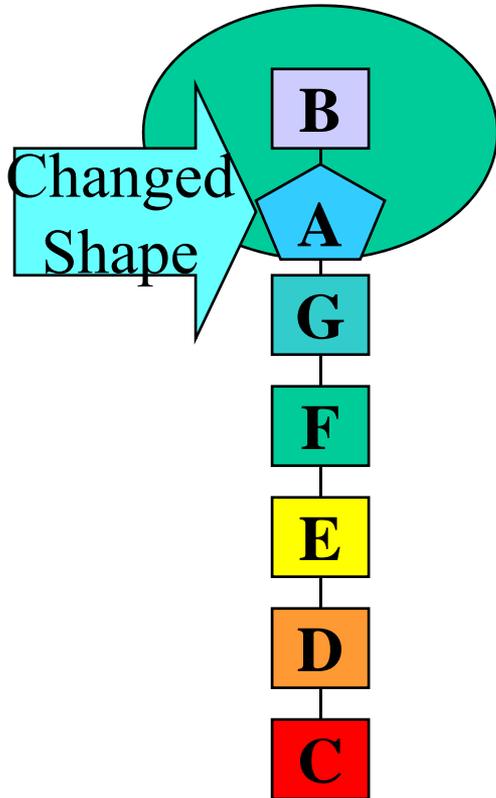

# Endocrine Glands

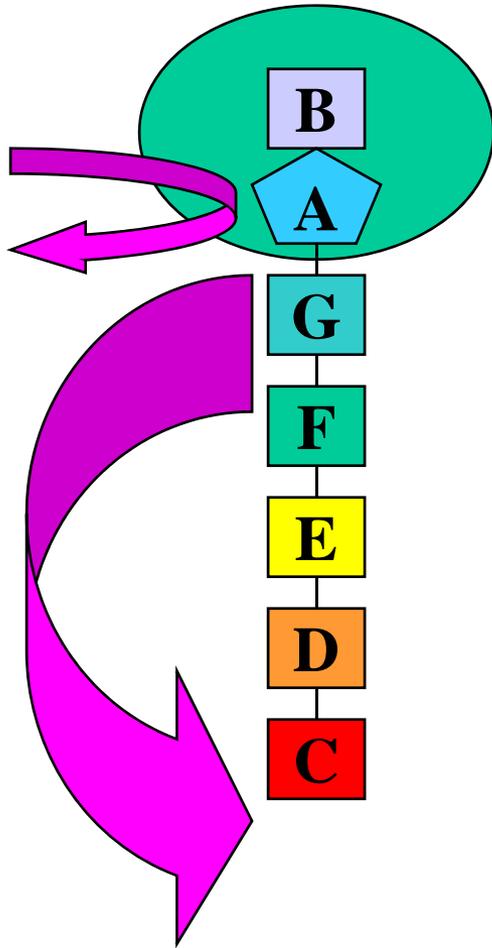

Gluten Shape   
Similar to  
Endocrine &  
Nerves & Charkas  
can cause cross  
reacting auto  
antibodies to attack  
the glandular  
switchboard,  
gluing up cellular,  
hormonal and  
neurological  
communication

# Frequency Imparts Function

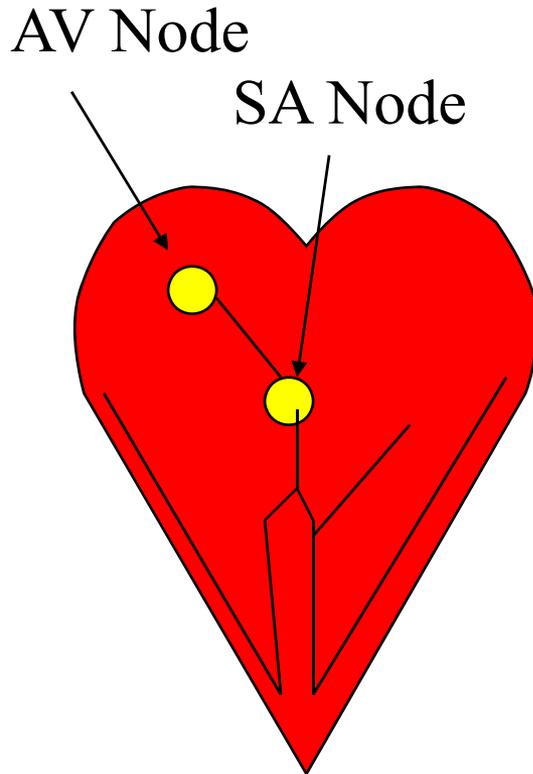

- » The endocrine glands are extensions of the brain, which are also rich nerves, therefore rich in Square sugars
- » The pituitary gland hormone rings 440 hertz, the same frequency as the note A on the piano
- » If the pituitary hormone is bent out of shape and rings 336 hertz, it won't match it's receptor site, causing pituitary illness.

# Disease Definition=Out of Tune

- » The digital frequency of a substance is defined by the angles & molecule weight
- » A hormone out of shape imparts a different angles of a different frequency and cannot then attach to its receptor frequency, causing disease (a gland out of tune)
- » Impairing the Switchboard communications with anti gliadon antibodies to the Square Fucose sugars in the endocrine systems impairs body tuning (homeostasis)

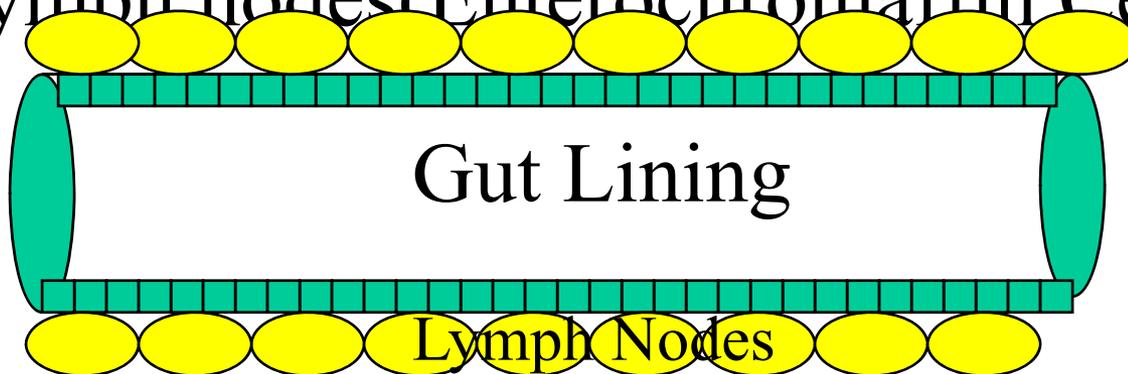

# Heart Wiring Rich in Purkinje

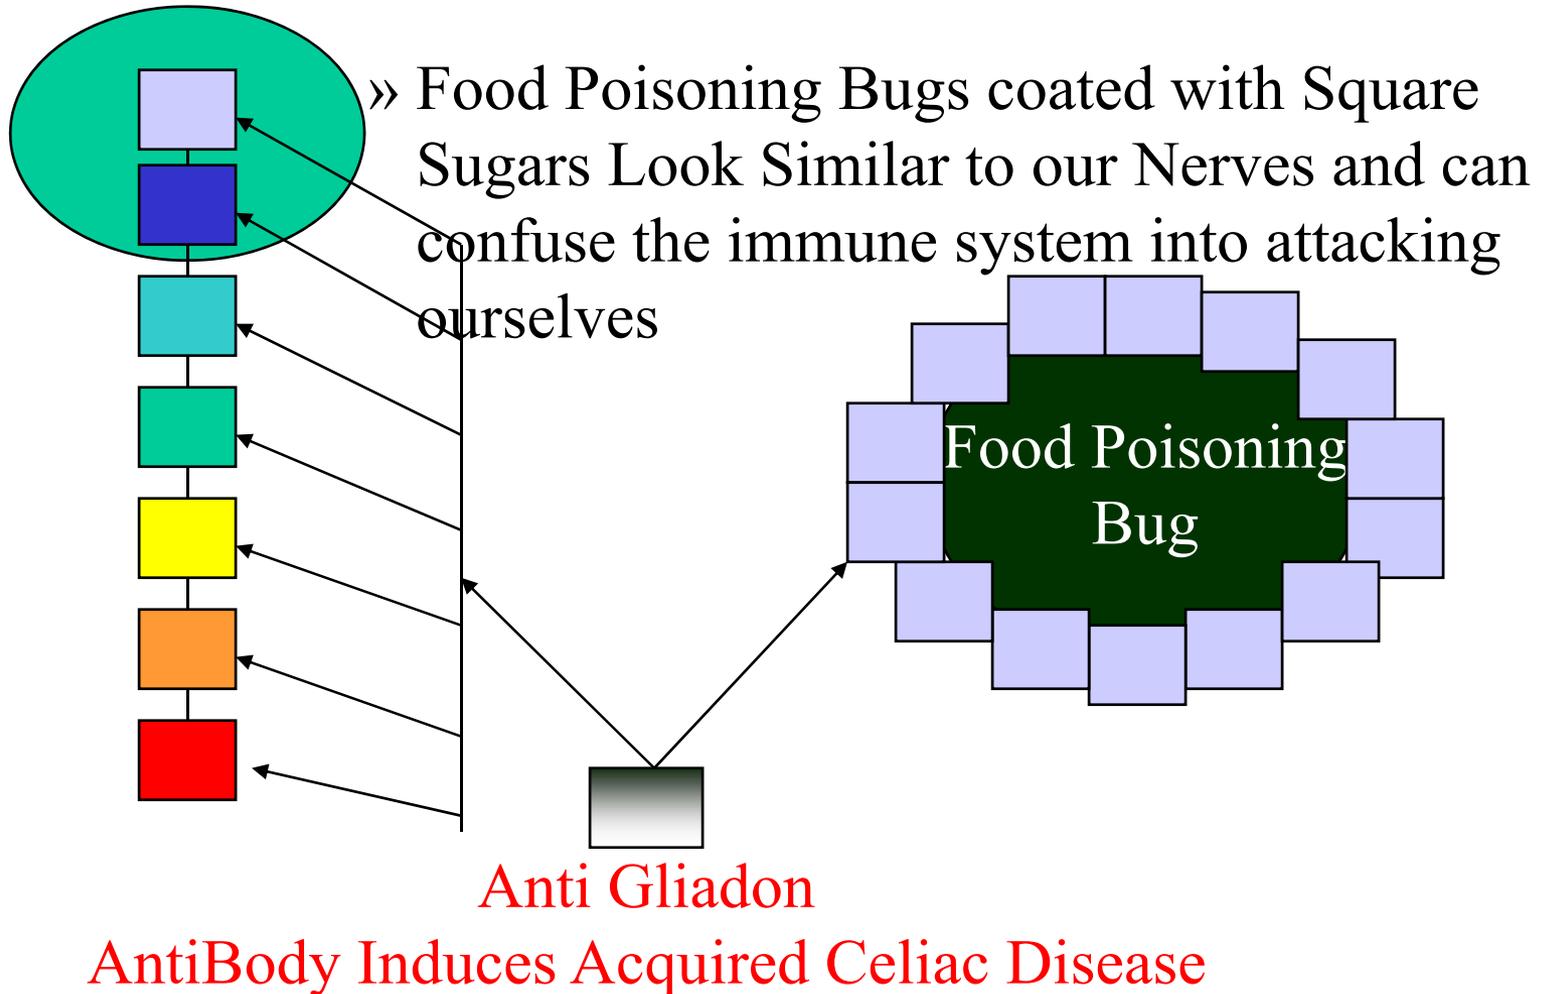

- Heart Wiring is rich in nerves rich in gluten like Purkinje cells
- Celiac antibodies can attack heart wire >induce arrhythmias
- Heart electronics are Vulnerable at AV node to SA node to Bundle of His to R+L Endocardial Bundle Branches

# Gut Lining Rich in Fucose

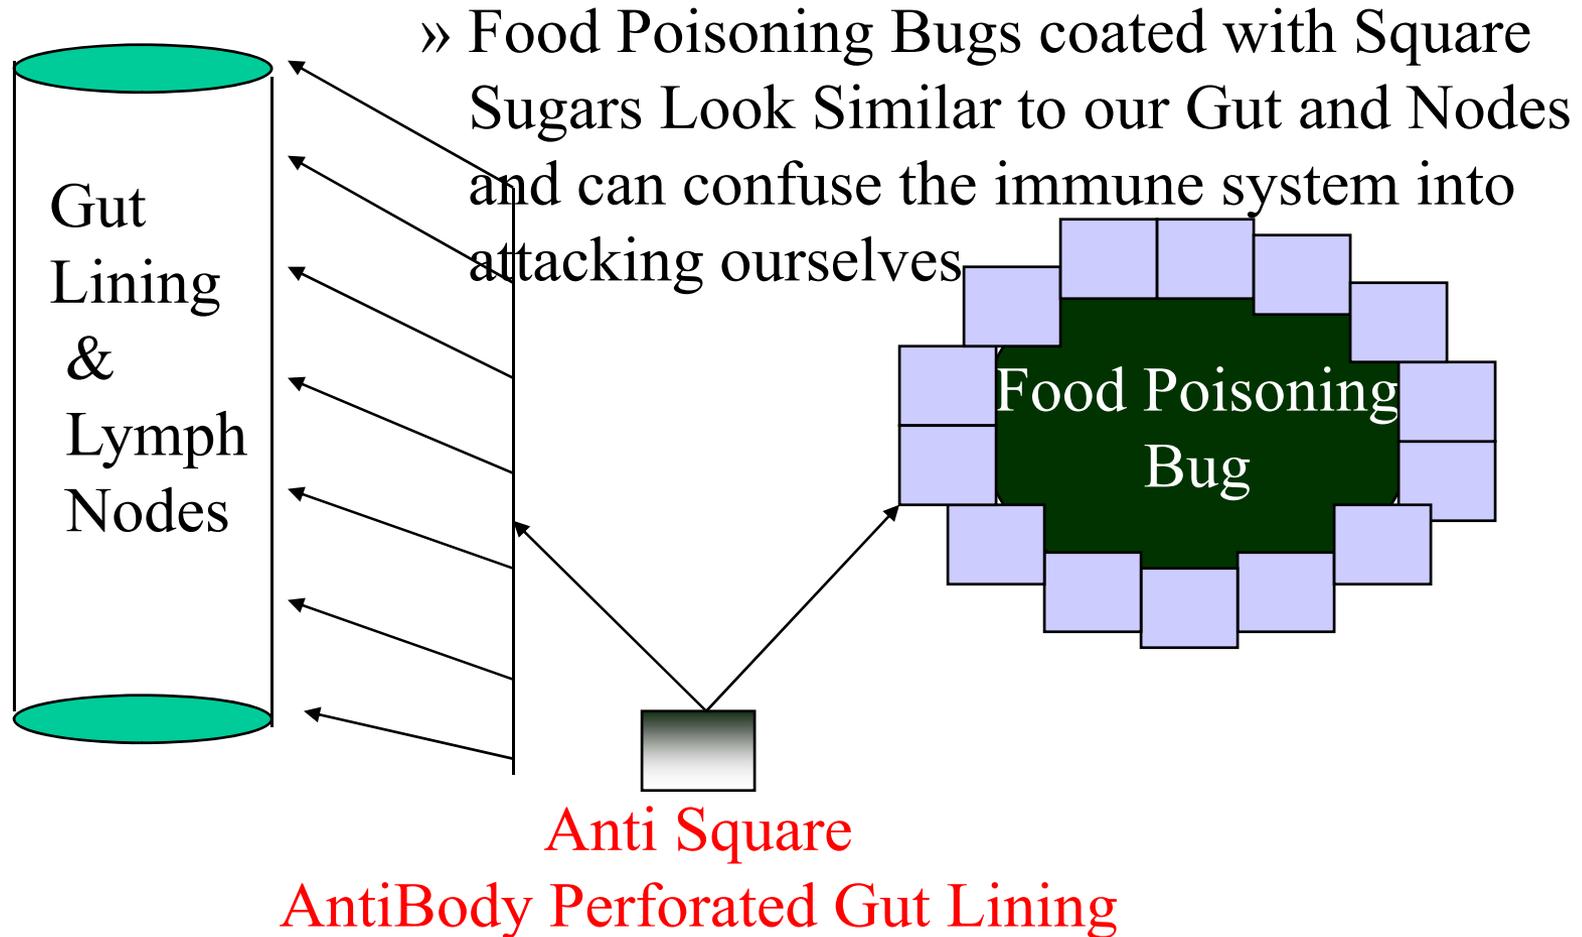

- The gut lining is rich in square sugar
- Lymph nodes are rich in Square sugars
- Lymph nodes harbor 95% serotonin and dopamine as modified nerves called gut lymph nodes (Enterochromaffin Cells)

# Food Poisoning Mimics Gluten

# Food Poisoning Mimics Gluten

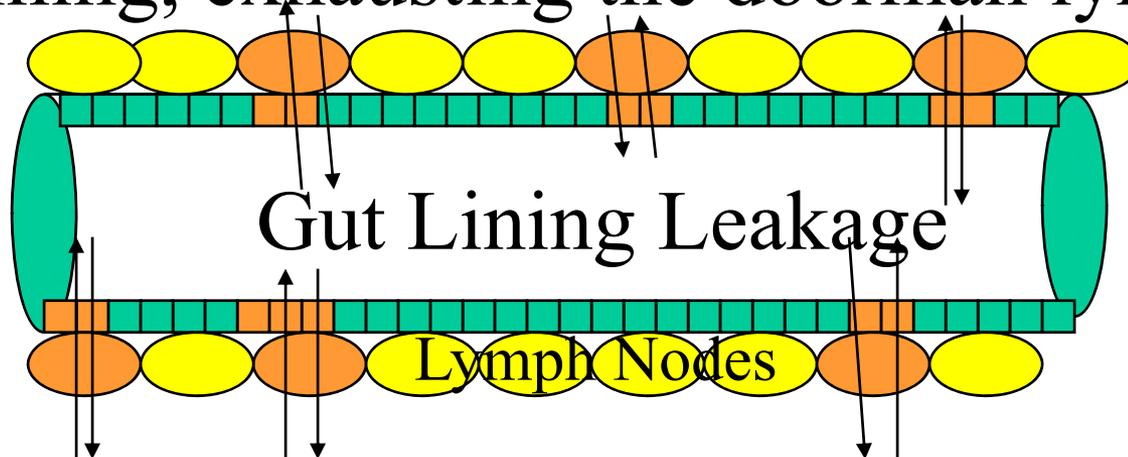

# Food Poisoning Impact on Filtration

- Anti-gliadin antibodies in search of similar shaped foreign infections, cross react and damages the gut lining, nerves, nodes, RBC
- Elevated SGPG antibodies attack gut lining
- Injured gut lymph nodes loose serotonin and dopamine for peristalsis and defense
- Myelin Associated Attack weakens nerves
- Peristalsis impairment furthers gut dysbiosis

# Leaky Gut Syndrome

- The gut lining is rich in square sugar  and rich in square sugar rich Lymph nodes vulnerable to attack by cross reacting SGPG & anti-gluten antibodies, puncturing the lining, exhausting the doorman lymph nodes

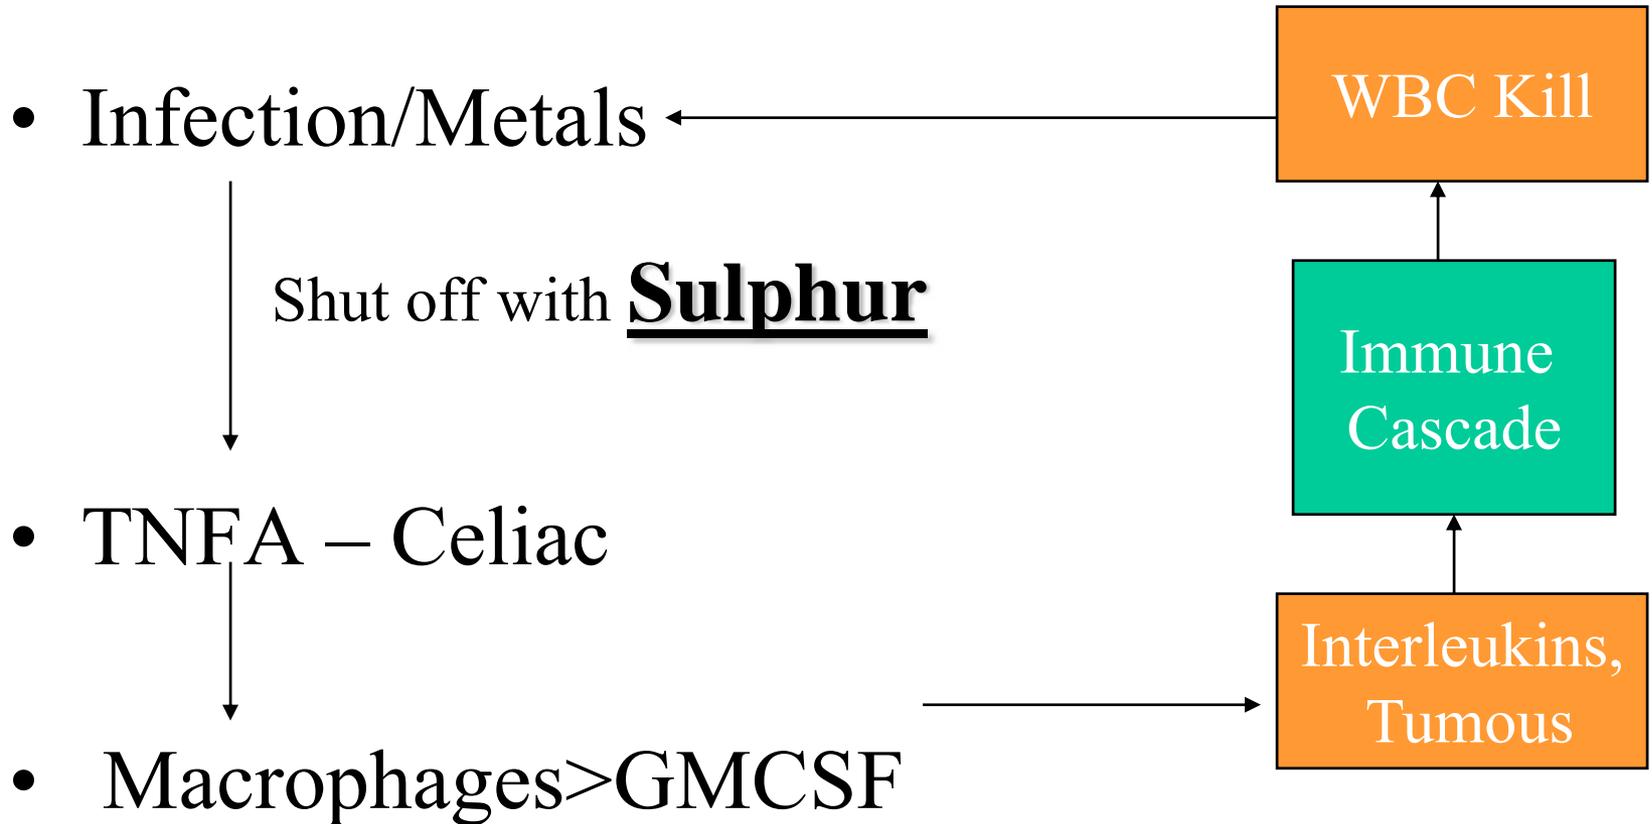

# Autoimmune Disease Induction

- Once TNFA induced to call on immune system, the neighboring gene for celiac and other neighbor for autoimmune disease are co-activated until the invasion is settles.
- Chromosome 6 carries three gene neighbors

# Autoimmune Cascade

# Common Gluten Related Auto-Immune Disease

- Pineal –Insomnia, Infertility, Psychosis
- Pituitary – Depression, Anxiety, Anorexia
- Thyroid – Graves disease, Myxedema
- Parathyroid disease - Calcium deregulation
- Thymus – Myasthenia Gravis

# Common Gluten Related Auto-immune Diseases

- Heart – Arrhythmias, Endocarditis, Lupus, MI
- Liver – Sclerosing Cholangitis, Gallstones
- Spleen – Lymphoma, Leukemia, Banti's
- Gonads – Cysts, Breast & Ovarian Cancer
- Gut – Crohn's disease, Colitis, Ulcer, Piles
- Skeleton – arthritis, osteoporosis

# Part B

- QXCI Bioenergetic Biofeedback Solutions for Bioterrain Correction

# Overall Goal = Clean Organs

- Clean the Cleaning Organs - the body cleans itself
  - Choose Weight Program that is designed to reduce fat & swelling of leaky gut syndrome
  - Clean cleaning organs Lymphatic, Liver, Spleen, kidney, bladder, skin, lung
  - Clean food filtration systems Small intestine, Large intestine, Oral Pharynx, Dental
  - Support Endocrine, Thymus, Skin

# Bioterrain

- Predictors of Illness = Shift in Bioterrain:
  - Shifting from acid gut to alkaline gut (L>R)
  - Shifting from mineralized to sweet and demineralized (Lower L>Upper R)
  - Shifting from metal free to toxic
  - Shifting from hydrated to dehydrated
  - Shifting from Hydrogen rich reduced glacial water to hydride depleted oxidized rust

# Gut anatomy and Inverted Physiology of Leaky Gut

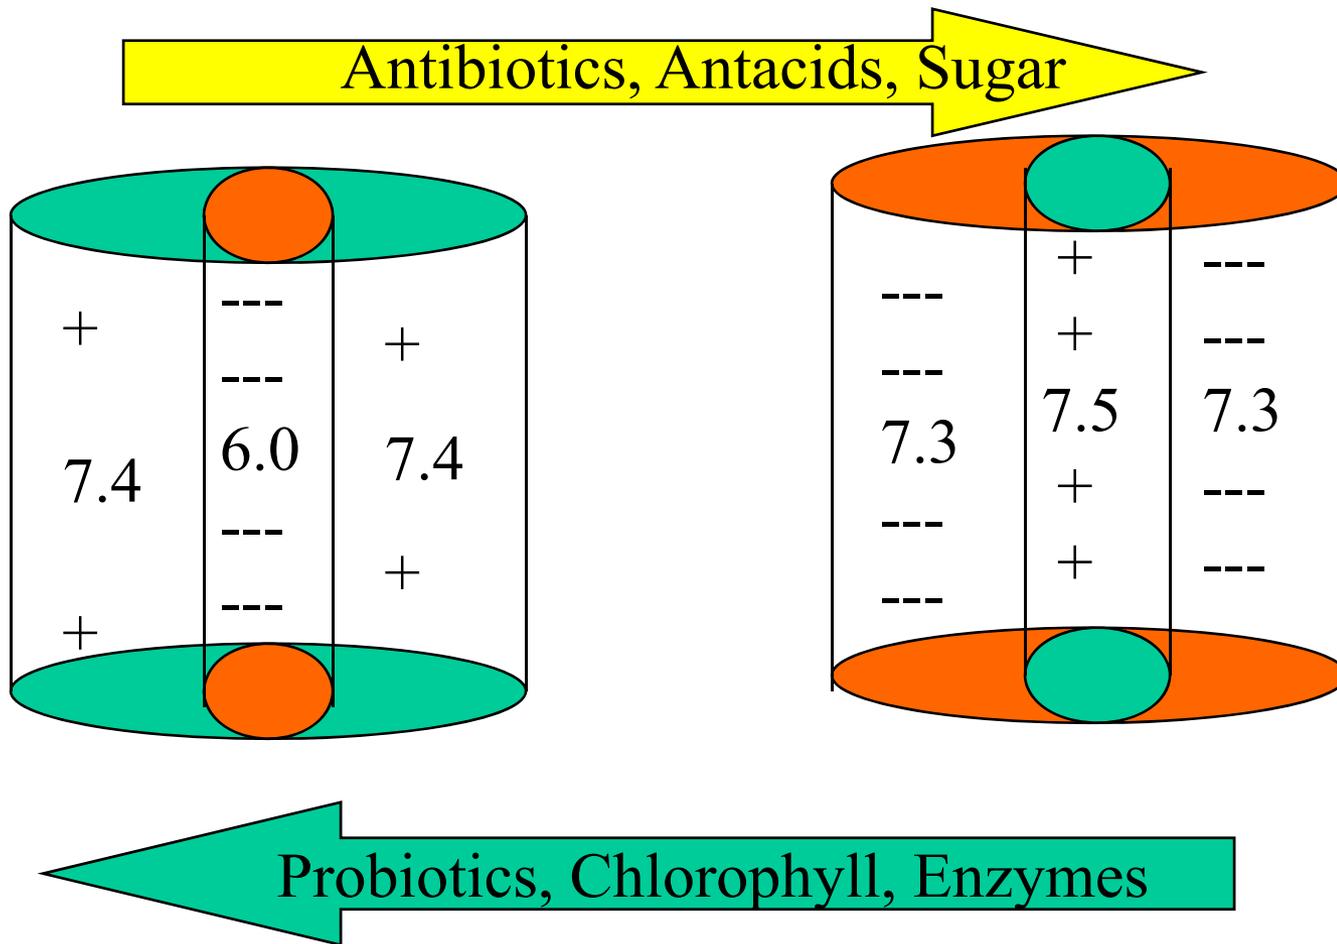

Healthy Neutral Blood, Acidic gut vs. Ill Alkaline gut Acidic Body

Poisons flow out Negative Pole vs. Poisons run into Negative Pole

# Gut anatomy and Inverted Physiology of Leaky Gut

Healthy Neutral Blood, Acidic gut vs. Ill Alkaline gut Acidic Body

# Leaky Gut Historical Risks

- Immunity Disturbance
  - Post operative anesthetic history causing 72 hours cessation of bowel sounds indicating peristalsis
  - Antibiotic history disturbing bowel flora
  - Steroid Drug use, anti-inflammatory medication, diuretics
  - Malnutrition, Anorexia, Bulimia
  - History of severe injury or debilitation

# Leaky Gut Nutritional Risks

- Sugar (fermentation substrate for infections)
- Morphine (caso-morphin, gluto-morphin)
- Cocaine (Opioid, seretonin, GABA)
- Hashish, Marijuana (dopamine, ACh),  
GABA)
- Coffee (Adrenal stimulator, Diuretic,  
Homeopathic)
- Carbohydrate Bread, pasta etc. (gluten)
- Alcohol (suppresses awareness of infection)

# Leaky Gut Social Risk Factors

- Emotional Disturbances
  - Stress, Anger, Colitis, Appendicitis, CFS,
- Social Risks
  - Childbirth ( high hormone and demanding nutritional state)
  - Child rearing (toddlers mouthing, Diapering)
  - Institutional meals
  - Poverty, Malnourishment, Drug Abuse

# Leaky Gut Occupational Risk Factors

- Occupational Risks
  - Caregivers (childcare, teachers, Politicians)
  - Food handlers
  - Health care workers, Senior citizen assistants
  - Dental workers,
  - Police & correctional Officers
  - Industrial workers, (Steel, perfume, Dust Chemicals)
  - Farmers (pesticide exposure)

# Leaky Gut Syndrome Features

- QXCI Features of High Risk for Leaky Gut
  - Low Resistivity due to Demineralization, Low reactivity, High heavy metal toxicity or spiritual superimposition
  - Low Amino Acids due to malabsorption
  - High in Perverse Energy since ungrounded
  - Exhausted Selyer Stress Response
  - High Resonance due to anxiety
  - High risk spiritual attack since ungrounded

# Homotoxicology Miasms

- Correct Familial Risk ( Miasms )
  - Chronic Fatigue Syndromes
  - Sexually Transmitted Diseases, esp. syphilis
  - infections esp. food poisoning, amoeba,
  - Vaccination, Esp. Measles = Tyrosine
  - Mental Issues in family
  - Cancer prions, esp Lymphoma

# Homotoxicology DNA

- Correct DNA Map
  - Healing must occur in 3 dimensions (x,y,z axis)
  - Alter DNA Frequency Structure of to prevent aging and diseases or infections with Hydrogen bonding (Microhydrin or QXCI) which aids in chromosomal Hydrogen bonding and proper folding of DNA helix
  - Correct DNA repair enzymes with Mineralization
  - Use Hydride for Teliomere repair to lengthen chromosome for anti-aging effect

# Homotoxicology Dental

- Remove Heavy Metal Toxins which Alter Terrain
  - Remove top toxins with Microhydrin Plus (Vitamin C and Microhydrin are metal detoxifiers, Chlorella is metal mobilizer, Spirulina is metal neutralizer)
  - Pay extra care to those with dental fillings, which promote growth of Food Poisoning, Worms, Candida and Pyrogenium etc. & leaky gut syndrome
  - Use Co Q Enzymes, artichoke Grape Seed for liver
  - Boost immunity with Colostrum (First Food)

# Homotoxicology-Food Poisoning

- Many infections are hidden since Candida Eats IgA antibodies that signify other invading organisms
- Biofeedback testing reveals a huge amount of long term occult infections
- Commonly missed infections: Pinworm, Roundworm, Pyrogenium, Salmonella, Shigella, Campylobacter, Helicobacter Pylori, Yersinia Bubonic Plague, Cholera, Taenia Tapeworm

# Part B

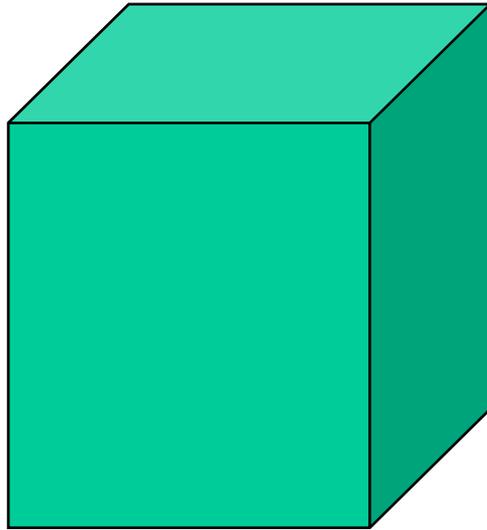

Lasting Solutions for Obesity Depend  
on Changing the Bioterrain

Obesity – A Multi-level Approach

Dilute, Clean, Kill, Restore

# Biologic Terrain Therapies

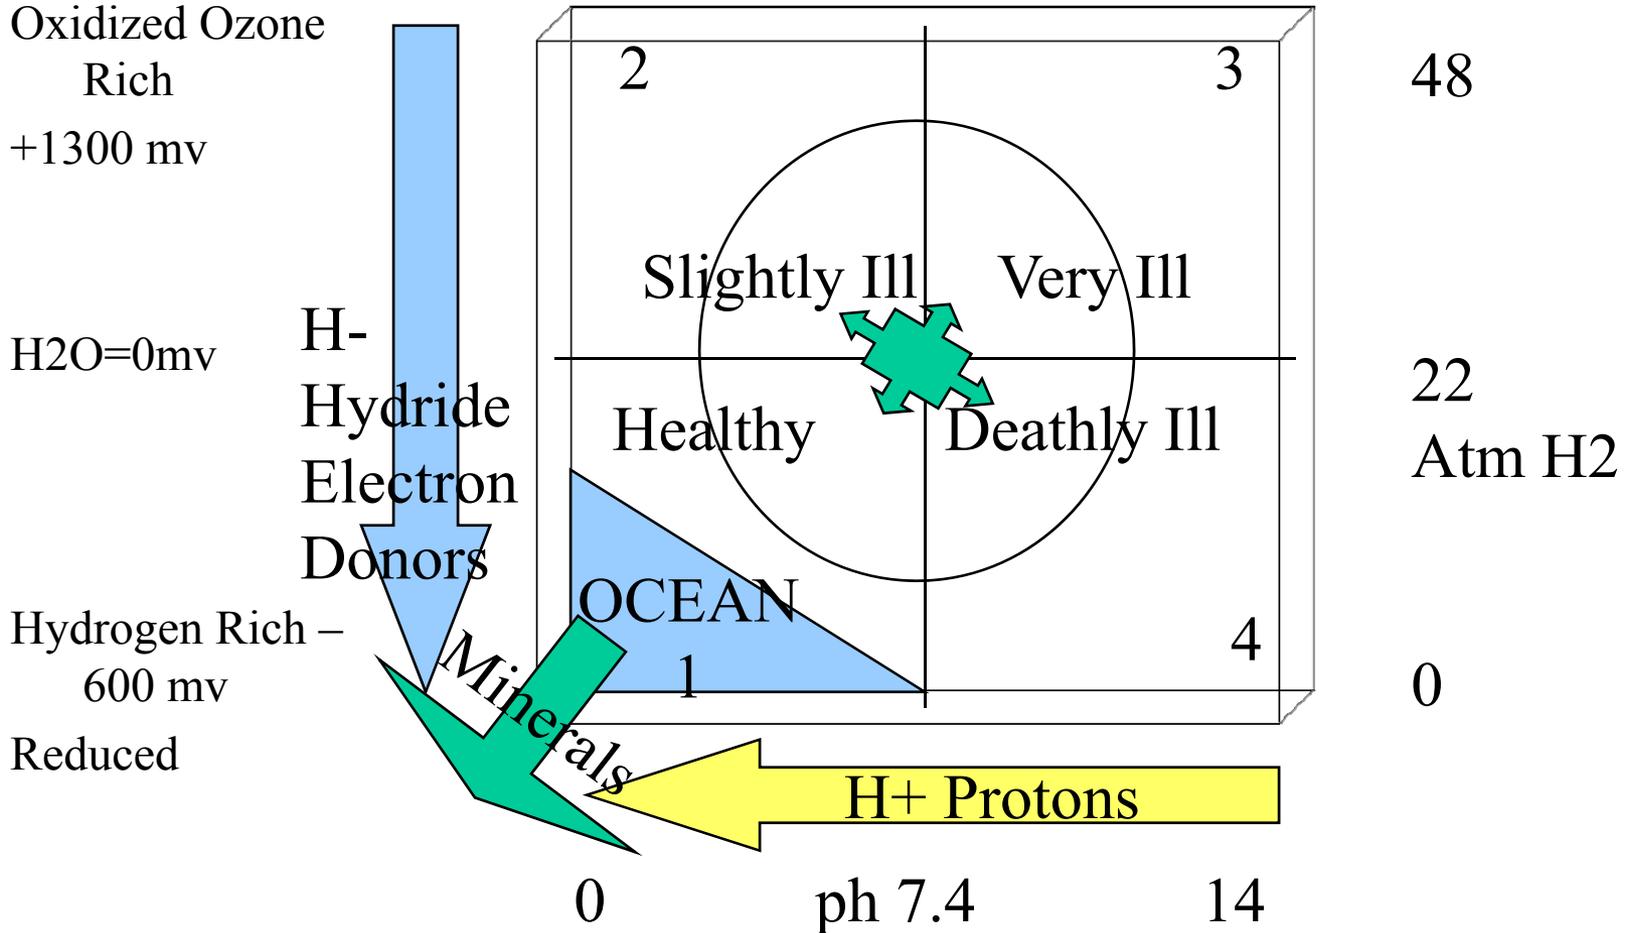

- It's not the crop, it's the soil.

- How do I build my organ cushion?

# Bioterrain ORP Bug Zone

## ORP SCALE

# Changing Terrain Intentionally

- The QXCI Biofeedback stimulates natural repair
- QXCI gives >2600+ options for immune integrity
- QXCI works in 3 Dimensional real time with a safety cybernetic loop for internal control for true holistic rapid mind body spirit reintegration
- Microhydrin, Spirulina, and Green Phyto Power change the pH & ORP, which helps all enzymes function automatically to help preserve the terrain and optimize the natural immune system

# Goal of Bioterrain Therapy

- Determine Goals, Weight, Height, BMI, BP
- Use QXCI or Electron meter for ORP start
- GOAL: Navigate to Zero Point at center of Bioterrain for good oxygen exchange and a large organ cushion for flexible physiology
- Tip: Use home Saliva or Urine pH testing to monitor until excretory organs pH is 5-6

# Bioterrain ORP Map

# Multi Level Approach to Obesity

- Leaky gut syndrome needs variety of modalities to prevent relapse of obesity
  - Adipose & Digestive repair, Blood sugar Regulation
  - Chelating plus algae repairs metal toxicity
  - Mineralization to Restore Magnesium, Calcium and Mineral Pool for Mood, Sleep, Oxygenation, bones
  - Amino Acid neurotransmitter therapy to Feel good, increase motivation & address bad behavior

# Global Repair Over Time

- Obesity and Leaky Gut Syndrome repair will impact over time the healing of many degenerative diseases by improving:
  - Immune, Metabolic & Endocrine repair
  - Psychological, Neurological, Genetic repair
  - Infection, Traumatic, Allergic and Toxic load reduction, Addiction Release
  - Stress Reduction, Nutritional Stimulation

# Motivate the MOOD

- Piggy Back Therapies to clean gut lymph nodes and improve serotonin and dopamine for mood balance, and peristalsis and motivation
  - Clean liver, gall bladder, spleen, kidney, lymphatic, lung, heart, small intestine, large intestine, gonads, nerves, connective tissue, oral (ie Colovada)
  - Prevent depression (serotonin), psychosis (tyrosine), anxiety (Acetyl Choline) with amino acid rich foods esp turkey or mozzarella cheese or supplements such as RBC's Bioshape/Protivity

# Change Terrain-Change Weight

- Summary: 1. Dilute 2. Clean 3. Kill 4. Restore
  - Treat metal & other toxicity which shifted the terrain, causing infectious overgrowth
  - Treat the sugar addiction & food sensitivity while removing sugar craving parasites
  - Treat the mood for serotonin and dopamine depletion from the gut lymph node infections
  - Treat with responsibility, time & love, not blame, to ensure continuity of effort

# Essential of Re-Training

- Consent to Treat
- Dilute
- Clean
- Kill
- Restore
- Self Responsibility

# Bioterrain ORP:1. First Dilute

# Antioxidant & Algae Essentials

- Antioxidant Microhydrin, Probiotic Spirulina algae, & Hydra-cel colloidal minerals can maximize the volts, amps & resistance, improving the three dimensional size of your body's organ cushion & dilute toxins, improve energy and repair speed
- Microhydrin electrifies and prevents infections of mold, virus, worm, food poisoning & fungus
- A large hydrated, antioxidant rich, mineral rich, electrified ocean-like pool in our bodies will prevent dysfunction in almost all diseases

# Dilute Allergens by Knowing What to Avoid

- Print List of Allergies, Good Foods, Minerals, Amino Acids, Flower Essences, Affirmations, Rules of the Stomach or other Diet Report Letters
- Piggy Back Obesity & Allergy issues to Additional Therapies, Disease Dictionary, Biofeedback,
- Allergy Desensitization, Blood Cleansing
- NLP – Reprogram Addictions, gallbladder hypothalamus connection, neurotransmitters
- ELF – broadcast Nelson Report Affirmation

# Support Hypoallergenic Eating

- Avoid aggravating or allergic foods (sugar, alcohol, shellfish, night shade veggies, milk, gluten, MSG, chicken, ketchup)
- Avoid gluten induced dental cavities necessitating insertion of toxic metal amalgams, which cause mental retentions of toxins, initiating fatigue, food addictions and craving behaviors
- Avoid moldy foods (cashews, peanuts pistachios, blue cheese, bean sprout, mushrooms, melons, grapes, strawberries, corn)
- Avoid food poisoning in eggs, pork, chicken, raw shellfish, unwashed salads (use vinegar)

# Eat Responsibly

- Avoid liquid with meals, avoid bad food combining, Use unconscious reactivity to check for ABO Blood type and follow that Blood type specific diet (avoids blood coagulation)
- Follow rules of the stomach (ie fruits before noon)
- Avoid diuretic caffeine and sugar
- Avoid alcohol, cigarettes (sugar cube per cigarette)
- Avoid drug abuse which leads to malnourishment
- Avoid Food Poisoning with food & cooking hygiene

# Bioterrain ORP : 2. Second Clean

# Clear Sarcode & Isodes of Toxins

- Repair Organs over Time for Stable Homeostasis
  - Follow the Cycle of Creation proper physiology, using Auto-meridian organ schedule for the priority timing sequence for organs, blockages, organ in season
  - First Prevent alarms with QIF, Positive Consciousness Field,
  - Add Multimedia then Color, ANS, and ECG

# Cycle of Creation

# Strip the Old Dance Wax

- Clean the fire exits early on using Short Sarcodes/Ear Etc. Lymphatic, liver, spleen, kidney, endocrine especially adrenal & thyroid, pancreas, large and small intestine, skin, sinus, heart and lung
- Support Sarcodes “Holistic Organ Balance” before Homotoxicology Detox Access & seal with Scalar Therapy
- Check top Risk Profile with Virtual Doctor

# Quiet Fight or Flight Response

- AutoZap top 230 items, Co Q Enzymes, Top twelve pathogens
- Autozap Normal bowel flora to restore hormone transport & blood coagulation, gut defense
- Algae Probiotics rich in Magnesium promotes Corpus Collosum cross talk, glycemic control, stimulates peristalsis, acts as an anti-depressant and muscle relaxant, bone builder
- Try Timed Treatments for immunity, oxygenation, metabolic, blood sugar, degeneration repair etc.

# Clean Toxins from Leaky Gut

- Society = High Risks of Toxicity > Detox for
  - Drug use, environmental Toxins, Heavy metals or mercury toxicity, Asbestos, Radiation
  - Industrial Pollution, Food Additives, Chlorine
  - Leaky gut syndrome, Stomach Violation, Constipation, Addictions
  - Allergy, Milk Allergies, Pork Sue Toxins
  - Mental Retention of Toxins
  - Metabolic error/heredity

# Food Therapies for Leaky Gut

- Piggy Back Green Phyto Power Drink
  - Green Phyto Power Contains:
  - Mineral and Magnesium rich Chlorophyll in Algae to regulate blood sugar and muscle
  - Use detoxifying herbs, broccoli and artichoke or milk thistle to balance liver processing of hormones
  - Metal Mobilizing & Neutralizing Chlorella
  - Pumpkin seeds for zinc

# Supportive Tactics

- Homeopathic minerals, EFA, AA, enzymes
- Hydride (Microhydrin Plus) 2 caps twice per day for maximal anti-oxidant therapy
- Use Trivector with DNA repair, especially Chromosome 6 (TNFA, Autoimmune, celiac)
- Repair Scalar Spin to Left for Endocrine system balance with living (L-spin) foods
- Ignite Enzymes with whole food minerals

# Gluten Free Menu

- Use Strict Gluten Free Menu during Detox
  - Supply Diet Alternative, Good Food List
  - Restore Amino Acids, especially Tyrosine and Serotonin plus zinc with Turkey
  - Avoid Chicken (wheat fed muscles resemble gluten) & pork tapeworm pancreatitis
  - Use Gluten Free pastas, breads, flours
  - Use Rice milk and rice ice cream

# Gluten Desensitization

- Strategies to Reduce Gluten Autoimmunity:
  - Gluten Allergy Avoidance & Desensitization
  - Eat Right For Your Blood type
  - Improve Organ Filtration with Hydration, Enzymes, whole food minerals, exercise, rest
  - Cleanse Gut(ie psyllium, rice bran or ColoVada), Brain, Lymphatic, Endocrine, Blood, Bone, intestine, spleen, liver et al.

# Prevention of Gluten Damage

- Repair Gluten Induced Autoimmunity
  - Repairs organs at Risk (Small & Large Intestine, lymphatic, adrenal, brain, ear, endocrine, liver, spleen, heart, parathyroid)
  - Repair Liver and Gallbladder emptying and disrupt Hypothalamus Gallbladder connection, preventing addictive eating, indigestion and overuse of antacids

# Improve Immune Communication

- **Gluten Free Heals Nerves Glands**
- Remove Gluten autoantibodies with gut correction
- Drive then rises with Trivector & AutoVARHOPE
- Power and balance is stabilized in ECG and EEG, Cerebellum, endocrine, blood, gut & gonads once these gluten sensitive areas are repaired & restored
- Nerve & Myelin Biofeedback improves physical activity, pain tolerance, sensory pleasure
- Remove aggressive allergy in Auto-meridian allergy, biofeedback and Homotoxicology sections

# Bioterrain ORP:3. Kill Invaders

# Gut Dysbiosis Culprits

- AutoZap Gut & Blood for Comorbid infections
  - Correct Bioterrain to Ensure **Pilomorphic Stabilization** with probiotics, not antibiotics
  - Treat Blood toxicity and Auto Rife infections esp. Epstein Barr Virus, Rickettsial or Lyme's Disease,
  - Treat gut for Food Poisoning, Worms, Amoeba, Tapeworm, Parasites, Molds
  - Treat Lymphoma and Leukemia for the Worst Fungal Coinvaders (Candida, Mucor, Aspergillus, Nocardia)

# Bioterrain ORP Bug Zone

## ORP SCALE

# Sulphur Strategies for Infection

- Reduce Celiac Disease, Infections and Autoimmune Cascade with Sulphur loading
  - Supply Sulphur to shut off TNFA and Celiac
  - Use Garlic, Onions, Apricots in foods
  - Use MSM, NAC, Lipoic Acid, Glutathione
  - Microhydrin Plus contains all these sulphurs and is 26x stronger than the original Microhydrin Plain for the same cost.

# Bioterrain ORP:4

- A large hydrated, antioxidant rich, mineral rich, electrified ocean-like pool in our bodies will prevent dysfunction in almost all diseases

# Encourage Normal Gut Flora

- Probiotic use for life
  - Restore Bowel Flora ongoing for life
  - Use RBC Spirulina nanoclusters 3caps 3x/day
  - Use Multi-strain Lactobacillus to max of 1 Trillion/day) to produce vitamin K to thin the blood and naturally kill pathogens
  - Use cultured yogurt regularly after meals when traveling to prevent food poisoning

# What's so Good About Cocoa?

- Cocoa is Rich in Magnesium for insulin regulation, peristalsis of bowel motility, left to right brain cross connections, muscle tone, heart rhythm, bone cement, mood and immune regulation
- Cocoa is rich in EFA's and Amino Acids which will augment healing nerves, nodes, glands and building muscle and nerve transmitters

# Integrated Weight Loss System

- Benefits
  - Unconsciously we need a fun, rewarding treat as a choice of therapy – Chocolate is universally loved.
  - Green foods are Magnesium rich gluten free, amino acid repleting foods which promote Normal Bowel flora, Increased Diffusion, Osmosis, Oxygenation, appropriate transit time, for correction of malnutrition, and mineral protective enzymes.
  - Improved energy gives momentum for activity

# Weight Loss Tips

- Follow a biologically correct system for success
  - Avoid aggravating or allergic foods (sugar, alcohol, shellfish, night shade veggies, milk, gluten, MSG)
  - Avoid liquid with meals, avoid bad food combining
  - Follow rules of the stomach (ie fruits before noon)
  - Avoid Sugar and gluten induced dental cavities necessitating insertion of endocrine toxic metals
  - Avoid stored, frozen, cooked food dead in enzymes
  - Avoid food poisoning, care with your water supply

# Global Repair Over Time

- Leaky gut syndrome repair will impact over time the healing of many degenerative diseases by improving system integrity, surveillance & balance
  - Immune repair
  - Endocrine repair
  - Psychological repair
  - Neurological repair
  - Digestive repair

# Motivate the Mood

- Always Piggy Back Lymphatic Therapies to clean gut Peyer's Patches lymph nodes which store 95% serotonin, dopamine and acetylcholine for mood balance, peristalsis and motivation & immune integrity
- Eat foods rich in these neurotransmitters like turkey or mozzarella cheese
- Prevent psychosis and Parkinson's: Improve Volts for dopamine with tyrosine amino acid
- Prevent depression, panic, insomnia: Improve Amps with Serotonin via tryptophan amino acid,
- Prevent rumination, anxiety, biliary colic, constipation, obsessive eating with Acetyl Choline from lecithin

# Reconnect to Self

- QXCI strategies for Repair of Nerves
  - Myelin Repair with Essential Fatty Acids
  - Nerve transmission repair with Celiac Sprue Injury repair, and Resistivity with Algae rich in Minerals as well as Amino Acids/EFA/vitamin B12
  - Improve All Hormone attachment with zinc taken alone at bedtime plus liver cleanse
  - Nutrition scan, Brain scan, and Cancer scan
  - Corpus collosum Repair maintained with repletion of with Magnesium, Manganese & Molybdenum
  - Repair Auto Aggressive disorder and load with Sulphur, Glutathione, Lipoic acid, N-acetyl cysteine

# Make Homeopathics

- Custom make QXCI Homeopathic liquescence for fatty acids, amino acids, missing supplements
- Produce specific supportive and ant parasitic remedies to maintain terrain shifts.
- Personalize the homeopathic remedy and potency
- Save medication costs, heal naturally without risk of medication allergy or side effects
- Use subtle energies to gently redirect health

# Change Terrain-Change Weight

- Summary: 1. Dilute 2. Clean 3. Kill 4. Restore
  - Treat metal & other toxicity which shifted the terrain, causing infectious overgrowth
  - Treat the sugar addiction & food sensitivity while removing sugar craving parasites
  - Treat the mood for serotonin and dopamine depletion from the gut lymph node infections
  - Treat with responsibility, time & love, not blame, to ensure continuity of effort

# QXCI/SCIO Biofeedback

- Biofeedback can be used for the safe, non-invasive, rapid, client centered, personalized intense mathematical cross referencing of thousands of body resonance's. Biofeedback uses the client's unconscious knowledge to map a prioritized wellness strategy to navigate to the best health.
- Uncovering subtle electrical disturbances of hidden afflictions in their early warning stages, applying retraining, and hopefully warding off the complex complications of an unhealthy, polluted and stressed immune system should result in an improved metabolic state, a normalization of weight and so much more regarding the mind body and spirit. Enjoy the results.

# Gut anatomy and Inverted Physiology of Leaky Gut

Healthy Neutral Blood, Acidic gut vs. Ill Alkaline gut Acidic Body

## Debi Drake

- BSc, MD, CCFP(EM), NBCB Instructor
- Bachelor of Science Degree in Biology, Chemistry & Psychology
- Canadian Doctor of Medicine
- Certified in Family Medicine & Emergency Medicine, Psychotherapy
- Expert Instructor in QXCI Biofeedback
- International Lecturer on Bioterrain, Celiac Nutrition & Autoimmune Disease
- President of Cirque Communications Inc (Noise & Digital Sound Therapies)
- Medical Director of new internet site

# Coming SOON !

- “Immune Safe” Quadrant Meal Plan
  - Dr Drake has designed a meal plan to structure and guide anyone back to healthy quadrant 1, using all the known science about digestion, timing and substance of food, plus the desire for variety & fun.
  - Gluten free & Turkey recipes are appended at the back, to highlight their healing capacities and to give an example of how creative and easy holistic nutrition can be in guiding our inner terrain to health
  - See [www.HarmonizeYourHealth.com](http://www.HarmonizeYourHealth.com) for details

# The SCIO as a Pre-diagnostic with Comparative InfraRed Thermal Scan

By Dr Radu Ștefan

August 2008, Bucharest, Romania

The SCIO has proven itself to be a very valuable tool in our doctor office. The accuracy of the device is uncanny. The SCIO tells us reactions from the patient's unconscious that are not always the same as the patient's or the doctor's idea of what is important. But in this paper we compare the SCIO test reactions with the results of our InfraRed (IR) device. We include photos and descriptions of the comparative results of each device. The SIO has performed very well as a pre-diagnostic screen. Because the SIO is safe and harmless it makes an easy tool to guide a doctor into the next set of validation tests.

In the moment of the SCIO and IR tests, the patients at issue were taken care of by certain university medical units. It is important to notice that these patients were under the cure and care of so-called medical doctor *allopathists*. In their despair, they felt the strong need to require a SCIO test, too. The hazard or maybe even Karma made possible that they benefit from a Thermo graphic – IR investigation.

Thanks to the strong valuations of degenerative risk in a Line B neoplastic, I had the intuition-revelation that these tests could be confirmed at the IR thermographic exam. Thermographic modifications referred to hypervascularisation, reactive hyperthermia with significant Delta T thermic gradient, as well as expansion of the metaplasia process in the satellite lymphatic stations.

The 2 energetic investigations, SCIO and IR sustain one another. The arguments leading to this conclusion are as follows:

1. The body capacity, holistically speaking, of maintaining a homeostatic dynamic equilibrium equivalent to the state of health is, with no doubt, expressed the most appropriately by SCIO test. You underline this conclusion on a SCIO panel regarding its place in a top of the medical techniques at the beginning of XXI century.

2. Recording the IR energetic radiation emitted by the body is possible and manifested, like in SCIO, only as long as Individual Energetic-Physiological Reactivity exists. Both of the tests offer information about the initial transformations, long time ahead they manifest by histological forms pathologically modified which shall be without any doubt recorded by the classical, common medical techniques.
3. Estimation by Calibration of the risk factors involved in the reactivity suggest the commencement of certain discreet pathological processes subsequently confirmed in more advanced stages by means of both Thermography-IR and other usual, classic investigations. This delay makes improbable the patients' recovery. These wretched people shall be "assisted" only and not "recovered" as it would be actually possible, in another paradigm.
5. Estimations, in the SCIO test regarding TAMOXIFEN (a strong anti-estrogenic remedy for the young women having used hormonal birth control pills, were all confirmed thermo graphically by mammary dysplasia being in different stages.
6. Practicing X-ray mammography in the indiscriminately classic medical system for all the women, irrespective of age, is wrong and increases the degenerative risk. The sole correct solution for investigating the mammary pathology at the under 35-year-old young women remains only the evaluation made by SCIO and Thermo in IR.
7. Estimation of hypophysary and hypothalamic disorders regarding the ovaries made by SCIO represents a real help for the gynecologist in our specialized surgery. On their basis, it is evaluated the women's health and procreation or infertility, anovulation, menstruation disorders, dysfunctional menorrhagia and metrorragia, disorders in pre and post menopause. In its turn, thermograph in IR can find at the breasts' level vascularization disorders accompanying the hormonal treatment with estrogens, or a modified vascularization specific to pregnancy, and, in general, hormonally determined mastosic alterations.

The following aspect noticed at certain female patients is remarkable: thermic asymmetry, sometimes on one half of the thorax and other times, on the trunk's upper half, cervical and cranial cerebral. Under these circumstances, I thought that there is a correlation with the magnetic field asymmetries emphasized by SCIO. This conclusion would deserve analyzed further, but is little opportune in case that the patient requested and was scheduled for one single test only, either SCIO or IR.

In the cases whose images I append to this letter, my insistence in completing SCIO test with the IR one was intensely motivated by the also great ESTIMATIONS made by SCIO. It is remarkable that in those cases the patients were in unison with what I was thinking but I was not speaking up yet. Anyhow, the patients had to be protected emotionally. To me, this MOMENT OF TRUTH is difficult because I have to catch patient's cooperation and, in the time, "to cover up" the truth for the moment in order to diminish the impact with the patient's emotions. Thanks to SCIO, i.e. to you, I have to transmit directly and not mediated as so far the conclusions about the truth still not manifested but expressed still nonlinearly. To me, this represents a great emotional and conscience stress because I am the first to transmit a piece of information with deep implications in the patient's life and behavior. He had invested trust and hope in SCIO test when he requested it. And I must admit that in almost all the cases the patients wanted to come to SCIO test and not to Doctor Radu. My involving in this trio – patient-SCIO-I, as an interpreter physician – generates great responsibility. I understand now, after almost 7 years of using QXI and SCIO, the reason why you and your assistants in the trainings keep on urging us not to affirm the diagnosis function of SCIO and to insist only on the one of vibrational energetic treatment which includes the homeopathic ones, variously classified. This fact is real and I saw it for myself as I will tell in detail at presentation of Patient no 6 – operated malignant melanoma.

SCIO conclusions transferred from the non manifested fields and deciphered only by a non linear understanding cannot be accepted by the allopath medicine which considers as true and real only the manifested forms. I consider it as the reason for the disputes and rejection of vibrational medicine and the cause is in fact non-knowledge of the Advanced Quantum Physics by the people rejecting the program and technology included in SCIO. Consequently, there are adversities, competition, vanities. That is why my emotions and concerns concerning SCIO's value and information are great whenever a lot of "amateurs", insufficiently knowing Nelson medicine, appeared in mass media, especially on TV, to make publicity for their own interest. I feared that they should not make mistakes about SCIO and Bioresonance and about Vibrational Medicine, in general. From the moment I had the chance to confirm with IR images SCIO estimations regarding the degenerative risks factors with still subtle and not manifested patogenic alterations, the disputes with the so-called scientific medical world shall be maybe "negotiated" in the future. From now on we can plead (at least in some cases) in favor of SCIO and can support with new arguments both SCIO device and the Program and Principles of Nelson medicine. Many times IR images shall be a transitory bridge between the first data calibrated by SCIO at the beginning of certain changes of energetic hue in the stressed body and, accordingly, confirmation in the late evolution with the usual-allopath investigations which can emphasize the form alterations in the tissues and organs modified sometimes irreversibly.

I felt the complementarity of the two energetic investigations, SCIO and IR, as a revelation to a patient where SCIO had indicated in antecedents a parenteral hepatic viral infection C-B. It was estimated then an advanced and bad stage of hepatic carcinoma. At that moment, that is December 2006, the patient was under attendance of a university hospital. During the whole year of 2006 he was treated exclusively with Interferon. Only one month before SCIO test an echo graphic exam signaled inexactly and unconvincingly a small area of echo density considered to be as the doubtful image of a hemangioma.

Until that moment, the persons operating IR video camera and practicing Thermography within our Gynecology surgery – a physicist and a gynecologist - were convinced that thermo vision camera in IR was not able to record the thermic radiation of the more profound body tissues. They and other communicators at one of the conference of the Medical Society of Thermography sustained it.

Despite it, thank to SCIO estimations about the patient's diagnostic and considering all the other data about the disease evolution I was strongly confident that that time IR thermograph shall confirm without any doubt the estimation made by SCIO. The truth stated by SCIO was confirmed by IR images taken by the thermograph. I was thrilled because I lived that "sweet-bitter" state. "Sweet" because i felt the joy that SCIO won a victory in competition with other technologies of medical diagnosis based on out-of-date technologies surpassed by the advanced quantum physics and nonlinear thinking. "Bitter" because the patient was already in a non-remedy situation and soon inevitability shall occur. In spite of all medical attendance existing in that university hospital in 2006, the physicians did not know the sad reality of their patient who had entered the non-return way.

That patient was the husband of a nurse who happened to be one of our collaborators. But she was guilty as well because although she knew about SCIO test and IR thermography she had not appealed to them so far. Maybe she was also under the influence of the wrong beliefs of the physicians having cured his husband for more than one year. SCIO would recommend 2-3 years ago completely other remedies than the allopath ones. It seems that the limited thinking of some physicists results inevitably in difficult situations.

Details about evolution and interpretation by means of computerized processing of the appended IR images..

### **Patient no 1. Affected organ - liver and spleen**

The images taken on the area of the hepatic lodge showed hypervascularization with diffuse hypertermia and the thermic gradient "Delta T" had values over 2,5...3 Celsius degrees, value specific to the cancerous disease appeared in a body being still in the reactive stage of defense.

The 52-year-old patient evolved wretchedly because he was treated insufficiently and with Interferon

only during the whole year of 2006. The investigations made at the Fundeni Hospital were only biochemical, serological and echographical -ultrasonic, which could not show the moment of manifesting neoplasm as form. After almost 3 months from our tests - SCIO and IR - period when started to appear symptoms proving complications by distension of the hepatic capsule, irritation of the phrenic nerve and vicinity of the pulmonary pleura, they made the tomography exam. From that moment on they added to their treatment antialgic drugs, commonly used in these situations. Without manifestation of ascites, the patient passed away in a couple of weeks.

Responsible analysis of this case and the way the patient was investigated in a first-class hospital emphasize the difference in technology and application of the physics laws into the protocols of the regular medicine which are in total opposition with the protocol and especially with the program as software and hardware used by SCIO. Conclusion is in favor of SCIO test and its association (at least to certain patients still being in a reactivity stage may be extremely useful both to the physicist using SCIO and to the patients.

Thermographic exam in IR can represent an objective argument able to counterattack the erroneous and obsolete point of view, limited strictly to the linear thinking which regards only the forms diagnosis in the history of a disease evolution.

Estimations of SCIO, prognostication and proposals of numerous and various remedies are all useful being based on interpretation of the individual reactivity.

### **Patient no 2. Affected organ – Lung**

It is also a significant case which arguments in favor of the above-mentioned conclusions and proves that vibrational medicine in accord with Advanced Quantum and Theoretical Physics can be much closer to the Truth when all is about the state of health or sickness, as it happens in case of Nelson medicine.

The female patient, being as well under a chronic attendance of the Fundeni University Clinic Hospital in Bucharest, having chronic polyarthritis, had received treatment with immuno-suppressors for almost 2 years till the moment of requesting and having SCIO test at the beginning of 2007.

SCIO estimated the Degenerative Risk to very high values - neoplastic disease without a great certainty about its localization or at least this is what I think I kept in mind. IN the analysis of that case I had the impression there was an exaggeration in duration of the allopath immuno-suppressor treatment with fundamental implications because it addressed aggressively to the fund of immunity affecting in such a way the state of health. This time, too I asked and insisted that the patient should accept the Thermo-IR

exam. IR images of the thorax showed in the lung's upper lobe a ..... area, well-confined as a lesion, expressed by the "Delta T thermic gradient", cogent for the proliferative process localized and well-confined. Till that moment, the hospital did not know the real pain of the patient.

She required only SCIO test without great conviction just because she had heard about it. She knew nothing about thermography.

Though I warned indirectly about the seriousness of her state, I recommended what was necessary as remedies in accord with SCIO, I do not know the patient's evolution because she has not come back anymore to our surgery.

### **Patient no.3. Affected tissues - Blood and bone**

Male, 52, tested energetically for the first time with the device and program QXI in 2006. At that moment the evolution of a disease of the sanguine tissue was suggested - polycythemia vera and he was recommended the remedies indicated by QX. Until January 2008, the patient was under successive attendance and cure of two clinical haematological wards within Fundeni University Hospital and Coltei University Hospital. I do not know for sure the reason for which the patient came back to our Bioresonance surgery after almost 2 years. That time I ran the test with SCIO machine. It signaled the patient's contact with heavy-radioactive metals received from a polluted environment - polonium, plutonium, cesium, strontium. SCIO program strongly estimated neoplastic disease localized into the bones. At that time, Hematology Clinic of Coltei Hospital kept on treating him only for the blood disease. The patient did not want to give me all the information concerning his suffering's evolution and history. However, as a consequence of my insistences, he came back after 7 days to be Thermo-IR tested in order to confirm and localize the neoplastic process estimated by SCIO. My insistence was protective for the patient because, this time, too, I offered him data adding serious elements regarding his health. Again, this patient who asked for our energetic medicine assistance did not come back in order that we could clarify his evolution and that he could receive a proper treatment and remedy according to the seriousness of the disease determined by the factors of degenerative risk.

The thermography executed to him suggested localization of the incipient malignant lesion in the reactive discreet stage at the level of the femur. We appreciate the lesion as asymptomatic and unknown by the patient and the hospital-oncologic ward.

#### **Patient no. 4. Affected tissue – hemato-lymphatic B.Hodgkin.**

Male, 25, who had asked firstly the laboratory of a private medical center for sexual hormonal disorders after that he asked for a SCIO test without offer us information about his reasons. Boy's mother asked by go-betweeners for having his son tested. SCIO test estimated clearly a great B. Hodgkin value. IR images emphasized laterocervical micropoliadenopatia more intensely expressed in the right side.

The remedies prescribed on basis of the SCIO information made me insisted a lot on running at the same laboratory or in other center the investigations usually made for any blood disease. Till now the patient has not offered us any information and there are already a couple of weeks passed by.

#### **Patient no.5 Osseous tissue – Neoplastic disease**

Female, 15 for whom the parents requested SCIO test but without offering us any kind of information about the girl's antecedents. Despite all these improper circumstances for a medical investigation but which we got accustomed to, in this case SCIO made possible the following remarks: -1. In the patient's antecedents there were signaled contacts with two heavy radioactive metals, cesium and strontium. -2. From the polluted environment, the increased degenerative risk was mentioned. -3. Existence of an osseous tissue disease and -4. Mention, as an antecedent, of a traumatic lesion on the bone. At the immediately executed thermographic exam the information offered by SCIO test were confirmed and the girl's mother revealed the whole truth in accord with SCIO by saying that 2 years ago - in 2005 - the girl (being then 13) was operated twice on the right femur. The first intervention was decided by the orthopedic surgeon without knowing the diagnostic and we do not know why he did not made resection of the pathologic osseous tissue in order to remove the neoplastic lesion. This was made at the second intervention that took place 2 years before the SCIO-IR moment.

The thermographic images made at our exclusive desire signaled the pathologic bone more emphasized (i.e. the right femur with Delta T thermic gradient) with a significant value. It is to be noticed that the absolutely normal bone does not express thermically a difference towards the adjacent soft tissues and consequently, the thermic contour of the bone does not appear at all.

At the patient at issue the contour appears at the both femoral bones. Under these circumstances I had to conclude that the heavy radioactive metals, especially strontium, received from the polluted environment, are retained unequally – nonhomogeneously especially into the osseous tissue which has a much diminished vascularization in comparison with other types of tissues having reached the same level of development. In connection with this aspect, the girl was at the age when the osseous tissue is in fully “effervescence”. It is possible that even this very condition should significantly contribute to the

“proliferative sideslip” together with the factors of degenerative risk it “operates” SCIO by default and strives for identify them in order to prevent (by naturist methods) manifestation of the disease in stages of evolution where other medical mean as well will be able to identify “form as disease’s manifestation”. Unfortunately, the time for remedying the pathological alterations shall have been surpassed for a very long time...

### **Patient no.6 Affected tissue – tegument**

Malignant melanoma located in the left calcaneus, operated, and tegument grafting followed by a cure of cytostatics for 7-8 years.

The case is interesting because the patient with the neoplastic disease (diagnosed and treated with exclusively allopath procedures) being after an over 8-month evolution from the confirmation of the neoplastic disease, asked for Thermographic – IR test because he had been informed about the possibility of having emphasized possible metastases and inflammatory reactions in the lymphatic tissue around the extirpated cancerous lesion. He was worried of the risk of lesion’s extension even under the above mentioned circumstances, because he was treated with 2 cytostatics, one of them being Cisplatinum.

The IR images did not emphasize relevant clues about expansion of the neoplastic process.

At our proposal to make also the SCIO test in order to consolidate our positive conclusion with other arguments, the patient accepted to repeat the bioresonance test he had already made twice in the last year but with another operator whose identity he failed to reveal. When he accepted the test, my concern was great because I knew both from my own experience and from other similar (in a way or another) cases presented by other colleagues at the training sessions that sometimes our bioresonance test cannot offer sure information about the status of advanced cancerous disease although this level of evolution is easily noticed by the usual, allopath diagnostic procedures. The assistants-educators of our training confirmed the conclusion that the test of electro-immuno-physiologic reactivity of a body massively invaded by the proliferative-toxic-cancerous process much advanced as degeneration is not probative sometimes.

In the case of this patient, we did not receive from the test direct information about the diagnostic, excepting for two details about the degenerative risk factors, but not to very high values.

1. influence of the noxious environment containing plutonium- with energetic field properly calibrated

2. inherited chromosomal risk-cancerous disease, without being specified organic or tissue localization.

Nevertheless, by using remedies and therapies, I received information which reduced my above-mentioned emotion and concern. The data were precious both for me and for the patient. The remedies were Shark Cartilage and Cisplatinum for their cumulative antiproliferative effect. Electro-physiologic reactivity at both the remedies was perfect and it seemed to suggest a real “thirst” for something like that. The patient who was watching the device’s display was nicely impressed when he read that second remedy proposed by SCIO. He had received Cisplatinum from the hospital associated with other synthetic cytoplast for a prolonged cure of 7-8 months. He concluded that from now on he preferred to carry on a homeopath and energetic treatment with SCIO instead of the chemically synthesized cytostatics and he promised to come weekly for the treatment in order to supply and complete the required remedies.

I can now firmly state that SCIO offers us pertinent and sufficient information to make us able to confirm the diagnostic of cancerous disease even in the cases of advanced stages. The sole request addressed to us, the SCIO operators, as interpreters and interface of information in benefit of the patient, is to access and analyze as much panels and tests-treatment as possible in the same working session with the patient till the warning ALARM shows up.

In this case, too, complementarity of the two energetic investigations turned out to be useful especially for thermography which needed deep information about immunity and defense capacity of a body attacked by the cancerous disease, confirmed by other medical units. This completion turned out to be extremely fruitful and it shall be strongly promoted for accuracy of the relations with the patients soliciting us especially when all is about special cases remained still not clarified and remedied.

Patients no 7 and 8 exemplify the way the SCIO data regarding tissues with dystrophic alterations because of various and insufficiently individuated causes were emphasized by IR images.

**Patient no. 7 Affected tissue: vertebral column, muscular peripheral nerve and its corresponding dermatome.**

The cause indirectly suggested by SCIO seems to be overweight which affects mechanically vertebrae.

**Patient no. 8 Affected tissue: Muscle and especially the lymphatic tissue afferent of a lower limb.**

Female, 50; 20 years ago she suffered from a typically articular orthopedic trauma, bones not being involved. Complications seemed to have appeared several weeks after certain recovery procedures were applied. Although she was hospitalized in many medical units, neither her diagnostic nor recovery

was possible.

At the SCIO test requested by the patient a tissue dystrophy and an alteration of the lymphatic tissue were mentioned. Location of the dystrophy was not made clear.

IR emphasizes location, extent of the lesions, vascular disorders and dystrophic area well expressed by thermic gradient Delta T.

Although I made the 2 tests, because I considered the benefits for the patient as being not significant, I did not accepted any payment for my work. When the session came to an end, the patient promised me she would come again hoping that by using as much as possible homeopathic remedies and energetic treatments proposed by SCIO improvements shall be noticed by the patient as well.

At the end of this long letter I also do apologize for my delay and expansion and assert my conviction that my demarche suggested even at the beginning of this letter is explicit and benefic as a support for the numerous users of SCIO program and technology. I shall be very glad and grateful if one of your assistants-collaborators shall suggest me a way to better make use of the complementary association of the two tests which represent in the most convincing way the vibrational medicine of the first decade of XXI century.

All my regard and gratitude for what you represent for us and genuine medical practice in this time saturated by adversities and disputes.

Respectfully yours,

An ageless student of Nelson medicine and IMUNE,

*Reserve Colonel Dr. Radu Stefan, SCIO operator and head consultant in public health*

Letter 2 - AFLATOXINA

Subiect : Performanta SCIO privind depistarea contaminarii cu AFLATOXINA la un copil in virsta de numai 5 luni si care prezinta malformatii morfogenetice fetale de tip ‘‘ acromegalic ‘‘

Proces in care probabil este implicata AFLATOXINA

Cuvinte cheie : Aflatoxina ; malformatie congenitala ; risc nutritional simultan mama –fat

Domnule Profesor ,

Continuare la scrisoarea trimisa cu putin timp in urma ,privind performanta SCIO de aceasta data va comunic inca un caz ,dupa parerea mea , deosebit de interesant si rar intilnit .

La pacientii pe care eu i-am testat cu SCIO am intilnit destule cazuri la care el i-mi semnala contaminarea adultilor cu AFLATOXINA si deci existenta unui risc carcinogenic hepatic . Nici-

o data aceasta nu s-a referit la copii in primul an de viata .

In sursele mele de informare despre AFLATOXINA nu am intilnit referri despre o posibila contaminare la un fat aflat in perioada morfogenetica intrauterina asa cum s-a intimplat in cazul pe care doresc sa v-il prezint in aceasta scrisoare .

Pentru mine sursele de informare au fost urmatoarele , in ordine cronologica :

-prima si esntiala pentru mine a fost Programul SCIO ,de la care am aflat despre sursa de contaminare si riscul declansarii unui proces cacingenic hepatic ;

-a doua sursa : un articol in ziarul meu preferat “ Ziua “ din 2007 ,semnat de un biolog –director al Institutului pentru Cercetari Alimentare si Nutritie din Bucuresti ,de la care am aflat despre gradul foarte inalt de toxicitate al acestei toxine micotice.Se facea referire la o alta sursa alimentara de contaminare si anume boiaua de ardei intimplator sau nu , depistat intr-un lot de marfa importat;

-a treia sursa: lucrarea intitulata “Studiul China “ semnat de Dr. T.Colin Campbel, care prezinta puncte de vedere privind nutritia si unele riscuri epidemiologice legate de nutritie pe loturi si populatii vuluminoase din Asia .Din aceasta sursa am aflat ca procesul carcinogenic initiat de AFLATOXINA care a contaminat arahidele consumate de adulti este conditionat de coexistenta Lactozei in meniul acelor care vor face boala canceroasa cu localizare hepatica.

Cazul in discutie :

Fetita in virsta de 6 luni < nascuta la 23 dec.2007 in Bucuresti> ,la care SCIO a precizat urmatoarele probleme esntiale : - contaminare cu AFLATOXINA ;

- afectare hepatica ;

- leziune chirurgicala ;

- dezordini in structura tesutului de legatura – cartilagos;

Si in acest caz , desi unic in felul sau extrem de specific, parintii copilului , ca dealtfel majoritatea pacientilor nu mi-au oferit nici o informatie pina la sfirsitul testului cind concluziile mele confirma asteptarile lor si plus alte date importante la care ei nu s-au asteptat.

SCIO de multe ori si la valori diferite a semnalat contaminare cu ALATOXINA , dar de fiecare data doar la adulti .In acest caz este aproape incredibil ca un nou nascut la virsta de 5 luni sa fie contaminat ,sa prezinte malformatii accentuate la extremitati si deja sa fie operata pentu polidactilie <deget supranumerar la mina > Daca este real ce a estimat SCIO si eu cred cu tarie in informatia SCIO si interpretarea mea corecta ,bazata pe ‘‘ Citirea ‘‘ LUI inca din 2001, atunci contaminarea acestui copil s-a produs desigur in perioada de gestatie a viitoarei mame.

La terminarea testului mama a declarat ca intr-adevar ea a consumat foarte multe arahide in perioada gestatie ,asa cum obisnuia in general cu acest aliment mult preferat.

Consider extrem de interesanta din multe puncte de vedere medicale , acesta situatie. Dintre ele mentionez doar citeva: - - toxina a putut traversa bariera de protectie utero-feto-placentara si eu cred ca pentru specialistii acestui domeniu acest aspect este interesant.;

- toxina a depasit asteptarile de a-si exercita dezordinea nu doar pe tesutul hepatic mai vulnerabil probabil prin potentialul sau morfo-blastic ,tinar, regenerativ. A reusit in acest caz si prin concentratie mare atit in singele mamei si probabil proportional si in singele embrio-fetal sa atace mult mai multe tesuturi cu potential mare regenerativ .A crescut astfel proportional si potentialul teratogen al toxinei aflata in concentratie excesiva.

- -dezordinea produsa pina in acest moment este evidenta ca ,,forma materiala ,, morfologica si si de tesuturi care este si domeniul obisnuit clasic de actiune al asa zisei ,, medicini alopate,, Aceasta se refera la urmatoarele aspecte:

POLIDACTILIE < un deget suprunumerar la una din miini > Medicii cchirurgi consacrați și specializați ,,formelor ,, au ,, rezolvat ,, -spun ei un singur aspect al monstruozațiilor morfologice evidente in prezent la ambele picioare ;pe imaginile fotografice pe care le anexez nu doar degetele ci si articulatia tibio-tarsiana prezinta modificari de raporturi anatomice mai accentuata la membru inferior sting . ; un deget la mina stinga este crescut disproportionat in raport cu celelalte.

CRESTEREA disproportionata si deformarea haotica a raporturilor structurale la degetele ambelor picioare dind aspectul net de inegalitate. Fata de acest al doilea aspect medici

chirurgi probabil si plasticieni dar cu siguranta endocrinologii din cea mai importanta institutie de profil din Bucuresti au spus familiei ca trebuie sa astepte pina cind copilul va implinii virsta de 4 ani si doar atunci ei vor avea solutii pentru remediere. In acest context familia copilului a solicitat Testul SCIO iar „dezvaluirile „ privind demersurile medicale „ pe care le-am mentionat

mai sus au fost facute si discutate la terminarea testului propriu zis . In acest aspect al situatiilor este „frumusetea Programului SCIO „ pentru ca desi primesc informatii zero El reuseste sa confirme datele cunoscute de pacient sau familie si in plus dezvaluie ceia ce nimeni inca nu stie

despre suferinta ,cauza si istoria potentialului si risc de imbolnavire .Ma refer aici nu atat la pacienti cit mai cu seama la medicii implicati in aceste acte medicale ,desigur victime <cu titluri

mari> ale ignorantei lor.

Domnule Profesor , daca prin aceste prime concluzii eu exagerez sau ele sint gresite imi cer deja scuzele convenite . Dar eu va consider principalul meu mentor in ce priveste utilizarea SCIO dar si

a deprinderii de a gindi cumva intr-o maniera care sa se apropie cu timiditatea fireasca si mult justificata de a naviga cu Paradigma ce insoteste SCIO si Medicina Nelson . De altfel si in scrisoarea precedenta faceam mentiunea ca in acesti ultimi ani in care m-am straduit sa practic cit mai corect Medicina Nelson . atunci cind circumstantele ma obliga sa rezolv situatii medicale complicate, rare, sau inca neintilnite in practica mea, simt nevoia sa va cunosc parerea sau comunicindu-le dumneavoastra sa le folositi pentru informarea si expertiz dumneavoastra.

In acest context cred oportun cunoasterea acestui caz extrem de interesant si de catre alti experti, specialisti sau organizati si institutii care isi aroga atributul prevenirii si al remedierilor de siguranta sanitara alimentara.

Revenind la fondul medical al fetitei , la care SCIO se referea oarecum vag la o dezordine a cartilagiilor si nu a hormonului de crestere asa cum au gindit medicii specialisti care au banuit diagnosticul acromegalie . Las la aprecierea Dumneavoastra ,daca adincirea studierii acestui caz cu maxima seriozitate poate aduce beficiu copilului sau si mai mult chiar cunosterii medicale cu adevarat , si include aici chiar si „clasica,, de acum si „stiintifica,, din totdeauna, medicina alopata.Daca publicarea acestui caz va fi oportuna va rog pe dumneavoastra sa hotariti.

Cu sincere multumiri , Va trimit aceasta scrisoare si Va marturisesc ca astept parerea Dv.

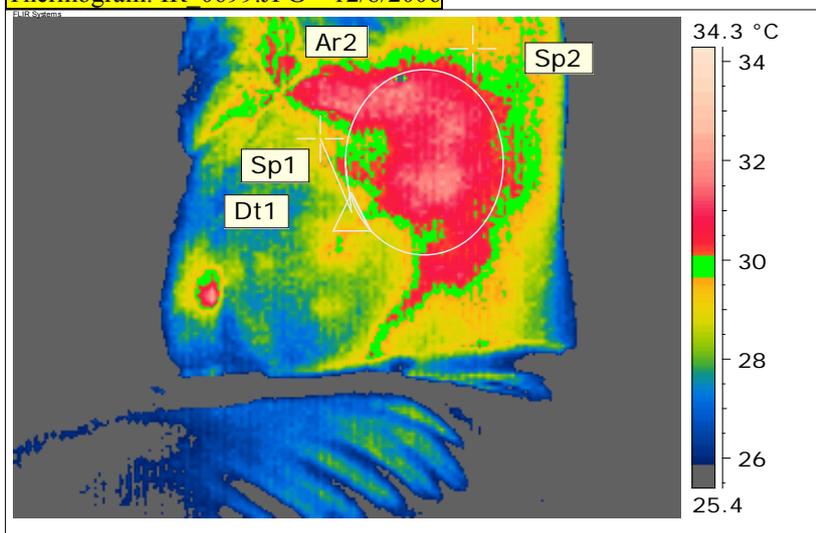

Indemnul si sfatul privind implicarea sau nu, in acest caz si poate monitorizarea lui pe un termen mai lung in scop de cercetare , Va rog sa le decideti Dumneavoastra. Relatia mea ca prestator de servicii medicale oferite fetitei va fi asemanatoare cu cea recomandata de Dumneavoastra la debutul fazei de pre implementare a Programului Nahinga. -- Anexez citeva imagini fotografice pe care le-am luat micutei paciente dupa aproape 2 saptamini dela primul test al ei, devenit antologic pentru mine .

Cu mult Respect si Recunostinta ,

Colonel medic <rezerva> Dr. Radu Stefan.

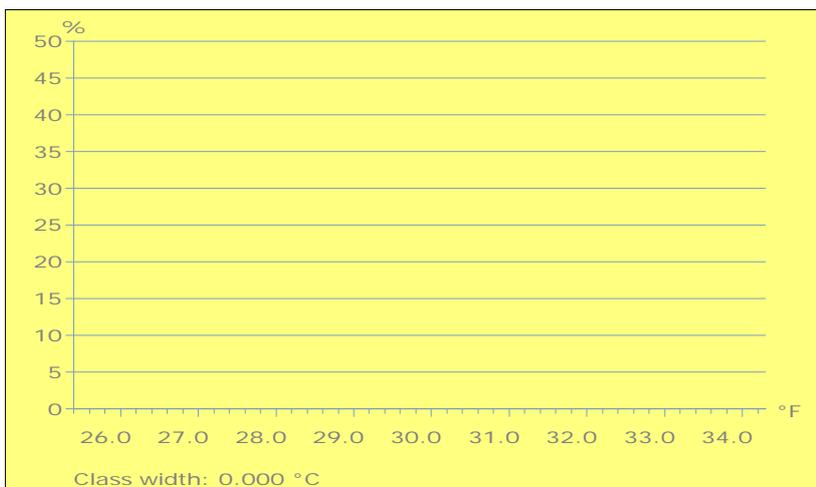

Bucuresti ; 07 August 2008.

Organul lezat –Ficatul și Cholecistul. în cadrul B. neoplazice –Carcinom hepatic post virus hepatitic C-B

Pacient aflat în tratament timp de 1 an exclusive cu Interferon și slabă susținere metabolică a ficatului.

Afost solicitat mai întâi Testul SCIO care a estgimat la valori mari toate elementele de diagnostic real . Pentru nevoia imperioasă de confirmare a statusului real al pacientului s-a recurs ,doar cu acceptul pacientului nu și cererea acestuia ,la efectuarea Testului de Termografie în IR -procedeu neinvaziv.

Acest nefericit pacient a fost primul caz ne solutionare termografică pentru un organ parenchimos aflat în profunzimea corpului. În Forumal Societatii Medicale de Termografie se afirma de o majoritate că leziunile organelor din profunzime nu pot fi identificate termografic .Era de fapt consecința gândirii lineare tributare unei înțelegeri depășite a Fizicii Q uantice Avansate.

The SCIO bioenergetic test with Deg. Risc estimate ther manifest id  
 self as neoplazic disease of left femur. Patient with antecedents of  
 Policitemia vera suggested by QXI two years .He is currently under  
 the treatment at the Coltea Hospital at Bucharest for sanguine  
 affection that is stable. But whot is serious , the hospital does  
 not knowt this state boill non manifested as a material-histologic or  
 tissues form ,bad manifest of the affected lezian.Obviously,time does  
 not run to of the benefit of ower paient,s common.

Thermogram: IR\_0136.JPG 1/31/2008

Dorobanțu C. bărbat 52 ani ,București  
Țesuturi lezate –Singe și Os.

Test QXI ÎN 2006 care indica Boală de singe –Policitemia vera fara a memora alte date la acel test. Pînă în 2008 pacientul aintrat în îngrijirea și sub tratamentul clinicilor de specialitate din două spitale de nivel universitar din București .

În f Febroarie 2008 revine și solicită la cabinetul nostrum Test SCIO .Acesta estimează riscul degenerativ crescut la factori de mediu poluat cu 4 metale grele – Poloniu Plutoniu Cesium și Stronțiu . Sugerează evoluția bolii canceroase cu localizare osoasa .Nu mai oferă date despre existența vreunei boli maligne de țesut sanguine.

Aceste estimări au făcut obligatoriu Testul Termografic. care oricum a clarificat împreună cu SCIO datele reale în problema pacientului.și oricum reale și diferite de rătăcirile acelor spitale universitare.

Este încă un argument în susținerea complementarității celor două teste.

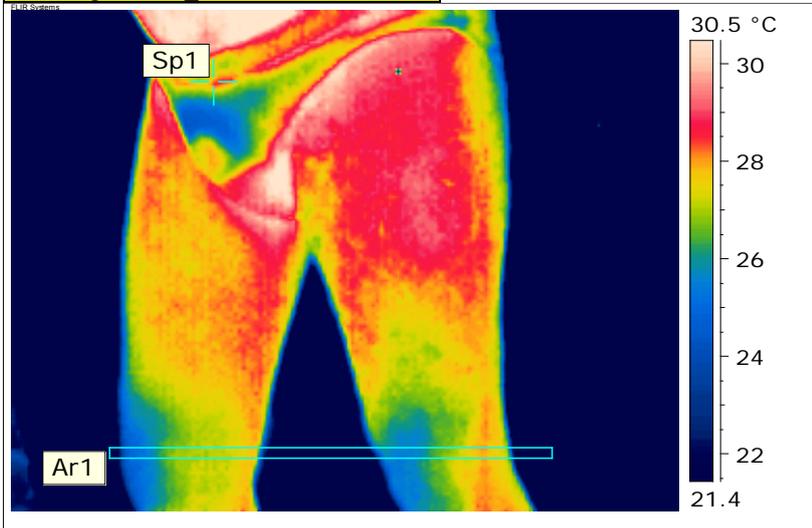

Affectd tissue—blood and bones

QXI test in 2006 that indicated blood dis.-Policitemia vera without mentioning same other information up to 2008 the patient was under the treatment at two university hospitals ,with specialized clinics, in Bucharest .

In Feb.2008 come back to our medical office and asked SCIO TEST . This estimated the Deg. Risk grown at factors of environment poluated with four heavy metale .—Poloniu ,Plutoniu ,Cesium and Strontiu.It suggested the cancerous disease with bone locotion . It does not offer information about any existing malign disease of the sanguine tissues. Thes estimateds did mandately the Thermographz TEST That clarified together with SCIO test the real data of the patient ,s problem,differeat from the worry at these hospitals. It is another argument to support the complementary of the two testes

GRUPUL MEDICAL ALFA

Pacientul No 4

Thermogram: IR\_0251.JPG 3/4/2008

SCIO –estimează la valori mari afectarea țesutului reticulo- endotelial ganglio –limfatic- Boala Hodgkin .Dezordini ale hormonilor sexuali .

Termo-IR. –evidențiază zone ganglio-limfatice de suprafață în regiunea cervicală.  
Ginecomastie

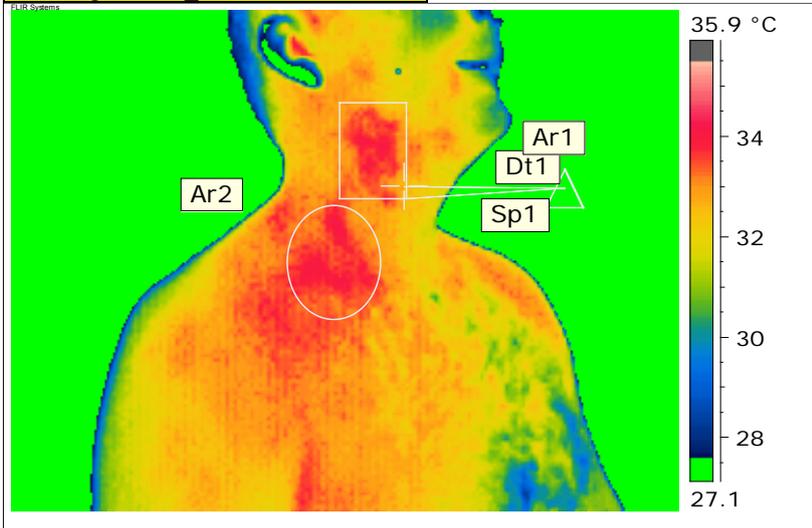

Mama pacientului a afirmat la cea de adoua vizită , că pacientul a făcut analize medicale la un centru medical pentru disfuncționalități de dinamică sexuală .Deoarece concluziile analizelor medicale ,pe care nu mi le-a prezentat,arătau niște neclarități au determinat cerea pentru SCIO.

The SCIO test estimated affected of the reticulo-endotelial tissue and ganglio- lymphatic – tissue as the Hodgkin disease and same sexually disorder.

IR.-Thermo in image distinguish at cervical area hyperthermia on ganglion group with semnificatin about limphatic swell .It is more obvius at the right,and also ginecomastia. The mather of the patient related that her,s the boy made same analyses for disturbens the sexually function at other medical center in the last week. The some unclarly problems at result of the analyses, they have been to comit asked SCIO test.

Fetiță ,15 ani ,cu leziune de os -Osteosarcom localizat în treimea superioară a Femurului drept ,operat în urma cu 2 ani  
 Factorii de risc degenerative au fost estimați la Testul SCIOcerut de aparținători ,-contacte de mediu poluat cu metale grele în antecedente și anume Cesium și Strontiu.Tot SCIO a sugerat antecedentele inclusiv referiri traumatism osos .  
 Pacienta a suferit 2 intervenții chirurgicale la un interval foarte scurt. La prima operație nu au cunoscut diagnosticul și ca urmare au reintervenit pentru excizia leziunii canceroase.Nu pot face comentarii pertinente deoarece nu am deținut detaliile necesare ,la momentul oportun .Familia a oferit informații ZERO într,un stil neaoși românesc.Superioritatea și valoarea SCIO ne salvează mereu din asemenea situații de ignoranță față de interesul major al pacientului-sănătatea  
 Din nefericire pentru pacienții limitați la un nivel calibrat al Conștiinței foarte scăzut ,rămân încă sub influența nefastă a medicilor și respective a convingerilor medicinei alopate la un nivel neadekvat soluțiilor reale  
 Pe imagine se observă cu ușurință atât gradientul termic dar distrofia secundară utilizării limitate a membrului afectat. Asimetria este evidentă.

#### **In The English Text for commentary.**

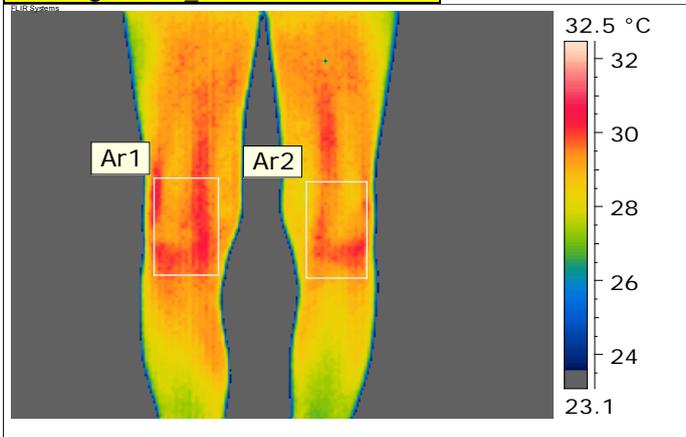

Bone lesion -osteosarcom located inside the upper apex third of the right femur operated two years ago .The SCIO test estimated the Deg, Risk Factors as—contact with heavy metals from polluted environment- Cesium and Strontium ,in antecedents. The SCIO also suspected antecedents including bone trauma by two operated surgery wounds.,within a short interval . At the first surgery the diagnosis was not known, and consequently, the doctors reintervened to excise the cancerous lesion . I cannot comment pertinently because I did not determine the necessary details at the SCIO value and superiority have us always from such situation of ignorance regarding the major interest of the patient, his health .Unfortunately to the patient's under the influence of the ill-fated dominated by the allopathic medicine thought, they remain at a level inadequate to the real solutions,  
 On the image, the thermal gradient -Delta T is visible together with dystrophy secondary to limited use of the affected limbs . The asymmetry is evidently . It is visible on the two lines L. 1 and L. 2 .

Imaginea termică a lojei hepatice arată discreta hipertemie urmare unui process congestive vascular pe fondul de cito-toxicitate post terapeutica

Diagnostic- Melanom degenerate ,operat Tratament antineoplazic – 7luni după operație.

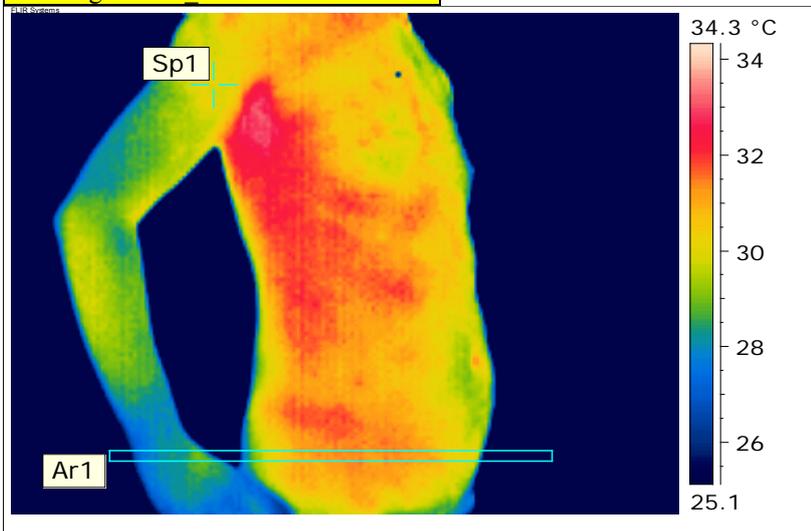

The thermic image of the hepatic area shows discret hyperthermy as a consequence of congestion vascular process on a background of post therapeutic , cytotoxicity ,from Cisplatinum antineoplazic. included in the treatment. Several months after treatment.-9 months successive series

The SCIO test mentions the agresivity of numrrous physical factors of environment and confirms the body,s need to deferd even with the antineoplazic administered up to now at the hospital More over, recomands as remedy for the extention of affecting process Shark cartilage. It recomands some other homeopathic specific treatment to the SCIOtest

ALPHA MEDICAL GROUP

Thermogram: IR\_1079.JPG 10.04.2007

Patient No. 8

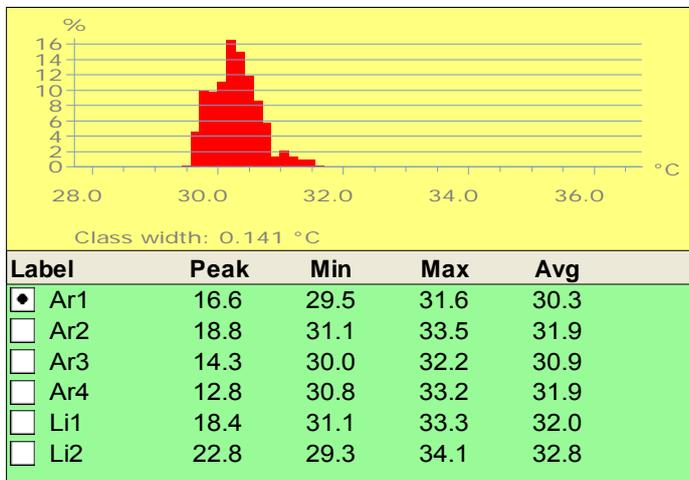

R.D.R. female, 68, Bucharest

SCIO –Spinal energetic flux with multiple disorders of the vertebral corpuses, more evident in the lumbar region. Tissue dystrophy of the left lower limb.

Thermo-IR- emphasizes thermic asymmetry with higher thermic gradient in the lower part of thigh and shank and diminished dimensions. A difference between Li 2 and Li 1 can be noticed at the level of the thighs.

Patient has been manifesting recurrent pains for over 2 years and, obviously, dysfunctionalities in the left side.

# Pacientul nr. 1

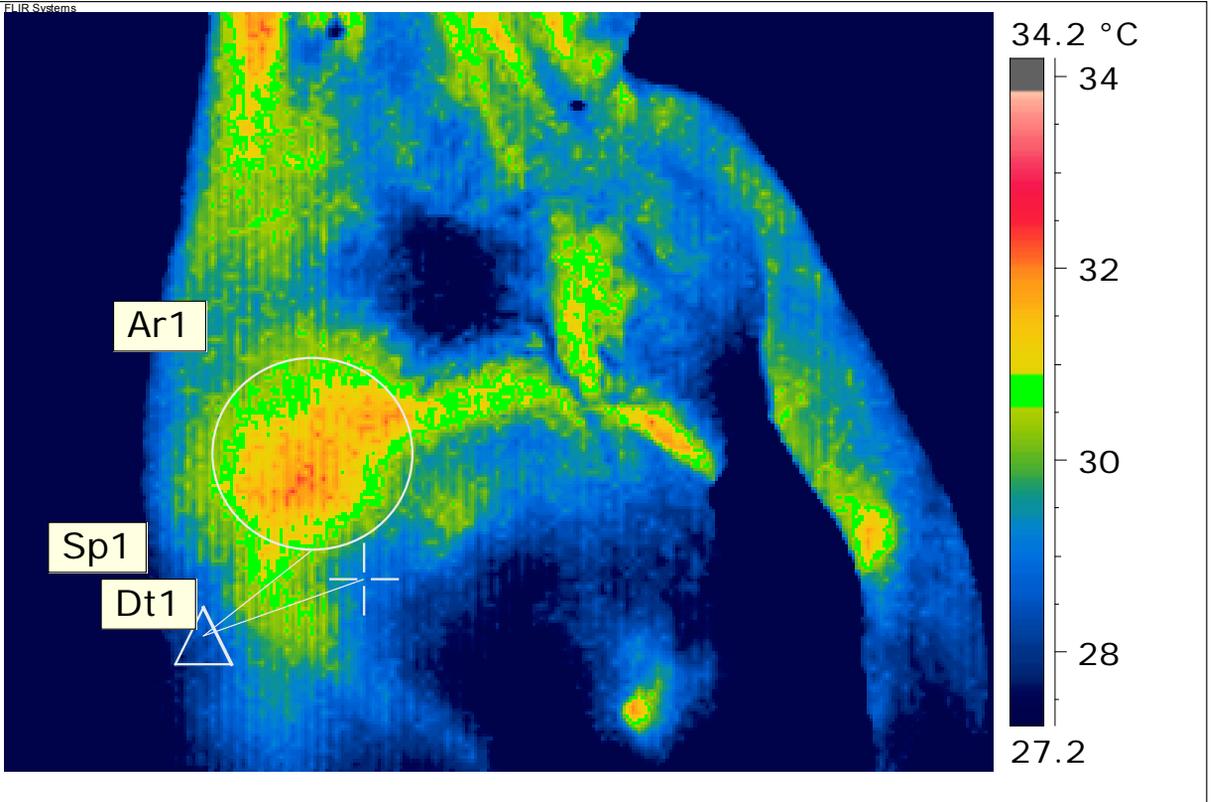

Injured organ – the spleen and the splenic angle within Neoplastic disease – liver carcinoma subsequent to hepatitis C-B infection, patient undergoing treatment with Interferon for approximately one year. The SCIO test preceded the IR Thermography and estimated a high degree of degenerative risk, hepatic carcinoma, Bantý syndrome, lymphatic tissue ailment, including a history of viral hepatitis with parenteral contact. The estimations were shown for increased values, that cast no doubt upon the diagnosis and the prognosis. Ironically, the patient was treated only with Interferon and the liver received a low support.

Injured organ – liver and gallbladder within Neoplastic disease – liver carcinoma subsequent to hepatitis C-B infection. Patient undergoing treatment for one year solely with Interferon and a low metabolic support for the liver.

The SCIO test was first requested and estimated high values for all the elements of real diagnosis. For the imperative need to confirm the real status of the patient, the IR Termography Test was performed, a non-invasive procedure, only with the consent of the patient but not at his request.

This unfortunate patient was the first case of a termographic solution for a parenchymal organ situated deep in the body.

In the Forum of The Medical Society of Termography, the majority alleges that the injuries of the organs deep within the body cannot be termographically identified. This was in fact the consequence of the linear thinking owing to an outdated understanding of Advanced Quantum Physics.

Injured organ – the base of the right lung, as a complication within neoplastic disease – hepatic carcinoma, post HCV-HCB virus infection.

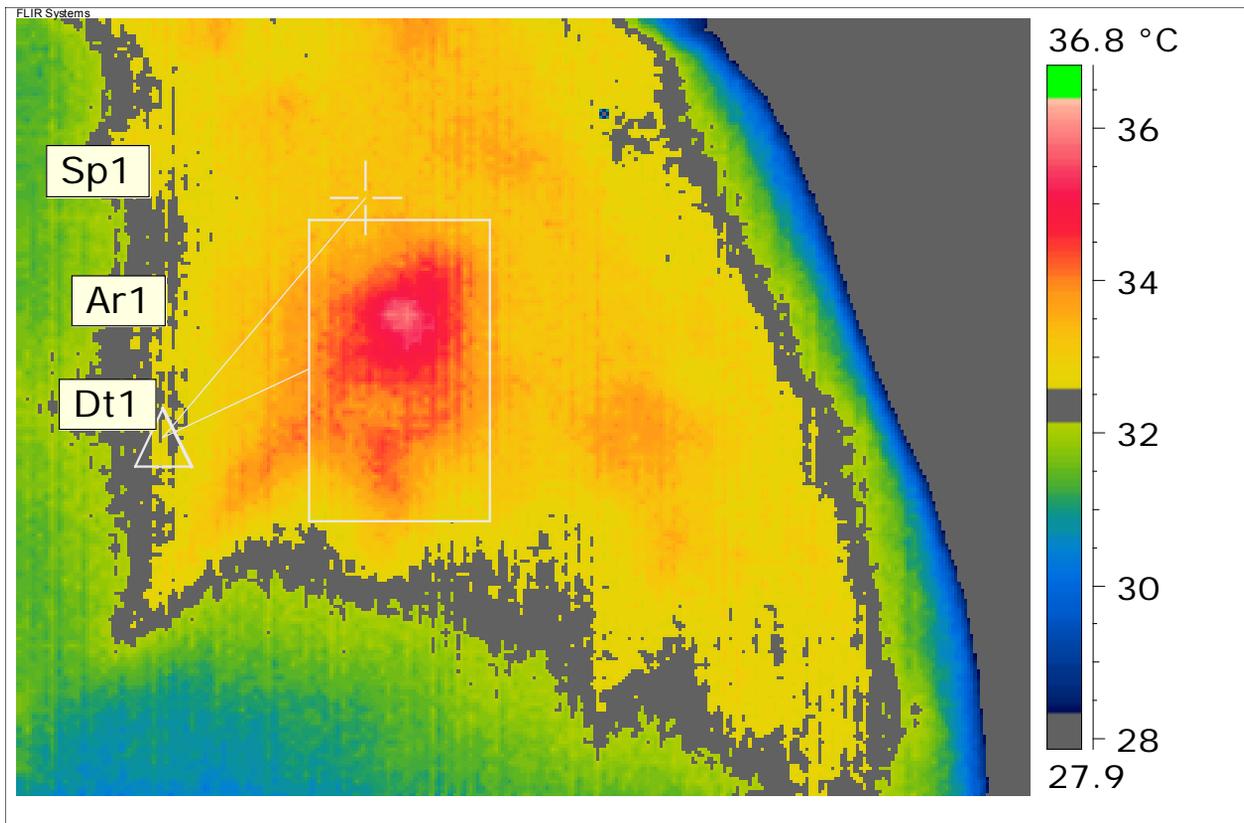

The status of the patient was shown by the SCIO test as it is the best investigation performed in Vibrational Medicine.

The confirmation of the SCIO estimates was made by Termography.

The image highlights the aspect of the thermal changes occurred in the affected tissue by the neoplastic process extending in the hepatic lodge and respectively in some pulmonary areas, but also changes belonging to a rheumatic process of the vertebral column; more conspicuous in the lumbar region.

# Pacienta nr. 2

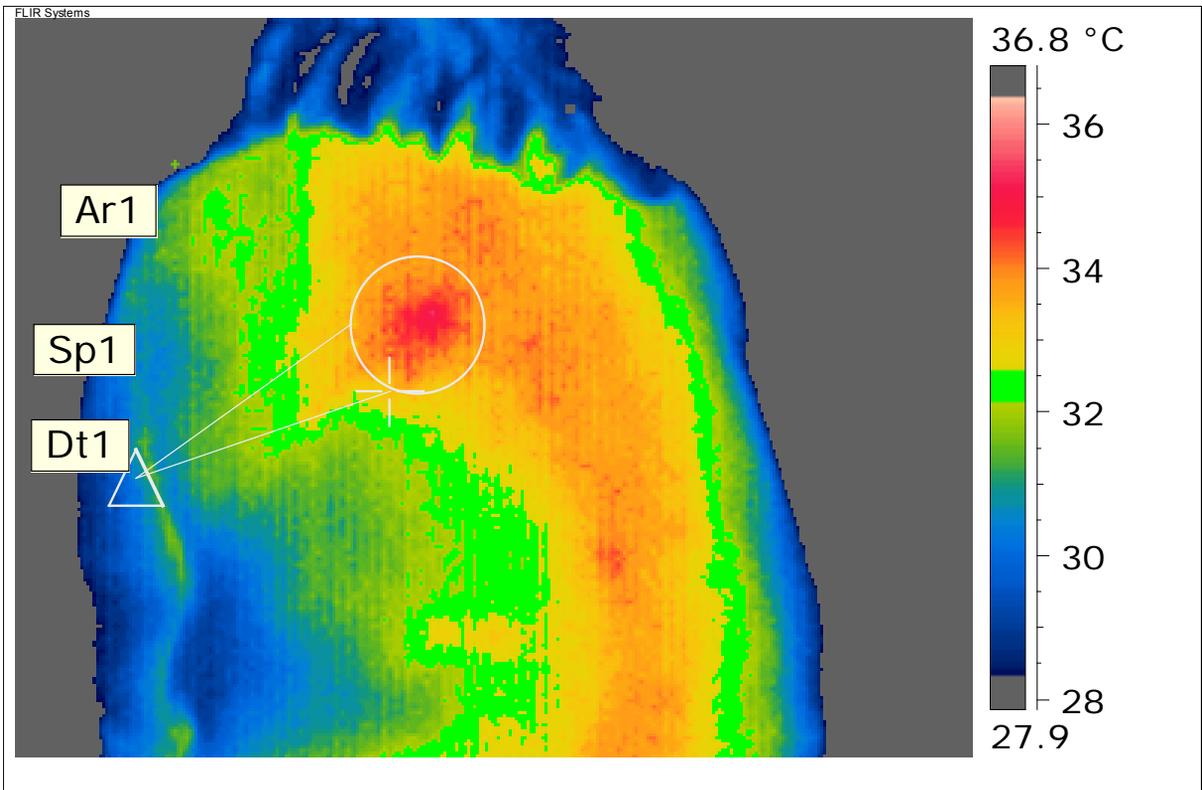

Neoplastic lesion at inception localized in the superior lobe of the left lung, estimated by SCIO as a major risk factor in a patient inadequately and aggressively exposed to a continuous immunosuppressant therapy with a chemical synthetic product, for over two years.

This situation occurred due to the thoughtfulness and the solicitude of some exclusively allopathic doctors from an University hospital.

The image shows with extreme clarity the stage of the proliferative lesion, still accompanied by a remaining activity, identified by the adjacent vascular inflammatory process.

This is without any doubt an excellent argument for supporting the point of view in favor of the complementarity of the two energetic SCIO investigations – IR Termography.

| Object Parameter                    | Value   |

| Iso3                                | 32.6 °C |
| Dt1: [ana.Ar1.max] - [ana.Sp1.temp] | 2.7 °C  |

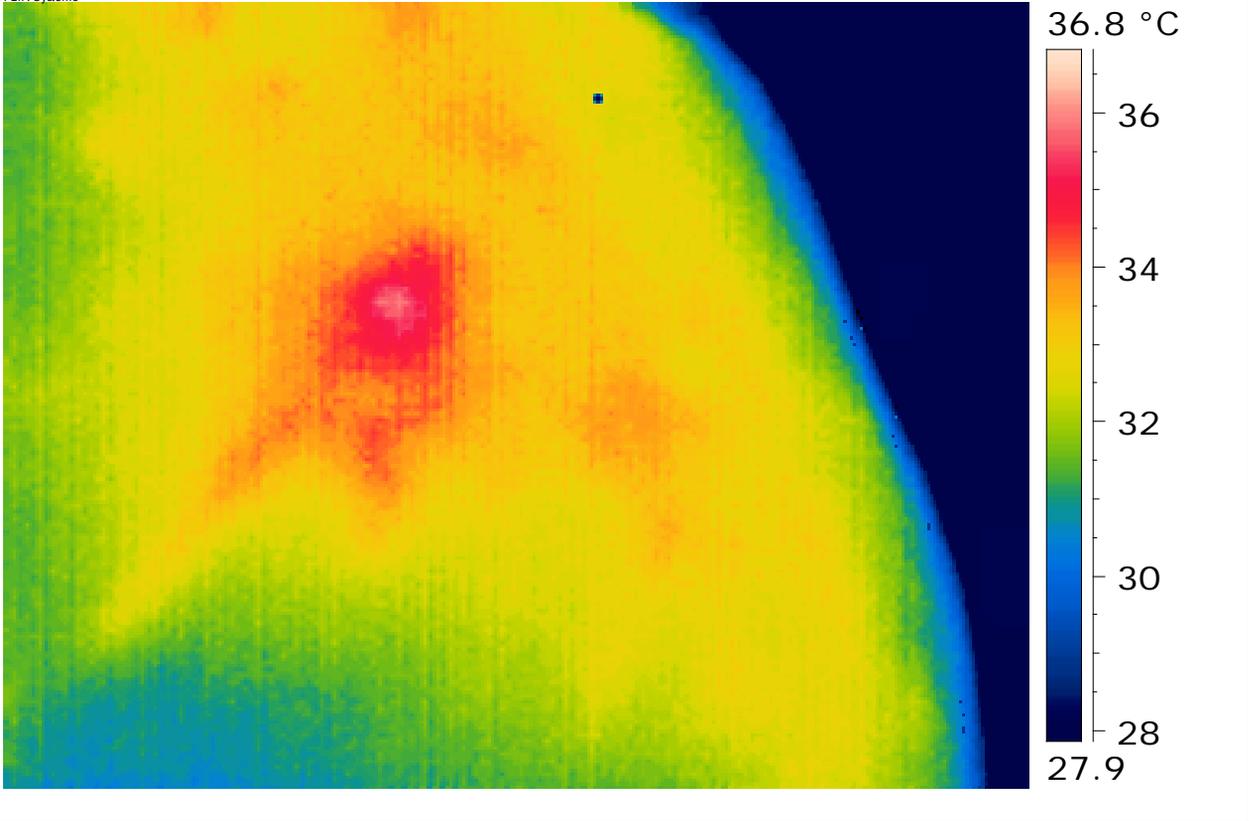

Injured organ and tissue – 1. Left lung, superior lobe with neoplastic process, 2. Joint conjunctive tissue with multiple sites attributable to an autoimmune disease.

Patient under immunosuppressant treatment for over two years, has requested a general test of the health status with the SCIO Procedure. This procedure, as a first investigation at our consulting room, has estimated a high Degenerative Risk, has signaled the existence of an autoimmune disease – lupus erythematosus as well as the toxic and destructive signs of an aggressive pharmacological treatment.

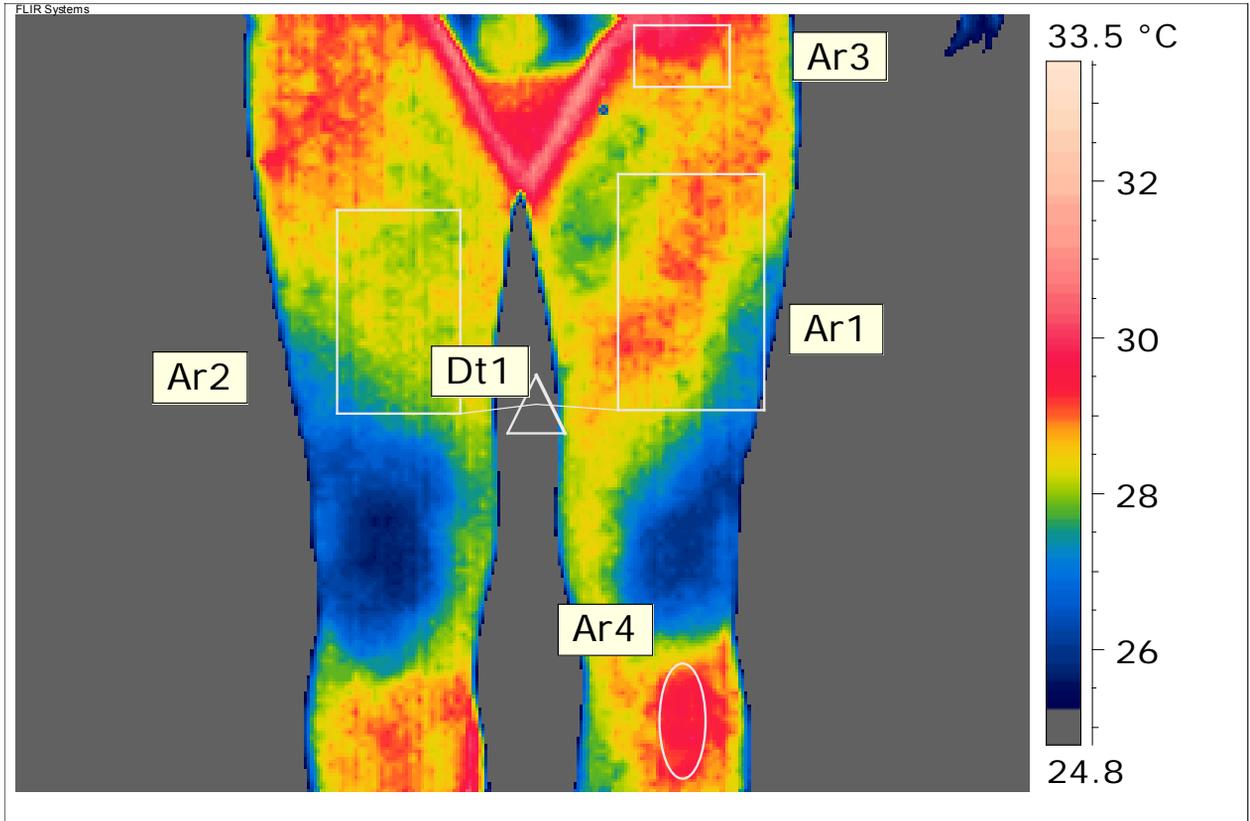

In order to clarify the situation of the patient that had not requested a Tomography exam, we pleaded for the thermal imaging, which suggests by the thermal gradient – Delta, still at a low level – that the organism that was subject to chemical aggression for a prolonged period of time – synthetic pharmacological substances – still has a remaining reactive capacity. Correlating the information gathered by SCIO – IR, we can conclude that only the alteration of the point of view of allopathic doctors in favor of the principles of vibrational medicine represented by SCIO and Med. Nelson can save.

SCIO bioenergetics test with the assessment of the degenerative risk that will develop as a neoplastic disease of the left femoral bone, Patient with history of Polycythaemia vera suggested by QXI two years ago. At the present time he is under the nursing and the treatment of the oncological clinic of the University Hospital Coltea from Bucharest, only for the haematological disease that is now stable. But for the patient, the severe situation is that the hospital is still not aware of the real condition still not manifested in a material form on the injured tissue. Of course, time will pass in favor of our “common patient”.

Injured tissues – blood and bone.

QXI test in 2006 indicating a haematological disease – Polycythaemia vera without recording other data at that test. Up until 2008, the patient has entered nursing in specialized clinics of two university grade hospitals in Bucharest. In February 2008 he comes back and asks for a SCIO test at our consulting room. This estimates the high degenerative risk related to an environment polluted with four heavy metals – Polonium, Plutonium, Cesium and Strontium. It suggests the development of the neoplastic disease in bone. It does not offer data regarding the existence of a malignant haematological disease. These estimates determined the Termographic Test to be mandatorily performed, that clarified anyway, together with SCIO, real issues about the condition of the patient and anyhow real and different that the mix-ups of those university hospitals.

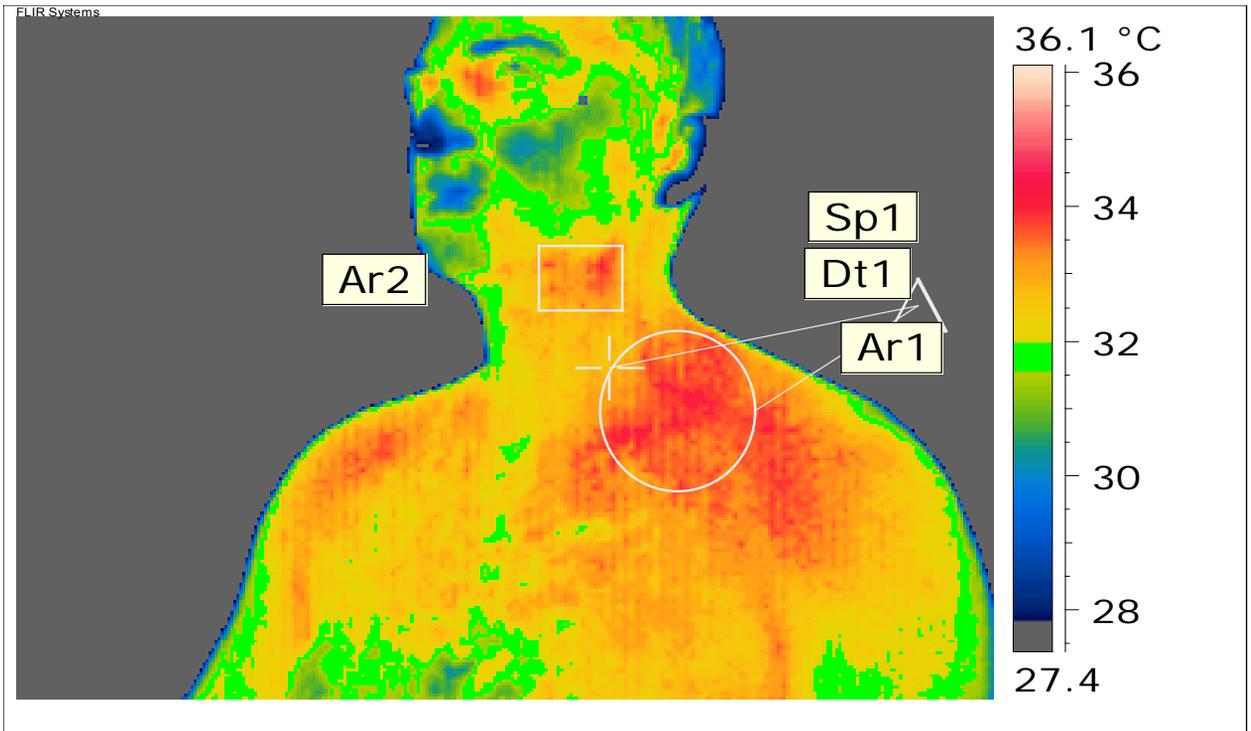

This is another argument in favor of the complementarity of the two tests.

# Pacienta nr. 5

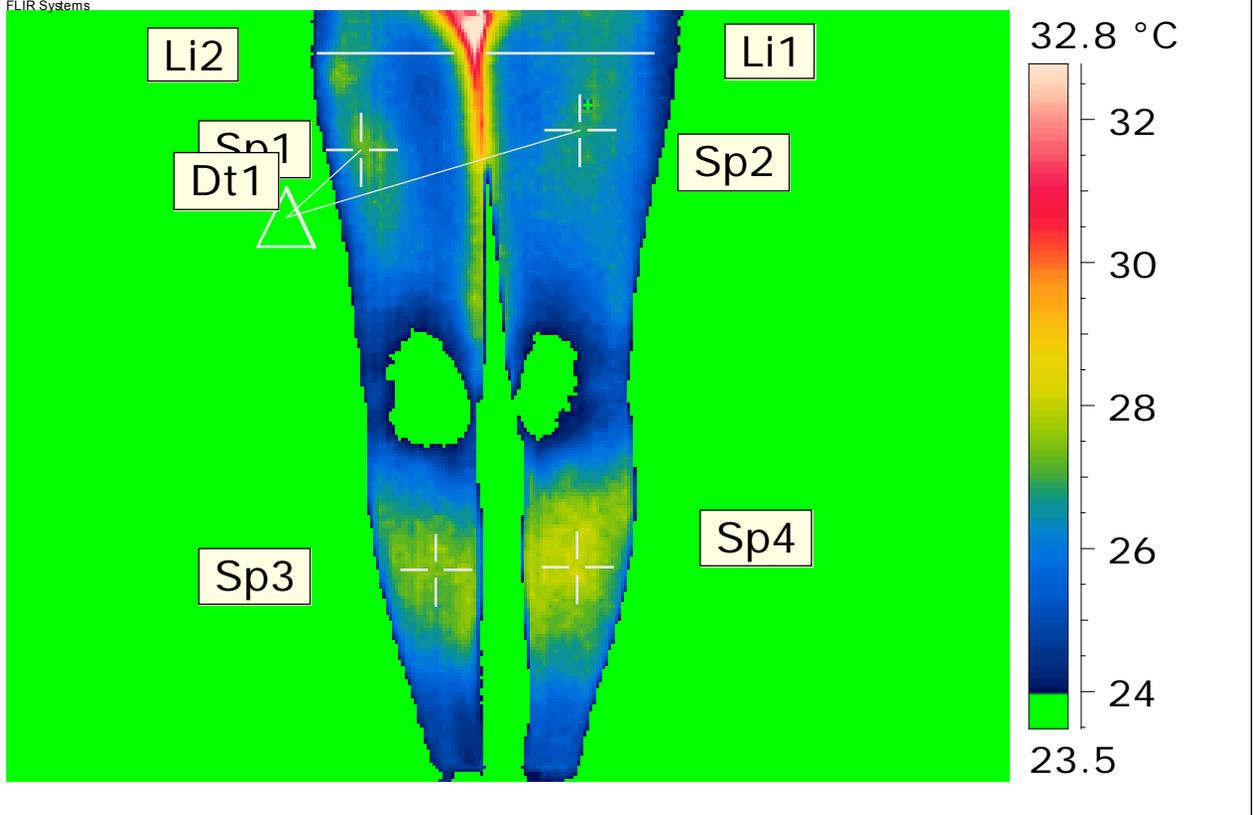

Injured tissue – bone, right upper third of the femur. Osteosarcoma operated two years before, meaning 2005, when she was 13 years old.

The test requested for the patient by the parents was SCIO, that correctly estimated both the Degenerative Risk, but mainly the medical history and the current status while the parents of the girl had offered ZERO information.

SCIO was confirmed by one hand by the parents and by the other hand by the thermographic images. The bone tissue that was injured by the neoplastic process appears with a thermal print, situation that does not occur in the healthy tissue.

The proof resides in the corresponding contra lateral bone.

**Girl, 15 years, with bone lesion** - Osteosarcoma localized in the upper third of the right femur, that had undergone surgery two years before

The degenerative risk factors were estimated through the SCIO test requested by the parents – contacts within an environment polluted with heavy metals in the past, namely Cesium and Strontium. SCIO also suggested the medical history, including clues about the bone trauma. The patient has undergone two surgeries in a very short time span. At the first surgery, the diagnosis was not known and thus, the second intervention was made in order to abscise the malignant lesion. I cannot make relevant comments because I hadn't known the necessary details at the right time. The family has offered ZERO information in a pure Romanian style. The superiority and the value of SCIO always saves us from such situations of ignorance toward the major scope of the patient – the health. Unfortunately for the patients limited to a very low level of knowledge, they are still under the fatal influence of the doctors and the allopathic sureness at an improper level for the real solutions. In the image, one can easily observe both the thermal gradient and the dystrophy due to the limited use of the affected limb. The asymmetry is obvious.

Injured tissue – the skin. Degenerated melanoma, operated 7 months before – 09.2008  
Treatment in successive series of 2 chemotherapy drugs, one of which is Cisplatinium.  
The SCIO test shows the aggressiveness of the numerous physical factors in the environment and confirms the need for protection of the organism, even against the anti-cancer drug administered up to the present time in the hospital. Additionally it recommends me a remedy against the extension of the lesion process.  
The name of this remedy is Shark Cartilage. It also recommends other homoeopathic treatments that are specific to SCIO. The image expresses a thermal asymmetry of the popliteal regions with a gradient of 0.2 Celsius degrees.

In the image, Area 1 is the situ where the excised tissue was located. One can observe the hyperthermia of the left calf. The image of the contra lateral limb is missing for a comparison.
